ANNUAL REPORT
OF THE
TOWN OF RYE
NEW HAMPSHIRE

FOR THE YEAR ENDED DECEMBER 31
2005

CEDAR SWAMP RUN

From the 1600's to the present, Cedar Swamp Run has figured prominently as a vital water resource in the Town of Rye. Less familiar to residents than the Berry Brook watershed and misnamed on State mapping as Bailey's Brook, Cedar Swamp Run is watershed for the southern portion of our town. It rises in the area north of the junction of West and South Roads and gradually makes its way to the sea via Eel Pond.

In our early history, four mills were sited along the course of Cedar Swamp Run. According to Parson's History of Rye, in 1695 Francis Jenness built the first sawmill in Rye, including a dam, on Cedar Swamp Run in the vicinity of Burke's Pond. A gristmill (for the grinding of grain) was located "30 rods" below the first mill. A gristmill was also built about half a mile further up stream at Brown's Pond in Love Lane and a fourth mill another half mile above that.

Damming not only secured a constant source of waterpower for the mills but also provided refrigeration for the warmer months. As recently as the early 1940s, Brown's Pond was harvested each winter once the ice reached a depth of 20 inches or so. Large saws were used to cut the ice by hand into huge blocks that were then dragged up a ramp onto a loading platform, loaded onto a wagon and moved to a barn like structure at Burke's Pond where they were tightly packed and insulated from heat by straw. Ice blocks were delivered during the warmer months to homes and farms, later to boarding houses and hotels.

Today, Cedar Swamp Run is a gift of nature that keeps on giving. The Rye Water District has three wells situated on the Run just off Garland Road and a stand of rare Atlantic White Cedar still grows along its course. At its terminus is Eel Pond, an anomaly in that it is an unusual mix of salt and fresh water that provides habitat for a wide array of animal and plant life. Cedar Swamp Run is a precious resource that will continue to require our protection.

CEDAR SWAMP RUN

COVER 2005: From the terminus of Cedar Swamp Run at Red Mill Lane, Rye's White, Star, Seavey's and Lunging Islands at the Isles of Shoals are discernable to the east beyond Eel Pond, Ocean Boulevard and Sawyer's Beach.

COVER DESIGN/EDITOR: Priscilla V. Jenness

To the inhabitants of the Town of Rye, in the County of Rockingham and in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Rye Elementary School in said Rye on Tuesday, the 14th of March, next at eight o'clock in the forenoon until seven o'clock in the evening for voting by official ballot on all issues before the Town of Rye under RSA 40:13.

As required under Senate Bill 2, the Deliberative Session was held on Saturday, February 4, 2006 at 9:00 AM at the Rye Junior High to review and amend the 2006 Town Warrant.

THE 2005 ANNUAL REPORT IS DEDICATED TO

ANDREW F. DOHERTY
“DREW”

The 2005 Annual Report of the Town of Rye is dedicated to Andrew Doherty. Andrew, known to most as Drew, is the originator and director of the Town's official web site: www.town.rye.nh.us.

The idea of creating a web site for the Town of Rye occurred to Drew more than five years ago at a time when there was no clamor in Rye for this type of communication with regard to municipal affairs.

Fortunately for us, Drew had the foresight and technical ability to design a web site and initiate its operation. As the community became increasingly aware of the site, more and more Town boards, commissions and committees found it a new, inexpensive and convenient way to deliver advance notice of meetings and events, agendas, minutes and other information. In addition, not for profit clubs and organizations within our community began submitting their meeting and event notices.

As the amount of information to be delivered to web site users increased, Drew periodically reorganized and redesigned the site format to accommodate that growth. Our site menu today has numerous options to allow efficient access to specific topics of local interest. Also, through use of the web site, many on business trips, spending the winter months in Florida or on vacation elsewhere remain current regarding hometown issues while they are away. Others living out of the area, including some seeking their roots, have made contact by this means. Just since February of 2003, over 103,000 Internet users have visited our Rye site.

During the past year, with input and assistance from Drew, a Rye Web Site Policy was developed and approved by the Board of Selectmen. The Board also officially appointed Andrew Doherty as Rye Web Site Director.

Information approved for the web site will automatically be eligible for communication via Comcast cable public television (Channel 22) and/or e-mail if Articles on the 2006 Town Warrant pertaining to them are passed on March 14th.

Faithfully, since its inception, Drew has devoted Saturday morning of each and every week to updating our web site. As Web Site Director, he is the site's gatekeeper, using the Web Site Policy as a guide to insure that display of material aired in the name of the Town of Rye is appropriate.

Over the years, it has often been noted that our numerous volunteers, giving generously of their time and wide array of talents, serve to make Rye the special place that it is. Drew Doherty occupies a unique place among them and, on behalf of the Town, we take this opportunity to thank him for his continuing and dedicated service.

Barbara J. Flynn Day

June 4, 2005

Proclamation

Whereas Barbara J. Flynn was first appointed to the position of Treasurer of the Town of Rye, New Hampshire on August 10, 1982 and

Whereas Barbara has been duly elected and reelected to continue in that capacity from that day until she announced her retirement to become effective on May 15, 2005 and

Whereas Barbara's length of service to the Town of Rye represents a span of twenty three years and

Whereas, throughout her twenty three years of service to the Town, Barbara's books were kept with meticulous precision and

Whereas Barbara consistently saved Town finances through wise investment and guidance of timely expenditures and

Whereas Barbara's final audit declared her books to be in good order,

We, the Board of Selectmen of the Town of Rye, New Hampshire do hereby declare June 4, 2005 to be Barbara J. Flynn Day throughout the Town.

Given under our hand and seal June 4, 2005

Priscilla V. Jenness, Chairman

Joseph G. Mills, Jr., Vice Chairman

Delton Record, Jr. Selectman

In Memoriam

Norman L. Jenness
January 1920 – November 2005

Born on January 6, 1920, Norman Jenness was the son of Irving and Iona (Walker) Jenness. For many years, until it was closed in 1964, he helped run the family business, Jenness Store, a fixture in Rye Center that followed a rural tradition that combined grocery store and post office. He was also postmaster of the Rye Post Office from 1969 until his retirement in 1986.

The Town of Rye was central to Norman's life. He served as selectman from 1952 – 1954 and as tax collector from 1952 through 1964.

In addition, Norm was also a special police officer, a member of the Volunteer Fire Department and a founding member of the Rye Ambulance Corps.

He was predeceased by his wife, Patricia (Dickey) Jenness and his siblings Irving "Flash" Jenness, William "Bill" Jenness and Doris Jenness Bates.

Survivors include daughters Deborah Jenness Ackman and Karen Jenness Smith, and sisters Florence Jenness Gruber and Nancy Jenness Goodsell.

Ernest E. Tucker
August 1910 – July 2005

Active for many years in Rye civic affairs, Ernest E. "Pete" Tucker served on the Rye Planning Board and, for twenty years, he was the Chairman of the Rye Board of Adjustment.

During the town's battle against an Onassis oil pipeline through Rye from the Isles of Shoals to a proposed refinery in Durham, when Olympic representatives assured townspeople that underwater dynamiting and beach excavation would not happen in Rye as it had elsewhere, Pete's terse expression of doubt was quoted by the N.Y. Times (1/27/74) along with notation of the round of applause that followed.

Born in Rye, August 23, 1910, Pete attended Wentworth Institute and obtained his engineering degree from Northeastern University. He was employed at Portsmouth Naval Shipyard for 35 years, retiring as a naval design engineer.

Widower of Irene (Campbell) Tucker, his survivors include daughter Gail Tucker Hughes of Rye; sons Joseph Tucker of Rye and David Tucker of Manchester; brother Harold Tucker and sister Arlene Yeaton, both of Rye.

In Memoriam

Annually, in preparation for our report on the year past, we sadly peruse the list of recorded deaths of residents of our town. The Moderator reads their names into the minutes of the following Deliberative Session. Remembered here are those among them who devoted a portion of their lives to the day-to-day business of this community and thereby became forever a part of Rye's recorded history.

William "Bill" Youschak died January 8, 2005. He served six years in the Air Force followed by a thirty-one year career as a pilot for Trans World Airlines. A resident of Rye for thirty-one years. Bill was interested in town politics, youth sports and he served on the Rye Sewer Commission.

Peter Mullaly died April 18, 2005. A thirty-seven year career as an engineer at Portsmouth Naval Shipyard paralleled Peter's involvement with many area service organizations. For many years, Rye high school students knew him as a chaperone for the Portsmouth High School Clipper Band. After moving to Rye from Portsmouth, Peter served several terms on the Rye Water District Commission.

Elizabeth "Libby" Wentzell also died on the eighteenth of April. In 1980, after raising her family and retirement, following twenty-one years in the English Department of Westwood (Mass.) High School, Libby and her husband, Jack, became permanent residents of Rye. Libby involved herself here in community affairs that included the Seacoast Science Center and the Rye Library. She was also appointed to and served on the Rye Historic District Commission.

During the year, we lost two members of our once volunteer fire department. **Joseph Heaney**, who was also very active with Little League, and **Gerard Terpstra** each made a valuable contribution to the well being of our community.

BUILDING/PLANNING/ZONING OFFICE

John F. Elsdon, Planning/Zoning Administrator
Susan Dunfey, Building/Planning/Zoning Assistant

SELECTMEN'S ANNUAL REPORT

The year 2005 began without a Town Administrator and changes in Town Hall personnel, reported through our newsletters, have been ongoing throughout the year. Town Treasurer Barbara Flynn retired in May, having served the town in that capacity for twenty-three years. Chairman John Moynahan resigned from the Board of Selectmen in order to fill the treasurer's position. In July, Craig Musselman was appointed by the remaining members of the Board of Selectmen to complete John's term. Craig's appointment brought both business experience and engineering background to the Board. Thanks to the dedication of our staff, day-to-day business has run smoothly and both short and long-range goals have seen progress.

The search for a new Town Administrator was conducted with the assistance of The Local Government Center of the New Hampshire Municipal Association. Of the 57 applicants, one candidate stood out in the eyes of the screening committee and later the Board of Selectmen. At year's end, we were waiting on the resolution of a personal matter prior to a second interview.

Meanwhile, our Interim Town Administrator Phil Arel left Rye on December 27th in order to take a permanent position with the State Court System. His experience and expertise have served us well. The Board asked Police Chief Alan Gould to take over as Acting Town Administrator. Chief Gould accepted this responsibility and remains Chief of Police. Police Lieutenant Kevin Walsh has been appointed Officer in Charge. The transition has been seamless.

It was obvious to everyone by the end of 2005 that our new Public Safety Building was behind schedule. The good news is that we are within budget and are assured that, upon completion, we will have a quality building suited to the purposes for which it was designed.

Negotiations with each of our three bargaining units were initiated in the fall of 2004 for the 2005 to 2008 contract period. Contract agreements were reached and signed with the Rye Town Employees Association and the Rye Town Police Association on or before April 1, 2005. By December 31, 2005, a contract with the Professional Firefighters Association of Rye had not been finalized, mediation failed and the negotiations had reached Fact Finding.

In April, responding to complaints from several residents residing near the recycling area, the Selectmen created an ad hoc committee to study and recommend. Bob Brown, Mary Smith, Lee Blaisdell, John Provencher and Committee Chairman Del Record worked diligently to reach consensus on a creative, economical and visually attractive proposal to upgrade the perimeter of the Recycling Center/Brush Dump along Grove Road.

Chairman Record presented the committee proposal at a Selectmen's meeting. It featured an eight-foot fence along Grove Road atop a berm plus plantings. It was well received and in turn submitted to Melina/Hyland Design Group, Landscape Architects, for construction details and cost analysis.

Broken down and taking into account the amount of DPW labor available at no additional cost to the town, the figures were as follows: Earthwork: \$6,090, Site Improvements: \$14,300 and Lawns and Planting: \$24,740 for a total of \$45,130. It must be noted that the Melina/Hyland proposal exceeded the scope of the charge to our committee as it included the planting of a number of large trees inside the fence and made additional suggestions such as changing the color of existing structures within the recycling area to help them blend in.

The bottom line was significant enough to cause the Board of Selectmen to decide against placing this project on the 2006 Warrant. Instead, it is our intent to reactivate our Recycling Area Enhancement Committee for further deliberation, providing the committee with the information contained within the Melina/Hyland report. We look forward to a committee proposal for your consideration on the 2007 ballot.

We can all rejoice in the news that Rye is no longer a donor town. At year's end, only three towns remained in that category and special legislation has since eliminated them as well. Portsmouth Mayor Evelyn Sirrell and the City of Portsmouth provided strong and sustained leadership through the Coalition Communities in the fight against the unfair education tax. We owe Mayor Sirrell a debt of gratitude and wish her well as she retires from office.

During the fall of 2005, the Town completed a Hazard Mitigation Plan, which was approved by FEMA and signed by the Board of Selectmen. Approval of our plan makes Rye eligible to apply for Pre Disaster Mitigation Project Program Grants, Hazard Mitigation Grant Programs and Flood Mitigation Assistance Programs.

In addition, the Town has been recognized by FEMA for participation in the Community Rating System for going "above and beyond normal flood plain management". Through John Elsdon, our Planning/Zoning Administrator, Rye has demonstrated that we have regulations in place to minimize endangerment of property in the flood plain. As a result, the cost of flood insurance has been reduced to Rye home and business owners.

While 20,000 communities participate in the National Flood Insurance Program, the Community Rating System is voluntary. Rye is one of only 1,050 to receive this recognition and the associated benefit.

On December 29th, the Board of Selectmen received the resignation of Mark Zartarian as Rye Emergency Management Director effective at noon December 30, 2005. As an Emergency Management Exercise has been scheduled for January, it was imperative that we fill the vacancy immediately. The Board appointed Police Chief Alan Gould Acting Emergency Management Director.

Municipal solid waste disposal at the Grove Road landfill was continuous from 1927 to 1975. The New Hampshire Department of Environmental Services requires regular, detailed water quality monitoring there and at the Breakfast Hill Landfill. Although the unusually wet autumn resulted in higher than normal groundwater table elevations at both sites, results of water quality testing continue to be favorable.

While water quality testing is done at the old landfills through the Town on behalf of all, each of us has individual responsibilities with regard to safety. Of vital import to your safety and to that of your family is house identification for emergency response purposes. **Does your house number show clearly night and day from the street?** In a real emergency, seconds count.

In this year of numerous changes, the Board wishes to publicly thank our reliable and dedicated Town Hall staff for continually going the extra mile to insure that the business of our town runs smoothly.

Respectfully submitted,

Rye Board of Selectmen:

Priscilla V. Jenness, Chairman Joseph G. Mills, Jr., Vice Chairman Craig N. Musselman

PHOTOS NEXT PAGE (top): The right side of Grove Road, along the boundary of the Recycling Center, is the area of concern for our Recycling Area Enhancement Committee. (middle) Rye Senior SERVE would like to thank the Town of Rye for its support of their senior transportation project. Senior SERVE raised sufficient funds through private donations to purchase this 14 passenger shuttle bus. The Town transferred the "old blue van" to Senior SERVE for their disposal and support of their program. (bottom) An area adjacent to the Seacoast Science Center at Odiome State Park is the proposed site for a 14 million dollar University of New Hampshire marine research facility.

Our new Rye Public Safety Building is behind schedule but within budget. We have been assured that it will be ready for occupancy by Fire and Police Departments by June of 2006.

Various stages of progress are pictured here which include work on the foundation (near the location of the old hose tower), air handling units in the basement, setting of the trusses with a crane and the status of interior finishing details on the administration side of the building.

We look forward to occupancy of a quality facility that will serve the community for many years.

CITY/TOWN OF Rye IN Rockingham COUNTY

CERTIFICATION

This is to certify that the information contained in this report was taken from official records and is correct to the best of our knowledge and belief.
RSA 21-J:34

PRINT NAMES OF CITY/TOWN OFFICIALS	SIGNATURES OF CITY/TOWN OFFICIALS (Sign in ink)
Priscilla V. Jenness	
Joseph G. Mills, Jr.	
Craig Musselman	

Date signed 9-28-2005 Check one: Governing Body Assessors
City/Town Telephone # 1-603-964-5523 Due Date: September 1, 2005

Complete the above required certification by inserting the name of the city/town officials, the date on which the certificate is signed, and have the majority of the members of the board of selectmen/assessing officials sign in ink (RSA 41:15 & Rev. Rule 105.02).

REPORTS REQUIRED: RSA 21-J:34, as amended, provides for certification of valuations, appropriations, estimated revenues and such other information as the Department of Revenue Administration may require upon forms prescribed for that purpose.

NOTE: The values and figures provided represent the detailed values that are used in the city/town tax assessments and sworn to uphold under oath per RSA 75:7. Please complete all applicable pages and refer to the instructions (pages 10 through 15) provided for individual items.

THIS FORM MUST BE RECEIVED BY THE DRA NO LATER THAN SEPTEMBER 1st TO AVOID LATE FILING PENALTIES. (RSA 21-J:34 & 36.)

RETURN THIS SIGNED AND COMPLETED INVENTORY FORM TO: NH Department of Revenue Administration, Municipal Services Division, PO Box 487, Concord, NH 03302-0487.

Contact Person: Heather G. Austin E-Mail Address: haustin@town.rye.nh
(Print/type)

Regular office hours: Monday - Friday 8 am - 4:30 pm

FOR DRA USE ONLY

See instructions beginning on page 10, as needed.

Town pays 100% of this cost					
LongTerm Disability	Benefit is 60% of base pay to a maximum of \$5000/mth Benefit commences after 6 months of disability The rate is \$.78 per \$100 of Permanent Base Pay per month				\$ 14,518.47 cost per year total of all emp
Town pays 100% of this cost					

NH State Retirement Plan

Police Officers	Town pays 9.68% of gross earnings
Fire Fighters	Town pays 14.36% of gross earnings
Employees	Town pays 6.81% of gross earnings
Police officers	contribute 9.3%
Fire Fighters	contribute 9.3%
Employees	contribute 5%

The NH Retirement System sets the employer's percentage annually effective July 1st.

* Full time employees work forty (40) hours per week.

Permanent part-time employees must work a minimum of thirty (30) hours per week to be eligible for benefits.

TREASURER'S REPORT

In May, Barbara Flynn retired after 23 years as Treasurer of the Town. Having no replacement available, I resigned as Selectman to fill the void, as the books must be maintained as well as payables and payroll done weekly. I have enjoyed the position and have learned a great deal pertaining the inner workings of the financial aspects of the Town.

Also in May, the Town was fortunate to have Cindy Gillespie, Finance/Benefits Administrator, come on board. With her help and expertise, we now have direct deposit for any employee who chooses to do so which eliminates lost checks and, at the same time, transfers payroll monies into individual personal accounts immediately.

In July, I met with banking officials and did an overview of the Town's accounts. During this process, I was able to increase our interest rates on investments anywhere from under 1% to over 4%. This overview should be done at least every six months.

In August, I completed computerizing the various accounts and now information is available immediately on our 15 main accounts and 33 sub-accounts. Also in August, I initiated a Cash Management program with the Bank. This allows us to instantly access the Town's accounts, make transfers and research any given check, as well as reduce the number of phone calls to the bank.

As many taxpayers found a decrease in their semi-annual tax billing due to the State Education Tax, they will be seeing an approximately 6.4% increase in the 2006 municipal operating budget along with an approximate increase of 5% in the local school budget. The municipal increase is due in part to the Safety Building and Conservation bonds.

In 2005, the total amount paid for principle and interest was \$1,411,759. The indebtedness for 2006 is Principal (998,600) and Interest (357,460) for a total of \$1,356,060. In 2006, we will see the fire truck loan and the Parsonage Land Bond retired.

With good cash flow, as in the past, there was no need to borrow in anticipation of taxes, saving interest expense.

I wish to thank all boards and commissions and in particular the Tax.Collector/Town Clerk's Office; Executive Secretary Nancy Weiland; and Finance/Benefits Administrator Cyndi Gillespie for their guidance and wisdom. They are truly professionals.

Respectfully submitted,

John W. Moynahan, Treasurer

janei@town.rye.nh.us

Looking back over 2005, it seems to have been a relatively quiet year for our office. Probably this is due to the fact that in 2005 only the town election was necessary, compared to the year before when there were four elections, and next year when we'll have three. Preparing for elections with the corresponding absentee ballots, voter registrations, and other election related tasks, can be quite time consuming for our small office. So we've had a bit of a breather in that regard.

That's not to say that we weren't busy! This year we registered 7,455 vehicles, licensed 971 dogs and issued 1,724 beach parking permits. We also collected more than \$15 million in property taxes and over \$300,000 in sewer billing. Our office is responsible for many other duties that are more behind the scenes and therefore unnoticed. These include archiving important town records, coordinating with local and state agencies, entering, recording and filing historic data and vital information, as well as answering countless and divergent questions from the public. We always try to provide the best service that we can and we welcome comments or opinions.

Reminder: Dog owners need to license their pet(s) each year between January 1 and April 30. State law requires an up-to-date rabies certificate for the dog. The cost is minimal: non altered animals are \$9.00 each, spayed or neutered are \$6.50, and owners who are 65 years or older can license a dog for \$2.00. Simply stop by our office with the appropriate rabies certificate.

I wish to thank my deputy, Beth Yeaton, who I count on for so much, and our able assistant, Phyllis Lundgren. I am grateful also to my colleagues and friends at the Town Hall for their help and cooperation throughout the year. Most especially, I want to thank Rye's former Treasurer and my friend, Barbara Flynn, who retired in May after twenty three years. Her wise counsel, her fine work, and her keen sense of humor have been much respected and valued.

Financial reports appear on the adjacent pages.

Respectfully submitted,

Jane E. Ireland
Town Clerk/Tax Collector

REPORT OF THE TRUSTEES OF TRUST FUNDS

The Rye Trust Accounts performed well in 2005 relative to the S&P 500 Index and the Dow Jones Industrial Average. The Trustee's strategy of overweighting the energy sector greatly enhanced performance, enabling the accounts to generate over \$143,000 in income for the Trust beneficiaries, while preserving the value of assets.

The objective of the Trust Accounts is to generate current income while preserving the value of the Trust Account assets. The Trustee's invest in high quality, income producing securities that are prudently diversified across economic sectors. In addition to maintaining a position in the energy sector, the Trust Accounts maintained diversified positions in financial, consumer, utility and pharmaceutical companies. These sectors are attractive because they maintain attributes that are consistent with the Trust Fund's stated objectives.

Respectfully submitted,

Jeffrey M. Balboni
Andrew J. Mahoney
Kerry S. Pope

	ARTICLE 3. ZONING ORDINANCE AMENDMENT QUESTION	
	<u>Amendment 1</u> Are you in favor of the adoption of Amendment 1, as follows: To add a new Section 202.10-a to the Zoning Ordinance as follows: <u>202.10-a Buffer Between Residential and Non-Residential Uses.</u> In circumstances where a buffer will not be provided by Section 202.10, a fifty (50) feet wide buffer, measured from the property line, shall be provided, as follows. Said buffer shall include natural or added planting of evergreens which will screen non-residential uses from residential areas during winter months. <u>CONTINUES IN NEXT COLUMN</u>	

ARTICLE 3 CONTINUED.....

1) New residential building or development shall provide such a buffer from an existing non-residential use not permitted by right in a residential district or the boundary of an abutting non-residential district.

2) New non-residential building or development of uses not permitted by right in a residential district shall provide such a buffer from an existing residential use. Within the Commercial District, such a buffer is not required around a nonconforming residential use existent as of March 9, 2005.

If new residential development and new non-residential development are part of the same land development, the buffer shall be provided around the non-residential development in the residential districts and around the residential development in the non-residential districts.

YES ← → 777

NO ← → 192

Amendment 2: Are you in favor of the adoption of Amendment 2, as follows:

To amend the *Official Zoning Map of the Town of Rye* to expand the Coastal Area Overlay District to include the following described area:

Beginning at Wallis Road at Parsons Creek at the current boundary of the Coastal Area District; thence along Wallis Road to the westerly boundary of Tax Map 19.4, Parcel 5; thence northerly along the boundary between Tax Map 19.0 and Tax Map 19.4 to Parsons Creek; thence along Parsons Creek to the point of beginning.

PLAIN DEPARTMENT AND BUILDING ORDINANCE QUESTION

Amendment 1. Are you in favor of the adoption of Amendment 1, as follows:

Re: Adoption of new floodplain maps and flood insurance study dated May 17, 2005:

Effective May 17, 2005: To replace paragraph #2 on page 1 of the *Floodplain Development and Building Ordinance* with the following:

The following regulations in this ordinance shall apply to all lands designated as special flood hazard areas by the Federal Emergency Management Agency (FEMA) in its "Flood Insurance Study for the County of Rockingham, NH" dated May 17, 2005 or as amended, together with the associated Flood Insurance Rate Maps dated May 17, 2005 or as amended, which are declared to be a part of this ordinance and are hereby incorporated by reference.

YES ← 769
NO ← 168

ARTICLE 5. RYE BUILDING CODE QUESTION

Amendment 1. Are you in favor of the adoption of Amendment 1, as follows:

To amend Section 7 of the Rye Building Code to adopt by reference the International Residential Code 2000 as published by the International Code Council, by making the following changes to Section 7.

Section 7.1 - Adoption of Nationally Recognized Codes

• Delete the reference to "The BOCA National Building Code, Twelfth Edition, 1993, as published by the Building Officials and Code Administrators International, Inc." and replace it with a reference to "The International Residential Code 2000, as published by the International Code Council."

CONTINUES IN NEXT COLUMN

• Delete Section 7.1.1 in its entirety. (Note: This section adopted the procedures of former RSA 674:52 for simplified procedures for adopting updates and revisions to national codes, but the Legislature repealed this statute in 2002).

Section 7.4 - BOCA National Building Code

• Change the title of this section to "International Residential Code 2000."

• Replace all references to "BOCA National Building Code" with references to "International Residential Code 2000."

YES ← 740
NO ← 187

ARTICLE 6. Are you in favor of the adoption of Article 6, as follows:

To see if the Town of Rye will vote to approve the cost items included in the Collective Bargaining Agreement reached between the Town of Rye Board of Selectmen and the Rye Town Employees Association affiliated with Teamsters Local 633 of New Hampshire, which calls for the following increases in salaries and benefits:

Year	Estimated Increase
2005	\$ 11,304
2006	\$ 8,647
2007	\$ 10,660

And further to raise and appropriate the sum of \$11,304 for the 2005 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over the appropriation at current staffing levels in the prior fiscal year. This appropriation is in addition to the operating budget. (Majority vote required.)

NO	
<i>Amendment 3.</i> Proposed by the Rye Planning Board Are you in favor of the adoption of Amendment 3, as follows	
To amend the Zoning Ordinance by adding the following Section 401:	
SECTION 401. RETIREMENT COMMUNITY DEVELOPMENTS (RCDS)	
401.1 <i>Authority.</i> This section is adopted as an Innovative Land Use Control, pursuant to RSA 674:21	
401.2 <i>Purpose.</i> The purpose of this section is to provide flexibility of zoning regulations in order to encourage the construction of small residential neighborhoods spread throughout Rye which are designed and constructed to meet the unique needs of people 62 years of age and over, while ensuring compliance with local planning standards, land use policies, good building design, and the requirements for the health safety and general welfare of the inhabitants of Rye.	
THIS ARTICLE CONTINUES ON THE BACK OF THIS BALLOT	
TURN BALLOT OVER AND CONTINUE VOTING	

SAMPLE BALLOT

401.3 Special Use Permit Required. Retirement Community Developments (RCD's) require a Special Use Permit from the planning board. The planning board may approve a Special Use Permit for an RCD which complies with the requirements of this section and the requirements of the planning board's Land Development Regulations for major site developments. Applications for a Special Use Permit shall be submitted to the planning board and reviewed in accordance with the planning board's procedural requirements for major site developments. The planning board may amend its Land Development Regulations to include special requirements for the review and approval of RCD's.

401.4 Requirements for RCD's.

A. Location. An RCD may be located in any zoning district in Rye, except within the Rye Beach Precinct. An RCD shall not be located within 1/2 mile of another RCD, as measured between boundaries of the RCD parcels, along existing street lines.

B. Parcel Size. The minimum parcel size for an RCD shall be 10 acres, which may include wetlands.

C. Frontage. An RCD shall have a minimum contiguous frontage on a town road or street of 150 feet. Each dwelling within an RCD shall face upon either an existing town road or street or on a private way constructed within the RCD.

D. Number of Dwelling Units. An RCD shall have a minimum of eight (8) dwelling units, but not more than sixteen (16) dwelling units.

E. Density. The density of an RCD shall not be greater than four (4) dwelling units per contiguous upland acre. No single contiguous area of uplands on a parcel shall have a density greater than four (4) dwelling units per acres. The density is the maximum allowed, and it may be reduced by the planning board if the characteristics of the site; or the configuration of the site plan; or the relationship of the RCD to its environs so warrant.

F. Bonus for Affordable Housing. At its discretion, the planning board may approve a maximum number of dwelling units up to twenty-two (22) and a density not to exceed eight (8) dwelling units per contiguous uplands acre, provided that at least 15% of the total dwelling units are affordable housing units. To be considered as an affordable housing unit, a dwelling shall meet the following requirements

1. Occupancy by a person(s) who would meet the income and asset limitations established by the Town for the elderly property tax exemption program

2. If owned, the principal interest, taxes and condominium association fees shall not be more than 40% of the income of the occupants.

The planning board may enact such regulations as are necessary to administer the affordable housing bonus provision and the continuing compliance with it.

G. Types of Dwellings. Dwelling types shall be of an architectural type and style deemed by the planning board to be compatible with the neighborhood and may include single family detached dwellings, duplexes and multi-family dwellings. There shall be no more than four (4) dwelling units in a single building. An RCD may have more than one type of dwelling. Site development review (i.e. site plan review) shall be required for all RCD's including RCD's composed of single and two family dwellings.

H. Homeowner's Association. All RCD's shall have a Homeowner's Association. The Condominium Declaration and By-Laws shall be approved by the planning board in accordance with the planning board's Land Development Regulations.

I. Bonus for Excellence in Design. The planning board may award a bonus of one or two dwelling units, total, beyond the 16 dwelling units allowed by Section 401.4 D, for excellence in design. In awarding the bonus the planning board may consider factors including but not limited to preservation of rural character, provisions for walking trails from the site to community facilities, innovative use of open space, and architecture. The planning board may enact amendments to its Land Development Regulations relative to the process and criteria by which the bonus may be awarded.

J. Building Spacing/Setbacks.

1. Building Spacing. All buildings in an RCD, including parking structures and accessory buildings, shall be separated by at least 25 feet.

2. Setbacks. No principal or accessory building or structure shall be located closer than 75 feet to a property line or street line. However, the planning board may reduce this requirement to 50 ft. upon a determination that the scale and location of a building will not be incompatible with or detrimental to the use and enjoyment of the adjacent parcel.

K. Buffer. The perimeter of all RCD's shall be a landscaped buffer zone at least 25 feet in width, which may consist in whole or in part of existing natural tree growth.

L. Occupancy. The occupancy of an RCD shall be restricted solely to persons age 62 or older, with no exceptions.

M. Bedroom/Floor Space. There shall be no more than two (2) bedrooms per dwelling unit. The minimum square footage of living space per unit shall be 800 sq ft and the maximum square footage of living space per unit shall be 1800 sq ft.

N. Parking. Each dwelling unit shall be provided with a one car garage attached or in close proximity to the unit and one other parking space. Additionally, a plan for an RCD shall include adequate parking for visitors, as determined by the planning board.

O. Town Wide Limitations. RCD's are exempt from the Growth Management limitations of Article IX. A Special Use Permit shall not be approved for any RCD which would result in the total number of dwelling units in RCD's in the Town of Rye exceeding 2% of the total year round dwelling units in town, exclusive of units located within an RCD. (Explanatory Note: As of December 31, 2005, this would allow 51 RCD units in the town)

401.5 Determinations Required for Special Use Permit Approval. Prior to approving a Special Use Permit for an RCD, the planning board shall determine, by a vote on the record, that the RCD meets each of the following standards:

1. All requirements of Section 401.4 have been met. (This may be a single vote on the record).

2. The granting of the Special Use Permit will not be detrimental to adjacent property or the neighborhood.

3. The granting of the Special Use Permit will not be detrimental to the public safety, health or welfare.

4. The granting of the Special Use Permit will not be contrary to the public interest.

5. Unless otherwise prohibited by State or Federal law, the applicant will make reasonable provisions to assure that residents of Rye will have an opportunity to reside in the RCD.

401.6. Conditions. In approving a Special Use Permit, the planning board may attach such conditions to its approval as it deems necessary to further the objectives of this section, the zoning ordinance and the public health, safety and general welfare.

TOWN CLERK

SAMPLE BALLOT

401.7 Variances. Approval of an RCD is a privilege, not a right. The requirements of Section 401.4, A, D, E and O, which regulate the location, size, and density of RCD's and of Section 401.4, O, which regulate the total number of RCD units in town are fundamental to the intent of this innovative zoning provision. Any variance from the provisions thereof is hereby deemed to be inconsistent with the spirit and intent of the zoning ordinance and contrary to the public interest

401.8 Waivers. An applicant may apply for waivers to the requirements of Section 401.4 C, E, J or K provided such waiver does not deviate from the requirement by more than 20% and provided that 2/3 of the planning board members present and voting determine that:

1. A unique and identifiable specific circumstance of the land warrants the granting of a waiver
2. The granting of the waiver will not be detrimental to adjacent property or the neighborhood.
3. The granting of the Special Use Permit will not be detrimental to the public safety, health or welfare
4. The granting of the Special Use Permit will not be contrary to the public interest

401.9 Fees. The planning board shall charge an application fee for a Special Use Permit for an RCD, in addition to its fee for site plan approval and any fees for investigation and review allowed by RSA 676.4, l.(g)

401.10 Conflicts. Where the provisions of this section conflict directly with a requirement of the zoning ordinance or a requirement of the planning board's *Land Development Regulations*, the provisions of this section shall govern. Otherwise, all other requirements of the zoning ordinance and the planning board's *Land Development Regulation* shall apply to an RCD.

401.11 Appeal. Pursuant to RSA 676.5, III, appeals of any planning board decisions made pursuant to this section shall be taken to the superior court, not to the board of adjustment.

401.12 Webster at Rye. Webster at Rye is not an RCD. None of the provisions of this section apply to Webster at Rye.

ARTICLE 4. Are you in favor of the adoption of Article 4, as follows:

To see if the Town will vote in accordance with RSA 31:95-d, IV(a) and (b) to rescind the provisions of RSA 31:95-c and abolish the Police Outside Detail Special Revenue Fund that restricts revenues from Police Department special details for the purpose of compensating personnel and administrative costs 100% of the balance remaining in the Police Outside Detail Special Revenue Fund as of March 31, 2006 will lapse into the Town's General Fund.

And, furthermore, to see if the town will vote to create a revolving fund pursuant to RSA 31:95-h, for the purpose of police special details. All revenues received for police special details will be deposited into the fund, and the money in the fund shall be allowed to accumulate from year to year, and shall not be considered part of the town's general fund unreserved fund balance. And furthermore, to appropriate fifty six thousand dollars (\$ 56,000.00) into this fund from unreserved fund balance. Such sum represents the balance from the discontinued prior Police Outside Detail Special Revenue Fund. The town treasurer shall have custody of all moneys in the fund, and shall pay out the same only upon order of the governing body and no further approval is required by the legislative body to expend. Such funds may be expended only for the purpose of compensation of personnel, administrative costs, vehicles and other related safety equipment for police department outside details for which the fund was created. No amount will be raised by taxation. This appropriation is in addition to the operating budget (Majority vote required)

TOWN OF RYE, NEW HAMPSHIRE

2006

**MINUTES OF THE
DELIBERATIVE SESSION**

2006

BUDGET

2005

AUDITOR'S REPORT

**REPORT OF THE ANNUAL TOWN MEETING
FOR THE TOWN OF RYE, NEW HAMPSHIRE**

February 4, 2006 and March 14, 2006

DELIBERATIVE SESSION

At 9:00 a.m. on the 4th day of February 2006 at the Junior High School gymnasium, Moderator Daniel Hoefle called to order the Deliberative Session of the Annual Town Meeting. He introduced Sarah, Madeline and Samantha, who are members of Rye Brownie Troop 2656, and Brian Harning, a Life Scout from Troop 162 of North Hampton, who led the assembly in the Pledge of Allegiance.

Moderator Hoefle began the meeting by reading the names of our friends and neighbors who died in 2005. A moment of silence was observed in their memory.

The moderator introduced Chairman of the Board of Selectmen Priscilla Jenness, Vice Chairman Joseph Mills, Selectman Craig Musselman, Town Counsel Michael Donovan, Acting Town Administrator Alan Gould, Finance Administrator Cyndi Gillespie, and Town Clerk/Tax Collector Jane Ireland.

Moderator Hoefle announced the candidates for town office for the March 14th election.

Moderator Hoefle stated his *rules for the meeting*. He said even though he, as moderator, sets the rules and procedures, this is your meeting and you are free to change those rules. Everyone is invited to speak. Anyone wishing to speak should come to the microphone and identify himself. All comments should be directed to the moderator. Moderator Hoefle said we are here in the spirit of debate and asked that acrimony be eliminated or kept to a minimum. All amendments need to be in writing. All voters need to be checked in at the checklist table and receive a card. We will be voting by a show of hands unless a secret ballot is requested. Five voters present may request a secret ballot by written request. Seven voters present may seek a recount of a voice vote or a hand vote, after a vote is taken. We will follow the articles as they appear on the Warrant unless a request is made to take them out of order. Any ruling made as moderator can be challenged by this Deliberative Session, and any motion anyone wishes to make will be entertained.

Upon determining everyone present had a copy of the Warrant, Moderator Hoefle read Article 4.

ARTICLE 4. To see if the Town will vote in accordance with RSA 31:95-d, IV(a) and (b) to rescind the provisions of RSA 31:95-c and abolish the Police Outside Detail Special Revenue Fund that restricts revenues from Police Department special details for the purpose of compensating personnel and administrative costs. 100% of the balance remaining in the Police

Outside Detail Special Revenue Fund as of March 31, 2006 will lapse into the Town's General Fund.

And, furthermore, to see if the town will vote to create a revolving fund pursuant to RSA 31:95-h, for the purpose of police special details. All revenues received for police special details will be deposited into the fund, and the money in the fund shall be allowed to accumulate from year to year, and shall not be considered part of the town's general fund unreserved fund balance. And furthermore, to appropriate forty-eight thousand four hundred eleven dollars and fourteen cents (\$ 48,411.14) into this fund from unreserved fund balance. Such sum represents the balance from the discontinued prior Police Outside Detail Special Revenue Fund. The town treasurer shall have custody of all moneys in the fund, and shall pay out the same only upon order of the governing body and no further approval is required by the legislative body to expend. Such funds may be expended only for the purpose of compensation of personnel and administrative costs for police department outside details for which the fund was created. This appropriation is in addition to the operating budget. (Majority vote required)

**THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE**

It was **moved** by Priscilla Jenness, seconded by Joe Mills, to place this article on the floor for discussion. Mrs. Jenness introduced Police Chief Alan Gould. Chief Gould said the law changed in 2005 which would allow us to create this revolving fund. This allows us to pay for outside details without having to raise any tax dollars. Currently we must raise the funds we think we're going to need. Chief Gould offered an *amendment to Article 4*, seconded by Mr. Mills.

Chief Gould's amendment changes the dollar amount from \$48,411.14 to **fifty six thousand dollars (\$56,000)** and changes the final three sentences of the article to read; "Such funds may be expended only for the purpose of compensation of personnel, [~~and~~] administrative costs, **vehicles and other related safety equipment** for police department outside details for which the fund was created. **No amount will be raised by taxation.** This appropriation is in addition to the operating budget. (Majority vote required)" *Note: Additions are emboldened. Deletion is in brackets and struck through.*

Chief Gould said the original figure of \$48,411.14 was the balance in that fund as of December 31st. We feel using the \$56,000 figure will make sure we won't take any money out of the general fund when we make this change. The additional language near the end is because this was intended from the beginning to include any costs that were incurred with doing an outside detail and we do charge an hourly rate for cruisers when they're used for an outside detail. This would allow us to charge back for fuel and other costs, not specifically personnel or administrative costs.

In response to a question from Ray Jarvis, Chief Gould explained that currently there is a special revenue fund for the payment of these details and the payments come from a third party so it involves no tax dollars.

There being no further discussion on the amendment, Moderator Hoefle called for a **VOTE**. **SHOW OF HANDS. Amendment is declared passed.**

Nancy Weiland pointed out a typo on the written amendment.

There being no further discussion on the amended article, **Moderator Hoefle ordered Article 4 placed on the ballot, as amended.**

The moderator read Article 5.

ARTICLE 5. To see if the Town will vote to raise and appropriate the sum of forty thousand nine hundred twenty six dollars (\$40,926) to purchase a new pick-up truck and its associated equipment including fire pump and tank for the Fire Department and to authorize the withdrawal of the sum of forty thousand nine hundred twenty six dollars (\$40,926) from the Fire Truck Capital Reserve Fund established for that purpose. *No amount will be raised by taxation.* This appropriation is in addition to the operating budget. (Majority vote required.)

**THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE**

It was **moved** by Craig Musselman, seconded by Priscilla Jenness, to place Article 5 on the floor for discussion.

Mr. Musselman explained this appropriation is to replace a vehicle that is at the end of its useful life. The purpose is to acquire a larger vehicle with a water tank package on the back of it that will allow the Fire Department to get into back lot areas to get water on forest fires that may occur. The proposal is to withdraw these funds from the capital reserve funds accumulated in previous years.

There were no further comments. **Moderator Hoefle ordered Article 5 placed on the ballot as written.**

The moderator read Article 6.

ARTICLE 6. To see if the Town will vote to appoint the Selectmen as the agents to expend from the Fire Truck Capital Reserve Fund. (Majority vote required.)

Selectman Musselman **motioned** to place Article 6 on the floor for discussion. His motion was seconded by Joe Mills.

Mr. Musselman said the Department of Revenue Administration generally recommends for this type of capital reserve fund that there be an agent authorized to expend from these funds. When this fire department capital reserve fund was initially set up this language wasn't included. This would allow funds to be expended out of the capital reserve without having to hold a special town meeting for authorization.

There were no further comments. **Moderator Hoefle ordered Article 6 placed on the ballot as written.**

The moderator read Article 7.

ARTICLE 7. To see if the Town will vote to raise and appropriate the sum of twenty-five thousand dollars (\$25,000) to be added to the Capital Reserve Fund established pursuant to RSA 35:1, by Article 11 of the 2005 Rye Town Meeting, for the purpose of site geo-technical investigation, site permitting, design fees and construction of a salt/sand storage building adjacent to the existing Public Works Facility. This appropriation is in addition to the operating budget. (Majority vote required.)

**THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE**

It was **moved** by Craig Musselman, seconded by Joe Mills, to place Article 7 on the floor for discussion.

Selectman Musselman explained there was a previous warrant article for \$25,000 that was set aside toward a future salt shed. This will bring the total to \$50,000 plus interest in that fund. The estimate for the sand/salt shed is around \$160,000 so this gets us about a third of the way there.

There were no further comments. **Moderator Hoefle ordered Article 7 placed on the ballot as written.**

The moderator read Article 8.

ARTICLE 8. To see if the Town will vote to raise and appropriate the sum of twenty thousand dollars (\$20,000) to be added to the Town Employees Accumulated Leave Fund established pursuant to RSA 31:19-a by Article 14 of the 1990 Rye Town Meeting. The Town Employees Accumulated Leave Fund pays severance benefits to Town Employees in accordance with the Town's Personnel Policy. This appropriation is in addition to the operating budget. (Majority vote required.)

**THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE**

It was **moved** by Selectman Mills, and seconded by Priscilla Jenness, to place Article 8 on the floor for discussion.

Mr. Mills said this is an obligation that we have with the contracts for the town employees. Right now the fund balance is \$118,000. If everyone in the whole town left today we'd owe over \$300,000. There are three employees eligible to leave this year and if they did, we estimate the cost would be around \$40,000.

There were no further comments. **Moderator Hoefle ordered Article 8 placed on the ballot as written.**

The moderator read Article 9.

ARTICLE 9. To see if the Town will vote to raise and appropriate the sum of ten thousand dollars (\$10,000) to be added to the Fire Truck Capital Reserve Fund established by Town vote in 1965. This appropriation is in addition to the operating budget. (Majority vote required.)

**THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE**

It was **moved** by Craig Musselman, seconded by Joe Mills, to place Article 9 on the floor for discussion.

Selectman Musselman stated this is an article to begin the replenishment of the fire capital reserve fund. The earlier warrant article used all but about \$3,000 of the funds that are in the capital reserve fund and this would begin to build the fund back. The next major capital purchase is going to be, in all likelihood, a ladder truck which is scheduled in a three or four year time frame, the present estimate for which is from \$400,000 to \$600,000. The financial plan hasn't yet been put together, although it has been proposed to put together a plan in 2006 which would partly use cash and partly use lease payments. We have lease payments for the last major piece of fire equipment that continue through 2006 at \$65,000 per year. This \$10,000 is a minor contribution compared to what we will need to be set aside in future years.

There was no further discussion on the article. **Moderator Hoefle ordered Article 9 placed on the ballot as written.**

The moderator read Article 10.

ARTICLE 10. To see if the Town will vote to raise and appropriate the sum of five thousand dollars (\$5,000) to be added to the Expendable Trust Fund established by Article 14 at the 2005 Town Meeting under the provisions of RSA 31:19-a, as a maintenance fund for the Rye Public Library building. This appropriation is in addition to the operating budget. (Majority vote required.)

**THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN.
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE**

It was **moved** by Selectman Jenness, seconded by Selectman Mills, to place Article 10 on the floor for discussion.

Mrs. Jenness said last year the library asked for and received a modest amount to start a maintenance fund and this year they hope to extend it. She introduced Library Trustee Victor Azzi.

Mr. Azzi stated last year we started the fund with \$5,000 and this year we are asking for an additional \$5,000. He said there is normal maintenance of the library building that comes out of the operating budget, but we need to plan for the possibility of larger expenditures that may come along, such as replacing a roof or a boiler.

There were no further comments or questions. **Moderator Hoefle ordered Article 10 placed on the ballot as written.**

The moderator read Article 11.

ARTICLE 11. (By petition) To see if the Town will vote to raise and appropriate the sum of three thousand dollars (\$3000) to contract with an historic preservation consultant to complete the project of nominating the Rye Town Hall to the State and National Registries of Historic Places. This appropriation is in addition to the operating budget. (Majority vote required.)

**THIS ARTICLE IS NOT RECOMMENDED BY THE SELECTMEN.
THIS ARTICLE IS NOT RECOMMENDED BY THE BUDGET COMMITTEE**

Note: Following the conclusion of this Deliberative Session, the Budget Committee met and voted to change Article 11 from not recommended to recommended.

It was **moved** by Dr. Michael Mittelman, seconded by Alex Herlihy, to place Article 11 on the floor for discussion.

Dr. Mittelman gave a brief history of the project. He said the Rye Town Hall was built in 1839, initially as a Methodist Episcopal church. In 1873 the town purchased the building for \$1,000. In 1890 they voted to put an addition on the back of it and then in 1992 they added a storage area behind the offices. Dr. Mittelman explained he has consulted with the appropriate people and determined the building possesses enough historic integrity to be eligible to be placed on the State and National Registries of Historic Places. Listing on the National Register is federal recognition that a property possesses cultural and historic value to be considered worthy of preservation. It recognizes its importance to the community, the state and the nation.

Dr. Mittelman addressed some concerns. He said although he is asking for up to \$3,000, it may not cost that much. He stated that contrary to widespread belief the Register imposes no restriction upon owners who wish to alter their property. The only exception is that if state or federal funds are involved. The National Register is not a regulatory program.

Alex Herlihy noted this is Rye's oldest town building. He said this acknowledges the historic value and gives it validity and, in spite of the Selectmen's reservations, he supports this article.

Jim Maheras asked if this article passes, does that mean the town hall will be nominated to the Historic Register. Attorney Donovan replied this would appropriate the money to allow the study to be done. The Selectmen would be the responsible body for having to decide to submit the actual application as the custodian of town property.

Dr. Mittelman said there are all sorts of paperwork involved along the way and to make sure it's done correctly the state now has a historical consultant. Then it goes to the state level to be nominated and if the state approves it then they have the right to recommend it to the National Historic Register.

Several Budget Committee members noted that at their public hearing on the budget no one was present to put forward this article and that if today's information had been available then the committee would probably not have decided to not recommend this article. It was explained that following this meeting the Budget Committee and the Selectmen can meet to decide if they want to change their recommendation.

Guy Chichester said he felt it was important to protect the architectural integrity of the building and that he hoped the town would pass this article.

Selectman Jenness explained the Selectmen asked the department heads to hold the line this year as far as budget was concerned and in considering everything, the selectmen did also, knowing that this petition could go to the voters and let the people in town speak to it. She said boards of selectmen for many years have tried to maintain the integrity of that building. Mrs. Jenness said it's not a matter of being opposed to this. We were trying to be consistent in holding the line knowing that ultimately the people would have a choice.

Following lengthy discussion with regard to the recommendation or non recommendation of the Selectmen and Budget Committee, fear of possible future actions by state or federal agencies, the possibility of being eligible for matching funds or grants, of adding another layer of bureaucracy and the need to preserve and use the town hall, Dr. Mittelman reiterated that there is nothing negative about it, there are virtually no restrictions unless you ask for state or federal funds. And if you do ask, they will just want to insure that you are maintaining the integrity of the character of the building. Dr. Mittelman said this is simply recognition, nothing else.

Selectman Mills explained his reservations, saying this expenditure of \$3,000 is to submit the application and is no guarantee that this will be accepted. Mr. Mills said we have taken care of the building over the years. He said he was afraid there will be restrictions and we will have to go ask big brother for permission to do something. Mr. Musselman added that we should look down the road, even a hundred years, and make sure the benefits outweigh whatever risks there are, however slight they might be.

Jane Holway made a **motion to move the question**, seconded by Jim Raynes. Moderator Hoefle explained this is a motion to limit debate. The moderator called for a **VOTE** on the motion. **SHOW OF HANDS.** Motion carries.

Moderator Hoefle ordered Article 11 placed on the ballot as written.

The moderator read Article 12.

ARTICLE 12. Shall the Town raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein totaling six million nine hundred ninety two thousand five hundred forty dollars (\$6,992,540). Should this article be defeated, the operating budget shall be six million six hundred eighty thousand fifty seven dollars (\$6,680,057) which is the same as last year with certain adjustments required by previous action of the Town or by law or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. (Majority vote required.)

NOTE: This warrant article does not include appropriations in ANY other warrant article.

It was **moved** by Selectman Mills, seconded by Priscilla Jenness, to place Article 12 on the floor for discussion.

Mr. Mills explained this article is the operating budget and is very cut and dry.

Paula Snyder noted no monies were appropriated this year under capital expenditures, town hall. She wondered if the selectmen would be considering repairing the steps going to the attic. She said the walls are falling apart and the plaster is coming out and so is the insulation. Mr. Mills responded that it is not unsafe yet.

There was no further discussion. **Moderator Hoefle ordered Article 12 placed on the ballot as written.**

The moderator read Article 13.

ARTICLE 13. To see if the Town will vote to increase the number of Library Trustees from three (3) to five (5) pursuant to RSA 202-A:6. If this article is enacted, two additional trustees will be elected at the 2007 Annual Town Meeting to staggered three year terms ending in 2009 and 2010, respectively. (Majority vote required.)

It was **moved** by Priscilla Jenness, seconded by Joe Mills, to place Article 13 on the floor for discussion.

Library Trustee Victor Azzi said this article proposes to change the number of trustees from three to five. The trustees have been discussing this over the past several years. We feel that if we have five trustees it will be a number that is not too large, but also not too small. Having five members would give us a broader base of input. He said the trustees feel there is no downside to this and that having more members would be helpful to us and to the users of the library.

There were no other comments. **Moderator Hoefle ordered Article 13 placed on the ballot as written.**

The moderator read Article 14.

ARTICLE 14. (By Petition) To see if the town will vote to establish a Heritage Commission per RSA 674:44-a.

A Heritage Commission may be established in accordance with RSA 673 for the proper recognition, use, and protection of resources, tangible or intangible, primarily man-made, that are valued for their historic, cultural, aesthetic, or community significance within their natural, built, or cultural contexts. It would not replace the HDC. It may include some members of HDC. It would address town-wide v. only the HD (Historic District).

A Heritage Commission would have advisory and review authority, as requested, with the planning board and other local boards/agencies on issues addressing cultural and historic resources in the master plan. Other aspects of the Heritage Commission are addressed in HC Powers: 674:44-b.

It was **moved** by Betty Tobey, seconded by Bill Ladrie, to place Article 14 on the floor for discussion.

Mrs. Tobey presented an *amendment to Article 14*, seconded by Paula Snyder.

Mrs. Tobey said that basically the amendment would spell out the number of people to be appointed to the commission, and how these people would be appointed and the fact these appointments would be staggered.

The moderator read the amendment in its entirety:

“To see if the Town will vote to establish a Heritage Commission. The Heritage Commission shall have 5 (five) members to be appointed by the Board of Selectmen plus one ex-officio member who is a member of the Historic District Commission (HDC) and who is appointed by the HDC. The Heritage Commission may have up to 3 (three) alternate members appointed by the Heritage Commission. All terms shall be for three years, with the initial appointments staggered.

Towns may establish heritage commissions for the proper recognition, use, and protection of resources, tangible or intangible, primarily man-made, that are valued for their historic, cultural, aesthetic, or community significance within their natural, built or cultural contexts. The Heritage Commission would not replace the HDC. It would operate town-wide, whereas the HDC only operates within the Rye Historic District.

The Heritage Commission shall have advisory and review authority as set forth in RSA 674:44-b.I, and it shall have the authority as set forth in RSA 674:44-b, II to acquire, in the name of the town, but subject to the approval of the board of selectmen, such interests as may be necessary to acquire, maintain, improve, protect, limit the future use of, or otherwise conserve and properly use the cultural resources of the town, and to manage and control the same.”

Moderator Hoefle stated that since this is a wholesale amendment he has asked Town Counsel Michael Donovan to comment on it.

Atty. Donovan explained that when people submit a petition the law requires that it must be put on the warrant exactly as submitted. After the warrant articles are ready, the selectmen have town counsel look them over to be sure they are in proper legal form because we have the opportunity at Deliberative Sessions to make amendments. In the case of this article, Atty. Donovan said he determined that if it were voted in, the town wouldn't be able to enact it because procedurally it didn't set out certain things. The amendment that replaces what is in the warrant really is not an amendment of substance, but rather of procedure.

Moderator Hoefle ascertained that the amendment met with Mrs. Tobey's approval. He called for a *vote on the amendment*. **SHOW OF HANDS. Amendment carries.**

Bob Eaton asked about the powers of a Heritage Commission with regard to private property.

Betty Tobey read from RSA 674:44-b Powers. - "Heritage Commissions shall have advisory and review authority to a) survey and inventory all cultural resources; b) conduct research and public findings, including reports to establish the legal basis for a district and preparation of historic district ordinances within the municipality prior to the adoption or amendment as provided in RSA 675:6; c) assist the planning board, as requested, in the development and review of those sections of the master plan which address cultural and historic resources; d) advise, upon request, local agencies and other local boards in their review of requests on matters affecting or potentially affecting cultural and historic resources..." Mrs. Tobey said we are not addressing acquiring private property. She said this is sort of an overview to assist in the orderly growth and management of a given area to maintain the characteristics that you already own. Mrs. Tobey read further from the statute, "provided, however, that the city, town or commission shall not have the right to condemn property for these purposes".

Discussion continued. Don Pongrace related his experience with regard to the necessity of having wooden shutters for the church. Jim Maheras ascertained from Mrs. Tobey that a small annual budget might be necessary.

Bill Ladrie **motioned to move the question**, seconded by Jack Tobey. This motion limits debate. Moderator Hoefle called for a **VOTE on the motion**. **SHOW OF HANDS. Motion carries.**

Moderator Hoefle ordered Article 14, as amended, placed on the ballot.

Bob Eaton *moved to reconsider Article 14*, seconded by Joe Mills.

Mr. Eaton said he wanted to offer an amendment to Article 14.

Moderator Hoefle explained that a vote in favor of the motion to reconsider would permit further discussion on Article 14. Atty. Donovan clarified that things had moved a little quickly after Mr. Ladrie's motion to move the question and that under parliamentary procedure, when a question is

moved, if there are people trying to get the floor at the time the motion is made, those people are usually allowed to speak before you vote on the motion.

Moderator Hoefle called for a **VOTE on the motion to reconsider Article 14.** **SHOW OF HANDS. Motion carries.**

Bob Eaton *moved to amend Article 14* by striking the word in the first line ~~establish~~ and adding the words **study the merits of** so that the first sentence would read “To see if the Town will vote to study the merits of a Heritage Commission.” His motion to amend was seconded by Philip McDonough.

Mr. Eaton said he felt we just don’t know enough about what a Heritage Commission can do. He said he has serious concerns about what it could do to the rights of individual land owners and we should have the time to study what the Heritage Commission would do.

Betty Tobey reassured this would not interfere with what people do with their private property. She said it is advisory only.

Mr. Mills thanked Mr. Eaton for his proposed amendment saying this would give us the opportunity for study and for Betty to have some informational meetings and bring it up again next year.

Rep. Jane Langley requested that a Public Hearing be held so concerns can be heard and so we will know exactly what we are voting for.

In response to a question from Guy Chichester, Atty. Michael Donovan clarified that the Commission is advisory, but, if you establish a commission and if you appropriate money for that commission, it does have the power also to acquire property. For instance, he said, it could acquire a collection of historic artifacts. It could set up its own museum. Anything acquired still has to have the approval of the selectmen.

Ray Jarvis said he is very interested in the Heritage Commission proposal. He said he felt that when intelligent people have concerns, those concerns need to be respected. For that reason he supported the amendment which allows for further study.

Bill Ladrie **motioned to move the question**, seconded by Jack Tobey. The moderator called for a **VOTE on the motion.** **SHOW OF HANDS. Motion carries.**

Moderator Hoefle read the amendment. He called for a **VOTE on the amendment.** **SHOW OF HANDS. Amendment passes.**

There was no further discussion. **Moderator Hoefle ordered Article 14, as amended, placed on the ballot.**

Paula Snyder **moved to restrict reconsideration** of Article 14, seconded by Bill Ladrie. Moderator Hoefle explained this motion means the article could not be brought up at a later time if the vote is in the affirmative. He called for a **VOTE** on the motion. **SHOW OF HANDS. Motion carries.**

The moderator read Article 15.

ARTICLE 15. (By petition) To see if the Town will vote to allow the Rye Selectmen to broadcast town news on Comcast’s local public cable channel. The broadcast will appear as text messages and will be scheduled as to maintain current Portsmouth Broadcasts. Rye news would be aired at a time when Portsmouth news is idle. While there is no cost to the Town of Rye, the passage of this article will result in a 1 to 3 cent monthly increase on Comcast bills to Comcast customers. Comcast is contractually bound to give Rye broadcast time on its public channel. The cost reflects a onetime purchase of dedicated software and hardware required to air Rye news amortized over 3 years, which correlates directly to the number of years remaining on the current contract between Rye and Comcast.

It was **moved** by Susan Rizkalla, and seconded by Michael Schwartz, to place Article 15 on the floor for discussion.

Mrs. Rizkalla said they have been working on this for about a year. She invited Mr. Schwartz to speak about why this was initiated.

Michael Schwartz said he and Susan have been investigating ways to improve communication in Rye. The fee from Comcast would be no more than 9 cents per month to Comcast customers.

Susan Rizkalla ***moved to amend Article 15***, by replacing the present wording with:

“(By petition) To see if the Town will vote to allow the Rye Selectmen to broadcast town news on Comcast’s local public cable channel. The broadcast will appear as text messages and will be scheduled as to maintain current Portsmouth Broadcasts. Rye news would be aired at a time when Portsmouth news is idle. While there is no cost to the Town of Rye, the passage of this article will result in a monthly franchise related cost to Comcast customers to reflect a one time purchase of dedicated software and hardware required to air Rye news. This franchise related cost is expected to be no more than 9 cents per month for Comcast subscribers over a 30 month period totaling \$2.70 per subscriber. Comcast is contractually bound to give Rye broadcast time on its public channel. It is also protected under Federal law to pass-through the cost of providing such service to its subscriber.”

Mr. Schwartz seconded the motion to amend Article 15.

Mrs. Rizkalla said the total cost of the software and hardware to broadcast the town news on Channel 22 for Comcast is \$4,000. They will amortize that over two years, based on the number of Comcast customers, from January 2007 to the end of our contract in 2009. She added that the 9 cents figure is Comcast’s best estimate and that number would probably be lower.

In response to Bill Ladrie's question, Mr. Schwartz clarified that every Comcast subscriber in town would be charged up to 9 cents per month for thirty months.

Discussion continued. Mrs. Rizkalla said the scheduling of the broadcast would be at the discretion of the Selectmen. Selectman Priscilla Jenness stated their intention to start small, perhaps two to three times a day, a loop that is broadcast for a half hour period. Mrs. Jenness said we have a website policy and we have appointed Drew Doherty as our website director. What is cleared for the website is what would be put on that loop. This is Channel 22 for cable customers only. Maurice Cataford asked who prepares the news bulletins and would this be an added burden on the Selectmen's staff? He felt this may be redundant since it is already on the Rye website. Bob Vincent reported that Portsmouth received a rather substantial franchise fee and Rye received "nary a farthing". He said he has learned that Verizon is vigorously cabling virtually every community in the area, to compete with Comcast. Mr. Vincent said that given the fact that technology is changing, that we may very well have meaningful competition, in 2009 when it is time to renegotiate the contract either with Comcast or with Verizon, that we, like so many other communities, hire a professional negotiator to work with those people.

Mr. Maheras asked what would be aired here that isn't already available on the website and the newsletter that we get, and is the future plan to then air the selectmen's meetings? Selectman Jenness responded "No!" She said Susan and Michael simply wanted to provide people with another way of getting the same news.

Paula Snyder thanked the committee for all the work they have done in researching all of this and bringing this to the townspeople. She said while this does not cost the town anything, it costs the individual another 9 cents. Comcast has just announced another rate hike. She said she read the contract several years ago and in it Comcast says it will *give* to the town and the school \$30,000 worth of filming equipment and so forth. The school received the equipment. She felt it wasn't necessary at this time to go into a cable channel and we should wait until we renegotiate the contract with whoever it is.

Selectman Joe Mills said in 1994 Selectman Herlihy had experience in the broadcast business and he volunteered to do the contract. Since then, he said, we've found some things that were missed. Mr. Mills expressed his desire to hire a professional negotiator to do the next contract.

Several speakers voiced their support of this article. Andrea Papoutsy thought having the school closing information would be helpful. Selectman Jenness stated the selectmen have said right along that this would not put any demands on personnel at the town hall. They simply don't have the time to do it. This would be worked out with the Communications Committee and our website. She felt it would not include school delays and closings as there wouldn't be any personnel capable of doing that at five o'clock in the morning.

Mike Schwartz said from his perspective they want to communicate as much as possible. He said perhaps in the future the selectmen could agree to include what is on the school's website. In response to a question from Joe Mills, Mr. Schwartz stated this would be like a power point presentation, not sub titles.

Moderator Hoefle re-read Mrs. Rizkalla's amendment. He called for a **VOTE** on the amendment.

SHOW OF HANDS. Amendment is declared Passed.

Paula Snyder *moved to amend Article 15* by adding the word "not" in the first sentence so that it would read "(By petition) To see if the Town will vote **not** to allow the Rye Selectmen to broadcast town news on Comcast's local public cable channel."

Moderator Hoefle called for a second to her motion. Christopher Guerin seconded the motion.

Mrs. Snyder stated the contract will be up in 2009 at which time the selectmen will negotiate a new one. She said she'd prefer to wait until that time and have the selectmen negotiate something for the town that is really *given* to the town. She felt Comcast has \$4,000 and could afford to give us that equipment.

Bob Vincent asked if Verizon has contacted the town about putting in their new capability. Mr. Ladrie said he has learned Verizon will be installing new optic cable. Atty. Donovan clarified they don't need the Selectmen's permission to do that.

Guy Chichester said he felt this amendment is at the wrong time, if at all.

Following comments from Susan Rizkalla, Philip McDonough motioned to **move the question**, seconded by Jack Tobey. **SO VOTED.**

Moderator Hoefle read Mrs. Snyder's proposed amendment in its entirety. He called for a **VOTE** on the amendment. **SHOW OF HANDS. Amendment fails**

Moderator Hoefle ascertained that the vote had already been taken on Mrs. Rizkalla's amendment and **ordered Article 15 placed on the ballot as amended.**

The moderator read Article 16.

ARTICLE 16. (By petition) To see if the Town will vote to request that the Rye Selectmen send periodic email notifications to town residents who request such notifications. The email notifications will update town residents on town events, meeting and activities. All email will be approved by the Selectmen.

It was **moved** by Michael Schwartz and seconded by Susan Rizkalla, to place Article 16 on the floor for discussion.

Mr. Schwartz said this is one more way to help with communication.

Mr. Mills asked who will prepare all this email to which Mr. Schwartz responded that this too would be the same information that is on the website and the Communications Committee would transfer that information.

Paula Snyder said this information will be already available on the website. She asked how often will these emails be sent out and who is going to do it? Mrs. Snyder ascertained there are three members on the Communications Committee. She said she could not imagine how long they are going to be willing to sit at their computers and update all the information as necessary. She envisioned that down the road we're going to have to pay somebody to do it. Mrs. Snyder said we already have a quarterly newsletter that comes out from the selectmen. She felt much of the responsibility will fall upon the Selectmen's executive secretary, who is extremely busy. Mrs. Snyder **offered an amendment to Article 16.**

Moderator Hoefle read the proposed amendment. "To see if the town will vote **not** to request that the Rye Selectmen send periodic email notifications to town residents."

Bill Ladrie seconded the motion to amend.

Several speakers voiced their support for this article and the need for information and communication in our town. Susan Rizkalla said this gives the opportunity for the email notification. Joe Falletti said he thought this is a great idea.

Bob Eaton motioned to **move the question.** Jack Tobey seconded the motion. **SHOW OF HANDS. Motion carries.**

Moderator Hoefle re-read Mrs. Snyder's proposed amendment. He called for a **VOTE.** **SHOW OF HANDS. Amendment fails.**

There being no further discussion, **Moderator Hoefle ordered Article 16 placed on the ballot as written.**

Moderator Hoefle read Article 17.

ARTICLE 17. To see if the Town will vote to authorize the Selectmen to sell to the highest bidder at public auction, or sealed bid, such surplus Town equipment as is not traded in on new equipment in 2006.

It was **moved** by Selectman Mills, seconded by Selectman Jenness, to place Article 17 on the floor for discussion.

The moderator called for discussion. Hearing none, **Moderator Hoefle ordered Article 17 placed on the ballot as written.**

The moderator read Article 18.

ARTICLE 18. To transact any other business which may legally come before this meeting.

It was **moved** by Craig Musselman, seconded by Priscilla Jenness, to place Article 18 on the floor for discussion.

Jack Tobey asked the selectmen to comment on the progress of the Public Safety Building.

Selectman Mills said the project is behind and has been extended to the Spring. He stated that it is not over budget. Mr. Mills asked Mr. Tobey if that answered his question. Mr. Tobey responded affirmatively and said thank you.

Moderator Hoefle called for any further comments. Hearing none, the moderator entertained a motion to recess.

Bill Ladrie **moved to adjourn**, seconded by Joe Mills. *Motion to adjourn carries.*

Meeting adjourned at 12:02 pm

Respectfully submitted,

Jane E. Ireland
Town Clerk/Tax Collector

A true record, ATTEST:

BUDGET OF THE TOWN/CITY

OF: RYE

BUDGET FORM FOR TOWNS WHICH HAVE ADOPTED
THE PROVISIONS OF RSA 32:14 THROUGH 32:24

Appropriations and Estimates of Revenue for the Ensuing Year January 1, 2006 to December 31, 2006

or Fiscal Year From _____ to _____

IMPORTANT:

Please read RSA 32:5 applicable to all municipalities.

1. Use this form to list the entire budget in the appropriate recommended and not recommended area. This means the operating budget and all special and individual warrant articles must be posted.
2. Hold at least one public hearing on this budget.
3. When completed, a copy of the budget must be posted with the warrant. Another copy must be placed on file with the town clerk, and a copy sent to the Department of Revenue Administration at the address below.

This is to certify that this budget was posted with the warrant on the (date) _____.

BUDGET COMMITTEE

Please sign in ink.

James Mahan

Robert R. Crapo

David Goldman

Allen R. Lewis

J. L. ...

Robert H. ...

J. S. ...

THIS BUDGET SHALL BE POSTED WITH THE TOWN WARRANT

FOR DRA USE ONLY

NH DEPARTMENT OF REVENUE ADMINISTRATION
 COMMUNITY SERVICES DIVISION
 MUNICIPAL FINANCE BUREAU

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen
Town of Rye
Rye, New Hampshire

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Rye as of and for the year ended December 31, 2005, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Rye as of December 31, 2005, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Rye basic financial statements. The combining and individual fund statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. They have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ASSESSOR'S REPORT

Assessor – Howard Promer, CNHA
Clerk – Heather Austin
Field Appraiser – Todd Haywood, CNHA

We are now in our fourth year of the New Hampshire Department of Revenue Administration requested valuation system overhaul of every municipality in the state. This is an effort to establish a more uniform way of assessing property, state wide. The State has also required that property valuations must be maintained as close to fair market value as possible. The updated valuations and lower tax rates were the culmination of the State Constitution requirement to review valuations at least once every five years (Part 2, Article 6). This year we have completed our Town wide update and expect the ratio (relationship of assessed value to fair market value) to be approximately 100%.

Field Appraiser Todd Haywood is now commencing his third year of the four year cycle in which every building in town is re-measured and re-inspected. The results of the first two years of the program have illustrated how beneficial it is for the property owner to allow the interior inspection. Much of the data in the assessing system is historical information dating back to the 2001 full scale revaluation done by Vision Appraisal Technology. If an interior inspection was not done at that time then the file may be even more outdated or inaccurate. When entry was not gained, the data collector estimated various interior features including total room count, number of bedrooms and bathrooms, type of heating system, building age and quality, among other factors. If the data collector guessed wrong, those errors could distort the valuation. Todd has corrected many such instances to the advantage of the taxpayer. Listing can be checked at the web address stated below. If an owner finds errors, please call 964-5523 to arrange an inspection appointment.

The State's Department of Revenue Administration (DRA) has commenced its independent review of the Town's Assessing Department compliance with equalization standards and practices. A sampling of properties has been randomly selected by the DRA to be re-measured and re-inspected for accuracy. This will be an on-going process throughout the next few months. The DRA procedure is separate from the four year cyclical review being conducted by the Town.

The values and property information are available to you online. It is updated four times a year. Please visit <http://data.visionappraisal.com/ryenh/> or call the office at 964-5523 if we can help you. By the same token, the staff expresses its gratitude for the cooperation and assistance we receive from the town's residents and visitors.

Respectfully submitted,

Howard Promer, CNHA – Assessor
Heather Austin, Assessing Clerk

BEACH COMMISSION'S REPORT

The summer of 2005 was another busy one for your Beach Commissioners and our twelve lifeguards. For the first time, we split the supervisor's responsibilities between two of our senior guards, Keith Svihvec, and Kenny Ambach. Under their leadership, we had very few problems as we continue to be blessed with an outstanding group of seasoned lifeguards.

This past summer we installed the trash barrels at the end of Cable and Wallis Road Extension beaches for the entire season. The combination of the state "carry in, carry out" policy, along with our barrels, certainly contributed to cleaner beaches in 2005. Additional police presence helped to discourage alcohol consumption on our beaches, as well as dogs on the beaches in violation of the posted hours.

Perhaps the most time consuming issue each year relates to our surfing regulations. In addition to where our surfers should be allowed to surf, new equipment on the market requires us to redefine on an ongoing basis what a surfboard is, versus a kayak, or a boat. We are planning a meeting this spring to address these issues prior to the start of the 2006 season. Our number one priority will always be the safety of our swimmers.

Respectfully Submitted,

Peter Clark, Chairman

POLITICS SUSPECTED

A glimpse into our past: Rye on the Rocks, William M. Varrell, 1962

"One of Rye's worst sea tragedies occurred in 1768 when a large fishing schooner, "The Capt. Beck", sailing out of Rye Harbor under the command of Capt. Ben Randall, was lost at Salisbury with all hands..... Farmer and Moore's New Hampshire Gazetteer of 1823 reports that to that time at least forty seamen had been lost on the rocks of Rye.

By the 1870s the wreck of the lumber schooner, Express, at Wallis Sands was only one of the many local wrecks that generated enough concern for Rye to be chosen as the site of one of the Government Life Saving Stations to be built on the Atlantic Coast. Although this first station was little more than a small shack in which to store a surf boat, perhaps it was an unrecorded wreck which in 1874 prompted the building of a more permanent building which offered living accommodations for the keeper and six to eight members of a fulltime crew..... It could well have been a political maneuver which had the first Rye Station constructed in the "moneyed" end of town* for the majority of wrecks of that period involved ships which piled up at Wallis Sands while attempting to reach Portsmouth Harbor."

* The first Life Saving Station was built at Locke's Neck at the end of Jenness Beach. In 1889, a second station was built at Wallis Sands. Neither Life Saving Station was concerned with the safety of swimmers; in fact, at the height of the summer season, they were closed for a two-month vacation with no pay.

BOARD OF ADJUSTMENT'S ANNUAL REPORT

The Board of Adjustment consists of five members who are appointed by the Selectmen for a three year term. The appointments are staggered in order to insure the continuity of the Board. The qualifications to serve on the Board are the same for those of any other position of trust in a municipality: time, an interest in serving, impartiality, and a willingness to understand the process. The current members are: Frank Drake, Chairman; Benjamin King, Vice-Chairman; Jay Nadeau, Clerk; Raymond Jarvis and Shawn Crapo. The alternates are Paul Goldman and Betty Menson.

The power and duties of the Board of Adjustment are prescribed by NH State Law and delineated in the Rye Zoning Ordinance. The Board has the authority to act in four separate and distinct categories: Appeals from Administrative Decisions, Special Exceptions, Variances, and Equitable Waivers of Dimensional Requirements.

Appeals: To hear appeals from administrative decisions where it is alleged that the Zoning Officer has incorrectly applied the terms of the Ordinance

Special Exceptions: To decide special exceptions to the Ordinance which are specially delineated in the Ordinance. The granting of a special exception is a matter of right, not a privilege, provided that: the request is not injurious or detrimental to the neighborhood; it is in harmony with the general purpose and intent of the Ordinance; and meets all of the rules and requirements for that exception.

Variances: To grant or deny requests for Variances to the terms of the Zoning Ordinance. There are two distinct types of variances: use variances and area (or dimensional) variances. To be granted a variance must meet all of the following requirements:

1. The variance is consistent with the spirit of the ordinance.
2. Substantial justice will be done.
3. The value of surrounding properties will not be diminished.
4. The variance is not contrary to the public interest.
5. Special conditions of the property exist such that literal enforcement of the ordinance results in unnecessary hardship.

Equitable Waivers of Dimensional Requirements: The Board may grant an equitable waiver only for existing dimensional non-conformities provided the applicant can meet the required standards as listed in the Zoning Ordinance.

The Board heard 63 applications this year. Not all applications were formally voted on. Some applicants voluntarily withdrew their applications. Many of the approved applications were the result of the applicants and their architects working diligently to develop reasonable plans reflecting an awareness of the purpose and spirit of the Ordinance and the context of their property within the character of their neighborhood. Several of the granted variances involve making accommodations for septic system improvements on small, previously developed lots.

	Granted	Denied
Variances:	24	8
Special Exceptions:	5	0
Appeal from Adm. Decision:	0	2
Condo conversions:	3	
Equitable Waiver:	1	
Apartments:	2	

The Board of Adjustment had a 2005 budget appropriation of \$12,000 and revenues of \$5,990.

The members and alternates are to be commended for their consistent participation, attendance and attention to the details of the many petitions presented each year. A special thank you goes to Betty Menson for many years of thoughtful service as a regular member of the Board.

Respectfully submitted,

Frank Drake, Chairman

BUDGET COMMITTEE REPORT

In 2005 two newly elected members were added to the Budget Committee. They were Bob Eaton and Mel Low. Gary Dodds was selected to represent the School Board and Jane Langley, Frank Drake, and Ed Stokel represented the three Districts: Jenness Beach, Rye Beach, and the Water District. Continuing their terms were Jack Tobey, Paul Goldman, Doug Abrams and myself. Joe Mills was the Selectmen's Rep.

We met several times and followed our normal procedure of reviewing and analyzing the proposed budget with the Department Heads justifying each expense line. We are convinced that this process provides the town with the best product.

We have also been working on improving the Town and School budgeting processes relative to early-as-possible interaction with Department Heads and specifying the budgeting information needed by the Budget Committee.

I would like to acknowledge and thank Paul Goldman and Bob Eaton for their invaluable participation in our process. They spent a great deal of time and effort in reviewing and analyzing budget reports and questioning Department Heads.

Cyndi Gillespie and Nancy Weiland also deserve our appreciation. Cyndi provided the Committee with updated budgets and Nancy helped schedule our meetings. Their participation was a great help to us.

Respectfully submitted,

James G. Maheras, Chairman
Rye Budget Committee

A glimpse into our past: **History of Rye, N.H. 1623 – 1903**, L. B. Parsons, 1905

Among the Town of Rye Expenditures and Receipts of 1833

Paid the County Tax	\$ 129.06
Paid for Schooling	412.00
Paid repairs on East School house	.52
Paid repairs on South School house	5.35
Paid Superintending school committee	7.00
Paid Military expenses	31.58
Paid for killing Crows	18.60
Paid for killing Foxes	3.00
Paid funeral expenses for Josiah M. Batchelder	11.00
Paid doctor's bill	8.50
Paid support for 16 other individuals (ranging from 6.00 to 72.25)	
Paid Wood for Widow Jane Foss	6.09
Paid Repairs Pine tree Bridge 1833	16.53
Paid Appraisers Bill	57.00
Paid Town Clerk services	5.18
Raised by tax \$1,522.11 and received	\$1,475.99
Received of the State for Crows and Foxes	17.25
Received from the County for Paupers, 1833	61.16
Balance in favor of the town	183.97

BUILDING INSPECTOR'S REPORT

The office is open to the public Monday through Friday, 8:00 AM to 12:00 noon. Afternoons are reserved for appointments and inspections. The Building Inspector may be conducting inspections during these morning office hours but Sue Dunfey, Building and Planning Assistant is here and quite capable of answering most inquiries.

A building permit is necessary if you intend to construct, enlarge, alter, repair, move, demolish, renovate, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, or anything which is regulated by code, changing the siding, re-roofing, and for any out-buildings, including fences, decks, pools (above and in-ground) and sheds. Electricians and plumbers working on a job must obtain a permit from this office, be licensed in the State of New Hampshire and show proof of such when applying for the permit. The town is operating under the International Building Code and Residential Code 2000.

To obtain a building permit, you must complete the application form we have in the office. Required submittals include a site plan showing dimensions to the property lines and septic system, construction documents, elevations of the structure, and, if you are increasing your living space, a copy of your septic system operational approval from the State. If you are increasing the living area and do not have the operational approval, you will need to get a new septic system design approved by the State.

If the permit application is not complete, it will be sent back to you. It is important to adequately depict your project with accurate distances to property lines so we can review for compliance to zoning. Decks and patios placed on the ground are considered structures and need to meet the setbacks to property lines. This does include patios surrounding pools.

We always encourage asking questions prior to hiring a contractor or architect; however, it helps if you have your idea on paper to review.

Inspections required are: foundation after the foundation has been damp-proofed, rough framing, electrical and plumbing, and final inspection, which is done concurrently with the fire department. If there is a concern about the overall height or exact location of the foundation, a survey may be required to verify the structure meets the zoning regulations.

The fee is 1% of the total construction cost. Electricians and plumbers need to obtain their own permits and pay a fee of \$50 if the cost of the job is between \$1,000 and \$5,000, and \$100 if the job is more than \$5,000.

The Building Department had a 2005 budget appropriation of \$99,564 and revenues of \$183,813.

We issued 531 permits in 2005 compared to 511 in 2004.

Table comparing recent years - Construction Projects:

<u>CATEGORY</u>	<u>2005</u>	<u>2004</u>
Est. Construction Cost	\$17,177,891	\$21,942,316
Blg. Permit fees	\$183,813	\$266,041
New Homes	11	23
Additions	26	55
Demolish and Rebuild Structure	16	12

Respectfully submitted,

Susan Zarlengo, Building Inspector

CONSERVATION COMMISSION'S REPORT

The mission of the Rye Conservation Commission remains unchanged. The Commission is committed to the protection and proper utilization of Rye's natural resources. The Commission is the Town of Rye's gatekeeper for environmental concerns and acts as Advisor to other municipal boards whenever environmental issues are involved. The Commission is a community resource for gathering and dispersing information about Rye's natural resources and environmental health.

The Conservation Commission, in conjunction with its Open Space Subcommittee, has continued its commitment to the 2003 mandate from the town's citizens to preserve Rye's unique and picturesque character as a seacoast community that values wetlands, open space, woodlands, and landscapes of historic importance.

The Commission began 2005 with 149 protected acres, and is proud to report that presently there are 208 protected acres within Rye. Additionally, we expect to protect another 60 acres early in the upcoming year. All seven members of the Commission are deeply appreciative of the support we receive from the citizenry, and as always, the Commission welcomes input at the public hearings held about each land parcel under consideration for protection in perpetuity.

This year the Commission actively assisted other local and state land protection agencies in monitoring sites and investigating wetland buffer infractions. Conservation Commission members are frustrated and upset with the state's Department of Environmental Services; DES seems bent on approving permits even when our Commission documents and submits evidence of environmental disturbances on a given site. We will continue to report all infractions of wetland buffers and other environmental disturbances within our town.

We have entered into an agreement with the Rockingham County Conservation District and the U.S. Natural Resources Conservation Services (NRCS) to take environmentally sound yet aggressive steps (over a ten year period) to eradicate invasive species such as phragmites and bittersweet in our marshlands. Over time, this effort will substantially help to curtail the mosquito problem in our wetlands. Furthermore, we have met with the Mosquito Control Commission and strongly endorse the use of dragonflies in diminishing the mosquito problem in Rye.

This year marked the completion of our Salt Marsh Restoration Project at the Awcomin Marsh off Route 1A. The construction of observation platforms is now complete, including the construction of handicapped access ramps. The signage displays that will detail the different wildlife habitats within the marsh are nearly finished. The Commission will hold a dedication ceremony in the spring of 2006. We hope many townspeople will attend and enjoy the beauty of this special natural resource within our town's borders.

Respectfully submitted,

James S. Raynes, Chairman

EMERGENCY MANAGEMENT DIRECTOR'S REPORT

In a letter dated December 29, 2005, Mark Zartarian submitted his resignation as Rye Emergency Management Director to the Selectmen effective at noon December 30, 2005. Mark had served the Town in this capacity since April 1997.

Aware of a scheduled mid January Emergency Management Exercise, the Selectmen immediately appointed Police Chief Alan Gould as Acting Emergency Management Director effective January 1, 2006. On January 23rd, the Board appointed Fire Chief Rich O'Brien as a Deputy Director. They join Deputy Director Kenneth Moynahan to provide the Town with a strong Emergency Management team.

The Emergency Management Program, and delivery of its services, has been a significant aspect of the new Public Safety Building planning and design. This includes an Emergency Operation Center (E.O.C.) located on the lower level of the building. The E.O.C. will be equipped in a way that will allow Town officials to provide all necessary services to the community in the event of a natural or manmade emergency/disaster. Inclusion of a generator at this site is a major preparedness factor. The Town has been approved for about \$20,000 in grants from the N. H. Office of Emergency Management that will cover most, if not all, of the necessary equipment.

In an effort to manage costs related to Emergency Management, during 2005 the Board of Selectmen, working with a NEXTEL representative, was able to reduce the cost of our cell phone services by one half. This should save approximately \$2000 a year.

As in the past, Rye continues to participate in the DPW State Mutual Aid Agreement. This agreement brings to bear many resources of both men and equipment in the event of emergency.

For your information, the Town of Rye has become a member of The Greater Portsmouth Public Health Network, one of 14 public health network sites around New Hampshire. Dr. Gail Snow, our Health Officer, and Selectman Priscilla Jenness are members of the Advisory Committee. The year has been devoted to community health status assessment, emergency preparedness, prioritization of public health needs, and development of a Public Health Improvement Plan. A simulated mass inoculation exercise was held last fall, using regular flu shots, in order to test the logistics related to preparedness for a pandemic emergency.

Respectfully submitted,

Alan S. Gould, Acting Emergency Management Director

Emergency Management in 1890 required drills to practice rescue of seamen whose ships ran aground on the rocks of Rye. The Jenness Beach Life Saving Station (center background) was closed in summer.

FIRE CHIEF'S REPORT

2005 has again been a productive year for the Fire Department. With the anticipation of moving into a new facility, extensive work and logistical planning to make the move a smooth one has been part of our daily life throughout the year. Our call volume remains consistent and our members continue to improve their firefighting and emergency medical service skills through many hours of training.

PERSONNEL

Throughout the year, the fire department has been constantly trying to attract new call firefighters to help augment the full-time firefighting force. We were fortunate to add 4 new call firefighters to the roster, however we said 'goodbye' to a few members that moved out of the area. A long-time member, John Lear retired from the call department after serving over 18 years on the department. Later in the year, the Fire Department started the firefighter intern program. The program invites prospective high school students interested in a career in emergency services. We currently have 2 interns completing numerous hours of basic fire / EMS training.

GRANT FUNDING

This past year was a very good year for grants. In the beginning of the year, we received a 50/50 grant of \$ 1,347 from the U.S Volunteer Fire Assistance Fund for brush fire and wildland firefighting protective gear for our firefighters. N.H Homeland Security Grants (non-matching grant) delivered the last of the new mobile radios for all of the Department's vehicles, a value of approximately \$ 26,000. And this past fall, the Department received a 95 / 5 grant from the Department of Homeland Security 2005 Assistance to Firefighters Grant Program. The \$ 113,123 grant will be for the purchase for new self-contained breathing apparatus for firefighting.

In closing, I want to thank the residents of Rye for their continued support of your Fire Department. Many challenges lie ahead for our Department as our community grows, and I want to assure you that the members of the Department will continue to train and prepare to meet the growing and changing needs of our community while delivering competent and compassionate service.

FIRE DEPARTMENT EMERGENCY ACTIVITY

Richard S. O'Brien, Fire Chief

FOREST FIRE WARDENS REPORT

Report of the Forest Fire Warden and State Forest Ranger
Philip Bryce, Director, Division of Forests and Lands (New Hampshire DRED)

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce risk and frequency of wildland fires in New Hampshire. To help assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. A fire permit is required for all outside burning unless the ground is completely covered with snow. The N.H. Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES a 1-800-498-6868 or www.des.state.nh.us for more information. For more information please contact the Division of Forests & Lands at (603) 271-2217, or online at www.nhdfll.org.

Fire activity was high the first several weeks of the 2005 fire season, with red-flag conditions issued by the National Weather Service and extreme fire danger in the southern and central portions of the state. This period of increased initial attack activity prompted a 5-day ban on open burning, the first such ban in several years. Despite the dry conditions, the state's largest wildland fire was contained at 29 acres. Our statewide system of fire lookout towers is credited with keeping fires small and saving several structures this season due to their quick and accurate spotting capabilities. Fires in the wildland urban interface damaged 10 structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their homes. Precautions include keeping roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

2005 FIRE STATISTICS (All fires reported as of November 4, 2005)

Equipment	7		
Lightning	5		
Misc.*	111	(*Misc.: power lines, fireworks, electric fences, etc.)	

ONLY YOU CAN PREVENT WILDLAND FIRE

HEALTH OFFICER'S REPORT

The year 2005 was, as in previous years, a very productive and challenging one for me as your Health Officer. Earlier this year, the Portsmouth Public Health Network was formed from a grant given to the City of Portsmouth. The Network, which encompasses a wide spectrum of health and public safety issues, involves officials and health officers from Portsmouth, Rye, Newington, New Castle, and Greenland. Priscilla Jenness and I have attended several meetings and work sessions and will continue to do so on behalf of the Town of Rye.

West Nile Virus and Eastern Equine Encephalitis continue to be a threat to our area. This year, I attended meetings of the Mosquito Control Commission as well as the School Board to evaluate and stress the need for ongoing prevention as well as address emergency spraying issues in areas where threat of EEE was the greatest. The Town of Rye has been fortunate not to have had any human cases of the virus thus far. Before 2004, EEE activity had been documented in several equine species but, in 2004, 1 human case as well as 3 horses, 3 emus, and 19 mosquito pools were reported in New Hampshire. In 2005, there were 7 human cases of EEE resulting in 2 fatalities. Also, there were 9 horses, 54 birds (including emus), 1 llama, and 15 mosquito pools testing positive for the EEE virus in New Hampshire.

Regarding the West Nile Virus, the number of birds testing positive rose from 14 in 2004 to 46 in 2005. Prevention against contracting these mosquito-borne viruses includes wearing protective clothing (e.g. long-sleeve shirts, long pants), wearing mosquito repellent, and decreasing opportunities for mosquitoes to breed.

Regarding rabies, I am pleased to report that there have been no human cases reported in New Hampshire in 2005. There were, however, several animals that tested positive for the disease (6 raccoons, 3 skunks, 1 fox, and 1 bat); but none in the Town of Rye. I continue to urge all animal owners to make sure that their animals have a current rabies vaccination.

This year, as in previous years, I have been working with the Chief of Police and the Fire Chief to make sure that their staffs are current with hepatitis B immunizations. I will be conducting an immunization clinic for these individuals in 2006. I have also continued to periodically inspect day care facilities and their operations as the need arises. I also have endeavored to be available to the Town and its citizens to answer health-related questions.

I would like to express my appreciation to the Board of Selectwoman/Selectmen, Town personnel, and to the Citizens of Rye for their continued support and cooperation. I look forward to a very productive year ahead.

Respectfully submitted,

Gail A. Snow, M.D.
Health Officer

RYE HISTORIC DISTRICT COMMISSION'S REPORT

Forty years ago, the Historic District Commission was created by town vote on petition of Elizabeth A. Green. Norman C. Kent served as chairman of the seven-member commission appointed by the Selectmen. The District has since been expanded to include the Brackett Massacre Site, the New Hampshire Isles of Shoals and the Cable House.

A shield has been erected at Star Island indicating that the island is located in Rye, New Hampshire.

A similar shield has been given to the seventh grade Lighthouse Kids in North Hampton School, to be placed at the White Island Light. It is through the efforts of these students, under the direction of their teacher Sue Reynolds (from Rye), that the lighthouse has been restored and saved.

Historic areas are fragile. Preservation of an historic district requires the active participation of its citizenry. They are community treasures and should be a haven from development and growth, which could alter the entire seacoast forever.

Meetings are scheduled as needed and are legally posted at the Library, Town Hall, and Post Office. Public input is welcome.

Respectfully submitted,

Jane Holway, Chairman

A glimpse into our past: History of Rye, N.H. 1623 – 1903, L. B. Parsons, 1905

BREAKFAST HILL

“The most serious attack ever made by the savages upon the settlers at Portsmouth, so far as the number of persons slain and the amount of property destroyed was concerned, took place five years after the murderous raid upon the Brackett’s lane district of Sandy Beach.”(Rye)

Parsons, in his History of Rye, quotes from Brewster’s “Rambles About Portsmouth” in which Brewster described the occurrences of June 26, 1696 when Indians, fresh from raids in Dover, attacked the settlement at the Portsmouth Plains.

“The people awoke at early dawn from their slumber and were greeted with the light of their burning barns. The Indians then sounded their war whoop, turned their havoc to the houses, rushed upon the inmates, and seized such valuable property as could be made portable to them. Such of the women and children as could flee made their way toward the garrison house; while the sick and infirm could at farthest only absent themselves from their homes to some retired spot. The men fought the Indians with such implements as came to hand, til the contest became useless.”

The Indians overpowered those who fought, burned the dwellings and barns, left dead and wounded behind, then ambushed and took prisoner solitary individuals. When news of the raid reached the Banke (the commercial part of Portsmouth), Captain Shackford “rallied his military company and set off in pursuit”.

“About four miles distant from the Plains the military company discovered the incendiaries with their plunder and captives.....The company rushed upon the ground, rescued the prisoners, and retook the plunder; but the enemy escaped and concealed themselves in the swamp til night; then in their canoes took their departure.”

“It was from the circumstances of the Indians and their captives being engaged in taking breakfast on the declivity of a hill near the bounds of Greenland and Rye, that the location was called Breakfast Hill, and has ever since been known by that name.”

RYE HISTORICAL SOCIETY'S REPORT

RYE TOWN MUSEUM

The Rye Town Museum completed a very successful year in December. Many new, and old, visitors were drawn to the new exhibit, "Summering in Rye – Over a Century by the Sea". With only a few changes, the exhibit will be in place during the upcoming season, beginning in May.

The Museum building and handicapped accessible ramp have both been newly stained white. New rain gutters have been installed on the front and back of the building. Some reworking of the landscaping has begun and will continue as weather permits.

The major work of the year ahead will be tending to the collection of artifacts and papers stored at the Museum. As we continue to unpack boxes and accept items from donors, everything has to be catalogued on a computer and stored safely and properly in archival boxes and folders. We will apply for a grant to fund this much-needed project.

The Museum is closed for the winter except by appointment. For information call 436-5101 or 964-9079.

Respectfully submitted,

Bonnie Goodwin & Alex Herlihy
Co-Chairmen, Rye Historical Society

ALTERNATIVE MEDICINE IN RYE'S HISTORY?

A glimpse into our past: Rye on the Rocks, William M. Varrell, 1962

"As any other community, whatever the size, Rye also has its history of town characters. Although not tried as a witch, had she lived in 1660 rather than 1860, a witch trial would likely have been the fate of Rye's Molly Ham. Living in a small one story unpainted house on Straw's Point (Locke's Neck) during the days of Rye's resort fame, her life and habits never seemed to escape comment. The widow of John Ham, a sailor,In the days of the nearby grand hotels filled with ladies wearing hoops and full skirts, Molly never failed to gain attention in her dress of shortest homespun, a man's palm leaf hat tied down "after the bathing fashion" with a homespun handkerchief, another piece of homespun across her shoulders, and steadied by a broomstick cane....."

Molly's chief asset to Rye, and no doubt the cause of much of the rumor that circulated about her, was her reputed power in the treatment of toothache. Evidently her powers of cure with a mysterious brew did the trick, as many reported to have made their way to her door when thus affected and come away cured. To quote from a newspaper of the eighteen seventies, "As I had for several days previous been troubled with an aching tooth, I concluded to let Molly charm the aching tooth. We were kindly received by her, and were ushered into her best room, and such a room. In one corner was a bed and at its foot was a table covered with a little of everything. Close to that was a chest, and so on around the room all spaces being filled with broken crockery and rubbish of all kinds. A little spot in front of the fireplace was vacant, and there I sat while Molly put her dirty, bony finger on the tooth and muttered something, not a syllable of which I could understand, but the tooth ached no more for years"."

LIBRARY DIRECTOR'S REPORT

The Rye Public Library has been in transition this year, but continues to be a strong, integral part of our community. The theme this year was teamwork. Although the Library Director, **Gary Mason**, and the Youth Department Director, **Sharon Macdonald**, both resigned their positions, the remaining full-time staff, **Tricia Quinn**, **Pam Woods**, **Martha Jones** and **Stefania Metalious** formed a team in order to maintain and ensure good service to our patrons. **Jonathan Ramsay** resigned his position, and is now the Technology Technician at the Rye Junior High School. Long time staffers **Juliette Doherty** and **Brenda Nolette** continue to support our team, as well as our new staff members: **Shawna Healy**, **Margaret Hutchins** and **Brian Wheeler** and our page, **Stephen Mardin**. Of course, our very special **Jim Chase**, who is an important member of the team, continues to offer his services by keeping the building in wonderful condition.

Stefania Metalious completed her master's degree in Library Science this year and stepped up as our new Youth Director this summer. She kicked off the Summer Reading Program "**Camp Wannaread**" where over 150 readers signed up to participate. Story times, book discussions and school visits continued and monthly Craft Nights, Friday Afternoon Flicks and weekly Game Nights were added to accommodate a very active after school crowd. Local art decorated the walls, more computers were made available and "**Sir Readsalot**" the fish was welcomed in the Youth Department.

The **Friends of the Rye Public Library** continued to be a very special part of the Library team. Their annual membership drive was most successful and we thank everyone for their generosity. These funds help the Friends to purchase Library memberships to museums in the Seacoast area, Boston, Manchester, Salem and Portland, Maine. Their **Speaker Series** helped to encourage the art of writing and publishing by giving our patrons an opportunity to meet local authors and by inviting these authors to talk about their books at the Library. The membership funds also helped the Friends purchase a new laptop computer, a toddler table and chairs, rolling bookcases, a magazine rack for the Library and helped to give financial support for the Summer Reading Program. We lost some special Friends in 2005, **Libby Wentzell**, **Joan Larson** and **Ruth Rarer** and wish to extend our sympathy to their families.

The Library supported the arts in other ways this year. Portsmouth Poet Laureate, **Mimi White**, offered a writing workshop for patrons. **Carol Glaser** conducted a monthly Film Discussion. Another member of our team, the **Library Fine Arts Committee**, helped to gather and exhibit four art displays. (We want to thank all the Seacoast artists for sharing their artwork with the many, many people who visited the Community Meeting Room.) **Rye Art Study** provided five art lectures and **Rye Driftwood Garden Club** made our window boxes look like artwork.

We wish to extend our thanks to the **Rye Lions** for always honoring our requests for assistance when in need of help or information for one of our patrons. The faithful **volunteers** are offered our special thanks as a very important part of our team. They spend many hours shelving, mending and processing materials for us. This year **Bob Mitchell** retired as one of our volunteers, but still visits us regularly. We thank him for his many hours of service to the Library. **Mary Smith**, who volunteers every Wednesday morning to help the knitters in town, is our new volunteer.

Statistics for the year 2005: Total number of items circulated 68,175 - Number of patrons 4,847
Interlibrary loan materials borrowed 1,197 - Materials loaned to other libraries 1,388
Community Meeting Room was used 324 times - NH Conference Room was used 82 times
Largest attendance at a Library program - 117 people received a flu shot on 10/19 Compass Care Flu Clinic

The Library has grown in numbers statistically, but it has also grown in spirit – a place that truly is the heart of the community. We thank everyone who completed and returned our survey this year. It is our hope to take the suggestions and make your Library even better. And for all those special patrons who gave us a box of chocolates or a kind note or just a knowing smile, we appreciate your support. Most important though, we need you on our team so we can all work together and continue to ensure that the Library remains a real community center. Please visit the Library or our website www.rye.lib.nh.us and let us know how we can be of service to you.

Respectively submitted,

Tricia Quinn - Interim Director

LIBRARY TRUSTEES' REPORT

Your Trustees are very honored to serve the Town, and we thank you for this opportunity. We are pleased to report that the Rye Public Library continues to be very sound financially and in its staffing and programming. The year 2005 saw many changes and many activities at the Library.

In the March 2005 election, the voters elected Deborah Genestreti to serve for a three year term. At that point the three Trustees were David Brown, Victor Azzi, and Deborah Genestreti. Following the election, David continued as Chairperson.

In August, Gary Mason resigned his position as Library Director and relocated. He had been hired in April of 2004. With his departure, the staff and the Trustees discussed their options and decided to move slowly on finding a new Library Director. Various director's duties were distributed amongst the full-time staff. The temporary system has worked very well, and the staff are to be commended for their efforts. The Trustees anticipate focusing on the search for a new Library Director in the Spring of 2006. Tricia Quinn has served as Interim Director. Stefania Metalious was appointed to the position of Youth Department Director. Pam Woods and Martha Jones took on additional duties. The rest of the staff jumped in to help make things run smoothly.

The Library also conducted a Town-wide survey under the auspices of the UNH Survey Center. The survey report was received in the late fall. The rate of return was 11% (over 300 responses) which was deemed to be statistically sound by the UNH office. The Rye Public Library Survey Committee is analyzing the results at this time and the results will be used in guiding the future of the Library. Thanks to all for taking the time to participate.

The Staff deserves special mention for their excellent service especially in times of change. We truly appreciate their hard work and team spirit. We are lucky to have so many dedicated individuals working at the Library. The survey showed that the patrons agree!

The Library was the scene of an exciting and unusual event as the year ended in December. Carmela Sainz de Baranda, a native of Spain, a film maker, and now a resident of the Newburyport area, was searching for a public library at which she could bring her film crew to make a film entitled "Magic Happens" about a small community library. She visited your Library and found it an ideal setting. The filming was done in December and went past midnight. Tricia Quinn and Pam Woods played starring roles. We hope they do not move on to new careers as we need them here! We look forward to seeing the final version. Carmela and her crew, Tricia, Pam and others deserve our thanks for their extra efforts.

As always it is important to give thanks to all those who support, fund, and run the Rye Public Library. Without all of you, the Rye Public Library would not be the wonderful facility that it is. The Trustees extend their thanks to the Friends of the Rye Public Library, the many members of the Volunteers of the Rye Public Library, and our Charitable Donors. The Trustees also extend their thanks and appreciation to the Townspeople, the Taxpayers, the Patrons, and the dedicated Staff. The Board of Selectmen and the Budget Committee deserve thanks for their support of the Library budget.

Respectfully submitted, as of January 2006,
The Trustees of the Rye Public Library
Victor D. Azzi
David S. Brown
Deborah Genestreti
By: David S. Brown, Chairman of the Board of Trustees

MOSQUITO CONTROL COMMISSION'S REPORT

The 2005 season was unusually wet and provided ideal conditions for mosquito development. Our mosquito control contractor was very busy trying to cope with above normal freshwater and saltwater mosquito breeding. All mosquito control work was completed without going over budget.

West Nile Virus (WNV) continues to increase with each passing year. Birds with WNV were so common in 2005 that the state decided to no longer accept them for testing. Since WNV had been documented throughout New Hampshire and North America, state health officials decided that their limited funding should be allocated for other WNV related uses. Various measures are being completed in Rye in response to the WNV threat. Freshwater habitats have been identified with mosquito species capable of WNV transmission. These habitats will be monitored and larvacided as necessary. Our street spraying program will be increased if a WNV outbreak occurs. In 2006, we plan to continue to identify, monitor and larvacide wetland habitats that breed mosquitos associated with WNV.

There is a new mosquito in our area called "japonicus". Japonicus was identified by our mosquito control contractor in Rye in 2002. It is a mosquito that breeds in the stagnant water of containers such as tires, cans, pool covers, clogged gutters, birdbaths and other artificial containers capable of holding rainwater for extended periods of time. Japonicus is prevalent in catch basins and storm water basins. This mosquito is a priority for mosquito control programs throughout North America since it is an excellent vector of WNV and other human diseases. Rye catch basins were controlled on a monthly basis in 2005.

Eastern Equine Encephalitis (EEE) was found throughout New Hampshire and southern Maine in 2005. The seacoast experienced dead birds, positive mosquitos and a dead horse (York, Maine). Statewide, there were bird, mosquito and human positives in 2005. Two human deaths occurred. Health officials are expecting a return of EEE to New Hampshire in 2006. In preparation for this, the mosquito control program is expanding to include controlling mosquito vector species. *Culiseta melanura*, the primary vector of EEE, will be identified and controlled in red maple swamps and woodland pools throughout the town.

The Rye Mosquito Control Commission is currently involved in planning a long-term salt marsh management project. The Commission is partnering with Ducks Unlimited and the New Hampshire Coastal Program. Most of the project will be funded by federal grants. Primary goal of this project is to control mosquito breeding by restoring pond (minnow) habitat, eliminating an invasive plant (*Phragmites*) causing water stagnation and eliminating the need to annually spray salt marsh sites. This project will utilize "state of the art" techniques that will provide valuable information for future projects in Rye and New England.

Mosquito control programs are expanding in New Hampshire as WNV and EEE becomes endemic to our area. Many communities are still unprotected and scrambling to start programs. Rye has an advantage over other communities in already having an established mosquito control program. WNV and EEE may be here to stay but the odds of human incidence can be reduced dramatically with a comprehensive mosquito control program.

Respectfully submitted,

Tom Aspinwall, Chairman
Mike Morrison, Municipal Pest Management

PLANNING BOARD'S REPORT

Probably the Planning Board activities which affected the largest numbers of Rye homeowners directly were work on reducing the cost of flood insurance and the updating of the Master Plan. The work which may have the greatest long term effect were projects for senior members of our community.

The Building and Planning Department work in future hazard mitigation planning resulted in adoption of the Rye Hazard Mitigation Plan by the Selectmen. The participation by the Town in FEMA's Community Rating System reduces residents' cost of premiums for flood plain insurance. The Long Range Planning Committee of the Planning Board work on an update of the 1998 Rye Master Plan is planned to be completed early in 2006.

Two separate proposals for seniors were before the Board this year. Both included proposed changes to the Rye Zoning Ordinance:

1. **Retirement Community Development (RCD):** This proposed change to the zoning ordinance would allow a maximum of 16 dwelling units for seniors (age 62+) at one location. A bonus of additional units is offered for affordable housing. This proposal will be on the March 2006 ballot.
2. **Planned Continuous Care Retirement Community (PCCRC):** This proposal for changes to the zoning ordinance would facilitate a retirement "village" on the far side of Lafayette Road. It would provide services for persons aged 62+, with independent living units, assisted living units, long term care units, and skilled care nursing. It was not voted to be on the March ballot, but will instead be studied by a special Planning Board committee with recommendations due no later than September 2006.

Other items of interest on the Planning Board's docket during the past year included:

1. Changes to the Wentworth By The Sea Country Club to add parking and access to the Tennis Court building;
2. Changes to the zoning ordinance including clarification of the one building-one lot rule (Sec. 202.4), and changing the common area requirement for condominium conversions (detached dwellings) from 1/3 to 90% of the area of the parcel (excluding buildings and individual unit owners' vehicles).
3. A citizen petition for the March ballot to reverse the changes made by the Town Meeting in 1999 which designated golf courses as an allowed use in the Single Residence District;
4. Several condominium conversions for parcels containing two dwelling units;
5. A number of Lot Line Adjustments and a 5 lot Subdivision

Respectfully submitted,

Robert T. Brown, Chairman

ROCKINGHAM PLANNING COMMISSION REPORT

The Rockingham Planning Commission (RPC) is one of nine regional planning commissions created by New Hampshire state law. Our Commission's Region consists of 27 Rockingham County towns and cities. The Commission operates with a volunteer Board of Directors, a paid professional staff made up of: land use and transportation planners, Geographic Information System (GIS) specialists, transportation modelers, and transportation analysts. Member municipalities' Selectmen appoint representatives to the Commission as recommended by the Planning Board. Bob Brown currently serves as Commissioner for Rye. Victor Azzi serves as an Alternate Commissioner. Mr. Brown is Vice Chairman of the RPC and also serves on the Executive Board, Developments of Regional Impact Committee, and Personnel Committee.

The Commissioners meet monthly to establish Commission policies on a variety of land use and planning issues important in the region. They adopt the annual work program, oversee the budget, and discuss current planning topics.

This year RPC Staff Consultants, in addition to their assistance on general areas of topical interest detailed below, assisted Rye in drafting chapters for our update of the Master Plan. This enabled our Long-Range Planning Committee to make their timetable and to obtain a \$10,000 grant thus minimizing the cost to the town

The RPC provides general assistance to the town through its continual involvement of several regional land use and transportation programs and studies:

- The U.S. Route 1 (Lafayette Road) Corridor Management Study
- Hearings and public meetings continue relative to the Newington-Dover Turnpike Widening (Newington-Dover Little Bay Bridges)
- Public Hearings of Developments of Regional Impact
- Conservation Commission Roundtable
- Land Use and Transportation Guidebook
- Innovative Land Use Model Ordinances
- Public Education and Outreach on Village and Hamlet Design
- Regional Housing Needs
- Hazard Mitigation Plans
- Analysis of Recent Important Federal and New Hampshire Court Cases, such as the *Boccia* case and the *Kelo* case
- Forums on Pending NH Legislation on Land Use
- GIS Analysis and Mapping for Master Plan Work and Regional Projects

In addition, the Rockingham Planning Commission, in coordination with the Strafford Regional Planning Commission and state and local transit agencies, serve the Town as the Seacoast Metropolitan Planning Organization (Seacoast MPO)

Respectfully Submitted,

R. T. Brown, RPC Commissioner and Planning Board Chairman

POLICE CHIEF'S REPORT

As the year 2005 ends, the Police Department looks anxiously toward the day it will move into the new Public Safety Building and looks back at the notable events of 2005.

In January of 2005 Officer Matt Boc left the Department for a job with the Dover Police. In May the vacant position was filled by Officer Matt Doyle who came to us as a certified officer with about five years of experience.

During the past year we received approximately \$30,000 in funding from various grant sources that enabled us to purchase equipment essential to protecting the community in years to come. As an example, the digital radio base station being installed in the new building will allow personnel in the police station to hear and talk to officers in the field. We have not had this capability since 2001 when all the portable and mobile radios in the State were converted to digital technology while our base station remained analog. This will be a valuable link in the event of a major emergency, whether natural or manmade.

A major challenge each summer has been to police our beaches while maintaining high visibility on our roadways. Grants totaling about \$5000 covered the costs of some "plainclothes" summer beach patrols and some targeted speed enforcement patrols. These issues will continue to be a challenge but evidence of some progress can be seen in our arrest statistics. Arrests in 2005 were up 29% over 2004 and as reported last year, arrests in 2004 were up 26% over 2003.

Residential burglaries are a good indication of how safe our residents should feel each time they leave their homes. In 2005 we had 7 residential burglaries and made arrests in six of them, leaving one unsolved. This happens to be the same record as last year.

This following sample of statistics is meant to provide the reader with a snapshot of how the Police Department spends much of its time and when compared from year to year, determine what trends might be developing.

Calls for Service	8667	Animal Control Calls	410
Motor Vehicle Stops	2503	911 Hang Ups	95
Arrests	264	Medical Aid	266
Accidents Investigated	151	Domestics	40
Alarm Responses	270	Juvenile Offenses	23
Suspicious Activity	311	Parking Fines Collected	\$25,840

The Rye Police Department thanks you for your continuing support.

Sincerely,

Alan S. Gould
Chief of Police

PUBLIC WORKS DIRECTOR'S REPORT

2005 was another year filled with infrastructure improvements and ongoing maintenance projects.

At the recycling center, a new roof was put on the green glass storage shed, while another of the glass and tin storage areas was moved. A total of 1,422.5 tons of trash was processed and we recycled 974.38 tons of materials. This produced \$75,609.63 in revenue for the town.

Road projects this year consisted of drainage, catch basin, paving and shoulder work. The crews could be seen on Garland Road, Sagamore Road, Wallis Road, Tehias and Alehson Roads, and South Road, to name a few. Time was spent in trimming brush, mowing and removing trees cut by Urban Tree.

In 2005, 3.12 miles of paving were completed.

At the Public Works Department we take great pride in keeping our roads safe for travel during winter storms. In 2005, we had 26 storms that required either plowing and/or sanding.

Miscellaneous jobs such as painting cross walks, stop lines, and school crossing lines were completed. We also continued with clean up efforts at the town beaches.

I would like to take this opportunity to thank the entire public works team for all their hard work in 2005 and we would like to thank you for your support and cooperation this past year. We look forward to continuing to serve you in 2006.

Respectfully submitted,

Everett E. "Bud" Jordan, Director
Public Works Department

KEEPING RYE ROADS SAFE FOR TRAVEL

SOUTHEAST REGIONAL REFUSE DISPOSAL DISTRICT 53-B REPORT

The Southeast Regional Refuse Disposal District 53-B includes the towns of Brentwood, Fremont, Hampton, Hampton Falls, Kensington, New Castle, North Hampton, Rye, Sandown and South Hampton. The District Committee holds an Annual Meeting on the first Tuesday of December each year to receive reports, choose officers and appoint members to the Operating Committee. At the Public Hearing and Annual Meeting held December 3, 2004, the District elected Chris Ganotis of North Hampton to serve as Chairman. The District Budget covers the fiscal period April 1 to March 31 of each year.

This was the fourteenth year the District has conducted the Household Hazardous Waste program for member towns. We held two collections – Hampton in the spring and Brentwood in the fall. **The collection in Hampton was held the second Saturday in May***. A total of 430 cars attended the collection representing 361 households. On September 10, the collection was held in Brentwood for the sixth time. A total of 155 cars attended representing 155 households. The total cost for both collections was \$26,358. The per household cost for Hampton was \$50.32 and the per household cost for Brentwood was \$52.85. A grant from the State of New Hampshire, based on the population of the District member towns, in the amount of \$8,347 helped to offset the costs. The remainder was paid out of District funds that had been budgeted for this purpose.

For the collection in Brentwood, we contracted with Newcore Asset Services to collect TV's, computer monitors, keyboards, and CPU's. The response was very good and we will again use Newcore at both our collections in 2006. Based on the continued positive response we receive to these collections, the committee feels they are a vital function of the District and should continue. Citizens in our member municipalities continue to become more familiar with the collections, and are willing to participate. **The District has budgeted funds in the 2006/2007 Budget to hold collections in the spring and fall of 2006.**

The District continued its Recycling Grant Program for education and public relations. Member towns, which applied for the grants, were Brentwood, Fremont, Kensington and North Hampton.

Brentwood, Fremont, Hampton, Hampton Falls, Kensington, New Castle, North Hampton, Rye, Sandown and South Hampton are currently tipping at Turnkey. In July, the current tipping fee of \$60.85 will be adjusted by the Boston CPI at the January 1, 2006 figure.

TOWNS APPORTIONMENT OF BUDGET FISCAL YEAR APRIL 2006 - MARCH 2007

Town	Admin.	Recycling/ HHW	Waste to Energy	Landfill	Septage	TOTAL 2005/2006
Brentwood	\$1,831	\$1,937	\$0	\$0	\$0	\$3,768
Fremont	\$1,785	\$1,887	\$0	\$0	\$0	\$3,672
Hampton	\$9,645	\$10,200	\$0	\$0	\$0	\$19,845
Hampton Falls	\$1,220	\$1,291	\$0	\$0	\$0	\$2,511
Kensington	\$1,167	\$1,234	\$0	\$0	\$0	\$2,401
New Castle	\$804	\$850	\$0	\$0	\$0	\$1,654
North Hampton	\$2,850	\$3,014	\$0	\$0	\$0	\$5,864
Rye	\$3,873	\$4,096	\$0	\$0	\$0	\$7,969
Sandown	\$2,846	\$3,010	\$0	\$0	\$0	\$5,856
South Hampton	\$579	\$612	\$0	\$0	\$0	\$1,191
TOTAL	\$26,600	\$28,131	\$0	\$0	\$0	\$54,731

* Rye uses the Hampton collection site. Watch for the date this spring.

REMEMBER WHEN RYE HAD A SEMI PRO HOCKEY TEAM?

During the second half of the 1940s and the early 1950s, the Rye Seahawks played an extensive schedule that included hockey venues in Laconia and Berlin, New Hampshire as well as Biddeford and Westbrook, Maine. They traveled frequently to the Lynn Arena to play Massachusetts teams and even to the old Boston Garden. On home ice, off I-A near the Carriage House, it was their habit to clear the ice of snow (if necessary), play the game, scrape the ice and then hook up to the hydrant and prepare the surface for the next game.

(Back row, l to r) Stuart Wright, Frank Ciolek, Irving "Flash" Jenness (for whom one of our recreation fields is named), Guy Kelsey, John Carter, (former Rye Police Chief) Leighton Remick, William "Bill" Jenness (later Rye Road Agent and then Building Inspector), Phil Goss and John Carberry (Front row, l to r) John "Jack" Hayes, Harlan Carter, Dick Peyser, John "Peanut" Colliton, Dave Boise (former Captain for his hockey team at Yale) and Dick Wilson.

RYE RECREATION COMMISSIONER'S REPORT

The Town of Rye Recreation Commission believes that recreation provides a critical foundation for the quality of life that makes Rye unique. Recreation is essential to the health and well being of the individual residents and the community of Rye. Recreation activities and services have far reaching personal, social, economic and environmental benefits. The role of the Town of Rye Recreation Department is to ensure that a broad range of recreation opportunities are available and accessible for all residents and that these are consistent with the needs and interest of the community and the space and resources available.

In 2005 programs offered included speaker series, indoor tennis lessons, yoga, winter day camp, babysitter's course, adult and infant CPR courses, first aid course, culinary classes, MFA day trip, summertime horizons day camp, track and field, basketball league, golf lessons, soccer league, basketball camp, soccer camp, golf camp, holiday craft classes, knitting classes, ski and snowboard lessons, body lift, and pilates.

The After School Program continues to service a vital need in our community. The program following morning kindergarten was full to capacity in 2005 and the afternoon program continues to prosper.

Rye Art in Bloom continues to be an extremely successful community event fostering relationships between the Recreation Department, Webster at Rye, Rye Art Study Group and Rye Driftwood Garden Club. Other events sponsored by the Recreation Department in 2005 were the Memorial Day Ceremony, which includes a poster contest for Rye Elementary School students and a poetry contest for Rye Junior High School students, and the Independence Day Celebration.

2005 was the second year an intern from the University of New Hampshire worked for the Recreation Department for the duration of our summer season. The internship was very successful overall.

The Recreation Department continually gets request for additional services, programming and facilities for residents of all ages. Current priority has been given to the establishment of a Recreation Master Plan. Land Futures, a recreation planning consulting firm, has been retained by the department to facilitate the master planning process. In the upcoming months the population, demographics and growth characteristics for the Town of Rye will be analyzed to determine current and future user demands on recreation facilities and programs. Residents will have the opportunity to participate in a recreation survey. For the Master Plan to be as accurate as possible it is important that we receive a good response to the survey. Existing town wide recreation property, trails, facilities and undeveloped recreation lands will be analyzed for future development opportunities. Future parks, trails, fields and facility needs will be considered based on existing standards and Rye's demographics. Capital improvements to existing and future facilities will be identified. Schematic site plan alternatives of existing and future recreation fields and facilities will be compiled. It is expected the final Recreation Master Plan document will be available in the fall 2006.

The Recreation Commission is a voluntary board that meets monthly. Meetings are open to the public and your attendance is welcomed. Current Commissioners are Stephen King, Paul Mackey, Vicki Loring, Jim Sullivan, Janet Stevens and Gregg Mikolaities, Chairman. Full time employees include Lee Arthur, Recreation Director; Jonathan Carleton, Program Director; and Amanda Breton, Assistant Program Director.

This past year we had over 100 volunteers assisting the delivery of programs and services. Their support is greatly appreciated and needed.

Respectfully submitted,
Gregg M. Mikolaities, Chairman

SEWER COMMISSION'S REPORT

The Sewer Commission is responsible for the administration, billing, operation and maintenance of the Rye Sewer District. The District currently has five hundred and twenty one accounts which include one new connection in 2005. The Commission also administers the billing and operation of Adams Mobile Home Park on Lafayette Road in Rye which is connected to the City of Portsmouth sewer system.

Inspections at three pumping stations are performed daily by the Clerk of the Works to insure the system is operating properly. Station maintenance is contracted out to the Town of Hampton.

The Sewer Commission encourages customers to install and utilize a secondary meter to measure accessory or incidental water usage that does not enter the public sewer system. Such usage would include lawn irrigation, swimming pools, etc. A permit is required and the customer is responsible for the installation and water meter expense. The meter is read annually and the customer is abated for the consumption.

It is important to note that no person shall discharge or cause to be discharged to the wastewater facilities any unpolluted or polluted waters such as storm water, ground water, roof runoff, or subsurface drainage.

The current Sewer Commission consist of David W. Kohlhase, Chairman; William J. Ladrue, Vice Chairman; Leon H. Valley, Commisioner; Walter J. Parenteau, Clerk of the Works; and Lee Arthur, Administrative Assistant.

The Sewer Commission Meetings are held the second Tuesday of each month in the courtroom at Town Hall and the public is encouraged to attend. The Sewer Commission Office is located on the second floor of Town Hall and is opened Monday – Friday, 8:00 a.m. – 12:00 p.m.

Respectfully submitted,

David W. Kohlhase, Chairman
Rye Sewer Commission

A glimpse into our past: *Rye on the Rocks*, William M. Varrell, Jr., 1962

“In 1932 Rye’s finest school burned to the ground and for a time it appeared that local readin’ and writin’ had been dealt a crippling blow, but when the smoke cleared it was Rye that came out ahead, for the consolidated school* was the direct result of the loss of the Center School and well before its contemporaries, local education passed from the ways of pot bellied stoves and privies.”

* The consolidated school is our Rye Junior High School’s original main building and gym, now the library, built for grades 1 through 8. At the time of the fire, Rye had four schools: the East School, West School, South School and Center School.

WELFARE DIRECTOR'S REPORT

Welfare must be given to any person in a town or city who is poor and unable to support him/herself, and must be maintained at the expense of the town or city of residence by the overseers of public welfare per RSA 165:1. This law reflects the duties the town's Welfare Department must adhere to.

During the past year, the Selectmen appointed Constance Olson to assist with the day-to-day operations of this department when I am not available. This appointment assures the citizens of Rye of complete coverage of this office. We are responsible to the Selectmen (overseers of the poor) and assist them in administering the fund.

The largest item in the Welfare budget is rent and over \$17,352.00 was spent for the 2005 year. It represents the increase in the rental cost due to lack of affordable housing in the Seacoast area, the increase in the property values in Rye and the increase in the number of clients requesting assistance. This office served approximately 50 clients during the past year, some for a one-time emergency and others on a monthly basis.

As a reminder, if you need help with your fuel cost: electric (discount on your bills), gas, oil or propane, please contact Rockingham Community Action, 436-3896 or 1-800-639-3896. All assistance is confidential and is based on your yearly income.

The Welfare office hours are Mondays from 8:30 a.m. until 12 noon and on an as needed basis during the week. It is necessary to call the Selectmen's office to make an appointment.

I would like to give a very special "Thank You" to Executive Secretary Nancy Weiland. As always, she has made time during her busy day to schedule appointments, assist our clients with their applications and generally make them feel comfortable during the entire process.

Respectfully submitted,

Paula S. Snyder, Welfare Director

Open to the sea as tidal marshland until the 1900-1902 construction of Route 1-A, Ocean Boulevard, Eel Pond now shelters a myriad of wildlife.

THE MILLS OF CEDAR SWAMP RUN

Brown's Grist Mill was located on Cedar Swamp Run adjacent to where it was bridged in Love Lane. A dam was constructed with overflow to create a pond with a controlled level of water. The result was perfect ice for skating, ice for refrigeration during summer months and power for the mill.

PHOTO: POSTCARD HISTORY SERIES
Lewis T. Karabatsos 2004

In 1695, Francis Jenness built the first mill in Rye. It was a sawmill and dam on Cedar Swamp Run near what became Burke's Pond. In 1903, L.B. Parsons wrote in his *History of Rye, N.H.*, "It is not probable, however, that there is any material in the mill now that was put into it when it was built."

PHOTOGRAPH: HISTORY OF RYE, N.H.
1623-1903, *Langdon B. Parsons 1905*

In 1903, L.B. Parsons wrote, "...and there was also a grist-mill, changed a number of years ago into a shingle mill and now abandoned, about 30 rods below the Jenness (saw) mill." Today, near this point, Cedar Run enters Eel Pond.

Lewis T. Karabatsos 2004 "Local residents believe this to be the Jenness Grain Mill located on Cedar Swamp Run on Red Mill Lane. (SC)"

CEDAR SWAMP RUN

“The Cedar Swamp Run of 1695 and the Jenness’ brook of 1740 are identical. The stream takes its rise in the low land northerly from the junction of West and South roads, and empties near the terminus of Ocean* road.”

**HISTORY of RYE, N.H. 1623-1903
L. B. PARSONS**

**Left: Cedar Swamp Run exits
Burke’s Pond on Central Road.**

*** Note: The “Ocean road” of 1903 is known today as Sea Road. Ocean Boulevard was being constructed at that time.**
