Selectmen's Report of 1989

To the citizens of Meredith:

We have found 1989 to be a very productive, but also trying year for the Town of Meredith.

We have tried to address all issues brought from the voices in the community, to the best of our ability.

We wish to thank our dedicated town employees and volunteer boards for doing an excellent job; it makes our involvement much more enjoyable.

Much time and effort were expended by volunteers of the Land Conservation Investment Program Committee for the purchase of development easements on the Bushnell and Moulton farms on Route 25. The acquisition should be accomplished prior to Town Meeting.

The road construction program voted at the 1989 Town Meeting is underway. Pinnacle Park and Spindle Point roads have been completed; St. James Street drainage, water and sewer lines, curbing and sidewalks have been completed with the final paving coat to be applied in 1990. The road base and drainage were rebuilt on Livingston and Upper New Hampton roads; final completion is planned for 1990.

New construction is planned in 1990-91 for Lake Street, various Main St. sidewalks, Clough Park and the Pleasant Street intersection.

The information Summer Town Meeting was moved to a weekend to allow for maximum seasonal resident participation.

We also wish to remind all citizens of the Town Meeting vote in 1989 limiting highway salt for protection of the environment. This recommended policy has been followed.

The update of the Master Plan was completed and approved by the Planning Board.

The sewer lines on Cotton Hill and Pollard Shores were put in operation in 1989 to allow greater protection of Lake Waukewan.

The old water treatment plant building has been demolished at Lake Waukewan. This site will be developed with a small boat launch and a picnic park with previously approved funding in the spring of 1990.

In March of 1989 we welcomed Peter Russell, our new Town Manager, to Meredith.

We again have proposed a conservative budget to coincide with our concerns in these economic times.

In closing, we wish to thank the citizens for your support and confidence.

Sincerely, James F. Hughes, Chairman David S. Sticht Robert P. Ambrose Meredith Board of Selectmen

View from Scenic Park

Town Manager's Report 1989

To the citizens of Meredith I wish to say thank you for a most enjoyable first year as your Town Manager.

A number of projects were undertaken and accomplished in 1989; many are completed and many others are ongoing. The Selectmen's report recaps many items, but others include:

Underground fuel tank replacement at Public Works; the Town of Meredith, under the direction of Barry Cotton, served as the general contractor and the replacement was completed 32% under budget.

A design-build approach was used for the Meredith Center Fire Station. The excellent construction was completed by Pelczar Brothers, low bidders, of Meredith, with the Fire Department occupying the station in November of 1989. Paving in 1990 will be completed within the original budget. Improvement in fire service, lower fire insurance rates and a handicapped accessible meeting and training area will all benefit residents of Meredith Center.

Park improvements were made at Childs and Prescott Parks; program completion is slated for 1990 under our new Director, Louise Morin. A petitioned warrant article for a concession stand at Prescott Park did not provide adequate funding for the bids received; supplemental funding in 1990 will allow construction.

Town docks and the boardwalk on Route 3 were redecked by our Building and Grounds Department, due to liability claims on the uneven surfaces.

We anticipate completion of the Centre Harbor sewer interceptor in 1990, which will provide further protection of Lake Winnipesaukee.

Re-evaluation of commercial properties, as directed by the Board of Selectmen, addressing inequities and an ordered reassessment of island properties by the N.H. Board of Land and Tax Appeals were completed in 1989; appeals for abatements are being processed.

Two large, most important issues, are still ongoing: Meredith Center water and landfill closure.

The State funded engineering for the municipal water extension to Meredith Center has been completed and the project is to be bid out in

February. Due to no settlement offer by Mobil Oil Company, the Attorney General's Office has filed suit on behalf of the Town of Meredith. The judge suggested, and the Attorney General's Office has recommended, that the Town Meeting not address this issue in March. A Special Town Meeting is planned for later in the year, once results of the court suit or settlement is known. We are hoping for a fall 1990 construction start on this important program.

Engineering studies continue for submission to and approval by the State of New Hampshire for the closure of our landfill. Once the plan is approved, funding and closure proceedings could begin.

Lake Waukewan Regulations were completed and submitted by Meredith, Centre Harbor and New Hampton to the State. Adoption should take place within the next few months.

My wife, Caroline, daughter, Kathryn, and I, enjoy being residents of Meredith.

I have met or talked with a number of citizens, but certainly not everyone. If there are questions or concerns we can assist you with please contact the Town Offices.

I wish to thank town employees and board volunteers for their hard work and dedication to the Town of Meredith.

Sincerely, Peter G. Russell Town Manager

Record of Annual Town Meeting

March 14, 1989

The annual Town Meeting was held at St. Charles Auditorium, Route 3, in said Town on March 14, 1989. The polls were opened at 9:00 AM by Moderator Joseph Parkman.

| Total listed on checklist | 3283 |

ZONING QUESTIONS

ARTICLE 3

Are you in favor of the adoption of Amendment #1 to the Town Zoning Ordinance as proposed by petition of the voters of the Town having to do with rezoning as discussed at a Public Hearing on January 10, 1989; the purpose of said amendment being to amend the boundaries of the Rural and Agricultural District along Route 104 to follow in a curved line 820 feet easterly along its entire length so as to treat all properties on the northeasterly side of Route 104 in a similar manner. An Alternative to which would be the rezoning of the singular piece of property as described? (Not recommended by the Planning Board.)

145 YES 363 NO

ARTICLE 4

Are you in favor of the adoption of Amendment #2 to the Town Zoning Ordinance as proposed by the Meredith Planning Board having to do with Special Exceptions for expansion of a non-conforming structure, as discussed at Public Hearing on January 10, 1989; the purpose of said amendment being to require a Special Exception for any expansion of a non-conforming use, including any enlargement of the non-conforming structure and/or installation of a foundation, slab, piling, etc. which support a non-conforming structure?

289 YES

211 NO

ARTICLE 5

Are you in favor of the adoption of Amendment #3 to the Town Zoning Ordinance as proposed by the Planning Board having to do with a Definition as discussed at Public Hearing on January 10, 1989; the purpose of said amendment being to define "non-conforming structure?"

357 YES

138 NO

ARTICLE 6

Are you in favor of the adoption of Amendment #4 to the Town Zoning Ordinance as proposed by the Planning Board having to do with amending a Definition as discussed at Public Hearing on January 10, 1989; the purpose of said amendment being to redefine "recreational vehicles-travel trailer?"

368 YES

134 NO

ARTICLE 7

Are you in favor of the adoption of Amendment #5 to the Town Zoning Ordinance as proposed by the Planning Board having to do with the Wetlands Conservation District boundaries by adding a new section c. "The Wetlands Protection District includes the Watershed Protection Area (Buffer Zone)" as discussed at Public Hearing on February 7, 1989; the purpose of said amendment being to clarify the intent of the existing ordinance.

383 YES

112 NO

DELIBERATIVE SESSION MARCH 15, 1989

The Deliberative session was called to order on March 15, 1989, at 7:00 PM by Moderator Joseph Parkman who then gave the invocation.

Mr. Parkman gave the instructions to the assembly; introduce yourself, speak into the mike and address all questions to the moderator. The bond

articles require a 2/3 vote and are by secret ballot with the polls remaining open for one hour.

Moderator also introduced our new Town Manager, Peter G. Russell.

ARTICLE 8

It was moved by Selectman Ambrose and seconded by Mr. Hughes to see if the Town will vote to raise and appropriate the sum of One Million Five Hundred Thousand Dollars (\$1,500,000,00) for construction and related costs of an eight-inch water line addition to the Meredith Water System to service the Meredith Center residents as specified by the State Water and Pollution Board. Said appropriations to be inclusive of State. Federal grants-in-aid: to authorize the issuance of serial bonds or notes in an amount not to exceed One Million, Five Hundred Thousand Dollars (\$1.500,000.00) in accordance with the provisions of the Municipal Finance Act, Chapt. 33 of the New Hampshire Revised Statutes Annotated, as amended to meet said appropriations: to authorize the Town Treasurer to make temporary borrowings, in accordance with provisions of said Chapter, in anticipation of receipt of the proceeds of said bonds or notes, and to authorize the Treasurer to determine the method and manner of sale of such bonds, notes and temporary borrowings. to determine the rate of interest thereon, approve the form and determine all other details and particulars thereof, and to take such other action as may be necessary to effect the issuance, sale and delivery of such bonds, notes and temporary borrowings as shall be in the best interests of the Town, including the authority to enter into a Tax Regulatory Agreement containing such representations and covenants as are necessary to maintain the tax exemption under Federal Income Tax Laws of interest on such bonds, notes, and temporary borrowings; to authorize the Selectmen to apply for and accept any and all State or Federal grants-in-aid of the project and to reduce the amount of monies to be raised by the issuance of serial bonds or notes by the amount of such grants-in-aid, and to expend the appropriation in accordance herewith. (Passage requires affirmative vote of two-thirds present and voting.) (Petitioned by 10 or more legal voters.)

Mr. Ambrose explained the position of the Board of Selectmen on the article. They would like to wait until engineering is completed and to see what funds would be available from State and Federal Agencies. A Special Town Meeting could be held when these facts are known.

After some discussion from the floor, motion to table the article was made by John Carson, seconded and passed in the affirmative by a unanimous voice vote.

ARTICLE 9

It was moved by Selectman Hughes and seconded by Selectman Sticht to see if the Town will vote to raise and appropriate the sum of Eight Hundred Fifty Thousand Dollars (\$850,000.00) for the purpose of Road and Park Capital Improvements: said appropriation to be inclusive of State and Federal grants-in-aid: to authorize the issuance of serial bonds or notes in an amount not to exceed Eight Hundred Fifty Thousand Dollars (\$850,000.00), in accordance with provisions of the Municipal Finance Act, Chapt. 33, of the N.H. Revised Statutes Annotated, as amended, to meet said appropriation; to authorize the Town Treasurer to make temporary borrowings, in accordance with the provisions of said Chapter, in anticipation of receipt of the proceeds of said bonds or notes, and authorize the Treasurer to determine the method and manner of sale of such bonds, notes, and temporary borrowings to determine all other details and particulars thereof, and to take such other action as may be necessary to effect the issurance, sale and delivery of such bonds. notes and temporary borrowings as shall be in the best interest of the Town, including the authority to enter into a Tax Regulatory Agreement containing such representations and covenants as are necessary to maintain the tax exemption under Federal Income tax laws of interest on such bonds, notes and temporary borrowings; to authorize the Selectmen to apply for and accept any and all State or Federal grants-in-aid of the project and to reduce the amount of monies to be raised by the issurance of serial bonds or notes by the amount of such grants-in-aid, and to expend the appropriation in accordance herewith.

Mr. Hughes gave a list of the areas and roads to be included in the improvements and stated that the operating budget would be reduced by \$150,000.00 that had been included in the possibility that this bond issue did not pass. He also explained that the article on Clough Park would not be necessary because it was also included in this bond article.

There was discussion from the floor regarding bonding versus paying with the current year tax rate.

Amendments were made to raise and appropriate \$850,000. for this year and also to amend to reduce the amount to \$400,000. Both amendments were defeated after considerable discussion.

Moderator called the question on the original motion at 7:48. The polls were open for one hour to accept ballots.

The original article was passed in the affirmative with the required 2/3 vote.

218 YES

57 NO

ARTICLE 10

It was moved by Selectman Sticht and seconded by Selectman Ambrose to see if the Town will vote to raise and appropriate the sum of Two Hundred Thousand Dollars (\$200,000.00), for the purpose of the construction and improvements of a Fire Substation on Town Property located in Meredith Center; said appropriation to be inclusive of State or Federal grants-in-aid; to authorize the issuance of serial bonds or notes in an amount not to exceed Two Hundred Thousand Dollars (\$200,000.) in accordance with the provisions of the Municipal Finance Act, Chapt. 33, of the N.H. Revised Statutes Annotated, as amended, to meet said appropriation; to authorize the Town Treasurer to make temporary borrowings, in accordance with the provisions of said Chapter, in anticipation of receipt of the proceeds of said bonds or notes, and to authorize the Treasurer to determine the method and manner of sale of such bonds, notes and temporary borrowings, to determine the rate of interest thereon, approve the form and determine all other details and particulars thereof, and to take such other action as may be necessary to effect the issurance, sale and delivery of such bonds, notes and temporary borrowings as shall be in the best interest of the Town, including the authority to enter into a Tax Regulatory Agreement containing such representations and covenants as are necessary to maintain the tax exemption under Federal income tax laws of interest on such bonds, notes, and temporary borrowings: to authorize the Selectmen to apply for and accept any and all State or Federal grants-in-aid of the project and reduce the amount of monies to be raised by the issurance of serial bonds or notes by the amount of such grants-in-aid, and to expend the appropriation in accordance herewith.

Selectman Sticht advised that the new building would house highway equipment as well as fire equipment to service the Meredith Center area. The building would be 2700 square feet, and also would have a meeting room.

Several persons spoke in favor of the new station. There were questions regarding the cost but most comments were in favor of the project.

The polls were open for one hour to accept ballots on Article 10.

The article passed in the affirmative by a ballot vote with a 2/3 majority. 251 YES 38 NO

ARTICLE 11

It was moved by Selectman Ambrose and seconded by Selectman Hughes to see if the Town will vote to authorize the Selectmen and the Town Manager to apply for, negotiate and do all other things necessary to obtain such State and Federal funds that may become available throughout the year and expend the same.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 12

It was moved by Selectman Hughes and seconded by Sticht to see if the Town will vote to authorize the Selectmen and Treasurer to borrow in anticipation of taxes, such sums as are necessary for the operation of the Town and to set the rates, effect the issuance of notes, and to otherwise negotiate for the sale of notes to be paid with the present fiscal year.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 13

It was moved by Selectman Ambrose and seconded by Selectman Hughes to see if the Town will vote to raise and appropriate the sum of \$4,928,466.00 for the necessary operational expenses of the Town for the ensuing year.

Mr. Ambrose explained that \$569,125.00 is Water and Sewer which will not impact the tax rate, as both are Public Enterprise Funds which are self-supporting. There were no questions on the operating budget.

Motion passed in the affirmative by a voice vote.

ARTICLE 14

It was moved by Selectman Ambrose and seconded by Mr. Hughes to see if the Town will vote to raise and appropriate the sum of Twenty Thousand Dollars (\$20,000.00) for improvements under the State Aid Reconstruction Program provided that the State of N.H. appropriates Forty Thousand Dollars (\$40,000.00).

It was explained that is a two (2) to one (1) match program with the State for roads.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 15

It was moved by Mr. Hughes and seconded by Mr. Sticht to see if the Town will vote to accept and adopt the new Municipal Code Book and to adopt or

reaffirm the by-laws and regulations contained therein pursuant to authority granted by N.H. RSA 31:39, and every other statutory authority, the book being available at the Town Clerk's office for public review.

Mr. Hughes explained this was a housekeeping article to cover any Statutory authority other than RSA 31:39.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 16

It was moved by Selectman Sticht and seconded by Mr. Ambrose to see if the Town will vote to authorize the Selectmen to expend such amounts from the Refuse Disposal Capital Reserve Fund as may be necessary for the reconstruction and/or capital expenditures as required.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 17

It was moved by Mr. Ambrose and seconded by Mr. Hughes to see if the Town will vote to authorize the Selectmen to sell and transfer title to all real estate taken by the Town in default of redemption or from any Tax Sale or Tax Lien upon such conditions as they shall see fit.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 18

It was moved by Selectman Hughes and seconded by Mr. Sticht to see if the Town will vote to postpone the implementation of the Street Numbering System and Road Inventory until such time as the finalization of preparatory work is accomplished and to see if the Town Meeting will authorize the Board of Selectmen, as its agent, to vote upon and implement the program, after a public hearing and upon finalization of the numbering and inventory process.

Mr. Hughes explained that the 1988 Town Meeting required this be returned to this 1989 meeting but as all the inventory systems had not been finalized, this would give the authority to implement the system. They did not want to have some of the problems that other towns had and felt this was the best way to handle the program.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 19

It was moved by Mr. Ambrose and seconded by Mr. Hughes to see if the Town will vote to raise and appropriate the sum of Three Hundred Eightyfive Thousand Dollars (\$385,000.00), to purchase the fee or lessor interest in a portion of Mr. Stuart Bushnell's property on the Whittier Highway, Meredith, N.H., Rt. 25, Tax Map Lot No. S-13-46, 19 acres more or less; and a portion of Mr. John Moulton's property on the Whittier Highway, Meredith, N.H., Rt. 25, Tax Map Lot No. S02-22 & S02-24 or a portion thereof, 83 acres more or less for the purpose of permanent conservation under the provisions of the N.H. Land Conservation Investment Program (LCIP), RSA 221-A; and to authorize the withdrawal of Twenty-nine Thousand, Nine Hundred Dollars (\$29,900.00) from the Town's Land Acquisition Capital Reserve Fund established by Article 42, 1988 Town Meeting, for the purpose of funding such acquisitions; and discontinue this Capital Reserve Fund thereafter; with the balance of the local match to be funded by the Conservation Commission Funds (RSA 36-A) in the amount of Twenty-one Thousand Dollars (\$21,000.00); and to authorize the Selectmen to accept private donations of land or easements or money for the purpose of contributing to the local matching portion required under RSA 221-A; and to allow the Selectmen to apply for and accept the State's matching funds under the NH Land Conservation Investment Program (LCIP) RSA 221-A for the purpose of acquisition of the fee or lessor interest in conservation land. This appropriation and expenditure is contingent upon receipt of a matching State grant from the NH Land Conservation Investment Program (LCIP) in an amount up to Two Hundred Fifty Thousand Dollars (\$250,000.00.).

Mr. Ambrose explained to the assembly that this article was, in his opinion, the most important business tonight. It would allow the Town to purchase the rights to two parcels of farmland that had been identified by the Task Force who had been working on this project all last year.

John Hodsdon explained that this only would be buying the conservation easement and not the purchase of the land. It would have to remain undeveloped. He was strongly in favor of this article.

Mr. James Marshall also spoke in favor of the article. He explained the funding of LCIP, and that about \$141,000.00 would have to be raised by taxes.

No further discussion. Article passed in the affirmative by a voice vote.

ARTICLE 20

It was moved by Mr. Hughes and seconded by Mr. Sticht to see if the Town will vote to adopt the provisions of RSA 79-A: 25 II to place the revenues of all

future payments collected from current use penalty taxes pursuant to this chapter in the Conservation Fund in accordance with RSA 36-A:5 III: with a minimum of Ten Thousand Dollars being retained for Conservation Commission use and all other current use penalty tax revenues to be used exclusively for the purpose of LCIP acquisition of land; said expenditure of this current use penalty tax revenue, subject to the exclusion of \$10,000., to be subject to the specific vote of the Town Meeting with respect to any single purchase, subject further to such administrative and statutory provisions as may be required by law. Mr. Hughes explained that this article would allow the Conservation Commission to retain \$10,000.00, to use \$10,000.00 for LCIP uses and use of other funds subject to Town Meeting.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 21

To see if the Town will vote to raise and appropriate the sum of Eighty Thousand Dollars (\$80,000.00) for Clough Park retaining wall replacement and landscaping capital improvements.

This article was tabled as it was included in Article 9, the CIP road and park article.

ARTICLE 22

It was moved and seconded to see if the Town will vote to raise and appropriate the sum of Sixty-five thousand dollars or less (\$65,000.00) for the purpose of paving the northerly portion of Needle Eye Road, from Route 3, to the cul-de-sac adjacent to the Guay property, and including the cul-de-sac adjacent to the Woodaman property. Said paving to be approximately four thousand four hundred linear feet (4,400) and done to present town road specifications; said improvements to prevent further deterioration of the road, add to the safety of those presently using it and reduce annual maintenance. The Town would pay for the initial ten percent (10%) with the balance being paid by the beneficiaries present or future, of the road improvements through a betterment assessment spread over twenty (20) years.

There were lengthy discussions on the article with several amendments being made relative to the distribution of the cost between town and residents. All amendments were defeated. A motion by Paige Kuether to table the article was seconded. Motion to table was passed in the affirmative by a voice vote.

ARTICLE 23

It was moved by Selectman Hughes and seconded by Selectman Sticht to see if the Town will vote to raise and appropriate the sum of Sixteen Thou-

sand, Five Hundred (\$16,500.00) for the construction of restroom, concession stand and scorer's booth to be centrally located in Prescott Park. This building will replace existing non-usable restroom facilities at Prescott Park.

No discussion. Passed in the affirmative by a voice vote.

ARTICLE 24

It was moved by Selectman Sticht and seconded by Mr. Ambrose to see if the Town will vote to raise and appropriate the sum of Nine Thousand Dollars (\$9,000.00) for further improvements to Childs Park. This was monies that were not spent in the 1988 appropriation and then transferred to the General Fund; said monies are to be transferred from the General Fund back to the Parks and Recreation Commission budget for use in Childs Park only; transfers of monies shall not increase the tax rate.

There was considerable discussion on why the funds were transferred to the General Fund and not spent as voted by Town Meeting. The public felt that monies voted should be spent for that purpose.

Mr. Hughes explained that they thought the project for improvements was finished and there was misunderstanding whether equipment would be considered improvements.

Mr. Blake spoke in favor of the article as did Mr. Welch.

No further discussion. Article passed in the affirmative by a voice vote.

ARTICLE 25

It was moved by Mr. Ambrose and seconded to see if the Town will vote to require that the ratio of de-icing salt to sand, as placed upon all roads under the jurisdiction of the Public Works Director/Road Agent, be as close to one-to-fifty as is possible, and that such salt be stored in such a manner as not to endanger any water supply. Nothing in this article shall be construed to prevent, in times of emergency or where an extreme public hazard exists, from using a higher percentage of salt.

There was discussion on the effect this would have on the safety of the roads. Several people spoke in favor of the low ratio and the preservation of the watershed and the drinking supply, Lake Waukewan, and recommended we use this ratio except in times of emergency.

Public Works Director, Barry Cotton, said he could work with ratio as long as he could use his discretion to increase the ratio if necessary.

Passed in the affirmative by a voice vote.

ARTICLE 26

It was moved by Lynn Montana and seconded by Eleanor Bigelow to see if the Town will vote to instruct the Town's representatives to the General Court to respond to our Solid Waste Crisis by taking all necessary measures to insure that N.H. adopt legislation that will permit consumers to return for refund of deposit within N.H. all soda, beer, wine cooler and liquor containers and that all unclaimed deposit monies shall be collected by the State and no less than 80% shall be returned annually to local municipalities for the sole purpose of implementing, expanding and reimbursing community recycling projects.

Several persons spoke in favor of the article. Some discussion followed.

Article passed in the affirmative by a voice vote.

ARTICLE 27

It was moved by Mr. Hughes and seconded by Mr. Sticht to see if the Town will vote to indemnify and save harmless for loss or damage occurring after said vote, any person employed by it and any member or officer of its governing board, administrative staff or agencies including but not limited to Selectmen, Town Managers, Personnel and other Town Boards from personal financial loss and expense including reasonable judgement by reason of negligence or other act resulting in accidental injury to a person or accidental damage to or destruction of property if the indemnified person at the time of the accident resulting in the injury, damage or destruction was acting in the scope of his employment or office. This indemnification shall remain a law of the Town until rescinded.

There was considerable discussion on the word "negligence". There was a motion made to drop "by reason of negligence". Amendment was withdrawn after discussion.

Chief John Curran spoke in favor of the article.

Mr. Hughes, in answer to a question from the floor, explained this was written by NH Municipal Assn. and reviewed by Town Counsel and was a housekeeping article to ensure it remained law until rescinded by Town Meeting vote.

No further discussion. Passed in the affirmative by a voice vote.

A warm welcome was given the new Town Manager, Peter G. Russell.

Motion was made and seconded to adjourn the meeting at 10:45 PM. Meeting voted adjourned.

Pauline L. Fournier Town Clerk Meredith, N.H. 03253

3/30/89 A true copy, attest:

Pauline L. Fournier Town Clerk

Reclamation of Livingston Road

Meredith Police Department Report to the Town 1989

Here I sit trying to reflect on the past year and the changes that came with it, but what I keep seeing is the next year and hope that this Department will once again establish itself as a department with a low turnover rate. It is not only costly in terms of training, but also in the area of general knowledge of the Town and its citizens. You cannot replace the years of experience that an officer gains while working for a department. For each new officer, it is something that he or she must learn.

It was a long year for most of us in the Department, due to the fact that it was hard to keep up with the workload. We seemed to always be in the process of training someone. It is very demoralizing when you attempt to keep up, and you just keep getting further and further behind as much valuable time is put into training others.

I sincerely feel that we were very fortunate that we were able to get through the year without any major lawsuits. Along with training new personnel, it is mandated that all personnel go through annual recertification in certain areas. Failure to do this retraining can result in an officer losing his certification as a law enforcement officer. All in all, I am very proud of the officers and their commitment to the Town and their profession. Everyone pitched in and helped us get through some bad times.

My thanks to all of the citizens of the community for their continued support of this Department. I particularly want to thank Chief Copp and the Fire Department personnel for their cooperation in all of our efforts to keep our streets safe.

Myself and all of the members of the Department look forward to 1990 being a very productive and safe year. We shall continue to give maximum service with a minimum expenditure of funds. It is our intention to maintain our status as an efficient and effective professional police agency serving the needs of this community.

John P. Curran Chief

Meredith Fire Department

ANNUAL REPORT

1989 has proven to be a very busy and interesting year for the members of the Meredith Fire Department.

Training has become a priority item with our department and we were pleased to see ten members graduate with Certified Firefighter Level 1 certification this year.

This department is blessed to have over twenty men that have become "Certified" in an attempt to meet the anticipated needs of our community. The completion of programs of this type will help guarantee a much higher standard of fire protection for the Town of Meredith.

This department was very pleased with the completion of the new Meredith Center Station. This building will bring much needed aid and assistance to a part of town that is seeing a rapid "growth spurt."

The members of the Meredith Fire Department wish to thank everyone for the support and considerations given to us over the past year. We stand dedicated to bringing the finest fire protection any community could ask for.

1989 saw many calls for service from our department that can best be broken down as follows:

| Mutual Aid-Cover Truck | 27 | Permit Fire Investigations | 1 |
|---------------------------------------|-----|-------------------------------|------|
| Dial Alarm Activations | 32 | Utility Pole Fires | 1 |
| Automobile Accidents | 12 | Calls for Medical Assistance | 2 |
| Snowmobile Accidents | 1 | Oil Burner Permits | 110 |
| Motorcycle Accidents | 1 | Day Care Inspections | 6 |
| Malicious False Alarms | 1 | Chimney Inspections | 75 |
| Smoke Investigations | 4 | Assembly Permit Inspections | 30 |
| Downed Power Lines | 6 | Hazardous Waste Site | |
| Electric Range Fires | 2 | Inspections | 6 |
| Defective Oil Burner Fires | 1 | Mutual Aid - To Scene | 20 |
| Woodstove Problems | 1 | Chimney Fires | 14 |
| Railroad Car Fires | 1 | Automobile Fires | 7 |
| Kitchen Fires | 1 | ATV Accidents | 1 |
| Building Material Debris Fires | 3 | Downed Aircraft Accidents | 1 |
| Structure Fires | 8 | Accidental False Alarms | 4 |
| Defective Smoke Alarm Calls | 2 | Commercial Burn Investigation | ns 1 |
| LP Gas Grill Fires | 1 | Electrical Problems | 2 |

| Microwave Oven Fires | 1 | Chair Fires | 1 |
|-----------------------------|---|-----------------------------|-----|
| Flooded Oil Burner Calls | 6 | Lightning Strikes | 1 |
| Electric Water Heater Fires | 1 | Forest and Brush Fires | 22 |
| Boat Fires | 2 | Local School Inspections | 8 |
| Burned Food on Stoves | 1 | Solid Fuel Inspections | 75 |
| Building Explosions | 1 | Building Permit Inspections | 75 |
| Gasoline Spills | 6 | SARA TITLE III Inspections | 40 |
| Ice Rescues | 1 | Miscellaneous Service Calls | 130 |
| LP Gas Leaks | 3 | TOTAL CALLS FOR SERVICE | 758 |

Respectfully submitted, Fred Copp, Chief Steven R. Bennett, Clerk Meredith Fire Department

Meredith Center Fire Station

Forest Fire Warden Report 1989

During 1989, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were fires kindled without written permission of a Forest Fire Warden, children, and debris burning fires that got out of control. All of these causes are preventable with your help.

By NH State law (RSA 224:27), no person, firm or corporation shall kindle or cause to be kindled any fire, except when the ground is covered by snow, without first obtaining a written permit from the Forest Fire Warden of the town where the burning is to be done. Violations of RSA 224:27 are a misdemeanor and you are liable for paying all fire suppression costs.

If you have any questions regarding NH forest fire laws, please feel free to contact me or the Division of Forests and Lands at 271-2217. I look forward to serving you in 1990.

Respectfully submitted, Roy F. Howe, Sr. Forest Fire Warden

Meredith Emergency Management 1989 Annual Report

1989 has been a year of education and research into problems that could affect this community in the future.

Chief Fred Copp and I have been involved in securing information that will be used to write Meredith's chapter of the S.A.R.A.-Title III Community-Right-To-Know Legislation. This Federal Directive requires all communities to locate and identify those facilities that store and use extremely hazardous substances within the community.

When this directive is met, I am required to publish and provide any and all information on this subject to the general public upon request. A well informed community will stand a better chance for survival in the event of a disaster than a community that is sheltered from the truth.

To date, I have had several meetings with representatives from the New Hampshire Emergency Management Agency in Concord, N.H. With their help and assistance, we will work to make Meredith one of the first communities to be in compliance with this new requirement.

In September of this year I completed another Federal Training Program entitled: EMERGENCY MANAGEMENT U.S.A. The program was sponsored by the Federal Emergency Management Agency (FEMA) which provides training and education in emergency management through a nationwide training system.

The objective of the Emergency Management Institute is to offer training and education that continuously improves emergency management practices in communities throughout the United States. These training activities are directed primarily to persons with local or State government responsibilities for emergency management.

This program involved training in four phases of Emergency Management that can best be described as follows:

- 1. PREPAREDNESS: Preparing for what to do in an emergency.
- 2. RESPONSE: Responding safely to an emergency.
- 3. RECOVERY: Recovering from an emergency.
- 4. MITIGATION: Preventing or minimizing the dangerous effects of emergencies.

With the information I have gained from this program, I will be better able to advise and guide this community should the need arise.

As Director, I personally want to thank Chief Fred Copp and Chief John Curran for their friendship, guidance and dedication to our community's needs.

Respectfully submitted, Steven R. Bennett, Director Meredith Emergency Management Agency

Headwall at Upper New Hampton Road

Department of Public Works 1989 Annual Town Report

The year 1989 was probably the busiest year in the history of the Meredith Public Works Department with our regular maintenance work and the road improvement construction bond.

During January, February and March of 1989 the Public Works Department dealt with ice build-up on our roads with frozen culverts due to the unusual "No Snow", "all rain/sleet" conditions of those winter months. In the spring some of these culverts had to be replaced.

Mud season found us working on the gravel roads, dealing with the usual muddy areas, using the york rake and adding additional gravel to reinforce the areas.

While this was going on, intense planning for our road construction and summer maintenance season was being done.

Our general summer maintenance consisted of street and sidewalk sweeping, roadside mowing, road grading and ditching, reconstruction of storm drainage systems, pot hole repairs, striping, repairing and replacing street signs.

In June, the underground storage tanks were replaced under the EPA guidelines for gasoline and diesel fuel. Technical assistance from the State of New Hampshire and an engineering firm were provided. The removal operations consisted of removing four underground storage tanks. Two new 8000 gallon underground storage tanks were centrally located on site; one tank is utilized for unleaded gasoline and the second for diesel fuel. In addition to the new tanks, a new concrete pump island was constructed with built-in protectors. The installation of a new inventory monitor and interstitial leak sensor will control the use of these tanks. A new Gasboy Fuel Management System was installed and will provide dependable, automated 24-hour controlled access to costly petroleum products, allowing only authorized employees to obtain fuels.

The road improvements construction bond was approved by the voters of our March 1989 Town Meeting.

The major road construction started was Livingstone Road, Upper New Hampton Road, Pinnacle Park Road, Spindle Point Road and St. James Street. The scope of work included:

- Tree and brush removal
- Ledge blasting and removal
- Drainage culvert replacement with new fieldstone headwalls
- Road base improvements
- Major ditching and slope improvements
- Telephone pole replacement and relocation
- Guardrail installation
- Cold mix paving with surface treatment.

Pinnacle Park, Spindle Point, Observatory, Oak Island and Sachem Cove Roads were completed in 1989. Upper New Hampton and Livingstone Roads were reconstructed to a gravel base and are scheduled to be completed during the early 1990 construction season. On St. James Street, all water and sewer lines and storm drains were replaced and an asphalt sidewalk with granite curbing was constructed. The roadway was paved with 2'' asphalt base course. A final 1'' wear course is scheduled to be completed in the spring of 1990.

In addition to the major road improvements construction bond, many other roads in Meredith were upgraded. Wagon Wheel Trail and Cummings Cove Road received improvements which included ledge blasting and removal, tree and stump removal, drainage culvert replacement, ditching and slope improvements and road base improvements. Black Brook Road, Pine Hill and Eaton Avenue were surface treated in the fall of 1989.

The scope of work on Patenaude Road included drainage culvert replacement, road base improvements, brush and tree removal, ditching and slope improvements and cold mix paving with surface treatment.

Several large ledge outcropings were blasted on New Road which dramatically increased sight distances and safety.

Under our 1989 appropriations, we cleared one acre of land to provide a graveled municipal parking lot at Y-Landing Marina property located off Powers Road. This municipal leased parking lot provided overflow parking and boat trailer parking from our municipal lot located off Love Joy Sands Road.

We have started to convert the area at the old water plant facility into a green space landscaped park with a launch. The old water plant building has been razed and additional work will continue.

The permitting application process for the Clough Park program has been submitted to the appropriate agencies and are waiting for approvals. A group of interested Meredith residents removed many of the historical stones,

placing them in storage until the construction is over. We wish to thank everyone participating in this project. Pending permit applications, construction for Clough Park is scheduled during the low water table period of 1990.

At Town Meeting 1989, residents voted to reduce the amount of de-icing salt used on public roadways to a 50:1 winter sand-salt ratio. We have tried to sustain this vote during 1989 and will continue this practice in the future.

Public Works employees and I would like to personally thank the residents and property owners of Meredith for their cooperation and understanding during the difficult and sometimes frustrating construction period.

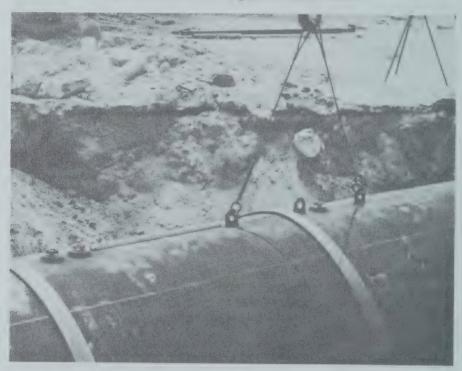

Respectfully submitted, Barry P. Cotton Public Works Director

Meredith Town Garage

Construction on new gasoline tank island

New tank placement

Solid Waste Facility Report 1989

In 1989, our major efforts at the Solid Waste Facility turned to recycling to make the facility more cost effective. As the community grows, so does our waste stream. The transportation and tipping fees increase. When we recycle aluminum cans, glass, cardboard, metals, tires, waste oil and plastics, our tonnage figures decrease with revenues offsetting appropriations.

We would like to thank the community at this time for their recycling efforts. This effort is very important to us and every aluminum can, every piece of metal and other recyclable materials helps us divert our waste stream costs.

We will be checking the household rubbish deposited at our facility and permits from time to time to ensure compliance with our recycling efforts and the use of the facility.

Facility permits were issued in June 1989, and may be used for two years. If anyone needs a permit, they may obtain one at the municipal office for \$10.00.

In 1989 we instituted demolition charges on all demolition material brought into our facility. All demolition waste will be weighed on our scales.

This year the Public Works and Solid Waste Employees completed the ongoing tire removal program at the old landfill. This project was initiated in 1987. The large unsightly scrap pile of tires presented fire risks, health hazards, breeding grounds for mosquitoes and other undesirable animals.

A total of 33,348 tires were loaded into forty foot box trailers and shipped to a licensed tire shredding facility in Connecticut.

To emphasize the importance of recycling as well as its economics the following summarizes the cost avoidance for disposal costs and transportation costs for the years 1987, 1988 and 1989.

Recovered materials "Recyclables" include cardboard, newsprint, aluminum cans, glass, metals and plastics.

1987 total amount of recovered materials (tons) \times tipping/disposal fee (per ton) = avoided disposal costs 455.5 ton \times 41.00/ton = \$18,675.50

1987 total amount of recovered materials (tons) \times waste transport fee (per ton) = avoided transport costs 455.5 tons \times 6.75 per ton = \$3,074.63

1987 total tipping & transport avoidance cost \$21,753.13

1988 total amount of recovered materials (tons) \times tipping/disposal fee (per ton) = avoided disposal costs 644.1 tons \times \$60.00 = \$38,646.00

1988 total amount of recovered materials (tons) \times waste transport fee (per ton) = avoided transport costs 644.1 tons \times 6.75/ton = \$4,347.68

1688 total tipping & transport avoidance cost \$42,993.68

1989 total amount of recovered materials (tons) \times tipping/disposal fee (per ton) = avoided disposal costs 805.2 tons \times 68.62/ton = \$55,252.82

1989 total amount of recovered materials (tons) \times waste transport fee (per ton) = avoided transport costs 805.2 tons \times 7.09/ton = \$5,708.87

1989 total tipping & transport avoidance cost \$60,961.69

- NOTE: 1) The above calculations reflect diversion of the waste generated at our facility.
 - 2) The above calculations do not reflect any revenues received from recyclables.

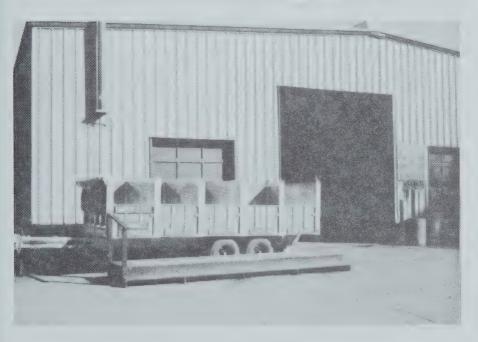

We must continue our efforts in recycling to help offset the continuing escalating tipping and transport fees at the waste-to-energy facility. Every ton of solid waste recycled is one less ton that must be burned in the waste to energy facility which translates into saved tax dollars.

In closing I want to personally thank the residents of Meredith on behalf of the Solid Waste Employees for their continued support and look forward to 1990.

Respectfully submitted, Barry P. Cotton Director of Public Works

Meredith Transfer Station and Recycling Facility

Water & Sewer Department 1989 Report

During the past year the water and sewer departments have maintained, inspected, repaired, replaced and serviced the water and sewer systems throughout the Town.

Lake Waukewan's water quality has been further protected by the sewer connections to the municipal sewer main on Pollard Shores, Cotton Hill, Fortier Road, and Carter Lane.

St. James Street was upgraded for water and sewer mains by replacing the four inch water main with an eight inch water line. The sewer main was also replaced along with new manholes.

Old hydrants were rebuilt and replaced with new tops with pumper nozzles for better fire fighting capabilities.

Unmetered services for water service were metered and old meters were tested and repaired or replaced. Meters were read every three months. Also, new water and sewer connections were made throughout the year.

Personnel also attended schools and seminars during the year.

Hydrants were flushed four times during the year to clean water mains. Water samples were taken every month as required by law and sent to the State laboratory. The State also took samples during the year.

Sewers were cleaned, inspected and repaired including manholes. We now have five sewer pumping stations and the new water plant and tower. These were all maintained with proper care.

The water and sewer personnel assisted other departments cleaning culverts and helping the buildings and grounds department.

Department personnel would like to take this opportunity to express their appreciation for being able to serve the Town residents during the year 1989 and look forward to continuing service to the citizens of Meredith. We invite the public to visit our plants at any time.

Respectfully submitted, Kenneth Hill, Superintendent

Water Treatment Plant

Water Storage Tank

Meredith Public Library Report 1989

The Meredith Public Library joyously remained open for the entire year of 1989, offering uninterrupted service for all! It was a very successful year with varied programs, increased membership and banner circulation statistics. New operational hours went into effect at the end of February resulting from a written survey conducted by the library administrator. The change brought about later evening and Saturday hours for the convenience of patrons.

The library was involved heavily with community outreach services to the schools, day care centers, Golden View Health Care Center, Sunny Knoll Retirement Home, Meredith clubs and organizations. The Meredith Rotary Function Room enabled us to provide a meeting/lecture space for over sixty groups. Inhouse story hours, teen events, craft projects, after-school activities and senior citizen lectures expanded accordingly. The enlarged facilities have enabled us to host as many as three programs at once in the building on numerous occasions.

The staff was involved with attending meetings, workshops and conferences held at the local, state and New England levels. Susan Brackett joined the staff in the Fall. A core of dedicated, enthusiastic volunteers were trained by librarian Lydia Torr, adding an invaluable service to the library. Heartfelt thank yous to Bruce Amen, Susan Brackett, Meg Goodheart, Beth Ingraham, June Noreen, Sally Vogler and Barbara Duffield for the many hours of service they contributed.

Mrs. Torr spoke to many service organizations, N.H.L.A., N.E.L.A. Associations and was co-chair of the year-long "100 Year Celebration of the New Hampshire Library Association" with Shirley Adamovich, Commissioner of Libraries Arts and Historical Resources. All staff are members of the N.H.L.A. as well as Judith Knowles and Barbara Sanderson, Children's Librarians section; Norma Gilmore, Reference Librarians' Sections; Nancy Sherman, Library Co-operative Delegate Section; and Lydia Torr, New England Association and American Library Association. Continuing education is an integral part of bringing quality service to our patrons.

Mrs. Torr and Maggy Simony, Literacy Committee Chair for the Altrusa Club of Meredith, began proceedings for a cooperative effort on a literacy project with the library. Funding for materials, programs and tutors is part of a five year plan including goals and objectives to be negotiated at a later date.

The Dedication celebration of the library was held on August 13, 1989. State and local dignitaries made it a memorable occasion for all with a ribbon cutting ceremony and speeches. A two day open house for the public was held on August 15 and 16. At the dedication, Rudy Van Veghten debuted his book "Filling The Void - History of the Meredith Public Library". We thank Rudy for his many hours of research in compiling this exceptional history and the Meredith News for its generosity in printing the book.

As I reflect on the last year, my greatest sense of pride is to boast of a dedicated, caring, sharing professional staff. Without the entire "team effort," we would not be able to offer such superior service to our community. To our many friends who continue to support us with their patronage and contributions and to the devoted Board of Trustees for countless hours of meetings showing truly concerned interest, thank you. In closing, we always remember, the friendship of those we serve is the foundation of our progress.

Respectfully submitted, Lydia M. Torr Library Director

Conservation Commission 1989 Annual Report

Regular monthly meetings were held the first Thursday of each month. Addional work sessions were held the third Thursday. Sixty-four dredge and fill applications were site inspected and processed.

The Critical Watershed Study was completed for Lake Waukewan. This led to additional site inspections with a hydrologist, with the Belknap County Conservation District, in order to protect brooks and wetlands in the commercial and industrial zone off Rt. 104. Many changes were made in site plans for Hemlock and Foundry Avenues in order to comply with recommendations of the District and our commission.

The Commission worked with owners and engineers on site plans for an R.V. park, a camping area, and two commercial developments in Meredith. We were able to protect wetland areas by the use of retention ponds, better forms of drainage and use of filter systems. We are pleased to find developers and individuals more conservation oriented this year.

A gift of a three-acre parcel for conservation was accepted with appreciation from Mrs. Jewell of Old Center Harbor Road.

The Water Quality Study for Lake Pemigewassett was done this summer in conjunction with the Town of New Hampton. Meredith shorefront owners contributed time, boat power, as well as \$80.00 in appreciation of this study.

The Historical Society helped us by naming four forestry parcels in the Meredith Center, Chemung area. Edgerly, Tucker, Dockham and Hermit.

This has been a busy active year for your commissioners and we wish to thank all who have helped us in preservation work in 1989.

Respectfully submitted,
Merritt Webb, Chairman
Louis Laverdure, Vice Chairman
Don Gilmore, L.C.I.P. Representative
Helen Bertholet, Secretary
Lynne Hart
Jim Ritchie
Herb Stahl
Sam Citron, Alternate

CONSERVATION COMMISSION'S LCIP REPORT

LCIP - The Meredith Task Force on Land Conservation, a sub-committee of the Conservation Commission, successfully concluded negotiations for conservation easements on portions of the Moulton and Bushnell farm properties bordering the eastern approach to town. Matching funds of \$186,000 from the State's Land Conservation Investment Program were scheduled for final review by Governor and Council in January.

Thus, the Town's expenditure of its share, the same \$186,000 plus survey and appraisal expenses, will purchase development rights to just over 110 acres of field and woodland. The result is permanent protection of farmland, scenic vistas and wildlife areas as part of the Town's effort to maintain its rural atmosphere.

The Task Force is actively exploring other possible land conservation projects with interested landowners.

View from Leavitt Park

Lakes Region Planning Commission1989

The Lakes Region Planning Commission continues to provide a range of technical services related to planning and development in this community and the region. The major cooperative project this year has been updating of the Meredith Master Plan of 1982. The town contracted with LRPC for this task which was conducted in collaboration with several citizen committees. The completed document is now available for examination in the town office and the library. The revised Master Plan will also include a Water Resources Management Plan, a new state requirement. That document has been drafted and reviewed by the town; it will be submitted early in 1990 for review by the Office of State Planning before additional hearings and adoption by the town Planning Board.

Meredith's planning office has consulted LRPC planners on such subjects as the development review process and revision of town ordinances for consistency and conformance with state statutes. Because of the heavy involvement in the Master Plan update, which took longer than anticipated, the town has postponed the contracted work by LRPC on a Capital Improvements Plan until 1990.

The town continued its participation in the Household Hazardous Waste program sponsored by LRPC and the NH Department of Environmental Services. Town officials and board members attended the annual series of Municipal Law Lectures, also sponsored in the region by LRPC. These sessions give legal perspectives on local planning, zoning and procedural issues encountered by officials and volunteer boards. The LRPC has also offered workshops on growth management strategies, planning board procedures, and environmental constraints in zoning. Supplementing these services, LRPC published *Development Review Procedures Manual: A Guide for Local Planning Boards*. Through regular commission meetings, the LRPC brought a variety of subjects to public attention, including archaeological resources in the region, planning for open space, and proposed legislation on impact fees and shoreland protection.

The Commission updated the Regional Land Use Plan, a 1978 document partially revised in 1987. This plan analyses existing conditions in the region and presents a tentative future land use map as a guide to land use decisions throughout the region. A "Regional Housing Needs" study was also completed, and LRPC published for reference and guidance a *Guide to National Register Historic Districts in the Lakes Region*.

The LRPC maintains a regional transportation planning program to assist member communities with local and regional road and traffic studies. During 1989 it also contracted to prepare Capital Improvement Plans for four communities and partial or full Master Plans for nine. And the Commission also prepared or reviewed a number of impact studies. The LRPC's quarterly newsletter was distributed widely to keep planners and volunteer board members abreast of planning issues relating to the Lakes Region.

In sum, the regional planning commission continues to serve a vital advisory, educational and coordinating function for its thirty-two member communities.

Meredith Commissioners Don Gilmore John Hodsdon

Planning and Zoning - 1989

The highlight in 1989 from a community planning perspective has to be the adoption of the 1989 Master Plan Update. Begun in July of 1988, this effort was driven by five committees with support from over fifty-five volunteer members and the Lakes Region Planning Commission. This was an extraordinary community planning effort. Many themes identified by citizen planners in years past have been re-emphasized and fine tuned. The document provides a sense of continuity while it establishes a framework within which we can continue to prosper economically, meet the needs of our citizenry and preserve and conserve our natural resources.

In October of 1989 the Lakes Region Planning Commission presented to the Planning Board a draft of the Water Resources Management Plan. The principle recommendations of the plan have been incorporated into the conservation section of the Master Plan Update. This document is currently under review by the Office of State Planning.

In August of 1989, North Country Resource, Conservation and Development Area, Inc., in cooperation with the Meredith Conservation Commission, presented to the Planning Board the Watershed Resources Management Project for the Lake Waukewan Watershed. This document will serve as a useful planning tool in protecting the drainage basin which encompasses our municipal water supply.

At the close of 1989, the Town received a preliminary print of a new Base Road Map of the community. When the bugs are ironed out, this map will serve as the basis for additional resource mapping (i.e. Land Use, Zoning, Wetlands, Topography, etc.) as well as the previously authorized street numbering concept.

Administratively, the Planning Board has achieved two primary objectives. The Board has improved its application review procedures towards consistency with State Statute, with an emphasis on efficiency and fairness. The Planning Board formally adopted a Technical Review Fee Regulation as part of its Subdivision and Site Plan Review Regulations. These regulations set forth a reasonable mechanism by which the Planning Board can pass thru to the applicant, the Board's actual cost to conduct necessary technical review of the technical components of an application. This process enables the Board to effectively evaluate the technical merits of a proposal while ensuring that the cost of the review is borne by the individual applicant creating the need for technical review.

In terms of the Planning Board's work load, 1989 proved to be a busy year despite the general economic slowdown. Nine applications were held over from 1988, eight of which were substantial residential or commercial projects. Fifty-four new applications were filed in 1989, characterized by smaller scale subdivision activity throughout the town and fairly intensive activity within the Business and Industry District.

Likewise, the Zoning Board of Adjustment has had a busy year in 1989. Forty-four applications for variances to the Zoning Ordinance were applied for, with eighteen being approved, twenty-eight being denied and one was withdrawn. Forty-eight applications for Special Exceptions were applied for, with forty-two being approved and six being denied. Two applications appealing administrative decisions of the Building Inspector were heard, both were denied.

The importance of our citizen/volunteer land use boards and public input at Public Hearings cannot be overemphasized. The opportunity exists to serve the community and directly participate in the decision making process. The Planning and Zoning Office staff and Land Use Board members look forward to the challenges of the immediate future and beyond. We as a community must take advantage of current economic trends to plan for and promote the type of reasonable growth which is consistent with Meredith's planning goals and objectives.

Respectfully submitted,
John C. Edgar, Town Planner
for
Meredith Planning Board
and
Meredith Zoning Board of Adjustment

Parks and Recreation 1989 Report

The Parks and Recreation Department has had a successful and productive year with additional programs being offered and park improvement projects. In June, as a newly hired Recreation Director, I took over the department and set out organizing the summer's playground and swim program activities. Over 150 youngsters registered for the playground program which included arts and crafts projects, special field trips, various playground games, and special events. The swim program registration consisted of approximately 100 children. There were 36 swimmers who participated in the Swim Team Program also. The Meredith Swim Team competed with various local swim teams and represented the Town of Meredith very well. Our playground staff, swim instructors and lifeguards put a great deal of time and effort in our programs making it a safe and successful season.

Improvement projects were done at Prescott Park and Childs Park playgrounds. A multi-purpose playground structure was installed at Prescott Park as well as fence work and landscaping done on the playground. Additional equipment has been purchased and will be installed in the spring. Childs Park also received new playground equipment and its installation will be completed in the spring.

A wide variety of programs is offered throughout the year. Additional fall and winter programs have been offered this year, such as a Senior Citizen Walk Program, a wreath decorating workshop, co-ed volleyball, after-school ski program, knitting and crocheting classes. The department will continue developing new programs for all age groups. In the year to come, the Recreation Department and Parks and Recreation Commission will work together in planning and developing new programs and look at developing future recreation facilities.

The Parks and Recreation Department works with numerous civic groups, organizations, schools and businesses throughout the year. I would like to extend my greatest appreciation for your support. I also would like to thank the other Town departments for assisting us when needed, the Parks Commission for their ongoing support and all staff members who have made this year a successful one.

Respectfully submitted, Louise A. Morin Recreation Director

Buildings & Grounds Annual Report

The Buildings and Grounds Department performed numerous routine and preventative maintenance projects for all departments within the Town of Meredith. This year considerable time was spent working in conjunction with the Public Works Department on various road projects. Work included brush cutting, traffic control and sidewalk sweeping as well as making new barricades, installation of fencing, snow plowing and snow removal.

Our crew also assisted the Recreation Department in maintaining the ballfields, parks, equipment, beaches and installation of new playground equipment and ice rink preparation.

We were also very busy this spring and summer with planting flowers, trash pick up, maintaining the Town dock areas, and building all new picnic tables for Town parks.

This fall we reconstructed the boardwalk at the Town Dock area on Rt. 3 and installed all new pressure treated lumber and landscaping timbers. Renovations to the Municipal Office basement area have also begun and will be completed during the coming months. Christmas wreaths and lighting were placed throughout the Town during the holiday season.

We look forward to a busy new year and working with all departments to maintain and upgrade facilities for the Town of Meredith.

Respectfully submitted, Joseph L. LaFrance Buildings & Grounds Supervisor

Meredith Chamber of Commerce Annual Report

The Meredith Chamber of Commerce consists of over one hundred fifty members who are organized to promote and represent the business interests of the community. While the most noticeable activities of the Chamber are tourist related, all segments of the business community make up the membership.

The major promotional activity of the Chamber in 1989 was the publication and distribution of a four color, high quality brochure designed to attract visitors to Meredith not only during the summer but the off season as well. Funding for the brochure comes from the listing fees paid by members and a matching grant from the State of N.H. The brochures are distributed to out of state locations through the Lakes Region Association, American Brochure Co., and Keepsake Quilting. In state distribution is through the state rest areas. In promoting tourism, the Meredith Chamber works closely with the Lakes Region Association, the N.H. Office of Vacation Travel, and other Chambers around the lake. In addition, the Chamber is a member of the N.H. Travel Council and the Business and Industry Association of N.H.

The Information Center is open weekends in the spring and fall and daily during the summer season. Visitors to the Center find a wide array of promotional literature and our staff provides excellent service to those who visit the center. In 1989, the Chamber was fortunate to have the services of Doris Stone, Hobie Stark, Diane Ruel, Carol Lamper, and Alex Levy at the Information Center.

The Chamber arranged for the Fourth of July Fireworks, the Christmas Decorating Contest, and provided funds for the live wreaths which decorated the downtown during the Christmas season. Social events sponsored by the Chamber were the 1st Annual Monte Carlo Night held on board the Mt. Washington in May and the Fall Fling held at Waukewan Golf Club in October. The Chamber assisted the Rotary Club with the Fishing Derby and helped promote other events sponsored by local service clubs. The Lakes Region Fine Arts and Crafts Festival held the weekend before Labor Day has come to be a major event for the area and has gained a reputation in the craft world as a high quality show.

The Chamber is appreciative of the support given to its activities by the community and of the cooperation it receives from the various departments of the town in carrying out its many projects.

Susan Cerutti, Executive Secretary

The Lakes Region Association 1989

Economic development is the mission of the Lakes Region Association. Our efforts are largely directed toward the promotion of tourism. These are accomplished through a partnership of municipal, state, and local business support. The town participation is a very important and very much appreciated element of the non-profit Lakes Region Association.

The *Where To Guide* is a one hundred page publication produced by the Lakes Region Association. Each of the towns is represented in this guide with informational copy. 62,000 copies were published in 1989 and distributed to the travel trade and qualified consumers.

The cooperative advertising program generated more than 40,000 requests for vacation information in 1989. 45% of these inquiries originated from the New York-New Jersey-Pennsylvania area. This group represents new consumers for the Lakes Region. Research found that 34.2% actually travelled here on vacation. The economic impact of this program alone is significant.

Tourism is a vital component of the Lakes Region economy. The quality of life which we enjoy as residents is reflected in many of the services and facilities which have grown from meeting the visitors' needs. Maintaining and enhancing this environment will become increasingly important as we move into the 1990's.

Respectfully submitted, David R. Lee Executive Director

Lakes Region General Hospital 1989 Report

To All Meredith Residents:

On behalf of the Board of Trustees, Physicians, and Staff of Lakes Region General Hospital I would like to express appreciation to the Town of Meredith for the vital support that is given each year.

A community hospital such as ours depends on the support of the people we serve. The financial support given to LRGH enables us to purchase up-to-date medical equipment so that we can meet the needs of the people in our communities.

During fiscal year 1989 there were over 679 Meredith residents admitted to LRGH and of the 746 births recorded 67 were from Meredith. Another 6689 Meredith people utilized the Out-Patient services of Medical Imaging, Lab and Emergency Room. Meredith continues to be a very important part of our service area.

We thank you for your continued interest and support.

Sincerely, Thomas A. Clairmont President

Meredith Public Health Nursing Association Report

Meredith Public Health Nursing Association is a Medicare Approved and State Licensed Agency that provides Skilled Nursing, Physical Therapy, Speech Therapy, and Home Health Services to the residents of Meredith and Centre Harbor.

Staff: June A. Plummer, R.N. Director; Jane H. Kiah, R.N.; Craig S. Walton, R.P.T.; Judy Stoecklin, CCC-SLP; Marylin L. Varney, A/HH; and Lorraine D. Smith, Sec./Bkpr.

Board of Directors: Raymond Hutchins, Pres.; Rev. Glenn Rice, Vice-Pres.; Normand Valliere, Treas.; Ellen Burns, Sec.; Beverly Bacon, William Parsons, Preston Eames, Virginia Hatch, Charles Rouvalis, and Yvonne Hale. Honorary Board Member - Ruth Larsen.

Services in Meredith during 1989:

2001 R.N. Home Visits

550 Office Visits

113 Weekend Visits

207 Physical Therapy

10 Speech Therapy

770 Home Health Aide Visits

135 B.P. readings at monthly clinics

146 B.P. readings at CAP

During the past year, memorial gifts were received in memory of Anna Mae Weeks, John W. Dever Sr., Willard Grad, Ethel Slater, Sadie Kimball, Maria Burke, Irvin Rollins, Mary Hoffmeier, Margaret Gulbransen, Lauchie McInnis, Marguerite McInnis, Martha Fletcher, Foster Whitworth, Jennie Pelczar, Cleve Prescott, Anna R. Odey, Ralph Lewis, David Ambrose, Harold Sanderson, Leonard Weston, Edith Weare, Gloria Amsden, Ada Rolph, Ruth Thorne, Mary Donovan and Eva Mooney.

I would like to extend a ''Thank You'' to everyone who has supported us with their donations, memorial gifts, and also those who responded to our Annual Fund Drive. Your thoughtfulness is sincerely appreciated. Our ''Loan Closet'' was very busy again, throughout the year.

Uncollectible accounts for 1989 - \$33,114.25.

We are planning a Health Fair during the fall of 1990, in conjunction with the Lions Club.

Our free Blood Pressure Clinics are held at the office on the 3rd Wednesday of each month, and all are invited from 12 noon to 3:00 P.M.

Once again I would like to take this opportunity to express my sincere thanks to the town of Meredith for their continued strong financial support to our agency. Without your generosity, the operations of this organization would be severely curtailed.

June A. Plummer, R.N. Exec. Dir./Supr.

Inter-Lakes Day Care Center and Nursery School Report to the Towns

During 1989 our After-School Program expanded to include use of the Lang St. School multi-purpose room for our school age children, thus allowing more space in the Bixby House for preschool and kindergarten age children in need of child care when parents are working.

In 1989 the Center, with its various programs for children ages two years six months to twelve years, served 141 children from 111 families. The Inter-Lakes Day Care Center, Inc. is a private, non-profit, fully licensed, tax-exempt child care program incorporated in October 1971, and governed by a volunteer Board of Directors comprised of community citizens and parents. Our school is open on a year-round basis from 6:30 am to 5:30 pm making it possible for parents to maintain employment. As a participant in the New Hampshire Child Care Food Program sponsored by USDA, hot breakfasts, lunches, and snacks are served daily.

Our goals and primary responsibilities to working families are to provide a stimulating atmosphere with a program of social, emotional, physical, and cognitive development for all ages. The children receive creative and educational experiences, field trips, weekly movies, and many other enrichment activities. In addition we provide a full range of services of health care, nutrition, dental care and screening, vision and hearing screening, child behavior and development with parenting education and resource availability for the entire family.

Programs offered include full and part time child care, a Nursery School Program open to children of non-working parents, a Seven-Upper Program for school children before and after school and during vacation, individualized special needs for handicapped children or those in protection from abuse and neglect. For the sixth year we are sponsoring a network of licensed Family Day Care Homes receiving federal reimbursement from USDA by serving nutritious meals and snacks while providing care for children of working parents in their homes. Currently we have 30 homes under this program.

The Day Care Center Board and Staff are appreciative of the support and donations received from the community. Area residents are cordially welcome to visit the Inter-Lakes Day Care Center and Nursery School at 11 Lang Street in Meredith.

Connie Pelletier Executive Director

New Hampshire Humane Society 1989 Report

The 1989 totals of the number of animals brought to the N.H. Humane Society shelter from your town are as follows:

By your Animal Control Officer:

Dogs & Puppies 71 Cats & Kittens 5 TOTAL 76

From local Residents:

Dogs & Puppies 41 Cats & Kittens 122 TOTAL 163

Non-Domestic Animals: 10

Total number of All animals received:

239

We are sending you a copy of the report on all towns that used the shelter facilities and services in 1989. Your Society's shelter has been inspected and licensed by the State and fulfills your licensed dog pound requirements. It also complies with RSA 442-A, the Rabies Control Act for holding stray dogs.

Every town has stray animal problems. We encourage your town and especially your Animal Control Officer to use our services more in 1990.

Sincerely, Fritz T. Sabbow Executive Director

Lakes Region Family Service

PROGRAMS AND SERVICES

- 1. Family Counseling Program: Individual, couples, child/adolescents, Family counseling groups and workshops, Psychiatric consultation; sliding scale fees. Office in Meredith in the Meredith Congregational Church one day per week. Children of Divorce Groups; Adult Children of Alcoholics Groups.
- 2. Domestic Violence/Sexual Assault Program: The agency sponsors the Lakes Region Task Force Against Domestic Violence and Sexual Assault. Services: 24 hour crisis line, support groups, shelter, court and social service advocacy. Community outreach and education.
- 3. Information and Referral Program: Human service information and referral to approximately two hundred (200) callers per month. Walk-ins welcome. Volunteer rides to medical appointments by arrangement. Coordinator of community aide Parenting Program in 1990.

Meredith Historical Society 1989

1990 will mark the 40th year that the Meredith Historical Society has existed, as it was incorporated in July 1950. It was organized for the purpose of collecting, preserving, writing and publishing anything of value to the history of the Town of Meredith, N.H.

The Museum, formerly the Oak Hill Freewill Baptist Church on Winona Road has been owned by the Society since the early 1950's. Built around 1802, it is listed in the National Registry of Historic Places. In this building there is a large display of artifacts of all kinds, donated by many interested people. The meetings are held in this place unless otherwise specified, April through December.

The organization and its Museum is supported by dues, sales of Historic Publications and an Annual Indoor Yard and Food Sale. The Museum is open every Saturday 1 pm to 4 pm in July and August and other times by appointment. Members serve as volunteer hosts at these times. The Society is always glad to cooperate with the schools in furnishing any historical information on the Town. Some genealogy questions are also answered when possible.

During this past year, the organization has had a great deal of work done on the inside of the Museum. The walls and ceiling which were in a rather dangerous state have been repaired. The inside has been painted, including the floor. This has been a tremendous expense to the Society, but helped with some donations and much actual work done by the members.

There has been some rearrangement to better display the interesting articles stored there. Because of the large expenses of the past year and more improvement plans, including a handicap access, the Society is asking for a donation from the Town in the Warrant. This Museum should be a matter of pride to every resident of the Town for them to visit and inspect the varied displays concerning the history of this Town.

In August, a special Sunday afternoon was given to an "Open House" to have people visit and see the improvements that had been made. Numerous persons took advantage of this occasion.

The programs of the year were varied and interesting. At the request of the staff of the Golden View Health Care Center, the May meeting was held there. Old items were displayed to the residents with questions, answers and general interesting discussion.

In June a Council of Humanities program presented Allen Koop with "Stark Decency" with slides on the Prisoner of War Camp in Stark, N.H. during World War II. In July Robert Woodward gave another of his interesting lectures, this time on "Perambulating the Bounds."

In August, the Society met at the Meredith Center Church for a program on another part of Town, "Chemung and the West End of the Town of Meredith, N.H." With considerable research, the schools, churches, homes and people of this section of Town were described. It has been suggested that a booklet be printed from this research as it covered so much material.

Other programs included showing of the video of the movie "The First 200 Years" made in 1968, and "A Day in the Life of New Hampshire" with slides shown by George Hawkins. Both of these meetings were held in the "Function Room" in the Library. The Historical Society, like other organizations, using this place is deeply grateful for having this fine room for meetings.

Some items were again loaned from the Museum for a float for the Bicentennial Commission, that was in a parade in Bristol, N.H. on the 4th of July. This float received one of the awards.

The present officers of the Meredith Historical Society are: President, William Pond; Vice President, Robert Mears; Treasurer, John Carson; and Secretaries, Louise Mears and Ann Jollimore.

Esther C. Wyatt Meredith Historical Society Box 920, Meredith, N.H. 03253

DOG LICENSES - STATE AND LOCAL LAWS

| RSA 466:4 | Dogs three | months of | age after | May 1 | must be licensed. |
|-----------|------------|-----------|-----------|-------|-------------------|
|-----------|------------|-----------|-----------|-------|-------------------|

RSA 466:7 Penalty of \$1.00 per month on June 1.

RSA 466:13 Fine of \$15.00 in addition if dogs not licensed by above date.

RSA 466:30A Dog Control Law adopted in Meredith in 1979. It shall be unlawful for any dog to run at large except when accompanied by the owner or custodian. In this section "at large" means off the premises of the owner or keeper and not under the control of any person by means of personal presence and attention. An owner who allows their pet to run loose is subject to a fine.

Marriage License Fees increased to \$40.00. The increase goes to support abused women. This is a state mandated fee.

State auto registration increase July 1.

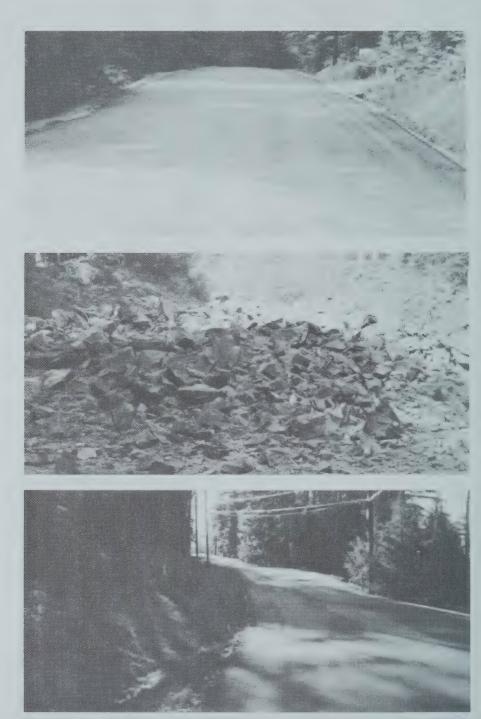

This office is most happy to serve the townspeople with their auto registrations, vital statistics and any other query in which we might be of assistance.

Meredith Assessing Department

The Town of Meredith has a total valuation of \$602,509,280 for 1989. While 5,147 bills were sent out, Meredith shows 5,308 recorded parcels. This figure includes all nontaxable and divided interest parcels.

There are several types of exemptions available to the residents of the town. If you feel you are eligible for any of these exemptions you must file an application with the Assessing Office by April fifteenth. If you would like more information on the exemptions listed below, I urge you to give this office a call.

ELDERLY VETERAN
BLIND SOLAR
CURRENT USE

The Town of Meredith has gone through two revaluations in the past year. Island properties revaluation was ordered by the State Board of Land and Tax Appeals; the other revaluation was on commercial properties as inequities were found by the Selectmen in the original 1987 revaluation. These revaluations were done by the same company, M.M.C. Inc.

I would like to take this time to explain how the abatement process works. The first step, and probably the most important, is to make sure you have filed an inventory form. The Assessing Office will personally review your assessment card with you. At which time, if you so choose to continue the process you will receive an abatement application. This must be filled out and returned to this office. There is a time limit for filing; 4 months with the town and 6 months with the Board of Land & Tax Appeals. After consideration, a recommendation will be made to the Selectmen; at which time your application will either be approved or denied. You will be notified in writing of the decision and have the right, if not satisfied with the decision, to appeal to the Board of Land and Tax Appeals. Instructions are on the back of your notification.

The Assessing Office is looking at 1990 with great anticipation. I look forward to working with all the taxpayers in Meredith. Please do not hesitate to call my office, make an appointment or stop by when in the area, Monday through Friday, between the hours of 10:00 AM and 12:00 noon.

Tim Warren Assessing Coordinator

Meredith Police Station

Financial Reports

Independent Auditor's Report

To the Members of the Board of Selectmen Town of Meredith Meredith, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Meredith and the combining and individual fund financial statements of the Town of Meredith as of and for the year ended December 31, 1988, as listed in the table of contents. These financial statements are the responsibility of the Town of Meredith's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1C, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Meredith at December 31, 1988, and the results of its operations and the changes in financial position of its nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town of Meredith at December 31, 1988, and the results of operations of such funds and the changes in financial position of the nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining and individual fund financial statements. The accompanying financial information listed as a schedule in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Town of Meredith. Such information has been subjected to the auditing procedures applied in the audit of the general purpose, combining and individual fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective individual funds and account groups, taken as a whole.

1990 Meredith Warrant

Meredith Town Warrant

State of New Hampshire

TO THE INHABITANTS OF MEREDITH QUALIFIED TO VOTE IN TOWN AFFAIRS:

You are hereby notified to meet at St. Charles Church Auditorium, Route 3, in said Town on the second Tuesday of March next, March 13, 1990 from 9:00 A.M. until 7:00 P.M. for the casting of ballots; and at 7:00 P.M., Wednesday, March 14, 1990 at the Robert Pottle Memorial Auditorium in the Inter-Lakes High School in said Town to act on the following articles:

BALLOT ARTICLES TO BE ACTED UPON

ARTICLE 1

To bring your ballots for:

One Selectmen for three years
One Town Clerk for three years
One Town Treasurer for three years
One Moderator for two years
One Trustee of Trust Funds for three years
One Supervisor of the Checklist for six years
Two Library Trustees for three years
One Library Trustee for two years

ARTICLE 2

To choose other necessary Town Officers.

ARTICLE 3

Shall we adopt the provisions of RSA 72:28, V and VI for an optional veterans' exemption and an expanded qualifying war service for veterans seeking the exemption? The optional veterans' exemption is \$100., rather than \$50. (Petitioned by 10 or more legal voters.)

| YesNo | 0 |
|-------|---|
|-------|---|

ARTICLE 4

Shall we adopt the provisions of RSA 72:35, IV for an optional property tax exemption on residential property for a service-connected total disability? The optional disability exemption is \$1,400. rather than \$700. (Petitioned by 10 or more legal voters)

| Yes | No |
|-----|----|
| Yes | No |

Are you in favor of the adoption of Amendment No. 1 as proposed by petition for the Town Zoning Ordinance as follows: Having to do with Building Permits for building "maintenance" as discussed at Public Hearings on January 9, 1990 and January 30, 1990; the purpose being to define building "maintenance" and to exempt building "maintenance" from the building permit requirement? (BY PETITION.) The Planning Board recommends disapproval of the proposed petitioned amendment.

Yes____ No____

ARTICLE 6

Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with Building Permits and certain types of ordinary repairs as discussed at Public Hearing on January 30, 1990; the purpose being to exempt certain types of ordinary repairs from the building permit requirement?

Yes_____ No____

ARTICLE 7

Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with non-conforming structures as discussed at Public Hearing on January 9, 1990; the purpose being to re-define when a Special Exception is required in order to expand a non-conforming structure?

Yes_____ No____

ARTICLE 8

Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with temporary, unapproved use or activity as discussed at Public Hearing on January 9, 1990; the purpose of said amendment to require a permit from the Board of Selectmen for temporary, unapproved uses occurring on property that is subject to Site Plan Review?

Yes_____ No____

ARTICLE 9

Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with the definition and regulation of temporary signs as discussed at Public Hearing on January 9, 1990; the purpose of said amendment being to allow temporary signs in all districts, with conditions and limitations, pursuant to a required permit from the Board of Selectmen?

Yes_____ No____

Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board to the Town Zoning Ordinance as follows: Having to do with soils and slopes requirements as discussed at Public Hearing on January 30, 1990; the purpose being to delete the "Minimum Lot Sizes Based Upon Soils and Slopes" table from the Zoning Ordinance upon adoption by the Planning Board of soils and slopes requirements as amendments to the Meredith Subdivision Regulations?

Yes_____ No____

ARTICLE 11

Are you in favor of the adoption of Amendment No. 7 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with defining "Minimum Lot Size" as discussed at Public Hearing on January 9, 1990; the purpose being to clarify existing terminology and concepts? No density changes are proposed.

Yes_____ No____

ARTICLE 12

Are you in favor of the adoption of Amendment No. 8 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with defining "Net Contiguous Functional Area" as discussed at Public Hearing on January 9, 1990; the purpose being to clarify existing terminology and concepts regarding soils and slopes requirements?

Yes____ No____

ARTICLE 13

Are you in favor of the adoption of Amendment No. 9 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with wetlands as a portion of minimum lot size requirements as discussed at Public Hearing on January 30, 1990; the purpose being to establish that wetlands may not be considered as part of that portion of a lot which is subject to soils and slopes requirements?

Yes_____ No____

ARTICLE 14

Are you in favor of the adoption of Amendment No. 10 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with Class I utilities as discussed at Public Hearing on January 9, 1990; the purpose being to define "Community Wastewater System" and "Community Water Supply" and to re-define Class I utilities status to include same?

Yes_____No___

Are you in favor of the adoption of Amendment No. 11 as proposed by the Planning Roard for the Town Zoning Ordinance as follows: Having to do

| | 1101 1111 00 00 |
|--|-------------------|
| with the definition of "Hotel" and the definition of "Dwelling | Unit" as discuss- |
| ed at Public Hearing on January 9, 1990; the purpose being | to define "Resort |
| Hotel" and to exclude "Hotels, Resort Hotels and Motels" | from the defini- |
| tion of "Dwelling Unit," thereby being exempt from area | per dwelling unit |
| density requirements. | |
| | |

Yes No

ARTICLE 16

Are you in favor of the adoption of Amendment No. 12 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with "Hotels, Resort Hotels and Motels" as discussed at Public Hearing on January 9, 1990; the purpose being to allow "Hotels, Resort Hotels and Motels" as permitted uses in the Central Business District and Commercial/Route 3 South District by Special Exception only?

Yes No

ARTICLE 17

Are you in favor of the adoption of Amendment No. 13 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with maximum lot coverage limitations as discussed at Public Hearing on January 9, 1990; the purpose being to replace existing "building coverage" limitations with "total impervious coverage" limitations on a district basis?

Ves No

ARTICLE 18

Are you in favor of the adoption of Amendment No. 14 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with the definition of "Setback" as discussed at Public Hearing on January 9, 1990; the purpose being to allow off-street parking within designated setbacks by Special Exception only?

> Yes No

ARTICLE 19

Are you in favor of the adoption of Amendment No. 15 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with "Private Ambulance Service" as discussed at Public Hearing on January 9, 1990; the purpose being to allow "Private Ambulance Service" as a permitted use by Special Exception in all zoning districts?

No Yes

Are you in favor of the adoption of Amendment No. 16 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with criteria for the granting of a variance as discussed at Public Hearing on January 9, 1990; the purpose of said amendment being to bring the ordinance into conformity with N.H. Supreme Court decisions?

Yes_____ No____

ARTICLE 21

Are you in favor of the adoption of Amendment No. 17 as proposed by the Planning Board for the Town Zoning Ordinance as follows: Having to do with administrative re-organization of the Zoning Ordinance as discussed at Public Hearing on January 9, 1990; the purpose being to consolidate provision of the existing ordinance; make terminology consistent, re-numbering as necessary and deletion of duplications; inconsistencies, etc. within the ordinance?

Yes_____ No____

DELIBERATIVE SESSION

ARTICLE 22

To see if the Town will vote to authorize the Selectmen and the Town Manager to apply for, negotiate and do all other things necessary to obtain such State and Federal funds that may become available throughout the year and expend the same.

ARTICLE 23

To see if the Town will vote to authorize the Selectmen and Treasurer to borrow in anticipation of taxes, such sums as are necessary for the operation of the Town and to set the rates, effect the issuance of notes, and to otherwise negotiate for the sale of notes to be paid within the present fiscal year.

ARTICLE 24

To see what sum the Town will vote to raise and appropriate for the necessary operational expenses of the Town for the ensuing year.

ARTICLE 25

To see if the Town will vote to raise and appropriate the sum of Twenty Thousand Dollars (\$20,000.) for improvements under the State Aid Reconstruction Program provided that the State of New Hampshire appropriate Forty Thousand Dollars (\$40,000.).

ARTICLE 26

To see if the Town will vote to authorize the Selectmen to expend such amounts from the Refuse Disposal Capital Reserve Fund as may be necessary for the reconstruction and/or capital expenditures as required.

To see if the Town will vote to authorize the Selectmen to sell and transfer title to all real estate taken by the Town in default of redemption or from any Tax Sale or Tax Lien upon such conditions as they shall see fit.

ARTICLE 28

To see if the Town will vote to adopt the provisions of RSA 41:9-a authorizing the Board of Selectmen to establish or amend fees for the Town of Meredith.

ARTICLE 29

To see if the Town will vote to raise and appropriate the sum of Four Thousand Dollars (\$4,000.00) to fund a feasibility study for sewer extensions and improvements for Patrician Shores/Sands of Brookhurst area.

ARTICLE 30

To see if the Town will vote to approve a mooring field with up to 32 boats in Meredith Bay for residents or taxpayers of Meredith; and further, to raise and appropriate a sum not to exceed Twelve Thousand Eight Hundred Dollars (\$12,800.00) for said field construction. The Twelve Thousand Eight Hundred Dollars (\$12,800.00) will be reimbursed to the Town within 12-18 months of operation.

ARTICLE 31

To see if the Town Meeting will vote to discontinue a portion of an old Class VI highway from Route 3, westerly onto the Zela Bucklin property, 2,000 feet, plus or minus, as shown on Tax Map S19 between Lots 56A, 57A and 59, subject to a layout and acceptance of an alternate Class VI layout through property owned by Independence Square and J.R. Partnership to the abovementioned Bucklin property, a distance of 1,300 feet, plus or minus. (Petitioned by 10 or more legal voters.)

ARTICLE 32

To see if the Town will raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00) for the Conservation Fund to promote the better utilization of our natural resources. (Petitioned by 10 or more legal voters.)

ARTICLE 33

To see if the Town will raise and appropriate the sum of Nine Thousand Dollars (\$9,000.00) for Phase I of a Groundwater Resource Evaluation and Protection Study for the Town of Meredith. (Petitioned by 10 or more legal voters.)

To see if the Town will vote to raise and appropriate the sum of Eleven Thousand Six Hundred Forty-One Dollars and Forty-Three Cents (\$11,641.43) for the Youth Services Bureau's Court Diversion services for first offenders (an effective alternative to the juvenile court system and other youth oriented programs, i.e., The Challenge Course, the Youth Companion Program and short-term counseling. (Petitioned by 10 or more legal voters.)

ARTICLE 35

To see if the Town will vote to designate and proclaim April 22, 1990, as Earth Day 1990, and to set aside that day for public activities promoting preservation of the global environment and launching the "Decade of the Environment."
