Helen A. Hart
Town Clerk for Twenty-five Years

We salute Helen for her tireless efforts in town clerking for Plaistow for the past 25 years. In those years, she has seen many changes and has had many interesting experiences.

Helen, do you remember.....

- ...when and why you began wearing long pants at the polls?
- ...the time Clif Cook lost his keys, a padlock, his pencil and his glasses?
- ...the amorous couple applying for a marriage license who could barely untangle themselves to complete the form?
- ...when a police officer barged into the ladies room on you, in a case of mistaken identity?
- ...your first trip to the town hall, following surgery, to join in on a birthday celebration?
- ...the long lines at your home when your office was located there? wonderful in the summer, but the winters were awful!

ELECTED TOWN OFFICERS

BOARD OF SELECTMEN

John C. Ventura, Chairman.....1988
Delorse G. Ackerman.....1989
Alexander Brown, Jr.....1988
Davena Szmyt.....1989
Vincent R. Rizzo.....resigned

REPORT OF THE AUDITORS

We have examined the various payment and receipt records of the Town of Plaistow for the year ended December 31, 1986.

In our opinion, while the examination is not complete, the accounts are kept in accordance with accepted accounting practices.

Respectfully submitted,

LeRoy S. Dube
Dale Officer
Town Auditors

REPORT OF THE BOARD OF SELECTMEN

The year 1986 will long be remembered as the construction year of the town's first public safety building. Completion was in early January, followed by the occupancy of fire, police and emergency management departments. All departments now enjoy the additional space and state-of-the-art floor plan. The building was designed with an eye to the future and should be adequate for many, many years to come. Plaistow can boast of having one of the best designed and equipped emergency operating centers around, and fully prepared for whatever disaster may befall Plaistow. We wish to extend our thanks to the building committee members who volunteered many hours in overseeing the completion of the building.

1986 was also the year that data processing was introduced into the town hall. We have our budgeting and payroll in operation and plan to introduce the tax software package in the spring of 1987.

Solid waste disposal was one of the larger issues this past year. Our membership in the original district consisted of a sub-district status among the 13 member towns. This district recently merged into a larger district with seacoast towns, bringing the total number of towns to 21. Plaistow and four other communities retained their sub-district status. Membership dues for the sub-district towns for 1987 will be \$2500 each. The other full member towns will contribute a larger share. These are towns that have not yet completed their long range plans for waste disposal, and will work toward a regional resource-recovery solution.

Plaistow is into its third year of a 5-year renewable contract for trash removal. We ask your patience and understanding while adapting to door to door pickup, as we realize the convenience of "going to the dump on the weekend" is a thing of the past. The result of the 20-odd years of dumping at the Old County Road site has a nearly one million dollar price tag for cleanup. We will be bonding over a period of time to cap and seal the site in a manner approved by the State of New Hampshire. The site will remain undeveloped and the monitoring wells will undergo quarterly testing for many years to ensure the contamination has dissipated.

One of the top priorities in 1987 will be securing a future water source. Privatization has been a solution to many municipal services throughout the nation as the demand grows. Water companies have been providing towns and cities with water supplies that the municipalities have been unable to provide. The costs are directly borne by the users. Our fire suppression lines may eventually be extended to accommodate the business areas on Route 125, but drinking water will be the larger concern in the immediate future. We are not overlooking any opportunity to explore all options that would be in the best interest of the town. 1987 may be the year that decisions will be forthcoming on the water issue.

Following the need for water is the need for town-wide sewerage. Your selectmen realize that the increased growth and building will eventually affect the groundwater. Therefore, sewage disposal will be required. Sewerage systems require water to transport to nearby treatment plants. When considering water supplies, the sewage must

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Plaistow in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Pollard School in said Plaistow on Tuesday, the Tenth of March, next, at 8:00 o'clock in the forenoon until 7:00 o'clock in the afternoon to act on the following articles: (1 through 14)

FURTHER

You are hereby notified to meet at the Timberlane Regional High School in said Plaistow on Wednesday, the Eleventh of March, next, at 7:30 o'clock in the afternoon to act on the following articles: (15 through 58)

1. To choose all necessary Town Officers for the ensuing year.
2. "To see if the town will vote to go to the town manager form of government in 1988".

Yes____ No____

3. Are you in favor of the adoption of Amendment No. One as proposed by the Planning Board for the Town Zoning Ordinance as follows:

ARTICLE XIII - CLUSTER DEVELOPMENT

13.1 Authority

This section is enacted in accordance with the provisions of RSA 674:21.

13.2 Purpose

The purpose of these cluster development provisions is to encourage flexibility in the design and development of land, in order to promote the most efficient use of land and to preserve natural features and open space.

13.3 Objectives

The objectives of this Section, and to which any such development must adhere, are to:

- (a) Preserve the natural beauty of the land and provide usable open space and recreation facilities in close proximity to dwelling units;

- (b) Encourage a less sprawling form of development, which makes more efficient use of land, requires shorter networks of streets and utilities, and fosters less consumption of rural and/or agricultural land;
- (c) Provide an efficient procedure, which can insure appropriate, high-quality design and site planning and a high level of environmental amenities;
- (d) Avoid development of portions of sites which have poor soil condition, high water tables, are subject to flooding, or have excessively steep slopes;
- (e) Provide a variety of housing opportunities for a wide range of ages and needs.

13.4 Definitions

The following definitions specifically apply to this Section of the Zoning Ordinance:

13.4.1 Cluster Development or Cluster Subdivision - A purely residential development and/or subdivision of a tract of land where a number of housing units may be clustered or grouped on sites and/or lots with dimensions, frontages and setbacks differing from conventional sizes. The density of the tract as a whole shall be equal to that density achieved by conventional rules. The remaining area in the tract, not built upon, is reserved as a common area as defined in Section 13.4.2.

13.4.2 Common Area - Any parcel or area of land and/or area of water set aside as a result of a cluster development. The common area is designed for the benefit and enjoyment of the residents of a cluster development. The area other than wetlands, may contain accessory structures and improvements necessary and appropriate for the educational, recreational, cultural, social or other non-commercial uses excluding any uses requiring septic system and leaching areas, plus any utility services utilized by the owners of the common area, or may be left as open space.

13.4.3 Mandatory Home Owners Association - A private corporation, association or other legal entity established by the developer to manage and support the activities of the cluster development. Membership in said association shall be mandatory for property owners and made a required covenant in any deed issued or passed. It shall provide voting and use rights in the common area, when applicable, and may charge to cover expenses, which may include tax liabilities of the common area, recreational or utility facilities. Articles of Association or Incorporation must be acceptable to the Attorney General's Office.

13.4.4 Protective Well Radius - A radius, with a minimum of 200 feet, which must be wholly contained within the parcel's property lines, with nothing in the well radius, except a pump house and a gravel access road.

13.5 Procedures

13.5.1 Review Process - A cluster development shall be treated as a subdivision for review and public hearing purposes and shall be subject to Site Plan Review Regulations.

(a) Any required covenants or cooperative agreements or similar forms shall be in conformance with New Hampshire RSA 479-A: 5 & 6.

(b) Prior to the final approval, the Planning Board shall ascertain that adequate provisions have been made by the applicant, including, but not limited to, the following:

- * Traffic circulation and access, including adequacy of adjacent streets, entrances and exits, traffic flow, sight distances, curb cuts, turning lanes and existing or recommended traffic signalization.
- * Pedestrian safety and access.
- * Off-street parking and loading.
- * Emergency vehicle access.
- * Fire protection, as recommended by the Fire Department.
- * Storm water drainage based upon a minimum of a twenty-five (25) year storm frequency, utilizing on-site absorption and/or temporary detention.
- * Snow storage and trash disposal areas.
- * Recreational area.
- * Adequate water and sewage provisions designed by a sanitary engineer registered in New Hampshire.
- * Environmental factors, such as protection against pollution, noise, odor and the protection of natural features.
- * Landscaping in keeping with the general character of the surrounding areas.
- * Signing and exterior lighting.

- * Names and addresses of abutting property owners.
- * Plans shall be drawn to scale and prepared by a professional engineer and land surveyor licensed to practice in the State of New Hampshire.
- c) The Planning Board may request special impact studies on any or all elements of the proposed development. The Board shall require the applicant to pay for such impact studies.
- d) Sections of the Subdivision Rules and Regulations and the Town of Plaistow Zoning Ordinance, which are not regulated by this Section, shall be applicable to a cluster development, with the exception of granite curbing and sub-surface drainage systems to maintain the rural esthetics, and, through natural culverting allow the water table to recharge with groundwater.
- e) In the event that the provisions of this Cluster Ordinance, are found to conflict with other provisions of the Plaistow Zoning Ordinance, the more restrictive shall apply.

13.5.2 Layout Proposal - The cluster development plan shall show the layout of all roads and shall differentiate between collector roads which move traffic within the development and service roads which provide access to the development.

- a. All service roads shall be built to the town roadway specifications for new public roads. All roadways will be privately maintained and never to become a town owned or maintained road.
- b. Town of Plaistow road requirements may be modified by the Planning Board for collector roads. Collector roads shall be built as hard surfaced roads to standards approved by the Planning Board.
- c. Cul-de-sac (deadend) streets shall not be longer than 1200 feet including the turnaround and shall be provided at the closed end with a turnaround having a minimum right of way radius of at least 60 feet.
- d. Street lighting is required on all internal roadways. Each structure shall be identified by number and/or letter and recorded with the Fire Department and the Police Department.
- e. All street and project names shall be approved by the Fire Department.

13.5.3 Site Plan - A site plan for the entire tract shall be drawn at the Town of Plaistow's tax map scale and the developed portion at 1" = 50'. The plan shall be prepared by a licensed professional engineer and registered land surveyor. The site plan shall be submitted in accordance with all appropriate town regulations.

13.5.4 Performance Security - A confirmed irrevocable letter of credit and other legal data shall be submitted as required by the Planning Board and approved by the Board of Selectmen to ensure the completion of streets, buffers and amenities, in accordance with the accepted plans and subdivision regulations of the Town of Plaistow as adopted.

13.6 Development Regulations

13.6.1 Minimum Tract Size -

- a) The tract shall be at least 15 contiguous acres.
- b) Poorly and very poorly drained soils, refer to Section D, #2, Lot Size Determination of Plaistow's Wetlands Ordinance.
- c) Special Exception, refer to Section F, of Plaistow's Wetland Ordinance.

13.6.2 Maximum Density-

- a) The maximum number of units permitted in any cluster development shall be determined by using the soil type, lot size requirement.
- b) The overall parcel density shall have a minimum lot size of one unit per 40,000 square feet, complying with Soil Type - Lot Size Requirement as outlined in Section IV, paragraph 4.4.0, 1a. in Regulations Governing the Subdivision of Land and the Review of Site Plans for the Town of Plaistow adopted March 14, 1956, and amended.
- c) No unit shall exceed four bedrooms.
- d) Each structure shall have four or fewer dwelling units.

13.6.3 Frontage and Setback Regulation - Structures may be located in any manner on the site to meet the objectives in Section 13.3 of this Ordinance and providing that the following dimensional standards are met.

a) Tract Dimensional Requirements

Frontage

150 feet is required for a cluster development along an existing town road (Class I through V) or a state highway. It may be 100' if mean width of lot is 150' or more.

Front Setback

No structure or accompanying parking area, with the exception of bus shelters, shall be within fifty (50) feet from a public right-of-way in existence prior to the cluster development proposal.

Side and Rear Setback

No structure or accompanying area shall be within fifty (50) feet of a property line abutting the cluster development.

b) Internal Dimensional Requirements

The following dimensions shall apply for the layout of structures:

Front Setback

30 feet from the edge of proposed street or parking area.

Structures shall be at least 45 feet apart on the side and rear.

13.6.4 Uses Permitted - The following uses shall be permitted: single-family, duplex and multi-family up to four dwelling units per structure; accessory buildings; and incidental private recreational uses.

13.6.5 Uses Restricted - No cluster development shall include mobile homes, trailers, campers or similar semi-permanent housing, used as residences, whether provided with foundations or not.

13.6.6 Approval of Water and Septic Systems - The development may be served by common water and septic systems, the design and construction of which must be approved by the state and local authorities. All pertinent local regulations regarding the placement and construction of septic systems shall be applicable, including the requirement for the incorporation into the project design of alternative, backup leach field areas.

13.6.7 Buffer - A cluster development shall have a fifty (50) foot landscape buffer to provide an adequate trans-

ition between abutting land uses and existing town roads. Whenever possible the natural vegetation shall be retained. No construction, including septic systems shall be permitted within the buffer, with the exception of primary access roads and bus shelters.

13.6.8 Parking - All parking within a cluster development shall be provided at a rate of not less than two (2) spaces per single dwelling unit, plus one (1) additional space for each unit, with more than two (2) bedrooms, excluding garage spaces.

An additional vehicle space for each four spaces is required to provide for off-street parking for guests and for delivery and service vehicles.

13.6.9 Emergency Vehicle Access - Emergency vehicle access shall be provided to all sides of all structures within the cluster development.

13.6.10 Fire Protection - Fire ponds or other adequate fire water storage, approved by the town Fire Department, shall be provided by the developer.

13.6.11 Common Land - At least fifty percent (50%) of the total area shall be set aside as common land covenanted, to be maintained as permanent common area.

13.6.12 Use of Common Land - All common land, with the exception of the well radius shall be restricted to open space recreational uses, such as parks, swimming pools, tennis courts, playgrounds, playfields, golf courses, nature trails, agricultural use, passive recreation or conservation lands.

4. Are you in favor of the adoption of Amendment No. Two as proposed by the Zoning Board of Adjustment for the Town Zoning Ordinance as follows:

Article I - General Provisions - To delete the present paragraph 1.5.6 in its entirety and insert the following:

1.5.6 Any building or use otherwise permitted in the district shall be permitted on a substandard existing lot of record, provided that such substandard existing lot of record is legally buildable in all other respects and is not adjacent to another lot(s) having the same ownership as of the effective date of this ordinance and amendments, or at any time thereafter. Whenever the owner of a substandard lot owns or acquires an adjacent lot,

resulting in the combined lots' meeting or exceeding this ordinance's standard lot requirements, the adjacent lots will be considered as being merged into one (1) lot for the purposes of this ordinance. Such merged lot will be required to conform thereafter to this ordinance's standards, including the area, frontage, depth, yard and coverage requirements.

(Recommended by the Planning Board)

14. Are you in favor of the adoption of Amendment No. Twelve as proposed by PETITION of Citizens for Orderly Growth and others for the Town Zoning Ordinance as follows:

To see if the Town will vote to eliminate Article XIII - Cluster Development from Plaistow's Zoning Ordinance, thus directing the Planning Board to eliminate cluster developing from the Master Plan.

(Not Recommended by the Planning Board)

Yes___ No___

15. To see if the Town will vote to raise and appropriate the sum of Nine Hundred and Fifty Thousand Dollars (\$950,000.) for the costs of closing and capping the sanitary landfill, including costs incidental and related thereto, [and for the interest on and expenses related to any temporary borrowings made in connection therewith,] such appropriation to be raised by the issuance of serial bonds or notes under and in compliance with the provisions of the Municipal Finance Act, as amended, to authorize the selectmen to take such action as may be necessary to effect the issuance, sale and delivery of such bonds or notes and pass any vote related thereto.

(Not Recommended by the Budget Committee)

Yes___ No___

16. To raise such sums of money as may be necessary to defray Town charges for the ensuing years and make appropriations of same.
17. To see if the Town will vote to authorize the selectmen to borrow in anticipation of taxes.
18. To see if the Town will vote to accept the funds for perpetual care of lots in the cemetery to be paid over to the Trustees of Trust Funds.

19. "Shall we adopt the provisions of RSA 72:1-c which authorizes any town or city to elect not to assess, levy and collect a residential tax?"
20. To see if the Town will vote to raise and appropriate the sum of Four Thousand Dollars (\$4,000.) to increase the tax collector's salary from \$8,000. to \$12,000. annually, for an average of 32 hours per week availability to the public at the rate of \$7.21 per hour.
(Recommended by the Budget Committee)
21. To see if the Town will vote to raise and appropriate the sum of Twenty-three Thousand Four Hundred Dollars (\$23,400.) for contracted property assessing. Said sum would include expenses through December 31.
(Recommended by the Budget Committee)
22. To see if the Town will vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000.) to repair the cannons on Pollard Square. (Recommended by the Budget Committee)
23. To see if the Town will vote to raise and appropriate the sum of Five Thousand Four Hundred Dollars (\$5,400.) to replace the tile flooring on the first floor of the town hall and install carpeting in the offices, and to further authorize the selectmen to withdraw Three Thousand Four Hundred Dollars (\$3,400.) from the Federal Revenue Sharing Fund to offset this cost.
24. To see if the Town will vote to raise and appropriate the sum of Twenty-five Thousand (\$25,000.) to create the position of a town engineer. Said sum includes wages, benefits, taxes, workers comp and equipment from July through December 31.
(Not Recommended by the Budget Committee)
25. To see if the Town will vote to raise and appropriate the sum of Fifty Thousand Dollars (\$50,000.) to pay for the services of a professional planning consultant to amend the town's Master Plan, develop a new Capital Improvements Plan, and to prepare appropriate amendments to the town's zoning in relation with the Master Plan.
(Recommended by the Budget Committee)
26. To see if the Town will vote to raise and appropriate the sum of Two Thousand, One Hundred Dollars (\$2,100.) for the purchase of, and maintenance of, office equipment for the town officers and authorize the selectmen to withdraw this amount from the Revenue Sharing Fund to offset this cost.
(Recommended by the Budget Committee)
27. To see if the Town will vote to raise and appropriate the sum of Two Thousand Five Hundred Dollars (\$2,500.) to construct an addition to the shed at the town cemetery.
(Not Recommended by the Budget Committee)

28. To see if the Town will vote to raise and appropriate the sum of Eighteen Thousand Dollars (\$18,000.) to have a road maintenance plan developed by a consultant engineer.
(Recommended by the Budget Committee)
29. To see if the Town will vote to raise and appropriate the sum of Thirty-two Thousand Dollars (\$32,000.) for the purchase of a backhoe for the highway department and to authorize the board of selectmen to withdraw the full amount of the capital reserve fund [\$12,600] and authorize the trade-in of the present backhoe.
(Recommended by the Budget Committee)
30. To see if the Town will vote to raise and appropriate the sum of Four Thousand Two Hundred Forty One Dollars (\$4,241.) to allow an increase in the staff coverage of the Plaistow Public Library to meet the minimum Associate Library Standard in the New Hampshire Statewide Library Development System. This will allow an additional eight hours of open time.
(Recommended by the Budget Committee)
31. To see if the town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000.) for the purchase of a Microfiche Reader Printer for the Plaistow Public Library and authorize the selectmen to withdraw this amount from the Federal Revenue Sharing Fund.
(Recommended by the Budget Committee)
32. To see if the town will vote to raise and appropriate the sum of Seven Thousand Dollars (\$7,000.) to replace the town hall copy machin, and to authorize the selectmen to withdraw this sum from the Federal Revenue Sharing Fund to offset the appropriation.
(Recommended by the Budget Committee)
33. To see if the Town will vote to raise and appropriate the sum of Ninety-five Thousand Dollars (\$95,000.) for the purchase of a used ladder truck for the fire department and authorize the Board of Fire Engineers to make the purchase of said truck.
(Recommended by the Budget Committee)
34. To see if the Town will vote to raise and appropriate the sum of Twenty-five Thousand Dollars (\$25,000.) to be added to the fire department equipment reserve fund for the future purchase of fire equipment.
(Not Recommended by the Budget Committee)
35. To see if the Town will vote to raise and appropriate the sum of Eight Thousand Nine Hundred Dollars (\$8,900.) to fund the new position of fulltime police department dispatcher who will begin duties on July 1, 1987. Said sum includes wages, N. H. Retirement, FICA and other statutory taxes.
(Recommended by the Budget Committee)

36. To see if the Town will vote to raise and appropriate the sum of Eight Thousand Two Hundred Dollars (\$8,200.) to fund the new position of fulltime secretary in the police department. Said sum includes wages for six months, FICA, workers compensation and other statutory taxes.
(Recommended by the Budget Committee)
37. To see if the Town will vote to raise and appropriate the sum of Thirteen Thousand, Four Hundred Dollars (\$13,400.) to fund the position of an additional fulltime police officer beginning July 1, 1987. Said sum includes wages, workers compensation, N. H. Retirement and other statutory taxes.
(Recommended by the Budget Committee)
38. To see if the Town will vote to raise and appropriate the sum of Nineteen Thousand, Eight Hundred Twenty-five Dollars (\$19,825.) to purchase a new cruiser and gasoline for the police department and authorize the withdrawal of the police department capital reserve fund [\$4,530.] to offset this expense.
(Recommended by the Budget Committee)
39. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Three Hundred Dollars (\$7,300.) to fund an additional fulltime police officer beginning October 1, 1987. Said sum includes wages, N. H. Retirement and other statutory taxes.
(Recommended by the Budget Committee)
40. To see if the Town will vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000.) to help offset the expenses of the parade held on Old Home Day.
By Petition. (Recommended by the Budget Committee)
41. To see if the Town will vote to raise and appropriate the sum of Two Thousand Five Hundred Dollars (\$2,500.) for dues to the Southeast Regional Solid Waste District to which Plaistow is a sub-district.
(Not Recommended by the Budget Committee)
42. To see if the Town will vote to raise and appropriate the sum of Two Thousand Dollars (\$2,000.) to help with the maintenance for the Vic Geary Senior Center.
By Petition. (Recommended by the Budget Committee)
43. To see if the Town will vote to authorize the selectmen to hire an experienced professional town planner by July 1, 1987 and to raise and appropriate the sum of Twenty Thousand Dollars (\$20,000.) for the expenses of hiring a planner with the annual salary to be determined by the selectmen. The prime responsibility of said planner would be to plan for Plaistow's future by updating the Master Plan and working on its implementation in conjunction with the

Capital Improvement Program and to organize the zoning ordinances and subdivision regulations to make them easier to follow, as well as handling the usual duties of a town planner which would include, but not be limited to, performing studies that are necessary for Plaistow's future. By Petition. (Not Recommended by the Budget Committee)

44. To see if the Town will vote to raise and appropriate the sum of Twelve Thousand Five Hundred Dollars (\$12,500.) to establish the fulltime position of Recreation and Parks Director for the Town of Plaistow. Date of hire will be May 1, 1987. The annual salary will be fifteen to eighteen thousand dollars [\$15,000. - \$18,000.], said sums include employee benefits and taxes. By Petition. (Not Recommended by the Budget Committee)
45. To see if the Town will vote to authorize the selectmen to retain the 1984 Ford cruiser until such time it is no longer serviceable.
46. To see if the Town will vote to adopt the following Town Ordinances as proposed by the Plaistow Fire Department and are a part of the National Fire Protection Association Codes:
 - A. In compliance with the National Fire Safety Codes, the following regulation has been promulgated:
"Automatic roof vents, with curtain boards, shall be required in all commercial and industrial buildings and/or units thereof which have a square foot area of 2,000 feet or over".
 47. B. In compliance with the National Fire Safety Codes, the following regulation has been promulgated:
"Sprinkler heads shall be installed in all commercial and industrial buildings and/or units thereof which have a square foot area of 2,000 feet or over".
 48. C. In compliance with the National Fire Safety Codes, the following regulation has been promulgated:
"Emergency lights and exit signs shall be the responsibility of the building owner and not the tenant in all commercial buildings".
49. "To see if the Town of Plaistow will vote that all public meetings will be (provided staff is available) televised live on the local cable channel using equipment provided to the town by the cable franchise contract including any necessary power, beginning March 11, 1987. By Petition.
50. "To see if the Town of Plaistow will vote that NO SELECTMEN MAY BE LIAISON TO MORE THAN ONE MAJOR DEPARTMENT (major departments being Police, Fire, Highway, Planning Board and

Budget Committee) and that the term shall be for one year beginning at Town Meeting in March, 1987". (minor departments shall be Highway Safety, Conservation Commission, ZBA, Cable, Mediation, Inspection and Library).
By Petition.

51. To see if the Town will vote to authorize the Board of Selectmen to contract for road maintenance and to further authorize the Board of Selectmen to sell or dispose of the existing highway department equipment in a manner that is in the best interest of the Town.
By Petition.
52. To see if the Town will authorize the Board of Selectmen to promulgate a regulation prohibiting any member of the Board of Selectmen from serving as a town department head.
By Petition.
53. "To see if the Town will vote to authorize the Selectmen to make the necessary arrangements to begin work on a Growth Management Ordinance which is to be completed by October 1, 1987. Such work is to be done by an experienced Planner or Rockingham Planning Commission".
By Petition.
54. To see if the Town will vote to instruct the town's representatives to the Court to take all necessary measures to insure that no low level radioactive waste from the Seabrook nuclear plant shall be stored or disposed of within this Town of Plaistow unless and until the proposed site of the proposed storage or disposal has been approved by the voters of the town at the annual Town Meeting by written ballot.
55. To see if the Town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the town through tax collector's deeds by public auction, advertised sealed bids, or in a manner in the best interest of the town. Such properties would be recommended by the conservation commission following a study of each property.
56. To see if the Town will authorize the Selectmen to apply for, accept and expend, without further action by the town meeting, money from the state, federal or other governmental unit, ie: FEMA, N. H. Highway Safety Agency, or a private source which becomes available during the fiscal year, in accordance with the procedures set forth in RSA 31: 95-b.
57. To see if the Town will authorize the Selectmen to accept gifts on behalf of the Town for specific purposes.
58. To see if the Town will vote to accept as submitted, the reports of the Agents, Auditors and other officers and committees therefore appointed.

Given under our hands and seal this 16th day of February in the year of our Lord, One Thousand Nine Hundred and Eighty-seven.

EXTRACTS FROM MUNICIPAL BUDGET ACT - RSA 32

32:4 AUTHORITY OF BUDGET COMMITTEE. In any town which has adopted the provisions of the municipal budget law, in addition to its other duties hereunder, the budget committee shall prepare a budget for any village district or precinct wholly within the boundaries of said town. The limitations upon town appropriations, provided by this chapter shall apply to appropriations for said districts or precincts and the commissioners of any such district or precinct shall be subject to the provisions of this chapter as other spending agencies of said town. In case of sudden and unexpected emergency the commissioners may apply to the Commissioner of Revenue Administration for a certificate of emergency, as selectmen may do in the case of a town.

32:5 PREPARATION OF BUDGETS. Selectmen, school boards, village district commissioners, all governmental officers, and department heads, including officers of such self sustaining departments as water, sewer, and electric departments shall prepare a statement of estimated expenses and receipts for the ensuing fiscal year and submit the same to the budget committee at such time as the budget committee shall fix. Department heads and other officers shall submit their departmental statements of estimated expenditures and receipts to their respective governing boards before submission thereof to the budget committee. All moneys appropriated by the town, school district or village district shall be stipulated in the budget on a "gross" basis, showing revenues from all sources, including grants, gifts, bequests and bond issues, as offsetting revenues to appropriations affected. Upon receipt of the foregoing estimates of expenditures and receipts, the budget committee shall confer with selectmen, school boards, village district commissioners, and other officers and departments relative to estimated costs, revenues anticipated, and services performed; and it shall be the duty of all such officers and other persons to furnish such pertinent information to the budget committee. The budget committee shall thereafter prepare budgets according to rules which shall be adopted by the commissioner of revenue administration, pursuant to RSA 541-A, relative to the required forms and information to be submitted for town expenditures, school district expenditures and village district expenditures. *Such budget forms shall include a separate column which indicates the recommended budget of the selectmen, school board or village district commissioners.* It shall hold at least one public hearing on each budget, not later than 25 days before each annual or special meeting, public notice, and time of which shall be given at least 7 days in advance. After the public hearing, the budget committee shall prepare and submit to the selectmen, at least 20 days before the annual town meeting, for them to post with the town warrant, 2 copies of the budget prepared for the town, and 2 copies of other special items for purposes not included within the budget but which were requested by the selectmen, or by petition, and which the committee does not wish to recommend, but upon which the voters at the town meeting are hereby entitled to vote. It shall likewise prepare and submit to the school board, or village district commissioners, at least 20 days before said annual meetings for posting by the school board or the village district commissioners with the warrants for their respective meetings, 2 copies of a school district or village district budget to be acted upon at the school village district annual meetings, and 2 copies of other special items for purposes not included within the budget but which were requested by the members of the school board or village district commissioners, or by petition, and which the committee does not wish to recommend, but upon which the voters at the school board or village district meeting are hereby entitled to vote. The budget committee shall not insert additional purposes of expenditures in any recommended budget at or after the public hearings required in this section, without first holding one or more public hearings on supplemental budget requests for town, school district or village district expenditures.

32:8 LIMITATION OF APPROPRIATIONS. So long as the provisions of this chapter shall remain in force in any town the total amount appropriated at any annual meeting shall not exceed by more than ten percent the total amount specified in the budget for said meeting, and no appropriation shall be made for any purpose not included in said budget or in the warrant for the annual meeting. Money may be raised and appropriated for such items, but not to an amount which would increase the total appropriations, as recommended by the budget committee, by more than the ten percent allowed hereunder. The ten percent increase herein allowable above the total amount specified in the budget for said meeting shall be computed on the total amount recommended less that part of any appropriation item which constitutes fixed charges. Fixed charges shall include appropriations for:

- I. Bonds, and all interest and principal payments thereon;
- II. Notes, except tax anticipation notes, and all interest and principal payments thereon;
- III. Mandatory assessments imposed on towns, by the county, state or federal governments.

BOARD OF SELECTMEN (cont'd.)

be addressed at the same time.

The control of growth has been uppermost in the minds of many residents during the past two years. According to the New Hampshire laws, a municipality cannot attempt to enact a growth control ordinance until a Master Plan and Capital Improvements Plan has been adopted. We are hopeful that both documents will be completed by the end of 1987 with zoning amendments being offered for adoption in 1988.

Plaistow is extremely fortunate to have the business districts located on Routes 125 and 108. That foresightedness has left the residential areas untouched with commercial growth. We acknowledge that some isolated problems exist and we are working on these at present.

Personnel changes have taken place during 1986 and as a result, we now have a new Police Chief and a new Highway Department supervisor. We welcome Chief Stephen Savage and Tom White. Former selectman Vincent Rizzo resigned during 1986 and we wish to take this opportunity to thank Vinnie for the many contributions he made to the Board and to the town. WE welcome Darrell Britton, Jr. who is filling Vinnie's unexpired term. Darrell brings an engineering background to the Board as well as a master plumbers license. He works as liaison to the highway department, the planning board and is a member of the recreation commission. The Board also wishes to send along our best wishes to Clif Cook who retired as moderator after serving the town in that capacity for 42 years. Clif...you must have broken all records for tenure in that office. We will all miss Cook's Rules being applied at the town meeting.

The town hall itself is looking better. WE are adhering to the 1982 Town Hall Maintenance study prepared by an historical building architect for the preservation of the building. Cosmetic improvements are most noticeable, but we have also taken care of the drainage problem in the cellar and are anticipating the clocks working once again, the replacement of the front steps and landing, and the repair or replacement of the clock tower louvers in 1987. We appreciate our venerable 92-year old Town Hall and will continue to maintain it's fine Victorian integrity.

We wish to extend our heartfelt thanks to our support staff in the Administrative offices. They are vital in coordinating the daily routine and providing us the required background information necessary in the decision making process. For their gigantic efforts on our behalf, we salute them.

We thank you, our fellow townspeople, for your support. We continue to welcome comments, criticisms and input. We all live in Plaistow because we want to. Our goal is to keep it a nice town

BOARD OF SELECTMEN (cont'd.)

in which to live and raise families. We are looking forward with optimism for 1987.

Respectfully submitted,

John Ventura, Chairman
Delorse Ackerman
Davena Szmyt
Alexander Brown, Jr.
Darrell Britton, Jr.

Selectman Chairman, John Ventura, campaigning at the landfill prior to closing one of the best campaign sites in town.

REPORT OF THE PLAISTOW FIRE DEPARTMENT

January of 1987 marked the first anniversary of our move to the Public Safety Complex. We can all be proud of this beautiful building. The morale of our firefighters and the efficiency of our operation have been greatly enhanced because of this new facility. We again want to thank the taxpayers for providing us with this building.

Even though 1986 presented us with a record number of alarms (428), we feel that it was another successful year. In spite of alarms, dollar losses were held to minimal figures. Only 13 alarms involved either residential or business structures and only one of these was of major consequence. There were six chimney fires, a real good record and this indicates to us that wood stoves are being installed properly and chimneys are being kept clean. We had 15 auto/truck fires and an equal number of false alarms or unnecessary automatic alarm activations. There were 7 illegal burns and residents are reminded that permits are required for all outside burning regardless of the weather. No burning may be done during the hours of 9am and 5pm in accordance with State statutes. If it is actively raining or the ground is completely snow covered we may issue a permit for daytime burning. Permits may be obtained by calling numbers listed elsewhere in this town report.

Our Rescue Squad answered 57 calls for medical assistance during the nighttime hours when the Rescue Squad only answers such calls. The Rescue vehicle was also required on 129 occasions during daytime hours when medical assistance is an "all" call for all members of the department.

Motor vehicle accidents accounted for 96 responses by fire apparatus and/or the Rescue vehicle. The remainder of our calls were varied in nature and ranged from 13 woods fires, 7 mutual aid and 8 brush or grass fires to various other problems.

You are again commended for your fire danger awareness. Fire prevention is the key to our success and we appreciate your efforts in complying with fire prevention measures.

Lack of house numbers (visible from the street) is still a major problem to us. For a comparatively few cents, numbers can be purchased in local stores and attached to your residence or business. The time saved in locating your house or your business will be worth the time, effort and a small cost. We urge you to obtain and place numbers on any building you own or rent.

Occupancy permits must be obtained and signed off by the Fire Department before any new residence or business may be occupied. Wood stoves and oil burner installations require inspection and permits signed by our inspection division. Smoke detectors are required in all residences and businesses by town ordinance.

FIRE DEPARTMENT (cont'd.)

The rapid commercial and residential growth is taxing our fire safety services. We have a new pumper/tanker on order as a result of your vote at the 1986 Town Meeting. We are asking this year for a \$95,000 appropriation in order to purchase a used aerial platform truck. A new truck of this type costs over two hundred and fifty thousand dollars. We feel that there are used aerial ladders which will serve our need for many years. We would make every attempt to find such a truck and if found, we must have the funds readily available because these items move very fast. If we do not find a piece of apparatus which we feel is suitable to our needs, we will not purchase it. We can do the job with the proper tools. We ask We ask your continued support in giving us the resources to efficiently protect you, your families, your property and the property of others in our town.

I want to publicly commend the members of the Plaistow Fire Department for their dedication and loyalty. The time and effort, much of it without compensation, given by these firefighters is a clear statement of their commitment to a dangerous but vital public service. They do this to benefit you, their fellow citizens. Plaistow is indeed fortunate in having them and I am proud of each and every one. The skills of our members are improving greatly. Many of our members are taking long and difficult courses on their own time. These courses place them on equal terms with fulltime firefighters throughout the State. One of our members, Jay Judson, was appointed as a permanent firefighter in Salem, N.H. I congratulate Jay on this achievement. Our requirements for becoming a Plaistow firefighter have been strengthened so that all new members will be state certified. You, of course, will be the beneficiary of these new requirements. We promise you continued excellence and the assurance that we will give you total effort whenever called upon.

I would also like to thank the members of the Board of Fire Engineers for their support and for their leadership. They do an outstanding job in directing the fire department and it's operations.

We have received total cooperation from the Board of Selectmen, the Police Chief and the members of his department, the Highway Department, and each and every town employee. For this I am most grateful.

With you continued cooperation, the Plaistow Fire Department will maintain its record of excellence in fire safety.

Respectfully submitted,

John D. Fitzgerald, Chief
Plaistow Fire Department

REPORT OF TOWN FOREST FIRE WARDEN

AND

STATE FOREST RANGER

Between July 1985 and June 1986, we experienced fewer fires than normal. The two leading causes of forest fires were again children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

Forest Fire Statistics - 1986

Number Fires Statewide	840
Acres Burned Statewide	751
Cost of Suppression	\$275,956
District:	
Number fires in district	424
Number Acres Burned	215
Cost of Suppression	\$ 2,570

Respectfully submitted,

Kim Salamy
District Chief (Retired)

John Fitzgerald
Warden

OPEN HOUSE, June 8, 1986

REPORT OF THE POLICE DEPARTMENT

1986 can best be described by the Police Department as a year filled with turmoil and unrest. Three fulltime officers left the Department, two part time officers resigned, one fulltime officer left on Workers' Compensation, and four fulltime officers attended the New Hampshire Police Academy. Personnel shifts of this nature and magnitude had a rather alarming, however, understandable effect in the budget areas of Overtime and Special Officer Operations as was readily apparent. Enormous residential and commercial growth compounded the turmoil by placing additional burdens upon the Department already strained by fewer officers.

The new Public Safety Building, during 1986, continued to be a much needed source of pride for the Department, and serves to illustrate succinctly the measure of support for Police/Fire services within the Town.

Statistically, the Town of Plaistow realized an 8% drop in Accidents and DWI arrests over the previous year. The Burglary rate remained exactly the same as 1985, while acts of Theft, Motor Vehicle Theft, and Criminal Mischief jumped dramatically from 33% to as high as 70%. Assaults, Calls for Service, and Disturbance Calls dropped from 21% to as high as 41%. Dramatic fluctuations may be the result of personnel turnover and growth.

The Department has targeted a number of projects on which to work during the next year. Of utmost importance is the need for both the Police and Fire Departments to organize and manage a professional communications center so that both Departments can be much more responsive to the needs of our community. This creation must be solidly based on wise, bold recruitment of communications personnel, proper equipment, and sound retention policies. Additionally, we plan on adding two fulltime officers at varying times during the new year in order to more appropriately face new service demands.

We currently are at full staff with the exception of one officer unavailable due to Workers' Compensation. Appropriately, we have commenced the search for more part time officers and were recently rewarded with over forty applicants from which to select. Our part time officers are a primary source of strength within the Department and we will continue to diligently work to maintain that strength. Changes within a community are not always favorable, for with the growth comes budget impact and unacceptable crime trends. While these so-called crime trends are admirably handled by a remarkably motivated young corps of fulltime officers, nevertheless the frequency of trend occurrence proves the need to assign an officer to investigations and follow-ups in the near future.

Often forgotten and taken for granted in an organization is the administrative staff, especially an administrative staff that is incredibly conscientious and sensitive to community and Department needs. The effects of growth have made their presence felt once again, thereby requiring us to request an additional

POLICE (cont'd.)

secretary at midpoint in the new year.

It is appropriate at this time that I personally acknowledge and thank each member of the Board of Selectmen for their vote of confidence in the selection process. Too, the Budget Committee is to be commended for their patience, understanding, and support during this difficult transition period. I eagerly look forward to future years and future work sessions. I would like to extend a personal thank you to all residents for making two new residents feel welcome.

It is also appropriate, in conclusion, that I pledge to my new town, professional management of their police department, an open frankness and sensitivity, and a willingness to work toward a better community through responsible law enforcement.

Respectfully submitted,

Stephen C. Savage
Chief of Police

REPORT OF THE OFFICE OF
EMERGENCY MANAGEMENT

Emergency Management, formerly called Civil Defense, is the backbone of the town's readiness to prevent, respond and restore the community and its residents to an acceptable quality of life following a disaster.

During the past year, the Emergency Management Plan has been updated to accommodate the changes with the new public safety facility. All town employees and officials serving on various Boards have a defined responsibility in a catastrophic situation. A 2-phase call system is in place to alert the emergency team to respond. Each department has a pre-assigned task, ie: operations, analysis, supplies, manpower, and resource and recovery. The Junior High School is the primary shelter and notification and instructions to residents will be available over Channel 38 cable station and local radio stations. Based on the town's population, 22 people are needed to staff an emergency operations center in a 24-hour period for Plaistow. An inventory of skills and equipment is maintained and sources of other assistance are constantly being added.

Preparedness is an on-going responsibility. The skills and knowledge required are continually changing and new methods and equipment as well as regulations are areas that must be updated frequently.

Local communities are accountable not only to the residents, but also to the State and Federal authorities. In the absence of local regulations, State and Federal ones automatically become the law. It is to our advantage that regulations affecting our community address our needs and are implemented at the local level.

It is both rewarding and challenging to implement and maintain a program such as the one in Plaistow and I thank those individuals who have volunteered and supported the program for the ultimate benefit of all. Plaistow has been described by State of N.H. officials as a model community for emergency planning. If you have skills or the desire to be part of our team, welcome! Instructional brochures on natural as well as man made disasters are available through this office.

Respectfully submitted,

Davena Szmyt, Coordinator
Emergency Management

Mark Nelson
Communications Assistant

David Gerns
Communications Officer

Merilyn Senter
Public Information Officer

REPORT OF THE HIGHWAY DEPARTMENT

Thomas White took over the supervisory position in April of 1986. Presently this department consists of myself, Ken Crowell, Charles Forsythe, and Richard Doyle. Utilizing the records of our department, I list below some of the projects undertaken by our department:

ROAD PAVING: ten (10) roads were repaved and 2 roads partially for a total of 4.3 miles.

BRUSH WORK: A total of 26 roads were extensively cut back this past year. The work was done by the Highway Department and two temporary laborers.

SHOULDER WORK: A total of 20 roads were cut back with a loader to remove sand buildup from the winter, rain washouts, and a buildup of natural elements such as leaves, brush, etc.

GUARD RAIL: A total of 667 lineal feet of beam guard rail was installed at 5 locations - Forest Street, Harriman Road, Pollard Road and Old County Road.

COLD PATCH: Approximately 225 tons of cold patch was placed down on town roads during 1986.

EQUIPMENT: We purchased through the N.H. Surplus Distribution Department a 1972 Chevy Stepside pickup in mint condition for \$250. which was a great asset to our department, utilizing it for summer help. We hope to have this vehicle painted and lettered this spring. This will make it an Official town vehicle.

SCREENED SAND: This summer we screened our own sand with the help of John Galloway. We screened approximately 2,500-3,000 yards of sand.

Respectfully submitted,

Thomas E. White
Highway Supervisor

Left to Right: Charles Forsythe, Thomas White—Supervisor, Richard Doyle, Kenneth Crowell—Foreman

REPORT OF THE BUILDING INSPECTOR

1986 was a year of growth and concern. The growth prompted by Plaistow's geographical position, close to the Massachusetts border, and concern raised by some citizens, disturbed by what they perceived too much, too fast. It was a year that saw dissensions arise between various citizens and town agencies. In our society, the placebo of a well run government body, in times of limited growth, often lulls its citizens into a state of apathy. I would hope that 1987 would see a citizenry more knowledgeable about what is taking place around them, more involved with town agencies in terms of filling positions on the decision-making boards rather than pointing fingers at them.

It was a year that was handled in a most professional manner by town agencies I have worked with, under very stressful conditions. It has been a pleasure working with them and my two assistants, Karl Conley, wiring inspector, and Ray Barton, plumbing inspector.

I have resigned my position as building inspector after several years of service with the town to pursue other commitments. My years of service have left me with memories of fine people, a deep sense of satisfaction, and a love of the Town of Plaistow. I hope that 1987 will be a year of solidarity and organized growth. I thank you all for the support you have given me over the years.

Respectfully submitted,

Guy L. Sawyer
Building Inspector

REPORT OF THE LIBRARIAN

The Town of Plaistow is growing and changing at a tremendous rate. AT the library this is evident through increased circulation, increased number of new patrons registered for 1986 and increased number of people using all the services provided by the library.

To help meet the demands of a changing community, the Assistant Librarian and I took two library related courses this past year. The knowledge gained was invaluable asit gave us the skills to analyze our community and its needs and to direct the library tword the appropriate goals.

The number of volumes added to the collection has increased by 1,321, the amount of non print material has been increased to include "books on tape" and the town records, dating back to 1743 have been microfilmed and are available for public use. Through the gernous donations of townspeople and the support of the Plaistow Lioness Club, the library was able to match a Mellon Foundation grant and receive, at no cost to the town, the 60 volume Library of America collection.

As the curriculum demands increase throught the school system the library is focusing on these needs and adding appropriate material to the collection. An 129 volume set of critical reviews of major literary works has been purchased for academic use as well as 95 additional volumes added to the reference section of the library.

Children's material comprise 50% of the library's circulation and with this knowledge in mind, the library has met their needs in various ways.

Several classes from Pollard School visited the library on a weekly basis during the school year as well as visits from local kindergartens and preschools. Preschool story hours were held at the library during the school year as well. During the summer, children from the Recreation Department program attended weekly story hours.

The Summer Reading Program had a different emphasis than in previous years. The theme "Region of Readers" included five area libraries, and encouraged reading at all levels of ability from preschool to adult. The Friends of the Library sponsored the program and through the reading efforts of the participants the library was able to raise an additional \$326.00 for book purchases.

The results were encouraging as there was a much larger number of participants in the summer program than in previous years and the program increased, awareness of the library and its services.

The Friends of the Library provided great support throughout the year. In addition to supporting the summer reading program, they also purchased a typewriter for public use, two large

LIBRARIAN (cont'd.)

folding tables for the meeting room, video cassettes for children's programs and a pass to the Boston Museum of Fine Arts. Their annual quilt raffle was extremely successful, not only financially but in creating a positive public awareness of the library. I would personally like to thank all members of the Friends of the Library for the tremendous amount of time, energy and support they have given to the library.

The Plaistow Lioness Club has been involved in many ways in the support of the library including an audio slide program on child safety, books on child safety and a collection of large print books. I would like to thank them for continually remembering to include the library in their community projects.

Many other individuals and organizations have also contributed to the library in various ways and I would like to thank all who have helped us this past year. Without your support continued growth would not be possible.

I also would like to thank all members of our staff, Jennie LeBlanc, Marjorie Knowles, Flo Rullo, Lori LeBlanc, Kathy Britton, Lee-Anne Davis, Clifton Cook and Gail LaFayette. They all bring unique talents to the job and together create a well rounded staff.

I would especially like to thank the Board of Trustees for their commitment to library excellence. Their professional attitude and high standards are to be commended. It is my pleasure to work with them.

As the town of Plaistow develops we anticipate further changes in library services. We look forward to meeting these challenges and to working with the community to create a library to serve its needs.

Respectfully submitted,

Laurie Houlihan
Director

REPORT OF THE TREE WARDEN

The Tree Department started off the year with an ice storm in early March. Many branches and limbs were snapped off in the roadways. Problem areas included Harriman Road, Pollard Road, Forest Street, Spinney Avenue, Old County Road, and Hale Spring Road.

Several people contacted me concerned about damaged trees on their property, and sought advice on their conditions. Only one was recommended to be removed because of its potential danger.

In May, the annual cleanup and pruning of shrubs on Pollard Square took place. Four flowering trees were planted including an ornamental flowering pear donated by Mrs. John Colcord, a flowering dogwood, a little-leaf Linden and a Japanese ornamental cherry. I assisted the Gardening Club in the planting of these Memorial trees. Three additional trees were also planted on Oakridge Road.

Several trees were removed along the roadways with three more scheduled for removal in the spring of '87.

After several calls to the State, as well as a letter from the Selectmen, the very old American Elm on Main Street, by Cannon's Variety Store, was taken down.

Anyone having a problem with trees, please contact Jim Collins, your Tree Warden, at 382-7686.

Respectfully submitted,

James F. Collins
Tree Warden

REPORT OF THE CEMETERY SEXTON

The year 1986 was rather uneventful as far as progress was concerned. The year was consumed with general maintenance of the grounds and equipment. The summer season was wet and resulted in constant mowing, trimming and raking. A few minor repairs to equipment was also needed. This was followed by an early winter which brought a quick end to our fall cleanup operation.

The year was also plagued with a shortage of labor, and added with the constant maintenance of grounds, it created a taxing situation. However, we look forward to 1987 and a progressive program of accomplishments. We hope to enlarge our shed which will make a more efficient operation of the cemetery facilities. It will give us much needed room to make small repairs to mowers which has been sent out in the past.

We also hope to number all lots in the new section of the cemetery which will eliminate any confusion as to the location of lots. This is a problem in the winter months as people want to know the exact location. People purchase lots in all four seasons of the year and want their sites identified. We also plan to draft new rules and regulations that will stipulate, at time of purchase, what can and what cannot be done with these lots. I would like to have public input on this.

In closing, I would like to thank the townspeople and public officials for their cooperation.

Respectfully submitted,

Herbert Reed
Cemetery Sexton

REPORT OF THE TOWN WATER LINE

We have experienced a good year with the line. One line broke in front of Mel's Barber Shop of Main Street and upon digging up the line we found that the bolts on the collars had loosened. When tightened, the leak stopped. The pipes inside the pumphouse that go from the jockey pump to the main line to maintain pressure had rusted through and needed to be replaced.

Being on the Fire Department, I know how important this line is. We had a condominium fire this past year and shuttling water by tankers was a must to the fire. These tankers worked off one of the hydrants and we were glad the system was there.

With the shopping center going up on Rte. 125, this water line is a must and an extension must be considered in the near future. We must have water in a short period of time in the event of a fire and the water line is the most practical source.

Respectfully submitted,

Donald Sargent
Waterline Maintenance Person

Donald Petzold
Water Superintendent

REPORT OF THE FAMILY MEDIATION PROGRAM

In 1986, Family Mediation of Southern Rockingham County continued to provide essential services to juveniles and families in the communities of Atkinson, Danville, Hampstead, Kingston, Newton and Plaistow. The program serves as a juvenile court diversion program for juveniles who are experiencing difficulties at home, school or in the community. Services provided include mediation, probation, case assessment, case management, referrals and crisis intervention.

During 1986, the program worked with over seventy area juveniles and families. Funded by the six communities and the Hampstead-Timberlane United Fund, the program is able to offer services to any area juvenile or family free of charge. As a result of this, many families have utilized the program successfully resolving issues without further need of Court intervention and possible placement of the juvenile outside of his/her home and community.

Once again I would like to extend my appreciation and gratitude to the volunteer mediators and Board of Directors without whom the program could not function. It is their dedication to the members of their communities that allow the program to provide the effective services that it does.

We look forward to another year of involvement with local families and hope that area residents will continue to support the work being done by this program.

Respectfully submitted,

Dawn Barnes Krygeris
Program Coordinator

REPORT OF ANIMAL CONTROL

I would like to thank all the residents who worked with the animal control officers this past year. As I stated last year, we were going with court summonses for unlicensed dogs. About 450 summonses were issued and this resulted in the highest year of dog licensing. 842 dogs were licensed in Plaistow this past year. Again this year, the same summonses will be issued for unlicensed dogs.

I ask for your support again this year. I submit the following statistics:

Calls for Information	509
Calls for lost dogs	87
Reports of dog bites	11
Dogs put to sleep	21
Dogs killed by autos	32
Cats killed by autos	60
Cats put to sleep	30
Dead skunks picked up	27
Live skunks trapped	41
Raccoons killed by autos	10
Raccoons trapped live and released	31
Loose horses	11
Deer killed on roads	1
Dead woodchucks	9
Woodchucks trapped live	17
Fox killed by autos	1
Fox/chicken problems	4
Snake problems	4
Bat problems	5
Rat problems	17
Dogs returned to owners	51
Dogs to new homes	26
Court summonses issued for unlicensed dogs	421
Court summonses issued for unrestrained dogs	31
Beaver problems	6
Barking dog problems	77
Rabbits removed from roads	11

Respectfully submitted,

Donald Sargent, Animal Control Officer
Judith Sargent, Asst. Animal Control Officer

REPORT OF THE BOARD OF ADJUSTMENT

The year 1986 saw a large increase in hearings for the Zoning Board of Adjustment - from 23 cases in 1985 to 57 in 1986. The work load of the ZBA grew as has so many things in Plaistow. Special exceptions numbered 32; variances, 22; and appeals to administrative decisions, 3.

Special work sessions were held to revise the by-laws and to work on proposed revisions in zoning which were recommended to the Planning Board for presentation to voters in March.

Application fee for a hearing was raised to \$60 effective January 1987 in the Board's continuing effort to keep operating costs covered by the fee so that the ZBA budget will be a "wash" item as far as expense to the town.

New alternates this year are: David Harnett and Michael Alberts. State law once again allows five alternates. Charles Graham turned over the gavel at our annual election to Gerald Holt. Vice-chairman is Richard Blood and Clerk is Emile Langlois.

The Board meets the last Thursday of each month at 7pm at the town hall.

Respectfully submitted,

Gerald E. Holt, Chairman
Richard E. Blood, Vice-chairman
Emile G. Langlois, Clerk
Charles R. Graham
Donald E. Wood

Alternates:

Joyce Wright
Norman Major
David Hart
David Harnett
Michael Alberts

Ruth E. Palmer, Recording Secretary

REPORT OF THE HIGHWAY SAFETY COMMITTEE

The major highway improvement of 1986 was the completion of the reconstruction of Rte. 125, our busiest highway.

The next major reconstruction project will be that of the B & M Railroad overpass, and the Highway Safety Committee supports state legislation to fund the \$2.3 million dollar project in fiscal 1988 instead of in 1989 as originally planned by the state.

Although our in-town streets have become busier as people seek alternatives to travel on Rte. 125, the Highway Safety Committee feels we have seen only the tip of the iceberg. In addition to reconstruction of the overpass, the town will see added traffic from the Pentucket Shopping Mall, the Old County Square mall, and the several multi-family projects which were okayed in 1986.

An urgent need in Plaistow is a complete road evaluation and a concrete plan for upgrading those roads which, for the most part, are substandard. Highway Safety Committee feels that a town engineer is badly needed to oversee not only the highway department but also to assist the planning board and our committee. Many times our committee is asked to comment and make recommendations on plans and an engineer would give added credibility to our recommendations.

Another urgent project that the town should undertake is the construction of sidewalks, especially in the village in the vicinity of the school and library. Not only is construction of sidewalks a priority, but also the maintenance, summer and winter, of those sidewalks. As our traffic counts increase, so does the importance of making sure our children are safe as they walk to and from the school and the library.

The main purpose of the Highway Safety Committee is to review plans submitted to the planning board and to make recommendations regarding potential safety problems. It also reviews questions posed by citizens and the Board of Selectmen and makes recommendations about speed limits, street lighting, driveways and safe parking.

Among the items the committee will address in 1987 is the urgent need for safe parking around town hall. We will also continue our close scrutiny of projects and developments (both those that already exist and those that are on the drawing boards). We will also continue to welcome questions and input from residents and the business community as well.

The Highway Safety Committee regularly meets the Tuesday before the fourth Wednesday of each month, at 6:30pm in the town hall. We also meet at the request of the planning board or the Board of Selectmen to address anything of an emergency nature.

Respectfully submitted,

Merilyn P. Senter, Secretary

John Ventura, Selectmen's Liaison
Henry Barbaro, Rock. Planning Comm.

Clifford Miller
Stephen C. Savage, PPD Chief
Thomas White, Highway Supvr.

OLD HOME DAY '86

REPORT OF THE RECREATION COMMISSION

Plaistow's Summer Recreation Program had it's most successful season with over 300 youngsters in 1986. Due to budget restrictions, it was necessary to close registrations at this number. It is the Commission's desire to maintain a quality program that is beneficial and safe for all children and request the community's support so that no child need be denied.

The league's and programs sponsored by Plaistow Recreation continue to offer fine recreational activities due to the dedication of the volunteer coaches and parents.

An important step this year was the installation of an outdoor skating rink at Earl Smith Memorial Field. Many thanks go to the Plaistow Lions Club for their work in this project.

We have tried to make the town aware that a Recreation Director is needed in this community. The main reasons for the Director would be the continued growth of the community and the variety of recreational programs needed to support such a community.

We urge all community members to get involved with recreation. Your input would be gratefully accepted. The planning and implementation of programs to protect and conserve our resources requires community involvement.

Our thanks to all of you who took part in our 1986 programs.

Respectfully submitted,

Barry Sargent, Chairman
Susan Sherman
William Rees
Darrell Britton

REPORT OF THE PLANNING BOARD

In January of 1986, the Planning Board adopted additions to the Subdivision and Site Review Regulations, i.e., plan review expenses, requiring the developers to absorb cost of consultant engineer and Planning Board attorney reviews; preconstruction meetings between the developer, building inspector and the consultant engineer prior to issuance of building permits, thus allowing the determination of construction costs, costs of bonding, site inspection schedule (costs to be borne by developers). In addition, sections for scattered and premature developments, impact studies, conversions to condominiums, were also adopted.

In April, the Board elected John Pichowicz, Jr. as Chairman and Bonnie Kissel as Secretary. During the year the Board of Selectmen appointed Susan Collins and Charles Scala as alternates. Also, in April, in spite of a very heavy schedule, the Planning Board, at the request of Citizens for Orderly Growth, scheduled meetings to review their revised version of the cluster ordinance.

Monthly meetings were held with members of COG, representatives from the various boards in town and Rockingham Planning Commission, to receive input. On June 11, 1986, the Planning Board voted unanimously to accept this version of a revised cluster ordinance, with modifications, to be presented on the March ballot.

On July 7, 1986, the Board of Selectmen, received a petition from COG and others, to eliminate the cluster ordinance in its entirety, and to enact a growth management ordinance, as soon as possible, calling a special town meeting to accomplish this.

The Planning Board and Board of Selectmen in an effort to respect and fulfill the wishes of the voters of Plaistow, scheduled a joint meeting with Town Attorney, to discuss this turn of events. Being advised that the Master Plan must be revised to reflect and uphold the elimination of the cluster ordinance, and a workable Capital Improvement Plan must be developed and put in effect to uphold in Court a growth management ordinance, it was decided to continue working on the COG cluster ordinance.

Meetings on the COG's revision of the cluster were held in September and October, to refine and bring in line with Federal and State Regulations, the Town's interpretation of the types of housing that must be provided to the majority of the populace. The Public Hearing on the Citizen's for Orderly Growth's revised cluster ordinance was held on November 19, 1986, and the Planning Board, voted unanimously to place on the ballot, "Recommended by the Planning Board".

PLANNING BOARD (cont'd)

This year six subdivisions were approved creating 59 residential lots and two commercial lots, in addition to, seven lot line adjustments and one condominium conversion.

Thirty-five site developments were approved, broken down as follows:

Four were for condominiums, creating a total of 177 units.

Nine were for new commercial ventures.

Twelve were for commercial additions.

Nine were site changes.

One for conversion from residential to commercial use.

Respectfully submitted,

John Pichowicz, Jr. Chairman
Bonnie Kissel, Secretary
Charles Graham, Member
Clifford Miller, Jr. Member
Darrell Britton, Jr. Selectmen's Representative
Susan Collins, Alternate
Charles Scala, Alternate

REPORT OF THE PLAISTOW HISTORICAL SOCIETY, INC.

This report is given with a great sense of pride and gratitude to the people of Plaistow.

First of all, we wish to thank all the people who have so generously supported us in all our endeavors this past year. The monetary donations, the materials and labor given gratuitously for the renovations to our new home (the former fire station) and for the words of encouragement for the monumental undertaking of renovating the building. We wish to thank the Board of Selectmen and their staff for all their help and understanding, the Plaistow firemen for moving our very heavy display cases and files.

A thank you to the family of the late J. Harold McPherson for establishing a memorial fund, with contributions to be sent to the Plaistow Historical Society, Inc. in his memory.

1986 was a very big year for us, the Plaistow Historical Society, Inc. We presented a check to Peter Lund for the purchase of the gold leaf to be applied to the Roman numerals on the restored faces of the town hall clock. Two years of fund raising events, supported by you, the people, made this possible. I am sure that all of us enjoy seeing how they enhance our very beautiful town hall.

We signed a lease with the Town of Plaistow, granting us the use of the former fire station and you, the people, voted us a \$3,000 appropriation to help us underwrite our very ambitious renovation plans.

In order to accomplish these plans, we had several fund raising events. We rented table spaces on the village green on Old Home Day, and we also offered home baked goodies and iced tea and lomonade for sale. These proved to be very successful and was enjoyed by all.

The first event to be held in our new home was a flea market and bake sale. Again, our friends and members were very generous with contributions and purchases. Early fall we invited the people of Plaistow to a preview of what we had accomplished and our future plans for the building. An architect's drawing of these plans and what the finished product would look like were on display. Those attending showed much interest and enthusiasm. A few artifacts were donated to us at this time.

As of this report, the two large overhead doors have been removed and two beautiful bay windows and a door have been installed. The front has been bricked and insulation has been placed around the windows. A panic bar, handles and locks have been installed on the door and the walls have been studded. Our next priority is electrical work, followed by the installation of a new heating system. Soon we shall be ready to install sheetrock, and by early spring, the gable will be redone. After that, the outside will be ready for painting.

PLAISTOW HISTORICAL SOCIETY, INC. (cont'd.)

1987 will be a year of great challenge to us, but it also holds much promise. With dedication and hard work from our members and the continued support from the people of Plaistow, our dreams of an historical museum for Plaistow will come to fruition.

Now that we have a building that is large enough and secure, we eagerly await the donation or lending of artifacts and historical memorabilia of Plaistow that has been in hideaway places awaiting such a museum.

In closing, I wish to thank the officers and the committee chairmen and all the members of the Plaistow Historical Society for their support and encouragement given to me, and for their faithful and tireless efforts during the past year. For without them, and you, none of this would have been possible.

Respectfully submitted,

Bernadine A. FitzGerald, President
Plaistow Historical Society, Inc.

Plaistow's new Historical Museum, formerly the Plaistow Fire Station, Main St.

REPORT OF LAMPREY HEALTH CARE

Lamprey Health Care (formerly the Newmarket Regional Health Center) marks its sixteenth year of providing services during 1987. Lamprey Health Care operates two medical offices, one in Newmarket and one in Raymond. Both facilities provide general medical care, preventive health services, community outreach, social services and short term counseling with referral to mental health agencies. Services also offered by Lamprey Health Care include Senior Citizen Transportation and Information & Referral Services for Rockingham County.

The change of name from the Newmarket Regional Health Center to Lamprey Health Care was the result of a long and careful planning process. The word "Lamprey" was chosen because it brings a sense of history, and "Health Care" was chosen because it best summarizes what we do and what we believe in.

Along with our new name, 1986 was a year of big changes for Lamprey Health Care. In January, the new Raymond facility opened on Route 27. The new 6,200 square foot facility allows Lamprey Health Care to provide more services in a spacious modern facility to the residents of the Raymond area. The Board and Staff of Lamprey Health Care are in the planning process for a new facility in Newmarket to replace the current one on Elm Street.

Paul Friedrichs, M.D., a Family Practitioner, joined the staff in June, as did John Mark Blowen, Family Nurse Practitioner. They join Edward Benoit, M.D. and Karen Brainard, M.D. - Family Practitioners, Cynthia Rasmussen, M.D. - Obstetrician/Gynecologist, Sarah Oxnard, M.D. - Pediatrician, Michael Lewis, P.A.-C., Barbara Janeway, A.R.N.P., and Anne Fawcett, A.R.N.P. to the medical team for Lamprey Health Care. In June of 1987, Micki Kantrowitz M.D., Family Practitioner, will join the staff. The addition of physicians in recent years allows Lamprey Health Care to serve the growing population of this area effectively.

Under the direction of Dr. Rasmussen, Lamprey Health Care offers a prenatal program which includes prenatal, delivery, and postpartum care. Other components of the program include nutritional counseling, prenatal classes and social service referral.

Lamprey Health Care continues to operate the Senior Citizen Transportation Program. In December of 1986, Lamprey Health Care purchased two new 18+ passenger buses to replace two buses with many miles and high maintenance costs. These two new buses were purchased in cooperation with COAST (The Cooperative Alliance for Seacoast Transportation) and are a welcome addition to our fleet of buses. Three of the five buses are equipped with hydraulic lifts to provide services to the handicapped. The transportation service enables senior citizens to remain independent, self-sufficient and active by providing the means to needed services, including medical, food shopping, and recreational trips. For further information call 659-2424 or our toll-free line 1-800-582-7279.

HEALTH CARE (cont'd.)

In early 1987, a new medical information program will be available. Tel-Med is a taped library of "non-diagnostic" health information designed to provide basic facts about certain diseases, conditions, or health issues. The library will contain 200 taped messages which can be accessed 24 hours/day, 7 days/week by residents with touch tone phones and Monday - Friday from 8am to 4pm by residents with rotary dial. The numbers to call to reach Tel-Med are 433-3232 and 433-3242, and 659-7514 and 659-7516. The Tel-Med Program is funded by the Foundation for Seacoast Health of Portsmouth. For more information about Tel-Med, call 659-3106.

Lamprey Health Care wishes to express its deepest appreciation for the support of the town of Plaistow.

Respectfully submitted,

Ann H. Peters
Executive Director

REPORT FROM DERRY VISITING NURSE ASSOCIATION

Derry VNA strongly believes that the overall health of any community springs from the health of each individual, family, and group within that community. As your community home health care agency, Derry VNA is committed to working with you to address the continuum of human health concerns in Plaistow from early childhood health promotion, to helping people recuperate at home after an acute episode of illness, to caring for the elderly and handicapped in their homes. Our services are designed to build upon individual, family and community strengths.

We are always looking for new ways to intergrate our traditional community values with continuing changes in human need and services. No other home care agency has these ties with your community. We would be delighted to talk with you about your ideas or your needs. We currently provide the following services:

ACUTE CARE SERVICES including nursing, physical therapy, occupational therapy, speech therapy, home health aide services, and other specialized services such as intravenous therapy.

DAILY SUPPORT SERVICES including maintenance nursing, home health aide, homemaker, respite care, shore services, in home day care, and other specialized services.

HEALTH PROMOTION SERVICES including well child clinics, immunizations, expectant parent classes, new born visits, senior health clinics, public screening services, worker health, health promotion education, home visits, and

VISITING NURSES (cont'd)

other community services.

The total value of all services delivered by Derry VNA in Plaistow last year was \$53,255.77, a considerable increase over the prior year. For every dollar allocated by your town to DVNA, town residents received \$4.11 worth of services. This is one of the highest ratios of allocation to service in our service area. Town allocations are used in the following ways:

Most funding sources (including Medicare, Medicaid, Title XX, Block Grants, State funding, insurance, etc.) are restricted to specific categories of illness, age, income, home bound status, time periods, or other restrictions. Increasingly, people who need home care services simply do not fit those specific eligibility categories throughout the entire period of need. Town funds are used to extend services beyond the restrictions of those payment sources. Some funding sources (especially Medicare, Medicaid, Title XX, and state funding sources) pay only a portion of the total cost of the service. Town funding, special grants, and United Way funding are used to subsidize these payment sources.

And, there are services for which the only payment source is town funding or a combination of town funding with special grant funds. Sometimes, town funding is used as seed money to get a new service started.

Only with town funding can an agency provide such a range of services to citizens of Plaistow.

STATISTICAL REPORT FOR FISCAL YEAR, JULY 85 - JUNE 86
FOR PLAISTOW

SERVICES	SERVICE UNITS
Acute Care Services	
nursing	166
physical therapy	184
occupational therapy	8
speech therapy	0
home health aide	101
office visits	0
single treatments visits	3
Daily Support Services	
maintenance nursing	35
home health aide	59
maintenance therapy	0
homenaker	1816
HELP	157
Health Promotion Services	
well child clinic	0
immunization clinic	2
expectant parent classes	0

VISITING NURSES (cont'd.)

children's home visits	22
senior clinics	194
growing younger classes	0
health promotion home visits	18
Miscellaneous	31
Total cost of all services	\$53,255.77
Town allocation for period	\$23,955.00

It is impossible to translate the above statistics into human values. Our many clients testify what a significant difference in-home care makes in their lives. Derry VNA has a strong committment to helping the elderly, the sick, and the handicapped to maintain their independence and dignity at home. And, the agency has a strong committment to health education and preventive health practices to help people delay or prevent illness.
