Town Warrant

To the Inhabitants of the Town of Exeter, in the County of Rockingham, in said State, qualified to vote in Town Affairs: [L.S.]

You are hereby notified to meet at the Town Hall, in said Exeter, on Tuesday, the thirteenth day of March next, at eight o'clock in the forenoon, to choose all necessary Town Officers for the ensuing year, by official ballot, and to take other action required to be inserted on said official ballot; the polls to open at eight o'clock in the forenoon and to close not earlier than eight o'clock in the evening, and thereafter to reconvene at the Exeter High School gymnasium on Monday, March 19, 1979, at seven o'clock in the afternoon for the purpose of acting upon all other matters to come before the meeting.

ARTICLE 1

To choose by ballot and plurality vote one (1) Selectman for the term of three (3) years.

ARTICLE 2

To choose by ballot and plurality vote one (1) Selectman for the ensuing year.

ARTICLE 3

To choose by ballot and plurality vote three (3) members of the Library Committee for the term of three (3) years.

ARTICLE 4

To choose by ballot and plurality vote one (1) Trustee of Trust Funds for the term of three (3) years.

ARTICLE 5

To choose by ballot and plurality vote one (1) Trustee of the Robinson Fund for the term of seven (7) years.

ARTICLE 6

To choose by ballot and plurality vote one (1) Trustee of the Swasey Parkway for the term of three (3) years.

ARTICLE 7

To choose all other necessary Town Officers, Auditors, or Committees for the ensuing year.

ARTICLE 8, Zoning Amendment #1

To see if the Town will vote to amend the Town of Exeter Zoning Ordinance, as proposed by the Planning Board as follows:

Amend Article 6.85, by deleting completely the regulations for "Planned Unit Development" and replacing it with:

6.85 Open Space Development

a. *Purpose.* The purpose of this Open Space Development is to encourage flexibility in design and development of land in order to promote the conservation of open space and the efficient use of land in harmony with its natural features.

Objectives:

- To stimulate imaginative and economical approaches to land use and community development.
- To facilitate the adequate and economical provision of streets, utilities and public spaces.
- To preserve the natural and scenic qualities of open areas.
- To establish living areas that provide a diversity of housing opportunities while ensuring adequate standards for public health, safety, welfare and convenience.

b. *Procedure.* An application under this section shall follow the procedures and standards of the Subdivision Regulations and applicable terms of the Zoning Ordinance.

c. *Regulations — Single Family Open Space Development*

1. Minimum area shall consist of no less than five (5) acres of contiguous land.
2. For the purposes of this section, a Single Family Open Space Development permits the planned grouping of single family homes and up to five (5) attached dwelling units.* A Single Family Open Space Development is permissible in the RU, R-1, R-2, R-3 and R-4 Districts.
3. Single family homes may be served by private disposal systems if in the opinion of the Planning Board, the location, design, density and soil capabilities are adequate to insure public welfare. Such development shall comply with the provisions of the Wetland Conservation District ordinance and Article 5.40 of the Subdivision Regulations. Attached dwelling units shall be served by municipal water and sewer service.

4. *External Boundaries*

Front: No building, lot line or parking area shall be within 100 ft. of an existing public way.

Side and Rear: No building, lot line or parking area shall be within 50 ft. of an abutting property line.

Internal Setback Requirements

Front: No structure shall be closer than 20 ft. from the right of way of a proposed street or parking area.

Side and Rear: No structure shall be closer than 30 ft. from an abutting structure.

d. *Regulations — Multifamily Open Space Development*

1. Shall be subject to the granting of a Special Exception, per Article 6.60 of this Zoning Ordinance and found to comply with the purposes of this section.
2. Minimum area shall consist of no less than 25 contiguous acres of land.
3. Multifamily Open Space Development permits the single family open space uses stated under 'c-2' above, as well as the planned grouping of multifamily dwelling units consisting of a minimum six (6) units to a maximum twelve (12) units per structure. A Multifamily Open Space Development may be permitted in the R-1, R-2, R-3 and R-4 Districts.
4. Multifamily Open Space Development shall be served by municipal water and sewer service.

5. *External Boundaries*

Front: No building, lot line or parking area shall be within 100 ft. of an existing public way.

Side and Rear: No building, lot line or parking area shall be within 200 ft. of an abutting property line.

Internal Setback Requirements

Front: No structure shall be closer than 30 ft. from the right of way of a proposed street or parking area.

Side and Rear: No structure shall be closer than 40 ft. from an abutting structure.

e. *General Regulations Governing Open Space Development*

1. *Density.* The maximum number of dwelling units, either single family, detached or attached

housing, permitted in any Open Space Development shall be determined by dividing the Net Tract Area (less land area devoted to non-residential uses under e-2 below) by the minimum lot size for the zoning district in which the development is located. The Net Tract Area of a parcel shall be defined as 90% of the total area of the parcel less all non-buildable land, including all very poorly drained soils and 75% of any poorly drained soils as identified and regulated in the Wetland Conservation District Ordinance.

The resulting allowable number of dwelling units may be located, grouped or dispersed over the area identified as the Net Tract Area in any fashion, within the requirements of Internal and External boundaries, pursuant to the intent and regulations of this ordinance.

2. *Non-Residential Uses*

a. Non-residential uses may be permitted in projects of fifty (50) acres or greater provided the Board of Adjustment grants a Special Exception finding that such non-residential use complies with Article 6.60 of this Zoning Ordinance as well as the following:

- (i) The total space allocated to commercial establishments shall not exceed five (5) percent of the net tract area of the Open Space Development.
- (ii) No building intended to be used in part or in whole for commercial purposes shall be constructed prior to the completion of sixty (60) percent of the dwelling units proposed.
- (iii) Convenience commercial uses designed to serve the development and nearby neighborhoods shall be limited to the following shops and stores: Bakery (outlet only), bank, barber/beauty shop, food and convenience store, ice cream/sandwich shop, flower shop, laundromat, dry cleaning (pick-up only), professional office or similar uses by Special Exception. None of the above non-residential uses shall contain more than two thousand (2,000) square feet of floor area.
- (iv) Non-residential uses shall have access from an interior road with adequate screening and landscaping.

Setback Requirements

Front: No structure or parking area shall be closer than 30 ft. from the internal roadway.

Side and Rear: No structure or parking area shall be closer than 100 ft. from residential structures.

External Boundaries: The setback requirements of Section d-5 shall apply to the separation of non-residential uses from external uses.

- (v) Once a certificate of completion has been issued for the commercial area, any change in use shall require approval as a Special Exception by the Zoning Board of Adjustment and a Site Plan Review by the Planning Board; any physical expansion of the facilities shall require approval by Special Exception from the Zoning Board of Adjustment and Site Plan Review by the Planning Board.
 - (vi) All non-residential uses shall be architecturally compatible with adjacent residential structures within the development.
 - (vii) Non-residential uses shall have only one indirectly lighted sign, not to exceed four (4) sq. ft. in area. No sign shall be illuminated after 9 p.m.
 - (viii) Non-residential uses shall not constitute or contribute to strip development.
3. *Open Space and Common Areas.* A minimum of thirty (30) percent of the land identified as "Net Tract Area" shall be set aside as common open space intended for the use and enjoyment of the residents of the development. This common open space shall be permanently restricted for recreation, open space and conservation uses and protected by a homeowners or condominium association. Except that upon mutual agreement of the town, the developer and/or the homeowners or condominium association, a portion of the common open space may be permanently protected by a public body which shall maintain the land for the benefit of the general public.

Any non-buildable or undeveloped land not identified as part of the common open space

may be protected in any of the following manners or combinations prescribed by the Planning Board:

- (i) A private nonprofit corporation, association or other legal entity established by the applicant for the benefit and enjoyment of the residents such as a homeowners or condominium association.
- (ii) A public body which shall maintain the land as open space for the benefit of the general public — for example, the town.
- (iii) A private non-profit organization which has as a purpose the preservation of open space through ownership and control, provided, however, that the residents of the development shall have access to the common open space for appropriate recreational uses — for example, the Society for the Protection of N.H. Forests.

The Town and the property owners within the development shall be assured of enforceable rights with respect to such preservation.†

Such common open space shall not be resubdivided further but may contain accessory structures and improvements appropriate for educational, recreational or social uses.

In the event an Open Space Development proposes, wholly or partially, the development of prime agricultural land, the Planning Board may waive the requirements of this section to provide for the protection of these lands, whereby the common open space area for the use of the residents of the development may be reduced in favor of setting aside and permanently restricting the development of these prime agricultural areas. This land may be sold, leased or protected in a fashion described in para. 3, i-iii, above, and permanently restricted for agricultural uses, subject to the approval of the Planning Board.

The developers shall submit, prior to final approval, such legal instruments as the Planning Board may require to prescribe the manner of ownership, maintenance and obligations of the developer and future residents, including the articles of incorporation and charter in a form and manner approved by the Board necessary to insure the intent and purpose of this section.

In the event the party entrusted with ownership of the open space within the development shall fail to maintain such open space in a reasonable order and condition, the Town may, through court action, be authorized to assess the costs incurred by the municipality to maintain this open space, against the owners as a lien on their properties.

Should the organization managing said open space dissolve, all assets shall be turned over to the public or a nonprofit organization dedicated to the preservation of open space. Any such transfer shall be approved by the Planning Board.

4. *Other Requirements*

Whether or not actual subdivision of the tract is contemplated all pertinent portions of the subdivision regulations shall be complied with, including but not limited to, street design and construction standards, the filing of a bond for improvements, and the Preliminary and Final Plats.

5. *Exhibits*

Exhibits shall include all those required by the subdivision regulations and zoning ordinance as applicable. In addition, the Preliminary and Final Plats shall be prepared, presented and bear the seal of a registered architect and a registered engineer, and include the following information:

- a. Location, size, elevations, number and type of dwelling units.
- b. Number, type and size of structures designed for other permitted uses and all elevations thereof.
- c. Location and number of parking spaces.
- d. Location of common open spaces.
- e. Landscaping and buffer strips.

The appropriate agreements shall be presented if ownership is to be of the cooperative, condominium or other similar legal form, or if there is to be common open space of one acre or more.

6. *Utilities*

All electrical, telephone and other utilities shall be located underground.

7. *Soil and Erosion Control Measures*

In an approved development or development pending Planning Board approval, preparatory sitework shall not adversely affect surrounding

properties, wetlands or water bodies. The Planning Board shall require adequate measures as prescribed in Article 7.50 and 7.51 of Land Subdivision Regulations to prevent soil erosion by submittal of a detailed timing schedule.

ARTICLE 9, *Zoning Amendment #2*

To see if the Town will vote to amend the Town of Exeter Zoning Ordinance, as proposed by the Planning Board and the Historic District Commission as follows:

By adding a new subsection 6.83 c to Article 6 of the Ordinance following subsection 6.83 b, as follows:

c. Exeter Historic Districts

Sign Ordinance — Commercial District

The goals and standards of the Exeter HDC in reviewing and approving applications, as well as considering requests for exceptions in special cases under Section XII shall be:

1. To insure that the visual impact of all signs shall be consistent with the historical and architectural qualities of the Historic District as a whole.
2. To preserve to the extent practicable the period architectural details of the facades of the buildings in the HD.
3. To promote the general visual attractiveness of the HD.
4. All other goals and standards consistent with RSA Section 31:89-f.

I. Sign Application Procedures:

- 1.1 All signs erected within the HD shall require an approved application from the HDC. Applications must be presented by the building owner or his agent. Applicants are urged to consult the HDC guidelines booklet for definitions of terms and helpful suggestions.

II. Size:

- 2.1 Total signage shall be limited proportionate to length of street frontage (per Table A).
- 2.2 Signs required by Federal and/or State law and Historical Markers will not be considered as part of the total signage.

III. Number of Signs/Business:

- 3.1 Each business shall be permitted

one primary and one secondary sign per street facade.

- 3.2 In case of multiple occupancies the owner of the building is responsible for an overall signage plan. Directory signs shall be designed and constructed with provision to allow for changes of occupancy without reconstruction of the entire sign.

Placement of a Directory sign may be:

- 3.2.1 Within a hallway.
3.2.2 In case of recessed doorways Directories may be located on a wall of the recess.
3.2.3 A projecting sign may be hung over the entrance, but is not to exceed sixteen (16) square feet per face.

- IV. Trademarks and Product Names shall be discouraged in favor of names of proprietors, business owners or business names. If trademarks and product names are desired the HDC shall review them carefully to insure that said signs in design, size, colors, materials and visual impact are consistent with the goals and standards of the HD.

V. Location:

- 5.1 A parallel sign can project no more than six inches (6") from the building surface.
5.2 No projecting sign may overhang beyond a line five feet (5') from the building face. The height of such a sign shall be according to the individual building, but no less than eight feet (8') for safety.
5.3 Freestanding signs on permanent posts are not allowed in the Commercial HD.
5.4 An awning or canopy may not extend over $\frac{2}{3}$ of the sidewalk or six feet (6') from the building face, whichever is the lesser. It shall not extend beyond the street light or trees. It is subject to review by the HDC. Color and style must be appropriate to the building and lettering will be considered part of the total signage.

- 5.5 Roof signs are prohibited.

- 5.6 Animated and moving signs are prohibited.

- 5.7 Permanent window signs may not take up more than 10% of the window area.

- 5.8 Doors leading to multiple occupancies shall have the building name and street number only.

- 5.9 Each below-street level establishment may have an appropriate sign at its primary entrance.

- 5.10 Commercial establishments located at above street levels will be permitted window signs only.

VI. Existing Signs:

- 6.1 Every sign or advertising structure, lawfully in existence at the time of adoption of this ordinance, may continue in existence and be maintained but shall not be replaced, altered or moved unless it be made to comply with the provisions of this ordinance.

VII. Temporary Signs:

- 7.1 Window Signs: These are allowable only as they advertise Sales or events for a period of not more than thirty (30) days. They may cover no more than 25% of the area of the window in which they appear.

VIII. Materials:

- 8.1 Materials appropriate to the Historic District, such as wood, brass, glass, or wrought iron, will be permitted.

IX. Illumination:

- 9.1 Signs shall be illuminated only by steady, stationary, shielded light sources directed solely on the sign without causing glare for motorists, pedestrians, or neighboring premises.

X. Lettering:

- 10.1 Lettering should be appropriate to the definitions in the guidelines.

XI. Maintenance:

- 11.1 The HDC has the right to request

ARTICLE 13

To see if the Town will vote to authorize the Treasurer, with approval of the Selectmen, and pursuant to New Hampshire Revised Statutes Annotated, Section 33:7 and Section 33:7-a to incur debt for temporary loans in anticipation of 1979 taxes, and in anticipation of any bond issue which may be voted by the Town, and to issue therefor notes of the Town payable within one (1) year after their date, and to pay or renew the same by issue of new notes payable within one (1) year after the date of the original obligation.

ARTICLE 14

To see what sums of money the Town will raise and appropriate for the maintenance of the poor, for repairing and building bridges, for repairing and building sidewalks, for building drains and sewers, for oiling streets, for payment of the Town debts, for lighting streets, for defraying expenses of decorating the graves of soldiers, for payment of firemen for the ensuing year, and for other charges arising within the Town.

ARTICLE 15

To see if the Town will vote to raise and appropriate the sum of Thirty-Seven Thousand (\$37,000.00) Dollars for the purchase of an ambulance and to authorize the Selectmen to apply towards this purchase the sum of Twenty-Two Thousand (\$22,000.00) Dollars now held in the fire department ambulance fund, and to authorize the Selectmen to make application for, to receive and expend in further reduction of this expenditure such sums as may be available from State and/or Federal aid for such purpose.

ARTICLE 16

To see if the Town will vote to raise and appropriate the sum of Nine Thousand Five Hundred (\$9,500.00) Dollars to install additional fire alarm boxes at new locations as designated and approved by the fire chief.

ARTICLE 17

To see if the Town will vote to establish a Fire Department Capital Reserve Fund for the purpose of purchasing a new, fully equipped fire truck and to raise and appropriate the sum of Twenty Thousand (\$20,000.00) Dollars to be paid into the same.

ARTICLE 18

On petition of Harry G. Ford and others, to see if

the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Two Thousand Seven Hundred (\$2,700.00) Dollars in order to defray a portion of the cost of services rendered to the residents of Exeter by the Area Homemaker-Home Health Aide Service, Inc."

ARTICLE 19

On petition of Donna Schlachman and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Five Hundred Fifty-One (\$551.00) Dollars for the Child and Youth Project, which serves 121 children in the community."

ARTICLE 20

On petition of Nancy S. Thornton and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Seventeen Thousand Four Hundred (\$17,400.00) Dollars for the Town's participation in the expenses of the Exeter Area Youth Group Home."

ARTICLE 21

On petition of Ethel Doe and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Three Thousand Five Hundred Sixty (\$3,560.00) Dollars to assist Rockingham Child and Family Services, a private non-profit Social Service Agency."

ARTICLE 22

On petition of John B. Heath and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Six Thousand Two Hundred Fifty-Eight (\$6,258.00) Dollars as its contribution to the Southeastern New Hampshire Regional Planning Commission."

ARTICLE 23

On petition of Arthur Tufts and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Eight Thousand (\$8,000.00) Dollars for the Seacoast Regional Counseling Center, Inc."

ARTICLE 24

On petition of Nancy C. Merrill and others, to see

if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Five Hundred (\$500.00) Dollars to be used for the support of the New Hampshire Seacoast Region Association."

ARTICLE 25

On petition of Constance Cochrane and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to raise and appropriate the sum of Four Hundred (\$400.00) Dollars to cover the cost of services rendered to Exeter residents during the year 1978 by the local Head Start Center."

ARTICLE 26

On petition of Bob Belanger and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to authorize the Selectmen to cause Stoneywater Rd. to be plowed, salted, and sanded, so that access for emergency vehicles will be available, and to provide access to fire hydrants and water mains for the protection of the residents of said road."

ARTICLE 27

On petition of Kenneth E. Haley and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to authorize the Selectmen to cause Connie Rd. to be plowed, salted, and sanded, to provide access for emergency vehicles, and to provide access for Town maintenance of water mains, for the health and safety of the residents of said road."

ARTICLE 28

On petition of George Palmer and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to accept as a public way the road known as Pinebrook Estates Rd."

ARTICLE 29

To see if the Town will vote to raise and appropriate the sum of Thirteen Thousand Nine Hundred Sixty (\$13,960.00) Dollars as partial reimbursement to the Exeter Area Visiting Nurse Association, Inc., for providing continued home health care services to residents of the Town of Exeter.

ARTICLE 30

To see if the Town will vote to raise and appropriate the sum of Ten Thousand Five Hundred

Eighty-Two (\$10,582.00) Dollars for the purpose of mosquito control for the ensuing year.

ARTICLE 31

To see if the Town will vote to fix the annual salary of the Town Treasurer at Four Thousand Five Hundred (\$4,500.00) Dollars, and to raise and appropriate an additional sum of One Thousand (\$1,000.00) Dollars above the sum budgeted therefor.

ARTICLE 32

To see if the Town will vote to set the annual rate of compensation of the Town Clerk at Fifteen Thousand Five Hundred Fifteen (\$15,515.00) Dollars, and to raise and appropriate the sum of One Thousand Fifteen (\$1,015.00) Dollars above the sum budgeted therefor.

ARTICLE 33

To see if the Town will vote to fix the annual salary of the Tax Collector at Eleven Thousand Eight Hundred Seventy-Seven (\$11,877.00) Dollars, and to raise and appropriate an additional sum of Seven Hundred Seventy-Seven (\$777.00) Dollars above the sum budgeted therefor.

ARTICLE 34

To see if the Town will vote to fix the annual salary of that member of the Board of Trustees of Trust Funds designated as bookkeeper thereof, at Two Hundred Fifty (\$250.00) Dollars, and to raise and appropriate an additional One Hundred (\$100.00) Dollars above the sum budgeted therefor.

ARTICLE 35

To see if the Town will vote to raise and appropriate the sum of Twenty-Four Thousand (\$24,000.00) Dollars for the purchase of a sidewalk plow.

ARTICLE 36

On petition of Bill Pinder and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to authorize and direct the Selectmen to grant a cable television franchise to CableVision Service Co., Inc., of 42 Epping Rd., Exeter, upon such lawful conditions as they may require, to erect, install and maintain in, under, or over streets, highways, and other public ways of the Town, wires, cable, and other equipment related to the delivery or enhancement of television signals and other electrical impulses all in accordance with

and as allowed by New Hampshire Revised Statutes Annotated, Chapter 53-C."

ARTICLE 37

On petition of Leo A. Duhamel and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to have an Administrative Assistant to the Selectmen and to allow the Selectmen to appoint and fix the salary of said Administrative Assistant."

ARTICLE 38

To see if the Town will vote to raise and appropriate the sum of Twenty Thousand (\$20,000.00) Dollars for the purpose of developing as a parking lot and mini-park the 31,817 square feet of land presently owned by the Town of Exeter at the corner of Bow and Court Sts.

ARTICLE 39

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend up to the sum of Twenty Thousand (\$20,000.00) Dollars from such funds as may be available for planning grants through the Coastal Zone Management Act of 1972, as amended.

ARTICLE 40

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend up to the sum of Four Hundred Thousand (\$400,000.00) Dollars from such Federal funds as may be available through the Housing and Community Development Act of 1974, as amended.

ARTICLE 41

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend up to the sum of Forty Thousand (\$40,000.00) Dollars from such state or Federal funds as may be available from the Heritage, Conservation and Recreation Service or other sources, for the purpose of planning, developing and constructing a pedestrian walkway from the proposed Elderly Housing site on Water St. to the Swasey Parkway, as well as for the purpose of acquiring, planning, and developing public facilities along the waterfront, to implement the Downtown Master Plan as may be recommended through the Waterfront Design Study.

ARTICLE 42

To see if the Town will vote to authorize the

Selectmen to make application for, receive and spend up to the sum of Fifty Thousand (\$50,000.00) Dollars from such state or Federal funds as may be available under the Coastal Zone Management Program for the purpose of acquiring, planning, developing and constructing along the waterfront, improvements under the Waterfront Design Study, and to authorize the Selectmen to accept contributions designated therefor and to expend the contributions received.

ARTICLE 43

To see if the Town will vote to authorize the Board of Selectmen to make application for and to receive and spend up to One Hundred Twenty-Five Thousand (\$125,000.00) Dollars of funds that may become available to the Town under "The Comprehensive Employment and Training Act of 1973" (CETA), as amended for the purpose of providing federally subsidized training and employment opportunities to benefit both residents of the community and the community-at-large.

ARTICLE 44

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend up to the sum of Forty Thousand (\$40,000.00) Dollars from such funds that may be received under the Highway Safety Act.

ARTICLE 45

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend up to the sum of Twenty-Five Thousand (\$25,000.00) Dollars from such funds as may be received under the Governor's Commission on Crime and Delinquency.

ARTICLE 46

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend such Federal or State funds or other assistance as may be available for the study of, design of, and construction of a sewage disposal system, and pass any vote relating thereto.

ARTICLE 47

To see if the Town will vote to authorize the Selectmen to spend a sum up to Fifteen Thousand (\$15,000.00) Dollars anticipated to be received under the Federal Public Works Employment Act of 1976, Anti-Recession Fiscal Assistance (ARFA)

Funds to be used for the payment of snow removal expenses for the fiscal year 1979 and such other highway expenses, including repairs to highways, as may be consistent with the purposes and uses of ARFA funds.

ARTICLE 48

To see if the Town will vote to authorize the Selectmen to make application for, receive and spend up to the sum of Twenty Thousand (\$20,000.00) Dollars from such Federal funds as may be available through the National Parks Service Historic Preservation Grant Aid program for preservation of the Town Hall.

ARTICLE 49

To see if the Town will vote to receive, accept, and appropriate the sum of One Hundred Ninety-Six Thousand Five Hundred Ninety-Five (\$196,595.00) Dollars from the monies to be received in 1979 from Federal Revenue Sharing Trust Funds plus interest accrued from Revenue Sharing Trust Funds received in prior years, to be applied toward payment of principal and interest which becomes due in 1979 with respect to the outstanding bonds of the Public Safety Complex.

ARTICLE 50

To see if the Town will vote to authorize the Selectmen to accept the sum of Twenty-Five Thousand (\$25,000.00) Dollars from the Exeter Housing Authority for the deed to the Authority by the Town of the proposed elderly housing site and to expend said sum toward relocation or demolition of existing facilities at the site, and/or construction of new town facilities including gasoline storage tanks at an alternate site to be determined by the Selectmen.

ARTICLE 51

To see if the Town will vote to authorize the Selectmen to accept up to the sum of Thirty Thousand (\$30,000.00) Dollars if available from the HUD Community Development Funds and to expend such sums toward relocation or demolition of existing facilities at the elderly housing site, and/or construction of new town facilities including gasoline storage tanks at alternate site to be determined by the Selectmen.

ARTICLE 52

On petition of Herbert C. Goodwin and others, to

see if the Town will vote to adopt the following Article: "No junk yard or place for the storage of discarded machinery, vehicles, scrap materials, old bottles, barrels, cotton or woolen mills waste, unfinished cloth or woolen mills yarns, old paper products, old rubber products, two or more unregistered motor vehicles or second-hand articles, the accumulation of which is detrimental or injurious to the neighborhood shall be maintained in any District, except those which are being operated legally and are licensed as required by law."

ARTICLE 53

To see if the Town will vote to appropriate and expend a sum up to Twenty-Five Thousand Sixty-Four and Ninety-Four Hundredths (\$25,064.94) Dollars for highway capital improvements in the event of receipt of such funds from the State Department of Public Works and Highways under the State Additional Highway Subsidy program.

ARTICLE 54

To see if the Town will vote to establish a Capital Reserve Fund for the improvement and reconstruction of town streets and roads in the amount of One Hundred Seventy Thousand (\$170,000.00) Dollars, said funds having been raised by the Town in prior years and held by the State for this purpose.

ARTICLE 55

To see if the Town will vote to provide Workers Compensation coverage for eligible employees of the Town by participating in the New Hampshire Municipal Association Self-Funded Workers Compensation Program and to authorize the Selectmen to take such action in furtherance of this vote as may be necessary.

ARTICLE 56

On petition of Frank J. Kozacka and others, to see if the Town will vote to adopt the following Article: "To see if the Town will vote to authorize the Conservation Commission to apply for, secure, and accept such state funds or federal funds as may be available from the State of New Hampshire Bureau of Outdoor Recreation or any other sources, and to spend therefrom up to the sum of Ten Thousand (\$10,000.00) Dollars for the purpose of acquiring land, easements, or water rights, in order to preserve open space and natural resources in the Town."

ARTICLE 57

To transact any other business that may legally come before said meeting.

* — For the purposes of this ordinance, "Attached Dwelling Units" are defined as units separated by party walls in which no portion of a dwelling unit extends over a portion of another.

† — Preservation defined in the general sense which includes the word 'conservation.'

Given under our hands and seals this twenty-sixth day of February, in the year of our Lord nineteen hundred and seventy-nine.

Ethel Doe,
Sherman E. Chester,
Richard F. Niebling,
Robert H. Rowe,
Thomas M. Prentiss,
Board of Selectmen of Exeter.

Selectmen

For the Selectmen and for Exeter town government in general, 1978 was a year of many problems, many of which aroused controversy and increased expense, and few of which were, by year end, wholly solved.

Following upon action voted at the 1978 Town Meeting, contracts were signed for the erection of a Public Safety Complex on Court St. At the time of this writing (Jan. 15), the Complex is near completion. Its opening will mark the end of a planning process that took years to hammer out the idea of housing traditionally separate safety services in one building. Efficient and commodious, the Complex will accommodate our police and firefighters for the foreseeable future; handsomely designed, it will enhance its neighborhood. Still to be met is the problem of central dispatching and dual operation, a problem new to Exeter but one that good will and hard work should solve.

At the same time that the Town moved to create better working conditions for our public safety employees, it was confronted with their demand for recognition as units for collective bargaining. In the fall and early winter, first representatives of the firefighters, then of the police met with a management team headed by Selectman Prentiss with Selectman Niebling and the Town Manager. The sessions, protracted and laborious, were conducted without acrimony; we believe that the three-year contracts that resulted were fair to both sides.

Another feature of 1978 was the necessary revaluation of all Exeter land and buildings. The revaluation, conducted with thoroughness by our hardworking Assessor, Edward

Elcik, shocked taxpayers with its documentation of the sharp rise in real estate prices since the immediately previous revaluations of 1974 and 1975. The Selectmen have spent many hours wrestling with requests for abatement. They have handled these requests as carefully and expeditiously as possible, keeping in mind the need to alleviate obvious hardship, particularly on the elderly, and retired, and at the same time to preserve the fairness and integrity of the property-tax system. One immediate political effect was a petition for, and calling of, a Special Town Meeting late in the year, which voted to put a kind of flexible ceiling on the cost of town government. With this vote the Budget Committee and the Selectmen will strive to comply.

Finally, 1978 will be remembered as the Year the Dump Failed. The problem of the polluting of wells on properties adjacent to the Cross Rd. landfill was met, we believe with commendable promptitude, by bringing town water to these properties. Everyone involved in the subsequent moves to repair the breach in our waste disposal operation got some hard lessons in leachate chemistry and in the larger implications of the environmental movement. Though the revamped landfill is "good" for perhaps the whole of 1979, the problem of solid waste disposal stubbornly persists. It seems clear that the days of cheap disposal are over (Exeter had one of the most economical operations in New Hampshire); that landfills, except on a temporary, carefully planned and monitored basis, are no longer feasible; and that some form of refuse-to-energy system is the next step. When that step will be taken

was, at this writing, unknown.

The Selectmen note, with sadness, that three prominent long-time town administrators retired in 1978 — Police Chief Richard Irvine, Fire Chief Vincent Toland and Town Clerk Evelyn Zarnowski. They are grateful to them for their conscientiousness and devotion on behalf of all of us. They are also grateful to all others who contributed to making town government work in 1978 — to town employees, to members of boards and commissions who worked long hours unpaid, to all interested and cooperative citizens.

Respectfully submitted,

Ethel Doe, *Chairman*,
Sherman E. Chester,
Richard F. Niebling,
Clerk,
Thomas Prentiss,
Robert H. Rowe,
Board of Selectmen.

Town Manager

The Town ended the year with a \$17,000 surplus. The Pollution Abatement Program originally scheduled to start in 1978, has been delayed to late 1980. The State of New Hampshire Water Supply and Pollution Control Commission allotted the available funds to other communities where pollution is more serious than in Exeter.

State Aid Highway Projects for Portsmouth Ave. and a portion of Front St. were rejected due to the high cost to the Town. The Town's share for Front St. would have been an estimated \$250,000.00 and Portsmouth Ave. \$750,000.00 or more. The Town will have to carry out less elaborate projects on its own.

Import Leather, Inc., constructed a 53,000 square foot building in the Industrial Park.

The pollution of wells near the Town Dump required the extension of two miles of water main to the Cross Rd. area. This was constructed by Town Water and Highway Department personnel. This was a very successful effort and probably saved thirty to forty thousand dollars. However, the Water Department was unable to install the crossovers to the newer water main on Portsmouth Ave. This will be scheduled for 1979.

It is expected that the Fire and Police Departments will move into the new complex in March.

I would like to thank Police Chief Richard Irvine and Fire Chief Vincent Toland for their many years of service to the Town, and extend a welcome to Police Chief Thomas Powers and Fire Chief Arthur Emerson.

I also extend my thanks to the Selectmen, Department Heads, Town Employees, Boards and Commissions, and Citizens of Exeter for the kindness extended to me during the year.

Respectfully submitted,

Donald E. Chick,
Town Manager.

Report of Examination and Audit

JOSEPH J. GIORDANI

CERTIFIED PUBLIC ACCOUNTANT

EXETER, NEW HAMPSHIRE 03833

Board of Selectmen
Town of Exeter
Exeter, New Hampshire 03833

I have examined the financial statements of the various funds and groups of accounts of The Town of Exeter for the year ended December 31, 1978 listed in the foregoing table of contents. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

The Town of Exeter has not maintained a record of its general fixed assets, and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In addition, the Town has not capitalized the cost of property and equipment purchased by the water and sewer department. No depreciation is recorded on those assets not properly capitalized. Generally accepted accounting principles require that property and equipment of enterprise funds be capitalized and depreciated over the useful lives of the assets.

Since I was unable to determine the cost value of property and equipment and depreciation charges for all capital assets in both the water and sewer department, as noted in the above paragraph. The scope of my work was not sufficient to enable myself to express an opinion on the water and sewer department financial statements.

In my opinion, the financial statements listed in the aforementioned table of contents, other than the financial statements of the water and sewer department, present fairly the financial position of the various funds and groups of accounts of the Town of Exeter at December 31, 1978, and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Respectfully submitted,

Joseph J. Giordani
Certified Public Accountant

Dated February 8, 1979

Board of Selectmen
Town of Exeter
Exeter, New Hampshire 03833

I have examined the financial statements of the various funds and account groups of the Town of Exeter for the year ended December 31, 1978 and have issued my report thereon dated February 8, 1979. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In connection with my examination, I also performed tests of compliance with the Revenue Sharing and Antirecession Fiscal Assistance Acts and Regulations as required by Sections II.C.3. and III.C.3. of The Audit Guide and standards for Revenue Sharing and Antirecession Fiscal Assistance Fund Guide issued by The Office of Revenue Sharing, U.S. Department of The Treasury and compared the data on Bureau of Census Form RS-9 with the audited records of The Town of Exeter as required by Sections II.C.4. of The "Guide".

Based on these procedures, I noted no instance of non compliance with the regulations and no differences between the data on Bureau of Census Form RS-9 and the records of The Town of Exeter for the year ended December 31, 1978.

TOWN OF EXETER

Notes to Financial Statements

Note #1 Summary of Significant Accounting Policies

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

Fund Accounting:

The diverse nature of governmental operations and the necessity of determining compliance with legal provisions requires modification of accounting systems commonly used by commercial enterprises. Rather than establishing a single unified set of accounts to record and summarize all financial transactions, the accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate entity with self-balancing accounts that comprise its assets, liabilities, reserves, fund balance, revenues and expenditures, including interfund obligations and transfers.

Operations supplying the basic services of a general government nature which are controlled by legal budgets are accounted for in the general fund and special revenue fund.

In addition to the general category of operations listed above, a further distinction from accounting in commercial enterprises exists with respect to capital expenditures. Capital expenditures are required to be capitalized at historical cost in a general fixed asset group of accounts primarily for control purposes. The Town has not maintained a record of its general fixed assets, and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

Fiduciary activities of the Town are accounted for in trust funds.

General obligation bonds supported by general revenues are obligations of the Town as a whole and not its individual constituent funds. Accordingly, such unmatured obligations which are backed by the full faith and credit of the Town are accounted for in the general long-term debt group of accounts.

Budgetary Accounting and Encumbrances:

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations.

Basis of Accounting:

The accounts of the general fund, special revenue funds and debt service fund are maintained and reported on a modified accrual basis. All other funds included in the financial statements are maintained and reported on the accrual basis.

TOWN OF EXETER

Notes to Financial Statements

Basis of Accounting: cont'd

Under the modified accrual basis of accounting, revenues are recorded when received in cash, except in cases where they are both measurable and available, and therefore are resources which may be appropriated. Expenditures, except for interest on general long-term debt which is recorded when it becomes due, are recorded when certain goods or services are received and actual liabilities are incurred.

Enterprise Fund:

Water and Sewer Departments:

The water and sewer department follows the practice of charging the purchase of the majority of property and equipment against operating expenses in the year purchased which is not in accordance with generally accepted accounting principles. In addition, no depreciation expense has been recorded on these assets.

Note #2 Reclassification of Robinson Seminary Bond:

In the prior years, the Robinson Seminary bond has been carried as a liability in the general fund. The liability has been reclassified to long-term debt group at December 31, 1978.

Note #3 Fund Balance - General Fund:

In analyzing the change in fund balance from 1977 to 1978, it discloses in note #2 that the Robinson Seminary bond was reclassified and shows an increase of \$21,000. Expenditures exceeded revenues by \$15,504.03 and the reserve for encumbrances charged against fund balance amounted to \$42,038.59. The fund balance at 1978 shows a balance of \$95,348.53. I recommend that the fund balance be accumulated and used for unpaid bills and contingency reserves.

Public Works

HIGHWAY

I respectfully submit the annual report for the Town of Exeter's Highway Department.

During the year 1978 there was a total of 14 storms with a total accumulation of approximately 78½ inches of snow and seven freezing rain storms.

Summer maintenance consisted of spring clean up, coldpatching pot holes, and trimming and grooming of roadsides.

Auburn St., Jady Hill, Brentwood Rd., Webster Ave., Linden St., from the first bridge to Gary Ln. and a section of High St., from the intersection of Portsmouth Ave. to Rocky Hill was done under our overlay program. Also, with the help of Bell & Flynn, Inc., we were able to put the bicycle path into the Recreation Park on the Hampton Rd. Again this year, we took the stone chip appropriation and finished the sand sealing of the country roads. Due to the problems we have at the landfill, our men and equipment spent a lot of time with the Water Department installing a water line to the Stoney Water and Cross Rd. area. This meant we weren't able to do anything with our town road aid and sidewalk programs.

Respectfully submitted,

Robert D. Strout,
Supt. of Highways.

Water and Sewer

I respectfully submit the annual report for the Town of Exeter's Water and Sewer Departments.

In 1978 all five waste water pumping stations were maintained and operated 24 hours daily. Flows were recorded and analyses of raw and treated waste were performed at our combined laboratory.

Catch Basins were cleaned in the usual manner and maintenance to the collection system consisted of root removal, smoke testing, and televising certain areas of town.

The Water Department had a good year with a water quality better than experienced in previous years.

The project for the year developed when wells in the Cross Rd. area became polluted and the suspected cause was Exeter's sanitary landfill.

Town meeting vote in June authorized \$200,000 to extend our water system to the affected area. While hauling water daily and maintaining a temporary system on Connie Rd., Highway and Water Department personnel began constructing a permanent system in July.

By mid September over 11,000 feet of water pipe had been laid, disinfected, and ready to serve residents of the affected area.

This project showed that departments can work together, get things done, and at a savings to you, the residents of Exeter.

Respectfully submitted,

Nelson D. Belanger,
Superintendent.

Police

I am pleased to report to you the various activities of the Exeter Police Department for the year 1978.

We have experienced many changes during this year including a new administration, construction of a new facility and implementation of many new community and investigative programs to aid us in our efforts to better serve you. At the time of this writing, we are diligently preparing to move to our new facilities that will greatly enhance our programs and allow us to be more visible in the community. Recently a new pound facility for the Animal Control unit was completed and is in full service to house lost and found animals and dogs taken into custody by the officers. These facilities

replace the outdated quarters formerly at the highway compound on Newfields Rd.

During the month of September a major reorganization of the Police Department structured the Department in two divisions and incorporated the Animal Control program into the Patrol Division of the Department. A major part of this reorganization was the creation of a police reporting system that parallels the National Crime Reporting System and automates much of the police information handled by the Department. A new complex will have a central dispatch facility that will be integrated into this information system.

Several officers have retired and are enjoying a much earned retirement provided by the benefit system of the New Hampshire Retirement Board. Best wishes and good health to Warren Cottrell, Leonard Novak, and Merrill Rinfret, all of whom have served the community during the past 20 years.

We hope everyone in the community will take a moment to visit our new facility and become familiar with the mission of the Exeter Police Department. We welcome the opportunity to visit with everyone in Exeter. The following pages contain the statistical breakdown of our police activity for 1978.

Fire

The year 1978 has certainly been one of the most interesting times in Fire Department activities since 1960. It was to be the year to end 40 years of service for our retiring Chief Toland who headed up the Fire Department for the past 18 years.

We have witnessed many changes in our Fire Department during this time, particularly 1978. I commend the entire Exeter Fire Department who faced several serious and potentially disastrous fires which were handled in a most professional manner.

It should also be mentioned that full cooperation has been received from the police, highway, and other departments including the citizens of Exeter.

One of my most rewarding experiences has been working with various committees of professionals and citizens who have brought the idea of a new Public Safety Complex from the drawing boards to reality during the past three years.

It stands today, as proud as the citizens who made it all possible.

Respectfully submitted,
William J. Toland,
Acting Fire Chief.

EXETER FIRE DEPARTMENT AMBULANCE SERVICE

In 1978, at the direction of the Selectmen, the operating policy of the Exeter Fire Department Ambulance Service was changed to provide emergency medical coverage only within the confines of the Town of Exeter. Formerly, the fire department ambulance provided primary medical coverage for area towns and non-emergency transportation of patients. This new policy does not, however, preclude the possibility of responding out of

town because of extreme emergency conditions.

On July 18, 1978, a disaster drill was conducted at the Exeter AREA High School. The "victims" of a simulated bomb blast comprised 21 high school students. Responding ambulances were Exeter Fire Department, EMT Ambulance Service, Rockingham Regional Ambulance Service and Hampton Fire Department Ambulance. In addition, an Exeter Fire Department engine company and an Exeter Police unit responded. The Exeter Hospital also participated in the disaster drill receiving patients transported by ambulance.

The need for and the value of the fire department ambulance becomes more apparent to us with each passing year. As an indication of the increasing number and severity of motor vehicle accidents the Hurst Tool (Jaws of Life) was used nine times during 1978 by the ambulance crew. The ambulance is, however, a nine-year-old vehicle. It does not have the compartment space for the kind of equipment used for severe extrication and rescue situations, the capability for multi-patient transport, or any of the features of a modern day ambulance.

Respectfully submitted,
John E. Carbonneau,
Emergency Medical Services,
Exeter Fire Department.

Visiting Nurse Association

The Exeter Area Visiting Nurse Association, Inc., is a community health service that provides health care to individuals and families in their home, in the office, or in clinics. The care may be to prevent disease, promote, maintain, or restore health or it may be to minimize the effects of illness or disability.

The Association is a non-profit agency governed by a Board of Directors. This Board is made up of people who are appointed by the selectmen in your town. The Association is often incorrectly thought to be a department of another health provider such as a hospital, but is in fact a separate and distinct organization.

Funding for the Association comes from Medicare, Medicaid, patient fees, local taxes, and donations. Town appropriations make the service available to the town, they do not buy units of service for individuals.

The services provided are as follows:

Home Health Care. Home visits are made on referral from physicians, patients, families, or other agencies. The nurse does treatments, dressings, irrigations, injections, and gives instructions for care. She teaches nutrition, special diets, and accident prevention as well as other aspects of health care. The Physical Therapist establishes and carries out a program to rehabilitate the patient. The Health Aide provides care under the supervision of the Registered Nurse and/or the Physical Therapist.

Maternal and Child Health Program. Visits are made to new or expectant mothers to provide information and instruction in the care of themselves and their babies. Well Child Clinics are held twice a month and provide the following services: Physical exams by a local pediatrician, immunizations, hearing and vision screening, lead and urine testing, special counseling, family planning and referral when appropriate. The clinics are for infants and preschool children.

Adult Screening Program. Clinics are held twice a month for blood pressure and weight checks, diet and medication counseling and referrals. Flu vaccine clinics are held yearly.

Mental Health Program. Visits to patients with mental and/or emotional problems. Coordination of care between patient, family, psychiatrist and community.

Communicable Disease Program. Visits to patients who have or have had or are contacts of persons with

Tuberculosis for testing and/or medication and general health supervision. Instruction and/or referral for other communicable diseases.

Hospital Referral Program. An Agency nurse is in a local hospital five mornings a week to assist in planning, coordinating, and arranging for care at home so that a patient may move from hospital to home without any interruption in care.

Eight thousand, seven hundred and forty-eight units of service were provided to residents of the service area between Jan. 1, 1978, and Oct. 31, 1978.

Information may be obtained by calling the Exeter Area Visiting Nurse office, Monday through Friday, 8 a.m. to 4 p.m., 772-2981, or write to 17 Prospect Ave., Exeter, N.H. 03833.

Edward Curran,
H. Gray Funkhouser,
Roger Massey,
Exeter's Representatives, Board of Directors.

Veterans Council

The Town veterans observances were held under the supervision of the Exeter Veterans Council.

The Memorial Day Parade was held on May 30 at 10 a.m. The parade was assembled in honor of Walter Gadd, a long time active veteran who was nominated "posthumous marshal." Captain Raymond Coughlan, USNR, retired, of Rye was the speaker. Flags were distributed to gravesites by the Boy Scouts and interested family groups.

The Veterans Day observance was held in the evening at the Gale Park

President.

Recreation and Parks

The Exeter Recreation and Parks Department has developed a comprehensive program for young and old alike who are invited to participate in a diversified year-round schedule of activities.

Major facilities available to residents are the Community Center, Gilman Park, Park Street Common, Front Street Park, Burt Park and a Hampton Road Park. The Hampton Road Park includes ten tennis courts, two minor league baseball fields, one softball field, a picnic area, two tot lots, a swimming pool and bathhouse. Gilman Park has a basketball court, baseball field, playground equipment, cook stoves, and boat launch.

Popular activities for students and adults include physical fitness classes, Yoga, basketball, swim team, hockey, crafts, trips and family outings.

An active senior citizen group meets three times each week at the Community Center to play cards or various games, work on community projects, crafts, toys for tots program and have trips to places of interest, such as the Ice Follies, fall foliage tours, flower shows and picnics.

The Exeter Council on Aging utilizes the Community Center for meetings, clinics, meals, as well as the distribution of taxi tickets and discount cards for Exeter residents 62 and over.

Summer activities include an eight-week playground program serving ages 5-16, high school and college students soccer teams, basketball league, minor and pee wee baseball, softball for men, women and girls, bicycle trips, family movie programs, concerts, summer art show with downtown merchants, swimming lessons and tennis lessons.

Various groups and clubs use the Center regularly for meetings. A second floor game room equipped with table tennis and pool tables attracts students for afternoon recreation.

The Town is truly fortunate to have the opportunity to use the excellent facilities at Phillips Exeter Academy. Their hockey rinks, swimming pools and playing fields contribute much to the enjoyment of citizens of the community. One highlight of the winter months is the annual Jim Houston Hockey Tournament held at the academy hockey rinks. Money raised from the tournament helps students in the community in need of financial assistance when a program fee is charged; proceeds are also used to

purchase new hockey equipment.

A good working relationship with the Exeter School Department allows the use of schools for many activities which could not otherwise be offered. In return we allow the schools to use our facilities such as the tennis courts for their programs.

With the continued support of the townspeople, this department will strive to provide comprehensive recreational pursuits for everyone.

Respectfully submitted,

Douglas E. Dickey,
Director.

Public Library

The past year has seen increasing use and awareness of library services. Several local artists have had openings in the Pirnie room; the monthly adult films have attracted a small but appreciative audience; the summer "Star Wars" reading club signed up a record number of children. More and more patrons are finding out that they can call the library with questions, and more and more Exonians are discovering what the library has to offer, and using it.

The happiest and most hopeful events of 1978 were the visits and reports of a professional library consultant and several architects, studying our library and giving official sanction to our opinion that the present building is totally inadequate for current service and hopeless for growth. So we are now past the phase of dreaming, and now are actively seeking out sites and drawing plans.

Respectfully submitted,

Pamela Gjettem,
Librarian.

Recreation Services (formerly the Bureau of Outdoor Recreation) for matching funds which will help stretch our available funds.

The first real estate to be acquired through tax-default was the Dudley property on Brentwood Rd. This consists of approximately 12 wooded acres with many fine specimens of oak and hickory.

Another parcel of land was added to our jurisdiction through the efforts of the Planning Board. Developers are being encouraged to donate portions of land to the town as open space. Consequently the Mor-Rite Corporation has deeded 36 acres of wooded wetland to the Town of Exeter. This is an excellent watershed as well as being a potential study area for flora and fauna.

The passage of the Wetlands Ordinance at the Nov. 7 Town Meeting has given us another device for protection of our fragile environment. It is hoped that vigilance will be used in the enforcement of this vital ordinance.

The Commission is becoming increasingly cognizant of the fact that we should not add to our holdings of property indiscriminately and to limit choices to those which seem to be of greatest benefit of the town.

The selective wood-cutting program at Henderson-Swasey Park has continued throughout the year. We are following the suggestions of Mr. Stanley Knowles, who has given us a long term management plan which will make the park more attractive to a variety of wildlife. There is a possibility that some wild turkeys might be released in the area if Fish and Game authorities find the habitat suitable.

As part of our education program, two junior high students and two teachers were sponsored at summer

Conservation Commission

During the year 1978 the Exeter Conservation Commission held monthly meetings, attended meetings of mutual interest with other Town boards, and continued progress toward both short and long-term goals of the organization.

The Annual Town Meeting passed two articles of great importance to our plans. The first was establishment of a \$25,000.00 capital fund which has enabled us to

purchase property rather than depend exclusively on donations from public spirited citizens. The second article, which allows the Conservation Commission to take part in decisions on retention of tax-defaulted properties, was also an improvement in our land acquisition program.

We have taken advantage of both of these enactments during the current year. The capital fund made it possible for us to purchase land from Mr. Lewis Page, Drinkwater Rd., giving us access to the Cove property. Application has been made to the Heritage Conservation and

conservation camps. This has resulted in more extensive ecological studies at the junior high.

On May 24, the Commission sponsored a regional meeting of conservation commissions in the junior high library. Mr. Malcolm (Tink) Taylor, State Executive Secretary, addressed the group alerting them to current problems and mutual concerns.

The tree planting program was somewhat curtailed this year due to the extensive involvement of the highway department with construction projects. We did obtain 150 forest seedlings which were planted behind the junior high with the aid of science classes.

Despite some frustrations, 1978 proved to be a satisfying year. The Commission thanks all those who helped us in our endeavors throughout the year.

Respectfully submitted,

Frank Kozacka,
Chairman,
Betsy MacDonald,
Patricia Merrill,
Clifton Mix,
Roger Sloan,
Peter Smith,
Robert Swasey.

Planning Board

The Planning Board met 54 times during 1978. The Board's caseload consisted of 11 subdivision reviews, 24 non-residential site plan reviews and 10 other matters such as perimeter surveys and boundary line changes. Forty residential house lots were approved, several other lots are pending approval.

The year 1978 has been a milestone year for Exeter, with the implementing of community goals for responsible growth through improved planning policies.

A major achievement for the town was the formulation of the Exeter Master Plan, adopted in July after two years of diligent research by the Sounding Board, which acts in an advisory capacity to the Planning Board. The purpose of the Master Plan is to guide the town's development and utilization of resources so that growth will occur in a "reasonable, responsible and conscientious manner." Recent legal findings throughout the nation are indicating the necessity of such a comprehensive and up-to-date master plan as a basis for subsequent planning decisions. In this regard, Exeter is in a strong position; and thanks to good communication among townspeople, planners and elected officials, we can face the

planning future with confidence that the town's best interests, environmentally, economically and socially, will be represented. Our very real thanks to all who shared in the creation of our outstanding master plan.

Earlier in the year a successful zoning amendment made possible the creation of the Waterfront Commercial and Downtown Historic District, by which Exeter became the first New Hampshire municipality to be eligible for participation in the Tax Reform Act of 1976. Under the provisions of this act, structures within this district can be rehabilitated and revitalized by owners or lessors who will receive a major tax incentive for such improvements. This incentive should greatly assist the community's endeavors towards downtown revitalization, which we strongly support.

The downtown revitalization project has recently received federal funding for initial property research and architectural consultation.

At a special town meeting held on Nov. 7, the town adopted a wetlands ordinance to protect Exeter's critical wetland and water supply areas and protect homeowners from water and flood damage. A Growth Management Ordinance was also adopted which regulates residential building permits to 96 per year, thus limiting the rate of annual growth. The ordinance, through a point system, encourages development where land is most suitable, in close proximity to available services; it also gives points for energy-saving construction techniques.

Also voted into law this year were a sign ordinance, an increase in lot sizes in the R-1 District from 30,000 to 40,000 square feet, and an R-5 District to allow for elderly housing.

This fall, Exeter received a partial federal grant under its Coastal Energy Impact Program to research population impacts deriving from the construction of the Seabrook Station; the study will further maps and information for additions to the Master Plan. The project, based on data from the Strafford-Rockingham Regional Council, will also research the impact of in-migration on town services and facilities. The Council and its counterpart, Southeastern New Hampshire Regional Planning Commission, under the directorship of Charles F. Tucker, continue their vital service to the town.

Exeter looks to a bright future of continued citizen participation, improved and judicial land-use policies, and the spirit of concern and cooperation that marks Exeter as an outstanding community in which to serve.

Respectfully submitted,

Victor Baillargeon, *Chairman*,
Rene Valiquet,

Vice Chairman,

Francis Zimmerman, *Clerk*,

Ethel Doe,

Selectmen Representative,
Gordon Hoffman,
Exeter Planning Board.

Housing Authority

The year 1978 was a productive year for the Exeter Housing Authority. Conversion of the old Section 23 rental assistance program to the new Section 8 program required by HUD was completed in

July. At present, all of our 145 subsidized units for low to moderate income elderly and family are under the Section 8 Housing Assistance Payments Program. The Commissioners wish to thank the many landlords whose continued cooperation make this program such a success.

In June, when the funding for our CETA grant ended, we hired the three CETA employees: Sandra Knowles, Sarah Prudence and Roberta Butt. Sarah Prudence left in August for a teaching position.

Due to the resignation of Pamela Wakefield in June, Sandra Knowles, as Project Manager, assumed the duties and responsibilities of executive director for the Housing Authority, while Commissioner Charles Hayes was named Acting Executive Director for the interim. In November, the Commissioners appointed Sandra J. Knowles as Executive Director.

In July our efforts to obtain funding for New Construction for Elderly Housing were rewarded. We were notified by HUD that we had been awarded nearly \$4 million to fund the two housing projects we had applied for. The first project is for 70 units of elderly housing to be constructed on Water St. on the "gas works" and town sheds site. The second project is for 15 units of substantial rehabilitation for family housing; the site is undetermined at this time.

In December, HUD notified us that we would be given additional funding from FY79 to add 15 more units of elderly housing, making a total of 85 units (which was the number of units we originally applied for from HUD) to be located on the Water St. Site. The funding for this New Construction for Elderly Housing is the culmination of the

cooperative efforts of not only the Housing Authority but also many Town Officials and dedicated citizens of Exeter. We wish to extend our sincere thanks to all those responsible for seeing that an Elderly Housing Project will finally be built in Exeter. Developers will be invited to submit proposals in the near future, and we hope to see the project ready for occupancy by late 1980.

When the building is nearing completion, the Exeter Housing Authority office will make a public notice of when and where we will be accepting applications for housing in the new project.

The goal of the Exeter Housing Authority continues to be to provide affordable, decent, safe and sanitary housing for low to moderate income elderly and families. We feel we are realizing that goal with the addition of these two new housing projects, and we wish to thank all those who helped to make it a reality.

For more information about our programs, please call or come in to our office located at 11 Pleasant St. from 9 a.m. to 4:30 p.m., Monday through Friday. Telephone 778-8110.

Respectfully submitted,

Charles Hayes,
Chairman,

Flavia Page,
Vice Chairman,
Robert Curran,
Margaret Duhamel,
Rene Valiquet.

Historic District Commission

The most important action affecting the Historic District Commission was the March Town Meeting vote to create the Downtown

Historic District, which includes Water St. and the river bank from The Exeter News-Letter parking lot to High St. where it meets Portsmouth Ave.

The Commission realized the increased need for a Sign Ordinance and created a sub-committee composed of Chairman Harris Melia, Secretary Miriam LeBaron, and Betsy MacDonald from the Commission, and Barbara Harris and Joan Harlow, local merchants. After six months of study the sub-committee submitted its report to the Commission in November. The Commission consulted on this matter with the Chamber of Commerce and the Downtown Committee.

Sign applications were received and approved for:

1. The Wetherell-Lee House
2. The Masonic Temple
3. Attorney Reams' house at 33 Water St.
4. "Polly's" at 19 Water St.
5. "The Chocolatier" at 11 Water St.
6. "Cecilia" — a new bakery at 231 Water St.
7. Painting "Loaf and Ladle" on five windows of restaurant at 5-9 Water St.
8. A sign to replace one on building of DeMeritt Agency, 4 Center St.

Construction or demolition applications were received and approved for:

1. Alterations to the exterior of the Exeter Banking Company
2. An addition to garage of Al's Muffler Town, plus exterior changes to the present garage
3. Society for the Preservation of New England Antiquities plans for improving the condition of the Garrison House prior to painting it
4. An extension at rear of Carl's Gulf Station, 36 Water St.
5. Exterior stairs to be added to

building of Mrs. Barbara Harris at 30 High St.

6. Request by Exeter Investment to demolish Buildings #3 and #4 on Kimball's Island

In May, the Commission sent a letter of welcome to all property owners in the new Downtown Historic District.

The Commission had three new signs made to mark the perimeter of the new Historic District.

The following changes occurred in the Commission:

Richard Niebling replaced Arthur Plouffe as Selectmen's representative.

Tom Brewitt was named by the Selectmen to fill the unexpired term of Stephen Kurtz who resigned because of the heavy demands of the Principal's position.

In November, Mrs. MacDonald's first term expired and the second term of Harris Melia and Richard Bergeron expired. The state statute creating the Commission limits Commissioners to two terms. The Selectmen reappointed Mrs. MacDonald and named as new members Robert H. Bates of 153 High St. and Barbara Harris of 181 High St.

Respectfully submitted,

Robert H. Bates,
Chairman,
Betsy MacDonald,
Vice Chairman,
Miriam LeBaron,
Secretary,
Tom Brewitt,
Barbara Harris,
Richard Niebling,
Robert Stewart.

Swasey Parkway

The Trustees want to thank Ervin Ryder for the excellent care he has given the parkway this past year.

We have carried on a program of lawn and tree fertilizing and also have had the trees sprayed at the proper time.

We hope to be able to continue to cut back the shrubbery to improve the general appearance of the parkway.

We have placed signs at both ends of the parkway closing it to all vehicular travel from dusk to dawn. This has helped to cut down on the vandalism in the parkway. There are still people who think that the lawns are made to drive their cars on.

We hope to make the parkway a thing of beauty for the people of the town to look at with pride. With the help of everyone this can be done.

Respectfully submitted,

Francis M. Sinclair,
Frank Plourde,
John Monroe,
Trustees.

Zoning Board of Adjustment

The following is an account of the activities of the Exeter Board of Adjustment during 1978.

We met 13 times during the year and heard 40 petitions for variances or special exceptions of the 44 submitted. Four requests for hearings before the board were withdrawn for various reasons.

Twenty of the 26 appeals for variances were granted and six denied. Of the 14 requests for special exceptions eight were granted and six denied.

During the year the board lost the valuable services of both Johnston McLeod and Lynn Morse who had to resign for personal reasons, and also Robert (Bucky) Bruce, a newly appointed member who resigned due to poor health. We miss those members and thank them for their dedication to the board. We welcome Helen Carr Dix who is a newly appointed and dedicated member.

We on the Exeter Zoning Board of Adjustment will continue during 1979 to carefully consider all appeals, while at the same time protecting and supporting the ideals incorporated in the Town of Exeter Zoning Ordinances to the mutual benefit of all residents.

Board of Adjustment hearings are scheduled on the first Tuesday of each month. Applications for appeals are due in the town planner's office two weeks prior to a scheduled hearing.

Current Board members are as follows:

Peter D. Corson,
Chairman,
John Purple,
Vice Chairman,
Andrew Carnegie,
Helen Carr Dix,
Alternates:
Auldin Wellman,
Mary Jordan,
Mary Houston.

Building Inspector

1978 Appropriation — \$19,963.05
1978 Actual Expenditures — \$17,345.89

Estimated appropriation
for 1979
\$24,549.22

As the following report indicates 1978 was the busiest year ever.

Sincere appreciation is extended to the personnel of all town departments, contractors, builders and citizens of Exeter for their cooperation throughout the year.

The building inspector is here to serve you, please do not hesitate to contact me if I can answer any questions; and especially if you have any doubt as to whether or not a building permit will be necessary for any contemplated new building, remodeling, etc.

As a reminder — any form of improvement or addition to your property must be cleared through this office if the cost is estimated to be over \$1,000 which includes labor

(even if you do the job yourself) and materials. The fee is \$2 per \$1,000.

Respectfully submitted,

John D. Lusona,
Building Inspector.

Health Inspector

I respectfully submit my fifth report as your Health Inspector.

This year was one of the most important years pertaining to the general health of all the people of Exeter.

In the month of June, I was made aware of the serious condition of the drinking water in certain sections of the town. It was definitely proven that the dump was the cause of this health problem, so a temporary setup was put into effect to supply these families with pure and fresh water in two days. This was done with the full cooperation of the Water Department.

The next step was made when the voters approved the permanent water supply to this section of Exeter. This action proved to me that the people were very concerned about Exeter's citizens and their health.

This gigantic problem is now temporarily under control. We were very fortunate in obtaining the services of Dr. P. T. Gidley, a scientist in Chemical and Environmental Sciences of Fairhaven, Mass.

During the summer months, Dr. Gidley and his assistants worked endlessly taking tests to find the direction of the pollution, so that it would not hinder our water supply. At the present time, the pollutant is at a standstill, but we must see that these tests are continued for years, as a precautionary measure.

The industries of Exeter have been very cooperative with their waste. Individuals also cooperated in sorting out their dump material, such as iron, asphalts, paint, etc. This was

done with the help of the hired men at the dump.

Another big hurdle is before us, and that is to have a "hazardous dump area" specially designated for all the public and industries of Exeter. I hope that an Article will be put in the Town Warrant and supported by the vote of the people, which we know is an urgent need. Remember, we have but one water supply, we must preserve it. Thanks again to Dr. Gidley for guiding us this far.

As in the past, our regular health complaints were given our full attention.

Yours in health,

J. Harold E. Carbonneau, Sr.,
Health Inspector.

Welfare

Due to the increased cost of living and the growth of population in Exeter, there exists a greater need for welfare.

Every welfare applicant has many different factors in their needs, so therefore, many hours must be spent in investigating each case.

It is my belief that the number of Senior Citizens has increased in Exeter, thus causing an increase in welfare needs. I deeply appreciate the untiring efforts of the Exeter Senior Citizens Committee in serving meals at the Community Center for senior citizens and also for providing taxi transportation for the elderly.

The Food Stamp Program has been of great assistance in every community including Exeter.

I feel that the Town of Exeter has

not knowingly denied welfare to any worthy applicant. I know that Exeter citizens will always live up to this responsibility.

Respectfully submitted,

J. Harold E. Carbonneau, Sr.,
Welfare Investigator.

Council on Aging

It has been the goal of the Exeter Council on Aging for the past five years, to furnish assistance to Exeter residents age 62 and over. The

subsidized taxi program started its fourth year on Jan. 1, 1979, providing 15,000 rides per year. The program will not meet all the needs for taxi rides but will give most of our seniors a chance to shop, go to a doctor, and visit others using the allotted number of tickets that they may purchase

Rudolph C. Hede,
Treasurer.

each month. The seniors may purchase up to 10 tickets per month during the winter months while in the good weather, we sell them either six or eight. We do our best not to exceed the 15,000 per year. Volunteers sell the tickets Monday through Friday between the hours of 10 a.m. and noon at the Community Center.

We also offer the monthly blood pressure clinic at St. Michael Church the first Monday of each month.

The council provides meals at the Community Center three days a week with the funds coming from the Rockingham County Nutrition Program. Up until October of 1978 we were funded through the Somersworth Housing Program. We feed more than 100 seniors per week at the Center.

The council was able to build a new kitchen in the seniors rooms at the Community Center, and also this year we installed a new floor, painted the room and had the room rewired. Part of the funding came from the meals program, while the remainder was supplied by the Town.

We continue to update our ID cards and have been busy giving our new cards to seniors who have just moved to Exeter.

We have been using the vial of life program for the past year, with many of the vials supplied to us by the Exeter Hospital. The vials are free for Exeter seniors and may be picked up any day Monday through Friday between 10 a.m. and noon at the Community Center.

The Recreation and Parks Department provides many trips and a yearly cookout for Exeter seniors.

Respectfully submitted,

Douglas Dicey,
Chairman.

Development Commission

The year 1978 has seen the Exeter Industrial Park with a new industry, a new fire pump and new road surfacing.

Import Leather, Inc. (formerly of Londonderry) has moved into the Industrial Park on a 12-acre site in October, 1978. This building of 53,000 square feet is for warehousing and distribution of imported foreign leather.

A new fire booster pump was installed on town owned land adjacent to the 1,000,000-gallon stand pipe to boost the pressure of the 12" Industrial Park water main to 150 pounds per square inch and give the capability of delivering 2,000 gallons per minute. This water main now meets the Fire Codes and Life Safety Codes of the State of N.H. as well as the fire underwriting insurance companies.

The Exeter Industrial Park now produces approximately \$55,000 a year in taxes for the Town and the Development Commission is striving to locate additional industries to Exeter to further help the tax base.

Respectfully submitted,

Exeter Development Commission.

Citizens Advisory Committee

The Citizens Advisory Committee (CAC) submits the following report of its activities for 1978.

The CAC was created in 1975 by appointment of the Board of Selectmen; its responsibilities have been to recommend to the Selectmen projects for which federal funds from the Department of Housing and Urban Development could be applied for, also, the committee has served in an ongoing administrative capacity monitoring progress and serving on project committees such as the Elderly Housing Site Acquisition Project.

Unfortunately, the town's 1978 funding application did not score sufficiently against other New Hampshire municipalities in this competitive program, but we did finish eighth out of seven funded communities. We are hopeful of receiving a grant in 1979 and are currently preparing an application.

The town is currently in the process of completing projects funded under a 1976 Community Development grant; work is scheduled this spring to: (a) remove structures at the old town sheds site on Water St. in preparation for construction of housing for the elderly under the Housing Authorities' housing assistance program. (An option for this town land and the old gas works site acquired by the town through Community Development funds, from Northern Utilities, has been granted to the Housing Authority by the Board of Selectmen); (b) rehabilitate and separate a combined sewer on Myrtle and Sanborn Sts., engineering work is

now completed and the contract is being bid upon; (c) complete sidewalk improvements in several neighborhoods.

The CAC welcomes input and suggestions from the public and the Planning Department can provide information on available programs. The cooperation of town officials in supervising these programs is deeply appreciated.

Respectfully submitted,

Barbara Haley,
Chairperson

Assessor

This was a very busy year, with all properties revalued and reflected on the 1978 tax bills. Many appointments were made to discuss the new assessments.

The law was changed not to allow the veterans exemption to a veteran with the property in the wife's name. Keep in mind the deadline for filing all exemptions and inventory is April 15. If you have filed in previous years, you must re-apply on the inventory, but if you are applying for the first time, an application must be filed in addition to the inventory.

If you have any questions, please call the Assessor's Office, 778-0591, Ext. 21.

Respectfully submitted,

Edward Elcik, CMA, SPA,
Tax Assessor.

Mosquito Control Commission

1978 was the second year of actual control in a three-year program in Exeter. The program for 1978 got off to an earlier start this past spring. By using the information and techniques learned in previous years, especially 1977, 1978 produced a very successful program.

The work was based on the following: Surveying as a starter, larviciding, followed by selective adulticiding (using our new and more efficient equipment), upgraded our program greatly. The use of new granulators enabled more area coverage of larvicide with less effort and time.

Salt Marsh area along the Squamscott River is the most important larval breeding site in the

town. With the use of the granulator this area was able to be covered in one full day. Nearly 100 percent control was attained using this method. Any area missed by granular was treated with Oil Flit MLO.

Fresh Water Sites treatment in this area was more successful this year by getting an earlier start plus use of the granulator.

Storm Drains — Location of many of these mosquito breeding sites was surveyed and mapped out. These places were sprayed and spray was repeated every few weeks as necessary.

Adulticiding is a must follow-up of larviciding. Light trap results showed this year adult mosquito population to be very high. Adulticiding was necessary once a week. This method proved to be quite effective.

The Commission recommends the 1979 Mosquito Control Program should be carried on in much the

same manner as 1978. Try to get as early a start as possible, even an earlier treatment of fresh water sites to obtain the best effective control.

The Commission wishes to thank all persons showing interest in this program. A special thank you to Jeff Winegar. His work and effort in carrying out this mosquito control program makes this report possible.

Respectfully submitted,

Caroline L. Michaud
Martha Judson,
Chairman.

Old Home Night

The sixth annual Exeter Old Home Night was held at Swasey Parkway on June 24, 1978. The weather was just great for this once-a-year event. We were able to arrange for Don Doane, from Phillips Exeter Academy to take over the preparation of the food again this year. He and his crew, as they have done so many times, prepared an excellent meal. It included barbecued chicken, corn on the cob, cole slaw, brownies, coffee and soft drinks.

A large turnout of adults, youth and senior citizens enjoyed the entertainment and fireworks. From reports we received, the fireworks were the best that we have ever had. Many times we do not get a chance to see them as we must start picking up equipment used for the evening's festivities.

It is our feeling that Old Home Night should continue, but we should be looking for new help and a new chairman who might have new ideas. If you are interested, call the Town Manager or one of the selectmen.

We would like to extend our

thanks to Don Doane, and his crew, Ralston Tree Service and townspeople for their help and support. Also, we appreciate the help of the Highway Department and Recreation and Parks Department employees.

Respectfully submitted,

Robert Strout,
Douglas Dicey,
Co-Chairmen.

Public Safety Complex Building Committee

At the Town Meeting of March 20, 1978, the voters approved the plans and necessary funds for the construction of the public safety complex building.

The Building Committee then worked with the architects, Hughes & MacCarthy of Natick, Mass., to refine the plans to the extent they could be submitted to contractors for bid. Three contractors with excellent records of performance were invited to bid, and in June, the Davison Construction Company of Manchester, N.H., was selected.

The ground breaking was in August. The construction has moved along so rapidly the contractor is now ahead of schedule. At the time of writing this report it seems that the building may be finished before March 1, 1979.

Although final figures are not in, and some decisions are yet to be made (such as landscaping that must wait

until spring), the Committee expects the total project to be completed within the budget of funds allocated. The Selectmen, who have been informed periodically of the financial progress of the project, will receive a final report when it has been completed.

Respectfully submitted,

John Bell,
Charles Hartmann,
Charles Hayes,
Jack Mazalewski,
Building Committee.
