HANCOCK 1977

Two January storms brought 19 inches of snow. Bessie Hanson heard from her granddaughter Stephanie that it was snowing in West Palm Beach.

Because of vandalism in the town offices, the selectmen required that youngsters 16 and under be supervised when using the building.

At the Fire Department's January meeting Bob Kierstead was elected chief, and Linda Fisher president of the Auxiliary.

The Sportsman's Club elected Dick Kerwin president and gave its Perley Dunbar Award to Al Senechal for his outstanding contributions to the club.

Custodian Joe deBrava redecorated a room in the town office building for the use of the History Committee and other small groups.

Cynthia Amidon was elected to the national sorority Alpha Lambda Delta, University of Denver Chapter, for her outstanding scholastic performance during the fall quarter.

Democratic town chairman Gale Hennessey, who works for Southern N. H. Services in Bedford, attended President Carter's Inaugural Ball.

Scott Manning, son of the late Mr. and Mrs. T. B. Manning, Jr., a junior at Colgate University, worked on the Phoenix Newspaper in Brooklyn, N. Y., as a career exploration project.

In February Mark Allgood, 15, qualified for the N. H. Alpine Skiing Championship.

The Bill Elliot family, who heat their house solely with wood, were taped by a crew from South Carolina for the children's show "Studio See" on public television. The program was shown on May 21.

Drawings and sculpture by Blanche Dombek were displayed at St. Paul's School, Concord, in the largest exhibit of her work in the state.

Donald LaChance, 19, was given a surprise farewell party before leaving for basic training at Fort Dix, N. J.

Ann Hayes was the first to file for selectman. Other candidates were John Carr, Heather Robinson, and Bob Kierstead.

Edward J. Coughlan, former special police officer, was appointed to be the new fulltime police chief. Acting Chief Mike Cass and Chris Streeter continued to serve as specials.

A Bicentennial plaque made by Mert Knowles was presented to Gov. Meldrim Thomson at the annual George Washington Birthday meeting of the N. H. Sons of the American Revolution.

Approximately 150 people came to town meeting in March and followed the advisory commission's recommendation to cut the budget by \$10,000. An article was passed authorizing the moderator to appoint a committee to study the building needs of the service departments. Also passed was an article restraining dogs. Bob Kierstead was elected selectman, and Marian Harrington was reelected as school board representative.

In honor of his 95th birthday, March 25, Earle Otis was given a surprise party at church services the preceding Sunday. A banner with birthday greetings was held up in front of the pulpit, and Earle was formally honored by the Rev. Alan Schropfer. At a social hour in the vestry, Earle and his housekeeper, Dorothy Robertson (her birthday is March 26) were presented with birthday cakes made by Barbara Burt.

Research began on the second century of the town history, under the direction of

Doris Rogers.

An 18-inch snowfall on the 23rd downed trees in front of the vestry and the library and left many homes without electricity.

In April moderator Dick Amidon appointed Bud Adams, John Carr, Eleanor Falcon, Bob Fogg, Dot Grim, Bruce Kierstead, and Mert Knowles to study the long-term building and equipment needs of the police, highway, and other service departments.

The Sportsman's Club offered flycasting lessons to members' children.

Susan Lewis, a student at Colby-Sawyer College, won a blue ribbon at the Tufts University Horse Show.

Peace Corps volunteer Candice Newcomb sent her parents, Mr. and Mrs. James A. Newcomb, an illuminating report on her life as a high school English teacher in Khenifra, a mountain village in central Morocco.

On Mother's Day a special service was held at the church. It was entirely designed and presented by the women members of the congregation.

Samuel K. Lessey, Jr., son of Mr. and Mrs. Samuel K. Lessey, was promoted to brigadier general in the U. S. Air Force Reserve. Lessey, a graduate of West Point and the Air War College, served over 11 years of active duty in World War II and the Korean and Vietnam wars.

The Hancock branch of the Monadnock Community Hospital Auxiliary held a successful silver tea at the home of Priscilla Richardson.

The Bicentennial was revived with the showing of Otto Jespersen, Jr.'s official film, as well as a display of slides and photographs, in the vestry.

Many members of the Fire Department and Auxiliary attended a training program at Meadowood, where they took classes in homemaker fire safety, forest fire fighting, the use of breathing apparatus, etc.

In June Harrison Kendall was named building inspector for the town of Peterborough. He had served as inspector in Hancock for the past three years.

Osteopath Loretta Guzzi opened an office on Carriage Hill Rd.

A trailer belonging to Clarence and Marie Trimm was badly damaged by fire.

It was decided to retain the fifth grade in Hancock in September.

The Fire Department held a family picnic at the Norway Pond Nature Preserve. Joe Garcia was presented with the second annual award for the year's most outstanding fireman. Using mouth-to-mouth resuscitation, Joe saved the life of Donald Allgood in October, 1976.

The Historical Society held an open house, at which a number of Hancock treasures were exhibited.

In July the Depot Association held its second auction, with Charlie Cobb as auctioneer, to benefit the restoration of the 99-year-old building.

The vestry was rewired under the auspices of the Woman's Club and the Guild. Donations were received from the Sportsman's Club, the Historical Society, the Ladies' Sewing Circle, the Men's Club, and the church. Robert Gardner of Winchester, Mass., also made a contribution.

The Fish and Game Department proposed to dam Carpenter's Bog to create an 80-acre fish and wildlife habitat. In response to the concern voiced by some residents about the dam's effect on Norway Pond and Moose Brook, a public hearing was held. The F&G agreed to allow a permanent minimum flow of water downstream into the pond.

Brooke Joseph, 16, was one of 12 applicants chosen from all over the U. S. to take part in a conservation and backpacking program at Rocky Mt. National Park, Colo., sponsored by the Youth Conservation Program.

The T. Bertram Mannings celebrated their 55th wedding anniversary, with 30

family members present.

Alfred Dillon was feted on his 85th birthday.

In August Cecil Lyon, vice-president of the International Rescue Committee, went to Kenya to head a program to assist thousands of Ugandans who fled their country to escape the Amin regime.

A ground-breaking ceremony was held at the Harris Center for a farm-type study pond and marsh, an educational project funded by the Shieling Trust under a grant from Elizabeth McGreal of Peterborough.

The two new tennis courts were completed and proved very popular.

The Mathewson and Weston children won numerous ribbons at local fairs with their cattle and sheep.

Lester and Elizabeth Snyder received a card from the President in honor of their 50th anniversary.

Charles Fairfield painted a Minuteman mural on one of Earle Otis's garage doors. Earle had painted a 1776 flag on the other door last year in honor of the Bicentennial.

The Grange welcomed two new members, Callie and Kendall Bancroft, who were elected lecturer and assistant steward, respectively.

Hancock's 98th Old Home Day featured a magic show by Tim Bower; music by Dr. H. Cutler Fall, Stanley Woodmansee, and the Jug Band; clowns; and a calliope. Simon Sheldon was parade marshal, and the Grange's "Harvest Time" float was grand winner. Police Chief Coughlan was congratulated for completing a six-week training program at the N. H. Police Academy, which entitled him to full certification as a police officer.

In September Rick Adams, 16, won the man's trophy in the annual skeet shoot held by the Ale and Quail Society at Elmwood.

John S. duMont was named chairman of the Hancock Republicans.

Barbara Caverly was elected president of the Guild.

Susan Crimp, daughter of Mr. and Mrs. Frank Crimp, and Scott Manning, both juniors in college, embarked for study in England: Susan, a social service major at UNH, to attend New England College in Arundel, Sussex; and Scott, a student at Colgate, to study journalism and theatre at the University of London.

In mid-September burglars broke into the church, Grange, school, horsesheds, vestry, library, and Mollers' real estate office. Primarily antiques were stolen, including a 13-piece pewter communion service set from the church.

The Pre-School began its 13th year with new board members and staff. Ellen and John Schadegg were named co-presidents.

Jane Franklin replaced Jane Bower as the new teacher in Grades 1 and 2 at the elementary school.

John Carr, supervising principal of Conval's northern unit, was named assistant superintendent of schools.

Author-illustrator Wallace Tripp received the annual Boston Globe-Horn Book Children's Award for his illustrations in "Granfa Grig," a book of nursery rhymes.

In October the Harris Center appointed David Blair director of its Conval School program.

Kelly Brown, daughter of Mr. and Mrs. Tony Brown, won third place in the junior training division at the University of Massachusetts horse trials.

Bob Fogg and Peter Jenkins represented Hancock in the first annual Hancock-to-Peterborough road race, sponsored by the Knights of Columbus. Peter received a trophy for being the first Hancock resident to complete the 7.3-mile course.

Mrs. Arthur Russ celebrated her 90th birthday.

Earle Otis, Hancock's oldest resident and the oldest member of the Antrim

Waverly Odd Fellows Lodge, was presented with a gold cane by the lodge.

In November the Depot Association invited residents to place a message in a time capsule, to be placed in the depot's foundation and opened at Hancock's Tricentennial.

John Davy was assigned by the State Department of Education to work with local school districts in implementing the department's accountability unit.

A special town meeting was held at which the selectmen were authorized to borrow money in anticipation of taxes and to accept highway subsidy funds.

Gail Novotny of Greenfield replaced Barbara Glodt as Pre-School teacher, and Sheila Powley of Dublin became her assistant. More than 200 people attended the school's pancake breakfast and sale of crafts and baked goods in the Grange Hall.

The planning board announced a public hearing on eight amendments to the zoning ordinance, one of which would increase the minimum lot size in the agricultural and rural area from two to four acres.

The following members of the Fire Department and Auxiliary completed a course in cardiopulmonary resuscitation: Nancy Adams, Dot Avery, Doug Bowen, Linda Fisher, Mary Ann Hitchcock, Marilyn Kierstead, Becky and George Lohmiller, Ann Moller, and Martha Wilder.

Barbara Glodt was named coordinator of the after-school program at Keene State College.

The tax rate was finally announced: \$16.70 per thousand at the reassessed rate. The total appraisal was \$32,167,940.

In December Mert Knowles presented the Historical Society with a Civil War bayonet that was found in the town hall by electricians who were rewiring the building.

The selectmen appointed Mike Cass to replace John Carr on the planning board, due to the demands of Carr's new position; and announced that a town census would be taken sometime in the late winter or early spring by the Fire Department Auxiliary.

The Army Corps of Engineers solicited public opinion on the Fish and Game Department's proposed dam at Moose Brook.

Sculptress Blanche Dombek was awarded a ten-month contract by CETA and the Grand Monadnock Arts Council to participate in an artist-in-residence program and demonstrate her work in area towns.

A highlight of the Christmas season was Cecil Lyon's reading of Dickens' "A Christmas Carol" at the library.

Among the topics explored at Harris Center workshops in 1977 were mammals, winter survival techniques, weather (with WBZ's Don Kent), predation, birds, "The Abnaki Way," energy and the environment, wildflowers, lake management, stars, hawks, home insulation, "Nature Through the Arts," soils, bushwhacking, labor and the environment, trapping, and the fifth annual Christmas bird count, during which 35 species were reported.

Sally Hamilton continued her tradition of varied and interesting art exhibits at the library with the work of students from the Well School and Peterborough Middle School, Stanley J. Dahlman, Judith Black, Ann Dillon Michlin and Jennifer Bloch, Edith Burchard, Dolores Daniels, Barbara, Catherine, and Roland LaRoche, and Isabelle Anctil.

Delia Daniels

SELECTMEN'S REPORT

Each year the Selectmen must thank all of the people who give so much of their time on committees. The Planning Board, study committee of Police, Fire, Highway and other departments and all other committees not only do so much for the town but will design Hancock's future.

In mid-summer we finally got two finished tennis courts. We purchased the sander for the highway department. This was mounted on a two and one-half ton army surplus truck which we obtained through Civil Defense. Joseph Garcia is the new Civil Defense Director and is working hard for the town. The town also got two other trucks, one for the Fire Department forestry truck, along with two generators.

A fire alarm system was installed in the Town Office Building, Town Hall and Fire Station. Reappraisal was the big concern of the year. The selectmen and Barbara Caverly have put in long hours to help the people of Hancock understand their assessment and how it was arrived at. We answered questions, copied cards, made corrections or any other work that would make reappraisal complete. We based all this work off our tax maps. A directory was published showing land values in the town went up from \$2.70 million to over \$13 million, buildings rose from \$15.8 million to over \$17 million. However, taxes were levied on \$27,915,182 which was a difference of \$4,363,551.

Adjustment and corrections by the reappraisal firm and the selectmen accounted for \$741,847 of the difference. The largest drop was \$3,510,911 which occurs from 11,395.3 acres being entered under the State Current Use law. This allows land owners with ten or more acres besides the building lot to enter under the many categories of undeveloped land at a rate set by the State per acre. If developed, that portion of land is subject to 10% of its value as tax to the town. This equals around \$2.00 of our tax rate.

The intent of the Current Use law as defined by an instructional manual prepared by the State Board is to encourage the preservation of open space land, to provide a healthy and attractive outdoor environment to maintain the characteristic of the state's landscape, conserve land, water, forest and wildlife resources and to prevent the conversion of open space land to more intensive use, with a minimum of disturbance to the existing tax base.

HANCOCK ADVISORY COMMITTEE

Consistent with its charter to advise Hancock voters and Selectmen of its deliberations regarding warrant articles, particularly those having to do with expenditures of money, a detailed Advisory Committee Report is included with the Town Report.

The Committee was active throughout the period since the 1977 Town Meeting. Such matters as "Zero-Based" budgeting; clarification of money sources in budget line items; and trust fund monies, were discussed in great detail. Several co-ordinating meetings were held with other boards and committees of the town and with Selectmen. This was a procedure which the members determined would help them in carrying out their responsibilities. The town auditors, e.g., were invited to brief the committee regarding their procedures.

The Selectmen have asked the members to sit with them during 1978 budget hearings so that they will be better able to advise the voters on the various warrants to be considered. Normally, not enough is known about the desires of the taxpayers of a town. The Advisory Committee would like to have more input. Meetings are open. Letters would most certainly be considered. Help us do the job!

The Committee

SUMMARY OF MINUTES
of
1977 TOWN MEETING

Article 1—Howard Rogers was unanimously elected, by voice vote, to be sexton for the year ensuing. Harry E. Casler and Wallace L. Ensor were unanimously elected, by voice vote, to be auditors for the year ensuing.

Article 2—It was voted the Town accept the Budget in the amount of \$166,969.85 for estimated Town expenses, and the necessary sums for County Tax, deduct the revenue and credits, including at least \$15,000 of surplus funds, and raise the balance by taxation.

Article 3—It was voted the Town raise and appropriate \$500 for the use of the Town History Committee; this sum to be allowed to accumulate from year to year or to be expended by the committee or to be added to by gifts of money.

Article 4—It was voted the Town raise \$979.19 to be supplemented by \$6,527.96 from the State for the Town Road Aid Program for this year.

Article 5—The Town voted to authorize the selectmen to withdraw \$5,000 from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972, these funds to be used for electrical repair work in the Town Hall and necessary repair work to the town buildings.

Article 6—The Town voted to raise \$500 for the Conservation Commission, this sum to be allowed to accumulate from year to year or to be expended by the Commission or to be added to by gifts of money.

Article 7—The Town voted to raise \$1,000 for the Library Improvement Reserve Fund.

Article 8—The Town voted to raise \$6,000 for the purchase and installation of a sand spreader for the Town Highway Department.

Article 9—The Town voted NOT to support the Monadnock Region Association.

Article 10—The Town voted to raise \$1,607 to support the Monadnock Community Visiting Nurse Association.

Article 11—The Town voted to raise \$520 to support the Mental Health program of the Monadnock Mental Health Service.

Article 12—The Town voted to become a member of the Southwestern New Hampshire Regional Planning Commission.

Article 13—The Town voted NOT to raise any funds for the Southwestern New Hampshire Regional Planning Commission.

Article 14—The Town voted NOT to raise \$500 for the Monadnock Region Committee on the Arts.

Article 15—The Town voted to have all dogs in the town of Hancock be subject to restraint and under control of the owner at all times; when dogs are picked up in violation of this ordinance the owners will be subject to the charges incurred.

Article 16—It was voted to designate that part of Depot Road from the Kassarjian land to where it is closed subject to gates and bars as a scenic road.

Article 17—The Town authorized the moderator to appoint a seven-member committee to study long-term building and equipment needs (regarding what and when) of the Police, Highway and other departments; the term of this committee to be one year, with recommendations available not later than the next town meeting.

Article 18—Voted the Town request the Water Commissioners to conduct a study of the need for and costs of a thorough hydrological survey of the Juggernaut Pond watershed, an appraisal of it's ultimate capacity, and an estimate of needed

revisions in the present water distribution system and that the results of said study, together with their recommendations, be printed in the 1977 Town Report.

Article 19—The Town voted to raise \$3,500 to purchase and install fire alarm systems for the Town Office Building, Town Hall and Fire Station.

Article 20—The Town authorized the Selectmen to borrow up to \$95,000 in anticipation of taxes.

Article 21—The Town voted to accept the following Cemetery Trust Funds: James Duncan, Gladys & William Ash, Edna Davis, William R. Eustis, Beverly Goolbis, Charles & Velna Gleason, Laura & Thomas Kierstead and the Eustis Library Fund.

Article 22—The reports of the auditors and committees were voted to be accepted as printed in the Town Report.

Article 23—A letter of public notice was read with the following contents: This is to certify to the Hancock Annual Town Meeting that the Hancock Planning Board has adopted a Master Plan for the Town of Hancock, N.H. February 16, 1977. A copy of the Plan has been filed with the Town Clerk as a public record.

A resolution was offered acknowledging the years of dedicated service given by Everett Adams as Road Agent. Another resolution expressed appreciation to Michael E. Cass for taking on the responsibilities of police chief for the past year. A final resolution was offered thanking David Wilder for serving as Selectman for the Past three years.

Under Article 1 of the Special Town Meeting the Selectmen and Town Treasurer were authorized to borrow in anticipation of taxes, an amount not to exceed that specified by law.

Under Article 2 the Town voted to accept \$13,255.94 from the State of New Hampshire in Block Grant moneys.

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

The Polls will be open from Ten A.M. to Six P.M.

To the Inhabitants of the Town of Hancock in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Hancock on Tuesday, the Fourteenth day of March, next at Ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing; and, upon approval by the voters at that time, to postpone consideration of the balance of the budget and Warrant until Saturday, the eighteenth day of March next at 1:00 p.m. in the afternoon.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the Town is in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Revision of the definition of the term "Right of Way."

4. To see if the town is in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Revision of the definition of the term "Street."

5. To see if the Town is in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Requiring a performance bond to be posted with the Board of Selectmen in connection with the removal of clay, sand or gravel.

6. To see if the Town is in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Requiring compliance with New Hampshire Statute 149-E for disposal of sewage.

7. To see if the Town is in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Changing the Peterborough Road part of the Residential Zoning District to the Agricultural and Rural Zoning District.

8. To see if the Town is in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the Town Zoning Ordinance as follows. In the Agricultural and Rural Zoning District increasing the minimum lot size to four acres and the minimum frontage to three hundred and fifty feet.

9. To see if the Town is in favor of the adoption of Amendment No. 7 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Authorizing the Board of Adjustment to make special exceptions to the lot frontage requirements.

10. To see if the Town is in favor of the adoption of Amendment No. 8 as proposed by the Planning Board for the Town Zoning Ordinance as follows. Authorizing the Board of Adjustment to allow residences to be used for business purposes under certain limitations.

11. To see if the Town will raise and appropriate nine hundred seventy-two dollars and ninety-three cents (\$972.93) to be supplemented by six thousand four hundred eighty-six dollars and twenty-two cents (\$6,486.22) from the State for the Town Road Aid Program for this year, or take any other action relating thereto.

12. To see if the Town will vote to accept and appropriate seven thousand nine hundred fifty-eight dollars and thirty-four cents (\$7,958.34) in increased Municipal

Highway Subsidy funds granted under House Bill 228. This sum to be expended for road reconstruction on Norway Hill, or take any other action relating thereto.

13. To see if the Town will raise and appropriate eleven thousand dollars (\$11,000) for the purchase of a one-ton dump truck with plow for the Town Highway Department. This truck will replace the 1971 Jeep; or take any other action relating thereto.

14. To see if the Town will vote to discontinue the Town Highway Department Reserve Fund and to withdraw three thousand four hundred sixty-nine dollars and nine cents (\$3,469.09) plus interest. This sum to be applied to the purchase of a one-ton dump truck with plow, or take any other action relating thereto.

15. To see if the Town will raise and appropriate two thousand two hundred fifty-three dollars (\$2,253) for the purchase and installation of five two-way radios in the Town Highway Department vehicles, or take any other action relating thereto.

16. To see if the Town will raise and appropriate four hundred fifty dollars (\$450) to purchase a two-way radio for the Police Department, or take any other action relating thereto.

17. To see if the Town will raise and appropriate three thousand seven hundred fifty dollars (\$3,750) to purchase eighteen (18) sets of protective clothing for the Fire Department, or take any other action relating thereto.

18. To see if the Town will raise and appropriate three thousand dollars (\$3,000) for the Conservation Commission to build a diversion dam on Moose Brook and dig a channel where the brook enters the pond to cause a better flow and circulation of the brook into Norway Pond, or take any other action relating thereto.

19. To see if the Town will raise and appropriate the sum of one thousand dollars (\$1,000) for the Library Improvement Reserve Fund. This sum to be allowed to accumulate from year to year or to be expended by the Library Trustees or to be added to by gifts of money, or take any other action relating thereto.

20. To see if the Town will raise and appropriate two thousand five hundred dollars (\$2,500) to complete the excavation of the sanitary landfill, or take any other action relating thereto.

21. To see if the Town will vote to establish the position of Town Appraiser to be appointed each year by the Selectmen and to raise and appropriate three thousand dollars (\$3,000) for the year 1978, or take any other action relating thereto.

22. To see if the Town will instruct the Selectmen to see that all Town Departments obtain competitive bids on all projects with anticipated expenditures in excess of two thousand dollars (\$2,000), or take any other action relating thereto.

23. To see if the Town will authorize the Selectmen to withdraw up to twelve thousand one hundred thirty-six dollars and thirty-one cents (\$12,136.31) from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972. Six thousand dollars (\$6,000) to be used for maintenance and improvements on Town buildings and equipment and six thousand one hundred thirty-six dollars and thirty-one cents (\$6,136.31) for preliminary engineering work on new Highway and Fire Department facilities, or take any other action relating thereto.

24. To see if the Town will vote to raise and appropriate the sum of three hundred ninety-six dollars (\$396) for the support of the Monadnock Region Association, or take any other action relating thereto. This sum is based on the formula of five percent of the Rooms & Meals tax fund distributed to the Town by the State of New Hampshire in 1977 (\$7,925.)

25. To see if the Town of Hancock, N.H. will appropriate the sum of one thousand three hundred seventy-nine dollars (\$1,379) to support the services of the

Monadnock Community Visiting Nurse Association, Inc. This local request for financial support is based on a \$1.16 per capita formula, or take any other action relating thereto.

26. To see if the Town will raise and appropriate five hundred twenty dollars (\$520) to support the Mental Health program of the Monadnock Mental Health Service, or take any other action relating thereto.

27. To see if the Town will raise and appropriate five hundred dollars (\$500) for the use of the Town History Committee, or take any other action relating thereto; this sum to be allowed to accumulate from year to year or to be expended by the committee or to be added to by gifts of money.

28. To see if the Town will vote to become a member of the regional planning commission, now organized and named the Southwestern New Hampshire Regional Planning Commission. This Commission will have membership of at least two municipalities and will have jurisdiction over the planning region delineated by the Office of State Planning. The objective of the Commission will be to plan for and encourage regional planning analysis, provide consensus on major problems of regional concern and to assist in the effectuation of projects within, and which extend beyond, the boundaries of a particular town. The Commission will have only the authority conferred on it by Chapter 36:53, Revised Statutes Annotated, 1955, and will be an advisory commission to local governments in the region. Members of the Commission shall be appointed by the Selectmen in accordance with State Law. Two representatives will be appointed from Hancock.

29. To see if the Town will vote to raise and appropriate the sum of eight hundred eight dollars and fifty-two cents (\$808.52) as the Town's share for the studies and operation of the Southwestern New Hampshire Regional Planning Commission. These Funds will be used for financing the staff, operation expenses, planning studies, technical assistance and other programs of the Commission. These funds may be used in conjunction with other State and Federal funds available; or take any other action relating thereto.

30. To see if the Town will vote to discontinue the Fire Department Hose Reserve Fund and to withdraw four hundred ninety-seven dollars and forty-three cents (\$479.43), plus interest. This sum to be applied to the purchase of new fire hose, or take any other action relating thereto.

31. To see if the Town will vote to withdraw five hundred forty-five dollars and thirty-one cents (\$545.31) from the Hubbard Legacy (Town Poor Reserve Fund). This sum to be applied to Town Poor expenses; or take any other action relating thereto.

32. To see if the Town will vote to discontinue the Dock Fund and withdraw two hundred forty-two dollars and ninety-five cents (\$242.95) plus interest, or take any other action relating thereto. This sum to be applied to the Town Recreation Department.

33. To see if the Town will vote to establish a Town Police Department Equipment Replacement and Repair Fund. This fund will include all Police Department income received after January 1, 1977, excluding income from other Town Departments, and will be allowed to accumulate from year to year or be expended by the agents of the fund. The Selectmen will be the agents of this fund; or take any other action relating thereto.

34. To see if the Town will vote to establish a Town Highway Department Equipment Replacement Fund. This fund will include all Highway Department income received after January 1, 1977, excluding income from other Town Departments, and will be allowed to accumulate from year to year or be expended by the agents of the fund. The Selectmen will be the agents of the fund; or take any other action relating thereto.

35. To see if the Town will vote to discontinue the Town Water Capital Reserve Fund and establish a Town Water Equipment Replacement and Repair Fund. This fund will include thirteen thousand four hundred thirty-seven dollars and ninety-two cents (\$13,437.92) plus interest. The Water Commissioners will be the agents for the fund; or take any other action relating thereto.

36. To see if the Town shall adopt the provisions of RSA 72:43-B and 43-C for Expanded Exemptions on Real Estate which provides for a resident 65 years of age up to 75, a \$5,000 exemption; a resident 75 years of age up to 80, a \$10,000 exemption; a resident 80 years of age or older, a \$20,000 exemption. Provided that the resident owns the real estate individually or jointly with another or his spouse with whom he has been living for at least 5 years as man and wife; said resident has a net income of less than \$7,000 or combined income with spouse of less than \$9,000; and owns assets of any kind, tangible or intangible, less bona fide encumbrances, not in excess of \$50,000; or take any other action relating thereto.

37. To see if the Town will vote to authorize the Selectmen to appoint one Deputy Tax Collector and one Deputy Treasurer, or take any other action relating thereto.

38. To see if the Town will vote to authorize the Moderator to appoint the Town Bicentennial Committee for 1979; or take any other action relating thereto.

39. To see if the Town will instruct the Selectmen to write letters to Governor Thomson, the State Highway Department and Judge Hugh Bownes, stating that the majority of Hancock voters at the 1978 Town Meeting are against the construction of a 4-lane, limited access, east-west expressway passing through the Monadnock Region of New Hampshire as piece-meal alteration of the present Route 101 which would accomplish the same objective; or take any other action relating thereto. (By petition).

40. To see if the Town of Hancock will vote to authorize the Selectmen to appoint a commission consisting of five members to oversee the town property known as the Norway Pond Nature Preserve; the commission to consist of three members-at-large to represent the taxpayers, one member to represent the Recreation Committee and one member to represent the Conservation Commission. The Commission members-at-large to be appointed initially for 1, 2 and 3 year terms so the terms will expire at staggered intervals and preserve the continuity of the Commission; or take any other action relating thereto.

41. To see if the Town will vote to open Brimstone Corner Road 300 feet beyond the residence of Edward Mulhall, Sr. Petitioner agrees to provide adequate turning space in driveway for town plows, etc.; or take any other action relating thereto. (By petition.)

42. To see if the Town will discontinue and make subject to gates and bars the highways described as follows; or take any other action relating thereto.

(1) The road running from Brimstone Corner Road at tax map lot R-15-16 eastwardly to lot R-16-5.

(2) The road running from Antrim Road at tax map lot R-16-1 northerly between lots R-16-3 and 4 on the west and lots R-16-2 and 5 on the east nearly to the Antrim town line.

(3) The road running from Antrim Road at tax map lot R-16-16 north-westwardly between lot R-16-2 on the west and south and lots R-16-7 and 5 on the east and north to lot R-16-3.

(4) The road running from the preceding road at lot R-16-2 northerly between lots R-16-5 and 6 on the west and lot R-16-7 on the east to the Antrim Town line.

(13) The road running from Shady Lane at tax map lot R-15-4 westwardly between lots R-15-7 and 8 on the north and lot R-15-5 on the south to Depot Road at lot R-14-1.

(16) The easterly part of Schoolhouse Road from tax map lot R-9-56 to the Bennington town line.

43. To see if the Town will discontinue and make subject to gates and bars the highways described as follows; or take any other action relating thereto.

(5) The road laid out in 1850 running from Willard Pond Road at tax map lot R-13-21 northerly into lot R-13-15.

(11) The road that starts on tax map lot R-11-12 and runs northwesterly through lot R-11-7 to the Forest Road at lot R-13-23A.

(12) The Thumb Road running from Old Town Road at tax map lot U-15-1 southwesterly to the Nelson town line.

(20) The part of King's Highway running from tax map lot U-13-9 at the road to the Nubanusit Lake boat landing northwestwardly to the Antrim town line.

(21) Whittmore Road from Old Dublin Road at tax map lot R-6-21 to the part of the road that was closed in 1934.

44. To see if the Town will discontinue and make subject to gates and bars the highways described as follows; or take any other action relating thereto.

(6) The road laid out in 1878 running from Robinson Road at tax map lot R-8-17 northeasterly to lot R-8-9.

(8) The part of the Fairfield Road running between Old Hancock Road at tax map lot R-7-55 and Peterborough Road at lot R-7-40.

(9) The part of Buswell Road formerly located between tax map lots R-8-3 and 88 and lot R-8-89.

(17) The part of Old Bennington Road running from Antrim Road at tax map lot R-9-85 easterly to the part of Old Bennington Road at lot R-9-95C that was closed in 1939.

(18) The part of Antrim Road running from Forest Road at tax map lot U-2-3 to Duncan Road at lot U-2-25.

(19) The easterly part of Fairfield Road from tax map lot R-7-38 to Forest Road at lot R-8-61.

45. To see if the Town will discontinue the highway as follows; or take any other action relating thereto.

(10) The road running from Old Dublin Road to King's Highway between tax map lots R-6-28 and 31 on the west and lots R-6-26 and 27 on the east.

(14) The part of a road laid out in 1786 beginning at Depot Road at tax map lot R-15-7 and running westwardly toward Stoddard Road.

(15) The part of a road laid out in 1788 beginning at Juniper Circle at lot R-11-24 and running northerly into lot R-11-68.

46. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes; or take any other action relating thereto.

47. To see if the Town will accept gifts and legacies left in trust for the Town, or take any other action relating thereto.

48. To hear the reports of auditors and committees heretofore chosen or take any other action relating thereto.

49. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this Twenty-second day of February, in the year of our Lord nineteen hundred and Seventy-eight.

William Weston, Jr.
John K. Roper

Robert W. Kierstead
Selectmen of Hancock

AUDITORS' REPORT

February 14, 1978

The auditors have examined the books and records of the town officers and committees charged with performing their several duties and have found these accounts properly posted and correctly kept.

Bank books, bank statements and securities have been examined and balances in the various accounts reconciled.

Harry E. Casler
Wallace L. Ensor
Auditors, Town of Hancock, N.H.

REPORT OF THE POLICE DEPARTMENT

To the People of Hancock:

The year 1977 saw the Police Department go from a part time to a full time department with my appointment on March 7th. As in the past, burglary, larceny and vandalism have been a problem. Cruiser patrol has been increased, but as you well know the police can not be everywhere. Crime is EVERYONE'S BUSINESS and I would like to ask you, the People of Hancock to help the police by taking time to notify us of suspicious persons or vehicles. Your cooperation and support will be a great help. Together we can keep crime to a minimum.

There were over 800 calls last year. The following is a breakdown of police matters attended to:

Abandon vehicles	38
Accidental deaths	3
Aids rendered	45
Animal complaints	13
Assistance to motorist	21
Burglaries 6 have been cleared	13
Calls to aid area towns	29
Civil and domestic calls handled	32
Crank and obscene telephone calls investigated	19
Dog calls; complaints and lost or found reports	57
False Burglary alarms responded to and investigated	23
Larceny 3 have been cleared	6
Lost persons 2 being children	6
Medical assistance calls	18
Motor vehicle accidents 30 investigated by police	36
Motor vehicle complaints	11
Property damage	1
Properties reported vacant and checked	133
Snowmobile complaints	5
Suspicious persons	5
Suspicious vehicles	27
Vandalism 18 have been cleared	23
Arrests: 9	
Arson	1
Assault	2
Driving while intoxicated	2
Issuing bad checks	1
Taking without owners consent	1
Driving to the left of center	1
Reckless operation of a motor vehicle	1
Summons: 89	
Obstructed view	1
Operating without valid license	3
Operating with unsafe tires	3
Operating an un-inspected motor vehicle	2
Solid line violations	5
Speed violations	66

Stop sign violations	8
Unreasonable speed	1
Defective Equipment tags:	78
Parking tickets:	15
Warnings: Verbal	50
Written	30.
Cases prosecuted in Peterborough District Court:	98

I would like to express my thanks to my special officers, the State Police, Hillsboro County Dispatch Center and the other police departments in the area for their assistance and cooperation.

Respectfully submitted,
Edward J. Coughlan Jr.
Chief of Police

HANCOCK FIRE DEPARTMENT

The year 1977 was our busiest year ever. The Dept. had a total of 37 calls—this is approximately five times the total calls made just eight years ago. A breakdown of the calls are as follows:

Rescue calls	10
Chimney fires	5
False Alarms	5
Mutual Aid Calls	10
Trailer Fire	1
Dump fires	2
Car fire	1
Brush fire	1
Fire at the Church	1
Stand by for electric power failure.	1

The Department would like to thank all of the towns people that so generously supported our monthly raffle. We also say thank you to all the people that have made Personal and Memorial donations to the Department. All of the money received is put into our equipment fund.

BUILDING INSPECTOR'S REPORT

The Town of Hancock continues to be a popular town. It has grown by some seventeen new homes in 1977, plus several additions to existing homes, which shows that present home-owners intend to stay.

I wish to thank all contractors and homeowners for making my job very easy and satisfying by their cooperation in following the Building Code and Zoning Ordinances.

The breakdown of building permits is as follows:

New homes	17
Additions	6
Garages	6
Sheds and barns	6
Porches	6
Swimming pools	2
Miscellaneous	2

45

Respectfully submitted,
Harrison L. Kendall
Building Inspector

LEGISLATIVE REPORT
REGULAR SESSION
1977

The 1977 Session of the Legislature started, from my point of view (after a short initial period of confusion), in an encouraging, progressive direction. There were a number of new, articulate, bright, young Representatives eager to challenge the die-hard "conservatives" who had killed several worthwhile bills in the previous session.

The field of my principal interest and greatest knowledge is conservation-of our land, our farming, our wildlife, and our other non-renewable resources-without which the future will be very bleak indeed. Many of the measures relating to these phases of government come into my committee, Environment and Agriculture, for study, approval and support if approved in either the original or an amended version. The new attitude of the majority of House members enabled us to succeed in the passage of several bills which had been killed in previous sessions and only their later death in the Senate committee chaired by Sen. Monier, a 99+% supporter of the Governor, kept this from being an outstandingly successful "land use" year. One of these was the bill requiring wider than local approval of developments of regional impact, developments of such size that they could have a deleterious effect on neighboring towns, and another was the one requiring towns to make an inventory of their critical resource areas, fragile or essential areas which if developed too highly, or in some cases developed at all, would cause severe damage to the surrounding countryside or to the future wellbeing of the population. A new bill to study the possibility of preserving the most productive farm lands by state purchase or lease or purchase of development rights also passed the House but was killed by Senate committee.

Unfortunately, a bill to control strip development along our highways, passed by the House, was sent by the Senate to interim study—thus postponing or killing this effort to stop the ugly, thoughtless, linear growth that creates traffic problems that, later, call for construction of new, expensive, land-consuming thoroughfares to bypass the stagnation areas.

A bill prohibiting the removal of sand and gravel from the dunes along the shore was passed and fortunately survived both the Senate and the Governor to become law. However, one to provide for local regulation of excavations, to avoid the hazardous and unsightly residue of an abandoned sand and gravel operation, and one to regulate strip mining in the state passed House and Senate but were vetoed.

Several bills dealing with open burning, incineration, sanitary landfill and other methods of disposal of our huge amounts of waste were studied. Temporary relief was renewed for small towns that were having real difficulty in meeting the scheduled deadlines and could show effort. A hazardous waste disposal bill is now in interim study in my committee. Regrettably, the bottlers' lobby was again able to defeat our bill banning non-returnable beverage containers and the House must accept the onus of continuing to add these containers to our stream of solid waste—strewn along highways and fields or hauled off to our dumps—and to add the production of new containers to our already over-extended resource and energy capabilities. Although a statewide solid waste management program setting dates for steps toward a solution and a revision of the state clean air act, both to meet Federal requirements, became law, the big problems of soil, water and air pollution are not yet solved and will not be solved until we cut down on waste at its source and increase greatly the re-use (by cleaning or repairing for

direct re-use, by recycling, by conversion into energy, or by other means) of the materials that we now throw away.

In a different field, a disappointment was the killing by Senate committee of an ethics bill that would have governed the legislative and executive branches. This was passed by the house after a floor fight and victory for a strengthening amendment (actually a whole new and better bill).

The furbearing animals of the state were given more protection by two bills. Horses suspected of carrying EIA but displaying no symptoms of the disease were saved from mandatory slaughter of lifetime isolation by a bill rescinding much of a statute enacted by us in the last session. This bill created an unbelievable amount of emotion but I feel that our committee acted sensibly and produced a sane compromise.

The much publicized fight over the operating budget—between the House and the Governor's followers in the Senate—delayed final approval and caused hardship throughout the State. The finally accepted compromise gave back to the towns much of the tax proceeds that the Governor's proposal had taken to give the appearance of a balanced state budget but did little to keep the state services operating as they should. Although an effort to pass a state income tax failed, as expected, more legislators are accepting the belief that such a tax will soon be necessary and would be fairer than the present devious and inequitable means of raising state revenues.

The State is still without a capital budget for the biennium on account of a similar disagreement. This one is unresolved and may remain so.

One bill which has become law—the Sunset statute—may eventually have a profound effect on the operation of the state agencies and on future state budgets. Now being studied by a special joint committee, with briefings of the entire General Court by our own people and knowledgeable legislators from other states; and its procedures about to be tried in several test runs, it will require the agencies to face periodic examination by the appropriate legislative committees and to prove their worth, to prove that they are efficiently fulfilling their purpose in order to remain in existence. They will face elimination, approval or changes.

This report covers a very small part of the 1977 Sessions' activity—where 1753 bills were introduced, plus various kinds of resolutions and Bills of Intent, and over 600 bills became law. I will be pleased to check the status and details of any one that interests you particularly. And, again, please let me know your thoughts about pending legislation or your problems with existing state or county laws or regulations. I'll try to help you.

John B. Corser, Jr.
Representative
Hillsborough District 2

REPORT OF THE HANCOCK TOWN HISTORY COMMITTEE

The History Committee has had a busy 1977, meeting each month and going ahead with plans and research for the story of Hancock's second century which they hope to complete for 1979.

The Bicentennial book, *A Prelude to Hancock's Hundred Years*, was well received, and orders have come from distant states as well as locally. The New Hampshire State Library requested a second copy, and the book also received special commendation in the New Hampshire State Bicentennial publication.

The Phoenix Publishing Company of Canaan, New Hampshire, who have been advising Hancock's history committees for several years, sent a surprise gift of two handsomely bound hard-cover copies. One is at the Hancock Town Library and the other in the History Room at the Town Office Building.

During the spring of 1977, thanks to the generosity of the Ladies' Guild, the cooperation of the Selectmen, and the skill and labor of custodian Joe DeBrava, the History Room underwent a complete face lifting. It was cleaned, scraped and patched; windows washed and ceilings, walls and woodwork painted attractive shades of green. A formica-topped cabinet with sliding doors was constructed, fluorescent lights installed, and drapes, made by seamstress Pat Newcomb, hung at the long windows. The result is a charming room which is being used by many small groups for their meetings as well as by the History Committee.

Another accomplishment has been the printing by Sim's Press of large copies of the map of Hancock drawn by Leila Wood and published in *Hayward's History of Hancock, N.H. — 1764-1889*. These are on sale at the Hancock Town Library and at the Town Office Building for \$1.00 each and have proved popular.

A surprise bonus is a manuscript prepared by Tom Rhines and recently given to the Committee. This is a twenty-eight page index to the map in *Hayward's History* which will enable the viewer to identify homes located on the old map, families who lived in them, and dates of occupancy. It is a truly extraordinary and useful piece of research. The Committee hopes to make copies available for those who are interested.

Another project which was conducted independent of the History Committee was carried out under the leadership of Frank Bramley. Thanks to him and his group of nature lovers, the chapter in *Hayward's History*, prepared by Miss Lydia D. Osgood and entitled "The Flora of Hancock", has been checked to ascertain how many of the varieties of plant life which Miss Osgood identified still grow in Hancock today. The findings of this group of researchers have been turned over to the Committee and will be an interesting addition to the new history.

At present we are fortunate in having many talented researchers and writers at work on various aspects of the Second Hundred Years, and we'd like to thank everyone who is contributing to the forthcoming book. It is our hope that together we can produce a story of Hancock's second century of which the Town can be proud.

The History Committee

TOWN LIBRARY TRUSTEES REPORT

The principal accomplishment this year has not been visible to the general public. It has been the renovation and improvement of facilities in the basement. The work is still in progress but nearing completion. The purpose has been to achieve maximum use of the existing building and provide additional capacity for useful books which do not have an active circulation.

Old oil tanks and pipes were removed from the heater room, after which, extensive cleaning and alterations have resulted in an auxiliary book storage with capacity of about 3,500 volumes. The heater has been covered with a coating of insulation and the large storage space under the present stack room is much improved by the installation of a new concrete floor. Any further expansion of the library will require major capital expense.

A generous gift has been received from Mr. and Mrs. George Toumanoff for the purpose of establishing a memorial fund in the name of their daughter Alexandra Georgiana Toumanoff. Income from the fund is to be used for the purchase of books for the library, preferably for young people. This will enable the library to acquire new books which it could not otherwise afford. The memorial will be personalized by the use of a special bookplate for each book purchased from the fund.

In recent years our library has been the recipient of several memorial funds for which the Trustees are deeply grateful and proud that our library is chosen to fulfill the purpose of these remembrances. We can think of no better way to commemorate a loved one than with a living memorial which will continue to enrich life in the community.

We can report that the library plant is now in generally good condition but in the immediate future extensive repair and maintenance will be needed. The foreseeable items include various requirements for cleaning and painting, also, rebuilding the top of the chimney. The present lighting system in our stack room is inadequate and we are constantly aware that the steam boiler is old and subject to failure at any time.

We are mindful of our competent and dedicated staff which has not changed for several years. Our preeminence among small town libraries is largely due to their faithful service.

Edward P. Wells
Kenneth F. Tripp
Dolores deP. Daniels

HANCOCK TOWN LIBRARY REPORT
Circulation and use record 1977

Adult fiction loaned	7,098
Adult non-fiction loaned	2,785
Periodicals loaned	578
Children's books loaned	3,769

14,230

Also during the year 162 records and 9 puzzles were circulated.

The State Library Bookmobile visited the library several times during the year to leave a total of approximately 1200 books. In addition we borrowed 83 books from the State Library in Concord on special requests.

We continued our arrangement with the McNaughton Book Service to the satisfaction of our patrons, and again at the end of the year we were able to purchase for our permanent collection a number of books at a considerable discount.

Wednesday is story time at the library. Doris Rogers reads to the first and second grades, and Harriet Hampson reads to the second, third and fourth grades. She also has a story period for the pre-school children. All classes come to the library on an alternating basis, with their teachers. In addition, a movie has been shown to the pre-schoolers each month.

Book Inventory

	Adult	Children	Total
Number of books, Jan. 1, 1977	7,721	2,269	9,990

Magazines currently subscribed to	22	3	25
Newspapers	3		3

We are grateful to Sally Hamilton for her continued excellent arrangement for art exhibits throughout the year. The library has occasionally been open on a Sunday afternoon for an open house to which the exhibiting artists have invited their friends. In the display case the librarians have arranged for a varied showing of interesting exhibits.

As usual on Old Home Day we had our annual sale of old and discarded books and since then have also sold books from the table in the vestibule, making a total in all of \$230.65. These collections are, of course, used for the purchase of new books for adults and children.

The library is very grateful for the many gifts of excellent books and magazines from our patrons, and particularly for the books given for the sale on Old Home Day which made the sale so successful.

Elsie Frank

PLANNING BOARD

The Planning Board held fifteen meetings in 1977. Three meetings were public hearings regarding proposed amendments to the town zoning ordinance and subdivision regulations.

Eight applications for subdivisions were approved in 1977. All were relatively minor.

In February the Board adopted a master plan for Hancock. The plan summarized various aspects of the town's present situation, and offered fourteen recommendations for future consideration.

Several amendments to the subdivision regulations were adopted, primarily to cover problems of road construction in major subdivisions.

For consideration at the 1978 annual town meeting, the Planning Board has proposed eight amendments to the Hancock Zoning Ordinance. Four important ones include a proposed increase in minimum lot size to four acres in the Agricultural and Rural District, a change of the Peterborough Road portion of the Residential District to Agricultural and Rural, provisions for exceptions to lot frontage requirements in special cases, and new regulations concerning home occupations.

HISTORIC DISTRICT COMMISSION REPORT

During the year, only one formal meeting of the Commission was necessary.

Approvals were given for two general repair and painting operations, three structural changes and to erect a ham radio antenna.

It should be emphasized that all general maintenance repairs, alterations or additions to the exterior of buildings in the Historic District require the Commission's approval. In most cases, a telephone call to one of the members is all that is necessary.

**REPORT OF THE HANCOCK ZONING
BOARD OF ADJUSTMENT**

During 1977, the Board held public hearings as part of their consideration of four appeals for Variances from the town zoning ordinance. In the first application, Elizabeth S. Lyon requested permission to sell a building lot having access only from a private way. This application was approved subject to several restrictions on right of way placement and size and the number of residences served therefrom.

Elva A. Blacklock requested permission to construct a carport, the boundaries of which would not adhere to the front setback requirements of the ordinance. This application was approved subject to three restrictions imposed to maintain the spirit and intent of the zoning ordinance and the Historic District ordinance.

The third application for a Variance was made by Alfred and Augusta Dillon to permit construction of a residence on land below the flood plain level as described in Article IX, Section 2 of the ordinance. The application was denied because the building site would have been twelve feet below the perscribed level and because the required conditions for approval as specified in RSA 31: 72 were not present.

The Board also concluded a hearing process initiated in 1976 by Mrs. William H. Young for permission to construct an addition to her garage which would infringe upon the side setback requirements of the ordinance. After a review of the particular circumstances, the Board granted the Variance subject to a restriction as to the size of the addition.

In other business, the Board met informally with several citizens who had questions about various aspects of the zoning ordinance and also held discussions with other town Boards to consider the need for further clarification of voter intent.

Respectfully Submitted,

HANCOCK WATER SYSTEM REPORT

At the 1977 Town Meeting, the Water Commissioners were directed to investigate the cost of a hydrological survey of the Juggernaut Reservoir and to present an overview of the water department system.

The Commissioners consulted with several engineering firms, namely Keyes Associates and Fay, Spofford and Thorndike, Inc. In April they received a report from the latter firm outlining the following summarized observations.

A check with the State Water Supply and Pollution Control Commission indicated that major additions are not required in the immediate future for compliance with the National Drinking Water Standards. The record information furnished by the state concerning the quality of water indicates that the town does not have an immediate problem. Eventually, water treatment will be required if Juggernaut Pond continues to be the prime source of water supply. The item requiring immediate attention apparently is the chlorine facility which should be rehabilitated as necessary to insure continuous dependable service. The dirty water problems which are experienced at various times can apparently be eliminated by a water main flushing program at regular intervals.

Therefore, only two engineering investigations should be involved at this time, according to Fay, Spofford and Thorndike, Inc. First, the installation of a rain gage and wier to measure and establish the safe yield of Juggernaut Pond is recommended. The safe yield of the reservoir should be approximately 160,000 gallons per day. This figure can only be substantiated by extensive local observations, utilizing the rain gage and wier to compute the relation between rainfall and runoff for Juggernaut Pond and then to establish the relation between Juggernaut Pond runoff and Contoocook River flow. The investigation and report would require 14 to 16 months to complete, with the wier reading recorded daily most of the time. Assuming arrangements are made locally for the readings, the cost for the study and report calculating the safe yield would be \$2800.

The second engineering study involves development of a Master Plan for the town's water works system. The Master Plan would provide a sequenced program designed for the anticipated town growth, giving full consideration to the National Water Quality Standards. Engineer work involved would require 4 to 6 months, concerning itself with population growth and water requirements through the year 2010, mapping of the system on a basic street plan, hydrant flow measurement and calculation, examination of existing deficiencies, preparation of preliminary design for new facilities, cost estimates and explanation of the final concise report. The total cost of the Master Plan study and report would be \$5500.

In addition to the engineers' recommendations, a report on the preliminary project to map the Hancock Water System has been submitted to the Commissioners by H.M. Johnson and Edward P. Wells. The project was initiated during 1965-6 by a special committee headed by Gaius Merwin. Since that time, various committee findings, blueprints, sketches, and field books have been researched to put together a complete layout and street plan on which the entire Water System could be shown.

Accordingly, Johnson and Wells undertook the production of such an up-dated Master Plan for the Water Department. In 1975 a conference was arranged between those named above, the Water Commissioners and John E. O'Donnell Associates to discuss the possibility of superimposing a Water System Map on the Town Tax Map which had been prepared by O'Donnell. The estimated cost for two completed sets of maps for the Water Dept., which would include copies of the 9

existing Urban Tax Maps and 4 additional maps at scale 1" = 100' covering the area up to Juggernaut Pond, was \$613. The Water Dept. proposed that they would mark a set of prints with the locations and sizes of all water mains, hydrants and valves and would forward same to O'Donnell Associates to be plotted by their draftsmen on the Water Dept. Milars.

Since the 1975 conference, it was found during preparation that 5 maps were required rather than the 4 originally proposed. One set of prints of these 5 maps, which covers the entire water system, has been marked by Johnson and Wells with the information gathered relative to hydrants, mains and valves. It is now up to the Water Commissioners to decide whether to pursue the original objective and have O'Donnell Assoc. complete the milars by plotting on them the data marked on the work prints and then supply the town with two complete sets.

On the basis of their study, the further development of a finished set of Water System plans is recommended, knowing that much additional information should be gathered and recorded in the plans. For example—dates of installation, types of joints, fittings, etc. covering the numerous extensions. They also suggest valve locations and shut-offs for individual services could be noted.

The Water Commissioners are most grateful for the assistance of Herbert Johnson and Ted Wells, as well as others who preceeded them. On the basis of all the information previously outlined, we offer the following recommendations.

1. The Water Dept. should proceed with step one outlined by engineers Fay, Spofford and Thorndike, Inc., namely the installation of a wier (with daily recordings handled locally) to establish the safe yield of Juggernaut Pond.

2. The second engineering study, namely the development of a Water System Master Plan to provide for elimination of deficiencies and expansion of services as needed, bears more thought. Constant revisions and additions to the requirements of the Safe Drinking Water Acts are forcing more and more regulations on local communities. It is foreseeable that such regulations might necessitate the installation of a filter system or dug well in the future. It is the opinion of the Commissioners that the town assess the information gathered from step one before proceeding with the sequenced program concerning town growth.

3. Water rents should be increased to help meet increased expenses.

4. The chlorine facility at Juggernaut should be rehabilitated as necessary to insure continuous dependable service.

5. A comprehensive water main flushing program should eliminate customer water complaints.

6. In light of expanding federal and state water regulations and increased difficulty in finding people with the time needed to handle the Water Commissioner's responsibilities, a study of the feasibility of employing a public works superintendent to oversee the water and highway departments should be considered.

Hancock Water Commissioners

NORWAY POND NATURE PRESERVE COMMISSION ANNUAL REPORT

This Commission met four times during 1977 including once with the Selectmen. This year Robert Keil became the representative from the Recreation Committee.

During the process of burning down the remnants of buildings left from Camp Guild, a number of trees were killed or badly damaged. John Kulish volunteered to remove them. This job was completed during the winter and early spring.

Due to winter ice storms last year, a good many trees along the trails were broken off or bent over making the paths impassable. John Kulish offered to take care of this work too. He put the fallen trees along the downhill edge of the trail to prevent further erosion and put log bridges across the wet places. By spring the trails were in good condition.

Along the edge of the pond two medium sized trees have been cut down by beavers and several others have been gnawed. The level of the pond has risen a bit allowing water to cover some of the trail in low places.

There was evidence that the trails and grounds had been used by off-road vehicles and the iron bar across the main entrance to the Nature Preserve was stolen. Over the summer there were at least two instances of overnight camping. Trees had been cut to make a shelter in one case, with sleeping equipment and cigarettes being found inside. In another place, a blanket was used for a shelter. Articles of clothing and school papers were found. There were the remains of several fires at these places and in other different places in the park. The sign at the entrance to the park specifically prohibits fires, overnight camping and motor vehicles.

At its June meeting with the Selectmen this Commission suggested two more signs to put up, one at the entrance from the railroad bed and another on the point where boats land. A cable has been put across the main entrance to replace the iron bar, to keep out motor vehicles.

This Commission, whose term expires in March 1978, is recommending to the Selectmen that an on-going Commission be set up to oversee the care and maintenance of this valuable piece of Town property. They also recommend that at-large members of the Commission be chosen for their knowledge and interest in the property and willingness to make frequent trips through the park to survey the maintenance of the grounds, to take steps to prevent erosion of the trails and shoreline, to see that the trails are cleared and to keep the property free of trash.

The Nature Preserve has been well used on the whole during this year. It is a beautiful piece of property and a great asset to the town. The Commission is suggesting that the Selectmen encourage more use of the property, especially the open field, as it can serve to lessen the burden on the present ball field for activities such as weekend ball games. We also hope that townspeople will make more use of it in the future for nature walks, picnics, games and family gatherings.

Robert Strombeck
Terry Benoit
Robert Keil (Recreation Committee)
Joan Watson (Conservation Committee)

REPORT OF THE CONSERVATION COMMISSION

Much of the work of the Commission this year was concerned with the Moose Brook waterway. Discussions centered chiefly on protection of the waterway and improvement of its flowage into Norway Pond.

Commission members met with State Fish and Game officials regarding the proposed dam at Carpenter's Bog. Our chief concern, "What affect will the project have on Norway Pond?" was answered satisfactorily, assuming the guidelines outlined by Fish and Game officials are followed.

A plan to improve water circulation in Norway Pond by building a cofferdam at the mouth of Moose Brook was publicly presented at the Fish and Game meeting by former Conservation Commission member Tony Brown.

Written permission has been obtained to build such a dam, and cut the necessary trees, from the landowners, Barkev and Catherine Kassarjian.

Commission members also conducted the annual litter clean-up in May; continued the maintainence of Moose Brook Park as a picnic area; began preliminary planning for a tree planting project along Main St.; studied the treatment of elms for Dutch Elm disease; and made arrangements on a trial basis for the State Highway Dept. to restrict the use of heavy salting along Main St., using sand whenever possible.

REPORT OF THE TOWN SEXTON — 1977

Since the weather during the spring of 1977 was, for the most part, favorable, we were able to have all three cemeteries ready for Memorial Day.

During the summer Louis Hugron was in charge and, with the help of two young men, kept the cemeteries looking good.

We had three committal services during the year.

After seven years as town sexton, I am now stepping aside for reasons of health.

I would like to take this opportunity to thank Louis Hugron and all the boys who have helped me during my years of service.

Howard S. Rogers, Sexton

REPORT OF DISTRICT FIRE CHIEF AND TOWN FOREST FIRE WARDEN

Forest fire control in New Hampshire is a joint state and town/city responsibility (RSA 224).

The Director, Division of Forests and Lands (State Forester) appoints a forest fire warden and several deputy forest fire wardens in each town/city upon the recommendation of local authorities.

The local forest fire warden is responsible for forest fire prevention and suppression activities in his town. He regulates the kindling of outside fires when the ground is not covered with snow by the issuance of written permits only when conditions are safe. He is responsible for suppression with the town/city and state sharing the cost. Suppression costs in excess of $\frac{1}{4}$ of 1% of the assessed valuation of the town are assumed by the state.

The state provides training for the local fire organization and helps coordinate activities between towns/cities. The state also supports local forces with backup personnel, equipment, and supplies for suppression and prevention.

This combination of state and local cooperation, started in 1893, works well, for New Hampshire has enjoyed one of the smallest acreage losses due to forest fires in the United States for the past 25 years.

REPORT OF THE LONG RANGE PLANNING COMMITTEE

The 1977 Hancock Town Meeting voted an amended motion under Article 17 which called for the Moderator to appoint a seven-member committee to study long term building and equipment needs of the Police, Highway, and other Departments.

During the ensuing ten months the Long Range Planning Committee studied the needs of the Fire Department, the Highway Department, the Library, the Police Department, the Recreation Department, and the Town Hall and High School Building, also known as the Town Offices Building. As the Water Department is currently preparing to conduct its own study, the Committee concluded that it would not include that department's needs in its long range planning studies. However, the Committee does strongly recommend that anyone building beyond the current area served by the Town water system should provide his own water.

Each member of the Long Range Planning Committee was assigned a particular department to study. Building, equipment and personnel needs were discussed with each department head and with Town officials, and individual reports were submitted to the Committee. These reports are given below with the final recommendations of the Committee.

In December a proposal was presented to the Committee for an addition to the High School Building, incorporating a new fire station and meeting hall. No cost figures were included. The Committee voted unanimously not to support this proposal. The main reasons for the Committee's action are:

A. Location

1. The emergency traffic on School Street would be too dangerous.
2. The parking would be a problem.
3. The Recreation Area would be adversely affected.

B. Town Priorities

1. Priority should be assigned to the Highway Department's needs at this time.
2. Other alternatives for a meeting place should be considered before construction of a new meeting hall is recommended.

A chart of Projected Capital Expenditures has also been prepared to give the taxpayers an idea of present Town commitments and the financial impact other building and equipment costs will have.

It is recommended that a periodic review be made of capital-expenditure needs so that the Town may continue to have a long range plan for capital improvements and spread the financial burden for the taxpayers more evenly over a number of years.

Robert A. Fogg
Dorothy G. Grim
Bruce C. Kierstead
Merton D. Knowles

HANCOCK FIRE DEPARTMENT

Report by Robert A. Fogg to the Long Range Planning Committee

The Fire Department is made up of about thirty volunteer members. They meet the first Tuesday of every month at the Fire Station.

Building

The present building is a wood frame structure located in back of the Hancock Cash Market. The building is approximately 1,500 square feet and houses the three fire trucks, miscellaneous fire equipment, some Water Department and Civil Defense equipment. It has a partial basement and an attic area. The building has a poor access from Main Street. Probably within the next five to ten years this building should either be replaced or added on to, as it is not large enough to house all of the fire equipment. The disadvantage of an addition to this building is the poor location and there is only .29 acres of Town land there. A new building in another location should be about 3,000 square feet to house all of the fire equipment including what is now presently located in a private garage. The cost of an addition to the present fire house would be approximately \$40,000 to increase the floor area to 3,000 square feet. The cost of a new building 50' x 60' on town land would be approximately \$25 to \$30 square foot or \$75,000 to \$100,000 for a 3,000 square foot building.

Heavy Equipment

Presently have:

- 1.) 1965 International pumper
- 2.) 1945 Mack pumper
- 3.) 1973 GMC tank truck
- 4.) Forestry trailer

Should be replaced by:

- 1.) 1985 at a cost of at least \$50,000
- 2.) 1985 with the 1965 International pumper
- 3.) about 1995 — cost unknown
- 4.) 4 WD Army surplus vehicle at a minimal cost to the town

Miscellaneous Equipment

The Fire Department presently spends about \$1,500 per year for small equipment. This includes hose, fittings, nozzles, protective clothing, hand lights, hand tools and various items that are needed to maintain a modern and efficient department.

The Fire Department raises money each year, through a raffle, for a truck and equipment fund. It is hoped that this raffle money will reduce the amount of Town funds required when new equipment is needed.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

It is the recommendation of the Committee that the present fire station, despite its poor location, is adequate for the next five years. Since no major equipment must be replaced within that time period, additional space would not be a major problem. Good maintenance and low mileage indicate the Town could update pumping equipment on the trucks when such repairs become necessary rather than purchasing vehicles.

THE HIGHWAY DEPARTMENT

Report by Bruce C. Kierstead to the Long Range Planning Committee

Personnel

At present the Highway Department has a three-man staff, supplemented by private contractors when needed. This will probably be the most efficient use of personnel and equipment unless we gain very significantly in the need for increased road maintenance. There are over 50 miles of Town roads to be maintained.

Buildings

The building is a three stall, woodframe building, 36' x 44', and is 27 years old. It is situated on three acres. The building is in good repair and has a fairly new forced hot air heating system. There is no running water or toilet facility.

There is a need for more space to house equipment. We should enlarge our space, but only part of that space needs to be heated. If this were done it would be the time to add toilet facilities. The building could take many forms and range in price from \$11.00 per square foot to \$20.00 per square foot.

Equipment

The department has the following dump trucks:

1. 1966 R-185 International
2. 1973 R-400 Mack
3. 1977 R-400 Mack
4. 2 ½ ton 6x6 10-wheeler with a sander

These trucks are used for hauling sand, salt and other materials for road maintenance, and for plowing snow. The life expectancy of such trucks is 15 to 20 years. The Town also hires private contractors to plow snow and to do tarring work on T.R.A. projects. Under these conditions one truck should be replaced by 1983 at the latest.

There are two rubber-tired loaders: a 1961 Hough H-30 and a 1974 Catapillar 930. The Hough needs new tires and some repair to the steering and hydraulic system. The Road Agent recommends a new one. The Catapillar is used in conjunction with the landfill and the only foreseeable expense could be painting and new tires due to landfill hazards.

There is one pickup truck, a 1971 Jeep ½ ton with plow. It is used to do some light snow plowing and trash pickups, and other light work. The vehicle needs frequent repair and should be replaced, probably in 1978.

We have one motor grader. The Catapillar 212 is a 1953 model, rented by the hour. It is used for road grading and widening winter roads. The Road Agent feels this machine is adequate at present but age and increased work load would change this. The Town has several other pieces of equipment, such as snow plows, which are now in good shape; road sanders, and a york rake for work on gravel roads.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

Priority should be given to the Highway Department's needs at this time. The Committee recommends that a 5-bay addition with two heated work bays and toilet facilities be added to the present structure. Such a building, using conventional construction methods, at today's prices, would be approximately \$30,000 to \$40,000. The Committee also recommends investigating low cost, unconventional structures such as free-span steel construction and Qonset-type buildings. It might be

wise at this time to consider using one of the additional bays for Fire Department use, such as storage of forest fire equipment and perhaps one truck. The Committee concurs that the present jeep pickup be replaced in 1978. In order to economize, the Town should continue the use of private contractors to augment the department personnel and equipment. A piece of equipment not used to its full potential is a waste of money to own.

THE POLICE DEPARTMENT

Report by John C. Carr to the Long Range Planning Committee

Report on Anticipated Equipment and Facility Needs of the Hancock Police Department for the Next Five Years.

Equipment

I. The major piece of equipment is the police cruiser. The present cruiser was purchased in early 1978.

The cruiser is used as follows:

Type of work	% of use
1. Routine patrol	60%
2. Answering calls	30%
3. Accidents	5%
4. Back-up for other towns and State Police	5%

Total time, approximately 3,000 hours per year.

Normal effective life for a police cruiser is two to three years. The cruiser is in excellent condition, but it does have 29,000 miles on it. We can therefore expect that a new cruiser will have to be purchased in 1979 and perhaps another in 1982-83.

Two considerations for our committee are:

1. The total cost of the cruiser will probably be paid for by the town.
2. The town could get along with a smaller vehicle.

II. Other equipment for investigation, filing, and storing ins needed, but will not have a great impact on the budget.

Facilities

At the present time, the Police Department is located in one room of the Town Office Building.

The room is used for the following purposes:

1. Running the Police Department.
2. Developing, maintaining, and storing reports and records.
3. Questioning persons.
4. A formal place for interested persons to meet with the Police Chief.

It is the opinion of the Chief and myself that the present facility is inadequate for efficient operation.

A secure storage area is needed to keep evidence. This may be accomplished within the existing space, but it would be difficult to do.

There should be at least two areas (rooms?) so that simultaneous private conversations can be conducted.

If a new town building (fire station) is constructed in the next five years, consideration should be given to housing the Police Department in that facility.

Personnel

No additional personnel are anticipated for the next five years.

I would like to thank Chief Coughlan for his assistance in providing information for the report. The report of the Professional Standards Committee of the New Hampshire Association of Chiefs of Police dated February 23, 1977 was also helpful.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

The Committee concurs with the study that the police cruiser be replaced approximately every three years. A closer look at the Town Office Building might provide the additional space requested by the Police Chief. Cleaning and washing of the cruiser could be done in the proposed addition to the existing Highway Department building.

RECREATION DEPARTMENT

Report by Merton D. Knowles to the Long Range Planning Committee

Looking ahead a few years, I shall go on the assumption that the growth of the Town will continue at its present rate. Recreation facilities in any town is essential for its growth and well-being. Here in Hancock we are fortunate in having and maintaining at the present time facilities that are equal, if not better, than those in most towns of the state. It is fitting and proper that we should assess and look into our needs for the next few years and by so doing, move ahead in an orderly fashion.

At this point it becomes necessary to point out that the work being done to maintain the Recreation Area on School Street during its periods of summer and winter use has been undertaken on a voluntary basis by Mr. Robert Stewart and myself. Although the Town provides the supplies for this work, a large portion of the equipment necessary to maintain the area is privately owned by the two of us.

The time is approaching when it will become necessary to employ a permanent grounds keeper. This will also necessitate the purchase of adequate equipment to maintain the area in its present condition.

The cost of having the work done on a regular basis by a professional firm appears to be too costly an undertaking, and the leasing of needed equipment rather than purchasing also appears to be not only costly, but undesirable for the extensive period of time needed for its use.

The following charts are submitted for study, in order that Town residents may know what comprises the Recreation Area, what maintenance is required, and what equipment is necessary.

Inventory of the Outdoor Recreation Area

Ball Diamond — Little League and Soft Ball

Tennis Courts — Two new courts ; one older one

Bounce Board — One for use in tennis practice

Shuffleboard Court

Two Ice Rinks — One for hockey; one for social skating

Bathing Beach — Appropriate safety equipment & lifeguard service

Storage Shed — Too old and small to be of use

Present Requirements

Summer	Winter
Supplies	Supplies
Fertilizer	Gas and oil
Lime	Water
Grass Seed	Light bulbs
Clay	Hoses
Paint	
Gas and oil	

Equipment

- 2 Riding mowers (privately owned)
- 3 Lawn sprinklers (privately owned)
- 2 Small mowers (privately owned)
- 2 Rollers (privately owned)
- 1 Wheel barrow (privately owned)
- 2 Trailers or carts (privately owned)
- 1 Aerator (privately owned)
- Shovels, rakes, hand tools (privately owned)
- Ladders (privately owned)
- Lawn spreader (town owned)
- 150' Hose (town owned)
- 2 Snow blowers (privately owned)
- 2 Sprinklers (privately owned)
- Small hand tools (privately owned)
- 1 plough to fit tractor (town owned)

Labor Costs

Voluntary

Projected Requirements

Summer		Winter	
Equipment		Equipment	
Replacing present privately owned equipment with the same quantity but a larger size:			
Grounds equipment	\$3,000.00	Snow blowers	\$750.00
Sprinklers	90.00	Small tools & hardware	100.00
Small mowers	220.00		
Small tools & painting	200.00		
Storage shed	500.00		
	<hr/>		<hr/>
	\$4,010.00		\$850.00

Summer Labor

Estimated cost of hiring all work for ball field and tennis courts:	
Cutting grass for five months	\$600
10 Little League games preparation	180
General maintenance, labor & equipment for tennis courts, bounce board & shuffle board	400
	<hr/>
	\$1,180

Winter Labor

Estimated cost to maintain two skating rinks:	
Labor	\$1,800
Renting plow & snow blower	500
Hardware and general maintenance	100
	<hr/>
	\$2,400

Anticipated Needs

1. The Town very soon will have to employ a permanent grounds keeper. This will necessitate, also, the purchase of equipment needed for the care and maintenance of the recreation areas. For storing the equipment, a good-sized room will have to be made available, as the old storage shed is not adequate.

2. Toilet facilities need to be installed in the near future.

3. A drinking fountain near the new tennis courts is also advisable.

4. The need for a well-laid out parking lot or lots is essential. At the present time there is not too much land left for parking.

5. The back stop on the ball field is old and will have to be replaced.

6. The old tennis court should be kept in the best condition possible: a new surface as well as new fencing will be required. This court is used every good day, and as the town grows, the court will continue to be used.

At the present time, work on the ice rinks is being done by volunteers. It is hoped that other townspeople will come forward and offer their services and equipment for other projects, as the needs arise. In this way, costs can be kept at a minimum, and the need of hiring a permanent grounds-keeper can be eliminated.

The Town Beach

The Town Beach and equipment seem to be in fairly good condition. At the present time the problem is circulation of water around the lake and the silt that is being deposited on the bottom. It is recommended that a study be made of these problems, the size of the beach, and the relationship of the septic systems in the Town Hall and Sheds to the beach area. Beach expenses are about \$3,000 annually.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

The Town must be aware of the fact that tax money will eventually have to be budgeted for Town-owned or rented equipment and for paid labor to perform the maintenance for the summer and winter recreation areas. At present this work has all been done on a voluntary basis, but future changes must be recognized as inevitable.

THE LIBRARY

Report by Eleanor D. Falcon to the Long Range Planning Committee

A study of the Hancock Town Library reinforces what is well known in the community: the building is carefully and well maintained; the staff is knowledgeable, resourceful and dedicated; and the Library richly deserves its reputation as one of the finest small town libraries in the State.

Within the past two years, under the guidance of a board of three dedicated trustees, several improvements were made:

- 1) the Middle Room: the facilities for the public were increased and more efficient work area was provided for the staff
- 2) installation of an underground 1000-gallon oil tank, which permitted removal of existing tanks from the basement and
- 3) additional space for shelving and storage of inactive books, and additional work area for staff

A masterplan has been prepared by the Trustees which cites as a chief need the requirement of about 600 square feet of additional floor space. Construction of a second floor in the original building is anticipated, and a scale model of the proposed work has been done. The Trustees believe the addition should be built through private funding. At 1975 prices, the estimated cost was \$50,000.

No major expenditures for capital improvements are anticipated by the Library in the next five years. However, the desirability for an increase in town appropriations for Library operating expenses has been expressed. Should this happen, a greater proportion of trust funds would be available to finance capital projects. As in the past, the Town may be requested by the Library to make periodic appropriations for the Library's Capital Improvement Fund. Recently, these appropriations have been \$1,000 annually.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

In principle, the Committee supports the annual appropriation of \$1,000 by the Town for the Library's Capital Improvement Fund, but feels it is now time for the Library Trustees to specify the specific capital improvement projects toward which this money is being applied.

THE TOWN HALL AND HIGH SCHOOL BUILDING
Report by Dorothy G. Grim to the Long Range Planning Committee

Hancock Town Hall
Building Facilities

The Town Hall is a 188-year-old building whose outside maintenance is financially shared by the Church and the Town. At present, partial rewiring is being undertaken at a cost of under \$2,000. Additional necessary rewiring will be required in the near future. Redecorating is scheduled for 1978 with cost estimates undetermined at this time. Revenue sharing money is expected to finance these projects. The Hancock Guild had previously offered to defray the cost of the paint needed to redecorate the inside of the Town Hall, but no painter was able to undertake the job at the time, so no further steps were taken. It is possible that this offer could be renewed in the future.

In addition to the Town Hall room itself, a small room off of the lobby is being used for the storage of Town-owned sick room supplies and equipment. These articles have all been donated to the town for use by its residents. The work involved in dispensing and retrieving this equipment is on a voluntary basis. Perhaps a Town organization could undertake the project of redecorating and renovating this small room in order that things could be properly maintained and housed.

Present Use

The Town Hall is used on a yearly basis for the Town Meeting and for election purposes. It received additional use for large meetings and gatherings and is occasionally used for dances. Rent is collected for activities which are not related to Town affairs or activities. In addition, from September until June the Hall also houses the Pre-School which pays a monthly rental of \$25.00.

During these periods of use, the costs for electricity and heat are registered separately for church needs and for those of the Town Hall.

Future Consideration

In 1971 a study committee was appointed to determine feasible ways to gain more seating capacity in the existing building. Additional seating was needed then, and in the future.

The first phase of the recommendation was implemented in 1973. At this time the election part of the meeting was held on a Tuesday, and the business meeting was held the following Saturday. This change was estimated to give 30% more seating space for the meeting. Should there be additional space required at a later date, it was suggested that the stage and its side partitions could be removed. Purchase of a portable stage for use when needed was a possible idea. The cost of this renovation including the stage, was estimated to be \$7,500 in 1971.

Since the implementation of Phase 1 in 1973, no other steps have been taken. At present, public opinion does not seem to favor the removable stage to gain seating space.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

The Committee feels that a new Town Hall is not needed until some alternative means of securing more seating space is explored if only on a trial basis. The alternative recommendations are as follows:

- (1) The Church Council is receptive to using the Church sanctuary for the

business part of the Town Meeting. The stage area where the pulpit stands has microphone facilities, and would allow the selectmen to be seen and heard. The overall seating capacity would be more than adequate at the present time. With the new fire escape and two additional exits and stairways, fire safety regulations could be met. To accept the offer of the Church Council on a trial basis, when it has been determined that the space needs cannot be met in the Town Hall, would be the least expensive way of solving this problem. In addition, it would still allow the Town Hall Building to remain a vital and integral part of the village.

(2) Consideration should be given to the use of auditorium space at ConVal as another alternative to acquiring additional seating room at Town Meetings. This space would be available to us with the only expense being the cost of a custodian.

(3) Should additional space be needed for social functions too large for the Town Hall, it is suggested that the Depot Building and the surrounding area would be available for such activities when restoration is completed.

HIGH SCHOOL BUILDING — TOWN OFFICES

Building

The Town Offices are housed in this 60-year-old brick building. The outside of the building is in good repair with low maintenance a desirable feature. During the year 1977-78, top priority is being given to having the exterior brickwork pointed and water-proofed. The side entrances are now in the process of being repaired and restored. Future plans include repairing and upgrading the gym area. The building has been put to good use in its existing form. Office spaces have been allotted to: The selectmen, tax collector, town clerk, town treasurer, police officer, and to a history room where meetings are held and historical data is stored.

One small room and a larger one, both in need of upgrading, are rented to the Hancock Guild Thrift Shop, which pays \$200.00 for the season, from late May until late October. The Thrift Shop has made many contributions toward upgrading rooms throughout the building.

The gym is used by Town residents for basketball and badminton games during the winter, and by the elementary school for gym activities on a scheduled basis. Both bathrooms in this area have been renovated by the Guild, at no expense to the taxpayers.

The building receives almost constant use throughout the year, with the large majority of committee meetings being held there.

Equipment

The equipment in the building is essentially stenographic machines, such as typewriters and mimeograph machines; all of this equipment is Town-owned and in good condition, being 2-4 years old and needing no major expenditures other than the usual maintenance and repairs. The Xerox Machine is on loan to the Town and is maintained by the owner. The Xerox and mimeograph machines are used by many Town organizations which pay for their own paper.

Expenses

The custodian is paid a monthly wage of \$150.00 for cleaning and minor maintenance. For minor construction and upgrading work he received \$3.50 per hour.

There is no separate accounting for electricity and heat for this building and the Town Hall. The Town Office building has three-zone heating, and the Town Hall must have some heat during the winter, whether it is in use or not. The combined heating bills for these two Town-owned buildings for 1976-77 was \$2,606.75. The combined Public Service bill for the same period was \$713.93.

The following is a list of Town-owned buildings which require maintenance at Taxpayer's expense:

Town Hall (available for meetings)

Fire Station (available for meetings)

Horse Sheds

Band Stand

Highway Dept. Buildings

High School Building (available for meetings)

Other Public Buildings not maintained by taxation but used and supported by residents are:

Grange

Vestry

Historical Society Building

Hancock Library

Hancock Depot (upon completion in 1979)

With permission the above buildings could be used for meetings.

RECOMMENDATION OF THE LONG RANGE PLANNING COMMITTEE:

The Committee feels that no major expenses are apparent other than the usual maintenance expenses. It appears that the building can provide adequate office space for Town needs for a period of ten years or more.

PROJECTED CAPITAL EXPENDITURES
(Estimated cost figures based upon 1977 survey of Town Departments)

Year work should begin or item should be purchased

Town Department	Need	1978	'79	'80	'81	'82	'83	'84	'85	Cost	Method
