OSCAR FRAZIER, } of
WILLIAM HIGGINS. } Monroe.

I hereby certify that I have examined the accounts of the Treasurer and Selectmen of Monroe and find the same to be properly vouched and correctly cast.

ALEXANDER WARDEN.

SCHOOL REPORT.

The School Board submits the following report.

SCHOOL NO. 1. Miss Mary H. Moore taught the spring term; Miss Cora E. Remick, the fall term; and Albert Moore the winter term of the grammar school. The teachers were all diligent and did what they could to make the school a success, and the pupils who applied themselves to the work were well advanced in their studies. The spring term of the primary school was taught by Miss A. Jean Duncan; this was her first term and her pupils made good progress and her work was well done. The fall and winter terms of this department was taught by Miss Margaret S. Willey, with marked success. Miss Willey is well qualified for a teacher, and is very successful in imparting knowledge to her pupils.

SCHOOL NO. 2. Summer term was taught by Miss Ida M. Nelson and a success in every sense of the term. The fall term was taught by Miss A. Jean Duncan, who proved herself as before a very capable teacher. The winter term was taught by Miss Ida M. Drew. The term was a successful and satisfactory one. Miss Drew gave the school her best services and her pupils did good work.

SCHOOL NO. 3. The spring term was taught by Miss Cora E. Remick who gave to the work her best efforts, and the school was a good one. The fall term was taught by Miss H. Della Dustin, who is an interesting, energetic teacher and well discharged the duties of her position. The winter term was taught by Miss Jean P. Moore. Her work was well and thoroughly done, as her work always has been in our schools.

SCHOOL NO. 4. Spring term was taught by Miss Lizzie Lang. The school was well advanced during the term.

Miss Lang is a very efficient young teacher. The fall term was taught by Miss Josephine Thayer. This was her first term. Her work was quietly and well done.

SCHOOL No. 5. The winter term was taught by Miss H. Della Dustin in the school house in old district No. 3, and nearly all pupils that attended the school No. 4, spring and fall terms, came to this school for the winter. The term was a very satisfactory one to the School Board and patrons of the school.

There seems to us to be increased interest in the schools in town. The trend seems to be in proper direction. We think our people are paying more attention to the affairs pertaining to the education of their children. There is an emphatic demand for good schools. There has been an increase in the percentage of the average daily attendance of scholars in the schools in the district for the past year, as shown by the registers, and we attribute this, in a large measure, to the sentiment of the community which determines the question of regular attendance at school of the children of school age. And we believe that there must have been a corresponding increase in the benefits received by such attendance.

Every child is entitled to the right to attend school. The children are the citizens of the future, and they have a right to demand of us an education. It is necessary to properly fit them for the discharge of their duties in life. Ignorant, they will be disqualified—a threat to the state and nation. When we stop for a moment and consider the fact that a very large per cent. of the children of our town receive all of their education in our common schools, we think our common schools should be complete and maintained, cost what they may. Shall we, as citizens, have done our full duty to the generation that is following so closely in our footsteps, and on whose shoulders the burdens we carry today must

soon fall, if we fail to heed the demand of those interested in the proper education of the children of the present time. Let common sense and common intelligence answer.

Number of pupils not less than 5 years of age who have attended public schools no less than two weeks, 124. Average daily attendance, 98. Number of visits by school board, 36. Number visits by citizens, 81.

ROLL OF PERFECT ATTENDANCE.

School No. 1. Grammar, Mary Frazer, Emma Kent, Howard Burrill, Jean H. Hosford, Earnest Heath. Primary, Willie Shanty, May Brown, Mabel Hunt, Georgianna StCroix, Mary StCroix, Winnie Johnson, Leslie Frazer, Mary Mehan.

School No. 2. Emily Cross, Orlean Lang.

School No. 3. Clinton D. Nelson, Ruth A. Nelson, Grace E. Mandigo, Rosa Trucatte.

School No. 4. Dora J. Brown, Josie N. Clair, Emma M. Eastman, Robert H. Dennis, Willie Lang, Gilbert Lang, Lester Lang.

Thirty weeks of school have been maintained through the year just closed. The Spring, Fall and Winter terms were ten weeks each.

The Board has ordered wood, not yet paid for, estimated to cost, including cutting and putting into the sheds, \$45.00.

We close this report forgetting all unkind criticism, and thanking the people and teachers who so kindly aided us in many instances, and made pleasant for the Board some difficult duties. Respectfully submitted.

HUGH NELSON,
C. H. HOSFORD.

Monroe, N. H., Feb. 25, 1898.

We hereby certify that we have this day examined the report of the School Board, and found the accounts correctly cast and properly vouched.

R. M. JOHNSON,
OSCAR FRAZIER.

REPORT OF TRUSTEES OF THE MONROE FREE PUBLIC LIBRARY.

MARCH 1, 1898.

It is gratifying to report our Free Public Library in a prosperous condition.

The librarian shows that six hundred and fifteen volumes have been loaned the past year, to January first. This proves our people are interested and appreciate the privileges of the library.

In making the selection of books we have adopted the rule to buy better books each year. It is our aim to select such as will be instructive and interesting to the young people as well as adults. These are mostly up to date publications by popular authors, more expensive and fewer in number than last year's purchase.

Anyone desiring books not owned by the library can have them added, if suitable for a library, by giving title and name of author to the librarian.

Among the new books ordered are the following: Earth and Its Story. Quo Vadis. Short sayings of Famous Men. Relics of Primeval Life. Aurora Borealis. How to Tell a Story, (Mark Twain). What Dress Makes of Us. Story of Cuba. What is Electricity? His First Charge. Farthest North, (Nansen). American Boys' Book of Sports. Camp and Trail, In Bamboo Lands. (For children.) Sweetheart's Travellers. Three Little Daughters of the Revolution. Adventures in Toyland, and others.

FINANCIAL REPORT, 1898.
