Each semester, students in the [Carbon Clinic](#) serve as consultants to complete carbon footprint analyses for leading regional businesses, nonprofits and communities. It's an exciting opportunity for students to gain expertise and experience in sought-after environmental reporting skills and for companies, non-profits and municipalities to gain capacity and knowledge to advance their climate goals. The Clinic leverages the Sustainability Institute's expertise and investment in the [Sustainability Indicator Management and Analysis Platform \(SIMAP\)](#), an online platform used by more than 500 organizations worldwide to understand, communicate, and manage their carbon and nitrogen footprints.

We're pleased to introduce the Fall

2022 Carbon Clinic student teams and our partner organizations.

Team Wyman's

Wyman's is a fourth-generation family-owned business rooted in the sprawling Wild Blueberry barrens of Downeast Maine. What began as a small canning factory in 1874 has flourished into one of the world's largest growers and purveyors of Wild Blueberries and the #1 brand of frozen fruit in the U.S.

Client Representative: Bruce Hall, Agronomist, Wyman's

Clinic Advisor: Dr. Allison Leach, SIMAP Program Manager

Student Peer Mentor: Sunjay Sood '23, Environmental Engineering

- Sarah Nadeau '23, Environmental Engineering and Sustainability
- Morgan Williams '24, Environmental and Resource Economics & Sustainability
- Mary Van Ness Uitti '23, Business Administration: Marketing

Team GreenLabs

GreenLabs Recycling is a direct-to-facility recycling collections and recycling business serving the life science and academic industries in the Greater Boston area to divert clean plastics from ending up as waste.

Client Representative: Serena Monteiro, Business Operations and Recycling Coordinator, GreenLabs Recycling

Clinic Advisor: Dr. Allison Leach, SIMAP Program Manager

Student Peer Mentor: Bailey Jones '22, '24G, Masters in Environmental Engineering

- Jimmy Lin '24, Business Administration: Finance and Business Administration: International Business and Economics
- Durga Raja '25, Environmental and Resource Economics & Sustainability

Adi Jordan '23, Nursing

Team Hartford, VT

The Town of Hartford, VT is the 9th largest town in Vermont with over 10,000 residents covering 45.9 sq. miles. In the fall of 2021, the Town's Select Board adopted their Climate Action Plan that had been created through the dedication and hard work of both residents and a consulting firm over two years. The Town's ambitious plan looks to make municipal operations net zero by 2027 and for the town to reach this point by 2030. We are excited by this opportunity to work with UNH's Carbon Clinic and start tracking our greenhouse gas emissions.

Client Representative: Dana Clawson, Environmental Sustainability Coordinator, Hartford, VT

Clinic Advisor: Jennifer Andrews, Project Director

Student Peer Mentor: Jason Plant '23, Analytics and Data Science

- Samuel Gobeil '24, Analytical Economics and Sustainability
- Matthew Oriente '23, Business Administration: Information Systems and Business Analytics and Sustainability
- Tommy Tran '23, Business Administration: Finance
