I hereby certify that the above transcript of marriages, births and deaths is correct, according to the best of my knowledge and belief.

JAMES H. SCOTT, Town Clerk.

# REPORT OF SCHOOL BOARD.

FOR THE YEAR ENDING MARCH 1, 1893.

The School Board of Nelson herewith present their annual report:

Only three schools have been maintained in the district the past year, and one of these but a single term.

No. 1, or the Center school, opened for its spring term April 25th and continued nine weeks, with Miss Alice L. Vose, of Peterborough, as teacher. Whole number of scholars, 23; average daily attendance, 18. Instruction was given in ten branches, the number of pupils in each branch being: In reading, 23; spelling, 23; penmanship, 23; arithmetic, 20; geography, 15; grammar, 6; history, 9; physiology, 6; book-keeping, 2; and algebra, 1.

The teacher came to her work with high recommendations for character and scholarship, but without experience. The school proved too difficult, there being a lack in discipline and a failure to interest and secure diligence. Doubtless under other conditions and with experience the results would be different.

The spring term in No. 2, or the Munsonville school, was taught by Miss Fannie I. Bennett, of Whately, Mass., who was the teacher of the previous term. It began April 25th and continued ten weeks. Number of scholars enrolled, 19; average attendance, 18 1-2. Ten different studies were pursued, the number of pupils in each being as follows: Reading, 19; spelling, 19; penmanship, 14; arithmetic, 13; geography, 6; grammar, 12; history, 3; physiology, 6; book-keeping, 5; algebra, 1.

This school was a proof of the value of experience on the

part of the teacher and the wisdom of continuing one for more than a term. The utmost harmony prevailed, the attendance was excellent, and good progress was made in the different branches. Your committee regret that this teacher could not be retained.

The fall term in No. 1 was taught by Miss Sara F. French, of Milford, beginning September 12th and continuing ten weeks. Number of pupils in the school, 20; average daily attendance, 16. The branches pursued, nine in number, and the pupils in each were as follows: Reading, 20; spelling, 20; penmanship, 20; arithmetic, 20; geography, 16; grammar, 5; history, 6; physiology, 12; book-keeping, 1. The low average attendance in this school was due in part to the non-membership of several of the pupils for a part of the time.

A great improvement was noticeable in the matter of discipline and studiousness and, though the attendance was quite irregular, the progress made was creditable both to teacher and pupils. Miss French possesses the elements of success in her chosen vocation.

In No. 2 the fall term was under the instruction of Miss Nellie A. Rogers. The school opened September 27th and was fourteen weeks in length. Whole number of pupils, 21; average daily attendance, 19. Ten different studies were taught; the number of pupils in each were: Reading, 21; spelling, 21; penmanship 21; arithmetic, 16; geography, 5; grammar, 15; history, 4; composition, 8; physiology, 6; book-keeping, 1.

This school was in charge of an experienced and efficient teacher. The instruction was thorough and the discipline and progress good.

The fall term in No. 4 began October 3d, continuing seven weeks; taught by Miss Chapman, of Vermont. Number of scholars, 5. This was Miss Chapman's first effort, but was quite successful.

A comparison of the four terms in Nos. 1 and 2 shows the fewest instances of tardiness in the spring term in No. 2, and the largest number not absent in the fall term in No. 2.

### ROLL OF PERFECT ATTENDANCE.

For one or both terms—Charles H. Osgood, Ada B. Ruffie, Millie Ruffie, Leona Holmes, Bessie M. Hardy, George E. Hardy, Myra I. Hardy, Lida Davis, Althea Page, Katie Page, Bessie Barker, Grace Barker, Carrie Barker, Frank Taylor, Harry Robbins, Ethel Robbins, Harry Scott, Wallace Scott.

The Munsonville school was established in its new home at the beginning of the spring term, and your committee are glad to bear testimony that the house has proven well adapted to the uses for which it was designed. In strong contrast to it is the Center school room, the condition of which is anything but inviting. Your committee recommend that the much needed repairs be made at once.

It will be noticed that the Munsonville school has had five weeks more schooling than the Center. This was claimed as due to balance the losses of last year through the sickness of the teacher of the spring term and the dilapidated condition of the old school house.

An especial feature of the year's work was the celebration of Columbian Day, October 21st. In this the schools united, the exercises being held at Munsonville in the forenoon and at the Center in the afternoon. An interesting programme was presented by each school and beautiful banners, procured by the gifts of friends, were thrown to the breeze from each house, the members of the Veterans' Association assisting. The observance was pronounced highly successful.

Our schools the past year have been very fortunate in being free from some interruptions suffered in years past, but the usual drawbacks of irregular attendance and indifference on the part of parents have been encountered. It would seem that persons with any sense of the value of education would do all in their power to aid those who assume the important trust of training our youth.

The whole number of scholars attending the schools of the district the past year is 49. The number of children between five and fifteen, as reported by the selectmen, was males, 21; females, 22. None have attended school under five years of

age, and none, so far as known to the committee, between the ages of five and fifteen have failed to attend. No persons, so far as can be ascertained, between the ages of fourteen and twenty-one who cannot read and write reside in the district.

It is becoming increasingly difficult to secure teachers of ability and experience for our country schools. For this reason, as well as for the welfare of the community, the appropriation for schools should be generous. Any other course is suicidal.

All of which is respectfully submitted,

HENRY D. TAYLOR,

M. F. HARDY,

School Board of Nelson.
