Report
of an Audit and Examination
OF THE ACCOUNTS
OF THE
City of Nashua
FOR THE FISCAL YEAR ENDED
DECEMBER 31, 1948

Made by
THE DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION
CONCORD, NEW HAMPSHIRE

Concord, New Hampshire
June 3, 1949
To His Honor The Mayor and The Board of Aldermen:

City of Nashua, New Hampshire

Gentlemen:

In accordance with your request an audit and examination of the accounts and records of the City of Nashua for the fiscal year ended December 31, 1948 has been made by this Division. Submitted herewith is our report consisting of various Exhibits as indexed, together with comments and suggestions.

SCOPE OF AUDIT

The audit consisted of a complete verification of assets and liabilities as recorded in the balance sheets of Revenue Accounts, Non-Revenue Accounts, General Indebtedness and the Trust and Investment Funds. We examined supporting checks, vouchers, payrolls and departmental records to an extent considered adequate in conformity with accepted audit practice.

BALANCE SHEET — REVENUE ACCOUNTS

(Exhibit A-1)

Cash on Hand and in Bank — $84,631.48

Cash on Hand was verified by actual count on January 5, 1949, and that in Bank by reconciliation with balances shown by statement of the depositary.

Appropriation Overdrafts — $869.68

In conformity with established practice, overdrafts of the Cemeteries' appropriations were carried forward to 1949 as an asset, in amounts as follows:

Woodlawn Cemetery .............................................. $16.35
Edgewood Cemetery .............................................. 61.57
Suburban Cemetery ................................................ 791.76

Total Carried to 1949 ............................................ $869.68

Uncollected Taxes — $128,324.98

As detailed in the Balance Sheet (Exhibit A-1), there is included in this account the uncollected taxes of the Levy of 1948 and of the four years immediately preceding.

Unredeemed Taxes — Tax Titles — $2,980.42

In accordance with the recommendation contained in our report covering the examination of 1947 accounts, the tax titles representing taxes prior to 1939 have been removed from this account and the above amount of $2,980.42 is the aggregate of unredeemed balances of the levies of 1939 and subsequent years as reflected in the Tax Sale record as of December 31, 1948.
Tax Deeds — $4,787.07

The balance of Tax Deeds account as of December 31, 1948, amounting to $4,787.07, represents the cost to the City of acquiring such deeds.

In our report on the examination of 1947 accounts, under the heading "Excess Credit Balances in Tax Deeds Account", we made recommendations for the adjustment of this account in the amount of accumulated excess revenue received on Tax Deeds sold, over the value of Deeds sold and any costs in connection with the sales. Such adjustment has been made and the amount of excess revenue received on Tax Deeds sold during 1948 has been credited to Revenues in the amount of $682.35 as shown in statement of estimated and Actual Revenue (Exhibit E).

Interest on Bonds — $275.01

This represents the interest accrued, on $165,000.00 of City bonds issued during the year, from date of issue to the date on which the proceeds were paid over to the City. The $275.01 should be credited against the interest to be paid on these bonds during 1949.

Overlays — $67,204.02

In accordance with established practice, the City accumulates as a reserve the balances of overlay of the current year's tax levy plus that of the levies of the four preceding years. As of December 31, 1948, the uncollected taxes of the fifth preceding year (1943), were written off against the Overlay of that year and the remaining balance of 1943 Overlay, amounting to $10,531.02 was transferred to Surplus Revenue—Current (Exhibit B-1).

In Exhibit C, we present an analysis of such accumulated overlays as of December 31, 1947 and changes therein during the year under review.

Revenue Surplus — $28,747.38

The surplus increased from $8,275.10 as of December 31, 1947 to $28,747.38 as of December 31, 1948, or an increase of $20,472.28. As indicated in "Analysis of Surplus Revenue—Prior Years" (Exhibit B-2), this increase consists of $18,245.26 of 1948 Surplus Revenue, plus $2,227.02 of revenues on account of prior years' activities.

**BALANCE SHEET—GENERAL INDEBTEDNESS**

(Exhibit A-3)

Bonded Indebtedness — $863,000.00

There was a net increase in bonded indebtedness during the year under review of $40,000.00. This net increase was occasioned by the issuance during the year of $165,000.00 in Public Improvement and Sewer Construction bonds and the retirement of $125,000.00 of other outstanding bonds.
GENERAL COMMENTS AND RECOMMENDATIONS

Accounting Procedure for Added Taxes and Refunds

We wish to again call attention to the proper method of recording Added Taxes and payments in refund of amounts abated after a tax has been paid in full.

1. Taxes added to the Warrant subsequent to commitment should be immediately included in the City's accounts as Taxes Receivable rather than the present procedure of recording, whereby a journal entry is made charging Taxes Receivable account with the amount of collections as received on such Added Taxes, representing either payment in full, or installment payments.

2. Payments in refund of amounts abated after a tax has been fully paid, should be charged directly to Overlay rather than the present procedure whereby the payment is added to Taxes Receivable and a credit then made to Taxes Receivable with a like charge to Overlay.

Police Department

For several years it has been the practice of the Police Department to retain certain license fees and other revenues and to make certain departmental expenditures therefrom. The unexpended balance of such funds as of May 13, 1949 amounted to $2,190.33 which amount is to be transferred to the City Treasury (Exhibit J). To provide the department with funds from which necessary departmental expenditures may be made, a Petty Cash Fund of $300.00 is to be established. This $300.00 Fund will replace the present $100.00 Fund which the department has had on hand as an advance from the Treasurer's office.

Departmental Expenditures

Under this heading in the report on our examination of the accounts of the City for the fiscal year 1947, we called attention to the fact that certain departments did not keep adequate records of revenues and expenditures, and that the Board of Health was using departmental receipts as a petty cash fund disbursing therefrom certain expenses of the department.

Our examination for the year under review disclosed that the following departments have not as yet adopted our recommendations:

1. Library

The monthly record of library expenditures was adequately detailed and sufficiently supported by invoices, etc. However, it was necessary for us to summarize the twelve monthly records in order to assemble total figures for statement purposes. In addition there was no record of receipts. We again recommend that the Library make use of a cash book in which should be entered all receipts and expenditures with classification as to source of receipts and nature of expenditures.
2. Board of Health

We again recommend that this department turn over to the Treasurer all receipts intact. The City should establish a petty cash fund for this department from which expenditures, previously made out of receipts, could be made and periodically reimbursed by the Treasurer on regular warrant.

3. Municipal Court

Fines and Forfeits due the City from the Municipal Court for the last three months of 1947 were not remitted to the Treasurer until March, 1948. In addition, we found the remittances of fines due the State were made months after the collection of the fines, and the dates of entries in Court payment records were several weeks earlier than the dates on which checks were issued or the dates on which remittances were received by the State. These criticisms apply to the records and procedures of the former clerk. The accounts of the present incumbent were found in good order.

Conclusion:

The accounting system of the City of Nashua provides adequate financial information so that effective control of budgetary appropriations may be exercised at all times. The accounts and records were found to be in good condition. A few changes should be made in departmental accounting procedures as indicated herein.

The appreciation and thanks of the members of this Division is hereby expressed to the officials of the City of Nashua and their office staffs for the assistance rendered during the course of the audit.

Yours very truly,

CERTIFICATE OF AUDIT

This is to certify that we have audited the accounts and records of
the City of Nashua for the fiscal year ended December 31, 1948.

The report submitted herewith sets forth, in our opinion, the financial
condition of the City as of December 31, 1948. The various Exhibits,
together with our comments, reflect the results of operations for the period
under examination.

Respectfully submitted,

RESOLUTION
THE SECOND SALARY READJUSTMENT TO MEET THE HIGH COST OF LIVING
CITY OF NASHUA
IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND
FORTY-EIGHT

RESOLVED, By the Board of Aldermen of the City of Nashua:
WHEREAS, wages and salaries of city employees are inadequate to meet the present high cost of living.

NOW THEREFORE, BE IT RESOLVED by the Mayor and the Board of Aldermen in the City of Nashua, that each department be and is hereby authorized and empowered to include, in addition to its usual anticipated expenditures, an amount equal to TWO HUNDRED SIXTY DOLLARS ($260.00), multiplied by the number of full-time employees on its payroll, including all full-time employees whose wages and salaries are regulated by city ordinances, and every individual department to make readjustment of the wages and salaries of its employees according to the rules and regulations heretofore operative in each individual department, to meet the high cost of living.

BE IT FURTHER RESOLVED, that school teachers of the City of Nashua are not to be included nor their wages or compensation as teachers, to be affected in any way, by the changes intended in the above resolution.

BE IT FURTHER RESOLVED that said increases to meet the high cost of living, shall be temporary and not permanent, and shall be voted upon by the Board of Aldermen from year to year, and only for and during the period of this emergency, subject to any changes as to amount, according to the variation in the cost of living.

This resolution is a supplement to and in addition to the resolution passed on January 1, 1948 and February 11, 1947.

This resolution shall take effect Jan. 1, 1948.

Passed February 24, 1948

HENRY J. OUELLETTE,
President.

RESOLUTION
AUTHORIZING HIS HONOR, MAYOR OSWALD S. MAYNARD,
TO AFFIX HIS SIGNATURE TO THE COOPERATION
AGREEMENT BETWEEN THE CITY OF NASHUA
AND THE NASHUA HOUSING AUTHORITY
CITY OF NASHUA
IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND
FORTY-EIGHT
RESOLVED, By the Board of Aldermen of the City of Nashua:
That His Honor, Mayor Oswald S. Maynard, be and is hereby au-
thorized and empowered to affix his signature to the Cooperation Agree-
ment between the City of Nashua and the Nashua Housing Authority,
a copy of which is annexed hereto.

COOPERATION AGREEMENT BETWEEN THE CITY OF
NASHUA AND
THE NASHUA HOUSING AUTHORITY

In consideration of the mutual promises of the City of Nashua, New
Hampshire (herein called the “City”) and the Nashua Housing Authority
(Herein called the “Authority”) hereinafter set forth, and, in accordance
with the provisions of the Housing Authorities Law of the State of New
Hampshire, the City and the Authority agree as follows:

1. The City agrees that, during the period commencing with the
date of the acquisition of any part of the site or sites of a housing project
to be constructed pursuant to the provisions of Part III of the Housing
Authorities Law (said project being hereinafter referred to as the “Proj-
ect”) and continuing throughout the useful life of the Project, it will
not levy, impose or charge any taxes, special assessments, service fees or
other charges against the Project or against the Authority and that it
will furnish, without cost or charge to the Authority, or the tenants
thereof, (except for the payments to be made by the Authority pursuant
to the provisions of Paragraph numbered 2 of this Agreement) munici-
pal services and facilities for the Project and the tenants thereof, of the
same character as those furnished without cost or charge for other dwell-
ings and inhabitants in the City of Nashua, including but not limited to:
fire, police and Health protection and services, school and educational
services and facilities, street maintenance, snow removal, garbage, trash
and ash collection and disposal, street lighting on public streets within
the Project and on the boundaries thereof, and sewer and drainage serv-
ices; that it will maintain in good repair and working order any and all municipal utilities and facilities provided by it for the use and benefit of the Project and the tenants thereof; and that it will maintain in good repair streets and roads which are within, adjacent or leading to the boundaries of the Project. The term "useful life of the Project" as used in the foregoing shall mean the period of physical usefulness of the Project for the purpose of providing dwelling accommodations, but in no event less than the number of years during which any of the bonds issued to aid in financing the development of the Project shall remain outstanding.

2. The Authority agrees to make to the City at the end of each fiscal year of the Authority a payment in lieu of taxes and special assessments in the sum of ten percent (10%) of the total shelter rent collected (being the total rents collected but excluding charges for utilities such as heat, electricity, gas and water) during the fiscal year for the Project, provided that, with the approval of both the Authority and the State Housing Board, increased payments in lieu of taxes and assessments may be made to the City from surplus revenues available to the Authority after the Authority has met all its obligations pursuant to the contract for the Project between the State and the Authority and pursuant to the proceeding authorizing the issuance of the bonds of the Authority but the total amount of the payments in lieu of taxes or assessments for any one fiscal year shall not exceed twenty percent (20%) of the total shelter rent collected.

3. The City agrees to plan or replan, zone or rezone to an appropriate site or neighborhood classification, any area in the City in which the Project shall be located, and that it will vacate and close any streets, roads, sidewalks, or other places located in the area of the Project or adjacent thereto, to the extent that the Authority finds that such action is necessary in the development of the Project.

4. The Authority agrees to dedicate and the City agrees to accept for municipal purposes land which may be owned or acquired by the Authority and which the Authority determines to use for streets within the boundaries of the Project or for the purpose of providing ingress thereto and egress therefrom. The City agrees to surface grade and pave any such streets and to install sidewalks (of a type appropriate to the general neighborhood) at places located in the area of the Project or adjacent thereto which the Authority finds necessary in the development of the Project and the Authority shall assume and pay one-half of the expense of said sidewalks. The City further agrees to install at its own expense in said streets and at other mutually acceptable locations all fire hydrants and all sewer lines and appurtenances ready for connection to the dwelling units, so that connections may be made to the sewer lines in accordance with the regular practice in the City.

5. The City agrees to take any action and to perform any work as provided in Paragraphs numbered 3 and 4 of this agreement within a reasonable time after receipt of a written request therefor from the Authority.
6. The City agrees to waive such building and inspection fees as might be payable by the Authority if it is or becomes subject to the payment of such fees, and agrees to make such exceptions from building regulations and ordinances as are found by the Authority to be necessary in the development of the Project.

7. Nothing in this agreement shall be construed as limiting the power of the City to furnish aid and cooperation other than and in addition to the matters more particularly described in this Agreement.

8. The Authority agrees that it shall use its best efforts to develop the Project as rapidly as possible, to operate and maintain such Project for families of low income, with a preference to such families of veterans of World War II, and to keep the City fully informed as to the status of the Project.

9. The City consents to the assignment of this Agreement for the protection of the holders of any bonds issued to aid in financing the development of the Project.

10. The City and the Authority agree that this Agreement shall not be abrogated, changed or modified so long as any bonds issued to aid in financing the development of any Project to which this Agreement relates or any bonds issued to refund bonds issued to aid in such financing shall remain outstanding and unpaid and so long as the title to said Project is held by the Authority or some other public body or governmental agency authorized by law to engage in the development or administration of low-rent housing projects.

11. The City agrees to equip and supervise or cause to be supervised in the usual manner in which similar playgrounds are equipped and supervised and without cost to the Project or to the Authority any playground areas located within the boundaries of the Project.

12. In the event that arrangements are made pursuant to Part III, section 6 of the Housing Authorities Law, to secure financial assistance from the Federal government and to terminate the financial assistance from the State, the City agrees that it will do all things necessary to secure financial assistance from the Federal government.

IN WITNESS WHEREOF, the City of Nashua, New Hampshire, and the Nashua Housing Authority have respectively caused this Agreement to be duly executed as of the 14 day of April 1948.

To the Honorable Mayor and Board of Aldermen:

Gentlemen:

The Board of Fire Commissioners herewith submits its Annual Report for the Year 1948.

The Board met January 1st, 1948 and organized by electing V. Cote, Chairman; E. A. Whitney, Clerk; R. F. Girouard, Purchasing Agent.

OPERATING PERSONNEL

The Operating Personnel on the two platoon System of the Fire Department was as follows:

FIRE APPARATUS

The useful Fire Apparatus operating out of the Central, Amherst Street, Lake Street and Arlington Street Stations were as follows:

Chief's Car, 1946 Dodge; Deputy's Car, 1948 Plymouth; Fire Alarm Truck, 1948 Dodge; Engine No. 1, 1922 Ahrens-Fox; Hose No. 1, 1922 Ahrens-Fox; Ladder No. 1, 1925 Ahrens-Fox; Engine No. 2, 1925 Ahrens-Fox; Hose No. 2, 1942 Dodge; Ladder No. 2, 1925 Ahrens-Fox; Engine No. 3, 1925 Ahrens-Fox; Hose No. 3, 1925 Ahrens-Fox; Engine No. 4, 1947 Mack; Hose No. 4, 1947 Mack; Engine No. 5, 1942 Chevrolet; Engine No. 6, 1937 Chevrolet; Aerial Ladder No. 1, 1946 85' American-Lafrance.

FIRE ALARM SYSTEM

All the Fire Alarm Boxes in the City were inspected every month during the year. A new box was installed at Gregg and Sons factory which is a private Box. It is a Master Box with Auxiliaries. The cable on Temple was put overhead from Spring to Commercial Streets while the Telephone Company pulled out the Fire Alarm cable and used the duct for a new 600 pair cable. As soon as their cable is cut over they
will vacate and the Fire Alarm cable will be replaced in the spare duct. There were 63 changeovers made due to new poles being set by the Telephone and Public Service Companies. A report was received from a registered boiler inspector who condemned the present tanks which were installed in 1914 for the Fire Alarm Whistle. The compressor is out-dated and no repair parts are available. During the year a new diaphone horn was installed for trial. It uses 7 1/2 cubic feet of air per blast against 34 cubic feet on the old steam whistle which was used when steam was the power factor. The aerial wires on East Hollis Street from Main to Marshall Streets on the north side were moved to the south side and all old wires were removed. Several calls were received from the Maine Manufacturing Company to cut out the Master Box due to insurance inspections and changeovers in the sprinkler pipe lines. Several weeks were spent locating cable grounds due to the poor condition of the cables. A survey of the Fire Alarm System was asked for at no expense to the City and approved by the Chief and Board of Fire Commissioners. It was carried out by Mr. Earl Smiddy, a registered Engineer. His report was mailed to the Mayor and Board of Aldermen also the Board of Fire Commissioners. The worn and obsolete condition of part of the signalling system caused many hours of excess labor to be spent to keep it in working condition.

TRAINING PROGRAM

The permanent members have been drilled on an average of 4 hours a week, manually when weather conditions permit the use of wet and dry hose, the handling, raising and climbing ladders. The different types of fire trucks have been used to drill with thereby allowing the members to experience the same conditions as at a fire. As an alternate for outside drilling, the men have drilled on gas masks, the location and handling of tools and the proper use of the resuscitator. The Call Men are drilled 4 nights a month on outside drills and in the winter they have two inside drills a month. With the constant training of the Personnel it has been possible to cut down the loss of time through injury at fires. With the proper handling of tools and appliances, plus the use of gas masks, the seat of a fire is located and extinguished much quicker. The Fire Department does not have a drill tower. A longer and larger training program could be set up with the building of a drill tower and a greater degree of efficiency would be reached by the Personnel of the Fire Department.

FIRE PREVENTION BUREAU

For the year 1947 the Fire Prevention Bureau made a total of 4,399 dwelling inspections and mercantile inspections compared with a total of 4,750 for the year of 1948. Approximately 400 fire hazards were found of which the greater part were corrected. In conjunction with Mr. Wray of the New England Fire Inspection Bureau, State Fire Inspectors
Kellogg and Cloutier of the State Fire Marshal's office and Mr. Flanders of the State Labor Board, the following establishments were inspected: Parochial and Public Schools, convalescent homes, hospitals, theatres, municipal buildings and manufacturing plants. Fire Prevention education and inspecting has unquestionably a definite value to the taxpayer. We had about 100 fires less in 1948 than in 1947. The following comparable figures on fire losses for the two years.

<table>

<td>$125,172.18</td>
</tr>
<tr>
<td>Loss per capita</td>
<td>6.11</td>
<td>3.57</td>
</tr>
</tbody>
</table>

Fire Prevention work is believed to have materially effected these savings. Manufacturing plant officials, merchants, owners and occupants of dwellings were very cooperative in eliminating existing fire hazards and dangerous conditions. The Fire Prevention Bureau is striving to keep the fire loss at a minimum and if possible show further improvement in 1949.

Respectfully submitted,
V. COTE

TARRING MAINTENANCE
Due to insufficient funds our proposed tarring program was omitted to 1948. Expected results: Streets breaking up and bad holes everywhere requiring a very large amount of patching.
CLEANING STREETS

Equipment used: 1948 Elgin Power Sweeper
1931 Elgin Power Sweeper
1945 Gutter Sniper Power Sweeper

Business District—Cleaned daily—Machine and patrolmen
Main thoroughfares—cleaned weekly
Spring cleaning—All hard surface streets cleaned by power sweepers and hand sweepers.

RUBBISH COLLECTION

Equipment used: 1938 Autocar Chassis and Garwood Load Packor
1939 Studebaker Chassis and Garwood Load Packor
1939 Mack Chassis and Garwood Load Packor
1946 Mack Chassis and Garwood Load Packor

Open dump trucks used to supplement above equipment
Collection—weekly in City
Semi monthly and monthly in outskirts
Spring cleaning—2 weeks period in April—when regulations are relaxed—residents are allowed to place refuse loose in gutter.
All rubbish must be placed at curb for collection.

DUMPS

North end off Milford Road — South end off Lund Road
Dumps under supervision of Health Department
The north end dump under court order to close on April 1, 1949

WINTER MAINTENANCE

Equipment for Plowing:
13 Heavy Trucks
4 Light Trucks
1 Power Grader
1 Sno Go

Equipment for Snow Removal:
1 Sno Go—Snow Loader (also used for plowing)
1 Barber Greene Snow Loader
9 Heavy Dump Trucks (also used for plowing)
4 Light Dump Trucks (also used for plowing)

Privately owned dump trucks rented for snow removal work with Sno Go.
All hard surfaced streets plowed after each storm.
Snow removed from business district and as many streets as possible after each storm.

SNOW STORMS

12 Major storms of from three to twelve inches
108 inches or nine feet of snow
SEWER MAINTENANCE

Equipment used: 2—1943 Turbine Sewer Cleaning Machines
1—1936 Flexible Sewer Rod Machine
1—1948 Eldin Eductor (Catch Basin Cleaner)

Sewer lines were cleaned and repaired as needed.

All catch basins were cleaned this year. This Elgin Cleaner is operated by three employees and will do the work formerly requiring about fifty employees. When cleaned by hand, piles of refuse were left in street to be picked up by truck. With the present number of employees it would have been impossible to clean all basins by hand.

The City Engineering Department has surveyed, located and recorded all of our 3073 catch basins for the records.

Manholes and catch basins are taken care of as required.

House sewer connections were cleaned and repaired as requested by property owners.

Cost of this operation is charged to owner.

We replaced sewer on Hanover Street between W. Hollis to Kinsley Street during 1948.

The sewer on Pine Street between W. Hollis and Central Street has given us considerable trouble and should be replaced in 1949.

Respectfully submitted,

A. E. MAYNARD,
Administrative Officer
To His Honor the Mayor and Board of Aldermen,
City of Nashua, New Hampshire:

Gentlemen:

During the year of 1948, I performed to the best of my ability all the duties requisite to my office as City Solicitor. I was called on for advice by various members of the City Government and heads of departments. I was called upon for written opinions, drafting resolutions, ordinances, contracts, deeds covering tax-acquired property and other legal instruments.

Criminal cases were prosecuted by me in the Municipal Court. I also appeared for the City in several civil actions in the Superior Court.

Very truly yours

LEONARD G. VELISHKA,
City Solicitor
REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Honorable Mayor and Board of Aldermen:
City of Nashua, New Hampshire:

Gentlemen:

I hereby submit to you, gentlemen, a summary of my inspections as your Sealer of Weights and Measures for the year 1948.

Again this year, I would like to mention that I have had very fine cooperation from the Commissioner of the Department of Weights and Measures, Mr. John J. Hanson, whenever I have needed information or help pertaining to this Department.

REPORT OF PARK-RECREATION COMMISSION
SUPERINTENDENT'S REPORT

To the Park-Recreation Commission:

GENTLEMEN:

The year 1948 was marked by two major improvements to our system.

First:—The field lighting equipment at the Holman Stadium had been placed on wooden poles at the time of its original installation, because steel had not been available during the war period. Some of these poles had become badly decayed, and late in 1947, during a high wind, one pole crashed across the High School bandstand. Fortunately the stadium was unoccupied at the time, otherwise loss of life might have resulted. Therefore, some action was imperative, and through the cooperation of the Mayor and the Board of Aldermen, funds from a bond issue were made available for the installation of an up to date lighting system. This consists of 240 1500 watt enclosed lamps mounted on ten 100 foot steel poles on heavy concrete foundations. All wiring was placed underground, and we now have a lighting system equal to any except the big league parks. The total cost was about $42,000.00

Second:—The State Board of Health having pronounced our water supply at the Field's Grove beach, as unfit for bathing purposes, and our chlorination equipment inadequate to correct this condition, prompt action was necessary to provide bathing facilities for the kids, during the vacation period. Again making use of funds provided by the bond issue, a much larger, up to date chlorinator was installed, together with a circulating pump and system of perforated pipes which diffused chlorinated water uniformly to all parts of the pool. A room was partitioned off in the northerly end of the bathhouse to house this new equipment. Also a new building was erected for a refreshment stand, tables and benches were placed in the grove, towers built for the lifeguards and other improvements were made. The cost of these improvements totaled $11,453.87.

Skating rinks were operated at the North Common, South Common, Marshall Street and Atherton Avenue, and a hockey rink on East Hollis Street. Heavy snows added to the cost of operation of these rinks, but having our own plow enabled us to get them in operation quickly after each storm.

Under the supervision of Director of Recreation, William M. Sweeney, we operated our usual five playgrounds at North Common, South Common, Textile Field, Sullivan Park and Atherton Avenue playground; also the bathing beach at Field's Grove.

We resumed our practice of having a boy and a girl attendant at each playground, instead of only a girl attendant as had been done for a few previous years. An instructor in handicraft visited each playground one day a week.
The bathing beach was staffed with a supervisor, matron, three male and one female life guards.

Through the courtesy of the Kiwanis Club an instructor in swimming and life saving was provided.

Our regular maintenance of parks and playfields was carried on as usual.

The spraying of our elm trees to control the elm leaf beetle and to help in the prevention of the Dutch Elm Disease, was let out to a local contractor, who used one of the new mist sprayers, getting better coverage with less waste of material than is possible with the hydraulic type sprayer. Two sprayers were given at an interval of about four weeks.

Some new equipment was purchased, including a pickup truck, a snow plow, a garden type tractor with lawn mowing and other accessories, land plows for our International tractor, a backstop net for the Stadium and a new triplex power lawn mower.

A Fourth of July entertainment was provided at the Holman Stadium, consisting of a baseball game, band concert, fireworks and dancing on the tennis courts. The dancing proved so popular that other dances were run at intervals throughout the summer.

A series of band concerts was divided between Greeley Park and Sullivan Park and was very well patronized.

Under the leadership of William Sweeney and Raymond Riviere, a ward baseball schedule was sponsored with eight teams in the Junior league and four teams in the Senior. To complete the season a banquet was provided for the players and their coaches, with members of the City Government and Board of Education as guests. George "Birdie" Tebbetts was the principal speaker of the evening and a good time was enjoyed by all.

The Holman Stadium was again occupied by the Nashua Dodgers during the baseball season, and also by the Nashua High School and Junior American Legion teams in the early summer, and by the High School and Junior High football teams in the Fall. The infield was entirely resodded early in the Spring, greatly improving its playing quality.
