## Annual Message to the Board of Aldermen

by Mayor Eugene H. Lemay

---

Nashua, N. H., January 1, 1940.

*Gentlemen of the Board of Aldermen:*

We start our stewardship of the affairs of our city under most auspicious circumstances today, the opening of a new decade and the start of the 87th year of the corporate existence of Nashua as a city. By the will of the people of Nashua we assume office today to guide for the next two years the course of government of our city, and I feel sure that each and every one of us has full knowledge of the obligation and duty which rests upon our shoulders, the responsibility of providing each individual with all of the benefits and privileges that can come from good government.

Ours is no easy task. The course of government grows more complex each year. Each of us must recognize the problems we will be called upon to solve during the next two years according to his own lights and the dictates of his own conscience, but I feel sure that in one major respect we are in complete accord; a sincere desire to guide our actions as the representatives of the people in a manner that may be beneficial to the greatest number of our citizens. We assume office today by mandate of the people and as their representatives our every course of action during the ensuing two years must be solely dictated by what we believe will best serve the interests of our city and its inhabitants.

As Mayor of your city I would like to recognize as my first official act the fine service which the late Frank A. MacMaster rendered in the little over one year which he served as your chief executive. No man, in my estimation, was more sincere in his efforts in behalf of the people of Nashua; no man worked more diligently or tackled problems of government with greater zest or understanding than the late, beloved Frank A. MacMaster.

In his passing, Nashua lost one of its greatest citizens; a man whose memory and deeds will grow with the years.

As one who has served in public office for the past decade, in many ways one of the most significant in the history of our city, no one appreciates more than I do the impossibility of the task of pledging ourselves to a long range program encompassing the period in which we will hold office. The days when we could look with some

certainty to the future, plot a day by day course of what we would like to accomplish, have long since gone. Therefore I am not going to attempt today to outline a program of action to be carried out during my term of office, with the exception of a few immediate problems which are at hand. I believe that we should handle each problem as it arises in our governmental life.

I do believe that we should go on record here at the outset of our administration solemnly pledging ourselves to the task of providing each resident of Nashua with the sort of government that is his by heritage.

#### **Definite Obligations Which Must be Met**

We have definite obligations facing us which must be met. We must keep our city clean and wholesome, efficiently policed, provide adequate fire protection and give our children the education which is so necessary today for those who must take their place in this changing world. Above all we have a deep rooted obligation to provide for those on our relief rolls.

All of this, of course, must be consistent with a policy of operating our governmental departments and meeting our obligations at the lowest possible cost without impairing the efficiency and administration of these units. We must never lose track of the fact that good government is largely based on economic government.

We are hopeful of the future. No one knows what the next two years will bring to Nashua in the way of trials and tribulations but little can happen that we already have not precedent for and we are fortunate in having actions of our predecessors as a means of guiding us over some of the rough spots which may lie ahead. Nashua has been fortunate for years to enjoy life under a succession of high-minded and capable public officials.

#### **Finances Sound**

Our city is in a sound condition financially. Our tax rate has been reduced slightly and if possible will be reduced further this year. I have plans to effect some savings in department operations by merging such boards and commissions as the Park, Recreation and Holman Stadium commissions into one body. I believe that we can secure as efficient operation and save money by having these commissions merged. Each in its own field has done capable and efficient work and I want to commend the members of each Commission for their efforts in the city's behalf. But it is my aim to effect economies where possible and I have found members of these Commissions in accord with this proposal.

Relief, as long as the federal government continues to cooperate, I believe should be on a work-basis with the recipient giving some work effort for the money he or she receives. Without such a program the city today would not have its fine sewer system, its stadium and many other worthwhile projects. These would be beyond our financial means without government assistance and our relief burden would be higher than it is. I am a firm believer in accepting government aid for worthwhile WPA projects which will be of some tangible benefit to the city.

### Replacement of Main Street Lights

Another immediate problem we must face is the replacement of our antiquated white-way system on Main street which has long since outlived its usefulness. Some recommendation for a new white-way system will be made to you within a short time.

Effective today the car and operation of the city ambulance is transferred from the Fire Commission to the Police Commission with the consent of both organizations. In most cities the control of the ambulance is vested in the Police department and this plan has been considered here for some years but never carried out because of the lack of police garage facilities. In this new building the Police department has ample facilities to care for the ambulance.

Some attention will be given the reorganization of the Board of Public Works program and policies during the coming year. This department, one of the largest in the city, needs some attention which members of the board will give it during the year now here.

These are our immediate major problems along with the preparation of the department budgets. Our stewardship is under way as of today.

I pledge you my whole-hearted cooperation during the next two years and I am confident that you will give me your cooperation and that our two-year term will be marked by one of real advancement and progress for the city we all love. Ours is a serious job and each one of us must do his part if we are to make progress.

Let us resolve here today to work together harmoniously, adopt a sympathetic attitude toward each problem we face, refrain from permitting partisanship or prejudice to color our actions, and to work toward a common goal, an efficient and economical administration.

And with that thought may I now close by wishing you all, members of the Board of Aldermen and the citizens of Nashua, a happy New Year.

RESOLUTION  
RELATIVE TO THE PRE-PAYMENT OF TAXES FOR THE  
YEAR 1939  
CITY OF NASHUA

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND  
THIRTY-NINE

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Tax Collector of the City of Nashua, in accordance with and by authority of Chapter 66, Section 43, of the Public Laws of New Hampshire, be and hereby is empowered to allow a discount of 1939 taxes for pre-payment of said taxes, such discount to be at the rate of two and one-half per cent per annum from date of payment to December 1, 1939, but no discount shall be allowed for pre-payment after November 1, 1939.

Pre-payments may be made before, as well as after, the assessment of taxes for the year of 1939, discounts to apply on partial or total pre-payments.

In the event the amount prepaid by a tax payer exceeds the 1939 assessment when made, said tax payer shall receive a rebate of the amount overpaid on said tax.

Further, in the event that the tax assessment for 1939 is more in amount than the pre-payment made, said tax payer shall be charged the additional amount due.

RESOLUTION  
ADOPTING CHAPTER 205 OF THE LAWS OF 1937  
CITY OF NASHUA

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND  
THIRTY-NINE

RESOLVED, By the Board of Aldermen of the City of Nashua:

Whereas, it is desirable that the public school teachers of Nashua be given the right to join the New Hampshire Teachers' Retirement Association and be entitled to the benefits provided by Chapter 205 of the Laws of 1937 and any amendments thereof; and

Whereas, Part II of section 2 of said Chapter requires action therefor by the Board of Education and by the City Government of Nashua,

Now, therefore, be it resolved that said Chapter 205 of the Laws of 1937 and any amendments thereof, be adopted to the extent that the public school teachers of Nashua may be entitled to the benefits

thereunder as completely as though the City of Nashua had not already adopted some form of a teachers' retirement system.

CREATING A PENSION ACCOUNT

BE IT ORDAINED, By the Board of Aldermen of the City of  
Nashua:

Whereas, it is desirable that all pensions paid by the City of  
Nashua appear under one heading on the books of the City of Nashua.

Now, therefore, be it ordained by the Board of Aldermen that  
there be and is hereby created as of January 1, 1939, a special ac-  
count on the books of the City of Nashua to be known as "Pension  
Account" against which account all pensions paid on and after Janu-  
ary 1, 1939, are to be charged.

Said pension account is to be closed at the end of every fiscal  
year and any surplus returned to the general government account.

AN ORDINANCE  
REGULATING THE USE OF BICYCLES WITHIN THE LIMITS  
OF THE CITY OF NASHUA

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

I. It shall be unlawful for any person to operate or cause to be operated a bicycle on any way within the limits of the City of Nashua unless the same has been registered in accordance with the provisions of this ordinance.

II. No bicycle shall be registered unless it shall have permanently cut, impressed or embossed on some portion thereof a factory serial or identification number or mark.

Any person who shall knowingly have in his possession any bicycle from which such number or mark shall have been removed, defaced, obliterated or changed shall forthwith file with the Chief of

Police a sworn statement describing such bicycle showing the source of his title and, if known, the reason for such removal, defacement, obliteration or change.

If satisfied, as to the facts, the Chief of Police may grant permission to cut, impress, or emboss permanently on to the bicycle a special identification number or mark which shall thereafter be deemed sufficient for the purpose of registration of such bicycle.

III. No bicycle shall be registered unless it is equipped with a signalling device, a head light, a tail light or reflector, and an adequate braking device.

IV. The Chief of Police is hereby designated as the person to whom all applications for registration are to be made.

V. The registration fee for each registration period shall be fixed by the Chief of Police at the beginning of the same and in no event is the registration fee to exceed fifty cents for any one period.

The proper fee shall be deposited before the application is granted.

VI. All registrations now in effect and to become effective between now and March 1, 1940, shall expire on the 1st day of March, 1940. All registrations granted thereafter shall expire biennially on the 1st day of March.

VII. It shall be unlawful for any person to remove, deface, change or cause to be removed, obliterated, defaced or changed any factory serial or other identification number or mark on or from any bicycle.

VIII. It shall be unlawful for any person to operate a bicycle on any way within the limits of the City of Nashua during the period from one-half hour after sunset to one-half hour before sunrise unless said operator shall display on his bicycle a lighted lamp on the front of said bicycle and a tail light, so-called, or a reflector on the rear.

IX. The Chief of Police may revoke or suspend any registration for just cause. An appeal to the Municipal Court may be had by any person whose registration has been revoked or suspended. It shall be unlawful for any person to operate a bicycle while the registration thereof is revoked or suspended.

X. Any person violating any provision of this Ordinance shall be fined not more than Five Dollars for each offense.

XI. If any provision of this Ordinance or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are declared to be severable.

XII. This Ordinance shall take effect upon its passage.

Amended that the following words be stricken out: "Headlight, tail-light and reflector."

XIII. The following amendment was added to this Ordinance. It shall be unlawful for more than one person to ride on a bicycle unless it be a tandem bicycle equipped with two sets of handle bars, two sprockets and two seats.

## Annual Report of Fire Commissioners

---

*To the Honorable Mayor and Board of Aldermen:*

GENTLEMEN:

We respectfully submit to you the Report of the Fire Department for the year ending December 31st, 1939.

The Board of Fire Commissioners consisting of W. A. Molloy, E. I. Dubois and W. E. Grant met on January 1st and organized by electing W. A. Molloy, Chairman; E. I. Dubois, Purchasing Agent, and W. E. Grant, Clerk.

Fire Prevention Week, October 8th to 15th, was observed in a fitting manner.

### INSPECTIONS BY THE DEPARTMENT

The officers of the respective districts continued their inspections of buildings and surroundings to guard against the accumulation of rubbish and inflammable materials which might be the cause of fires. The merchants and property owners have cooperated with the department wholeheartedly and we wish to thank them for their support.

These inspections allow the officers of their respective districts to familiarize themselves as to the nature of the contents and the construction of the different buildings.

### FIRE ALARM BOX INSPECTIONS

All fire alarm boxes in the City are inspected once a month and a written report is sent to the Board of Fire Commissioners signed by the Deputy-Chief making the inspection.

### FIRE ALARM TELEGRAPH SYSTEM

The fire alarm system is in working condition but it is not dependable because of its age and worn out equipment. During the coming year it will have to be replaced as it gave considerable trouble during the past year. Two new boxes were purchased during the year. More boxes of the modern type will have to be purchased to replace the old boxes that have been in service since 1886. Some of these boxes will be fifty-four years old next June and are not dependable. These old boxes are what is known as the interfering type of box, that is, if two boxes of this type are pulled together there might be a serious delay as the numbers would come in mixed up. The later type boxes are non-interfering. Some of the more modern boxes will have to be brought into the most hazardous districts to protect them.

In conclusion we wish to thank His Honor the Mayor, the Members of the Board of Aldermen, the Board of Public Works, the Board of Police Commissioners and the Members of the Police Department, the employees of the Telephone Company and the Public Service Company, the Captain of the Salvation Army and his band of loyal workers for their cooperation and interest in our Department.

The officers and members of the Fire Department have our commendation and sincere thanks for the efficient and faithful manner in which they have performed their duties.

Respectfully submitted,

W. A. MOLLOY,  
E. I. DUBOIS,  
W. E. GRANT,  
*Fire Commissioners.*

Eighty-four houses were connected to our sewerage system.

### NEW CITY HALL

In connection with the new City Hall construction cement concrete sidewalks were constructed to the various entrances. Driveways and parking spaces were built with asphalt. Grounds were graded, loamed and seeded. Lamp posts were erected about the grounds and various other work was done by the department.

### HURRICANE REHABILITATION

We have this year practically completed the work of repairing damage done by last year's hurricane. However, we are constantly finding trees which have to be removed because they were damaged by the high winds.

### MAINTENANCE

The upkeep of our Street and Sewer system, the collection of rubbish and papers, etc., take up the major portion of our appropriation. A large amount of tarring will be required in 1940 in order to preserve our streets.

### W. P. A. PROJECTS

This department has sponsored almost all W. P. A. projects in Nashua during the year. An average of about four hundred workers was employed during the year. This expenditure was paid out of Bond issues.

### SEWER CONSTRUCTION

Construction of the new South End sewer system was started. Twenty-eight sewer extensions in various parts of the City were constructed.

### STREET IMPROVEMENT

A crew was employed in grading and graveling new and old streets all over the City.

### SIDEWALKS CONSTRUCTION

A sidewalk project was started which provided home owners with walks at a minimum cost. Three thousand four hundred thirty-five square yards of sidewalks were constructed on this project.

### PARKS AND RECREATION

Considerable work was done at the Holman Stadium and Greeley Park. Tennis courts were built at several locations in the City.

### CEMETERIES

At Woodlawn a new fence and a greenhouse were constructed as well as many more improvements. A new area was opened and graded at the Edgewood cemetery.

### HURRICANE REHABILITATION

A large group was employed in clearing woodland to reduce menace of forest fires. This project was sponsored and paid for entirely by the Federal Government.

## Report of the Zoning Board of Adjustment

Nashua, N. H., February 14, 1940

*To His Honor, the Mayor, and Board of Aldermen, City of Nashua,  
New Hampshire:*

The past year was unusually active in the number of meetings and in the type of cases submitted to the Board for consideration. While it is customary to hold meetings once a month, it was necessary to call special or regular hearings on an average of every three weeks because of the importance of prompt action to help interested parties and to allow sufficient time for careful study of unusual cases. All decisions were rendered within the spirit of the Zoning Ordinance, to guard the health, safety and general welfare of the community without undue hardship upon the individuals concerned. All public hearings were supplemented by a careful viewing of all property and no decisions were rendered until the viewings had been completed.

The Board acknowledges, with thanks, all the constructive help received from the City Solicitor and the Administrative Officer.

Following is a detailed report of the disposition of all cases.

The number of building permits issued was nearly double those of 1938; the number of one and two family residences constructed shows an increase of about 45% over the previous year. The duties of the Administrative Officer have required much time; necessitating attendance at all meetings and public hearings of the Zoning Board of Adjustment; clerical and plan work, inspections and viewings of all locations and uses of structures for which permits and certificates of occupancy were issued. In matters of interpretation, opinions and violations, on numerous occasions, the willing cooperation of the City Solicitor has been greatly appreciated.

Respectfully submitted,

FRED L. CLARK,

## Report of the Board of Examination of Plumbers

---

Nashua, N. H., January 22, 1940

*To His Honor, the Mayor, and Board of Aldermen, City of Nashua,  
New Hampshire:*

GENTLEMEN:

Following is the annual report of the activities of the Board for the Examination of Plumbers for the year ending December 31, 1939.

The membership of the Board consisted of the following:—Master Plumber, Leland A. Adams; Journeyman Plumber, Eugene L. Carrier, both with many years' practical experience, and Fred L. Clark, City Engineer.

The Board was organized with Eugene L. Carrier as Chairman and Fred L. Clark as Secretary and Plumbing Inspector.

Stated meetings were held each month, as also were seven special meetings, at which times written and practical examinations, to determine the fitness of applicants for plumbing licenses were given.

During the past year, there were licensed by the City, through this Board, forty-three (43) Master or Employing Plumbers and fifty-two (52) Journeymen Plumbers. This was an increase of two over 1938.

A total of 451 plumbing inspections were made during 1939, and these represent inspections in 294 different buildings.

Much work has been done on the revision of the plumbing code, which when completed will necessitate its adoption by your Honorable Board.

This code will include both State Board of Health and local requirements, and upon its adoption should be printed in booklet form.

Several instances of violations, such as failing to report work and having same inspected, also work done by unlicensed persons, have come to our attention. We ask for the full cooperation of each licensed plumber to assist us in correcting this situation.

Respectfully submitted,

EUGENE L. CARRIER, *Chairman*,  
LELAND A. ADAMS,  
FRED L. CLARK, *Secretary and Inspector*.

## Report of the Superintendent of Parks

---

*To the Board of Park Commissioners:*

GENTLEMEN:

I submit the following report for 1939.

During the winter months we carried on our regular program of repairing and painting all equipment and destroying gipsy moth nests on all City trees. A W. P. A. project started after the 1938 hurricane, was continued. About 30 men were employed trimming and repairing damaged trees and removing the fallen trees. These were salvaged into lumber and firewood. The small branches and debris were burned to reduce the fire hazard. The firewood was distributed to relief cases. About 90 thousand board feet of white pine and 18 thousand feet of oak was sawed into boards and planks. Most of the oak and some of the pine was turned over to the Board of Public Works to be used in repair work. The rest of the lumber was stacked on Greeley Park to season. Some of this was later sold. We furnished the white pine for shelving, etc., in the new City Hall. We also used considerable for forms for the foundation for a new greenhouse and hotbeds, and various repair jobs. A quantity was donated to the Holman Stadium for repairs and alterations.

About April 15 work was resumed on the Harris bequest development east of Concord Street. Nearly two acres were loamed over, graded, fertilized and seeded to grass. An asphalt walk was constructed from the street to the Harris memorial tablet on the burying ground knoll. Excavating, filling and rough grading was done on an additional area which will be completed next spring. Sand for filling was kindly donated by Ex-Mayor Wm. F. Sullivan of the Pennichuck Water Works.

Trees to replace some of those destroyed by the hurricane were planted at Sullivan park, Deschenes oval, Monument square and Greeley park. More trees will be planted next year. On Arbor Day Mayor Lemay planted a sugar maple on Deschenes oval. Another was planted by the American Legion Auxiliary and dedicated to the dead heroes of the World War. They also planted lilacs at Meeting House park, dedicated to the dead heroes.

As part of our permanent improvement program, a lean-to greenhouse, 15x30 feet, was built at the south side of our shop-storage building at Greeley park. This will be used to start plants for our various flower beds.

A hot water plant was installed to heat both shop and greenhouse. The piping was installed entirely by park and W. P. A. employees thus saving considerable money for the City.

Late in October another W. P. A. project was started to complete the repair work on hurricane damaged trees, plant new trees and remove stumps and other evidence of hurricane damage. Good progress has been made to date.

Your superintendent supervised the grading and planting of the grounds at the new City Hall. The maple trees and many of the shrubs used were from our own nursery.

All of our regular maintenance work was performed without employing additional help. We also provided the foreman for the last W. P. A. project started.

Boys from the National Youth Administration, under the direction of Instructor Robert Nute, built us a picnic shelter of the log cabin type, from the smaller logs in the hurricane timber. This is located in Greeley park at the intersection of the drives in the oak grove. They also landscaped the area and built a log fence.

Respectfully,

WILLIAM R. KIRKPATRICK,  
*Superintendent of Parks.*

## Report of the Holman Stadium Commission

---

*To His Honor, the Mayor, and the Board of Aldermen:*

GENTLEMEN:

Holman Stadium Commission was abolished by the Aldermen at the start of the new year and its functions are now carried on by the Park Recreation Commission.

At the completion of the 1939 calendar year most of the improvements at the field had been completed. The Amherst Street field has been graded, covered with loam and seeded and eventually will be developed into one of the beauty spots in that area.

W. P. A. workmen filled, loamed and seeded the area south of the regular field, near the dump and this will be opened this summer as another playing field. A practice baseball and football field was built to the east of the Holman field.

Four tennis courts were erected on Sargent's Avenue side of the area and these were built by the Board of Public Works with the J. F. McElwain Company furnishing the fence and nets at a cost of \$750.

Revenue was large because of the donation by the McElwain Company and because the Commission rented bleachers for the satisfactory sum of \$300.

The Commission operated during the year without a penny of personal expenses. All payments were handled directly through the office of the City Treasurer and there were no expenses for office maintenance whatever during the year.

F. D. DOBENS,  
*Clerk.*

## Report of Woodlawn Cemetery Trustees

---

*To His Honor, the Mayor, and Board of Aldermen:*

The Board of Trustees of Woodlawn Cemetery respectfully submit the following as their Annual Report for the year ending December 31, 1939.

### GROUNDS AND BUILDINGS

The grounds and buildings are in fairly good condition. Every effort has been made to keep them in as good condition as our limited appropriation and Interest from Invested Funds will permit.

Respectfully,

H. C. KENDALL,  
*Secretary.*

## Report of the City Solicitor

---

*To His Honor, the Mayor, and Board of Aldermen:*

GENTLEMEN:

I submit the following report for the year ending December 31, 1939:

Many of the Department Heads were advised by your Solicitor.

Prosecutions in the Municipal Court were handled by me during the year.

Technicalities involving the sale of the old city hall site were handled by me.

Suits against the City were tried and disposed of.

Many ordinances and resolutions were drawn up and others amended; routine business was attended to.

Respectfully submitted,

EDWARD J. LAMPRON,  
*City Solicitor.*

## Report of the City Physician

---

*To His Honor, the Mayor, and the Board of Aldermen:*

GENTLEMEN :

The duties of the City Physician during the year 1939 were as follows:

Office Consultations, approximately .....	2,400
House Calls, approximately .....	1,100
Major Operations .....	14
Confinements .....	11
Tonsilectomies .....	42
Commitments .....	3
Examinations for Police Force .....	9
Examination for Pensions .....	7

Respectfully submitted,

O. E. CARON, M. D.

## Report of Airport Commission

---

*To His Honor, the Mayor, and Board of Aldermen, City of Nashua,  
New Hampshire:*

GENTLEMEN:

In administering the duties of general supervision and management of the Municipal Airport and appurtenances thereunto belonging, which includes the former Transient Camp Building, now occupied by the National Youth Administration; the Board was guided by the desire to keep within its income without lowering the efficiency of the City's aeronautical facilities. We are pleased to report an unexpended balance for the year of \$419.49.

The National Youth Administration has continued to improve the shelter, occupied by the youths and personnel of the program, and the garage building housing the auto mechanic school. These and former improvements will accrue to the City upon termination of their project.

Continuing the arrangements of the previous year, a part of the Airport Manager's time was transferred to the N. Y. A. program, this resulted in a substantial savings to the City.

Because of the City's partial sponsorship of the N. Y. A. project, five one and one-half ton dump trucks were made available for City use, thereby saving hiring so many trucks for project use.

The Board of Public Works continued their cooperation with the Commission for which we are greatly appreciative.

Only minor maintenance, sufficient to keep the airport in a safe and usable condition has been possible.

Officials of the Civil Aeronautics Authority are in close touch with our operations and we do at their request operate the rotating beacon after sunset as an aid to navigation in night flying. The Federal Government has detailed information concerning aircraft landing facilities, repair service and meteorological data together with other information and are aware of the usual activities and the possibilities in time of emergency.

During the past year there were hangared at the airport, eight planes, and one and sometimes two gliders.

The Airport Manager, who is licensed by both State and Federal Governments, has had direct supervision of all flying, part of his duties being to see that the State and Federal regulations are strictly observed.

There was one flying club, The Gate City, consisting of twelve members, and two gliding clubs, the Altosaurus Club and the Massachusetts Institute of Technology Gliding Club, which operated at the airport, under supervision of the Manager.

The Nashua Cloud Chasers, a group of enthusiastic youngsters, builders of model planes, have held monthly competitive meets which have proven very successful and created much favorable interest, as shown by the attendance at these meets.

Occasional week-end passenger-carrying meets were held with the result that several hundred people were given short flights over the City. Much student instruction and private flying was done.

There were 920 hours of local flying at the airport, approximately one-half of which was cross country flight and the remainder private, student instruction and passenger flying. There were also 125 hours of gliding.

The number of transients in and out is estimated as 600 and the number of passengers carried in local flights 600. There were 555 plane arrivals and departures represented by planes from Massachusetts, Connecticut, Rhode Island, Maine, Vermont, New Jersey, Virginia, Ohio, Province of Quebec and New Hampshire.

In view of the location of the Chicopee Falls Army Airbase, designed to serve the entire Northeastern Area, it is expected that the Nashua and other nearby airports may become supplemental air fields for National defense in the New England Area.

Respectfully submitted,

ALVIN A. LUCIER, *Chairman*,  
JAMES R. MILLIKEN,  
FRED L. CLARK, *Clerk*.

## Report of Librarian

---

*To the Trustees of the Nashua Public Library:*

The report of the Librarian showing work accomplished during 1939 is herewith submitted.

The service of the Library in terms of volumes circulated was 200,613, representing a loss of 4,188 over 1938. As this was a decrease in fiction distribution, it is not as disturbing, for it is impossible, always, to meet the demand in the light, recreational type of reading and the best sellers.

Seven hundred fiction titles were discarded during the year with few replacements which explains some of the loss. Crown Hill Library saved the day in carrying the circulation over the 200,000 mark, as that department made the only gain of the year. Non-fiction showed a substantial gain of 2,037, or 33.1 per cent of the entire circulation. Total circulation in the adult department, main library, 141,539, loss 3,373. Juvenile department, 41,992, loss 1,425. Crown Hill, 17,082, gain 610. The average daily circulation was 662 with a loss of 13. Per capita circulation, 6.3, and cost per capita, 0.54.

There were 9,522 books and magazines given out for reading and study in the reading room. Two thousand sixty-six books were added. Of these, 1,874 were purchased, 147 were gifts and 45 others by binding. One hundred thirty-nine were replaced. Total fiction purchased, 947; non-fiction, 1,119. Discards of 1,112 makes a gain to the Library of 954 and a grand total of 50,850 volumes, approximately, December 31, 1939.

The number of books borrowed from the State Library through inter-library loan has grown tremendously this year, well over a hundred titles and a large number of phonograph records in addition. Groups of books have been kept at the Mary E. Hunt Home, the Home for Aged Women and the Y. W. C. A. Summer vacation camps were supplied with reading material, also.

The splendid work of Miss Frances Sullivan, Librarian of the High School Library, has shown in the falling off in research work done with students.

The circulation in the children's department shows a decrease of 1,425 over 1938, as before mentioned and the cause cannot readily be determined. Of course, the Library has to compete with radio

and motion pictures in the lives of both youth and adult, also distance and traffic conditions. I quote from a 1939 report received from a library in New Jersey. A small boy recently returned his books with the remark, "I do not want any more books. Every time I come to the library I miss Dick Tracey on the radio, so I am quitting." One thousand twenty-three books were sent out to the schools and 156 pupils from the grades were given instruction in the use of the library. Miss M. Etta Lovejoy, general assistant in the children's room, was able to take a three weeks' summer library course in Durham, through a scholarship given by the State Library Commission.

The National Youth Administration asked the cooperation of the Library in placing Miss Beatrice Fraser on trial as a worker, the latter part of the year. Mrs. Olivette A. Lavoie has continued in the adult department under the W. P. A. The services of Officer Edward R. Hartwell, and his interest in the Library, have been very helpful.

Crown Hill Library with a circulation of 17,082 continues to fill a real need in that section of the City, even in crowded quarters.

It was a pleasure to welcome Mrs. Eliot A. Carter to the Library Board. She was elected in May to fill the unexpired term of Mrs. Harry A. Gregg who resigned the first of the year.

Garden Book Week was observed in March by a special display of garden books in the Trustees' Room which was converted into an attractive garden. The annual Book Week was observed in November with the usual exhibit of adult and juvenile books. One thousand three hundred twenty-two visitors were checked, 685 in the adult and 637 in the juvenile department. Five hundred fifty-one book reservations were made by adults which showed that nearly every visitor found some title of interest.

The local exhibition of art was held in March after an interval of three years. The Nashua Camera Club's exhibit was exceptionally fine and the type of work far superior to that submitted and hung in 1938. The Charles J. Connick exhibition of stained glass in October, followed by a fine lecture on "Jewelled Windows; Adventures in Light and Color," the first part of November were outstanding events of the year. The lecture was given in the Chapel of the First Church by Orin E. Skinner, secretary to Mr. Connick, and was sponsored by the Trustees, Nashua College Club, and friends of the Library. Through this report many thanks go out to each contributor.

It was an honor and a pleasure for your Librarian to be present at the annual meeting of the American Library Association held in San Francisco in June. A Concord Library Trustee was the only other representative from New Hampshire.

There have been no building repairs of importance. Through the splendid cooperation of Mayor Lemay, the heating system was changed from soft coal to oil, work beginning about the middle of December, but not completed at the close of the year.

A most generous and surprising gift was received from Mr. Sceva Speare a few days before Thanksgiving. Having heard that the book appropriation was cut this year, he regretted the fact and as his Thanksgiving offering handed the Librarian a check for one hundred dollars.

In March, the Trustees were pleased to accept an 80-page index to the map of Dunstable-Nashua, showing points of interest dating from 1676-1878 and later, given and compiled by the late Charles H. Lund who was assisted in the compilation by Mr. and Mrs. George E. Kimball and Mr. Frank M. Ingalls.

Many books, periodicals, newspapers, pictures and flowers have been contributed and deep appreciation goes out to all the kind library friends.

Thanks are extended to the Telegraph Publishing Company for continued courtesy and helpfulness in giving publicity; to the Police Department who have responded promptly and efficiently to the appeal for help in obtaining overdue books; to the ever faithful staff who have given loyal service and to the Board of Trustees for their interest and support.

Respectfully submitted,

CLARA E. SMITH,

*Librarian.*
