**TOWN OF NEW CASTLE, N.H.
ANNUAL REPORT
FOR THE YEAR 1995**

THE COVER

This photograph of two ships in the lower harbor was taken circa 1914. On the left is the steamer "Juliette", 132 gross ton register. Owned by the Eastern Steamship Company, it was 96.5 feet long, and was built at Bath, Maine in 1892. It ran between Portsmouth and the Isles of Shoals from 1912 through 1915, making three trips daily.

The other ship, a five master, was the "Singleton Palmer", 2,850 gross ton register, 294.9 feet long, built at Waldoboro, Maine in 1904. She was one of the ten large schooners owned by the William F. Palmer Company of Taunton, Massachusetts, and usually carried coal from Hampton Roads ports to New England. When in Portsmouth the coal was unloaded at the J. Albert Walker Company, located in the present docking area of the "Thomas Lighton", or at the Concord Railroad Wharf just a short distance further west on Market Street.

Trustee of Trust Funds, Bookkeeper	250
Budget Committee	Unpaid

There are many others who participate in Town Government on an unpaid basis and their service is most valuable to the success of our Town. These individuals deserve the whole hearted thanks of the community for their civic involvement.

SELECTMEN'S LETTER

Fiscal 95/96 - A year of transition and change as our island village evolves to being a true island community.

The most evident change has been the modernization and addition to the Maude H. Trefethen School; a special vote of thanks to Sherrie Weston for it was through her efforts that the ultimate building committee was formed, and it was this group whose members were Dan Hughes, Russ Cox, Norm Kent and Don Pridham that really saved us all a bundle of money.

As we move through the town, changes to be remembered are: the sale of the Ricker House after generations of family ownership, the negotiated retirement of Rick Henderson as Police Chief, the potential transfer and sale of Coast Guard property, Building Inspector Chuck Petlick chasing about town busy as the proverbial one armed paper hanger, the ever increasing use of the Library /Rec facility, and Planning Board approval of the Pendleton Lane development after two years of negotiation.

At the SW end of the island we must pause and note the changes at the Wentworth - the most successful integrating of Ducks Head into the fabric of our community, the rapid development of the south side waterfront, the change in ownership of both the marina and the developer, and lastly, the continuing search by the Friends for the viable development of the old hotel.

One possible change that we have not as yet embraced is the so called Proposition 2, which would change the voting aspects of our town and school meetings; we feel that we should allow our neighbors to experiment!

For better or for worse, there is no change in our philosophy that you, the Community, want us to continue to exercise good judgement and fiscal restraint.

We would be remiss if we did not thank, in your behalf, the effort of all our employees - particularly those who have plowed us out during this snowy winter!

Board of Selectmen

Clinton H. Springer, Chairman

Gene F. Doherty

Richard T. Cowern

**TOWN OF NEW CASTLE, NEW HAMPSHIRE
ANNUAL TOWN MEETING HELD
AT GREAT ISLAND COMMON
MAY 9, 1995**

Articles 1 through 8 were voted by ballot with the results indicated. The polls were opened by Moderator Wayne Semprini at 10AM and closed at 7PM.

ARTICLE 1: Balloting for town officers produced the following results:

Town Clerk (one year):	Henry F. Bedford	286 votes
Selectman (three years):	Richard T. Cowern	258 votes
Treasurer (one year):	Wm. B. Marshall III	269 votes
Tax Collector (one year):	Pamela P. Cullen	278 votes
Moderator (one year):	Wayne Semprini	283 votes
Trustee of the		
Trust Funds (three years):	Henry F. Bedford	274 votes
Library Trustee (three years):	John Walsh	268 votes
Cemetery Trustee (three years):	David Merrill	264 votes
Budget Committee (three years):	Robert DeVore	105 votes
	Peter Gamester	76 votes
	Otto Grote	106 votes
Budget Committee (one year):	Robert W. Beecher	163 votes
	John G. Cowan	111 votes
Fire Ward (three years):	Reginald E. Whitehouse	38 write-in votes

ARTICLE 2: Zoning Amendment #1 as specified in the warrant was ADOPTED by a ballot vote of 223 YES to 47 NO.

ARTICLE 3: Zoning Amendment #2 as specified in the warrant was ADOPTED by a ballot vote of 163 YES to 122 NO.

ARTICLE 4: Zoning Amendment #3 as specified in the warrant was ADOPTED by a ballot vote of 184 YES to 78 NO.

ARTICLE 5: Zoning Amendment #4 as specified in the warrant was ADOPTED by a ballot vote of 178 YES to 92 NO.

ARTICLE 6: Zoning Amendment #5 as specified in the warrant was ADOPTED by a ballot vote of 214 YES to 57 NO.

ARTICLE 7: Zoning Amendment #6 as specified in the warrant was ADOPTED by a ballot vote of 196 YES to 74 NO.

ARTICLE 8: Zoning Amendment #7 as specified in the warrant was ADOPTED by a ballot vote of 183 YES to 79 NO.

The business meeting was convened by Moderator Semprini at 2PM in the Recreation Building at Great Island Common. He asked that the meeting remember in a silent moment those members of the community who had died in the year previous. He thanked town officers and volunteers for their service and welcomed new residents to the annual meeting. He asked approval of rules for the meeting, which included a prohibition on smoking, a requirement that discussion be limited to registered voters unless a specific exception were made, and a request that discussion be spirited but germane. With the exception of the budget, he hoped amendments could be limited to no more than three per article. He announced that he had received and would honor a request that voting on Articles 11 and 14 be by a secret YES/NO ballot.

ARTICLE 9: Authorizing the Selectmen to accept gifts, legacies, and devises on behalf of the town, was ADOPTED by voice vote.

ARTICLE 10: Authorizing the selectmen, under prescribed conditions, to accept gifts to the town of personal property, as ADOPTED by voice vote. Adoption of the article does not obligate the expenditure of public funds in connection with such gifts.

ARTICLE 11: Establishing an expendable general trust fund to provide for improved self-contained breathing apparatus for the Fire Department and raising and appropriating \$10,000 for this purpose was ADOPTED after discussion by a vote of 88 YES and 45 NO. Fire Chief Richard White reported that most of the present equipment was outdated and inhibited rapid communication among fire fighters. In order to be sure that any purchased equipment included compatible technology, all of the replacements ought to be purchased at the same time. He hoped that sufficient funds would accumulate in four years to permit the replacement of the entire inventory at an estimated cost of \$1800/unit. In addition, the proposed equipment would reduce the weight an individual fire fighter carried by more than 20 pounds during the average of 12 occasions per year that the apparatus was used in an active fire.

ARTICLE 12: Authorizing the Selectmen to negotiate with state and federal officials to secure permission to establish a cemetery on Great Island Common was ADOPTED by a voice vote after discussion. In the course of the discussion, Cemetery Trustee Eugene Morrill outlined the need for additional space because the Riverside Cemetery was essentially full. Cemetery Trustee David Merrill displayed a diagram of the proposed new area and explained in detail the plan that involved the use of 2.06 acres of the 28+ acres at the Common. In response to questions, the trustees said that they were reluctant to take space that was dedicated to recreation by the terms of the grant from the federal government, but that they were unable to find any suitable alternative area on the island. They believed it premature to seek cost estimates and engineering studies until public support for using land at the Common for a cemetery was registered and approval of off-

island governmental bodies had been secured. They assured the meeting that the project would be carried out in a frugal manner and in phases in order to minimize the effect on the town's budget. Present trust funds may not be used for capital expenditure, but the income is used for maintenance.

ARTICLE 13: Authorizing the sale of deacon benches presently stored in the attic of the town Hall was DEFEATED after discussion by a show of hands. It was suggested that the benches might find a new home in the room above the Library.

ARTICLE 14: Authorizing the Selectmen to appoint a full-time police officer using funds provided under a program of the federal Department of Justice was DEFEATED by a ballot vote of 53 YES to 94 NO after lengthy discussion. The proposal would have resulted in a reduction of the number of special police officers employed by the town, in an immediate budgetary saving, and in the ability to undertake some additional responsibilities. On the other hand, there was the potential obligation to an individual to continue employment after the federal grant was exhausted, and some question about the need for an additional officer at present. Chief Henderson explained that additional programs undertaken by the new officer would not require new equipment or incur departmental expense.

ARTICLE 15: It was moved and seconded that \$1,059,283 be raised to defray the town's expenses in the coming year. After the vote on Article 14 was announced, Chairman Schulte of the Budget Committee replaced his motion with a substitute that reduced the total appropriation to \$1,039,304 because of a reduction of \$19,979 on line 4210. Schulte explained significant variations from previous expenditures, including some that derived from accounting changes. He pointed to the large increase in the budget for the Fire Department, which he attributed to the transfer of the dispatch capability from Rye to Portsmouth and to the doubling of the appropriation for the capital reserve fund for eventual purchase of a fire truck. He said that town employees would not receive a cash raise, but that their benefit package would be improved. The substitute motion in the amount of \$1,039,304 was ADOPTED by voice vote.

No action was taken on ARTICLE 16.

The moderator asked if there was any business to be transacted under ARTICLE 17. Peter Gamester praised the service of Chairman Schulte of the Budget Committee, who is retiring and who was warmly applauded. Chairman Springer of the Selectmen expressed the town's thanks to Schulte and to Barbara Becker, also leaving the Budget Committee after long service, to Marcia Whitehouse, retiring as Tax Collector, and to Gary Varrell, who had served as Building Inspector. He noted that significant service of Frederick White and Eugene Morrill in researching land titles and road dimensions, and he commended the leadership of Sheryl Weston in developing plans for an addition to the Maude Trefethen School. Moderator Semprini announced that a contract for renovating the school had been awarded to

the Pro Con Construction Company in the amount of \$367,166, a sum that does not include furniture and equipment, but does buy a somewhat larger building than first proposed, masonry construction throughout, and improvements in ventilation not initially contemplated.

It was moved and seconded that all cats be restricted as dogs are and not permitted to roam at will day and night. Moderator Semprini asked for discussion of the motion, but ruled that passage would be advisory only, since such an ordinance would require a formal public hearing before adoption. The proposal did not come to a vote.

A motion to adjourn was ADOPTED by voice vote at 4:45pm.

A true and correct record of the Town Meeting and Election of Officers of the Town of New Castle, May 9, 1995, ATTEST:

Henry F. Bedford
Town Clerk

U.S. Treasuries	223,195.31

For a breakdown of revenues and expenditures please review General Fund and Public Works Reports.

Respectfully submitted,
 William B. Marshall, III
 Treasurer

INDEPENDENT AUDITOR'S REPORT

Board of Selectmen
Town of New Castle
New Castle, New Hampshire

I have audited the accompanying general purpose financial statements of the Town of New Castle, New Hampshire as of and for the year ended June 30, 1995 as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosure in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In accordance with the practices followed by other municipal entities in the State of New Hampshire, the financial statements referred to above do not include financial statements of the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles.

In my opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of New Castle, New Hampshire, at June 30, 1995, and the results of its operations and the changes in financial position of its proprietary and non-expendable trust funds for the year then ended, in conformity with generally accepted accounting principals.

My audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The supplementary schedules on pages 14 and 15 are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of New Castle, New Hampshire. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

R.R. Bergeron
August 29, 1995

The Complete Text of The Report is available at the Town Hall.

TOWN OF NEW CASTLE, NEW HAMPSHIRE

**THE STATE OF NEW HAMPSHIRE
TOWN OF NEW CASTLE
TOWN WARRANT FOR 1996**

ROCKINGHAM, SS

NEW CASTLE

To the inhabitants of the Town of New Castle, in the County of Rockingham and the State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at the New Castle Recreation Center, Great Island Common in said New Castle, on Tuesday, the fourteenth of May, 1996 at ten o'clock in the forenoon, to act upon Article I through XV.

The second session of the Annual Town Meeting will commence at 2 o'clock in the afternoon to act upon the following subjects: Article XVI through XXIII.

ARTICLE I: To choose all necessary Town Officers for the following year. The polls for the election of Town Officers and Ballot Articles will open at ten o'clock in the forenoon and shall not be closed before seven o'clock in the afternoon.

ARTICLE II: Zoning Amendment No. 1 - Section 2.3 Definitions

Are you in favor of adopting Zoning Amendment No. 1 as proposed by the Planning Board, which would amend or add definitions to Section 2.3 "Definitions" of the New Castle Zoning Ordinance as follows?:

(Amendments to existing definitions:)

Coverage: That percentage of the plot or land area covered by the principal and accessory building areas. This includes the area of in-the-ground pools as well as above-the-ground pools that are more than 18" high and are enclosed with a deck or platform.

Grade: With reference to a building or structure, means the average elevation of the ground adjoining the building or structure on the lowest side. When the ground slopes away from the exterior walls, the grade shall be established by the lowest points within the area between the building and the lot line or, when the lot line is more than six (6) feet from the building, between the building and point six feet from the building.

Height: As applied to a building, means the vertical distance measured from the building line at the lowest grade on any side, to the highest point of the roof, excluding chimneys and similar projections that are usually appurtenant to the building.

Structure: A combination of material to form a construction greater than 18" high, with or without foundation, that is a safe and stable; including among others, buildings, stadiums, reviewing stands, platforms, stagings, observation towers, radio towers, water tanks and towers, trestles, piers, wharves, sheds, shelters, and display signs but excluding retaining walls, fences, and other customary landscaping elements. The term structure shall be construed as if followed by the words "or part thereof".

(Add the following definition for "Living Area" to Section 2.3:)

Living Area: the gross floor area of the primary building on a lot, including 50% of the area of walkout basements, but excluding the floor area of garages, porches, patios, and decks.

(ON THE BALLOT)

ARTICLE III: Zoning Amendment No. 2 - Section 4.2, Table 1 - Dimensional Regulations: Front Setback

Are you in favor of adopting Zoning Amendment No. 2, as proposed by the Planning Board, which would amend Section 4.2, Table 1 "Density and Dimensional Regulations" of the Zoning Ordinance to establish a front building setback requirement in all zoning districts of 20 feet?

(ON THE BALLOT)

ARTICLE IV: Zoning Amendment No. 3 - Section 4.2.2 - Dimensional Regulations: Maximum Living Area

Are you in favor of adopting Zoning Amendment No. 3, as proposed by the Planning Board, which would amend Section 4.2.2 a new provision to establish maximum living area for the principal structure on a building lot?

4. Maximum Living Area: The maximum living area permitted in a dwelling unit shall be limited according to the following schedule:

For Building Lots up to and including 4000 square feet in area: 50% of total lot area

For Building Lots greater than 4000 square feet in area: 50% of the lot area for the first 4000 square feet and 25% of the lot area greater than 4000 square feet.

(ON THE BALLOT)

ARTICLE V: Zoning Amendment No. 4 - Section 4.2.2 New Provision RE: Minimum Roof Pitch

Are you in favor of adopting Zoning Amendment No. 4, as proposed by the Planning Board, which would add to Section 4.2.2. to establish minimum roof pitch for the principal structure on a building lot, to read as follows:

5. Roof Pitch: The minimum roof pitch on the primary building of a lot shall be 1-to-3. (one foot vertical distance for every three feet in horizontal distance).

(ON THE BALLOT)

ARTICLE VI: Zoning Amendment No. 5 - Section 5.3 - Acceptance of Streets

Are you in favor of adopting Zoning Amendment No. 5, as proposed by the Planning

Board, which would replace the current Section 5.3 with the following? (specific road constructions standards are replaced by reference to Subdivision Regulations)

5.3 Streets

5.3.1 Acceptance of Streets

Any new or existing streets, or extensions to existing streets, must meet the requirements of this Section and of the Road Construction Standards as specified in the New Castle Subdivision Regulations before they may be accepted by the Town. Streets may only be accepted as town streets by action of the Town Meeting or by action of the Board of Selectmen if duly authorized per RSA 674:40-a.

5.3.2 Right-of-Way

The width of the street right-of-way and the apportioning of the right-of-way amongst roadway, sidewalks, and grass strips shall be subject to the approval of the Planning Board. The right-of-way width shall not be less than 30 feet and may be greater if warranted by anticipated traffic volume and safety considerations.

5.3.3 Parking

All residential building lots must provide for the parking within the lot of a least two cars for each dwelling unit.

(ON THE BALLOT)

ARTICLE VII: Zoning Amendment No. 6 - Section 6.1.5.1 - Dimensional Standards for Cluster Development

Are you in favor of adopting Zoning Amendment No. 6, as proposed by the Planning Board, which would amend paragraphs A. through D. in Section 6.1.5.1 to read as follow:

- | | |
|---|----------|
| A. Maximum number of dwelling units per building | 4 units |
| B. Minimum distance between buildings for single and duplex buildings | 20 feet |
| C. Minimum distance between single or duplex buildings and a street | 20 feet |
| D. Minimum distances between multifamily dwelling structures and: | |
| 1. other multifamily structures | 30 feet |
| 2. lot lines (internal or external) | 15 feet |
| 3. Residential and Oceanside and Beach District boundaries | 500 feet |

(ON THE BALLOT)

ARTICLE VIII: Zoning Amendment No. 7 - Section 6.1.5.2 - Lot Size and Density

Standards for Cluster Development

Are you in favor of adopting Zoning Amendment No. 7, as proposed by the Planning Board, which would amend the Section 6.1.5.2.C Minimum Lot Size and Lot Coverage to add the words "except as set forth in paragraph D below" at the end of the second sentence. Incorporating the changes proposed in the Fall of 1995, this Section will now read as follows?

6.1.5.2.C Minimum Lot Size and Lot Coverage

Clustered residential units shall have a minimum building lot size of 7,500 square feet per dwelling unit. Maximum lot coverage shall be the same as that required for conventional residential development as per section 4.2.2.3. This standard shall apply whether or not the proposed development plats individual lots for the clustered units except as set forth in paragraph D below.

6.1.5.2.D Credit For Common Open Space

Add the following new Section:

In cluster developments in the Future Development District a credit shall be made available to reflect the percentage of open space when determining the maximum lot coverage and/or maximum living area. The credit shall be equal to the following formula which shall produce the percentage of open space allocated to each lot:

$$\frac{\text{Non-Wetland Open Space}}{\text{Developable Land}} = \text{Open Space Credit}$$

Where there is more than one cluster or development area in a single unified development, the Planning Board, at its discretion, may make adjustments in the allocation of common open space to accommodate features unique to the development, such as topography, boundaries, building types, and similar unique features provided:

- (a) The Planning Board finds that the adjusted allocation of open space will promote the public good and improve the quality of the development and is not designed simply to allow an increase in density.
- (b) Any adjustment made by the Planning Board which increases the percentage of open space available to one cluster for purposes of zoning calculations shall reduce the amount of open space available to remaining clusters.

(ON THE BALLOT)

ARTICLE IX: Zoning Amendment No. 8 - Section 6.1.6.1 - Provisions for Common Open Space

Are you in favor of adopting Zoning Amendment No. 8, as proposed by the Planning Board, which would amend paragraph C of Section 6.1.6.1 to read as follows?

C. Common open space areas must be used for amenity or recreational purposes, must be accessible, and must be suitably landscaped except that areas containing natural

features worthy of preservation may be kept unimproved. Common open space areas may contain accessory structures and improvement necessary and appropriate for educational, recreational, cultural or social uses. Facilities devoted to such uses may be operated on a membership basis whereby membership is open to residents or patrons of the planned development. The Planning Board shall approve the area and general layout of open space to ensure consistency with the requirements of this section and with term definition contained in Section 2.3.

(ON THE BALLOT)

ARTICLE X: Zoning Amendment No. 9 - Section 6.1.7 - Utilities and Roads; Section 6.5.2 - Miscellaneous Provisions

Are you in favor of adopting Zoning Amendment No. 9, as proposed by the Planning Board, which would update the document reference in paragraph #4 of Section 6.1.7 as follows?

4. The frontage requirements of this ordinance shall not apply except that at least two hundred (200) feet of frontage on a State or Town road shall be provided for each development for access. Even though on a Town road, all intersections shall meet the design and sight line standards set forth for wet pavements in "A Policy on Geometric Design of Highways and Streets - 1990 - AASHTO."

....and to update the document reference in paragraph #4 of Section 6.5.2 as follows?

4. All electrical installations provided and installed and used in connection with swimming pools shall be in conformance with Article 680 of the "National Electrical Code", 1993 Edition.

(ON THE BALLOT)

ARTICLE XI: Zoning Amendment No. 10 - Section 6.5.2 - Miscellaneous Provisions

Are you in favor of adopting Zoning Amendment No. 10, as proposed by the Planning Board, which would add a new paragraph (#8) to Section 6.5.2. as follows?

8. The area of in-the-ground pools, as well as above-the-ground pools that are more than 18" high and are enclosed with a deck or platform, shall be included in calculations for allowable lot coverage. See also definition of Coverage in Section 2.3.

(ON THE BALLOT)

ARTICLE XII: Zoning Amendment No. 11 - Section 6.5.3 - Signs

Are you in favor of adopting Zoning Amendment No. 11, as proposed by the Planning Board, which would move Section 6.5.3 - Signs to a new Section 6.7 and amend as follows?

6.7 SIGNS

No display sign or advertising shall be permitted except for a single stationary announcement sign that: (1) is not larger than four (4) square feet in area, (2) has no

more than two sides, (3) does not utilize direct or indirect lighting and (4) is compatible in design with the surrounding residential neighborhood.

(ON THE BALLOT)

ARTICLE XIII: Zoning Amendment No. 12 - Section 7.2.1 - Replacement

Are you in favor of adopting Zoning Amendment No. 12, as proposed by the Planning Board, to amend Section 7.2.1 to read as follows?

7.2.1 The replacement of any nonconforming building or structure that is intentionally demolished, all or in part, must either conform to the regulations of the district in which the building or structure is located, or, the non-conforming portion must not exceed in size, shape, or volume that of the building or structure that was demolished.

(ON THE BALLOT)

ARTICLE XIV: Zoning Amendment No. 13 - Section 4.1.2 - Residential District

Are you in favor of adopting Zoning Amendment No. 13, as proposed by the Planning Board, to add the to the following list of Prohibited Uses for the Residential District (and for other Districts by reference)?

5. Buildings, structures, and other devices that exist to restrict access to public or private rights of way, including but not limited to, Gate Houses and automatic or manually operated access control gates.

(ON THE BALLOT)

ARTICLE XV: Building Code Amendment No. 1 - Section 1(a) Boca Building Code Reference

Are you in favor of adopting Building Code Amendment No. 1, as proposed by the Planning Board, to amend Section 1(a) as follows?

(a) The 1993 BOCA National Building Code, and associated references, is hereby adopted by reference for the Town of New Castle (May 1996).

(ON THE BALLOT)

ARTICLE XVI: To see if the Town will vote to raise and appropriate the sum of \$215,000 (gross budget) for the purpose of buying a new fire engine, and to authorize the issuance of not more than \$55,000 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA ch. 33) and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon; furthermore to authorize withdrawal of \$160,000 from the existing Fire Department Capital Reserve Fund created for the purpose of acquiring equipment and to authorize the Selectmen to take any other action or pass any other votes relative thereto.

2/3 BALLOT VOTE REQUIRED

RECOMMENDED BY THE SELECTMEN

RECOMMENDED BY THE BUDGET COMMITTEE

ARTICLE XVII: To see if the Town will vote to raise and appropriate the sum of \$20,000 for the purpose of funding the position of police chief.

**RECOMMENDED BY THE SELECTMEN
RECOMMENDED BY THE BUDGET COMMITTEE**

ARTICLE XVIII: To see if the Town will vote to create an expendable general trust fund under the provisions of RSA 31:19-a to be known as the Town Vehicle Trust Fund for the purpose of purchasing, as required, vehicles for road, park, and police purposes and to raise and appropriate the sum of \$15,000 toward that purpose and to authorize the withdrawal from the Town Vehicle Trust Fund created by this Article, at the discretion of the Selectmen.

**RECOMMENDED BY THE SELECTMEN
RECOMMENDED BY THE BUDGET COMMITTEE**

ARTICLE XIX: To see if the Town will vote to authorize the Board of Selectmen to accept, on behalf of the town, gifts, legacies, and devises made to the town in trust for any public purpose, as permitted by RSA 31:19.

ARTICLE XX: To see if the Town will vote to authorize the Board of Selectmen to accept gifts of personal property which may be offered to the town for any public purpose, pursuant to RSA 31:95-e. The Selectmen must hold a public hearing before accepting such gifts, and the acceptance of same shall not bind the town to raise, appropriate, or expend any public funds for the operation, maintenance, repair, or replacement of any such personal property.

ARTICLE XXI: To raise and appropriate such sums of money as may be need to defray Town charges for the ensuing year.

ARTICLE XXII: To hear the reports of agents, officers, committees, boards, and others heretofore chosen and to pass any vote in relation thereto.

ARTICLE XXIII: To transact such business as may legally come before the meeting.

Given under our hand and seals this 19th day of April, in the year of our Lord, Nineteen Hundred and Ninety Six.

Board of Selectmen

Clinton H. Springer, Chairman
Gene F. Doherty
Richard T. Cowern

REPORT OF THE TOWN CLERK

Minutes of the Town Meeting held in May, 1995, an accounting of the Clerk's receipts for the fiscal year 1994-1995, and the annual compilation of vital statistics are printed elsewhere in this volume.

Eugene Morrill, my predecessor as Town Clerk, who trained me and then served as my deputy, has decided that I can now function without him. He will, however, continue as a cemetery trustee, as the towns' historian and archivist, and will be available to help me and John Cowan, who has become the Deputy Town Clerk. I am grateful to Gene for his guidance and for his years of service to the town in several capacities. His has an enviable record of responsible citizenship.

Respectfully submitted,
Henry F. Bedford
Town Clerk

RECREATION COMMITTEE REPORT

Besides routine recreational issues, the Recreation Committee was responsible for conducting the following three events in 1995.

The Easter Egg Hunt (\$176) in the spring, and the Halloween Trick or Treat (\$55) in the fall were well attended by the children and parents of New Castle.

Much of our effort in 1995 went into conducting the second annual Great Island Road Race. 830 people from throughout the Seacoast and beyond, registered for the race with 66 hearty New Castle residents who ran or walked the 5K course. Once again we are thankful for those residents throughout town who were an integral part of the race, through baking food, and/or volunteering their time and resources.

\$16,000 was raised by the 1995 race, bringing our two year total to \$27,000. This money has been put in a Trust Fund and will be used to purchase a new playground for the Great Island Common. Phase 1 of the playground will be installed the weekend of May 18th with phase 2 and 3 slated for this fall and the fall of 1997. The total price tag for the new playground is \$54,000 with phase 1 coming in at \$22,000, phase 2 at \$18,000 and phase 3 at \$14,000. The entire playground is being paid for with funds raised through the Great Island Road Race.

The Recreation Committee also gave \$100 each to the Rye Little League and the Rye Recreation Youth Soccer programs as many New Castle children participated in these two activities.

Respectfully submitted,
Guy Stearns, Chairman

POLICE REPORT

The year 1995 has been one of many changes for the New Castle Police Department.

On January 3, 1996, Chief Rick Henderson resigned from his position as Police Chief. He will continue as an employee until his retirement on May 1, 1997. The Selectmen have designated me as the Acting Police Chief until a permanent appointment is made. Should you have any questions or concerns, please do not hesitate to call me.

Our part time officers have had to step up and help out even more than normal with shift coverage. They have risen to this task and have done a great job.

The Police Department is continuing to improve its professionalism and is currently looking into the possibility of becoming, "A voluntary State Accredited Department which would set minimum standards for police departments throughout the state. In line with this, we are currently going through a review and update of our policies and procedures, which should be done by the time our busy summer season arrives.

In response to the late night activity that has been on the rise in recent years, and to address some of the early morning traffic violations, we are currently exploring different summer scheduling ideas in an effort to better serve the community and to keep costs down.

Calls for service:

1992 = 2296

1993 = 2362

1994 = 2648

1995 = 3338

Respectfully Submitted,

Douglas V. Cummings II
Acting Chief of Police

REPORT OF THE ANIMAL CONTROL OFFICER

Animal Control Statistics:

1993 - Complaints.....	109 (mostly raccoon problems)
Enforcement Action.....	14
1994 - Complaints.....	108 (mostly raccoon problems)
Enforcement Action.....	32
1995 - Complaints.....	86
Enforcement Action.....	69

Enforcement Action refers to owners of dogs being cited and/or warned for violation of dog ordinances.

I have listed a few of New Castle Dog Ordinances below for the benefit of new residents:

1. Keep you dogs restrained to your property or on a leash when out for a walk.
2. Ensure to use a pooper scooper as needed.
3. Dogs must be on a leash at all times when on the beach or in the Great Island Common.
4. NO dogs are allowed on the beach between May 15th and Sept. 15th. Dogs are not allowed at the State Parks at any time.

All pet owners should ensure that their dog and/or cats have had their rabies shots up to date as required by law. This requirement is in the interest of all pet owners and society as a whole to prevent the spread of Rabies and the injuries or deaths it could cause.

Failure to comply with the town's dog and pooper scooper ordinances will result in fines against the owners. Also, owners of dogs are responsible for the actions of their dogs and could result in criminal or civil penalties.

If you have any questions please feel free to contact me. Should you have a complaint or problem that needs immediate attention, please contact the duty police officer (by calling dispatch at 436-3113) and he/she will decide how to handle the call appropriately.

Respectfully submitted,
Sgt. Douglas V. Cummings II
Acting Animal Control Officer

BUILDING OFFICIAL'S REPORT

There was a total of 53 Building Permits issued during 1995 for various improvements, remodeling projects, additions, and new homes. This is a significant increase over the previous year.

I continue to provide all inspection services throughout the Town, with the following exceptions; Permission to install and the inspection of petroleum fired heating equipment is performed by the Fire Department. Water and sewer service inspections, outside the building, are performed by the Public Works Department.

We have a simple guide to assist those wishing to remodel, make additions, or build a new home. The guide lists the majority of the steps required to obtain a building permit. The guide also lists the documentation that is needed for the typical project. It is available at the Town Hall. I encourage you to start your application early to avoid construction start delays. I am available 8AM to 4PM daily to provide further assistance and perform various inspections.

A permit is not normally required for maintenance or repairs or for improvements valued at less than \$500. However, I encourage you to contact me at the Town Office, or at 431-5107, to alleviate some of the questions that are typically created by the observance of contractor vehicles at your home.

Respectfully submitted,

Charles A. Petlick
Building Official

PUBLIC WORKS REPORT

The responsibility of the Public Works Department is to manage the water distribution system, as well as the sewer collection system that are owned by the town. The City of Portsmouth owns part of the water system; from the Wentworth Hotel down Wentworth Road to the corner of Main Street.

This has been a quiet year for the department, with no major problems and no major purchases needed. The department will continue to spot check various indoor residential meters to see if there are any problems which need to be corrected. We will also be checking to make sure the no sump pumps are discharging into the town sewer, as this is a violation of Section 5 Paragraph H of the Sewer and Water Ordinance of the Town of New Castle. We appreciate your cooperation in both these matters.

We had a 10 percent increase in the sewer rates this year, therefore the minimum rates are now as follows:

The minimum rate for water: \$34.80 per 15,000 gallons
The minimum rate for sewer: \$42.10 per 15,000 gallons
(Combination for sewer and water: \$76.90)

The water/sewer bills are issued three times a year. Your bill reflects usage for the four months prior to the billing date. Bills are sent the first of April, August, and December. The minimum water usage is 2,000 cubic feet or 15,000 gallons.

Respectfully submitted,

Walter H. Liff, Chairman
Public Works Board

REPORT OF THE TOWN HISTORIAN

As previously reported to townspeople, storage space in the fire-resistant vault on the first floor of the town office has reached critical proportions. Some hard choices have been necessary to designate those records which are of greatest historical value and whose preservation is a must. Among these are the bound volumes containing many of the town's records dating back to 1693. Also included in this category are the Meloon records numbering some twenty-three loose leaf volumes, together with many other records deemed of primary importance. Altogether these records occupy approximately 81 feet of shelf space. The vault also contains a dehumidifier unit; checklist supervisor's supplies, records and equipment; a scrapbook collection of newspaper clippings covering many years of New Castle people and events; a photo collection of the same; a collection of Town Reports dating back to 1893; historic maps and pictures; and a file cabinet containing genealogical, historical, and trust fund files.

From our current year's appropriation I plan to order an additional unit of roller shelving, which by careful rearrangement can be fitted into the vault beside the one already in use. This will free space for other needs. The value of roller shelving is that it allows volumes to be stored flat, rather than vertically. Vertical storage weakens bindings and reduces their life expectancy. Also from this year's appropriation I plan to have another volume of vital records restored and rebound. This will be a challenge, since it contains records of various sizes and categories.

Because there is insufficient space for them in the vault, our collection of rare photos, mounted on large panels which we exhibit for the public from time to time, have been moved to the storage room on the second floor (the old selectmen's meeting room), together with other records and supplies of secondary importance. This room is without heat.

I have included a request for a modest amount in next year's budget to repair and install shelves in a closet on the second floor for storage of the rare photo collection and other items requiring wide shelving. At a later date the photo storage problem must be addressed, and a better solution found.

At some future time, when and if a local historical society finds a home and provides evidence of continuity, it would be my recommendation that the complete collection of pictures, mementoes, and other materials not part of the official records of the town, be turned over to it for preservation and use by this and future generations. It would be most desirable that items such as these might be on permanent display, rather than tucked away in places where they are seldom seen.

A final thought: perhaps the town should consider a plan to enlarge and improve the vault in which so many of our priceless and irreplaceable records are stored. This should not be undertaken in haste, but incorporated into other long range plans for needs of the town.

Respectfully Submitted,
Eugene W. Morrill
Town Historian/Archivist

HISTORIC DISTRICT COMMISSION

The Town established a Historic District in 1993. The district extends from the intersection of Cranfield Street and River Road to the intersection of Main Street and Wentworth Road, and one lot deep to the south of Main Street and Cranfield Street to the river. The purpose of the HDC is to enhance the visual character of the Town by encouraging and regulating new construction within the district to reflect and respect established architectural traditions.

An HDC permit is required for any construction involving change in architecture or addition to any structure, fence, or wall within the district provided that such change or addition is visible from any street or road.

The HDC held nine hearings in 1995. All were approved, and permits issued, although in some cases restriction (or conditions) were added.

The commission meets on the first Thursday of the month (provided there is a case to be heard), and would welcome any interested residents.

Respectfully submitted,

Bruce N. Smith, Chairman

SUPERVISORS OF THE CHECKLIST

Supervisors of the Checklist are in session prior to each election. Time, date, and place of these sessions are posted on correcting the checklist in the Post Office and the Town Hall. Notification of upcoming sessions are also published in the Portsmouth Herald.

New residents, or first time voters, may also apply to the Town Clerk for a registration card during his office hours, and he will in turn put the card into the Supervisor's file. The next time the Supervisors are in session the name will be added to the checklist. The supervisors have the final word as to whether the person's name will be added to the checklist.

Respectfully submitted,

Rowena Alessi, Chairman
Joanne Ireland
Marcia Whitehouse

LIBRARY TRUSTEES REPORT

The New Castle Public Library enjoyed another busy year. The library welcomes all New Castle residents to use the many resources that are available at the library. Our resources include the following for patron use; a computer, audiotapes, videotapes (VHS), and inter-library loan. The computer that is available for patron use is new this year and was made possible by fund raising and donations. We would like to encourage all residents of New Castle to take advantage of this newly provided service.

The New Castle Library runs smoothly due to the hard work and generosity of many people. We want to thank our library director, Jane Barrett, who works tirelessly to provide excellent library service. Many thanks to our volunteers - Louise Aspen, Eddie Barton, Joan Lockhart, Lee Rathgeber, Lois Sofarelli, and Jim Young of the Portsmouth RSVP Program - without them the library would not be able to provide such outstanding service. We owe a great deal to the many people who donate time and funds to improving the library's programs. Their efforts and contributions allow us to introduce new services and purchase new items that budget restrictions do not allow us to provide. A special "thank you" goes to the Friends of the Library and their new liaison person, Joanne Arsenault. The "Friends" generously supported the library this year. The friends liaison now regularly attends trustee meetings.

The Friends of the Library have donated money to fund a paid position. These funds were raised from the Friends New Castle Arts and Craft Society "Arts on the Common Program". This will allow the library to be open more hours. Saturday hours will be added to our operating schedule. The trustees have posted this position and will be employing a new person to fill these expanded hours.

The New Castle Public Library continues to serve as the library for the Maude H. Trefethen School and the island's preschool, middle, and secondary school children. The students and teachers of the Maude Trefethen come as classes on a weekly basis to utilize our services. A preschool story hour has recently been implemented thanks to the volunteer of Nancy Fessenden.

The library will continue to serve its many patrons in the coming year. We continually strive for excellent service and patron satisfaction. Questions, suggestions, and ideas are welcomed. The New Castle Library is your library, please come and "Check it out"!

Respectfully Submitted,

New Castle Public Library Trustees

PLANNING BOARD REPORT

This has been another busy year for your Planning Board with many meetings running into the late evening hours.

The two principal developments under review during the year have been Wentworth and Pendleton Lane, a proposed subdivision of 11 residential units. In addition to some lesser subdivisions, approval was given to John and Judy Udaloy to subdivide their property at the corner of Main Street and Wentworth Road into four lots.

The Board has also adopted a number of proposed revisions to our zoning ordinance developed by a joint Planning Board - Board of Adjustment Committee chaired by Bart Carr. Two amendments (maximum living area and minimum roof pitch) are a response to concern over increasing density. Another prohibits buildings or devices to restrict access to private streets. Three affect only cluster developments such as the Wentworth. The remaining amendments are designed to update the ordinance, clarify ambiguities, and address concerns brought to the attention of the Board. You will, of course, have an opportunity to vote on these changes at our annual Town Meeting.

Changes in the composition of the Board during the year include the retirement of Ernie Arsenault after many years of service and the appointment of two new alternate members: Peter Gil and Chris Russell.

Respectfully submitted,

Robert W. Beecher, Chairman

REPORT OF THE ZONING BOARD OF ADJUSTMENT

The ZBA held 10 meetings in 1995. Five Variance requests were heard involving lot line setback, expansion of non-conforming lots and uses, and specifications for a Town road. Three were approved and two were denied.

One case was heard involving a Special Exception for a cluster zoned development; it was denied. There was one decision on an Appeal from Administrative Decision relative to a request for a rehearing by the board claiming, error, and it was denied.

We have seen our hearings becoming more complex as people attempt to build on remaining land, which might be marginal, or to expand houses on lots that may have been created hundreds of years ago. The building activity in the Future Development District will, inevitably, involve the ZBA to some degree.

The Zoning Ordinance can't anticipate every situation, and a Variance may provide a fair resolution of undue hardship when it is in the public interest. Often, a satisfactory balancing of public and private interests may lead the ZBA to place limits (or conditions) on an approval.

The Zoning Ordinance is the responsibility of the Planning Board. The ZBA has recommended changes to clarify ambiguity. Two of our board members have served on a Planning Board committee developing possible revisions.

One board member resigned during the year. If anyone would be interested in the possibility of serving on the ZBA, please speak to the Selectmen (who appoint our members) or to the chairman.

Respectfully submitted,

Paul E. Cullen, Chairman

REPORT OF THE NEW CASTLE MOSQUITO CONTROL COMMISSION

Here's something to look forward to after paying those large snow plowing bills: Copious amounts of snow and rain during the winter months, set the stage for higher than normal mosquito populations in the spring. Once the snow melts, stagnant water caught in birdbaths, flower pots, old tires, rain gutters, ditches, swamps, and woodland depressions will provide the ideal environment for mosquito larvae to survive. The homeowner can help rid the yard of mosquito breeding habitats by emptying various containers holding water. Change birdbath water weekly to prevent mosquito larvae from developing to the winged adult stage. Call the mosquito control headquarters so that we may tackle the large breeding sites such as swamps, ditches, and woodland depressions. Our phone number is 778-3906. It is very important to call us early, before those mosquito larvae hatch into biting adult mosquitoes. Call during April and May for best results.

Last year was unusually dry leaving most containers, depressions, and swamps without much water. Therefore, freshwater mosquito populations were down. Regular tidal flooding provided the seacoast with a normal batch of salt marsh mosquitoes throughout the summer. Like taxes, we will always have salt marsh mosquitoes. The survival of this species is not dependent upon snow or rain, but on monthly tidal flooding which not only brings water but fish as well. These fish eat many larvae, but in areas where fish cannot reach the larvae, control is necessary.

Our crews check the tidal areas regularly. When mosquito larvae are found, a biological insecticide known as *Bacillus thuringiensis israelensis* (Bti for short) is used. This is a nontoxic material which specifically targets mosquito larvae. Larvae are controlled in the salt marshes from April through September.

If you do not want your property sprayed, please alert mosquito control headquarters every year so that we may keep an updated list and map of these areas. Please call 778-3906 or write to Mosquito Control, PO Box 46, Stratham, NH 03885.

Respectfully submitted,

Sarah T. MacGregor
Director, Mosquito Control

REPORT OF TRUSTEES OF TRUST FUNDS

The town's Trust Funds, which now total nearly \$300,000, are invested in notes of the United States Treasury and in Certificates of Deposit of New Hampshire banks. No investment instrument has a maturity greater than five years. Total return on these investments in the 1995 fiscal year was 4.85 percent.

Additions to Trust Funds were received for the Fire Department Capital Reserve accounts, for the Library, for the Recreation Commission, for the School, and (by combining funds previously accounted for separately) for cemetery maintenance.

A detailed financial report is printed elsewhere in this town report.

Respectfully submitted,

Trustees of the Trust Fund
Henry Bedford
Russell Cox
Peter Gil

CEMETERY TRUSTEES' REPORT

At the annual town meeting held May 9, 1995, the Cemetery Trustees presented a plan for acquisition of a new cemetery to be located on land within Great Island Common. This proposal resulted from lack of burial space at Riverside Cemetery, and the need for an additional cemetery. There being no land available within the town for this purpose other than possible a tract within the Common, the trustees proposed to lay out a plot measuring 225 feet by 425 feet on the north-westerly portion of the Common on land presently undeveloped, unused, and covered with brush and softwood trees.

Under terms agreed to by the Town subsequent to original acquisition of the land from the federal government, its use is limited to recreational purposes. The proposal submitted by the cemetery trustees called for negotiations with federal and state authorities to remove this restriction from this relatively small portion of the Common. After presentation of the plan and some discussion concerning the need and other details, the Town voted to authorize the selectmen to proceed with negotiations as required.

On June 18, 1995, an on-site meeting was held with Joseph Quinn, State Director of Parks and Playgrounds, at which time the proposal was outlined and the need established. Representing the Town were Selectmen Clinton Springer and Richard Cowern, Cemetery Trustee Gene Morrill, and Dan Barrett.

Mr. Quinn advised that permission for non-recreational use of land at the Common would be contingent upon designating other land of comparable value within the town for recreational purposes as compensation. With this in mind the group looked at the town owned waterfront landing at the corner of Wentworth Road and Walbach Street, and found it to be ideally suited for substitution. It was the considered opinion of those present that an additional small parcel of Coast Guard land adjacent to the town landing might be acquired to make the proposal acceptable to federal authorities.

On September 20, 1995, William Bartlett, Commissioner of New Hampshire Department of Resources and Economic Development, contacted the Northeast Field Area Director of the National Park Service, endorsing the Town's request. A favorable reply was received from the U.S. Department of Interior in mid January, indicating initial approval contingent upon submission of full documentation.

At this writing the Town is awaiting an appraisal from the Coast Guard before submitting a formal request to the federal government. Further details, together with any other information received prior to the May Town meeting, will be provided to townspeople at that time.

Restfully submitted,
William Lanham
David Merrill
Eugene Morrill
Cemetery Trustees

ROCKINGHAM PLANNING COMMISSION

The Rockingham Planning Commission is one of nine NH regional planning commissions established to promote coordinated land use and transportation planning at the local and regional level. The Commission serves in an advisory role and provides a wide array of professional planning assistance to its 27 member communities.

The direct local assistance given to New Castle during this year included:

- * Working with the Planning Board to further amend zoning ordinances and Town Subdivision and Site Review Regulations;
- * Preparing a summary of all proposed zoning changes for publication as part of the public hearing process and assisting in the preparation and notification for public hearings.
- * Providing copies of the Town's Land Use regulations as needed during the year.
- * Preparing a GIS (computerized) base map of the Town, as well as obtaining and converting the Town's existing CAD file to GIS format.
- * Preparing a parcel-based land use map, a GIS map of wetlands, and a series of GIS analysis maps for present and future use.

The Town also benefitted from the Commission's regional planning activities which included education and training for land use board members, regional planning, land conservation, and resource protection efforts, as well as the startup of the Route IA-IB Scenic Byways study now under way. Some of the assistance provided to us was funded by a matching grant from the New Castle Coastal Program.

Respectfully Submitted,

Gene F. Doherty, Commissioner

CONSERVATION COMMISSION REPORT

We want to remind residents that New Hampshire law requires that practically all work within 100 feet of salt water or a salt marsh be done only after obtaining a New Hampshire Wetlands Board Permit. Applications and other guidance are available at Town Hall. There is an expedited permit process for wetlands minimum impact projects; however, "minimum impact" is very carefully defined. A permit will normally be issued under the expedited process in 30 days - if your project does not qualify for this process the time is considerably longer.

During 1995, the Conservation Commission reviewed the following applications and provided comments to the State Wetlands Board:

1. To replace a broken drain pipe and upgrade the drainage area in a designated fresh water marsh - Henrietta L. Brothwell.
2. To replace a pier and arborway and replenish material above and below the highest observable tide line - Joan Dwyer
3. To undertake four projects designed to mitigate real or potential environmental impacts to wetland areas - Great Island Trust Partnership
4. To reconstruct existing septic system, install retaining walls, and fill/regrade - Mark Klein and Leslie Parker
5. To construct a pier, ramp, and float - Douglas Pinciario
6. To install a driveway, walkway, and drain line and to replace an existing walkway - John B. Smith
7. To subdivide one lot into four lots - John and Judith Udaloy
8. To replace an existing culvert and fill 336 square feet of a maintained wet meadow - W. Littell White

Respectfully submitted,

William B. Marshall III, Chairman

EMERGENCY MANAGEMENT REPORT

During 1995, the Board of Selectmen, Fire and Police Departments, and the Emergency Management Director wrote New Castle's Town Emergency Management Plan. This plan meets state and federal requirements. Each year the plan will be reviewed and changes made as needed. A copy of this plan is available for your review at the public library.

Every year you receive an "Emergency Help Survey" card. The survey card is part of an annual program to identify persons who may need individual help in the event of an emergency. If you or someone you know needs individual help, it is important for you to let us know. Just fill in the information and return the card. However, if you would like personalized help with the survey, please contact this office or the Police Department, so that we can meet your needs during the time of an emergency. Your response will be kept confidential.

Should you have any questions or constructive suggestions, the Office of Emergency Management is located at the Fire Department, 43 Main Street, and the business phone number of 436-1132.

Respectfully Submitted,

Richard H. White
Emergency Management Director

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

In calendar year 1995, our three (3) leading causes of fires were children, non-permit fires not properly extinguished, and smoking materials.

Violations of RSA 224:27 II, the fire permit law and other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$2000 and/or a year in jail. Violators are also liable for all fire suppression costs.

To aid your Forest Fire Warden, Fire Department, and State Forest Fire Officials contact your local Warden or fire department to learn if a permit is required. This also helps to prevent unnecessary response to a controlled burn.

Please note due to the close proximity of our homes in New Castle, burning permits are required at all times even if it is raining or snow on the ground. The following personnel have authorization to issue burning permits:

Richard Hopley	436-3694
Andrew Schulte	436-5071
Richard White	436-9025
Glenn Whitehouse	430-9374

Local communities and the state share the cost of suppression on a 50/50 basis. The State of New Hampshire operates 15 fire towers, 2 mobile patrols, and 3 contract aircraft patrols. This early detection and reports from citizens aid quick response from the local fire department.

“REMEMBER...ONLY YOU CAN PREVENT FOREST FIRES.”

Respectfully Submitted,

Richard H. White	John Dodge
Forest Fire Warden	State Forest Ranger

NEW CASTLE FIRE DEPARTMENT REPORT

In 1995, the department responded to a record 81 incidents, representing a 17% increase from 1994. There were several fire incidents that produced property damage, however none were serious as total estimated property loss was under \$5000.

The department responded to 39 emergency medical calls in 1995 with an average response time under 4 minutes. The department currently has 12 Emergency Medical Technicians with 2 in training. Three of our EMT's come from the USCG Cutter Reliance and are only available when the cutter is in port. The department still offers blood pressure checks on any Monday evening at the Fire Station. It appears, as the cost of housing escalates that some of our EMT's will move out of town. Again, the department requests that the citizens of this community becomes involved and participate in the EMS program. The department will offer CPR classes in the future. Knowing CPR can provide you with the ability to help your family member or neighbor. You can make the difference during those 4 minutes until the department arrives. If you have any questions about the Emergency Medical Services please stop by and ask us.

“A Fire Department Is Only As Good As Its Training.” “The Public Expects Professionalism.” These are statements that drive the training program within the department. Captain John Uitts, the officer in charge of fire training, and EMS Officer Terri LaMontagne both work with area communities and the Portsmouth Regional Hospital to provide monthly training for the Emergency Medical Technicians. The department has two fire training session each month. New members are still attending classes to become New Hampshire Certified Firefighters. The EMT's are attending approximately 24 hours of continuing education along with refresher classes to maintain EMS licenses.

Assistant Chief Richard Hopley is the department's Fire Prevention Officer. He has been working closely with the town's building inspector, as new homes and additions are being built in town. We remind you that you are able to start the process for oil burner, LP gas installation, and unvented space heater permits during town office hours. Information will be taken by personnel at the town office and forwarded on to Assistant Chief Richard Hopley. This procedure gives the public access to the department's fire prevention program on a regular basis. During Fire Prevention Week, department firefighters, and EMT's visited the school and discussed Stop, Drop, and Roll and Emergency Medical Services. The discussion of NCFD's emergency medical services led to one of the teachers being bandaged up and made ready for transportation on the back board.

The department has installed an exhaust system within the station to remove fumes from the two diesel engine fire pumps. When these trucks start up they produce large volumes of black smoke until they warm up. This is a point source collection system with hoses tied into a blower vented out through the roof.

Dispatching emergency services have changed. State wide E-911 service

started in July 1995, and the town enjoys this service. When you call 911 you speak with a "call taker" in Concord, then your call is redirected to the appropriate dispatch center. This service provides a name and address to the dispatcher to reduce erroneous information as to the location of the emergency. The 911 center also provides emergency medical dispatcher services. The "call takers" are trained to provide emergency medical advise over the phone while emergency services are in route to the location.

The replacement of the 1972 fire engine is now in the forefront. The town has been placing money in a capital reserve account every year for the past nine years. The Selectmen, Budget Committee, and Fire Department have planned this replacement for this year as the 1982 fire engine will be 15 years old. This would allow a thirty year life while replacing a fire engine every fifteen years. This year you will be asked to vote to replace the 1972 fire engine.

The citizens of New Castle enjoy a low tax rate compared to our neighboring communities; one of the key reasons for this low tax rate is that people volunteer their time for community service. The Fire Department needs more residents volunteers to keep the department at proper operational level. Each year the department seems to depend more on its members that live out of town just a little more. More of the membership is going to have to come within town if we are to continue to enjoy current fast response times. In town members give the department stability with its membership. The department members encourage the citizens of New Castle to be an active member and join.

Since the last report to the Town, the department has seen a Lieutenant of 48 years in age die from cancer. The town has seen two New Castle Firefighters, one retired, one a rookie, show total disregard for their personal safety as they rescued an unconscious victim from a burning vehicle. These were our high and low points. In the middle were countless hours of dedication by all the members and their families. Thank you for all of your efforts.

To the citizens of New Castle, you have always supported the Fire Dept.'s efforts. On behalf of the New Castle Fire Department, thank you.
