A six inch line was laid approximately 200 feet in West-Wood, a housing development on Pleasant Street, for Town water supply. A special agreement was made whereby West-Wood would pay for the construction and as connections were made to the residences which the line could serve, the Water Works would then on a pro rated basis, reimburse West-Wood.

During the year, the standpipe was painted inside and out for the first time since its construction in 1949. It was necessary to provide a continuity of service to consumers, which except for a few instances, notably those connected to the very highest points of the system, was accomplished very successfully.

There were no other major items of new construction or maintenance during the year.

MINOT-SLEEPER LIBRARY

Report of Board of Trustees

The customary activities of the Minot-Sleeper Library have been carried on during the past year, under the supervision of the Librarian, Miss Mary A. Rogers, and her assistant, Miss Nellie Ferrin. The Library is open each Monday, Wednesday and Saturday from 1 to 9 P.M.

The Librarian reports the following circulation of books: Adult fiction 9,417, non-fiction 1,076; Junior fiction 2,307, non-fiction 550; new books purchased 128; gift books 21; memorial books 2. Circulation from Bookmobile 918; from State Library 25; loaned to High School 40. Total circulation 14,333. Collected from fines \$54. Sale of History of Bristol \$20.

International Packings Corp. have contributed a Bookshelf of American Studies consisting of 35 volumes to date.

In order to make more and better books available in the High School, the Library Trustees have designated the Bristol High School as a Branch Library. This enables the school to get books directly from the Bookmobile and has laid the foundation for a circulating library where students may carry on effective research, use varied tools of learning and is also a source of recreational reading, all of which contributes to student development.

The income from the Minnie Maria Day-Jackman Fund supplies the Library Reading Room with these periodicals: American Heritage, Atlantic Monthly, American Girl, Animals, Better Homes & Gardens, Boys' Life, Coronet, Cosmopolitan, Field & Stream, Good Housekeeping, Harpers, Holiday, Horticulture, Jack & Jill, Ladies' Home Journal, Life, Nation's Business, National Geographic (2 copies), Nature, New Hampshire

Profiles, Newsweek, Parents Magazine, Popular Hobbies, Popular Science, Reader's Digest (2 copies), Redbook, Saturday Evening Post, Scientific American, Science Digest, Sports, Time, Together, True Stories, U.S. News & World Report, Yankee, and the Bristol Enterprise.

The Chairman of the Board of Trustees, the Librarian and Assistant Librarian attended a regional librarians meeting last spring, in Rumney. The Librarians attended a similar meeting in Plymouth in November.

HEALTH REPORT

The following is a report of the activities conducted by the N.H. Department of Health, Bureau Public Health Nursing, for the town of Bristol for the year 1958.

A Salk Vaccine Clinic was held at the school June 2nd and 52 children received vaccine. My sincere thanks to the school personnel and the Bristol Woman's Club for their assistance at this clinic, also Dr. Greenan for his cooperation.

Home visits have also been made in Bristol and arrangements for children to attend diagnostic clinics at Concord and Laconia. Follow-up visits have been made on these cases for instructions to the mothers.

Plans are being made for a Pre-school Dental Fluorine program to be conducted in Bristol for children 3 to 6 years of age in the early summer if possible.

Respectfully submitted,

LOIS W. BARTON, R.N.
Public Health Nurse
N.H. Department of Health

MUNICIPAL COURT

The Municipal Court of Bristol disposed of a large number of cases in 1958, though somewhat less than in 1957. 339 complaints were entered in 1958 as compared with 424 in 1957. An analysis of the nature of these cases is interesting, and in some instances disturbing.

289, or 85.25%, of the complaints were for motor vehicle violations, and 24 were for fish and game offenses. As usual unreasonable speed and crossing solid traffic lines comprised most of the motor vehicle offenses — 132 and 93 respectively — bearing witness to the impatience and carelessness of many drivers. It is notable that traffic records show a large proportion of accidents are caused by loss of control due to excessive speed, which vigilant police patrolling tends to minimize. We have good policing in this area. A disturbing increase occurred in convictions for driving while intoxicated, however, 13 in 1958 as compared to 2 in 1957. Newspaper reports seem to indicate that this offense is on the increase state-wide.

Fourteen convictions for petty larceny during 1958 attest to good police work in solving a series of thefts, and it is hoped that prompt imposition of penalties will discourage repetition of such criminal acts.

Balance on hand Jan. 1, 1958	\$ 6.50
Total fines & fees received, 1958	5,510.50
	\$ 5,517.00
Less State's share of fines	3,351.60
Town's share	\$ 2,165.40
Less court expenses	192.42
Balance turned over to Town of Bristol,	_____

SUPERINTENDENT'S REPORT

In the past year, Bristol school authorities have been engaged in studying the possibilities of forming a co-operative high school with the towns which send a considerable number of their pupils to the Bristol Memorial High School. This study came about largely because of our increasing tuition rate. The law permits a district to charge its costs or the state average, depending on which is the lowest, to which may be added a 2 per cent rental fee for the building. As yet, Bristol has not used the rental fee and has tried to keep its rate in a competitive position even though its costs have been slightly higher than the rate charged. Since the total received for high school tuition is a considerable amount, the voters in Bristol should realize that the loss of pupils from a single adjacent school district could make considerable change in this figure and that such is always a possibility. At the moment the co-op studies have ceased.

Once in a while I get the impression from the public that Supervisory Union No. 4 is made up of only a district or two. Actually we have nine districts in this union which circles the Cardigan Mt. and Newfound Lake area. Eight of these districts operate schools, it is 38 miles from the schools at either extremity, all reports must be made out for each of the nine districts, and there isn't too much correlation between the size of a place and the work involved. Only one other union has the doubtful distinction of having as great a number of districts. We work with only one secretary working 11 months of the year, and without assistant superintendents, helping teachers, and non-teaching principals, except in the case of Bristol Memorial High School. The state contributes \$4,000 which is more than in most unions, toward the superintendent's salary. This amount, \$4,000, is based upon an equalized valuation formula. The above are facts and are submitted to you as such.

PART TIME TEACHER. The school board has put \$1800 in the budget in teachers' salaries in the hopes of hiring a part time teacher for the elementary school in order to try to do several things: 1. To permit Mr. Armstrong to have some free periods to assume greater responsibilities as a principal, to permit more testing of individual pupils, to be able to do more guidance and home visitation work; 2) to be able to have a few classes to help those not working up to capacity in a given subject, particularly reading. Obviously, almost any single one of the above items could take a great deal of time but we will be most grateful for a part time teacher in order to help our pupils.

MINIMUM STANDARDS. With the addition of Art Appreciation as an activity, Bristol Memorial High School now meets the "minimum standards." We have added a teacher to the high school which has strengthened both math and science teaching, permits Mr. Genetti to do more supervising, more guidance work, and has increased teacher supervision of the library. With the splendid cooperation of the library trustees we now operate a sub-station library at the high school which permits more economical use of money, increases greatly the number of books available to the high school, increases circulation of library books, and seems to make a lot of sense. We feel that as a result of the minimum standards and by working closely with the men in the State Department of Education, we have improved the educational facilities for the pupils in this area. Probably no one has argued more strongly about certain details of these standards than I have with the "boys in the office" but we would be the first to admit that they've been a good influence. It is difficult to get better education by doing a poorer job on less and less. Our biggest problem is to offer beneficial educational programs to all the pupils of

all the people. The day when public high schools had as its only function the preparation of "the select" for the Ivy League college disappeared 50 years ago, if it ever existed, and to return to this, even as a primary function, would eliminate a big majority of our pupils.

TEACHERS' SALARIES. Without comment are submitted the following facts about salaries: National average \$4,650; three highest: California \$5,925, New York \$5,800, Delaware \$5,700; New Hampshire \$3,967 or 2d; below N.H. are Iowa, the "deep south", Nebraska, Vermont, Maine, North and South Dakota; Bristol's \$4,018.

NATIONAL DEFENSE ACT. Details of meeting the requirements of the National Defense act should be known by the time of our district meeting. Briefly stated, this act provides for federal funds at the state and local levels in certain areas of education such as mathematics, science, foreign languages and guidance, with matching funds required. It may be necessary to have special articles in the warrant in case we wish to take advantage of this law.

STATE BUILDING AID. This will total \$4,251.13 which is the only aid Bristol receives. While this is not a great amount for a single year, when spread over the lifetime of a bond issue it becomes a very material amount. Not many years ago there was no building aid at all. Local members of the legislature have worked hard for this from the beginning. It is a factor which has helped to maintain a very stable tax rate in Bristol in spite of rising costs of everything including education.

Respectfully submitted,

C. MAURICE GRAY

Superintendent
