Ed O'Brien was recognized by the Moderator and said , "I think the water meter issue should be on the ballot whether we have it or not and I feel we should have dump stickers issued because I feel there are people using the facility that should not be."

Roger Stewart was recognized by the Moderator and said, "I would like to congratulate the Moderator for a well run meeting."

Joel Beaudin was recognized by the Moderator and said , "I'd like to take this opportunity to thank the Selectmen for their work throughout the year and to commend them on their choice of the new Police Chief."

Mike Peltier was recognized by the Moderator and said , "I'd like to take this opportunity to thank the people of Lincoln, I received lots of flowers and candy. It just reaffirmed the reasons why I have always loved this community and the past few weeks all that you've shown me has been overwhelming. It was embarrassing at times, believe me, and I appreciate it very much. I'm **YOUR** Police Chief for **YOUR** community and Thank You Very Much."

Deanna Huot was recognized by the Moderator and said, "I want to thank Jane Duguay for the excellent idea of having a debate. I want to thank Stanley Dovholuk and Edmond Gionet for participating in the debate. I think it was a good way of getting the issues out to the people. I know many people watched it and supported it. I want to thank my supporters who voted for me today and I will work very hard the next few years, Thank You."

**MOTION MADE BY DUNCAN RILEY TO ADJOURN THIS MEETING AT 8:45 P.M.,
SECONDED BY BILL CONN. Vote in the affirmative.**

Respectfully submitted,

PLANNING AND ZONING
ANNUAL REPORT FOR 1995

The Planning Board members for 1995 and their meeting attendance for the year was as follows:

Rick Weissbrod	Chairman	14 of 15
Pat Mc Teague	Vice Chairman	13 of 16
Joe Chenard	Clerk	13 of 16
Duncan Riley	Selectmen's Rep.	6 of 16
Richard Testa	Alternate	11 of 16
Bob Legare	Alternate	7 of 11
Tom Adams	Alternate	5 of 5

The changes in the Board membership this year included the resignation of Bob Legare in September, 1995. Tom Adams, who has experience as a landscape architect has been appointed to fill the term. Chairman Rick Weissbrod also resigned from the Board in November, 1995; his important tenure on the Board was recognized with a presentation letter from the Planning Board to the former Chairman on January 11, 1996.

The Zoning Board of Adjustment for 1995 and their meeting attendance for the year was as follows:

Joe Chenard	Chairman	1 of 1
Floyd Murphy	Vice Chairman	0 of 1
William Conn	Selectmen's Rep.	1 of 1
Wilfred Bishop	Member	1 of 1
Stephen Libby	Member	1 of 1

Presently, there are 3 vacancies in the alternate positions on the Zoning Board of Adjustment.

The major activity in Town during 1995 was the initiation of construction by the Loon Mountain Recreation Corporation with the construction of its new Kancamagus Quad, construction of a temporary rental center building and relocation of its Competition Center building. Construction of a new pump station at Loon Pond and additional ski lifts remain as part of the future LMRC expansion plans.

The steady construction of additional units continued at Forest Ridge. The developer of that project also negotiated a Development Agreement with the Planning Board pursuant to Section F of the Land Use Plan Ordinance during 1995, which was signed in 1996.

During the Fall of 1995, the Planning Board also resurrected activity pertaining to its (draft) "Downtown Plan". Two workshops were hosted by the Board and there was direct involvement of many Main Street business owners. The plan has been renamed as the "Village Center Plan" and is currently under Planning Board revision and edit. It is expected that the plan will go to public hearing during the next few months.

During 1995, the Planning Board also proposed that additional planning-related tasks be funded in the 1996 budget. More involvement with the North Country Council will be coordinated and the Board will also initiate tasks pertaining to an overall Master Plan update and initiate development of improved planning base maps. The Planning Board will also implement the Town's first Capital Improvement Program under RSA 674 in conjunction with the Board of Selectmen and the Budget Committee if authority is granted by the March, 1996 Town Meeting.

The 1996 Town Meeting will be requested to consider two (2) amendments to the existing Lincoln Land Use Plan Ordinance. Amendment No. 1 pertains to housekeeping corrections to RSA references in the enforcement sections of the Ordinance and Amendment No. 2 is a proposal by the Planning Board to require two (2) parking spaces for each condominium residential unit to be built in the future.

Special thanks are extended to Cindy Rineer for her ever-diligent focus on application and agenda deadlines as well as her capable performance as Recording Secretary to both the Planning Board and the Zoning Board of Adjustment.

In closing, 1996 looms ahead as a challenging and dynamic planning year for the Town of Lincoln. Every resident and business owner in Lincoln will know what I mean after they read the draft "Village Center Plan" upon its publication by the Planning Board in early 1996.

DEPARTMENT OF PUBLIC WORKS

ANNUAL REPORT FOR 1995

It was a year of change for the public works department(s) and employees of the Town. Effective June 19, 1995, the Board of Selectmen had filled the inter-department position of Public Works Coordinator/Engineer-Planner and a period of internal assessment began immediately among the various public works departments. In the meantime, the summer construction season found the public works crew involved in a variety of small, but important localized projects. Improvements completed during 1995 included: roadside swale rehabilitation along Bog Brook Road; placement of a new catch basin and drainage pipe on Parker Road; safety improvements at the intersection of Mansion Hill Road and White Birch Lane by extending the drainage system away from the roadway; elimination of drainage collection points at the Mansion Hill Road/Manor Drive intersection, including installation of twin drainage culverts and headwall construction; lowering an existing water main across US Route 3 in the vicinity of Hanson Farm Road to mitigate winter freezing; and, replacing an old hydrant along the north side of Main Street (between Church Street and School Street).

By September, 1995, the various public works departments were consolidated into a single Department of Public Works, consisting of the following divisions: Waterworks Division, Highway Division, Sewer Division, Cemetery Division and (following consultation with the Woodstock Selectmen) the Solid Waste Division, all organized under a single Director of Public Works (DPW), with either a Supervisor or a Foreman being in charge of each division. Additionally, field construction responsibilities were consolidated under the direction of just one of the Supervisors. At the same time, the DPW remained responsible for duties as the Town Engineer/Planner as well as Compliance Officer.

In October and November, 1995, Mother Nature reminded the region of her ever-present potential: in less than a month, three (3) record rainfall events impacted northern New Hampshire. The East Branch Pemigewasset River did not escape the ravages of the storms, which resulted in record level floods not experienced in at least 25 years. Major damage to municipal facilities included the scouring and removal of a portion of the bearing soil underneath the north pier of the Loon Mountain Road Bridge, necessitating its immediate closure to traffic. At the same time, further downstream, the East Branch was continuing its natural relocation within its river valley and, in the vicinity of the two lagoons of the Lincoln Wastewater Treatment Facility, the previous man-made soil dike (which paralleled the lagoons) was essentially removed; instead, the river had shifted northward such that it was now beginning to scour the lagoon slopes where, in the past, the river had been at least 155 feet south.

Working in conjunction with the New Hampshire Department of Transportation, the Town was able to benefit from the State Bridge Aid program and within three weeks the Loon Mountain Road Bridge was again opened to traffic--but not until over \$150,000 had been expended. As for the Wastewater Treatment Facility, it will be necessary to either

restore the earthen dike and relocate the East Branch southward or to construct additional and substantial stonework protection on and near the lagoon slopes; total project costs could be in the order of \$300,000.

By early 1996, the Federal Government had designated the storm events to qualify for federal emergency disaster assistance. Planning, design and construction related to projects arising from the flood events are expected to be completed during 1996.

There will also be efforts in 1996 to establish a more formal townwide highway improvement program. To date, there has been design, material purchase and wetlands permit activity in support of drainage improvements in the area of Pollard Road. However, there is also a need to focus equal attention in the Mansion Hill area as well as roadway improvements in the Beechwood area.

The NH Department of Environmental Services performed its once-every-three-years "sanitary survey" of the Town's water works system. Water Supervisor Bill Willey is to be commended for receiving excellent reviews in the comprehensive critique of the entire system.

Activity has commenced in regards to establishment of a water rate fee structure for the Town, but efforts to date have been primarily conceptual in nature. As development of the program proceeds forward, there will be opportunities for public input before enactment.

The solid waste division continues to serve the needs of both Lincoln and Woodstock and, presently, the incinerator itself is performing as previously expected and there are no known, costly repairs or upgrades that are required. In 1995, the State implemented its rules arising from the federal Clean Air Act, the major change for the District being the assessment of annual fees based on tonnage pollutants emitted to the air instead of the previous 3-year permit fee system. To demonstrate the unreliable nature of recycling income, the District was receiving upwards of \$180 per ton for cardboard in mid-1995 and by the end of the year, the market was paying zero (!) dollars per ton.

Within the sewer division, 1995 found the public works crew facing an unusually high number of repairs necessitated by the system of aerators at the Wastewater Treatment Plant lagoons. Coupled with higher than average electric bills, these factors are indicative that an aerator replacement program will be necessary in the short-term future.

Highway Supervisor Cliff Dauphine deserves kudos for coaxing the existing 2-1/2 ton snowplow truck through another winter. Be sure to look for arrival of the new replacement later this winter.

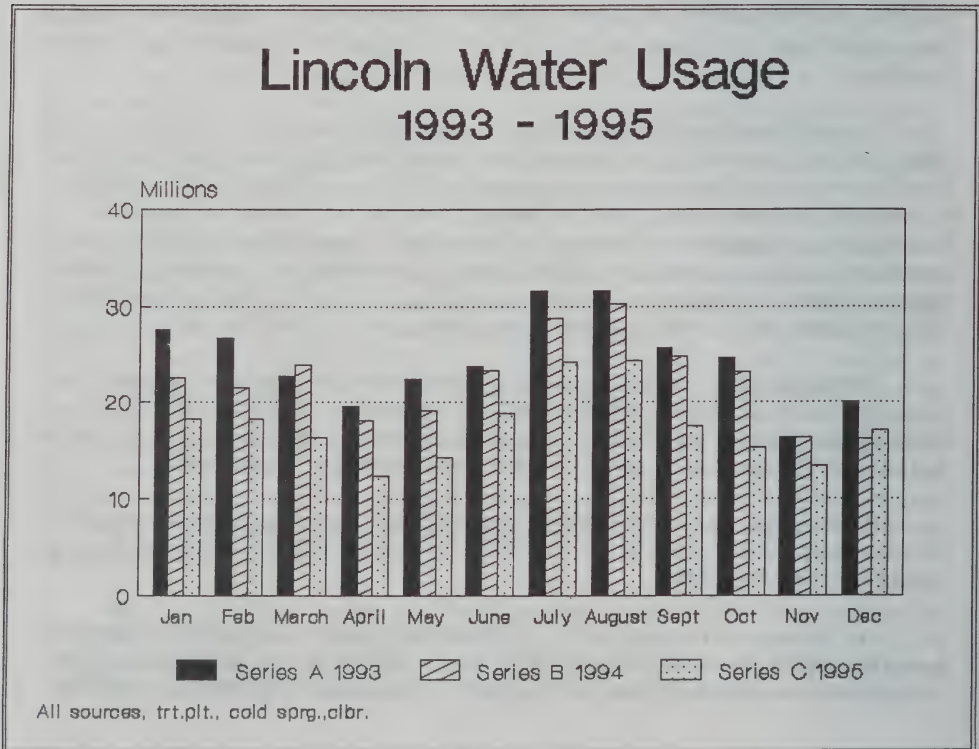

In 1995, the NH Department of Transportation constructed sidewalk handicap ramps along Main Street. Also, the NH DOT resurfaced Main Street, Connector Road and most of the Kancamagus Highway within Lincoln during the summer months. In addition,

the NH DOT has programmed two capital projects in their Ten Year Plan. The existing bridge on Connector Road over the Pemigewasset River is scheduled for 1997 replacement and a series of trail and sidewalk projects at the east end of Main Street is scheduled for 1998 construction.

In closing, my thanks are extended to the Board of Selectmen and the Administrative Assistant for their support pertaining to the management of the Public Works Department. I am also indebted to the Supervisors and especially to the public works crew members for their teamwork approach to the many various demands that are imposed upon them.

Respectfully submitted,

Robert A. Perreault, Jr.

1995 Library Report

Recent circulation figures are listed below:

	1994	1995
Adult Fiction	4,070	4,432
Adult Non-Fiction	988	1,205
Juvenile Fiction	2,069	3,449
Juvenile Non-Fiction	428	595
Videocassettes	2,206	3,552
Magazines	963	1,129

The figures above indicate a 33% increase in usage from 1994-1995. An analysis of the figures detail two areas that experienced dramatic growth - Children's Literature and Videocassettes.

In the spring of 1995, bids were solicited for the Library expansion/renovation project. Because the bids came in higher than had been projected, the construction project has been temporarily put on hold; however, planning for the building project is ongoing. These plans are now close to being realized.

In an effort to bridge the gap between the present level of funding and that which is necessary for the building project to begin, several fundraising activities have been attempted. Under the leadership of former librarian, Carol Govóni, an historical afghan featuring local scenes was designed for the Lincoln Public Library and has been available for sale to benefit the Library Building Fund. Irene Sargent donated a porcelain doll, which she crafted by hand, to the Library. The money earned by raffling the doll was added to the Library Building Fund Account. Also, a letter was sent to all taxpayers and Library patrons with an explanation of the funding which is needed for the expansion. At this time, these efforts have yielded about \$11,000.

The Library is the home of various programs for community children. Last summer, a group of boys and girls participated in a statewide summer reading program entitled, "Saddle Up A Good Book." The children were engaged in several activities with a Western theme, including a pony ride and horseshoes. Since last August, a weekly storytime has been offered on Wednesday afternoons. A number of children have been coming to the Library from the Lin-Wood Child Care Center each week, helping to nurture their love for books.

Once the Library construction is completed, we look forward to expanded services. As always, the Library Trustees and Staff wish you a cordial welcome to the Library.

LINCOLN POLICE DEPARTMENT ANNUAL REPORT 1995

Personnel

Several personnel changes occurred in 1995 and are outlined below;

- *Chief R. Craig Ohlson resigned and is now Chief of Police in the city of Claremont, N.H.
- *Lieutenant Michael D. Peltier was appointed Chief of Police effective March 1, 1995.
- *Sgt. Joseph Chivell was promoted to Lieutenant effective November 1, 1995.
- *Officer Seth Cooper was hired in May which brought us back to full staffing.
- *Officer Christine Duggan resigned in December to pursue her career elsewhere.
- *Dispatcher Gary Finkle resigned in December to pursue his career elsewhere.

We wish Craig Ohlson, Christine Duggan and Gary Finkle the best of luck in their future endeavors. To the part-time officers and part-time dispatchers whom have taken time from their personal lives to work many odd and inconvenient hours so we could fulfill our obligations to the community, I extend my sincere gratitude.

Training

We place a lot of emphasis on continuous training of our officers. Examples of training received by the officers in 1995 are:

- *Financial Investigative Techniques
- *Collection & Preservation of Evidence
- *Robbery and Burglary Investigation
- *Field Training Officer
- *Basic Drug Investigation
- *Sexual Assault Investigation
- *Accident Reconstruction Schools
- *Interview & Interrogation
- *Community Policing Concepts
- *Command Training Institute/Babson College

The training listed above is not a complete list of all training received by department personnel, but provides you with a good example of the training your officers receive.

In the upcoming year we will focus a lot of attention on training involving computers. In December our computer terminal in the communication center was replaced by the State of New Hampshire with a state of the art system. In the not too distant future we will have an in house computer system in the police station and MDT's (Mobile Data Transmitters) in our cruisers. Computers are the future and we must prepare for it.

*Call For Service - Any response by or action taken by a police officer to assist the public is a call for service (ie - disabled vehicle, assault, motor vehicle lockouts etc.)

Interesting Facts "95":

- *261 (80%) of the 326 arrests were alcohol and/or drug related;
- *The average age was 22;
- *Average age of person arrested for Driving While Intoxicated was 30;
- *Of the total arrests, 85 were female, 241 were male;
- *Officers responded to 124 motor vehicle accidents, 104 with property damage and 20 with personal injury.

95 Highlights:

*In cooperation with the Woodstock Police Department and Lin-Wood Public School, we were awarded two Gold Circle Partnership Awards by New Hampshire Partners in Education for our cooperative efforts in the DARE Program and School Safety Patrol.

*The annual Good Morning Breakfast and 911 Barbecue held at Lincoln Green for elderly residents of the Lincoln/Woodstock communities.

*Police Department Open House held in May.

*Sergeant Tamulonis's continued progress as the Department Historian. His research of the origin of the Town Seal which is hand printed on our cruiser doors resulted in an article and photograph being published in a national publication "Police Collectors News."

*Change from Local E911 Service to state wide E911 Service.

Nineteen ninety five was an eventful year for us. We experienced change, increase in activity, highs and lows. As we say so long to 1995 and look to the future, let us not forget our past. Mike Tamulonis has spent a tremendous amount of his personal time researching the past history of the Lincoln Police Department and continues to do so. Our goal is to piece together the history of the Lincoln Police Department so we and the community will know how and why we got to where we are today. Your assistance would be greatly appreciated if you have any photographs of or information regarding past chiefs, officers, cruisers, the police station or anything that would be helpful. Please contact Mike Tamulonis at the police department. This is a project that will be forever ongoing and will prove to be historically beneficial to this community this day and future days.

The Police Department extends its thanks to the community and various town departments for the support given us in 1995 and look forward to serving you in 1996.

 Commissioner

JOHN E. SARGENT
 Director **REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER**

In calendar year 1995, our three (3) leading causes of fires were Children, Non-Permit fires not properly extinguished and Smoking Materials.

Violations of RSA 224:27 II, the fire permit law and the other burning laws of the State of New Hampshire, are misdemeanors punishable by fines of up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

To aid your Forest Fire Warden, Fire Department and State Forest Fire Officials, contact your local Warden or Fire Department to find out if a permit is required. This also helps to prevent unnecessary response to a controlled burn.

Number of Fires Local Community 0 Suppression Cost 0

Local communities and the State share the cost of suppression on a 50/50 basis. The State of New Hampshire operates 15 fire towers, 2 mobile patrols and 3 contract aircraft patrols. This early detection and reports from citizens aid the quick response from the local fire departments.

Lincoln-Woodstock Recreation Department

1995 Report

Committee Members: Mike Reardon, Chairman; Sue Fadden, 1996 Chairman-Elect; Ted Sutton, Bruce Fairbrother, Tom Weeden, Gil Rand, and Mike O'Connor

The Recreation Department enjoyed a great year in 1995. I would like to thank all the local business owners and program volunteers that made this year a success.

The big news in recreation: future expansion. The Recreation Department is looking to add field space for baseball and soccer and build a facility that will take care of current program needs.

Did you know?

1. That the Recreation Department handles over 100 kids in our youth soccer program but has no soccer field.

2. That our baseball, softball, and T-ball programs has over 100 kids participating but has only one field.

3. That our basketball program has over 70 kids participating and has no gym.

4. The High School Gym is so over scheduled with its' own programs that the Junior High teams have restricted gym use.

5. That the Elementary MPR is not a gym.

The key word for RECREATION is EXPANSION, without it we will begin to stagnate.

Below are the 1995 statistics. With the exception of summer camp and the ski slope, all program statistics are for grades 3-6.

Report of Animal Control Officer

Throughout 1995 the most frequent complaint received involved dogs running at large. Please make an effort to keep your dog restrained whether it is in your yard or while out walking. We will continue to enforce the leash law.

Another complaint frequently received is that of barking dogs. Please respect your neighbor's right to peace and quiet.

Dog owners are reminded that state law now provides for the Town Clerk to receive a copy of an animal's rabies vaccination certificate. These are sent directly from the veterinarian. This often triggers a request from the Clerk's office to the dog owner regarding licensing the pet. Remember - rabies vaccination and licensing is required by law.

During 1995, 13 animals were brought to the NH Humane Society in Laconia. Of these, seven were brought in by your Animal Control and the others by local residents. Only one pet was retrieved by it's owner.

A special thanks is due to the folks at Channel 2 for assisting us in locating the owners of stray or lost pets.

Thanks are also due to the Lincoln Police Department for their assistance in responding to complaints and reports of stray animals.

Respectfully submitted:

Raymond Mulleavey
Animal Control Officer

INDEPENDENT AUDITOR'S REPORT

To the Board of Selectmen
Town of Lincoln, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Lincoln, New Hampshire, as of and for the year ended December 31, 1994, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town of Lincoln, New Hampshire's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of Office of Management and Budget Circular A-128, "Audits of State and Local Governments". Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Town of Lincoln, New Hampshire's management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As more fully described in Note 1, the general purpose financial statements referred to above do not include the financial statements of the General Fixed Asset Account Group, which should be included in order to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

As described in Note 1, the Town has recognized tax revenues of \$748,075 in the General Fund which was not received in cash within sixty days of year end as required by generally accepted accounting principles (GASB Interpretation 3). Town Officials believe, and we concur, that the application of this accounting principle which would result in a decrease in the General Fund balance from \$658,409 to (\$89,666), would give a misleading impression of the Town's ability to meet its current and future obligations.

In our opinion, except for the effect on the general purpose financial statements of the omissions described in the third and fourth paragraphs, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Town of Lincoln, New Hampshire as of December 31, 1994 and the results of its operations and the

cash flows of its non-expendable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Lincoln, New Hampshire. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS
December 31, 1994

NOTE 1--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Lincoln, New Hampshire conform to generally accepted accounting principles for local governmental units, except as indicated hereinafter. The following is a summary of significant accounting policies.

Financial Reporting Entity

The Town of Lincoln, New Hampshire (the "Town") was incorporated in 1764. The Town operates under the Town Meeting form of government and performs local governmental functions authorized by State law.

The accompanying financial statements of the Town present the financial position of the various fund types and account groups, the results of operations of the various fund types, and the cash flows of the non-expendable trust funds.

The financial statements include those of the various departments governed by the Board of Selectmen and other officials with financial responsibility. The Town has no other organizational units which meet criteria for inclusion in the financial statements as defined by the Governmental Accounting Standards Board.

Fund Accounting

The accounts of the Town are organized on the basis of funds and account groups, each of which is a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures/expenses. Accordingly interfund receivables and payables have not been eliminated. The various funds are summarized by type in the financial statements. The memorandum totals included in the financial statements are presented only for informational purposes and are not intended to represent the financial position, results of operations or the cash flows of the Town as a whole.

Individual funds and account groups summarized in the financial statements are classified as follows:

Governmental Funds

These funds are intended to provide recurring general services. They are controlled by a budget approved by the voters.

General Fund - used to account for all revenues and expenditures which are not accounted for in other funds or account groups.

Capital Projects Funds - used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Town accounts for the following projects as capital projects funds:

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
December 31, 1994

Sewer Tap Fee Fund
Pollard Road Water Main Fund
Water System Construction Fund

Fiduciary Funds

Assets are held by the Town in a fiduciary capacity or as an agent for individuals, private organizations, and other governmental units, and/or other funds for various purposes. Receipts and expenditures of each fund are governed by statutes, local law, or the terms of the gift.

Trust Funds - Non-expendable trust funds are accounted for and reported as proprietary funds since capital maintenance is critical. Expendable trust funds are accounted for in essentially the same manner as governmental funds.

Agency Funds - Plan assets of the Town's deferred compensation plan are accounted for as an agency fund.

Account Groups

Accounts groups are not funds; they do not reflect available financial resources and related liabilities, but are accounting records of general fixed assets and general long-term obligations, respectively. The following is a description of the account groups of the Town.

General Fixed Asset Account Group - The Town does not record the acquisition of fixed assets in the General Fixed Asset Account Group, as required by generally accepted accounting principles. Fixed assets acquired or constructed for general government services are recorded as expenditures in the fund making the expenditures. Funds used to acquire general fixed assets and/or debt service payments on borrowings in connection therewith are accounted for as expenditures in the year payments are made.

General Long-Term Debt Account Group - is used to record the outstanding long-term obligations of the Town.

Basis of Accounting

The accrual basis is used for the non-expendable trust funds. The measurement focus of these funds is the determination of net income, financial position, and cash flows ("capital maintenance" focus).

Governmental funds utilize the modified accrual basis whereby revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than interest on long-term debt, are recorded when the liability is incurred, if measurable.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are,

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
 December 31, 1994

however, essentially two types of revenues. In one, monies must be expended on the specific purpose of the project before any amounts will be paid to the Town. Therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

Licenses and permits, charges for services, fines and forfeitures and miscellaneous revenues (except investment earnings) are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they become measurable and available. (See *Property Taxes* for property tax accrual policy.)

During the course of normal operations, the Town has transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying governmental and fiduciary funds financial statements reflect such transactions as transfers.

Budgetary Data

The Town budget represents departmental appropriations as authorized by annual or special Town meetings. Funds may be transferred between operating categories. The Town adopts its budget under regulations of the New Hampshire Department of Revenue Administration which differ somewhat from generally accepted accounting principles in that the focus is on the entire governmental unit rather than on the basis of fund types. The general fund budget presented for reporting purposes has been reclassified to reflect generally accepted accounting principles as follows:

Total appropriations at March 8, 1994	
Town Meeting	\$2,960,520
Timing Differences:	
Continuing appropriations January 1, 1993	174,094
Continuing appropriations December 31, 1994	(126,881)
Total General Fund	<u>\$3,007,733</u>

State law requires balanced budgets but permits the use of beginning fund balance to reduce the property tax rate. For the year ended December 31, 1994, the Town applied \$250,000 of its unappropriated fund balance to reduce taxes.

Assets, Liabilities and Fund Equity

Cash and Cash Equivalents - Cash and cash equivalents for the Combined Statement of Cash Flows - All Non-Expendable Trust Funds are defined as cash deposits and cash investments if their maturity dates are within three months from their date of issue.

Investments - Investments held by the Town's Deferred Compensation agency fund are stated at Market Value as of December 31, 1994.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
December 31, 1994

Taxes Receivable - Taxes levied during 1994 and prior and uncollected at December 31, 1994 are recorded as receivables net of reserves for estimated uncollectibles of \$119,441.

Accounts Receivable - The Town has recorded tax deeded property of \$298,121 as accounts receivable and the full amount has been reserved as it is not expected to be collected in the next accounting cycle. The Town has an agreement with the various owners to receive future payment of the overdue taxes, interest, and statutory fees (see Note 11). \$50,271 represents the current portion.

Due to Other Governments - At December 31, 1994, the balance of the property tax appropriation due to the Lincoln-Woodstock School District was \$956,789.

Revenues, Expenditures and Expenses

Property Taxes - Taxes are levied on the assessed value of all taxable real property as of the prior April 1st (\$300,215,636 as of April 1, 1994) and were due in two installments on July 1 and December 1. Taxes paid after the due dates accrue interest at 12% per annum. Current collections for the period ended December 31, 1994 were 88.8% of the tax levy.

The Town collects taxes for the Lincoln-Woodstock Cooperative School District and Grafton County, both independent governmental units, which are remitted to them as required by law. Taxes appropriated during the year were \$2,073,054 and \$492,152 for the Lincoln-Woodstock School District and Grafton County, respectively. These taxes are not recognized as revenues in these financial statements. The Town bears responsibility for uncollected taxes.

Under State law, the Tax Collector obtains tax liens on properties which have unpaid taxes within ten months of the year end for the amount of unpaid taxes, interest and costs. These priority tax liens accrue interest at 18% per annum. If property is not redeemed within a two year redemption period, the property is tax deeded to the Town.

The net 1994 receivables collected prior to March 1, 1995 and expected to be collected in the future have been recognized as tax revenue, which is not in accordance with generally accepted accounting principles. Town officials have decided that compliance with generally accepted accounting principles (GASB Interpretation 3), which would reduce undesignated fund balance from \$531,528 to (\$216,547), could make these financial statements misleading, due to the limited sixty day revenue recognition period after year end. This understatement might give the user of these financial statements a misleading impression about the Town's ability to meet its current or future obligations. Under existing State law, the Town will either receive full payment or acquire legal ownership of property in lieu of payment in 1997. Prior history indicates that substantially all overdue taxes are paid before this date.

Compensated Absences - The Town does not accrue vested accumulated unpaid vacation or sick leave as is required by generally accepted accounting principles, but provides for compensated absences on a "pay as you go" basis. Amounts of vested compensated absences are immaterial to these financial statements.

NOTE 2--STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Deficit Fund Balances - As of December 31, 1994 the Pollard Road Water Main Capital Projects Fund was in a deficit position of (\$104,323). The Town intends to fund the deficit through transfers from other projects and other funds.

NOTE 3--RISK MANAGEMENT

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 1994, the Town was a member of the New Hampshire Municipal Association Property-Liability Insurance Trust, Inc. (NHMA-PLIT). The Town currently reports all of its risk management activities in its General Fund.

The NHMA-PLIT is a Trust organized to provide certain property and liability insurance coverage to member towns, cities, and other qualified political subdivisions of New Hampshire. The Trust is classified as a "Risk Pool" in accordance with generally accepted accounting principles.

As a member of the NHMA-PLIT, the Town of Lincoln shares in contributing to the cost of and receiving benefits from a self-insured pooled risk management program. The program includes a Loss Fund from which is paid up to \$250,000 for each and every covered property, crime and/or liability loss that exceeds \$1,000.

The Trust agreement permits the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. Generally accepted accounting principles require members of pools with a sharing of risk to determine whether or not such assessment is probable and, if so, a reasonable estimate of such assessment. At this time, the Trust foresees no likelihood of an additional assessment for any of the past years.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Based on the best available information there is no liability at December 31, 1994.

The Town is also a member of the New Hampshire Worker's Compensation Fund. The Compensation Fund was organized to provide statutory worker's compensation coverage and is self-sustaining through annual member premiums.

NOTE 4--CASH AND CASH EQUIVALENTS

The Town's cash management policy requires that deposits and investments be made in New Hampshire based financial institutions that are participants in one of the federal depository insurance programs. Deposits are limited to demand deposits, money market accounts, certificates of deposit, and repurchase agreements in accordance with New Hampshire State law (RSA 41:29). Responsibility for the investments of the Trust Funds is with the Board of Trustees.

TOWN OF LINCOLN, NEW HAMPSHIRE

NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)

December 31, 1994

At year end, the carrying amount of the Town's deposits was \$1,679,878 and the bank balance was \$1,637,903. Of the bank balance, \$200,000 was covered by federal depository insurance and \$1,437,903 was uninsured and uncollateralized.

The Town's cash equivalents are categorized to provide an indication of the level of risk assumed by the Town of Lincoln. Category 1 includes investments that are insured or registered or for which the securities are held by the Town or its agent in the Town's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker's or dealer's trust department or agent in the Town's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent but not in the Town's name.

Repurchase agreements: Category 2	\$474,199	<u>\$474,199</u>
Book value of cash and deposits	1,679,878	
Total cash and cash equivalents	<u>\$2,154,077</u>	

Investments in the Deferred Compensation Agency Fund with a book and market value of \$21,940 are not investment securities and, as such, are not categorized by risk.

NOTE 5--DEFINED BENEFIT PENSION PLAN

The Town participates in the New Hampshire Retirement System (the System), a cost-sharing multiple-employer public employee retirement system. The System covers substantially all full-time employees of the State of New Hampshire and full-time employees of New Hampshire political subdivisions, including counties, municipalities, and school districts, whose governing body has elected to participate in the System. The payroll for Town employees covered by the System for the year ended December 31, 1994 was \$613,730; total payroll for the Town was \$785,916.

All Town full-time employees are eligible to participate in the System. The normal service retirement allowance is based on years of credited service and average final compensation (AFC). AFC is defined as the average of the three highest salary years. The System also provides death and disability benefits. Benefit provisions are established by the State legislature.

Covered public safety and general employees are required by State statute to contribute 9.3% and 5% of their salary, respectively. The Town is required to contribute at an actuarially determined rate computed as a percentage of covered payroll; the current rate is 3.45% and 2.80% of the covered payroll applicable to police officers and general employees, respectively. The contribution requirement for the year ended December 31, 1994 was \$60,151, which consisted of \$18,798 from the Town and \$41,353 from the employees. The State of New Hampshire contributes 35% of the employer cost for public safety officers (but not general employees). The Town has not elected early application of GASB Statement #24 in these financial statements. The Town's current-year contribution to the System represents less than 0.5% of the total current-year actuarially determined contributions requirements of all participating employers.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
 December 31, 1994

The pension benefit obligation presented as of June 30, 1994 is based on the June 30, 1993 actuarial valuation of the System projected to June 30, 1994. There were no changes in actuarial assumptions made during fiscal year 1994.

The "pension benefit obligation" is a standardized measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure is the actuarial present value of credited projected benefits and is intended to assist users (a) assess the System's funding status on a going-concern basis, (b) assess progress made in accumulating sufficient assets to pay benefits when due, and (c) make comparisons among public employee retirement systems and among employers. The System does not make separate measurements of assets and the benefit obligation for individual employers.

The June 30, 1994 comprehensive annual financial report of the System indicates that at June 30, 1994 the pension benefit obligation for the System as a whole, determined through an actuarial valuation performed as of that date, was \$1,954 million and that the System's net assets available for benefits on that date was \$1,898 million (valued at market). Ten-year historical trend information showing the System's progress in accumulating sufficient assets to pay benefits when due is presented in the above referenced annual report of the System.

Deferred Compensation Plan

Certain Town employees participate in a separate deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits them to defer a portion of their salary which is not available to them until termination, retirement, death or unforeseen emergency. All amounts of compensation deferred under the plan and income attributable to those amounts remain the property of the Town until made available to covered employees. Participants rights are equal to general creditors of the Town. Plan assets are accounted for in the Deferred Compensation Agency Fund.

NOTE 6--DEBT

General obligation debt is a direct obligation of the Town, for which its full faith and credit is pledged, and is payable from taxes levied on all taxable property located within the Town.

INDEPENDENT AUDITOR'S REPORT ON SCHEDULE OF FEDERAL FINANCIAL ASSISTANCE

To the Board of Selectmen
Town of Lincoln, New Hampshire

We have audited the general purpose financial statements of the Town of Lincoln, New Hampshire as of and for the year ended December 31, 1994, and have issued our report thereon dated April 18, 1995. These general purpose financial statements are the responsibility of the Town of Lincoln, New Hampshire's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of Office of Management and Budget Circular A-128, "Audits of State and Local Governments." Those standards and OMB Circular A-128 require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements of the Town of Lincoln, New Hampshire taken as a whole. The accompanying schedule of federal financial assistance is presented for purposes of additional analysis and is not a required part of the general purpose financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.
