◁ PUBLIC LIBRARY. ▷

TO THE SELECTMEN OF LACONIA :

The Trustees of the Public Library, in presenting this, their eighth annual report of the condition of said library, in view of the large and constantly increasing use of the same, the wear of the books—especially works of fiction—and the large and increasing expense for re-binding and replacing books that are worn out and must be replaced, recommend to the consideration of the town the importance of a larger appropriation that will enable us to keep the library in good condition, and make a larger addition of such works as are demanded.

THE FOLLOWING TABLE SHOWS THE GROWTH OF THE LIBRARY :

	1879	1880	1881	1882	1883	1884	1885	1886

◇ SCHOOL REPORT. ◇

GRADED SCHOOLS.

TO THE SCHOOL COMMITTEE OF THE TOWN OF LACONIA:

The Board of Education for School District No. 1, herewith submit their eleventh annual report.

The number of schools supported by the district during the year has been ten. The High School, North and South Grammar, North and South Intermediate and five Primary Schools, two on the North and three on the South side. The teachers, except in the North Grammar, North Second and South First Primary Schools have been the same during the year. The Spring term of the North Grammar was taught by Miss Mary E. Rowe, who taught that and the preceding term, with good success, but having the offer of a better situation, very naturally accepted it. The fall term was taught by Miss Carrie A. Smith, who resigned at the close of the term thinking that her health would not warrant her in endeavoring to secure so hard a school for another term. The winter term has been taught by Miss Lizzie E. Lovell, who has been elected for another term. This has become one of our hardest schools to govern, and has become so, partly perhaps, on account of the too frequent change of teachers which the Board has been obliged to make, and partly on account of a class of boys that are not all naturally vicious, but are of that age at which they think more of having their own way without regard to the right, than they do of learning their lessons and obeying the wholesome rules of the school. A great part of this difficulty, we think, might be remedied by the parents taking a decided stand in favor of good order and discipline, and have their children know that "order is heaven's first law" and it must be the first law in school, in order that the best results may be obtained. Perhaps the Board of Education should not wash its hands from all responsibility in this matter. It has been our wish that all pupils in the district should have an equal chance to obtain an education, still there is a time when "forbearance ceases to be a virtue," and we feel that that time has nearly come. *Boys please take notice.* The North Second Primary, the first term of the year as was also several previous terms, was taught by Miss Fannie A. Shannon; the second and third terms by Miss Florence M. Ellis, who is engaged for the next term. The South First Primary the first term was taught by Miss Alice M. Nelson, who has taught successfully the same school for several terms, but intending to

make teaching a business, deemed it for her advantage in future years, to take a Normal School course; she therefore resigned to avail herself of that privilege. The second term was taught by Miss M. E. Barrell, and the third by Mrs. M. B. G. Knowlton, who has been elected as teacher for the next term. We very much regret the necessity of making so frequent changes of teachers, as much time is thereby lost; it matters not how good a teacher may be, it will take two or three weeks for a new teacher to get the school properly arranged and in good order for work. We have introduced into our schools works on Physiology and Hygiene, with especial reference to the effects of alcoholic drinks, stimulants and narcotics upon the human system, in compliance with the laws on that subject. Our schools have made commendable progress during the year. A class of thirteen graduated from the High School last June, the largest class that has ever graduated in one year since the adoption of the graded system by the district. Owing to the thrift and enterprise of our village, it is increasing in population very fast, and there is a corresponding increase in the number of our scholars, and in the near future the district will have to make further provisions for their accomodation, and we think it would be wise to take the matter under consideration immediately, and not wait until we are driven to it without proper time to consider what would be for the best. Our present school rooms, except those at the North Brick, are warmed in winter by means of wood stoves, and in the severe cold weather it is impossible to keep an even temperature in the rooms; in order to keep the back parts of the rooms in a comfortable condition, it is necessary to keep a very hot fire, and the result is that those scholars who occupy seats near the stove suffer from the excessive heat, while those more remote are suffering as much from cold; in neither condition is a scholar able to apply himself to study as he could with an even and comfortable temperature. This matter of heating we would recommend the district to consider. More inconvenience has been experienced at the Academy building than elsewhere on the above account, as the windows have become worn so that a great deal of cold air gets into the rooms, and teachers and scholars alike suffer from colds, contracted either in or out of the school rooms. Those who suffer with cold while in the school contract them there, and those who are over heated in the school room are sure to take cold when they go out into the cold air. The High School was closed one week before the usual time on this account. The Academy lot and building do not belong to the district, but are in the hands of the trustees of Gilford Academy from whom the district holds a lease which expires on the twenty-second day of July next. After one more term of school it will be necessary to get a further lease or make some other arrangements; as the lot is a very desirable one for a good school building, perhaps some arrangements might be made

with the trustees (by a special act of the Legislature or otherwise) to turn the whole matter over to the district for school purposes.

The whole number of scholars attending the public schools of the district two weeks or more during the year, has been 545, of whom 275 were boys and 270 were girls; of those reported, 37 were under six years of age, and 30 were over sixteen. The whole number of children in the district between 5 and 15 years of age, as enumerated by the Selectmen last April, was 624, of whom 292 were boys and 332 were girls.

The number of scholars who have been on the roll of honor each term during the year is as follows :

	Spring.	Fall.	Winter.
High School,	12	8	7
North Grammar,	10	11	2
South "	6	3	3
South Intermediate,	28	20	25
North "	12	12	3
North 1st Primary,	13	5	8
" 2d "	9	1	3
South 1st "	15	4	12
" 2d "	8	7	10
" 3d "	15	10	10

◁ SCHOOL REPORT. ▷

UNGRADED SCHOOLS.

I respectfully submit to the citizens of the town my third annual report of the schools outside the village district, which have been generally successful. It will be seen by the statistical report that some of the schools have been so very small that it has been impossible to create a great amount of interest and enthusiasm in the studies pursued, as a single scholar in a class is neither interesting to teacher or scholar; but the schools have been all we could reasonably expect under the circumstances. In reviewing the school work of the past year, it is but justice to say, that, taken as a whole, a practical and thorough work has been done and good progress made.

I would again urge parents to visit the school-room during the term, and not wait until the closing day; for in so doing you will be able to judge more correctly of the work done by teacher and pupils. Those who know personally most about the school are the most competent judges. It is wisdom, when a teacher is found who is specially adapted for school work and takes an interest in it, is successful and commands the respect and good will of the scholars, to retain such teacher as long as possible, or so long as he continues to give satisfaction. When we realize that so many of our scholars receive all their education so far as school privileges go, in our common schools, it is of the greatest importance that the best teachers be employed, in order to secure the greatest amount of good to the greatest number. This matter I leave for your careful consideration.

In some of our schools teachers have required more written work than has formerly been done, which was much needed, as it is a line of school work that has for a long time been earnestly recommended in all schools by our most experienced educators.

I hope an increased interest in the noble cause of education will develop itself as time goes on, and that my successors will receive the support I have received for the past three years. They will always have my best wishes and sympathy.

The whole number of children in the town between 5 and 15 years of age, as enumerated by the selectmen last April, was 670: of whom 313 were boys, and 357 were girls.

DISTRICT No. 3.

Mrs. Cynthia A. Hill taught during the spring and fall terms. Number of visitors during the spring term, fourteen. Roll of Honor: Nellie M. Drown, Lena M. Flanders, Annie E. Hadley, Grace P. Kimball, Frank S. Willey.

FALL TERM—Number of visitors, eleven. Roll of Honor: Ida B. Willey, Frank S. Willey.

WINTER TERM—Taught by Miss Mary A. Dicey, who is a superior teacher and well adapted to the work of the school-room, and is worthy of hearty approval for her faithful work. She possesses the faculty to impart knowledge and stimulate thought by the use of additional questions, not being confined to the text books. No special preparation made for examination, which gave an opportunity to test the real standing and scholarship of the school. The pupils made excellent progress in all branches of study taught, especially in reading. Number of visitors, seventeen. Roll of Honor: Charlie W. Cawley, Albert W. Head, Grace P. Kimball.

DISTRICT No. 4.

This school, during the entire school year, has been taught by Mrs. N. A. Weeks, who is an experienced and efficient teacher, and the work done in her school was highly creditable to teacher and pupils. The examinations were in the highest degree satisfactory. Number of visitors during the year, twenty-three. Roll of Honor: First Term—Nellie Marsh, Alice Marsh, Cora Cummings, Eva Cummings, Mattie Cummings, Alice Weeks, Annie Weeks, Fred Moore, Frank Marsh, Elmer Moulton, Otis Cummings. Second Term—Maud M. Doe, Annie D. Davis, Grace L. Weeks, Alice C. Weeks, Annie L. Weeks, Nellie Marsh.

DISTRICT No. 5.

SPRING TERM—Miss Sadie E. Moulton, teacher. Miss Moulton was eminently successful. A lively interest was manifested in all the exercises of the school, and good progress was made. Number of visitors, thirty-six. Roll of Honor: Lillian M. Brown, Noah W. Brown, Etta H. Filgate, Alice J. McCartney, John M. McCartney, Homer C. McCartney, Willis G. Watson.

FALL AND WINTER TERMS—Taught by Miss Emma M. Severance, with good success. Instruction thorough. Both terms were short, with a vacation of two weeks. The prosperous condition of this school is due in a great measure to the interest manifested by parents and citizens. Number of visitors, twenty. Roll of Honor: Fall Term—Lillian M. Brown, Noah W. Brown, Willis G. Watson. Winter Term—Noah W. Brown, Willis E. Floyd, Willis G. Watson.

ANGELINA B. EASTMAN, School Committee.

Laconia, N. H., Feb. 25, 1886.
