### SELECTMEN'S REPORT

Many significant events have occurred in Derry during 1972. Not all of them have been good as witnessed by the destruction of the main sewerage pumping station. There were also many changes in the personnel of the Town Departments, Boards and Commissions. A reading of the "List of Officials" further on, will certainly indicate some of the changes in department heads and board members.

The Town has continued to grow. Continental Can and Treasure Masters have completed construction and are now in full operation. In keeping with this growth we are requesting that the voters approve a \$350,000.00 bond issue for water mains and well field improvements and lesser amounts for the rebuilding of the main sewerage pumping station and lateral extensions to the collection system. The Comprehensive Sewer Study has been completed and forwarded to the Pollution Control Commission for approval. In anticipation, we are asking for funds to complete the design of the facility.

Renovations have continued at Adams Memorial Hall. This year the work was confined to the exterior and the Police Station. Next year we anticipate remodelling the second floor into a new Court Room and other useful office space.

1973 promises to be a year of fulfillment, with the assistance of the Federal Revenue Sharing Act of 1972. The Town will now be able to start to do some of the necessary things, impossible before because of the lack of revenue.

It is our earnest desire that you support our program as encompassed in our requested appropriations.

Respectfully submitted  
For the  
Board of Selectmen

10 . . . . . (Passed with the budget)

**PROCEEDINGS**

(At 8:00 p.m. the meeting was called to order and following the Salute to the Flag and rules of the meeting read by the Moderator the following ensued:)

**THE MODERATOR.** We will now proceed to the articles in the Town Warrant. We have already voted on the first five Articles and we will now take up Article 6 which read as follows:

**Article 6:** To vote to raise and appropriate such sums of money as may be necessary for the maintenance of the poor, for laying out and repairing highways, including Town Road Aid Plan Apportionment A and Town Road Aid Plan Apportionment B, for building and repairing bridges, for suppression of moths, for

police department, for the Derry District Court, for hydrant service and electric lights, for salaries of Town officials, for the Board of Health, for the expense of the Town buildings, for support of the libraries, for State and County Taxes, for the observances of Memorial Day, for aid to the Derry Visiting Nurse Association, for playground purposes and for band concerts, for cooperating with the State and Federal governments in the control of insect pests and white pine blister, for ambulance service, and for all necessary charges arising in said Town, and pass any vote relating thereto.

What is your pleasure on Article 6? If I may add, usually you go and take this particular article up item by item.

**MR. METTS.** I make that motion.

**THE MODERATOR.** Ernest Metts makes a motion we take it up item by item in the budget. Do I hear a second.

**MRS. JOHNSON.** Betty Johnson, I second it.

**MRS. CASTEN.** There is already a motion on the floor. Can you entertain another motion on the floor? This is the first motion: I move that we accept the Article as read is what I said. And Selectman Boyce seconded it.

**THE MODERATOR.** I did not hear anybody make that motion.

**MR. BOYCE.** I seconded it, Joe.

**THE MODERATOR.** Well, Mr. Metts, apparently there was a motion that I did not hear and therefore I will not entertain your motion. We will take up the motion that has been made here. The motion has been made to accept it as read and it was seconded, it was seconded by Mr. Boyce, as I understand it. Is there any discussion on this motion.

**MR. HOWARD.** Mr. Moderator, could I make an amendment to that motion?

**THE MODERATOR.** Yes, you can make an amendment.

**MR. HOWARD.** I would like to make it that we raise and appropriate the sum of \$1,660,717.15 to go with that motion.

**MR. DiPIETRO.** Second that motion.

(After discussion the following ensued.)

**THE MODERATOR.** There will be no further discussion. First of all we are voting on Mr. Howard's amendment at this time. Does everybody understand? The amendment was that we ap-

appropriate the sum of \$1,660,717.15. And then on the original motion was made that we accept the items as printed. So there would be no further discussion. But now we are on the amendment, to appropriate this sum of money and not take – In other words, not take up the budget item by item. All those in favor say “Aye.” All those opposed “No.” The “Nos” have it. It is a vote and I so declare.

(After further discussion the following ensued:)

MR. BOYCE. I withdraw my second.

THE MODERATOR. All right. Mr. Boyce withdraws his second. Mr. Metts, would you go back because you made the original motion and you withdrew it. Now, what motion do you make?

MR. METTS. I would like to make a motion that we consider the budget and appropriate the money for article 6 Item by Item.

THE MODERATOR. Now, who seconded it originally.

MRS. JOHNSON. I did.

THE MODERATOR. Mrs. Johnson seconded it originally, so we go back now. Is there any discussion on this? (The question is moved and the following ensued:)

THE MODERATOR. All those in favor say “Aye.” Those opposed “No.” The “Ayes” have it. It is a vote and I so declare and we will take it up item by item.

(Line items read by the Moderator with certain line items being questioned for the purpose of discussion after completion of reading line items.)

(After discussion the following ensued:)

MS. FRYE. My amendment would appropriate \$500.00 for ten new ballot boxes or as many as \$500.00 will buy.

THE MODERATOR. The amendment is to increase this article by \$500.00.

MR. HOBBSCH. Seconded.

THE MODERATOR. All those in favor say “Aye.” Those opposed “No.” It appears that the “Nos” have it.

(After discussion the following ensued:)

JUDGE GRINNELL. What I would like to suggest is that the Associate Justice’s salary be raised from \$1,830.00 which is 30% of the Judge’s salary, to the sum of \$4,500.00 which is the difference of an additional \$2,670.00 to raise the Associate Justice’s salary. I move that this amount be added to the Associate Justice’s salary.

MR. TOMPKINS. Seconded

(After discussion the following ensued:)

THE MODERATOR. The motion of the floor is to increase this item by \$2,670.00. All those in favor say “Aye.” Those opposed “No.” Well, it is very close, I am going to revote on that. I am going to vote on it again. All those in favor say “Aye.” Those opposed “No.” The “Ayes” have it. It is a vote and I so declare.

(After discussion the following ensued:)

MR. HOWARD. I move we go to warrant article 14, Mr. Moderator.

MRS. DiMARZIO. Seconded.

(After discussion the following ensued.)

THE MODERATOR. We will go back to the item of \$37,132.00 and you say you are making a motion at this point here. Well, let’s get the withdrawal of the other motion.

MR. HOWARD. I will withdraw it.

MRS. DiMARZIO. I will withdraw it.

THE MODERATOR. All right. Withdrawn. And we will go back to this item. You are moving to amend this item to reduce it to \$25,000.00 appropriation. What is your name?

MR. CATON. Caton.

THE MODERATOR. Do I hear a second on Mr. Caton’s motion?

MR. HANSON. Seconded.

(After discussion the following ensued:)

THE MODERATOR. The question is to reduce this item by \$12,132.00 or to \$25,000.00. Is that correct?

MR. CATON. Correct.

THE MODERATOR. All those in favor of that motion say “Aye.” Those opposed “No.” It appears that the “Nos” have it. It is a vote and I so declare it. We will go to Mr. Howard’s item, if you will reiterate your motion, Mr. Howard.

MR. HOWARD. I move we refer to Article 14 in the Warrant.

MR. GARLAND. Seconded.

**THE MODERATOR. Article 14: To see if the Town will vote to raise and appropriate a sum not to exceed \$65,000.00 for the purpose of obtaining a complete revaluation of the taxable property in the Town, and pass any vote relating thereto.**

(After discussion the following ensued:)

MR. MACGREGOR. I move that we indefinitely postpone this article.

MR. LOW. Seconded.

THE MODERATOR. He has made a motion to indefinitely postpone the article. And at this point I don’t think it has had adequate discussion so for the time being if you would just hold it up so that we could discuss it.

MR. MACGREGOR. All right.

(After considerable discussion the following ensued:)

(Article No. 14 was reread by the Moderator and the following ensued:)

THE MODERATOR. The question has been moved and we are voting on whether you want to adopt this article or not. All those in favor say “Aye.” Those opposed “No.” Well, that is very close. Do you want to have a hand count? All right. I think the best way to do it would be actually to put your hand up, those in favor, and keep them up and we will have counters. Those in opposition will do the same thing.

(Tellers appointed and hand count takes place.)

THE MODERATOR. According to the Town Clerk’s count, 100 voted “Yes” and 117 voted “No.” The “Nos” have it and I so declare.

(After further discussion of the line item budget the following ensued:)

MR. HOWARD. To get it clear, I make a motion we increase the Police Department salaries by \$2,700.00. Now, this will be approximately 7 and a half per cent total and this will get it on the floor in a motion and we can vote on it.

MRS. DiMARZIO. Seconded.

(After discussion the following ensued:)

THE MODERATOR. There has been a motion to increase the appropriation to the Police Department by \$2,700.00 for salaries. All those in favor say “Aye.” Those opposed “No.” It appears the “Nos” have it.

FROM THE FLOOR. I call for a hand vote.

THE MODERATOR. A call has been made for a hand vote. And just to save time the same counters will count.

(Tellers take hand count.)

THE MODERATOR. The tally by the Town Clerk shows those voting “Yes” were 94 and those opposed, 104. The “Nos” have it.

I have had the stenographer check his notes and he went back to that item, that \$65,000.00 item. Apparently there was no motion on the floor. So I am returning to that item and without any discussion, you know what it was about. I would like to have a motion entertained by Mr. Macgregor at this point since he made

the original motion to lay it on the table. Is that correct, Mr. Macgregor?

MR. MACGREGOR. That is correct.

THE MODERATOR. This is on the \$65,000.00 item for re-valuation. Do I hear a second?

MR. LOW. Seconded.

THE MODERATOR. Mr. Low seconds that. And since it was a hand count, all those in favor of the motion now to lay this on the table, that is, by laying it on the table if it passes it is dead. All those in favor of that motion will raise your hand and the same counters will please count. Now, those that are opposed to laying it on the table or opposed to killing this raise your hand until you are counted.

(Tellers take hand count.)

THE MODERATOR. The vote on killing that particular item, "Yes" 130, "No," 99.

MR. CARBONE. Mr. Moderator, I voted with the majority and I would like to have that particular warrant article reconsidered.

THE MODERATOR. You voted with the majority and you want it reconsidered. Do I hear a second by someone who voted with the majority? What is your name?

MR. NUNGER. Nunger.

THE MODERATOR. We are on the question of reconsideration. There will be no further discussion and again we will have a re-vote. All those again in favor, the same counters, same places, now we are going back to the same question under reconsideration by somebody that voted in favor. Raise your right hand. All those in favor of the motion to lay it on the table, that is to kill the \$65,000.00, raise your right hand. If we vote "No" then we are voting not to reconsider. If we vote "Yes" we are voting to reconsider. Now, those opposed raise your hand and keep your hand up until you are counted.

(Tellers take hand count.)

THE MODERATOR. Ladies and gentlemen, the vote shows that by the Town Clerk's records, those voting in favor or reconsideration 96, those opposed, 132. The article is lost.

(After discussion the following ensued:)

MRS. CASTEN. I move that we take up Article 9.

MR. HOBSCHE. Seconded.

THE MODERATOR. The question has been moved by Mrs. DiMarzio and seconded by Mr. Hobsch. All those in favor of taking up this Article say "Aye." Those opposed "No." The "Ayes" have it. It is a vote and I so declare. We are now on Article 9.

**Article 9. To see if the Town will vote to raise and appropriate the sum of \$7,000.00 for the purpose of paying the same to the Greater Salem Mental Health Association, which serves the Derry area and pass any vote relating thereto.**

We are now on Article 9 and I will entertain any motion on that article before we discuss it.

MRS. CASTEN. I move that this article be defeated.

THE MODERATOR. The motion has been made by Mrs. Casten to defeat this Article. Do I hear a second?

MS. FRYE. Seconded.

MR. GARLAND. Seconded.

THE MODERATOR. Motion made by Mrs. Dimarzio and seconded by Mr. Garland to take up Article 13 at this time. All those in favor say "Aye." Those opposed "No." It is a vote and I so declare. Article 13 reads as follows:

**Article 13. To see if the Town will vote to authorize the Selectmen to withdraw a sum not to exceed \$6,000.00 from the Capital Reserve Sewer Equipment Fund and expend said sum for the purchase of a truck for the Sewer Department, and pass any vote relating thereto.**

MRS. DIMARZIO. I so move.

THE MODERATOR. Do I hear a second on that?

MR. HOBSCHE. I second that.

THE MODERATOR. Mr. Lyons has moved the question, Mr. Hayward seconds the motion and we have moved the question on the increase of three thousand dollars. All those in favor say "Aye." All those opposed "No." The "Nos" have it. It is a vote and I so declare.

(After discussion the following ensued:)

MRS. DIMARZIO. I move that we take up Article 18, that covers this particular item.

MR. GARLAND. Seconded.

THE MODERATOR. A motion has been made and seconded that we move to Article 18, that covers this particular item. Is there any discussion on the motion. If not, we will put it to a vote. All those in favor say "Aye." Those opposed "No." The "Ayes" have it, it is a vote and I so declare. We will take up Article 18.

**Article 18. To see if the Town will vote to authorize the Selectmen to withdraw a sum not to exceed \$1,800.00 from the Capital Reserve Parking Lot Fund and expend the same for the purpose of developing and paving parking lots at Veterans Hall and Adams Memorial Hall, and pass any vote relating thereto.**

MRS. DIMARZIO. I so move.

THE MODERATOR. It has been moved that we accept the Article as printed.

(After further discussion the following ensued:)

MR. McDERMOTT. I would like to make a motion that the

employees of the Water Department get paid time and a half after 48 hours.

MR. BRUNO. I second that.

MR. BOYCE. I have nothing against the time and a half proposal. I would like to at this time make an amendment to it, if they do get time and a half I would like to have their pay readjusted down to the Highway Department because they were getting a higher pay schedule per man last year.

THE MODERATOR. Now, you made a motion to amend that. Do I hear a second to Mr. Boyce's amendment.

MR. SMALL. Seconded.

THE MODERATOR. There being no further discussion, all those in favor of the amendment will say "Aye." Those opposed "No." You know what the motion is, to amend by Selectmen Boyce's motion, to amend that if they get time and a half after 48 hours that their pay scale be adjusted, since it is higher than the Highway Department, that it be adjusted to that of the Highway Department. There is no further discussion. We are on the vote. All those in favor of the motion to amend say "Aye." Those opposed "No." The "Ayes" have it. It is a vote and I so declare.

Now we are back to the original motion. The gentleman's motion upstairs is that they get paid time and a half after 48 hours. Any discussion?

and all appurtenances, equipment, appliances and other facilities for its operation, maintenance or use, used or intended to be used for swimming, wading or recreational bathing, but not including portable pools incapable of containing a depth of water exceeding twenty-four (24) inches at any point.

B. A residential swimming pool is a swimming pool used or intended to be used solely by the owner or tenant thereof and his family, and by friends invited to use it without payment of any fee.

C. Every outdoor residential swimming pool shall be completely surrounded at all times, whether or not the same be filled with water, by a fence or wall not less than five (5) feet in height. Each such fence or wall shall be so constructed as not to have openings, holes or gaps larger than four inches in any dimension except for picket fences in which case, however, the gaps between the pickets shall not exceed four inches, and except for door or gates which can have no openings, holes or gaps. A building may be used as a part of such enclosure.

D. Each such gate or door shall be kept locked at all times when the swimming pool enclosure is not in use.

E. The provisions of these regulations shall not become applicable to residential swimming pools in existence on the date of enactment of said regulations until the date four months subsequent to such date, or 1 June 1972, whichever comes first.

**REPORT FROM THE WATER DEPARTMENT  
1972**

This year the Town started installing outside reading meters to coincide with a planned maintenance program for replacing and rebuilding meters. No meter will remain in a home longer than seven years without being recalibrated.

We have set up a program for replacing old services and old and undersized mains. This in conjunction with our meter program has cut down on lost revenue.

In 1971 we pumped 282,444,800 gallons of water and realized revenues of \$90,156.51. In 1972 we pumped 231,814,000 gallons and realized revenues of \$125,643.24, proving that our programs are working.

In July, 1972 we lost one of the Londonderry wells because the screen became plugged with foreign material. It took two weeks to get it back in operation.

The water study was awarded to Camp, Dresser and McKee, Inc. in the late spring. We have not yet received the final results.

In June, 1972 we imposed a water ban which lasted until late fall.

Superintendent

### REPORT FROM THE SEWER DEPARTMENT

With the addition of the Aerators the Town now has a capacity of 12,000 population equivalency in the lagoons.

On June 15, 1972 an explosion of unknown origin demolished the main pump station on Fordway. A new facility is presently under design by our engineers Camp, Dresser & McKee Inc. of Boston, Mass.

We turned on the chlorinator in November and discharged on effluent for the first time in almost two years.

The Town has added a full time operator who is licensed by the State of New Hampshire to operate a Sewage Treatment Plant.

The Town has rebuilt the Franklin Street Pump Station and installed larger pumps to handle the heavy load on the line.

Hadco Inc. is in the process of installing two reverse osmosis units to pretreat their waste to eliminate all of their toxic wastes.

The Town presently has a calculated population equivalency of 8600 on the sewer system.

The Town has received a report back from Camp, Dresser and McKee Inc. on the Sewer Study and they propose that we build a new treatment facility which would handle 34,000 population equivalency.

## POLICE DEPARTMENT ANNUAL REPORT

Chief Kenneth M. Bisbee, who served our community faithfully and loyally as the Chief of Police, retired on June 1, 1972. In 1972, prior to his retirement, he established two very valuable federally-funded projects; i.e., a Juvenile Officer Program and a Highway Safety Program. He saw the Juvenile Officer Program become a working part of his department, but the Highway Safety Program did not take full effect until after his retirement.

Lt. Ernest Gaines and Sgt. Horace Densmore who both served long and well for the Town of Derry retired November 1 and 28, respectively.

The department has added five new officers to fill the vacancies caused by retirements and other separations from the service.

Derry police officers received varied training during 1972. The Juvenile Officer completed a ten-week training course at the University of Southern California, the major topic being juvenile delinquency and related problems. A Sergeant attended a three-week training course in management of personnel at Babson Institute which was sponsored by the New England Chiefs of Police Association. The Sergeant also attended a one-week management conference sponsored by the New Hampshire Police Standards Training Council at Concord. Two patrolmen completed a six-week recruit training program, another patrol officer completed a one-week forensic science seminar, and several patrolmen attended one-day seminars on such topics as recent Supreme Court decisions, narcotics and dangerous drugs, alcohol problems, and juvenile delinquency.

Because training is a vital life line to professional police service, in 1973 we plan to elevate the performance level of your police officers by a continuing educational process. Some of the training will include recruit training, supervisory training, roll call training, and special day-long seminars on pertinent topics.

We have made several changes during 1972 with regard to

records keeping, plant facilities, uniforms, radio equipment, cruiser equipment, and policy and procedures.

During 1972, the Derry Police Department investigated 101 burglaries, 78 larcenies, and since June 1, 1972, have answered 3,989 calls for police service. We have presented 648 cases to the Derry District Court.

Respectfully submitted,  
Edward B. Garone  
Chief of Police

## REPORT OF THE ASSESSOR 1972

Transfers of property for the year ending March 31, 1972 exceeded all previous records with 690 properties changing ownership. About 10% of these transfers were then resubdivided from two to one hundred smaller lots. The average assessment of these transfers is approximately 65% of market value, showing a real need for revaluation in the Town of Derry.

Assessments were made on 364 new structures including, gas stations, homes, industrial plants, swimming pools, mobile homes, etc. Also approximately 400 mobile homes were reviewed and revaluated with an average of 10% depreciation. In all categories 1,890 tax cards were reviewed with a total gain in assessed value of seven million, five hundred and fifty eight thousand, three hundred and fifty dollars (\$7,558,350.00) which resulted in a reduction in the tax rate for Derry of \$2.63 and East Derry of \$3.25.

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A.M. and 5:00 P.M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned – 1972 season:

STATE	410 fires	361 acres burned
DISTRICT	101	112
TOWN	8	6

Ralph Stevens, District Chief  
Alfred W. Dick, Forest Fire Warden

## ANNUAL REPORT HIGHWAY SAFETY COMMITTEE

Members are: Edward B. Garone, Chairman; Messrs. George Blanchard, William Boyce, Harold DiPietro, Ernest Gaines, William Howard, and Frederick Tompkins.

During 1972, the Highway Safety Committee acquired, through Federal funds, a Stevenson Breathalyzer, Model 900A. This is used to determine the blood/alcohol content in suspected Driving While Intoxicated offenders. This is a very valuable tool for law enforcement, primarily because one could have the appearance of intoxication, but be actually physically ill. This equipment will readily detect this and enable the police to provide the individual with proper medical care.

The Highway Safety Committee was also instrumental in acquiring, through the State Highway Safety Agency, a partially funded police cruiser with associated emergency equipment; i.e., radio, emergency lights, etc.

The members of the Highway Safety Committee have discussed and made several changes relative to the traffic patterns at the intersection of Broadway, Crystal Avenue, and Birch Street.

Respectfully submitted,

Edward B. Garone, Chairman

## CIVIL DEFENSE ACTIVITIES FOR 1972

This year two (2) seminars for New Hampshire school teachers were held at the Derry EOC by the State Department of Education.

A simulated emergency conducted in the field included auxiliary personnel, hospital personnel and town departments and several interested persons.

There were several meetings held at the EOC, drawing up the Town of Derry Emergency Plan with assistance from the University of New Hampshire. This plan was drawn up, approved by the Selectmen and delivered to all town departments and interested personnel with the request that they draw up their own emergency plan to be included in the Derry Master Emergency Operations Plan.

Civil Defense personnel installed a ventilating system in the EOC to increase the number of personnel allowed in the emergency operations center during an emergency. Radio communications and EOC have been updated with the addition of two (2) meter radio equipment. Several ham operators are now training and will be training for the next few months in the EOC.

The outdoor warning system was tested twelve (12) times this

year. The telephone relay system was tested four (4) times this year. There were fifty-two (52) meetings and drills conducted at EOC involving approximately 1200 manhours.

Civil Defense will be known officially in the future as the Defense Civil Preparedness Agency. Under this agency, the personnel will be trained in the following types of emergencies such as:

Bomb threats, Chemical accidents, Earthquakes, Enemy attacks, Floods, Forest and Wild land fires, Hurricanes, Major structural fires, Public demonstrations and Civil disturbances, Radiological accidents, Search and rescue, Tornadoes, Transportation accidents and Winter storms.

The Director would like to extend a cordial invitation to any citizen that would like to know about or be trained in any of these services.

Respectfully submitted,

Robert A. Ross, Director  
DCPA

## TAYLOR LIBRARY

The Taylor Library has had a busy year, resulting in a substantial increase in circulation.

The State Library Bookmobile, from which we have borrowed nine hundred and forty nine books, has visited us three times during the year. We have also made numerous specific requests to the State Library in behalf of our patrons. This is a service that we are happy to offer to supplement our own collection.

The "exchange" paperback book rack is an added feature this year and has been enthusiastically received.

We wish to express our sincere appreciation and extend our thanks to all who have helped make this year a successful one.

Respectfully submitted,

Ruth A. Varney, Librarian

**DERRY CONSERVATION COMMISSION**

The Conservation Commission spent the first year finding out its duties and responsibilities.

A soil map was obtained from the Soil Conservation Service of the U.S. Department of Agriculture, a list of town owned land was compiled and several wet lands and marshes were viewed by the committee.

The Conservation Commission is proposing to the voters that Stark, Bowers, Mill, Frost, Cole and Cross roads be designated "scenic roads." This designation preserves the shade trees and stone walls along these roads while the town continues to be eligible for state road aid. The roads may be improved and surfaced but the trees and stone walls cannot be removed unless a public hearing is held by the Planning Board. The purpose of this is to preserve the rural atmosphere on these short stretches of road.

### 1973 — 1974

#### AIMS:

1. Maintain all present services.
2. Physical therapy is a new service added halfway through the year and it will expand.
3. Expand service to community:
  - a. Increase number of visits of all types.
  - b. Maternal/child health visits — all newborn were not visited

last year because of lack of staff, time. Aim to correct this year.

- c. All work that should have been done on State referrals, cripple children program, was not done.
- d. D.V.N.A. is the only health organization in Derry and there is a great amount of work to do in such areas as "case finding"; that is, discovering the needy families in town.

#### COST:

1. All cost will inevitably increase — medical supplies, telephone, car service, gasoline, etc.
2. Payroll — our nurses are paid \$3.10/hour. This is .40 less than other R.N.'s in Derry and the State. Our Head Nurse receives considerably less than the State average for her position and training.

We have asked for \$14,000.00 which is the actual cost of this last year's service to Derry, and we intend to increase the volume and the type of service at a time when our cost will be greater.

The effect of not receiving this money will be that the comprehensive coverage that is aimed for will not be attained, since our aim is to add another full time Registered Nurse to the staff to carry the extra work load.

## DERRY PLANNING BOARD

### ENGINEERING DEPARTMENT REPORT

Having taken office as the Town Engineer on December 4, 1972, I have no report for 1972. However, it is felt appropriate here to mention my place in the Town government. Instead of being a "Superintendent of Public Works", it will be my general function to provide engineering planning, design and construction control services. I have been directed to supervise renovations and maintenance work in Town owned buildings and will be responsible for future planning for additional building space. The Engineer will report to the Selectmen but his services are available to all other Town officials, Boards and Commissions upon request to the Selectmen. Hopefully, these Town groups will take full advantage of the available services in the most efficient manner.

According to current commitments, I will consult with the Road Agent to determine the best methods and design for road reconstruction and repair and to outline programs for future work. I will assist the Superintendent of Sewer and Water on all engineering problems and ultimately assume responsibility for conducting this planning and design. For the Planning Board, I will review all plans for subdivisions, new streets and utilities and submit my recommendations for their consideration. The Building Inspector and the Recreation Department will be given engineering assistance as their needs arise.

Respectfully submitted,

William D. Nace  
Town Engineer

During the year 1972 the Planning Board continued to hold bimonthly meetings, approving about seventy plans while denying only one, with several plans still under investigation.

The Board this year voted on many amendments and additions to the "Land Subdivision Control Regulations" of the Town.

The Board also this year had the distinct privilege of being the first Planning Board of Derry to nominate representatives to the Southern New Hampshire Regional Planning Commission.

Board members have met with the other various Boards and Department Heads in Town in an attempt to co-ordinate an orderly growth of the Town. Our members have also attended State, Local and other planning meetings this year.

This year for the first time the Planning Board has recorded approved plans in Exeter with the Register of Deeds. We have kept a complete file of same plans on mylar and collect fees from the subdivider to pay for the recordings.

By the time the Annual Town Meeting is held, we will have had two Public Hearings on the proposed amendments to the Zoning Ordinance. These amendments presented by petitions and by the Board will appear in the Town Warrant for a vote of the people.

1972 ANNUAL REPORT

Recreation has finally "come of age" in Derry as we begin our tenth year as a town department. No longer do the citizens think of recreation as a frill or excess baggage. . . more and more people recognize recreation as one of their basic human needs and as such, have supported it with their hard earned tax dollars as well as, their leisure time which is just as precious. With the growing increase of leisure the public has demanded and received increased activity and facilities to suit their needs through the Recreation & Parks Department. Tax payer approval, of an expanded budget, allowed for the construction of two new tennis courts at the Veterans' Memorial Field on Railroad Avenue. The vote at town meeting also turned over to the Recreation & Parks Department, the old West Side School at 39 West Broadway which will be used as a community center when it has been renovated. Surplus Food is already being distributed from it. The D.Y.O. and Derry Junior Womens' Club have also used the building for fund raising activities. Pinkerton Academy's winter track team practices in one of the upstairs rooms and other town departments are using some of the space for cold storage. We use the building ourselves when ever fesable for our maintenance activities.

Donations towards the cost of renovation are coming from various individuals and groups. Until we get enough to repair the roof and install a heating system we won't be able to occupy the building. With the help of those who feel strongly about the value of this type of facility, we hope to move our base of operations in there during 1973. There is an active advisory board made up of people from the different groups who have come forward to promote this project. It includes men, women and children of both sexes and from all walks of life. They have done much to help the West Side Community Center, so far, but a great deal remains to be done yet. Its a challange worthy of everyones effort and ideas. . . from auctions and rummage sales to recycling waste paper for funds, there is something for each one of us to do.

Volunteers are the backbone of our programs and without them, the cost of providing the same activities would certainly be prohibitive. To mention each one individually would take too much space and I could possibly miss someone which would be unfortunate. What most people do not realize is the fact that our full time employees Diane LaPlante and Don Ball donate much of their own time toward various programs. I mention it only because they are often taken for granted and should be recognized for their devotion and loyalty above and beyond their regular paid hours.

Some of our part time help was provided by the Neighborhood Youth Corps with headquarters in Portsmouth. We also participated in a Work-Study program with U.N.H. who provided the bulk of the salary of a student to work with us during the summer. Those individuals who participated this past summer included Craig Staples, Bruce Preston, Patty Catanzaro, Donna Lloyd, Curt Neland, Joe Melcher, John Corvo, Brian Cassel, Ernie Black and Cris Menento.

Our staff paid by the town included Dave Cino, Greg Monty, Denis Warner and Mike Fayle on the maintenance detail for the ball fields. James Tagalakis joined us as a supervisor for the N.Y.C. program. At Alexander-Carr Playground Ken McCann, Bryan Lister and Kathy Collins all new staffers provided the leadership with many new activities for the newcomers participating at that relatively new area. At Hood Park we had 100% return of staff members for a most successful season. With Don Ball in charge of the area, Miss Mary Sullivan as playground leader and Mrs. Dorothy Hines as arts and crafts specialist. Claudia Ketchum as head of the swim instruction aided by Susan Putnam and Mary Putnam. Peter Brassard was our chief life guard. Others teaching in private pools and lakes were Carol Madden, Sandy Crocker and Melinda Nicholson. They taught Mother & Tots, Adult and, with the help of volunteer teenage water aides, a class for handicapped children. This year we hope to add a group of synchronized swimmers.

Each year we like to thank those folks who provided us with facilities so we may carry on some special programs. This year our sincere thanks to Mr. & Mrs. Ralph Skillin and Mr. & Mrs. Crocker.

The town is most fortunate to have the facilities and programs it enjoys. . . compared to surrounding communities, as well as, towns throughout New England we can be proud of our Recreation & Parks Department. Along this line, our cost for providing all this is moderate. In 1972 we expended \$55,051.18 (4% over our recommended budget) in tax funds. In non-tax funds the trustees of trust funds turned over \$1,532.29 for MacGregor pioneer Park and \$6,809.79 for Alexander-Carr Playground. Other income, amounting to \$2,346.55 in user fees, concessions and misc. was also realized at Alexander-Carr Playground. This means the total expenditure, for all Recreation & Parks costs, of \$66,016.46 for our town estimated to be approximately 14,000 population. Thus the per capita cost to each person in town was \$4.72 (.50 more than the previous year). Yet the tax portion of this amount is between 2-3% of the tax dollar. Many people tell us, they feel they get more for their

tax money with recreation, than any other department. This ratio is below the national average, as well as under the state average for per capita costs for Recreation & Parks.

The Derry Recreation & Parks Commission is a group of five citizens appointed by the Selectmen to administer the department. This group meets monthly in an open meeting to which the public is invited. They welcome constructive criticism and are open to suggestions at all times. The Recreation Office hours were 9-12 noon and 1-4 p.m. . . Monday through Friday as a regular basis. Although, we have heard at times, that some people are unable to contact us during those hours. We ask your patience at such times, as we are busy and may be out of the office or away from the telephone for a short period of time.

Our regular scheduled activities, including time and place, may be found in any of the four weekly publications distributed in town or in the three daily papers which are circulated locally. We are proud to be able to offer activities for all age groups from pre-schoolers to Senior Citizens and both sexes although the girls are still on the short end. Our aim in the future will be to provide as much support toward "life time" sports as we do for team games and activities. Changes in this area included: gymnastics for girls and more use of the Veterans' Memorial Building including teen-age, womans and girls basketball.

Our interaction with other town departments involves an increase in cooperation between us all. The Fire Department and the men at our sanitary land fill have been especially helpful, as well as, the Highway, Water and Sewer, and Police Departments. Continued cooperation can only result in a better working of all departments toward an improved community for everyone.

Plans for the near future encompasses: Folk-Reation (a social recreation activity for Senior Citizens) continuation of Crafts-Reation also for Senior Citizens; lighting tennis courts at Hood Park, color sealer for the new tennis courts and fence for the courts, as well as the softball field at Veterans Field; landscaping to make Derry Village Smith Field playable for little league play; hard surface the road going into the Alexander-Carr Ski Area and begin construction of a battery of eight tennis courts at Birch Street frontage of Alexander-Carr. If special articles are passed at Town Meeting we also will be able to do the roof and heating system for the West Side Community Center and lighting of Veterans' Field for which we may apply for Federal Funds (50%).

In the final analysis, not everything is perfect. We have success and failure. Our continuing failure to provide an outdoor shooting range may be brightened if an indoor range is included in the W.S.C.C. Folks are still upset over some of the users of Mac-Gregor Pioneer Park, but the situation, where citizens are afraid to use public property is becoming less critical. Among the program failures; ice hockey still has a long way to go, archery never got started due to lack of leadership, and junior marksmanship was offered by the V.F.W., so we did not compete.

We have never been a group to banter numbers about, because it is too easy to confuse matters that way. But, one fact pertaining to participation and attendance is so outstanding we have decided to report it at this time. For the first time in this departments' short history the level of involvement reached 100,000 plus. This includes every person each time they participated in an activity or was involved as a spectator in any of the

activities or if they used any of the facilities such as picnic areas, ice rinks, and park property informally.

As we move ahead, we are grateful to the citizens of Derry who make our operation what it is today. With the backing of the townspeople and adequate financial compensation, we will continue to give all that's humanly possible to make this the best Recreation & Parks Department we can. As long as, we are allowed to progress and keep up, in some ways, with the expanding community's needs and demands, we will stay to serve the public as they deserve.

Respectfully submitted,

Gerald H. Cox, Director
