the Centennial Celebration

At the annual town meeting held March 10, 1867, under Article 13 "To transact any other business that may legally come before said meeting"

Section 4 — Selectman Tracy explained that there being several people in the township interested in compiling history of the town and being of a mind to work on such a project, he moved that the Town of Campton consider a 200th Anniversary Celebration to take place in 1867 and that the Moderator appoint a study committee, to study the town history, gather information, and plan for this event.

A unanimous vote in favor of the motion resulted.

Map of Township of Campton
The river through the map was referred to as
“The Great River”

The north boundary of the town, at the river shows a drop on the West bank and all maps since the original has this offset. The story handed down is that the men running the line from the north east corner to the river met up with some exceptionally good cider, on crossing the river in a boat, and in midstream all land marks looked alike, and not taking into consideration the current, on reaching the west bank they started for the north east corner of Rumney.

PAST AND PRESENT

West Branch Bridge near White Mt. Orchard Storage Plant

West Campton Bridge over Pemigewasset

Thirty-eight townspeople signed a petition for a new road and a Covered bridge over the Pemigewasset River between West Campton and Campton Village. Petition recorded November 17, 1882.

At the annual meeting of March 13, 1883, Article 11 of the Warrant called for a vote to lay out the road and build the bridge — “in fact leave the whole matter with the Selectmen”.

Copied from a Town Report dated - For year ending March 1, 1884

Cost of new highway and bridge.

Paid land damages	\$ 270.00
F. O. Smith, Surveying	12.00
M. Spokesfield, laying foundation	45.15
Smith and Berry, stone work	3,477.14
F. J. Tasker, wood work	4,356.00
J. H. Caldron, building road	801.00

The bridge moved down the river in the 1927 freshet, also the West Branch and “Turkey Jim” bridge went out during this freshet.

“The Turkey Jim” bridge was moved back to its original foundation by T. I. Emerson.

BLAIR BRIDGE Covered
CAMPTON, N. H.

In the early days the Pemigewasset River was referred to as the "Great River". Fordways were in use at several points along the river. One such fordway existed near the present Blair Cemetery. Quoting from a section taken from the "Centennial Celebration of the Town of Campton" the following appears.

A MAN IN THE RIVER

On one occasion, as the people had begun their worship in the new house, a man who was a little late, saw a man break through the ice and sink in the water. He rushed into the church and exclaimed that a man was drowning in the river. The house was soon emptied and the man was found clinging to the breaking ice, as one piece after another gave away. He was at length rescued in an exhausted state.

He proved to be the beloved physician, Dr. Kimball. He had attended meeting in the forenoon, and was called away in the afternoon.

“A New Bridge”

This and other like perils, led the people to feel the importance of a bridge across the river. A subscription of one thousand dollars was raised for this purpose, of which Rev. Hale gave one hundred dollars. The bridge was built in 1829

The above mentioned “New Bridge” was located some distance above the present one. According to record this one went out during a freshet in 1838 during the month of December. At the meeting of May 20, 1839 it was voted to build a bridge near the dwelling of Joseph Bickford and to raise \$1,750.00 towards same and in Oct. 23, 1839 it was voted to give the selectmen the authority to borrow \$1,000.00 to meet the expense of building the bridge. Now we learn that records show that in the year 1869 on the 9th, of September, article 2 of the warrant.

“To see if the Town will vote to build a bridge across the Pemigewasset river in place of the one lately burnt near the Cemetery. Voted to build the bridge by the 1st day of November, 1870. Soon after completion a notice was attached to the gable ends.

“\$5.00 fine for riding or driving on this bridge faster than a walk”
Much of the material that went into the bridge came from Campton Bog, and was cut by a John Calley. The location was known as the Soggum section, opposite the L. E. Mitchell farm, the stone for the abutments and center pier coming from the ledge back of the sugar house of the Pulsifers Farm on the Bog road.

The following is found in a Town Report “Ending March 1, 1871: April—To cash paid A. H. Cook, for lumber for Blair bridge, in part \$960.00

Freight on shingles from Wells River	\$11.37
American Bolt Co.	56.02
H. C. & W. Welch, for shingles	183.60
Mason & Fox, bill for nails &c	50.93
Iron for bridge	37.03
H. W. Merrill, building bridge	1,180.00
J. C. Blair, freight bill, and use of land to frame bridge	18.00

It might be of interest to some that the Campton Precinct was first organized as "The Campton Improvement Association" September 12, 1908 Town water had been put in the same year and a gathering assembled in front of the "Odd Fellows Block" to watch a hydrant test to see if the force of the system was capable of throwing a stream of water to the top of the building. Some were in doubt of this being accomplished and the boys on the hose line overheard a few remarks and while the stream was well over the front of the building they lifted the hose straight up and back over their head. Needless to say this group of doubters scattered; a very little of original wood pipe remains today. Replacement being made of cast iron and transite.

COMMENTS FROM THE CHIEF

The past year has been a successful year for the Campton Fire Department. We have completed the new Forestry Truck thus giving us three fully equipped fire trucks which will enable us to cope with any type fire in our area.

We have just completed our tenth course in fire training. In this area these courses are given by Clifton Hawkins of Holderness.

I feel that through these fire training courses we will be better qualified to cope with various types of fires and we will be capable of saving valuable property for the town.

We have recently purchased two 2-way radios and had them installed in the trucks. I feel that these radios will prove to be an asset to the Fire Department by saving a lot of time and unnecessary travel. We also have purchased 500' of 2½" hose, 12 spanners, 1 hydrant wrench, 1 hydrant gate, 2 pike poles, 1 new flashing light, a new fire alarm box, 1 - 1½" nozzle, 1 bx type strainer 2½".

Respectfully submitted,

William Drake, Chief

P.S. We welcome new members as always — meetings every first and third Mondays of each month.

The Fire Dept. will cease to exist unless capable men in town rekindle an interest in the protection of property.

REPORT OF SCHOOL NURSE

The School Nurse made thirty visits to the school and eight home visits. When in school, she conferred with the Principal, teachers and worked in the grades with the children.

She assisted parents with applications for Crippled Children's Services, Guidance Clinics and Sight Conservation. She transported and spent a day at Laconia Clinic with a child and parent.

Hearing tests were done on each child and notices sent home regarding those who did not pass the test, recommending the child see his family doctor.

Vision screening tests were done on each child and notices sent home if necessary suggesting the attention of an eye doctor.

Inspections were made on hair, scalp, skin, teeth and for symptoms of illness. Weighing and height measurements were done on each child and health records kept for each.

A pre-school registration was held and parents consulted at that time regarding their children's health.

The Nurse attended two workshops for School Nurses in Concord and the State Teachers' Meeting, School Nurse Section, in Manchester.

Respectfully submitted,

HELEN H. FISHER, R. N.

PRINCIPAL'S REPORT 1966-1967

The 1966 school year began with an enrollment of 163 students. Since September, 12 new students have entered and four have left. The present enrollment is 171 students.

There have been a couple of minor curriculum changes this year such as an allowance of 20 minutes per day for student exposure to current events, music and art appreciation. It is hoped that this time period will widen their educational horizons as well as being of interest to them.

If there is enough interest by the students, plans will be made to add a track and field team to our Spring sports program.

Respectfully submitted,

RICHARD GOYETTE

REPORT OF SUPERINTENDENT OF SCHOOLS

Hereby submitted is my annual report as your Superintendent of Schools.

A number of changes were evident in your school when we opened in September this year. The retirement of Mildred Avery, who is respected and loved by the community, left a vacancy in the first-grade room and Wesley Lavin resigned to fulfill his service obligation. We were fortunate in filling both positions with what I consider to be excellent teachers. Susan Kozusko, a graduate of Pennsylvania State College with a year's teaching experience in Pennsylvania was employed to replace Mrs. Avery, and Richard Goyette, who is working on his Master's Degree at Plymouth State College replaced Mr. Lavin. I think you realize that the situation at the school during the beginning of this year was a difficult one. The illness of Mr. Grant created a situation that made it hard for everyone. During this period, I visited the school frequently and kept the Board advised of developments. When he resigned, the first of November, Mr. Goyette was elevated to the position of Principal and Alan Hill, who recently graduated from Plymouth State College was employed to complete the year. Mr. Goyette was placed in a difficult position but I think he has responded well and will become a very capable school administrator. I also think you were wise in continuing with the services of Joyce Mayhew to work in the area of developmental reading. Some of the pupils need this extra work to be successful in school.

As was done last year, the recommended budget for books and expendable supplies was predicted upon teachers' requests. In some cases, it has increased the budget by a small amount but it pays dividends. The budget this year includes new Social Studies books through the eighth grade. This is the only area left where we do not have a modern up-to-date series of textbooks. A survey is being made, at the present time, and a selection will be made, after consultation with the teachers, before school closes in June.

It should be called to your attention that a rank card committee, consisting of teachers from the Union, is making a study to recommend a new rank card for another year.

We presently have a good lunch program under the supervision of Harriet Sargeant. Minor equipment is being purchased to make fuller utilization of the surplus commodities available. You should know that surplus foods are not as plentiful as they used to be. If the type and quantity of food continues to decrease, it may be necessary to increase the cost of the lunch.

You perhaps have read or heard that Plymouth is negotiating with the University of New Hampshire for the sale of all of its school property. If this comes about, districts will be invited to participate in a new study on either a Cooperative or an AREA school. There will be an article in the warrant to create a new committee to make a study and report its recommendations to you. Space here does not permit a full explanation of courses of action and possible outcomes but a duly elected or appointed committee would keep you apprised of the situation. The article to create a committee differs somewhat from those previously used. This is because, in accordance with the law, a committee elected or appointed to study an AREA (authorized regional enrollment area) school may decide to legally study and recommend either a Cooperative school or an AREA school. This is not true when one is created to study a Cooperative school.

I should call your attention to the rate at which the school is growing. When the school was built, capacity was planned at 180 pupils and we now have 172 enrolled. With continued growth of the town because of Waterville Valley and Route 93, it may be necessary in a few years to add on to the building as long as we continue housing grades 1-8. I mention this only because I think it should be called to your attention as it might make some difference on point of view you would want your planning committee to express when meetings are resumed.

I was most interested to see that you voted high school transportation at your last district meeting. I hope you have set an example for other districts to follow. Whether this is a cost the district should bear is of course a matter for the district voters to decide. I would hope opponents as well as proponents would appear at the district meeting to express their views and abide by the will of the majority. The idea is not new as many districts have done this for a long time. I would simply state as an educator I think high school pupils are entitled to the same transportation privileges as those of the elementary school.

Please do not hesitate to contact me if I can be of any help to you in the education of your children.

Respectfully submitted,

M. WAYNE BOWIE,
Superintendent of Schools

EXPLANATION OF SUPERINTENDENT'S SALARY

Chapter 189, Section 48 Revised Statutes Annotated of the State of New Hampshire, requires that the school district annual report show the total amount paid to the superintendent of schools as per the following quotation: "Reports. Each superintendent of a supervisory union shall annually prepare a report of the total salary paid to the superintendent showing in detail the amount paid by the state and each local school district, and their share of same. Said report shall be filed with the school board of each school district involved and shall be included in the annual report of the respective school district as a separate entry. A like report and entry shall be made for each assistant superintendent, teacher consultant, and business administrator, if any is in service in the union."

One half of the supervisory union expenses is pro-rated among the several school districts of the union on the basis of adjusted valuation. One half is pro-rated on the basis of average daily membership in the school for the previous school year ending June 30th. The salary of \$10,850.00 which was received by the Superintendent of Schools of Supervisory Union #48 during the 1965-66 school year was made up as follows: \$5,000.00 paid by the State of New Hampshire and \$5,850.00 pro-rated among the several school districts which now include Warren. Allowances of \$1,300.00 for travel within the Union was also pro-rated as stated above.

The table below shows the portion of salary and travel charged to each of the six school districts:

	Salary	Travel
Campton	\$ 982.80	\$ 218.40
Plymouth	2,848.95	633.10
Rumney	801.45	178.10
Thornton	508.95	113.10
Warren	432.90	96.20
Wentworth	274.95	61.10

	\$5,850.00	\$1,300.00
