Do you work for a mission-focused business, non-profit, institution, or government agency?

Could you use a fresh perspective, new energy, or specialized expertise applied to your work?

Do you want to help build a pipeline of young talent focused on tackling pressing challenges?

Would you benefit from connecting with others whose work complements your own?

Consider hosting a Sustainability Fellow during summer 2023!

Now is your chance to apply to have top talent dedicated to your sustainability project!

- You design the project.
- We recruit highly qualified students and post-baccalaureates with skills and experience specifically tailored to the needs of your organization.
- We work together to train and mentor your Fellow throughout the summer, jointly invested in the project's success and the student's education.

Our aim is to cultivate projects that catalyze long-term, substantial change for our Partners, provide a rich experiential learning opportunity for our students, and spark interdisciplinary collaboration throughout our growing network.

☐ Summer 2023 application/proposal review begins October 14, 2022 and closes on November 4, 2022.

Want to learn more?

- Find more details on our [website](#).
- Take a test run through the [Request for Proposals](#) – now managed through Qualtrics.
- [Contact us](#) to discuss project ideas and have your questions answered.
