To the Inhabitants of the Town of Sullivan in the County of Cheshire in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Sullivan on Tuesday, the tenth day of March next at Nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.
3. To see what sums of money the town will raise in addition to that required by law for building and repairing highways and bridges, or take any action relating thereto.
4. To see if the town will vote to pay for digging graves and going with the town hearse.
5. To see what sums of money the town will raise in addition to that required by law for the support of the public library.
6. To see if the town will vote to raise money for Memorial Day or take any action thereon.
7. To see if the town will vote to raise money to pay for breaking roads or take any action relating thereto.
8. To see if the town will authorize the selectmen to borrow money on the credit of the town.
9. To see if the town will vote to help stamp out the white

pine blister disease and raise money for the same, or take any action relating thereto.

10. To see if the town will vote to repair the tomb or relay part of the bricks on it, and raise money for the same.

11. To hear the reports of agents, auditors or committees heretofore chosen, or take any action thereon.

12. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 18th day of February, in the year of our Lord nineteen hundred and twenty-five.

FRANK L. RAWSON,
HERBERT S. CURRIER
EDWARD L. JEWETT,

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Sullivan:

I herein submit my second annual report as superintendent of your schools.

In it, I shall make a brief survey of some of the accomplishments, needs and objectives of the past year.

Throughout the extent of our republic from Atlantic to the Pacific, from the Great Lakes to the Gulf of Mexico, school officers and interested citizens have asked themselves what vehicle or connecting link has brought us as a nation from the "Yesterdays," the time when we rode in wagons, plowed with oxen, harvested with the sickle or cradle, threshed with the flail, read by candle light, to the luxuries and modernized activities of the "Todays," when we ride in automobiles and airplanes, upheave the fields with tractors, harvest and thresh with the same operation, read and acquire knowledge by electric light and radio.

Out of the dark shadows of the past, comes the answer, yet wearing the scars of struggle and the stripes of toil, but bearing in triumph the wisdom of all ages. We call her education, the torch that enlightens the world, fires the imagination of man and gives wings to the visions of youth, saturates the dreams of the age and renders might to hand and brain.

We, having confidence in this parent of progress, creator of culture and moulder of destiny, look forward with assurance to the "tomorrows" of our democracy believing that education will provide for us the foundations of our future progress, that she will give the youth of our land the backbone of morals. Indeed, we trust our system of free education will

become the conservator of the American home, the essential of citizenship and the inspiration for living.

The school is our workshop. Here we must stir the ambitions, stimulate ideals and forge the keys that open the door of opportunity to our children.

HEALTH ACTIVITIES

Dr. H. G. Williams, medical examiner for the Sullivan schools, submits the following results of his examinations given last October.

Number of cases of defective vision,	3
Number of cases of defective hearing,	1
Number of cases of defective teeth,	35
Number of cases of hypertrophied tonsils,	36
Number of cases of adenoids,	20
Number of cases of unvaccinated,	5

In looking over reports for several years, I note too few corrections from year to year. Herein we fail to realize the greatest benefits from our medical inspection. Either parents should consider themselves responsible to see that defects reported to them by the physician were corrected or a school nurse employed who would attend to the follow up work, if we are to enjoy the full blessings of medical advice.

If arrangements could be made to unite a sufficient number of towns for the purpose of employing a full time nurse, a compensation of \$1.50 per pupil would be paid by the State.

Medical inspection in the schools serves a two-fold function. First, to find out the physical defects of the children and as far as possible to secure such treatment as will remedy the defects. This is the curative part of medical inspection. The second function is positive. It seeks not only to cure, but also to secure action and habitual practice in the rules which secure right and healthy living. It is not enough to cure physical weaknesses and disease. The boys and girls must be taught how to live in accordance with the principles of good health.

From the statistics given in this report, I note that Sullivan maintained a higher per cent of attendance than the District but fell a little below that of the State.

Punctuality and regular attendance are habits essential to the foundations of a successful life and have a direct bearing upon school progress and promotions. But a much higher per cent of attendance has been maintained during the five months of the present year and if we can continue the good work, we can score a much higher rate for the school year, 1924-1925. To accomplish this is worthy of your best efforts.

OBJECTIVES

Of the seven objectives of education promulgated by the National Teachers' Association and broadcasted over the United States, we have placed emphasis particularly on the first, second, fourth and seventh viz: (1) "Health," (2) "Grasp of Fundamentals," (3) "Good Citizenship," (4) "Ethical Character."

Reading, writing, arithmetic, English, geography, history, and spelling comprise the backbone of our course of study. The efficiency with which these fundamental subjects are taught determine the strength or weakness of our schools.

We feel that fair results were obtained during the year 1923-24.

The following standard tests were given to pupils above second grade: Thorndike-McCall Reading, Ayres Spelling, Charter's Language, Gregory's American History, Gregory Spencer Geography and Stanford's Achievement Test. The returns from all grades compared favorably with the standards established for the various grades.

The following pupils having completed the eighth grade were given certificates of promotion: Harris Edward Clark, Charles B. Crouse, Norman Arthur Wright and Bertha Wright.

Messrs. Clark and Wright and Miss Bertha Wright are continuing their studies in the Keene High School.

At the beginning of the present year Mrs. Hastings was transferred to the Center school. Miss Beatrice Flagg was assigned to the Fifield and Miss Alice Richardson to the East Sullivan. All the teachers are well qualified, alert and are rendering excellent service to their pupils and community.

In conclusion, I wish to thank the School Board, teachers, and citizens for their co-operation and support.

Respectfully submitted,

FREDERICK T. JOHNSON,

Superintendent of Schools.

Marlborough, Feb. 12, 1925.
