## TOWN WARRANT

---

### THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Belmont in the county of Belknap in said State, qualified to vote in town affairs:

You are hereby notified to meet at Community Hall in said Belmont on Tuesday, the 14th day of March, next, at 9 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To choose one Selectman for three years, one Trustee of the Public Library for three years, and one Trustee of the Trust Funds for three years.
3. To see what action the Town will take upon the budget as recommended by the Budget Committee.
4. To see if the Town will vote to allow a discount of 2% on all taxes paid within 30 days of presentation of tax bills.
5. To see if the voters will authorize the Selectmen and Town treasurer to borrow a sum or sums not exceeding in the aggregate \$35,000 in anticipation of the collection of taxes for the current municipal year, and to issue in the name and on the credit of the Town negotiable notes therefor, said notes to be repaid during the current municipal year from taxes collected within the current municipal year.
6. To see what the Town will vote to do with the income from the John M. Sargent Fund.
7. To see what the Town will vote to do with its Parsonage Funds.
8. To see if the Town will vote to raise and appropriate a sum not exceeding \$45,000 for making additions and improvements to the municipally owned water works system, and, to raise such sum, to authorize the Selectmen to issue and sell in the name and on the credit of the Town of Belmont, serial notes or bonds, to be issued in accordance with the provisions of Chapter 72 of the Revised Laws of New Hampshire as amended.

9. To see if the Town will vote to authorize the issue and sale of serial notes or bonds in an amount not exceeding \$40,000. under and in accordance with the provisions of the Municipal Bonds Statute, and any amendments thereof, for the purpose of refunding outstanding indebtedness of a similar amount.,
10. To see if the Town will vote to authorize the Selectmen to refinance and/or renew any loans which may become due during the current municipal year.
11. To see if the Town will vote to allow the Selectmen to sell the Morrison lot and the old Town gravel pit, or any other property owned by the town.
12. To see if the Town will vote to extend the present water system from the point where it crosses the new by-pass highway over Gilmanton Road, easterly to the junction with the so-called "Old Laconia Road", thence westerly along the Old Laconia Road to close the circuit at or near the property of Mr. George Clairmont.
13. To transact any other business that may legally come before said meeting.

Given under our hand and seal, this twenty-fifth day of February in the year of our Lord nineteen hundred and fifty.

HAROLD J. JONES,  
ROYAL W. SMITH,  
HARRY A. HOWLAND,  
Selectmen of Belmont.

A true copy of Warrant—Attest

HARRY A. HOWLAND,  
ROYAL W. SMITH,  
HAROLD J. JONES,  
Selectmen of Belmont.

## SELECTMEN'S REPORT

---

In submitting the 1949 report we call attention to several matters of special interest.

Your board of selectmen has been in session each Monday night throughout the year for the purpose of conducting town business. It is felt that holding regular sessions makes it easier for residents to bring requests and complaints to the attention of the board.

### Finances

We believe the finances of the town to be in good condition as shown by this annual report. It should be noted that there is a reduction in the net debt of the town in a substantial amount. The town now has debts in the form of short term notes that could be combined with other obligations in the form of long term notes with the possibility of a saving in interest and a more orderly repayment plan.

It is recommended that the selectmen be given authority to carry out this plan if it seems to be an advantage to the town to do so.

### Town Water System

A brief report of the water works committee appointed as the result of action taken at the last town meeting appears in this report.

Two special meetings were held to follow up the vote taken to pursue aggressive action in trying to solve the water system problem.

The committee and its chairman, Russell Cushing should be commended for their efforts.

A copy of the recommendations submitted by the F & M Company who made the plans for the improvements, follows.

There is also printed a sketch of the construction work that could be completed in 1950 under the proposed plan.

As a result of the engineers' study the gravel well was cleaned and the pump and motor checked and cleaned.

The installation of a flow meter was also completed and work on the installation of an automatic control for the pump has been started.

It is the recommendation of your board of selectmen that favorable action on the appropriation for the construction work be taken and that work be started on projects 1, 2 and 4 as soon as it appears to be favorable for such work to be undertaken.

This is of course to be dependent on the income derived from the water system according to the plan submitted by the F & M Co.

### Highways

According to statements made by the State Highway officials, Belmont's town roads rate at the top with any in this district. There is much to be desired in the betterment of our road system but there is also the need to follow a sound program of improvement and one that we can financially support in future years.

In 1949 the State T.R.A. funds were accepted and town money appropriated to meet these funds. After due consideration your selectmen recommended several roads where this money could be used.

The State Highway dept. approved its use on the so-called middle route or Camp Leo road and the balance of the appropriation was expended on the Durrell Mountain road.

It is recommended that the town raise the required amount for State Town Road Aid funds this year.

### Union Road

The section of Union road completed in 1948 was tarred in 1949 as money was appropriated for this purpose.

### Badger Road

All funds due the State for State Aid work on the Gilman-ton road were paid this year. It is expected that this money will be spent in 1949 on this work.

After this road is completed there will be no more state aid road work in town as this completes the state aid system in Belmont.

### Town Highway Department

Due to the fact that less snow plowing was necessary in 1949, highway expenditures were under the amount anticipated as will be noted by the town budget statement.

Costs of operating various pieces of town equipment for repairs is shown in this report.

It is evident from these figures and those in the 1948 report that it will be good business to replace the town trucks with new ones if the present rate of cost of repairing these old models continues, as it is very likely to do.

It is therefore recommended that an amount sufficient to replace one truck be appropriated this year.

### **Town Hall**

Necessary repairs to the town community building included laying a new roof and installation of new toilets on the top floor.

A tenant for the first floor and basement was secured through the work of the Chamber of Commerce, but due to conditions beyond the control of the selectmen, this concern has been unable to operate and therefore no rent has been received to date.

It is the opinion of the selectmen that a section of the first floor should be utilized for town offices, inasmuch as the town is already under the expense of heating this portion of the building.

There is work that should be done on the interior and also the exterior of the building, such as painting.

Painting of the hall would be desirable from the standpoint of making it much more attractive for use as a meeting place.

## BUDGET OF THE TOWN OF BELMONT

Estimates of Revenue and Expenditures for the Ensuing Year  
January 1, 1950 to December 31, 1950 compared with

Estimated and Actual Revenue, Appropriations and Expenditures

 THE WATER COMMITTEE'S REPORT

The Water Committee interviewed five different engineers relative to making surveys and drawing plans for a new water system.

The F. & M. Company of Manchester, N. H., were hired to do the job at the price of \$2,250.00.

The Committee purchased a flow meter for \$210.00 and installed the meter near the pump house.

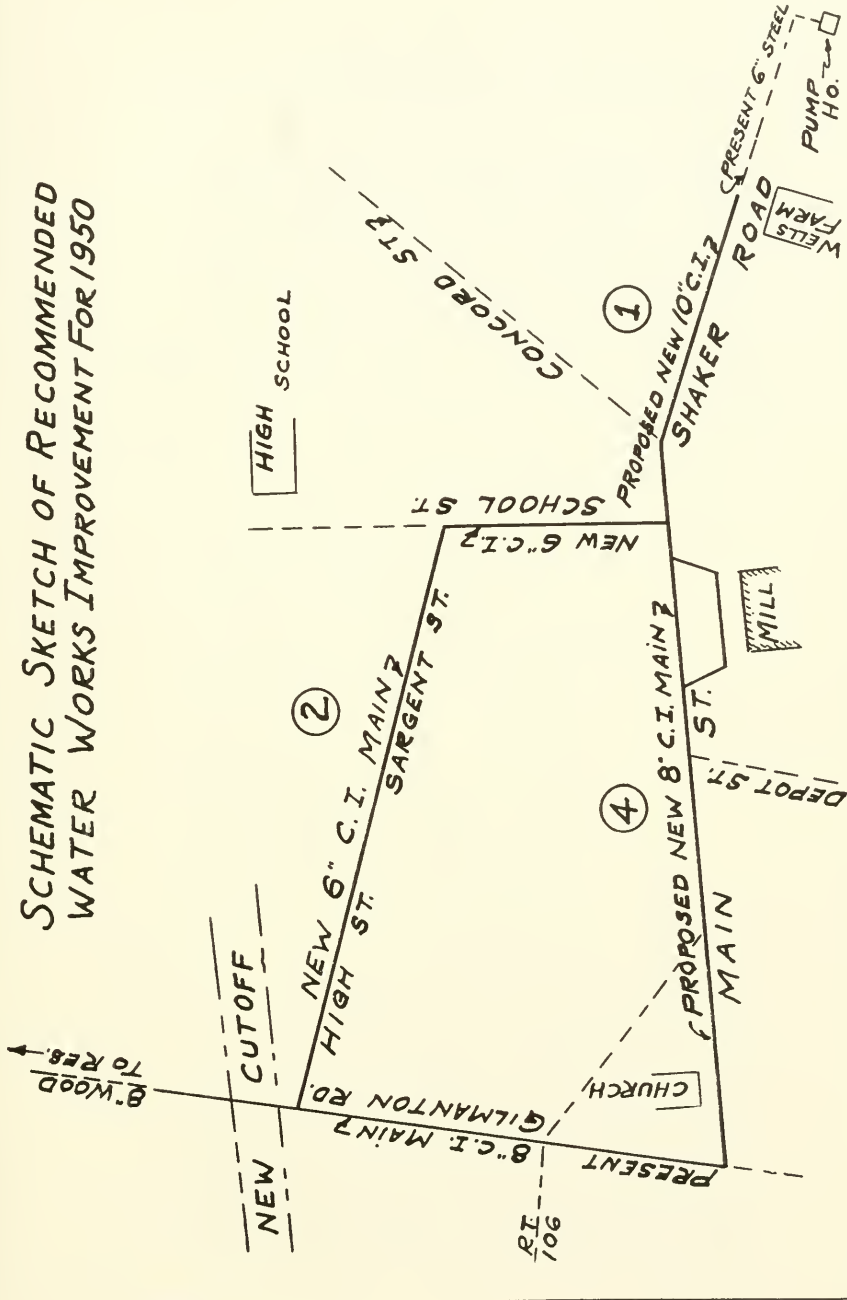

While the Committee were authorized to borrow \$3,500.00, we did not borrow any money.

The expense of the engineer and flow meter were paid for out of revenue from the water works.

The Committee are quite satisfied with the work of the engineers.

RUSSELL H. CUSHING, Chairman.  
For the Water Committee.

SCHEMATIC SKETCH OF RECOMMENDED  
WATER WORKS IMPROVEMENT FOR 1950

### BELMONT WATER WORKS—BELMONT, N. H.

1. If Belmont Water Works had a well maintained distribution system designed to deliver adequate quantities of water to its customers and provided fire protection that would meet the Fire Underwriters requirements free from the fear of shut downs due to mains that are far beyond their guaranteed life and now showing that condition by continuous breaks that keep operating costs high, they could evaluate such a system of pipe at.....\$120,000.00  
In other words, that is what it will cost at today's prices to put the system in first class condition.
2. The Town has been authorized to spend up to..... \$50,000 00 for Water Works improvements.
3. The Water Committee hired the F. & M. Co. Engineers to:
  - (a) Make a survey of the Town and provide maps of the present system and of a properly designed system;
  - (b) Investigate the pumping station, pump and well, and reservoir and make recommendations on same;
  - (c) Lay out a replacement program by steps that would remain within a reasonable budget for the Water Works and Town, and still help to put the system in condition to meet the Fire Underwriters requirements for Class 2 Fire Rates.

A minimum initial expense of..... \$45,000.00 is estimated as necessary to provide the latter.
4. \$45,000. will replace old wooden pipe of inadequate size on Shaker Road; School Street from Main Street to Sargent Street; Sargent Street and High Street from School Street to the new pipe installed last year; Main St., and around in front of the Mill. It will include replacing the hydrants with new ones of the same type as Laconia; provide new service connections to the main pipe, and work on the pump, well, and reservoir. It will include

necessary valves to shut off sections of Town if breaks occurs rather than having to shut off the whole Town.

5. To finance the above work the Water Department will have to collect from its customers the sum of each year, and from the Town for hydrant rental each year, which makes a total budget of..... per year. This sum provides for possible construction of new sections every three or four years.
 

	\$5,424.00
	1,602.00
	\$7,026.00
  
6. The Water Committee has established rates for 1949 that will bring in from its customers..... this year, and from the Town a hydrant rental of... which makes a total of.....
 

	\$5,405.20
	920.00
	\$6,325.20
  
7. The difference is less than what the Town has put into the Water Works annually with very little to show for its investment. It has been quite like purchasing a cheap piece of equipment and then paying all outdoors to keep it operating and still when you are done with it, having nothing to show. It is also important to point out that our system will not meet the Fire Underwriters' requirements when it is inspected this next year. This means we will be dropped to Class 3 and it will cost us about more annually for insurance. We will also lose other insurance advantages. We might even lose our own home if the water pressure failed during a fire.
 

	\$500.00
--	----------
  
8. The Water Committee has made a careful study during many meetings of possible steps that could be taken and recomend unanimously that the above program be followed: i. e. Project No. 1, No. 2 and No. 4 as shown on Improvement plan. This will provide the town with a metal pipe line from the Pump House to the supply line on Gilmanton Road east of the new cutoff. It is also imperative that project No. 2 be completed and in operation before project No. 4 on Main St. is started, thus insuring continuous Fire Protection for the Center of Town. It will provide us with a good start for an adequate system, funds for continuing to improve, enable us to start to meet the Fire Underwriters' requirements, thereby saving us money each year, and replace a false security with a definite one.

**STATE NURSE'S REPORT**

---

35 pre-school children and infants were inoculated during the year and 15 children were vaccinated by Dr. Harry Trapp.

The Red Cross furnished transportation for children living in outlying sections.

Let's keep our children 100% immunized and if such can be accomplished so simply our resolution for the year and years to come would be the complete eradication of communicable diseases.

My sincere thanks and appreciation to Rev. Fitzpatrick, Chairman of the Red Cross, the Woman's Friendly Society who make this health program complete and the Library Trustees for use of the space.

Respectfully,

JEANETTE M. CARTER.

---

**AUDITOR'S REPORT**

Belmont, N. H., February 28, 1950.

I have examined the accounts of the tax collector, town clerk, treasurer, trustees, and selectmen and find them sustained by proper vouchers and the accounts correctly cast.

BOLIK KIZALA,  
Auditor.

## SCHOOL WARRANT

---

### THE STATE OF NEW HAMPSHIRE

Belknap, ss:

To the Inhabitants of the School District in the town of Belmont, qualified to vote in District affairs:

You are hereby notified to meet in Community Hall, in said District on Saturday, March 11, 1950, at 2:00 p. m. to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose a member of the School Board to serve for three years to fill the vacancy arising from the expiration of the term of office of Helena L. Bryant.
5. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen and pass any vote relating thereto.
6. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.
7. To determine and appoint the salaries of the School Board and other district officers.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officers and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see what action the district wishes to take to increase school facilities and raise and appropriate money for this purpose, or to take any other action relating thereto.

10. To see if the District will vote to establish a capital reserve fund for building construction or changes, and to raise and appropriate not over one-half of one percent of the assessed valuation for this purpose. (\$5,000)

11. To transact any other business which may legally come before this meeting.

Given under our hands this 31st day of January, 1950.

HELENA L. BRYANT,  
CLARENCE N. MOODY,  
RICHARD W. WESTON,  
School Board.

A true copy of Warrant. Attest:

School Board.

WILSON S. MANSFIELD,  
School District Treasurer.

July 7, 1949

**AUDITOR'S CERTIFICATE**

This is to certify that we have examined the books and other financial records of the school board and school district treasurer of Belmont of which this is a true summary for the fiscal year ending June 30, 1949, and find them correctly cast and properly vouched.

RUSSELL W. CUSHING, Auditor.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Members of the School Board, Parents and Voters:

In this tenth annual report, it is a pleasure to offer comments on school matters, to list some of the activities as they have been conducted in the past year, and to mention some aspects of the future.

EDUCATIONAL DOLLARS ARE IN A NOSE DIVE IN 1950! AND WELL SHALL WE KNOW IT WHEN WE WANT AND BUY THE EDUCATIONAL PROGRAMS, THE SCHOOL BUILDINGS, THE SCHOOL FACILITIES, AND THE EXPERT TEACHING STAFFS FOR THE TYPE OF PUBLIC SCHOOLS WE SHALL NEED TO PRESERVE OUR LIBERTIES IN THE 1960's!

3-1/3 cents out of every income dollar  
were spent for Schools about  
1940

2-1/4 cents spent about 1950! ONE-THIRD LESS!

Result: School plants are not  
up-to-date

School buildings are  
in poor repair

School facilities are  
overcrowded.

These are New Hampshire  
conditions!

The schools are not keeping  
pace with the changing times!

It will be a long pull back!

WE, the people, spend money for H-Bombs, for A-Bombs, for great peacetime armed forces, for the hungry of Europe, for government bureaus, and for destruction.

BILLIONS FOR THESE PURPOSES!

BUT

Education is the force that will build the Faith and the Peace, and we, THE PEOPLE, allow money spent for schools to be cut ONE THIRD of what it was for each dollar of income in New Hampshire before the second great war.

## "THE \$64 QUESTION"

WHEN will the people of New Hampshire believe that 2¼ cents out of every dollar cannot be stretched to meet the 1950 needs of the schools when 4 cents are needed to do the job?

It costs money to preserve our liberties; the know-how comes through Education.

The children live and the schools must be maintained among the stresses of an atomic age.

Though today's newspaper headlines on Russia and radio commentators' utterance on warfare by atomic energy cause us to be uncertain about the future, and though a large portion of our income is taken for the support of armed forces and government, some of our energies, resources and thought must be devoted to the development of boys and girls for they will be the workers and some of the leaders in the 1960's.

### CONDITIONS CHANGE RAPIDLY IN 1930

- Who had seen a football game through a television set?
- Who had a radio in nearly every room at home?
- Where were the low pressure tires?
- Where was the "walkie talkie?"
- Who had spotted an airplane by radar?
- Who knew about atomic bombs?
- Who had a deep-freeze?
- Who did laundry at an automatic washing machine?
- Who had had an injection of penicillin?
- Who had stopped a cold by antihistamine tablets?
- Who had beautiful, unbreakable plastic dishes at home?
- Who had flown across the United States in five hours?
- What aviator had landed a plane on an aircraft carrier?
- Who was shuddering over Communism and other "isms" threats to our democratic ways of life?
- Who had fluorescent lights to use?
- Who had lived a week at sea on a rubber life raft?
- Who owned a "jeep"?

Who had seen a movie in technicolor?  
 Who bought magazines with advertisements in color-printing?  
 Who anticipated the high birth rates of the middle 1940's?

## SO, IN 1950;

Television  
 Radio  
 Walkie-talkie  
 Radar  
 Atom bombs  
 Deep-freeze  
 Automatic household equipment  
 Penicillin  
 Anti-cold tablets  
 Air speed above sound speed  
 Plastics  
 Rapid travel and communication  
 Aircraft carriers  
 Communism  
 Fluorescent lights  
 Life rafts of rubber  
 Jeep  
 Technicolor  
 Color printing  
 Children in larger numbers than ever before

### SCHOOLS CHANGE WITH THE TIMES TOO

Modern school work consists of more than the 3 R's, "Readin'", "Ritin'", and "Rithmetic".

Schools are considered to be strongholds of Democracy to help young people thwart the inroads of "isms" by understanding and accepting principles of liberty, justice, morality and religion. "A school is a place where young people—of all ages—come together to learn from themselves and from each other, under the guidance of inspiring teachers."

Modern parents take an active interest in the school life of boys and girls. They find out what effect school activities have on their children and they investigate new types of school studies.

Modern school buildings are constructed and outfitted to meet the needs of young people and of their parents because practical school rooms are living places for children and youth and buildings serve the interests of adults also.

School and community educational programs are being established through the cooperative efforts of parents, teachers,

and students for the fast-moving age into which our children have been born and in which they much live and earn a living as freedom-loving men and women in a stronghold of democracy under God.

## BUILDINGS AND GROUNDS

### Play Fields, Equipment, Gymnasium

One of the greatest assets a school plant can have is a playing field. Through the efforts of several men interested in sports the loan of land by Mrs. Kate Barrett north of that owned by the Community Club, and of another piece owned by Mrs. E. Giddes, the boys and girls in Belmont have the use of a very fine baseball field east of the Gale School. In addition, the School Board had a large space directly back of the Gale School graded so young boys and girls could have group games on fairly level ground. This satisfied one of the school needs.

Another school need is equipment for the playgrounds.

Still another need, and one which should be met when an addition is placed on Belmont High School, is a gymnasium and its attendant facilities and conveniences.

### Room for Elementary Pupils in Former Shop

The steadily increasing enrollments of elementary pupils has finally crowded groups from the outgrown Gale School. The former shop in the high school basement was redecorated, out-fitted with a new exit, chalkboard, and made ready for the use of intermediate children.

## PUPILS: ATTENDANCE, HEALTH, TRANSPORTATION

### Flourine Clinic

A dental clinic for fluorine treatments was conducted by Dr. Kenneth Achber of Laconia from April 5, 1949 to June 12, 1949.

57 children were treated 4 times each at a cost of \$285.00

28 children were treated at family expense and

28 children sponsored by organizations.

Family payments	\$150.00
Red Cross contributed	60.00
American Legion	10.00
American Legion Auxiliary	5.00
Chamber of Commerce	25.00
Friendly Club	5.00
Grange	5.00
Laconia 40 and 8	25.00

---

\$285.00

## CLOSING EXERCISES

The last school year closed with Baccalaureate Sunday June 12, 1949, at 4:00 P. M., and graduation exercises for high school pupils in Community Hall on Friday evening, June 17, 1949, at 7:30 p. m. The program:

Processional	
Invocation	Rev. Frederic W. Fitzpatrick
Salutatory	June Boutin
Selection—"Green Cathedral"	Hahn
	High School Sextette
Address—"The Present Outlook"	Dr. Harold R. Bruce
	Dartmouth College, Hanover, N. H.
Selection—"A Song of Praise"	Gruenberger
"Alma Mater"	College Song
	High School Glee Club
Valedictory	Robert Laffam
Presentation of Diplomas	Mrs. Philip R. Bryant,
	Chairman, Belmont School Board
Benediction	Rev. Arthur L. Massicotte
Recessional	

## Class of 1949

June Boutin	Roiland Stanley Kimball, Jr.
Virginia May Brown	Robert Laffam
Haven R. Fitzpatrick	Lois Madden
Arlene Gove	Oscar Joseph Parent
Wilfred A. Hamilton	Marjorie Lettie Swain
Eleanor Louise Higgins	Joanne Lee Terrell

## Advantages of a Pre-school Round-up

A pre-school round-up of beginners could help the school department to find the stage of development in motor coordination, vision, teeth, hearing, and mental acuity of boys and girls who would be beginners in September. To be most effective, each child should be accompanied by a parent who would stay with him or her during the examination and take some part in the tests. There could be seven **stations** set up in the examination circuit.

- Station 1. Parental history
2. Vision testing
3. Hearing testing
4. Muscular coordination
5. Teeth inspection
6. Immunization dates and history of diseases
7. Passport to school

A passport to school could be issued to those who had no physical deficiencies to correct. The others could return for the passports after physical deficiencies are corrected.

### Transportation

The transportation of school children is a major effort of the School Department. Three large buses from the Laconia Street Railway Company, under contract, cover Jamestown, Winnisquam, and Province Road routes. South Road and Gilmanton Road routes are cared for by Mr. Milford C. Hislop and Mr. Louis Wuelper respectively. Mr. Gerard Camire transports his own children. By these means, all children to be transported are able to reach school each morning and home each afternoon in a relatively short time.

### Births and School Enrollments

Predictions on future school enrollments are made from the annual school census.

Youngsters Born	Census of '48	Census of '49	To Enter School
1941	34	30	1947
1942	30	30	1948
1943	30	35	1949
1944	31	32	1950
1945	29	33	1951
1946	40	42	1952
1947	41	44	1953
1948	32	35	1954

### Actual School Enrollments

Year in School	Fall of 1947	Most Born in 1948	Fall of 1948	Most Born in 1949	Fall of 1949	Most born in 1948
I	35	1941	28	1942	28	1943
II	25	1940	35	1941	21	1942
III	22	1939	33	1940	49	1941
IV	18	1938	22	1939	38	1940
V	28	1937	29	1938	21	1939
VI	18	1936	20	1937	29	1938

### Change in Enrollments I-VI

1945	114	(Average each of 6 yrs.)	19 per year
1946	115		19
1947	154		26
1948	163		27
1949	186		31
1950	?		?

The enrollments may begin to crowd the high school rooms in the fall of 1951, and 1952. By 1953, a school expansion program may be pressing.

## September Enrollments

			Probable '50	
Gale School	Editha K. Cowing	I	28	32

#### PTA Sponsors School Lunches

The PTA furnished \$100 for equipment to start a school lunch program. This made possible the operation of a plan to serve good meals each school day by using the high school home economics room and other classrooms on the ground floor as cafeteria quarters. Parents have given cutlery and crockery.

Mrs. Mildred Waite is cook and prepares excellent meals in her home. Several boys bring these to the high school about 11:15 a. m. in large aervoid containers which keep foods hot.

Serving the youngest children starts about 11:25 a. m. Pupils look out for the youngsters who are getting food on trays.

assist Mrs. Waite and Mrs. McLaughlin in serving, and teachers

Besides assisting in various ways, Mrs. Henry McLaughlin acts as supervisor, keeps the records, and makes the reports. Federal subsidies of 9c. per meal are paid, and the children pay 20c. per meal or \$1 per school week.

This is a very worthwhile health project and should result in keeping children in better health and in steady growth. The P.T.A., parents, and friends of the school should be complimented for their efforts and interest, and gratitude expressed to Mrs. Waite and Mrs. McLaughlin for their fine work.

#### BELMONT SCHOOL CALENDAR

1949-50

Monday, September 5, 1949, Labor Day

Tuesday, September 6, 1949, Teachers' Meeting

Belmont High School, 1:30-9:00 p. m.

Wednesday, September 7, 1949, Teachers' Meeting

Belmont High School, 9:00 a. m. to 3:00 p. m.

1949

1949

FIRST TERM BEGINS

Thursday, September 8

No School Oct. 12, Columbus Day

School close Oct. 20, 21 for N.H.S.T.A. Convention

Armistice Day is to be observed in school in appropriate exercises

Thanksgiving recess, Nov. 24, 25 (close school at 12:05 p. m. on Wednesday, November 23)

Christmas Vacation starts at the usual closing time on Dec. 22-Dec. 23-Jan. 2 inclusive for vacation

1950

1950

SECOND TERM BEGINS Tuesday, January 3

Winter vacation starts at the usual closing time on February 17. February 18-Feb. 26 inclusive for vacation

THIRD TERM BEGINS Monday, February 27

Schools close at 12:05 p. m. on Good Friday, April 7

Spring vacation starts at the usual closing time on April 21, April 22-April 30 inclusive for vacation

FOURTH TERM BEGINS Monday, May 1

All schools close for Memorial Day, May 30

Summer vacation for most schools will start before Friday, June 23 or at the end of the allotted 180 school days required if earlier than June 23. Announcement on closing dates for schools will be sent out in the spring 1950.

#### "No School" Signal

"No School" signals will be given by radio. The closing of any school after the beginning of the morning or afternoon session will be done by announcement of the teacher in charge.

Concord Radio Station WKXL (1450 on dial)

Laconia Radio Station KLNH (1340 on dial)

"No School" announcements at 7:15, 7:30, 7:45, 8:00 A. M.

#### Correspondence Courses

One way of supplementing the limited offerings of a small high school is to obtain well-prepared correspondence courses in subjects which the students wish to study. The following are being followed this year:

Typewriting, Elementary	10
Shorthand	1
Automotive Mechanics	1
General Agriculture	1
Trigonometry	2
Mechanical Drawing	1
World Geography	1
Pre-Flight Aeronautics	1

### Art Education

There are many ways by which people express ideas. From earliest times, man expressed ideas by hand signs, drawings, and markings. Speaking and writing are the two most commonly considered ways of human expression, drawing, painting, carving, sculpturing, molding, and representing are fundamental ways of expression. In recent years the schools have been trying to revise their teaching programs by utilizing scientific finds about human behavior. Until lately, the schools have repressed children when they have sought to use a natural way of conveying ideas and thoughts. Pupils release their nervous tensions and emotional stresses and soon become happy, curious, natural, and expressive individuals when they have opportunities to develop themselves in Art Education.

Pupils have benefited from the study that certain teachers have made in Art Education, and their joint activities culminated in an Art Education exhibit on January 20, 1950 at the Tilton-Northfield High School. In the gymnasium, groups of pupils worked at many art activities. In the classrooms, industrial arts and merchandising concerns in this area exhibited their products or articles. Several craftsmen showed the application of art in design. Refreshments were artistically prepared. Sewing, cooking, and shop projects made by pupils were displayed.

The Art Education exhibit was very well attended and has given a new interest in Art in the Lakes Region.

### Driver Education

There are more motor vehicles being registered in New Hampshire this year than there were last year. An automobile is becoming to be considered a necessity for almost everyone. The State Motor Vehicle Department recognizes this and urges high schools to teach 15 and 16-year old boys and girls how to drive well—and carefully—that the number of accidents may be reduced among this age group of drivers. Belmont High School should be one of those in New Hampshire to offer a course in Driver Education and Training to its 15-year old boys and girls.

### Handwriting Instruction

For many years, colleges training persons for teaching positions have not given a complete course in handwriting. The result has been that many teachers have never had the benefit of a *functional* and readily-grasped system of Handwriting. School departments in this area are trying to remedy poor writing by training teachers—and pupils—how to write well. The Rinchart

Functional Handwriting system is meeting with great favor in this region, and is now being introduced into some of the colleges for teachers. By teaching teachers, not one but all of them, to write better, there is a good possibility that the pupils will learn good handwriting practices too.

#### **Physical Education and Health**

Strong minds and healthy bodies are requisites to success and happiness in this rapidly-changing life we now lead. Major emphasis in thinking these days seems to be on "War with Russia", "atomic warfare", and "world conflict". The test of one survival of the fittest may come sooner than we think. Whether it comes early or late, or not at all, the important thing is to develop strong, alert, confident boys and girls, men and women, living full lives in good health. Diets are important; exercise is imperative; poise is essential; mental condition is vital; and physical fitness is a necessity. To these ends the Physical Education and Health Program has been developed.

A teacher of physical education and health is coming to be a necessity. He works closely with the school physicians and the school nurse, and does much more for and with youngsters than to coach them in interscholastic sports.

#### **Specialized Training Services in the Laconia Area**

It was not long ago that school departments made no attempt to give special training to handicapped boys and girls. In Belmont no youngsters have had any special attention unless they were able to attend school. There is a growing need for the establishment of a center where specially-trained persons may be obtained. Such a center can be organized in Laconia, and each participating school district could call upon instructors for handicapped persons who are deaf, dumb, blind, crippled, sick or retarded. Each teacher would give the special instruction at home, or in a hospital, or in a particular school room or in a regular classroom. To maintain the center, several district sharing in the services would contribute proportionately in any school year.

#### **Teacher, Substitutes, Supervisors**

Mr. John J. Bane resigned to enter the City of Boston School System, after two years of building Belmont High School's organization to its 1949 status. As Mr. Bane's successor, Mr. Gardiner E. Gregory was selected headmaster. Mr. Gregory is a graduate of Colby College and has a master's degree in Education from the University of Maine. He has taught

courses in Audio-Visual Education at the University of Maine in the summer sessions of 1940 and 1946. He had served five years as teacher and five years as headmaster before coming to Belmont. Here, he has instituted some practices for pupils which lead them to greater interest in school.

Mrs. Evelyn M. Morgan of Laconia, who substituted after Miss Alice J. Christian resigned last spring, has continued as a regular teacher this year.

Miss Marie L. Harrity of Somersworth, graduate of Keene Teachers College in 1949, was selected to teach Civics, Social Studies, French Junior Business Training and Contemporary Problems.

Miss Carolyn E. Wyman of Keene, recent Keene Teachers' College graduate, teaches Home Economics and General Science.

Mr. Henry J. McLaughlin is qualifying for State certification by serving as acting principal of the Gale School.

The other staff members remain in their capacities, achieving effective daily success with their pupils.

#### Teaching Teachers—Program of Upgrading Staff

A well-trained teacher is the most important part of the instruction in any classroom. In our plan for "teaching" teachers, there are several phases. Teachers are encouraged to study in summer session. Mr. Henry J. McLaughlin took in courses in Elementary Supervision at Boston University, Mr. Fred A. Rogler took courses in Administration at the University of New Hampshire and Miss Wilhelmina B. Reed took course at Plymouth Teachers College in elementary education.

The second phase is in extension courses. The Teacher Welfare Committee of the Southern Winnepesaukee Teachers Association has been diligent in its effort to upgrade teachers through extension courses. The fall course was one in Art Education, taught by Dr. Alice A. D. Baumgarner of Concord at the Tilton-Northfield High School. The salary schedule allows \$50 for the completion of 6 semester hours credit in approved elementary school courses. The following took the Art Education Course:

4:00-6:00 p. m.	Class in Art Education	
	Cowing, Editha K.	2 credits, undergraduate
	Reed, Wilhelmina B.	2 credits, undergraduate

The winter course which some teachers are attending is held in Franklin, and deals with Guidance.

3:30-6:00 p. m.	Class in Organization and Administration	
	Rego, Helen H.	3 credits, undergraduate

High school teachers receive instruction in Handwriting under Miss Quigley's direction, and the Gale School teachers have this while the pupils there are being taught.

The Southern Winnepesaukee Teachers Association contributes a great deal to the heightened interest of teachers in professional advancement. The programs have been scheduled as follows:

- January 5, 1949, Belmont High School  
 Radio in Education  
 Mr. William Pingree, WKXL of Concord
- March 4, 1949, Tilton-Northfield High School  
 Films on Teaching Techniques, Fractions, punctuation,  
 Dr. Austin L. Olney, University of New Hampshire
- May 4, 1949, Gilmanton Corner School  
 Improving the Health in the School Environment  
 Dr. Lura Oak-Bruce, State Department of Education
- Nov. 2, 1949, Tilton-Northfield High School  
 Remedial Reading at Proctor Academy  
 Mr. Lyle Farrell
- Jan. 4, 1950, Gilford Grade School  
 "The Sixth Chair"  
 Mr. John H. Starie, Executive Secretary NHSTA
- Mar. 1, 1950, Belmont High School  
 Mme. Telliez, Exchange teacher from France and now at  
 Hanover, N. H.,

#### Research—Planning Educational Programs

There may few industries today with 1500 or more workers, or even 250 or more, where research by some employees into bettering the products manufactured, the manufacturing techniques used, or the use of employees' time, is not undertaken. Research is important to industry in its competition. Schools have to do the same, maintain constant touch with better ways of improving the instructional program. In our school department, some of the responsibility for research is delegated to the teacher of special subjects. This teacher with the superintendent helps the teachers to improve the instructional program and to assist boys and girls to learn better, more rapidly, and more satisfactorily.

The teacher of special subjects in the Tilton-Northfield Supervisory Union teaches 15 and 16-year old boys and girls in Tilton a course in Automobile Driver Education and Training, develops the Social Studies outlines with teachers to keep pace with rapidly-changing world conditions; counsels teachers in the audio-visual instructional means by motion pictures, radio, recorder, records, slide films, pictures, maps, charts, globes, and

drawings; help teachers in the analysis and preliminary selection of textbooks, work materials, and guides; keeps textbook inventories, oversees the use of library books, newspapers, and magazines; teaches all ages of youngsters when an upgrading program for a teacher is in effect; meets with teachers and parents on school problems; and serves the several school department in the supervisory union in joint efforts with the superintendent. With the advent of the War, the work-load of a superintendent of schools in a New Hampshire supervisory union of several towns became terrific, and assistance in some phases of school improvement was necessary, hence the delegation of some of the task of research, testing, and organizing was made to a teacher of special subjects.

#### **Financial Support for Education**

In 1783, at the time the New Hampshire Constitution was adopted, the people gradually were farmers, or owners of small mills, or operators of little stores. Real estate was then a sound base on which to rest a system of taxation to support the costs of education, roads, and other phases of local and state government.

By 1950, the pattern of life has changed. There are hundreds of opportunities now for a person to earn a living. Present earning capacities are not only in farms, and little mills, and small stores, but also in human intellect, technical skill, law offices, insurance, restauranting health protection, engineering, architecture, recreation, radio, religion, and education. A lawyer's earning power may be his mental training and verbal capacity. His law library may bear a light tax load, yet his income may be large. An insurance agent may have a rented office and his share in contributing to the expenses of local government may be light, yet his earning capacity may be represented by the heavy demands of his clientele. A bookie may carry his office in his hat, yet his annual take may be undiscovered. Very frequently, such income supports a mighty small share of the cost of local and state government at the present time. The time has come to relieve real estate of some of its tax burden and shift it to the earning capacities of people and to the productive power of people. This can be done by appropriate legislative action.

#### **Audit of School District Accounts**

By request of the School Board the Division of Municipal Accounting of the State Tax Commission completed an audit

of Belmont School District accounts on October 10, 11, 1949. It was indicated that the School District had received \$709.65 more than the appropriations between July 1, 1940 and June 30, 1949. This sum was returned to the Town by asking the Selectmen to withhold it from the payments of the 1949-50 appropriation.

At the same time, it was shown that the Town owed the School District \$734.25 in net Dog License revenues, and the SchoolBoard requested the Selectmen to transfer that sum from Town to School accounts by check.

It appears from the audit that the Town and School records will be in balance when these two amounts have been transferred.

#### Parent-Teacher Association

The members of the Belmont PTA have been concerned with school matters and have used their energies to raise funds for the lunch program and for visual education equipment. These activities are very helpful to the school and to the boys and girls, and are highly commended.

The PTA may launch a community project involving many parents, teachers, and students in conjunction with a State-wide survey ordered by the 1949 Legislature. These persons may be studying and asking questions raised on "A Guide to the Study of New Hampshire Schools", for which a common report for all school districts will be made before January 15, 1951, and in time for the opening weeks of the 1951 Legislature.

#### The Next Step—Building Expansion

It is interesting to read statements made in earlier town reports and trace the changes which have come about in the school organization, particularly in the growth of the high school. It is not many years since several one-room schools were operated. Grade IX was in Gale School, and the other high school students went to Tilton or to Laconia.

These excerpts trace some of the changes:

"Feb. 1, 1925—Miss Nancy Knowlton employed to teach  
the first year of high school work

"June 30, 1925—Gale IX—Nancy Knowlton  
6-enrollment

"June 30, 1926—13-enrollment

"June 30, 1927—Gale IX—Nancy Knowlton  
16-enrollment

"June 30, 1928—Gale High—Nancy Knowlton  
Florence Skinner

23-enrollment

- (Other schools) "1928 Gale  
 Gale High  
 Plummer  
 Upper Province Road  
 Lower Province Road  
 Ladd Hill
- "June 30, 1929—Gale High—Howard C. Moore  
 22-enrollment
- "March 12, 1935, High School committee selected  
 October, 1935, Federal grant of \$25,000 approved
- "Feb. 18, 1936, High school building under construction
- "Sept. 1936, High school building opened  
 Enrollment, 85, VII-XII
- "Nov. 12, 1936, High School dedication  
 Cost, \$24,953.51 of which \$11,289.07 in Govern-  
 ment grant was received
- 1953 ??? Building expansion at B. H. S. ???  
 Classrooms  
 Gymnasium

### Conclusion

There are few indications that the school population in Belmont will grow less. People are not moving away because of the employment conditions; instead, they are staying and their children must be educated. This will soon present a grave situation in classrooms whose walls will not bulge, and will further impair the education that can be given to boys and girls.

Educationally, there is much to be accomplished. For the best types of training for boys and girls in 1950, who will soon be the workers in 1960, and later the leaders in our democracy, there should be large room spaces equipped for 20-25 small boys and girls, or 25-30 intermediate children placed under one of the best teachers we can hire or train. By these standards, Belmont classrooms are much overcrowded now. What will happen in the middle 1950's? It is not too early to make very definite plans for building expansion, as there is every indication throughout New Hampshire that there will be 30% to 50% increase in elementary school population before long. Besides rooms, what are other needs?

1. Art Education is very important. It is another means of expressing ideas like speaking or writing, often more useful, and extremely essential.

2. 15 and 16-year old boys and girls should be taught to drive a car carefully and well. Let's prevent accidents, or reduce them, among this age group, 16-20, by teaching Driver Training.

3. Physical Education and Health, with the ever-present threat of war, is vital.

4. Teachers trained in the ways of inculcating democratic practices into the whole school environment are very necessary. If these cannot be hired, they should be trained on-the-job.

5. Conservation of our natural resources is imperative and is a school study in process of development.

All of these studies or services are as important, or even more important, than some we have come to accept and willingly support in the elementary and high school programs.

The Superintendent of Schools expresses his thanks to many; school board members, parents, teachers, pupils, health officials, lunch workers, and school employees for their friendly interest, their sincere effort, and their wholehearted confidence in the school organization.

The way ahead may look difficult,  
Yet if we struggle forward and gain,  
We shall not move backward and fail.

Respectfully submitted,

DONALD P. MATTOON.
