Brookline History Committee Progress Report 2005

The Brookline History Committee (BHC) was formed in May 2003. It is tasked with compiling and writing up the town history primarily from 1914 to present.

In 2005 the history committee continued to meet on the second Thursday of every other month starting in January. The members are continuing to write up or gather information pertaining to specific areas of town history and have made some progress in these efforts. The minutes and the web site contain a lot of our current research efforts.

The BHC has been working with Cable/Web Committee member Chris St. George to digitally video tape interviews of town senior citizens. Thus far we have taped interviews of Donald Barnaby and Ellen Winters. Are you someone we should interview? Please contact us and let's schedule a time to do this.

Although the BHC is supposed to be only writing the history of the town since 1914, numerous times this year it was called upon for advice in other areas. The Cable/Web Committee asked the BHC to recommend what video tapes and other information they compile throughout the year should be archived for future reference. The BHC was represented at the Hazardous Mitigation Committee to help with a historical accounting of past town events. The BHC received permission from the selectman to distribute historical information (the gold booklets available at town hall) to the school system and work with the schools to promote the history of Brookline as a subject in the school system. (still working on this). Throughout the year the BHC chairman helps with various requests for historical data.

Research into exactly what data on Brookline is stored in Concord at the state archives, the state library and Tuck Library at the NH Historical Society has been done. A log of what data they have on Brookline has been compiled.

The history of the roads in town is being compiled by Benjamin Sacks. He will be including a current photo of all streets along with minimally a brief history as to the naming of that road. He has been getting information from town hall records working with the historical society. The committee has been using the town digital camera for these pictures and has purchased a memory card to use with the camera. These pictures will be available on the town web site and as information continues to be gathered this too will be added to the site. Lynne has been gathering digital maps of the town from various years and posting them to the web site.

The school history is still being compiled. The breakdown of efforts is as follows; Ellen and Donald 1920's and 1930's, Clarence 1940's and 1950's, Marcia 1960's => late 1980's, Lynne 1990's-2000's. A large box of newspaper clippings and old minutes was borrowed from the SAU. Also a box of clippings, photos and information is on loan from Elizabeth Eaton, former principal of RMMS.

Ben and Lynne have been continuing to do photo archiving of old Hollis Times and Brookline Reporter newspapers. The time period ranges from 1892 to 1916. There is usually a small section of the paper that covers Brookline news and periodically the paper focused on Brookline. After overcoming many obstacles in the process needed to do this, we are making good progress. As you read through the issues, you can extract a feel for what life was about in town at this time. Look for these images on the history committee web pages in the near future. Lynne is also working on the history of newspapers in town.

Once again the committee will make its annual plea for additional HELP!! Please think about volunteering some time with us on this committee. Also, please remember if you have any stories, photos, interesting facts about the last 100 years of life in Brookline, please contact a committee member and share with us this information.

Current members of the committee are Chairman Lynne Abt, Ellen Winters, Clarence Farwell, Marcia Farwell, Nancy Howard, and high school student Benjamin Sacks. We are thankful for the guest attendance of Donald Barnaby. This year we had Claudette Gill, a former town librarian now living out of state, become involved long distance and is helping by writing the history of the libraries. We are also enlisting the help of town resident Bill Graham in the area of Veterans history.

Please reference the BHC information off the www.brookline.nh town web site to see a schedule of meetings, review of minutes, current table of contents and in general to stay in tune with what the committee is working on.

You can contact us at HistoryCommittee@brookline.nh.us or send a letter to town hall.

Sincerely,

Lynne Abt
Chairman, BHC

**TOWN WARRANT
THE STATE OF NEW HAMPSHIRE**

**THE POLLS WILL BE OPEN FROM 7:00 AM TO 7:30 PM
TUESDAY, MARCH 14, 2006**

**BUSINESS MEETING STARTS AT 7:00 PM ON
WEDNESDAY, MARCH 15, 2006**

AT THE CPT. SAMUEL DOUGLASS ACADEMY

To the inhabitants of the Town of Brookline in the County of Hillsborough in said State, qualified to Vote in Town Affairs:

You are hereby notified to meet at the Capt. Samuel Douglass Academy in said Brookline on Tuesday, The fourteenth (14th) day of March at 7:00 a.m. to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. (By Ballot at Meeting) Bond for Land Acquisition

To see if the Town will vote to raise and appropriate the sum of Five Hundred Thousand Dollars (\$500,000.00) (Gross Budget) for the purchase, by the Town, of land or other property interests therein, for conservation purposes, as the Selectmen deem appropriate and in the best interest of the Town; and to authorize the issuance of not more than Five Hundred Thousand Dollars (\$500,000.00) of bonds or notes, in accordance with the provisions of the Municipal Finance Act, (RSA 33:1 et seq., as amended), and, further, to authorize the Selectmen to issue, negotiate, sell and deliver said bonds and notes and to determine the rate of interest thereon and the maturity and other terms thereof, and to take any other action they deem appropriate to effectuate the sale and/or issuance of said bonds or notes, subject, however, to the following limitations:

- No such bonds or notes shall be issued earlier than July 1, 2006; and,
- Any of such bonds or notes shall have appropriate terms and maturities such that no principal or interest payments shall become due and payable prior to January 1, 2007; and,
- No such bonds or notes shall be issued with a term of maturity of less than ten (10) years

PROVIDED, FURTHER, that the Selectmen **SHALL NOT ISSUE SUCH BONDS OR NOTES** until such time that they have presented to either an annual or special town meeting, a warrant article asking the meeting to ratify, by a simple majority vote, the particular parcel and parcel ownership interest chosen by the Selectmen for purchase and said meeting has approved such warrant article.

(This article requires a 2/3 BALLOT vote to pass, as set forth in RSA 33:8. THIS IS A SPECIAL WARRANT ARTICLE AND IS NOT INTENDED TO LAPSE AT THE CONCLUSION OF CALENDAR YEAR 2006 BUT IS INTENDED TO LAPSE AT THE CONCLUSION OF CALENDAR YEAR 2007, IF NOT IMPLEMENTED WITHIN THAT TIME FRAME)

Recommended by Selectmen 3-0.

Recommended by Finance Committee 2-0.

3. To see if the Town will raise and appropriate the sum of **\$3,242,032** to defray town charges for the ensuing year and make appropriations of the same.

4. To see if the Town will vote to raise and appropriate the sum of **\$237,250** to purchase approximately 34,700 sf of land behind the existing Brookline Public Library in order to accommodate a future addition to the library, or take any action relative thereto. Said sum represents a purchase price of \$250,000 less \$12,750 paid by the Town to lease the property for a parking lot during 2005 and the first half of 2006.

Recommended by Selectmen 3-0

Not recommended by Finance Committee 2-0.

5. To see if the Town will vote to authorize the Board of Selectmen to enter into a five (5) year lease agreement for \$229,995 for the purpose of leasing and equipping a combination Tanker/Forestry Truck to be used by the Brookline Fire Department and to raise and appropriate the sum of **\$45,999** for the first years payment for that purpose, or take any action relative thereto. The purchase of this vehicle would replace the 1979 5-Engine-1 fire truck. Said lease agreement contains a fiscal funding clause which permits the termination of the lease on an annual basis should the funds necessary to make the required payments not be appropriated by town meeting.

Recommended by Selectmen 2-1.

Finance Committee voted 1-1.

6. To see if the Town will vote to raise and appropriate the sum of **\$60,000** for the purpose of road/bridge improvements, or take any action relative thereto. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until December 31, 2009.

Recommended by Selectmen 3-0.

Recommended by Finance Committee 2-0.

7. To see if the Town will vote to approve adding a health insurance benefit for employees of the Brookline Public Library and to raise and appropriate the sum of **\$9,065** for the current fiscal year, such sum representing the additional costs attributable to adding the health insurance benefit as of April 1, 2006. The amount raised will be incorporated into the Library operating budget for accounting purposes.

Recommended by Selectmen 3-0.

Recommended by Finance Committee 2-0.

8. To see if the Town will vote to raise and appropriate the sum of **\$1,000** for a longevity stipend for a full time employee not covered by the collective bargaining agreement who has provided at least 5 years of full time service to the Town as of 12/31/06, and who did not receive a longevity stipend in 2005, or take any action relative thereto. Such payment is to be made at the last payroll warrant of 2006.

Recommended by Selectmen 3-0.

Recommended by Finance Committee 2-0.

9. To see if the Town will vote to raise and appropriate the sum of **\$2,030** from the unreserved fund balance to be deposited into the Ambulance Service Expendable Trust Fund.

Recommended by Selectmen 3-0.

Recommended by Selectmen 2-0.

10. To see if the Town will vote to **decrease** the percentage of Land Use Change Tax that is allocated to the Conservation/Land Acquisition Fund from 100% to 50%, or take any action relative thereto.

Recommended by Selectmen 2-1.

Not recommended by Finance Committee 2-0.

11. Shall the Town of Brookline, NH vote to affirm the Planning Board's authority under RSA 674:5, Authorization, to adopt or amend a recommended program of municipal Capital Improvements projects projected over a period of at least 6 years, as set forth in RSA 674:6-8? The sole purpose and effect of the Capital Improvements Program (CIP) shall be to aid the Selectmen and the Finance Committee in their consideration of the annual budget. Additionally, maintaining a current CIP is a prerequisite for impact fees under RSA 674:21, Innovative Land Use Controls, and growth management under RSA 674:22, Growth Management; Timing of Development.

12. To receive the reports of agents, auditors, committees, and all other Officers heretofore chosen, and pass any vote relative thereto.

13. To see if the Town will vote to accept the following legacies:

1. The sum of \$600 for the perpetual care of the Greenwood Lot #343A in Pine Grove Cemetery;
2. The sum of \$300 for the perpetual care of the Coffey Lot #338A in Pine Grove Cemetery;
3. The sum of \$300 for the perpetual care of the Irwin Lot #SF16 in Pine Grove Cemetery.

14. To transact any other business that may legally come before said meeting.

15. (By Petition, by Ballot) Are you in favor of increasing the board of selectmen to 5 members?

16. (By Ballot) Are you in favor of the adoption of **Amendment No. 1** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Section 501.00, Location; to add text to section “b” to **correct an error in the current textual description of the Industrial-Commercial District boundaries** that should include all of lot G-52-2 and the portion of all lots north of lot G-52-2 within 500 feet of NH Route 13 to the east, and the northern boundary of lot G-53-1. This correction is supported in Planning Board minutes regarding the original zoning amendment, is depicted on the current Zoning District map and has historically been in commercial use.

In addition; to combine and simplify the text in 501.00, a, and b, and place it into section “b”; to move and simplify a portion of the existing text from section “d” and place it into section “a.” This begins an ongoing process of logically reorganizing and simplifying this portion of the ordinance.
The Planning Board approves of this amendment 5-0.

17. (By Ballot) Are you in favor of the adoption of **Amendment No. 2** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Sections 501.00, b; to include lot G-53-1 (Big Bear/B4 Function Hall) in its entirety (As recorded as of March 14, 2006) within the Industrial Commercial District, which converts the Residential-Agricultural portion of the parcels to Industrial-Commercial. This is the beginning of an ongoing program by the Planning Board to eliminate “split-zoned” lots, wherever possible, within the Town, and is supported by the landowners.
The Planning Board approves of this amendment 5-0.

18. (By Ballot) Are you in favor of the adoption of **Amendment No. 3** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Sections 501.00, c; to include lot C-42 (former Tapply Lumber) in its entirety (As recorded as of March 14, 2006) within the Industrial Commercial District, which converts the Residential-Agricultural portion of the parcel to Industrial-Commercial; and to simplify the textual description in section “c”. This is the beginning of an ongoing program by the Planning Board to eliminate “split-zoned” lots, wherever possible, within the Town, and is supported by the landowners.
The Planning Board approves of this amendment 5-0.

19. (By Ballot) Are you in favor of the adoption of **Amendment No. 4** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Sections 603.03, Land Area, 603.05 a, and b, Back Lots, and 1505.04, Lot Size; to add “excluding wetlands” when determining minimum lot size for standard residential, back lots, and open space building lots. This is intended to **clarify requirements already approved at 2003 Town Meeting** that excludes wetlands in residential minimum lot calculations.
The Planning Board approves of this amendment 5-0.

20. (By Ballot) Are you in favor of the adoption of **Amendment No. 5** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Sections 603.04, Number of Dwelling Units; 603.05, b, and c, Back Lots; 1505.01, Density; 1505.04, Lot Size, to clarify one dwelling unit is permitted per building lot by; replacing the existing text in Sections 603.04 and 1505.04, “...permitted per minimum land area” with

“...permitted per individual building lot, except as provided in Section 2000.00, Accessory Dwelling Units.” Delete 603.05, b, which is repetitive. Delete “...for each dwelling unit,” from 603.05, c. Delete “(1 unit per 80,000 square feet) in 1505.01.”

The Planning Board approves of this amendment 5-0.

21. (By Ballot) Are you in favor of the adoption of **Amendment No. 6** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Section 2200.00, Housing for Older Persons (HOP); to clarify HOP developments as an overlay district and references applicable statutes in the 2201.00, Purpose and Intent; and 2202.01, Definitions; to add section 2204.00, Compliance, referencing applicable statutes and requiring annual reporting to the Town of proof of compliance with the ordinance; and add section 2205.00, Enforcement, Conflict and Severability; to specify enforcement and reference applicable sections of the zoning ordinance.

The Planning Board approves of this amendment 5-0.

22. (By Ballot) Are you in favor of the adoption of **Amendment No. 7** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Section 2400.00, Enforcement; to clarify the authority of the Board of Selectmen to designate a Code Enforcement Officer (CEO) to enforce Brookline Land Use Laws (Ordinance) as provided in state statutes; to provide for the Selectmen to adopt procedures for how the CEO will address land use violation complaints; to identify procedures for receiving notice of violations; and referencing the statute for appeals to the Board of Adjustment.

The Planning Board approves of this amendment 5-0.

23. (By Ballot) Are you in favor of the adoption of **Amendment No. 8** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Section 2600.00, Amendments; to simplify section 2601.99 to reference RSA Chapter 675, Enactment and Adoption Procedures.

The Planning Board approves of this amendment 5-0.

24. (By Ballot) Are you in favor of the adoption of **Amendment No. 9** as proposed by the Planning Board for the Town of Brookline Zoning Ordinance as follows?

AMEND Section 2700.00, Fines and Penalty; to simplify and reference RSA 676:15-17.

The Planning Board approves of this amendment 5-0.

25. (By Ballot) Are you in favor of the adoption of **Amendment No. 10** as proposed by the Planning Board for the Town of Brookline Building Code as follows?

AMEND Section 300.02, Foundations; to require a certified plot plan when the Building Inspector cannot determine compliance with setbacks and other limiting requirements in the land use laws during a field inspection.

The Planning Board approves of this amendment 5-0.

26. (By Ballot) Are you in favor of the adoption of **Amendment No. 11** as proposed by the Planning Board for the Town of Brookline Building Code as follows?

AMEND Section 300.03, Buildings; to provide for the adoption of the “2006 International Residential Code” in addition to the New Hampshire State Building Code as promulgated in RSA 155-A.

This is part of the Building Inspector’s continual updating of local building codes not covered under the NH Building Code and replaces the 2000 International Residential Code – One and Two-family Dwellings. As of 2005, the State Building Code includes the International Building Code 2000, International Plumbing Code 2000, International Mechanical Code 2000, International Energy Conservation Code 2000 and National Electric Code 2002.

The Planning Board approves of this amendment 5-0.

27. (By Ballot) Are you in favor of the adoption of **Amendment No. 12** as proposed by the Planning Board for the Town of Brookline Building Code as follows?

AMEND Section 300.04, Building Permit & Certificate of Occupancy; to add title and to clarify when a certificate of occupancy is required. In addition, to specify requirement of a building code, fire/safety inspection is required before a certificate can be issued. When a building permit is required, a Certified Plot Plan may be required by the Building Inspector.

The Planning Board approves of this amendment 5-0.

28. (By Ballot) Are you in favor of the adoption of **Amendment No. 13** as proposed by the Planning Board for the Town of Brookline Building Code as follows?

AMEND 500.01, Enforcement; to specify that in addition to the Selectmen, the Code Enforcement Officer has the authority to enforce Brookline Land Use Laws (Ordinance) as provided in state statutes.

The Planning Board approves of this amendment 5-0.

(Amendment 6) -

2200.00 HOUSING FOR OLDER PERSONS DEVELOPMENTS

The Town of Brookline recognizes the need to provide special housing opportunities for older persons. Such housing must be well sited and designed to meet the special needs of this age group. Housing for Older Person Developments may be located as an overlay zone wherever the conditions described in the siting requirement standards, below, can be met. Housing for Older Person Developments shall be reviewed under the site plan regulations of the Town of Brookline in addition to the requirements of this ordinance. Whenever a conflict occurs between this ordinance and the site plan regulations, the more restrictive requirements shall apply.

2201.00 Purpose and Intent

- a. It is a goal of the Town of Brookline to promote the development of housing designed to meet the special needs of older persons.
- b. **This ordinance operates as an Overlay Zoning District.**
- c. It is the intent of the Town of Brookline to provide for the special needs of older persons by allowing for Housing for Older Persons developments with unique dimensional and institutional requirements that meet the social, mobility and safety needs of this age group.
- d. **Housing developed in this section must be established and maintained in compliance with all applicable state and federal laws with respect to such housing and/or medical care, including the Fair Housing Act, as amended, 42 USC Sec 3601 et seq., NH RSA 354-A:15 and the NH Code of Administrative Rules, Hum 300 et seq.**
- e. Pursuant to RSA 354-A:15, II and III, it is recognized that prohibitions against housing discrimination do not apply to housing for older persons, which conforms to all applicable rules and regulations.
- f. The intent of this ordinance is to foster development of housing for older persons while detailing local planning standards and promoting consistency with land use policies in the Brookline master plan, zoning ordinance and subdivision and site plan regulations.
- g. It is the intent of this ordinance to regulate the intensity and mix of different types of dwelling units required to meet the needs of those citizens so as to provide ample indoor and outdoor livable space and to retain a sense of personal identity, intimacy and human scale within the development.
- h. It is the intent of this ordinance to review the density, scale and spacing of buildings, and the traffic circulation and parking pattern within the development to ensure that adequate **light**, air, privacy, community space, landscaping and open space for passive and active recreation are provided within the development.

2202.00 *Definitions*

2202.01 *Housing for Older Persons (HOP)*

A development qualifies as HOP when in compliance with all applicable Federal, State and Local laws, regulations and rules. Section 2200.00 of Brookline's zoning ordinance references some specific statutes, rules and requirements. The Fair Housing Amendments Act of 1988, 42 U.S.C. 3607(b)(2), as amended, including the Housing for Older Persons Act (HOPA) of 1995, supports the Town of Brookline's requirement that restrictions shall be established in legal covenant and approved by Town Counsel, which restricts the occupancy of units within a development specifically designed for older persons as defined in RSA 354-A:15 II, where units are intended for, and solely occupied by, persons 62 years of age and older. Housing for Older Person developments must meet all the standards of this ordinance as described herein. HOP is an Open Space/Cluster development and is an Innovative Land Use Control as set forth in RSA 674:21, I(f) and subject to additional requirements found in Brookline's zoning ordinance and site plan regulation.

2203.00 *Sitting Requirements*

2203.01 *Development Tract Size.* A single parcel of land with a minimum of twenty (20) contiguous acres of land. Multiple lots must be consolidated prior to approval under this ordinance. As an Overlay District, and requiring a single parcel of land, HOP developments are exempt from the single dwelling per building lot requirement of the zoning ordinance, as approved by the Planning Board following Site Plan review and recorded at the Hillsborough County Registry of Deeds (HCRD). Land divided by a legally accepted or dedicated pre-existing public road shall not be deemed contiguous. Following approval, the development site may not be re-subdivided.

2204.0 *Compliance*

It is the responsibility of applicants to certify at the time of an application before the Planning Board that a development will comply with all applicable rules and regulations established by the New Hampshire Human Rights Commission, for age discrimination in housing, including, if required by the Human Rights Commission, that every development shall provide significant facilities and services specifically designed to meet the physical and social needs of older persons, or if the provision of such facilities and services is not practicable, that such housing is necessary to provide important housing opportunities for older persons, as set forth in NH Administrative Rules Hum 302.03, as the same may from time to time be amended. Furthermore, while the Planning Board will not define what constitutes significant facilities and services, information that may be required by the Human Rights Commission in evaluating an application shall be submitted to the Planning Board, including a description of applicable provisions of the Human Rights Commission administrative rules and regulations, and whether there are requests for exemptions.

In the event the foregoing 62 year old age restriction is determined to be in violation of the laws of the State of New Hampshire, then in order to qualify as Housing For Older Persons, the development must contain an age restriction that complies with New Hampshire RSA 354-A:15, and as the same may from time to time be amended.

Every Older Persons development shall certify annually their full compliance with the age requirements set forth in this section and the method for determining compliance shall be incorporated in the Association Documents, and approved by Town Counsel. A notarized legal copy of the annual age certification shall be provided to the Towns designated enforcement body (Selectmen/Code Enforcement Officer) and to the Planning Board, to verify compliance.

2205.00 *Enforcement, Conflict and Severability*

Enforcement, conflict and severability shall be in accordance with Sections 2400.00, ENFORCEMENT, 2800.00, CONFLICT and SEVERABILITY of the Brookline zoning ordinance. Additional enforcement action under applicable local, state and federal law shall insure full compliance with the purpose and intent and specific requirements of the Housing for Older Persons ordinance and Brookline's Land Use Laws.

(Amendment 7) -

2400.00 *ENFORCEMENT*

2401.00 It shall be the duty of the Board of Selectmen and the Board is hereby given power and authority to enforce the provisions of this Ordinance. **The Board of Selectmen has the authority to appoint a Code Enforcement Officer (CEO) to enforce this Ordinance under their general supervisory authority.**

2402.00 Upon well-founded information that this Ordinance is being violated, the **Board of Selectmen or Code Enforcement Officer** shall take immediate steps to enforce the provisions of this Ordinance pursuant to applicable laws, including but not limited to RSA 676:15-17, as amended.

2403.01 *Procedures.* The Selectmen may adopt rules of procedure for governing the manner in which the Code Enforcement Officer will be expected to address land use violation complaints. **Information of alleged violation of these ordinances shall be provided in writing to the Code Enforcement Officer or Board of Selectmen and shall be investigated by the Code Enforcement Officer, the Board of Selectmen or their designee.**

- a. **Minimum written information of alleged violations of these ordinances shall include a description of the alleged violation(s), the location of the alleged violation, the name, address and telephone number of the individual providing the information of the alleged violation(s) and the date of submission to the town authority.**
- b. **The Brookline Code Enforcement Officer or the Board of Selectmen shall provide a copy of the complaint to the owner of the property of the alleged violation.**
- c. **An appeal of an administrative decision may be made pursuant to applicable laws, including but no limited to RSA 676:5, Appeals to the Board of Adjustment, as amended.**

(Amendment 8) -

2600.00 *AMENDMENTS*

2601.00 This Ordinance may be amended in accordance with RSA Chapter 675, Enactment and Adoption Procedures, as amended.

(Amendment 9) -

2700.00 *FINES AND PENALTIES*

The penalties for violation of any of the provisions of this title, including but not limited to any local ordinance, code, regulation, or any provision, specification or condition of any application, plat or plan approved by, or any requirement or condition of a permit or decision issued by any local administrator or Land Use Board acting under the authority of this title shall be subject to

such sanctions as are authorized by the Court pursuant to applicable laws, including, but not limited to RSA 676:15-17, as amended.

PROPOSED BUILDING CODE AMENDMENTS

(Amendment 10) -

300.00 SPECIFICATIONS

Buildings and alterations shall comply with the following specifications:

- 300.01* No permit for a new dwelling shall be issued unless it contains at least 576 square feet of first floor living area. Manufactured housing shall require a minimum of 320 square feet to obtain a permit.
- 300.02* Foundations. All structures shall be set on solid foundations of concrete, brick, stone or other acceptable masonry except in special cases where buildings are to be used for accessory use, industrial use, warehouse, and the like, the Building Inspector may waive the requirement of this section and permit the use of metal or masonry piers. To protect public health and safety, excavation for building purposes shall be covered over within 90 days of the excavation of the same. If the site is not in compliance within said time period, then the Selectmen may invoke the provisions in RSA 155-B: 13 in order to compel compliance.
- 300.02.a* **A Certified Plot Plan for any new additions may be required by the Building Inspector if field inspection cannot determine definitively compliance with setbacks and any other limiting requirements of local land use laws regarding the placement of a structure (E.g. dwelling or other building) on a buildable parcel of land.**

(Amendment 11) -

- 300.03* Buildings. Must be framed according to good building practices and outside walls shall be covered with permanent materials customarily used such as wood, fire resistant shingles, siding, cinder block, or other acceptable materials. In determining good building practices, the BOCA National Building Code, as recommended and maintained by the International Building Code, Edition 2000 and International Residential Code, Edition 2006 shall be used as a standard.

(Amendment 12) -

- 300.04* Building Permit & Certificate of Occupancy. No building or structure erected or altered as specified in a Building Permit issued under the terms of this Ordinance shall be occupied or used, as a whole or in part, until a Certificate of Occupancy has been issued by the Building Inspector. **In addition, a change or expansion of use shall require the issuance of a new Certificate of Occupancy.** A temporary Certificate of Occupancy may be issued for a building or structure or any part thereof before the entire work covered by the permit shall have been completed provided the Building Inspector deems life or public welfare shall not be endangered by the occupancy.
- a. **To insure compliance with current health and safety requirements, a code and safety inspection shall be conducted to insure that current code, fire and safety requirements are met. This includes, but is not limited to; number of occupants; restroom facilities; fire safety; fire alarms; means of egress; exit signs; fire extinguishers; flammable and/or regulated materials; storage; and ADA requirements, as set forth in the Americans with Disabilities Act Handbook as published by the Equal Employment Opportunity Commission and the U.S. Department of Justice. All deficiencies shall be corrected and a re-inspection required prior to a final Certificate of Occupancy being issued.**

- b. Applications for building permits (if required). Planning Board approval may be required for a change of use, alteration, or expansion of use. See the Town of Brookline Land Use Laws.
1. Building permit applications must be submitted to the Town of Brookline Building Department. A Certified Plot Plan may also be required, including:
Four (4) copies of complete certified drawings;
- One (1) for the Building Department;
- One (1) for the Fire Department;
- Two (2) to be returned to the Contractor/Builder with any corrections and/or deletions;
 2. Two (2) new copies of revised certified drawings shall be returned, one (1) each, to the Building Department and Fire Department for verification of changes, with signatures by the engineer and contractor at the design review conference before permits can be issued.

(Amendment 13) -

500.00 ENFORCEMENT

500.01 Enforcement shall be the duty of the Board of Selectmen and/or Code Enforcement Officer. They are hereby, or as otherwise authorized by law, given power and authority to enforce the provisions of this ordinance.

Brookline Capital Improvements Committee Report

The preparation and adoption of a Capital Improvements Plan (CIP) is an important part of Brookline's planning process. A CIP aims to recognize and resolve deficiencies in existing public facilities and anticipate and meet future demand for capital facilities. A CIP is a multi-year schedule that lays out a series of municipal projects and their associated costs. Over the six-year period considered by the CIP, it shows how the Town should plan to expand or renovate facilities and services to meet the demands of existing or new population and businesses.

A CIP is an advisory document that can serve a number of purposes, among them to:

- (a) guide the Selectmen and the Finance Committee in the annual budgeting process;
- (b) contribute to stabilizing the Town's property tax rate;
- (c) aid the prioritization, coordination, and sequencing of various municipal improvements;
- (d) inform residents, business owners, and developers of planned improvements;
- (e) provide a necessary legal basis for developing and administering a growth ordinance.
- (f) provide a necessary legal basis for developing and administering an impact fee system.

Copies of the CIP are available at the Town Hall and can also be viewed on the Internet at the town's website (www.brookline.nh.us).

Conclusions and Recommendations 2006-2011

The Capital Improvements Committee (CIC) desires to increase predictability and regularity for the purpose of evaluating the fiscal impacts of projects. The CIC remains concerned that many of the proposed capital projects are not effectively planned far enough in advance. While some departments are doing an exceptional job in future planning and some have improved, the CIC is discouraged by the lack of commitment from some departments to contribute effectively to the town's planning process. Without better cooperation from these departments, the Town could miss opportunities to collect impact fees that would reduce the tax impact of their projects. The CIC is also concerned with the number of projects containing only information featuring the final goal of the project (the amount of money requested), with little or no background information. Departments that have projects scheduled for implementation in the upcoming fiscal year should have all of their planning and project estimates completed (with bid quotes) by the time they appear before the CIC. The Selectmen, the Finance Committee and the voters should not support projects for the ensuing year without completed estimates.

The Capital Improvement Committee makes the following recommendations:

All Departments

- All departments should plan for the future on an ongoing basis, rather than wait for the yearly Capital Improvements Plan process.

Fire Dept

- For larger purchases, such as fire trucks, the Town should consider a 5-year lease rather than a 3-year lease.
- The Fire Dept should review the latest Brookline population projections and determine how much equipment is required for future needs.

Town Government/Facilities

- The Town should consider establishing a Capital Reserve Fund to offset future purchases.

Highway Dept

- The Road Agent should work on a long term Road and Bridge Plan (including sidewalks). If properly outlined, this plan could potentially result in the collection of an Impact Fee imposed on new development within town.
- The Road Agent should submit the required CIP Project Worksheet(s) and CIP Project Requests Summary Sheet in a timely manner. The information projecting Highway Dept costs were devoid of descriptions to provide guidance in evaluating considerable cost increases from prior fiscal years.

Recreation Commission

- The Recreation Commission should participate in the CIP process in the future.

Hollis/Brookline Cooperative School District

- The Hollis/Brookline Cooperative School District submitted a more thorough CIP proposal than in the previous years with some supporting documentation. The District should continue to strive toward better planning for longer term projects.

Brookline School District

- The Brookline School District should continue to refine the plans to address space issues in the Brookline elementary schools.
- The Brookline School District should continue to strive toward better planning for long term projects.
- The Brookline School District should continue efforts to document their technology inventory.

Planning Board

- The Brookline Planning Board should consider establishing an Impact Fee for the future addition to the Safety Complex for the Brookline Police Dept.
- The Capital Improvements Committee should work with the Finance Committee to determine what debt service is coming off the books each year. This will enable the CIC to make better recommendations for when projects should be considered for implementation and financing options.
- The Capital Improvements Committee should continue to explore additional ways of obtaining complete and timely CIP proposals from all departments. A

brief presentation at town meeting regarding the CIP may be a good step in that direction.

2005 Report of the Board of Selectmen

Brookline continues to grow as do the efforts of the Town's employees, volunteers, Commissions and Boards to maintain a high level of service to its citizens while managing costs. Some of the accomplishments and notable events for 2005 included:

- New ambulance approved by the March 2004 Town Meeting was put into service.
- Continuation of upkeep of Town Buildings by painting the Library and Town Annex.
- Updating of Selectmen's Ordinances in conjunction with the Police Dept.
- Completion of work on a warrant article to be presented at the 2006 Town Meeting for a method to help reduce the tax burden by putting less money into the Conservation Fund and more money returned to the Town General Fund.
- Supporting the initiation of a traffic study for Route 13 and completion of Study of Route 130 by the Nashua Regional Planning Commission.
- Acquisition of land by the Conservation Commission of additional land parcels of approximately 127 acres with monies from the Conservation Fund and bonds approved at the 2004 Town Meeting.
- Held a Special Town Meeting on September 13, 2005 to ratify the purchase of the 50-acre Bross Property.
- Extended the contract for 3 years with Charter Communications in conjunction with the Cable Consortium Committee.
- Continuation of the Capital Improvements Committee and adoption of the 2006 Capital Improvements Plan by the Planning Board.
- Impact Fees for new homes continue to be collected to help offset cost of new facilities.
- Rocky Pond Road paving continued. Meetinghouse Hill sidewalks continued.
- The transfer station continued to charge fees for certain large and construction-related items and continued its focus on recycling in conjunction with the schools. Electronics recycling began in November with a special collection day.
- A contract with the Town of Hollis for dispatching services for the Town of Brookline was renewed.
- The mutual aid agreement and contract were updated to continue to provide ambulance service to and with the Town of Mason.
- Increase in the number of hours of cable access programming, especially public meetings and school events.
- Increase in the programs at the Library to accommodate the growing population. Increase in the Library parking area was completed. Additional staff hours and land for expansion are being presented at the March 2006 Town Meeting.
- Approved upgrades to Hutchinson Hill Road and Russell Hill Road.
- Continued improvements in policy documentation, including updates to the Personnel Plan and Appointments Policy, to aid future Boards with documentation of known practices
- Participation in Selectman's Study Committee to study pros and cons of a 3 vs. 5-member Board of Selectmen as mandated by the 2005 Town Meeting. Report completed for 2005 Town Report.
- Recognized Rena Duncklee for her 25 years of Service to the Town on Dec 5, 2005.

Brookline enjoys indispensable services from its volunteers including the Ambulance Service, Fire Department, the Cable/Website Advisory Committee, the Cable Consortium, Planning Board, Zoning Board of Adjustment, Recreation Commission, Conservation Commission, Library Trustees, and Finance Committee. We thank all who are active in Youth Sports, the Library, the Fourth of July Parade and Fireworks, Christmas Tree Lighting, Old Home Days, October Eve and the Fishing Derby. We are fortunate to have the support of The Brookline Women's Club and Brookline Lion's Club for our community programs. The History Committee, Facilities Committee, Cable/Website Committee, Hazard Mitigation Committee, and Selectman's Study Committee have been active during 2005. Thanks to these volunteers Brookline is a growing town that will always be a small town.

The Selectmen wish to recognize the efforts of Jerry Farwell for his continuing and dedicated service as Road Agent; Russ Heinselman for his continued and invaluable assistance with our computer systems and as Town Treasurer, and James McElroy, and Larry Rodman, and Gerrald Smith, our Finance Committee members for assisting in the town budget process. Thanks also to the Supervisors of the Checklist and best wishes and thanks to Cindy Fottler for her many years of service. Also, we thank Kathy Pelletier for her contributions to the Max Cohen Memorial Grove. The Selectmen thank Tom Moran, Phil Chandler, and Alan Phillips for the generous donation of trees to the Pine Grove Cemetery.

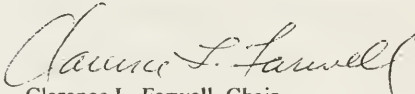

The Selectmen also wish to extend best wishes to Nancy Howard on her retirement as Town Clerk/Tax Collector and thank her for many years of service to the Town.

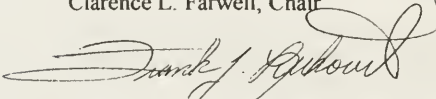

Sadly, the Board acknowledges the passing of Mary Dulac who served as a past Secretary to the Board of Selectmen.

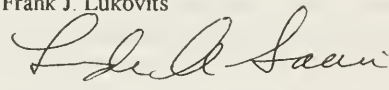

We would like to express sincere gratitude to all of the members of the armed services both past and present.

Respectfully submitted,

Brookline Board of Selectmen,

Clarence L. Farwell, Chair

Frank J. Lukovits

Linda A. Saari

The business meeting was called to order by Moderator Peter G Webb at 7:05 PM on March 9, 2005. Greg D'Arbonne, Commander of Brookline American Legion Post 74 and Adjutant of Veterans of Foreign Wars Post 11373, led us in the Pledge of Allegiance, and Jessica D'Arbonne sang the National Anthem. Thomas I Arnold Jr. was presented with the Legion Citizen of the Year Award.

Linda Saari, Chairman of the Board of Selectmen, thanked all who helped make the election and meeting go smoothly: Boy Scout Troop 260, Cable Committee, Rena Duncklee, Supervisors of the Checklist, Clerk Nancy Howard and Moderator Peter Webb.

Selectman Clarence Farwell read a resolution thanking outgoing selectman Robert Parodi for outstanding service and presented Mr. Parodi with a plaque.

Moderator Peter Webb read the following: "Whereas the Honorable Thomas I Arnold Jr. has for over 30 years served as town moderator to the entire satisfaction of the people of Brookline NH, we, the people of Brookline, do hereby express our grateful acknowledgment of his diligence, competence and fidelity in that employment and our high regard for his character as a gentleman worthy of respect and esteem. We therefore take pleasure in dedicating the 2005 Brookline Town Meeting to Thomas I Arnold Jr.

The following positions were elected from the floor:

Surveyor of Wood & Lumber: Charles Corey nominated Clarence Farwell. Hand vote yes. Motion, John Liska, 2nd Rena Duncklee, that the Clerk cast one ballot for Clarence Farwell. Clarence Farwell was declared elected.

Melendy Pond Authority: Marcia Farwell nominated Peter Webb. Hand vote yes. Motion, Marcia Farwell, 2nd George Foley, that the Clerk cast one ballot for Peter Webb. Peter Webb was declared elected.

Sexton: Jack Flanagan nominated Clarence Farwell. Hand vote yes. On motion by John Liska, 2nd Charles Corey, the Clerk was instructed to cast one ballot for Clarence Farwell. Clarence Farwell was declared elected.

ARTICLE 2. Motion Laura Libby, 2nd Therry Neilson-Steinhardt to raise and appropriate the sum of Five Hundred Thousand Dollars (**\$500,000**) (gross budget) for the purchase, by the Town, of land or other property interests therein, for conservation purposes, as the Selectmen deem appropriate and in the best interest of the Town; and to authorize the issuance of not more than Five Hundred Thousand dollars (\$500,000) of bonds or notes, in accordance with the provisions of the Municipal Finance Act (RSA 33:1 et seq., as amended), and, further, to authorize the Board of Selectmen to issue, negotiate, sell and deliver said bonds and notes and to determine the rate of interest thereon and the maturity and other terms thereof, and to take any other action they deem appropriate to effectuate the sale and/or issuance of such bonds or notes, subject, however, to the following limitations:

No such bonds or notes shall be issued earlier than July 1, 2005; and,

Any of such bonds or notes shall have appropriate terms and maturities such that no principal or interest payments shall become due and payable prior to January 1, 2006; and,

No such bonds or notes shall be issued with a term of maturity less than ten (10) years.

Provided further, that the Selectmen **shall not issue such bonds or notes** until such time that they have been presented to either an annual or special town meeting, a warrant article asking the meeting to ratify, by a simple majority vote, the particular parcel and parcel ownership interest chosen by the Selectmen for purchase and said meeting has approved such warrant article.

(This article requires a 2/3 ballot vote to pass, as set forth in RSA 33:8. This is a special warrant article and is not intended to lapse at the conclusion of calendar year 2005 but is intended to lapse at the conclusion of calendar year 2006, if not implemented within that time frame.)

After discussion the balloting commenced at 8:08 PM, and ended at 9:08 PM

BALLOT VOTE YES 150, NO 70. Article 2 Passed.

ARTICLE 3. On motion by Linda Saari, 2nd Robert Parodi, we voted to postpone this Article until the Article 2 result is known. **HAND VOTE YES.**

ARTICLE 4. On motion by Linda Saari, 2nd Jeanne Schultz, we voted to approve the cost items included in the collective bargaining agreement reached between the Brookline Board of Selectmen and the Brookline Police Officers' Association which calls for the following increases and benefits:

Year	Estimated Increase	Year	Estimated Increase	Year	Estimated Increase
2005	\$20,274	2006	\$14,363	2007	\$10,261

And further to raise and appropriate the sum of **\$20,274** for the current fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. The amount raised will be incorporated into the police operating budget for accounting purposes.

HAND VOTE YES.

ARTICLE 5. On motion by Linda Saari, 2nd Jack Flanagan, we voted to pass over the Article. **HAND VOTE YES.**

ARTICLE 6. On motion by Gerald Farwell, 2nd Rena Duncklee, we voted to raise and appropriate the sum of **\$50,000** for the purpose of road/bridge improvements. This will be a

ARTICLE 10. On motion by Charles Corey, 2nd Curt Jensen, we voted to raise and appropriate the sum of **\$27,250** for the purchase and installation of needed radio equipment on the cell tower located on Ball Hill Rd in Brookline to be used for emergency communication for the Brookline Ambulance, Emergency Management, Fire and Police Department. Such appropriation will be offset by a state grant in the amount of \$6875. Having this radio antenna would correct the dead spots that the town is now experiencing for all the emergency services.

HAND VOTE YES.

ARTICLE 11. Motion Charles Corey, 2nd John Liska, to authorize the selectmen to enter into a three year lease agreement for \$27,349 for the purpose of leasing and equipping a 4 x 4 motor vehicle for use by the Brookline Fire Department and to raise and appropriate the sum of **\$8528** for the first year's payment for that purpose. This vehicle would serve as the Fire Inspector's vehicle and the Fire Chief's response vehicle. The vehicle would be used as the Fire Department's Incident Command Unit and also be capable of towing the trailers that are used by the Fire Department. Said lease agreement to contain a fiscal funding clause which permits the termination of the lease on an annual basis should the funds necessary to make the required payments not be appropriated by town meeting.

AMD Curt Jensen, 2nd Charles Corey, to make the first year's payment in the amount of \$9173.

2005 Report of the Finance Committee

The Brookline Finance Committee would like to thank the voters of Brookline and the members of the town boards and committees who invited us to participate in their budgeting process.

Because the deadline for the Annual Town Report falls in the middle of the Finance Committee's budget analysis, this report provides an overview of the Finance Committee's work but does not include specific budget recommendations.

The Finance Committee will present a final report detailing our recommendations and explaining our process for arriving at them at town and district meetings. The final report will also be made available at Town Hall and online through the official Brookline Town Website (<http://www.brookline.nh.us>) at least 2 weeks prior to those meetings.

Members

- James McElroy, Chair (second year with Brookline Finance Committee)
- Gerrald Smith, Vice Chair (first year with Brookline Finance Committee)
- Larry Rodman, Secretary (first year with Brookline Finance Committee)

Finance Committee Role

Unlike towns governed under the Municipal Budget Act, Brookline's Finance Committee serves a strictly advisory role. The Board of Selectmen and Brookline School Board invite the Finance Committee to participate in their budgeting process, but the Selectmen and School Board are responsible for the budgets presented to voters. Voters have the final say in all budgets.

Committee Changes

The Finance Committee made several changes in 2005 in an effort to facilitate greater interaction with residents and provide more useful recommendations regarding town and school finances. These changes included:

- Scheduling regular monthly meetings and televising them
- Updating our town financial calculations to include complete town historical data dating back to 2000 to provide greater perspective into year to year budget changes
- Developing a written policy to provide residents and other boards with greater insight into how the Finance Committee operates and to serve as a guide for future Finance Committees
- Improving coordination between the Finance Committee and other boards and committees by meeting with each board in March to establish shared expectations, procedures, and schedules
- Adopting a conflict of interest policy based on guidelines developed by the 2004 Conflict of Interest Committee
- Developing objective and repeatable guidelines to serve as a basis for all financial recommendations made by the Finance Committee (these will be fully explained in our separate report containing our budget recommendations)
- Meeting with the Brookline School Board, Conservation Commission, and Board of Selectmen to review our final recommendations and presentations prior to presenting them to voters

New Initiatives

Because voters are ultimately the ones who make the final decisions regarding town budgets, the Finance Committee believes that one of our greatest responsibilities (in addition to reviewing budgets and providing recommendations on them) is to educate voters on the budgeting process so they can make educated decisions when they vote for a budget.

The Finance Committee spent considerable time this year meeting with representatives from other town boards, the state Department of Revenue Administration, and the New Hampshire Local Government Center in order to develop clear explanations of commonly asked questions such as:

- How are my tax rates set?
- How is my tax bill calculated?
- What income (other than property taxes) does the town and school district collect?
- How can I participate in the budget process?

Reports based on these and related topics will be published separately from this report and be made available at Town Hall and on the town website.

Ongoing Initiatives

Finance Committee members continued to serve on a number of additional committees including:

- Capital Improvements Committee (James)
- Facilities Planning Committee (Gerrald)
- Brookline School Board Long Range Facilities Planning Committee (James, Gerrald, Larry)

The Finance Committee also continued working closely with the Conservation Commission to explore opportunities to reduce the tax impact of conservation land purchases.

Financial Challenges Facing Brookline

While the Finance Committee is still awaiting final budget numbers from the Co-op School district before performing our final analysis and recommendations, it's clear that Brookline continues to face major financial challenges. These challenges include:

- Over \$13 million of **new** capital projects scheduled to begin in the next 6 years (this figure represents the total Brookline cost over the life of each project)
- Significant budget increases due to record fuel costs and increased insurance costs
- 2006 debt payments of over \$300,000
- Increased demand for town services caused by record growth
- Ongoing concerns about the future of State Aid, especially related to education

Summary

We hope you find this information useful, and we encourage you to contact the Finance Committee or attend our meetings if you have any questions, concerns, or suggestions related to the town's finances. Thank you for your support.

Respectfully,

Brookline Finance Committee

7. Catholic Med. Center: 1 patient (1%).
8. No Transports: 92 patients (30%).

In September, Calvin Page of Kodiak Road resigned his position as a Volunteer Paramedic with the Service. During his nearly 15 years of participation, Cal contributed toward the various organizational changes bringing the Service to its present Advanced Life Support level of patient care. Thank you, Cal, for your volunteer contribution to the Town.

The State has introduced the long-awaited computerized patient care record (TEMSIS) with additional training and at-home practice required of all Ambulance Attendants before the March 1, 2006 implementation date. The new Statewide Protocols become effective January 1, 2006 better ensuring that pre-hospital patient care will be consistent throughout the State with all emergency care providers.

The Volunteer Attendants have provided countless hours of community service with coverage at the Old Home Days and the Fireworks as well as participation in the 4th of July Parade and Memorial Day Service. The Service cosponsored the Annual Fall Blood Drive with the Brookline Women's Club and had a successful Open House & Health Fair with the Brookline Lions Club.

Jeff Smith, EMT-Intermediate, continues to be deployed with the Air Force Reserve in Iraq. Through the technology of e-mail, we maintain two-way communication to keep his ties with Brookline unbroken. Please keep our troops ever present in your daily thoughts.

As you complete reading this report, perhaps you will have an inner urge to volunteer for your Town. We currently have several open positions for additional Volunteer Attendants. Volunteering on the Service takes a real commitment of time and energy in training and shift coverage; however, the real personal reward is the inner feeling experienced by helping your fellow townspeople in their emergency medical crisis. To explore this unique worthwhile Volunteer opportunity, please contact the Ambulance Director at **672-6216**, stop by the Ambulance Bay for a tour and membership information or e-mail your interest to wes@brookline.nh.us.

The Volunteer Ambulance Attendants who serve faithfully without compensation have completed another successful year with a record number of calls. Their commitment and compassion in continuously delivering the highest level of pre-hospital emergency medical care for the Town deserves praise. Without the support they receive from their families who are still willing to share them with the community, they would not be able to devote the many hours necessary for training and shift coverage. My deep appreciation to each Attendant and family member.

Respectfully submitted,
Wesley N. Whittier, Ambulance Director

Report of Trustees of Trust Funds
Town of Brookline, NH
For the year ended December 31, 2005

Fellow Residents:

The year provided a significant increase in earnings from the prior year, all due to the interest rate environment, precipitated by Federal rate increases, throughout 2005.

It is the Trustees intention to pursue further increases in returns during 2006, while retaining risk sensitivity and protection of Principal.

Trustees:

BROOKLINE PUBLIC LIBRARY

2005 ANNUAL REPORT

Brookline's tremendous growth in the decade of the 1990's and into the new century is reflected in use of the services of the library. 2005 was another year of growth in circulation and activities. The 20% increase in circulation of materials over 2004 is measurable evidence of its value to our community. However, cold statistics do not tell the whole story. Persons come in to read a newspaper, view an art exhibit, use reference materials, ask for information, attend or participate in programs and take advantage of on-line services. The library's information, education and recreation resources are well used by the citizens of Brookline.

It is encouraging that the town Facilities Committee is concentrating on the expansion of the building to provide needed space for the library to better serve the community. A first step was taken in March 2005 when the Selectmen were authorized to enter into an agreement to lease a parcel of land at the rear of the library. The immediate result, on recommendation of the Facilities Committee, was a parking area to relieve the dangers of on-street parking to both patrons and public. In another short-term solution to the space problem, the Selectmen allotted the library one bay and room at the Annex (old ambulance building) for storage of back issues of magazines and other materials.

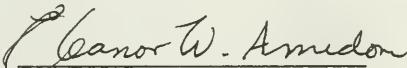

The library had two staff changes. Cathy Axel and Linda Hudziec relocated to other towns in New Hampshire. We were fortunate to fill their positions with Betsy Solon and Ruth Bodycott. Also, in March we said good-bye to Phil Chandler and welcomed Loring Webster to the Board.

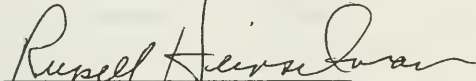

The Friends of the Library continued to provide the library with museum passes, shelving for audio books and paperbacks, plus a substantial donation for the Children's Summer Reading Program which had 192 young persons participate in. The two book sales (both held in the Fire Department community room) were most successful. Buyers and workers alike were gratified to have the space to move among the more than 10,000 books offered. Everyone involved thanks the Fire Department for allowing the Friends to hold their major fund-raisers there. The October sale would have had to be canceled otherwise. The Friends' float in the July 4th parade garnered third prize in its category. Mark Lutton and Paul Bordeleau were at the keyboard providing live music from the bed of the decorated farm truck.

The Trustees thank the library staff and the dedicated volunteers who assist in the daily routines for maintaining a high level of service. This service is enhanced by the many persons who helped move books and furniture to ready the library in August for its first interior painting since 1993. Others helped with programs, brought in exhibits, tended the garden areas, baked and sponsored their favorite authors. We are especially grateful to Cindy Berend for creating the new library website; to the Scouts; to Russell Heinselman for maintaining and upgrading the library computer system; and to Clarence Farwell for his valuable assistance. When the library calls for help, Brookline responds.

**BROOKLINE POLICE DEPARTMENT
LETTER FROM THE CHIEF
2005 ANNUAL REPORT**

Dear Citizens,

I am proud to say that the men and women of the Brookline Police Department continue to be committed to providing high quality and professional law enforcement services to the citizens of Brookline. We are dedicated to being responsive to the needs of the community in which we serve. Over the past year, the partnership has grown between the citizens and the police and we have embraced the philosophy of community oriented policing.

With recent events, we have learned that although Brookline is a small town community, it is by no means immune from major crimes and incidents. With each year, I put high emphasis on training the Brookline Police personnel to ensure each member is capable of combating any situation that may arise and that their training will give them the knowledge to maintain an officer safety work environment. Because of the hard work and dedication of the members of this department, our most recent major crime was solved in a few short days and the criminals are now in the hands of the Judicial System.

In working with the community, we heard the number one concern was speeding on town roads. The patrol staff conducted 542 directed radar patrols at various known common speed locations. The number of summons has dropped over this last year and I attribute this decrease due to the constant police presence on the roadways. We will continue to make traffic safety in our local neighborhoods and schools a top priority.

On behalf of all the members of the Brookline Police Department, we wish you and your families a safe and healthy 2006. As always, our doors are open to you all and we would love to hear from you.

Sincerely,

Thomas J. Goulden
Chief of Police

Annual Report of NRPC Activities for the Town of Brookline

Land use and Environmental Planning

- ❖ Organize the yearly Land Use Planning Workshop for Planning Boards, Conservation Commission and Departments of Public Works.
- ❖ Held quarterly luncheons for professional Planning Staff in the Region.
- ❖ Continued to provide ongoing assistance with planning related questions.
- ❖ Assisted the Planning Board with review of subdivision and site plans.
- ❖ Developed amendments to the Housing for Older Persons and Impact Fee sections of the zoning ordinance and subdivision and site plan regulations.
- ❖ Developed Impact Fee schedules to allow collection of impact fees for the Hollis/Brookline Middle School addition.
- ❖ Conducted several meetings of the Regional Resource Conservation Committee.
- ❖ Organized five Household Hazardous Waste Collection Events.

Transportation

NRPC as the designated Metropolitan Planning Organization (MPO) for the region is responsible for developing and maintaining the region's transportation planning program. This includes soliciting, prioritizing and making recommendations on regional and local transportation projects that are funded through Federal or State Sources. NRPC is responsible for developing the region's portion of the State's Transportation Improvement program (STIP), maintaining the regional traffic model, and performing required air quality analyses. In addition, NRPC MPO funds are used to provide municipal technical assistance on transportation issues.

- ❖ Worked with the Planning Board to submit an application for Statewide Planning and Research funds to conduct a corridor study along NH 13.
- ❖ Provided a report to the town with traffic count data from the past few years, and updated the NRPC website to provide historic and frequently updated traffic count data.
- ❖ Calibrated the updated regional traffic model for use in analyzing future regional and community specific projects.
- ❖ Conducted traffic counts as part of the NHDOT HPMS traffic counting program.

Geographic Information Systems (GIS)

The GIS Staff at NRPC continues to maintain a diverse collection of spatial databases including local roads, real property parcels, zoning, land use, and environmental conditions. This data is applied extensively to provide mapping and analysis for local and/or regional projects.

- ❖ Completed regular maintenance tasks and performed updates to the regional GIS data, including digitizing new roads, parcels, protected lands, zoning changes, trails, social service or child care providers, land use and other baseline data for each community.
- ❖ Mapped and analyzed trends relative to real estate transactions for the year to maintain a tool for monitoring sales trends.
- ❖ Addressed numerous mapping needs from the town officials and the public.
- ❖ Developed a series of maps for the Conservation Commission defining regional water, soils and open space issues in the community.
- ❖ Completed regular updates the NRPC website www.nashuarpc.org to keep this resources current and relevant.
- ❖ Provided mapping support for the Nashua Region Transit Plan.

2005 REPORT OF THE BROOKLINE CONSERVATION COMMISSION

The Brookline Conservation Commission (BCC) has been busy this last year committing our resources to overseeing the protection and utilization of natural and watershed resources in Brookline, NH. This is the main responsibility charged to the BCC in its charter. The Conservation Commission is again grateful to the people of Brookline for their support of bonding authority for \$500,000 for the purpose of preserving and protecting undeveloped land in Brookline. With this bonding authority, the Conservation Commission gains greater flexibility in acquiring land with a long range planning perspective.

Three funding sources were available to the Conservation Commission in 2005:

- a. The deposit of 100% of the Current Use Change tax into the Land Acquisition fund,
- b. Bond funds of \$500,000 from the vote of the 2004 Town Meeting,
- c. Bond funds of \$500,000 from the vote of the 2005 Town Meeting.

Thanks to the overwhelming, generous support of our Townspeople, the BCC was able to obtain the following parcels in accordance with our Strategic Land Acquisition Plan during 2005, totaling 126.74 acres. A brief description follows:

- In January, the BCC purchased several parcels in the vicinity of the Whitcomb Parcel, which was purchased in 2003 with Bond funds. Directly across Dupaw Gould Road from the Whitcomb Parcel is a 6.8 acre parcel, near the end of Conneck Road is a 7.1 acre parcel and abutting the Cohen Foundation land, also off Dupaw Gould Road is a 11.34 acre lot. All of these contribute to the wildlife corridor, and protection of the natural resources that serves Lake Potanipo to the east (C-26, C-45, C-48).
- In February, we obtained a 27.7 acre parcel (B-95) abutting town land in the Melendy Pond area.
- In September, the BCC purchased lot B-98, which is 9.6 acres and abuts the parcel purchased in February. Two parcels to the north of the Melendy Pond area and another abutting Hobart-Fessenden Woods were also purchased this month, totaling 13.9 Acres (B-22, B-25, H-68).
- In December, The Bross Parcel, which abuts Cohen Foundation land and is very close to the Whitcomb Parcel, was purchased after Special Town Meeting approval. It totals 50.3 acres.

We continue to work toward our strategic goal, to interconnect and expand existing conservation areas and preserve the open spaces and rural character of our town. We held an informative meeting in September to show the people of Brookline what our plan was. Guest speakers addressed funding mechanisms and tax benefits. During the past year, the BCC has been in the midst of a large-scale campaign to compile a contiguous block of land, comprised of numerous parcels, which would amount to over 1400 acres of land. The Trust for Public Land (TPL) is working with the BCC to acquire land through grants and various funding mechanisms. We have been in contact with a large number of landowners who are interested in the possibility of protecting their land in perpetuity. With the legal, grant writing, negotiation and general experience assistance of the TPL, Brookline has an opportunity to realize a huge benefit. Only with the continued and vigorous support of the people of Brookline, can we hope to achieve our conservation goals.

The BCC was also very busy attending to existing land and conservation issues. Throughout the year, we reviewed many site plans for subdivisions, home businesses, commercial businesses and lot line adjustments. The BCC provided feedback to the Planning Board, Board of Selectmen and Zoning Board

of Adjustment relating to conservation concerns, open space vs. conventional plans and impact to sensitive areas. The BCC would again like to thank all of these boards for their serious consideration of our opinions in these matters.

During the year, we were fortunate to have two Boy Scouts opt to use Conservation Projects for their Eagle Scout projects. Paul and Russell Banks (Laurelcrest Drive) completed their Eagle Projects. Nissitissit Park was improved and picnic tables were built and added. Map and information kiosks were built and erected at several of the major conservation properties. Also, Nick Hall (Old Milford Road) performed community service to meet a college class requirement. He worked at the Palmer Cabin on Palmer Wildlife Preserve. He cleaned up the cabin and surrounding area. Trail work was completed by several residents that live in the Hobart/Fessenden area. Trails were cleaned up and bridges built over wet areas. On New Hampshire Trails Days, a work party continued work on the new trail at the Bartell property, continuing a nice walking trail with scenic views that will eventually connect with other already existing trails. Additional work was done at the parking area at the Bartell Trail on Route 13. We sponsored Town Cleanup Day where generous volunteers picked up litter in order to keep our roadsides tidy. Many volunteers gave of their time during the past year. The BCC appreciates all of the work and efforts that these volunteers have put in.

Lake Sampling results continue to show reduced oxygen levels at a normal rate, expected for Lake Potanipo and Melendy Pond. Another milfoil treatment of Lake Potanipo was applied as well as the second for Melendy Pond. The BCC secured some funding to help defray the costs of these treatments. The Melendy Pond Authority has paid any additional costs related to services and testing on the Melendy Pond. **To all boaters and lake users; please remove any weeds from your boats and boating/fishing equipment before and after using the lake. Milfoil is extremely invasive and hard to control.**

Plans for the coming year include creating a Trails Committee, continuing supplemental lake sampling, updating our Strategic Land Acquisition Plan and further strategic land acquisition. Again, we would like to thank the people of Brookline for their continued support.

Sincerely,

Laura Libby
Chairman

EMERGENCY MANAGEMENT REPORT

CALENDAR YEAR 2005

Through a FEMA grant awarded to Nashua Regional Planning Commission, a Committee appointed by the Selectmen has been meeting regularly to update the Hazard Mitigation Plan for Brookline. FEMA now requires each community to design the Plan consistent with their specifications as qualification for any future Federal grants. The Plan will be ready for Town acceptance in March 2006.

Coordination with Nashua Public Health Department has continued as the regional Flu Pandemic Plan is being revised. A community flu vaccination program is in the planning process for implementation in 2006.

The Homeland Security Radio Interoperability Grant will be finalized with the anticipated installation of the dual-head, multi-frequency mobile radios in the Ambulances in 2006. A recent Interoperability Portable Radio Grant application will be submitted in January 2006 on behalf of the Fire Department and Ambulance Service.

With technical assistance from the New Hampshire Bureau of Emergency Management, the Town's Emergency Management Plan is being updated to reflect the "all hazards" approach now required by FEMA.

During the disastrous flooding conditions in other parts of the State, Brookline was spared any major damage to homes, businesses or Town infrastructure. Although the Town shelters were available, they were not activated during the flooding nor during any other time in the year.

Respectfully submitted,
Wesley N. Whittier, Emergency Management Director

REPORT OF THE FIRE ENGINEERS FOR 2005

The Fire Department responded to a total of 147 calls, which resulted in a total of 1851 Firefighter hours through November 30, 2005.

FIRE CALLS

House/Structure	10	CO Detectors	5	Chimney	0
Brush/Illegal Burn	3	Car Accidents	33	Mutual Aid-Given	23
Alarm Activations	18	Gas/Propane/Oil	7	Mutual Aid-Received	6
Assist Police	3	Smoke Check	10	Assist Ambulance	4
Car Fires	3	Electrical	2	Wires/Trees	19
Public Assists	7				

The residential development in town is still going at a steady pace. The amount of inspections that were done in 2004 totaled 95 inspections. 2005 has significantly increased to 189 inspections which are as follows;

FIRE INSPECTIONS

Oil Burner	15	Gas Burner	52	Gas Tank / Oil Tank	35
Gas Piping	18	Chimney	21	Pellet/Woodstove	4
Assembly	3	Day Care	4	Foster Care	3
Businesses	16	Town Buildings	6	Other	6
Sprinkler Inspections		New Houses	6		

Along with these are the two Elementary Schools which have Fire Prevention/Fire Safety Inspections a minimum of twice a year. The Fire Department would like to thank the Principals, teachers and children of both pre-schools and elementary schools for their cooperation and participation in our Fire Prevention Programs and help in keeping the Town of Brookline a safe place to live.

The Fire Department would also like to thank the people of Brookline for their support in our purchase of the new fire department pickup truck which replaced the handed down police cruiser. This year, in keeping on track with the Capital Improvement Plan, we are asking the Town to enter into a Lease/Purchase for a 2006 Forestry Tanker to replace our 1979, 5-Engine-1. The proposed tanker will carry more water than the truck it is replacing and will be more versatile for the department.

The Fire Department has applied for grants in 2005 and has received one from the State of NH Division of Forests and Lands. With this money we were able to purchase brush fire shirts and helmets which are also used at other calls. We are still awaiting results on other grants. In 2006, during Fire Prevention Week, we are hoping Mother Nature cooperates and assists us with providing enough rain so that we may hold our 3rd Annual Duck Race without adding water to the river.

We would like to thank Ron Denehy for his many hours and hard work he devoted to the Department doing the Stewards position, keeping the station clean and neat.

We would like to thank Lee Duval for keeping up with our everyday office operations.

The Board of Fire Engineers would like to thank the families for letting their firefighters respond to the number of calls and hours of training that is required. Thank you to the Firefighters for devoting the time and effort responding to 147 calls totaling 1851 hours and participating in over 900 training hours, helping to keep Brookline a safe place to live.

We would also like to thank the Firemen's Association for their continued support and donation of equipment used by the Fire Department which is paid for by the Association, not tax dollars. It is greatly appreciated.

We would also like to thank the businesses and townspeople too numerous to list for their donations and continued support.

Respectfully Submitted

The Board of Fire Engineers

Report of Forest Fire Warden and State Forest Ranger

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. A fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2217, or online at www.nhdfl.org.

Fire activity was high during the first several weeks of the 2005 fire season, with red-flag conditions issued by the National Weather Service and extreme fire danger in the southern and central portions of the state. This period of increased initial attack activity prompted a 5-day ban on open burning, the first such ban in several years. Despite the dry conditions, the state's largest wildland fire was contained at 29 acres. Our statewide system of fire lookout towers is credited with keeping the fires small and saving several structures this season due to their quick and accurate spotting capabilities. Fires in the wildland urban interface damaged 10 structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

FACILITIES COMMITTEE REPORT 2005

In 2005, a Facilities Committee formed with the project of the future expansion of the Brookline Public Library as its charge.

The library, located on Main Street in a former Methodist Church, has been in its present building since 1993. At that time, the projection was 20-year growth adequacy. However, by 1997, it was duly noted that the library was expanding much more rapidly than initially planned. By 2004, the library lost all storage areas to house current needs for bookshelves. The Young Adult section is located in the Community Room which also serves as an extended craft room. The Community Room is now about 50% useable for gatherings. The periodicals are stored in the old ambulance facility (Annex) in an upstairs section which makes retrieval difficult. The Friends of the Brookline Library store books in a lower bay area and can no longer hold book sales at the library. The lower bay storage area is also used for general storage. In the library, books are continually over-weeded in order to make room on the shelves for new ones.

In 2005, as a preliminary to possible purchase, the land behind the library, owned by the Shutts, was leased by the town to create more parking for the library. The land, approximately $\frac{3}{4}$ of an acre, has a price tag of \$250,000. If the voters approve the purchase of the land in 2006, the monies paid for the lease will be deducted from the purchase price.

The Facilities Committee recommends the purchase of the Shutts' land behind the library. An addition to the existing building is a more economical approach-building a 6,000 square foot addition instead of a 12,000 square foot new facility outside the center of town is cost effective. Also, the existing building remains in high quality and vibrant use.

Committee to Study Five-Member Board of Selectmen 2005 Report

Summary

The Town Moderator, Peter Webb, appointed Rena Duncklee, Russell Heinselman, Forrest Milkowski, Linda Saari, and Lorna Spargo to the "Selectman Study Committee" (SSC) following the March 2005 Town Meeting. The committee studied five vs. three-member Boards of Selectmen to help the townspeople understand the relative merits of the two sizes of boards. The committee met during the months of May 2005 through January 2006. The full text of the report and all appendices are available on the town website "brookline.nh.us" and hard copies of the report are available at the Town Hall.

The committee conducted a demographic analysis of towns in New Hampshire and looked at towns of similar population to Brookline, towns within a 25-mile radius, and the towns in the Nashua Regional Planning Commission (NRPC) of which Brookline is a member. Of those towns similar in size to Brookline 26% have 5-member boards. Of the towns within 25 miles 35% have 5-member boards; and of those towns in the NRPC group consisting of larger towns 67% have five member boards.

The committee surveyed 26 towns and 22 surveys were returned (10 with 3-member boards, 12 with 5-member boards). Population growth is often cited as a factor and was also found for the 26 towns. For those with 3-member boards, the rate of growth ranged from 2% to 29% (average 15.4% growth) for the years 1990-2000 and for those with 5-member boards 1% to 41% (average 15.6% growth). Brookline had a growth rate of 73% over the same time period.

The majority of the 5-member towns responding to the survey converted since the year 2000 and most (70%) of the 3-member towns never considered increasing the size to five. Of the 3-member towns, the top reasons for staying a 3-member board included: happy with the way the board is working, workload doesn't warrant it, and difficult to fill seats. The 5-member towns that converted cited workload, growth of town, and diverse opinions on the board as the top three reasons for changing. Seventy-five percent (75%) of the 5-member towns responded that the size of the board is working well. Sixty percent (60%) of the 3-member towns surveyed have a Town Manager or Administrator as well as 75% of the 5-member towns. Brookline does not have either a Town Manager or Administrator.

Face-to-face interviews were done with three towns that converted to 5-member boards during 2003 (Bow, Epsom and Hopkinton). Two of the towns converted based on petition warrant articles and one on a Selectmen's warrant article arising out of a citizen petition. Some of the changes due to increase in board size include: discussions tend to be longer before a decision is made; diversity helps produce a better end result; there is better representation of the town; and the workload is spread out more.

A public survey was available on the town website and at a public forum held to collect the opinions from the townspeople of Brookline. Twenty-four (24) residents returned the survey and 7 people (6 residents) attended the forum. According to the survey the top reason cited for why Brookline should consider a 5-member board is diversity, followed by a three-way tie citing growth, workload, and 2 members can meet without being a quorum. The top three reasons cited as to why Brookline should stay a 3-member board are: difficult to fill seats, happy with the way the board is working, and population doesn't warrant it. In the survey 17 of 24 (71%) respondents replied that the Town should consider changing the size of the board from 3 to 5 and 13 of 24 (54%) respondents replied that the 3-member board is not working from their point of view. The forum listed similar responses as the public survey, but there was additional discussion on the fact that as the town grows there may be a need for more members.

The current Brookline Board of Selectmen also commented on the subject of 3 vs. 5 by responding to the survey questions. The cited reasons to change from 3 to 5 would be size and growth of the town. Reasons for remaining as a 3-member board are: happy with the way the board is working, population doesn't warrant it, and lack of unchallenged candidates.

Recommendations

The committee recommends that the Town hire a Town Administrator or Town Manager as a first step. As a second step, the committee recommends expanding to a 5-member board after the Town Administrator or Town Manager is in place.

Adding a Town Administrator or Town Manager could offer positive results for Brookline. As a first step most of the towns in our demographic study with 3 or 5-member boards hired Town Administrators or Town Managers when they were 3-member boards. Many of the duties are best served with a full-time position, thus spreading out the workload amongst 4 people. The results of the study show that the statistics and supporting similarities between our town and those we studied support the need to change to a 5-member board as a second step.

The recommendations were unanimously voted on by the committee 5-0.

Respectfully submitted,

Rena Duncklee
Russell Heinselmann

Lorna Spargo, Chair

SCHOOL BOARD

BROOKLINE SCHOOL DISTRICT WARRANT
THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of the Town of Brookline in the County of Hillsborough, State of New Hampshire, qualified to vote in District affairs.

YOU ARE HEREBY NOTIFIED TO MEET AT THE CAPT. SAMUEL DOUGLASS ACADEMY GYMNASIUM IN SAID DISTRICT ON THURSDAY, THE SEVENTH DAY OF MARCH, 2006, AT SEVEN O'CLOCK IN THE EVENING TO ACT UPON THE FOLLOWING SUBJECTS.

Article 1. To elect all necessary school district officers for the ensuing years by official ballot on March 14, 2006.

- Election of one (1) member of the School Board for the ensuing year.
- Election of two (2) members of the School Board for the ensuing three years.
- Election of a School District Treasurer for the ensuing year.
- Election of a School District Clerk for the ensuing year.
- Election of a School District Moderator for the ensuing year.

Article 2 To see if the school district will vote to raise and appropriate \$6,774,859 for the support of schools, for the payment of salaries of school district officers and agents and for the payment of statutory obligations of the district. This appropriation does not include any of the other warrant articles. The school board recommends this appropriation. The finance committee recommends this article.

Article 3. To see if the Brookline School District will vote to approve the cost items included in the collective bargaining agreement reached between the Brookline School Board and the Brookline Teachers Association which calls for the following increases in salaries and benefits at the current staffing levels:

YEAR	Estimated Increase
2006-2007	\$192,408
2007-2008	\$203,944
2008-2009	\$203,874
2009-2010	\$198,646
2010-2011	\$203,743

and further to raise and appropriate the sum of \$192,408 for the 2006-07 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. The school board recommends this appropriation. The finance committee recommends this appropriation.

Article 4. Shall the Brookline School District, if Article 3 is defeated, authorize the governing body to call one special meeting, at its option, to address Article 3 cost items only?

Article 5. To see if the school district will vote to approve the cost items in the collective bargaining agreement between the Brookline School Board and the Brookline Support Staff Association and pursuant thereto, to raise and appropriate the sum of \$46,121 for the 2006-07 fiscal year, such sum representing the additional costs attributable to the increase in salaries and fringe benefits. Cost items increase in subsequent years will require approval of specific warrant articles at future District Meetings. The school board recommends this appropriation. The finance committee recommends this article.

Article 6. To see if the school district will vote to authorize the Brookline School District to access future year state and federal catastrophic aid funds for any unanticipated special education costs that exceed budget limitations established at the District Meeting. SCHOOL BOARD

Annual School District Meeting
Brookline, New Hampshire
March 14, 2005
7:00 pm
Captain Samuel Douglass Academy

The meeting was called to order at 7:00 pm and began with the National Anthem sung by four CSDA students accompanied by Mrs. Pam Shaw. School District Clerk Kathleen O'Sullivan informed those present that according to statute (RSA 197:10), in the absence of a school district moderator, one may be elected from the floor. **Mike Molkentine nominated Peter Webb** to serve as School District Moderator for the 2005 annual school district meeting. **Second by Jack Flanagan.** There were no further nominations so it was put to a vote and **passed by a show of cards.**

Peter Webb called on School Board Chair Sue Heard who rose to make some opening remarks. Sue introduced newly-elected board members Mike Dreyer, Clay Mathieson, David Partridge, and Ernie Hudziec. She thanked David Partridge for filling in the balance of the past year, and thanked Peter Webb for filling in as Moderator.

The School Board recognized Tom Arnold for his service to our school district as moderator for 40 years. David Partridge paid tribute to Tom by stating that he always ran an excellent meeting, always knew what to do, and always promoted respectful behavior at meetings. Tom was presented with a plaque, and received a long standing ovation.

Sue Heard paid tribute to retiring Superintendent Ken DeBenedictis, who has served the district since 1995. She presented him with a pen and ink drawing of the Richard Maghakian Memorial School, created by a Brookline artist.

Sue Heard paid tribute to principal Elizabeth Eaton, whose lifelong career was spent serving Brookline schools. Sue presented Liz with a plaque that will hang in RMMS and a book of letters from fourth grade students.

Moderator Peter Webb made some opening remarks regarding rules of the meeting, then read Article II from the posted warrant:

To see if the school district will vote to raise and appropriate \$6,112,926 for the support of schools, for the payment of salaries of school district officers and agents and for the payment of statutory obligations of the district. This appropriation does not include any of the other warrant articles. The school board recommends this appropriation.

He requested the finance committee's position on this article. It was 0-3, no support.

Sue Heard moved Article II as read, second by Mike Molkentine.

Sue Heard spoke to the motion. She gave a presentation showing the goals of the district,

enrollment projections, and the overall picture of the \$6,354,795 total being proposed at tonight's meeting.

Members of the town's advisory Finance Committee gave a brief presentation describing the financial challenges facing the school district and town, property valuations, and combined tax impact of school and town warrants. They presented estimated tax increases to taxpayers based on homes of different assessed values. They stated that it is their duty to consider the financial implications at the town level, where it's not just parents, but the elderly, and those on fixed incomes.

Sue Heard then presented the details of the school board's budget. The amount reflects an increase of \$257,448, up 4.51% from last year's budget. She highlighted the items of greatest impact, which included a new teaching position for second grade, increased specialist time, increased guidance position time, additional special education aides, increased hours for some aides, special education services, and employee benefit premium increases.

Sue then presented some comparison data of Brookline to other school districts of similar size, of similar grade configuration, and in our region. Her presentation included statewide cost-per-pupil data that shows Brookline spends \$7,550 per pupil compared to a state average of \$8,887.

When Sue finished her presentation, discussion followed.

A voter noted that he calculates a per-pupil cost of \$10,000 (using approximately \$6 million budget divided by a total enrollment number of 600 students). He stated that this is higher than the per pupil figure in the presentation. The Board responded that the per pupil data they are presenting was calculated by the state, using the same formula for every district, and is intended to show Brookline in comparison to other districts.

Mary Kay McFarlane stated that class size is extremely important to parents. She asked for assurance from the board that if the budget is cut tonight, that they make class size a priority. She requested that all parents of 1st and 2nd grade students present tonight stand. A large number of people rose from their seats.

Ernie Hudziec moved to amend the budget down to the amount recommended by the Finance Committee. The Finance Committee was still calculating their number, so **there was no second.**

Jerry Farwell noted that he estimates a 17% increase from the 2004 budget to this 2006 budget, and requests a justification. Sue Heard responded by speaking to the overall improvement in the status of education in Brookline schools.

A voter asked if the new teaching positions will just continue rolling forward, when do you stop rolling them forward. The board responded by noting the maximum class size recommendations it uses to determine the need for additional staff in a grade level.

Jim Murphy stated that Brookline's state aid projection is currently \$1.9 million. He asked if our aid could be significantly less by the time it is approved? Betty Hall, state rep and finance committee member, stated that chances are excellent that Brookline will be held harmless this year, with no impact on this year's budget.

Forrest Milkowski requested information about the unencumbered funds balance of \$78,000. Superintendent Ken DeBenedictis stated that most of the unencumbered amount was received for special education, and was returned to the district.

A voter noted that the bond principal payment is going down but the interest is going up. Ernie Hudziec replied that the bond for the CSDA was structured to be front-loaded so that as the town grows, future taxpayers/users of the facilities would pay the heaviest part of the burden.

The same voter then asked why the bond has not been refinanced. Business Administrator LeeAnn Blastos stated that the bond is through the NH Bond Bank, and we cannot go out to refinance it on our own. However, she reported that on our behalf, the Bond Bank just refinanced our bond, and we will receive back \$32,000 in a few weeks.

Eric Pauer spoke in favor of the additional second grade teacher and lower class sizes.

Jerry Farwell moved to amend Article II from \$6,112,925.65 to \$6,000,000.00. Second by Ernie Hudziec.

Ernie challenged the voters present to place the burden on the new school board to find \$112,000 in this budget, promising that staff is the last thing that will be looked at.

Jon King spoke against the amendment. He stated that the \$100k would have to come from the \$600k in non-staff-related expenses.

Chris Heard spoke against the amendment then **moved the question. Second by David O'Sullivan.**

The Moderator allowed those standing in line to speak before moving the question.

Mike Dreyer stated his support for the current budget, but assured all present that if this amendment is supported by the voters, he would do everything possible to meet that demand without removing an educator.

Jack Flanagan spoke against the amendment. He stated that the Finance Committee recommends a different amount, and will be making another amendment after this one. He states that this amendment was not a well-thought out figure.

Betty Hall spoke against this amendment in favor of awaiting the Finance Committee's amendment.

A voter spoke in favor of cutting the budget in any way possible, stating that she feels the budget is loaded with “gobs of extra staff and frills.”

The moderator put to a vote the **motion to move the question. Passed by a show of cards.**

He then put to a vote the **motion to amend the amount in Article II to \$6,000,000. The motion failed by a show of cards.**

James McElroy of the Finance Committee moved to amend Article II from \$6,112,925.65 to \$6,050,000.00. Second by Jack Flanagan.

Jack Flanagan spoke to the amendment. Jay Chrystal stated that in order for him to support any amendment to cut the budget, he needs more assurance that the 5 teachers in 1st and 2nd grade will not be eliminated.

Jim Rezzarday asked if the \$32,000 interest reduction is taken into account for this amended amount? The response was that the \$32,000 must be used to offset the current year’s budget.

Chris Heard spoke against the amendment, stating that it seems to have appeared out of the blue. He **moved the question. Second by Jeff Aulbach.**

The moderator allowed those standing in line to speak.

Forrest Milkowski spoke in support of the amendment, stating that it is not a lot of money and there have been a lot of increases through the years. He suggested that the Finance Committee is trying to “help us help ourselves.” He stated his confidence in the new school board to be able to find a way to make these cuts.

Damon Swope asked if the new second grade teacher is not supported, will the current fifth teacher in grade one move up to grade two? The Board responded that there is no guarantee of what will happen.

The moderator put to a vote the **motion to move the question. Passed by a show of cards.**

He then put to a vote the **motion to amend the amount in Article II to \$6,050,000. The motion failed by a show of cards.**

Peter Cook moved to amend Article II from \$6,112,925.65 down by \$32,000 to \$6,080,926. Second by John Liska.

Peter spoke to his motion then stated that the town needs to exercise some control on the spending.

Beth Sulin spoke against the amendment. She stated that the goal of the board has been to increase the quality of education. That's what happens at the monthly school board meetings. She stressed that in her opinion, the board has already worked with the Finance Committee, and the fat has already been cut out. She **moved the question, second by Mary Kay McFarlane.**

The moderator allowed those standing in line to speak.

Judy Cook spoke in support of the amendment by reminding taxpayers that unencumbered monies may become available at the end of the year, and cautioned voters that the school board could find ways to spend that money.

The moderator put to a vote the **motion to move the question. Passed by a show of cards.**

He then put to a vote the **motion to amend the amount in Article II to \$6,080,926. The motion failed by a show of cards.**

Jeff Aulbach moved the question of Article II, second by Chris Heard.

The moderator put to a vote the **motion to move the question. Passed by a show of cards.**

He then put to a vote the main motion to raise and appropriate \$6,112,926 for the support of schools, for the payment of salaries of school district officers and agents and for the payment of statutory obligations of the district. Article II passed by a show of cards.

The moderator then closed under Article II and opened under Article III by reading from the posted warrant.

To see if the school district will vote to approve the cost items in the collective bargaining agreement between the Brookline School Board and the Brookline Teachers Association and pursuant thereto, to raise and appropriate the sum of \$138,349 for the 2005-2006 fiscal year, such sum representing the additional costs attributable to the increase in salaries, as negotiated, over those of the appropriation at current staffing levels paid in the prior fiscal year. The school board recommends this appropriation.

He requested the finance committee's position on this article. It was 1-2, no support.

Jeff Aulbach moved to reconsider Article II. Second by Deb Hillson. Jeff stated that he had voted in favor of Article II, and then urged all to vote no on reconsideration.

The moderator put to a vote the **motion to reconsider Article II. Failed by a show of**

cards.

Mike Molkentine moved Article III as read, second by Forrest Milkowski.

Sue Heard spoke to the motion with a presentation.

A voter asked about average tenure, the turnover rate in the district, and how we compare to other districts. Ken DeBenedictis stated that a large percentage of our teachers are veterans. Teachers remain here because they like the community.

The moderator then put Article III to a vote. Article III passed by a show of cards.

The moderator then closed under Article III and opened under Article IV by reading from the posted warrant.

To see if the school district will vote to approve the cost items in the collective bargaining agreement between the Brookline School Board and the Brookline Support Staff Association and pursuant thereto, to raise and appropriate the sum of \$54,422 for the 2005-2006 fiscal year, such sum representing the additional costs attributable to the increase in salaries and fringe benefits. Cost items increase in subsequent years will require approval of specific warrant articles at future District Meetings. The school board recommends this appropriation.

He requested the finance committee's position on this article. It was 1-2, no support.

Pam Shaw moved to reconsider Article III. Second by Jonathan King. Pam stated that she had voted in favor of Article III, and then urged all to vote no on reconsideration.

The moderator put to a vote the motion to reconsider Article III. Failed by a show of cards.

Mike Molkentine moved Article IV as read, second by David Partridge.

Sue Heard spoke to the motion with a presentation.

There was little discussion.

The moderator then put Article IV to a vote. Article IV passed by a show of cards.

The moderator then closed under Article IV and opened under Article V by reading from the posted warrant.

To see if the school district will vote to authorize the Brookline School District to access future year state and federal catastrophic aid funds for any unanticipated special education costs that exceed budget limitations established at the District Meeting. The school board recommends this article.

Amy Fessenden moved to reconsider Article IV. Second by Beth Sulin. Amy stated that she had voted in favor of Article IV, and then urged all to vote no on reconsideration.

The moderator put to a vote the **motion to reconsider Article IV. Failed by a show of cards.**

Jack Flanagan moved Article V as read, second by Mike Molkentine.

Jack Flanagan spoke to this motion by stating this was a housekeeping article.

The moderator then put Article V to a vote. Article V passed by a show of cards.

The moderator then closed under Article V and opened under Article VI by reading from the posted warrant.

To see if the school district will vote to raise and appropriate the total sum of \$33,098 for the following purposes, which provide for the improved safety of children at Richard Maghakian Memorial School: replace the telephone system at a cost of \$17,407, replace the bell system at a cost of \$1,560 and add smoke detectors costing \$14,131. The school board recommends this appropriation.

He requested the finance committee's position on this article. It was 3-0, in support of the article.

Ernie Hudziec moved Article VI as read, second by Sue Heard.

Sue Heard spoke to the motion with a presentation of the safety issues facing the RMMS.

Ernie Hudziec asked if the \$32,000 refund received this year could be used for this purpose. LeeAnn Blastos stated that the \$32,000 is classified as unanticipated revenue and it cannot be used to purchase items.

After a few more questions, **the moderator put Article VI to a vote. Article VI passed by a show of cards.**

The moderator then closed under Article VI and opened under Article VII by reading from the posted warrant.

To see if the school district will vote to purchase 40 computers for the Captain Samuel Douglass Academy and to raise and appropriate the sum of \$16,000 for this purpose. The school board recommends this appropriation.

He requested the finance committee's position on this article. It was 3-0, in support of the article.

David Partridge moved Article VII as read, second by Sue Heard.

Sue Heard spoke to the motion with a presentation of the district technology plan to transition from mac-based to pc-based. She stated it is a cost-effective, lost cost plan.

Tom Solon asked if in two years RMMS will be mac-based and CSDA will be pc-based, will this cause any problems with software compatibility? Pam Shaw stated that the schools use hybrid software that runs on both platforms, and there should be no transition issues for the students.

The moderator then put Article VII to a vote. Article VII passed by a show of cards.

The moderator then closed under Article VI and opened under Article VIII by reading from the posted warrant.

To transact any other business which may legally come before said meeting.

Hearing none, **Jack Flanagan moved to adjourn the meeting at 9:57 pm. Second by Jeff Aulbach. Passed by a show of cards.**

Respectfully submitted,

A Message from the Superintendent of Schools

In the years following World War II, W. Edwards Deming, an American statistician with a new management theory, took his ideas to Japan. The Japanese, devastated by the effects of the war, were looking to restructure their economy, and Deming's principles became the blueprint they needed.

After reading Deming's work for the first time, I quickly came to the conclusion that his approach for improving the quality of products and services in industry appeared to be conceptually adaptable to the management of education. Total quality management has received renewed attention in our own country. With its focus on customer satisfaction, employee empowerment and product quality it has stirred interest among American managers and educators. It's about vision, shared decision making and a commitment to quality.

The success of any organization depends on its ability to establish a central mission and to clearly articulate that mission to all stake holders. If we can determine where the strengths of our school system lie and what accomplishments or values are important to people, we begin on an upbeat note that will infuse our entire school improvement process.

The continued success of public education for all Brookline students will depend to a large extent on how well we can develop strong partnerships with all members of the educational community. Our children should expect nothing short of excellence from all of us. I am committing the public school system to do its part, and I look forward to working with parents, business and community leaders and our elected officials in making our public education the best it can be.

Respectfully submitted,

RICHARD M. PIKE
Superintendent of Schools

ANNUAL REPORT -BROOKLINE SCHOOL DISTRICT

“All human beings are born with unique gifts. The healthy functioning of our community depends on its capacity to develop each gift.”

Peter Blunge 'The Learning School'

The Brookline schools continue to grow and excel. We are proud of this year's accomplishments and look forward to the challenge of further educating the students of our community. Our focus continues to be differentiated instruction, which fosters learning and provides experiences for each individual student.

CURRICULUM HIGHLIGHTS

In response to the federally mandated *No Child Left Behind Act*, New Hampshire has joined forces with Vermont and Rhode Island to develop a common set of benchmark skills, known as *Grade Level Expectations*. These GLEs include both reading, writing and math skills that were tested on the new state assessment, the NECAP (*New England Common Assessment Program*) at grades 3 –8 which was administered in October 2005. The results from NECAP will provide valuable data to guide our curriculum efforts.

The Language Arts program prepares students to be lifelong readers and writers. Our teaching philosophy is a *“Balanced Literacy Approach;”* Students acquire skills through a variety of lessons and activities encompassing the areas of reading, writing, speaking and listening. Award-winning literature sets the stage for an integrated approach to phonics, spelling, vocabulary, and comprehension skills. Instruction is delivered through whole class lessons, flexible guided reading groups, independent work, and classroom learning centers. The literacy series is enhanced by supplementary literature: big books, leveled reader collections, and trade-books for literature circles and skill groups.

The John Collins Writing Program provides a framework for writing opportunities across the curriculum, with students responding to content-specific prompts for “quick writes” as an introduction to new topics or for assessment. Longer pieces require students to brainstorm, plan, draft, revise, edit, and publish. Students learn strategies to improve their writing through teacher modeling, peer samples, and mini-lessons. *Focus Correcting* is a selective approach to teaching writing skills and assessing students' writing. Each piece requires students to focus on improving a combination of writing skills: mechanics, organization, style, and content. Students' writing is formally assessed three times a year through school-wide writing prompts in grades kindergarten through six.

We continue to challenge and enrich all ability levels in the math curriculum, which focuses on problem-solving and critical thinking skills. To foster these skills, students are exposed to many different problem-solving strategies and instructed how to use the strategies with different types of problems. The students are finding out that knowing how to use different problem-solving strategies can help them solve problems successfully. Teachers also use open-response questions which require student writing to

demonstrate critical thinking skills. Many materials and resources continue to be developed to support differentiation of the math curriculum.

Students are naturally curious about the world around them. Our science curriculum is based on the inquiry approach which encourages students to explore, investigate, hypothesize, and experiment on their own. Each grade level has three main curriculum strands where students make discoveries in the life, earth/space and physical sciences. Students benefit from many hands-on experiences in which they are “doing” and learning scientific principles. In conjunction with the school nurse, the two week nutrition program, Pyramid Power, for the 5th and 6th grade, supports the life science units.

The social studies curriculum focuses on four strands: civics and government, economics, history, and geography. A rich assortment of resources supports teacher efforts and has resulted in a well rounded program that allows students to synthesize their knowledge and apply it to the world around them. Supporting our social studies curriculum, the Foreign Language Program is in its fifth year. It is rewarding to see student knowledge and facility with language build from year to year. The first grade students study French and Spanish once a week for the school year, while second graders study French, Spanish and Japanese. The introduction of Japanese at this level is very popular. It is good for the students to see a language structured differently from our own, and one that does not use our alphabet. Third graders study French, Spanish, German and Japanese, or one language each quarter in the school year. They are at ease with the two Romance languages that they have seen since first grade, still excited by Japanese and all that it offers, and interested in trying German for the first time. Fourth grade offers students the opportunity to think more globally and abstractly about all concepts. In fifth and sixth grade, the students study both French and Spanish and will choose one to concentrate on in the middle school. We also have a Spanish/French Club which meets at lunchtime so that the students can enjoy additional cultural activities in a more informal environment.

Technology is integrated in all areas of the curriculum and presents our students with rich experiences through teacher directed activities and student created projects. All classrooms are equipped with computers, which students use individually, in small groups, or as part of a whole class activity to reinforce their content learning. Our schools’ use of technology supports content acquisition, skills mastery, and concept understanding. Our state of the art computer labs offer students, from Readiness to Grade Six, opportunities to enhance their learning by employing programs such as word processing, drawing and painting, spreadsheets, databases, and electronic slide shows. In addition, our children have access to the world of information available on the Internet for research and electronic collaboration. Our schools’ computer web page provides links to many of the children friendly sites our students use for research so that they may continue their work and exploration at home.

The art department has provided students with a variety of art experiences using many different materials and techniques to communicate and express their ideas. The

lower grades focus on building the children's skills in using drawing materials, paint and clay. As the students develop their skills in the upper grades, more complex projects and art concepts are undertaken. All grades learn about the importance of art in history and different cultures. Both schools showcase the art creations of all children with the annual art shows. The Artist in Residence program is always a highlight of the year allowing the children to explore in depth a culture and/or art medium. Artwork is on display at both schools lining the hallways with beautiful examples of the imaginations and creativity of Brookline's children.

Physical Education stresses activities that give students a broad base so they may continue being active throughout their lifetime. Our pedometer program is in its second year, thanks to a grant from the PTO. Jump Rope for Heart, a community service project in which money is raised for the Heart Association, has been held every February for the last 7 years. After-school cup stacking and rope jumping has entered its 5th year. This group also competes in the NH Jump Rope Contest. The department also works closely with the Fit Kids program in the 4th grade, an interdisciplinary program started by Dr. Charles Cappelletta, promoting health and fitness. Our involvement is also evident in the 5th and 6th grade health/nutrition interdisciplinary program, "Pyramid Power".

The students at RMMS and CSDA are active participants in their music classes. Using singing, speech, listening, movement, and instrument playing, the children also use the resources available to them in their music classrooms: Orff instruments, percussion instruments, choir chimes, boom whackers, boom pipes, recorders, and African drums to assist in their music making.

STUDENT ACTIVITIES & ACHIEVEMENT

The Brookline schools provide many opportunities for students to enrich their learning, demonstrate their knowledge, and pursue individual interests. These include the Scripps-Howard Spelling Bee, Writers' Festival, New England Mathematics League Competition, Annual 6th Grade Science Fair, Astronomy Club, National Geographic Geography Bee, 6th Grade Ancient Civilization Expo, Presidential Physical Fitness Program, CSDA Track and Field Team, Yoga, Chess Club, D.A.R.E., Jump Rope for Heart Program, Walking Club, Artist-in Residence, Chorus, Instrumental Band, Theater Club, Ski Club, American Red Cross Baby Sitting Club, and many more.

To encourage a healthy lifestyle, students may participate during recess time by joining the walking club in the fall and spring, and yoga classes during the winter. We are fortunate to have a wonderful yoga instructor who donates her time to our students and a great group of volunteer parents who assist with these activities.

The American Red Cross Babysitting course is offered by the School Nurse each year to any interested sixth graders. This is always a popular activity and last year there were 39 students who participated in this course which teaches them the basics of babysitter responsibilities, child development, basic care, and safety and first aid. Upon completion of the course they receive a certificate from the Red Cross.

STAFF

We sadly said good bye to Elizabeth Eaton, Principal, and Barbara Burgher, School Nurse, who retired in June. Liz was a devoted educator who worked in the Brookline schools for many years as a teacher, assistant principal, and principal. Barbara, too, served the district for many years. Both ladies will be missed by students and staff and we wish them the best in their retirement years. We also bid farewell to Superintendent Ken DeBenedictis who retired this past year as well. We will miss his vision and dedication to the community of Brookline.

This year marked the arrival of many new faces to our district. We welcome Richard Pike as SAU 41 superintendent and Dr. Anthony Luzzetti as the new principal at Richard Maghakian Memorial School. Also joining the staff at RMMS are Diane Fitzmaurice and Stephanie Langer, Grade 3 teachers; Kimberly Beaudette, Reading Specialist; Deborah Janoff, Guidance Counselor; Susan Patz, School Nurse; Melissa Padera and Constance Cardillo, Special Education teachers. CSDA has welcomed Sacha Norris, Grade 5 teacher, and Martha Gagne has joined our district as kitchen manager.

The faculty and staff at the Richard Maghakian Memorial School and Captain Samuel Douglass Academy deeply appreciate the support and recognition they receive from the community. The citizens of Brookline should be proud of the commitment it has made to provide a quality education for their students. We share the common goal of developing schools that shape students, not only to master reading, writing, and math skills, but to develop the confidence and ability to take on the world.

Report of the Director of Curriculum and Instruction

This has been a year of administrative transition for the Hollis and Brookline communities, and it has also been a year of continued attention to quality education for the students of our school districts. Dr. Ken DeBenedictis retired as Superintendent of Schools in SAU #41, after having served for ten years. In Ken's final year, he was named as New Hampshire's Superintendent of the Year. I always appreciated Ken's consistent support for our efforts in curriculum, instruction, and professional development. I am pleased to say that our new Superintendent, Rich Pike, has expressed that same support. Charlie Flahive also retired, after having worked as principal of Hollis-Brookline High School for three years. Charlie's insight and honesty added great value to discussions on challenging issues. Tim Kelley, who began as the new principal of the high school on July 1st, has brought strong leadership and effective thinking to the school, and to the community. Finally, Liz Eaton retired as principal of the Richard Maghakian Memorial School, after having served the school for thirty-one years. Dr. Tony Luzzetti began as the Maghakian School's principal also in July, and brings a great deal of experience, particularly in the area of reading and literacy.

Transitions of these sorts are often difficult, but they also bring opportunities for a fresh look and different views of the important work we do. Although I am in the midst of only my fifth year in Brookline and Hollis, I feel that I have become part of the fabric of our school districts, and I am happy to be able to be a part of the educational system here.

We continue to review, evaluate and thoughtfully modify our approaches to important issues in our educational program. Tim Kelley has led a review of how best to present curriculum in the high school, as he has chaired an Instructional Practices Committee, which has studied a change from an eight to a seven period day. I have been privileged to also work with that committee, and I have been impressed with Tim's thoughtful leadership. He has brought consensus and closure to what had been a very contentious issue.

As most of you also know, we have been embroiled in controversy over abstinence education in our health education curriculum. We have listened and carefully considered varying views expressed by members of the community on this emotional issue and have been thoughtful about what is presented to our children. I am proud of the work we do in this sensitive area, and I support the decisions we have made. Our health curriculum, and our teachers, approach this difficult area with professionalism and care for the welfare of our students.

We have also been dealing throughout this year with the issue of "Highly Qualified Teachers," as defined by the federal government in the "No Child Left Behind" legislation. Our problem, also faced by all other schools in the state, has been the shifting definition of what defines a "Highly Qualified Teacher" in the federal standards. The legislation provides latitude for each individual state to develop a definition of highly qualified, but the federal government retains final authority over approval of the state plan. We **MAY** be near the end of a long and tortuous road to having each of our

teachers defined as “Highly Qualified.” To provide one example of how ludicrous the situation can become, it has been reported that one small New Hampshire school with some dozen teachers had only one of those teachers qualify under the federal guidelines as highly qualified. That teacher was a brand new first year teacher who had taken a newly mandated test before entering the classroom. None of the other eleven teachers, all of whom had ten to twenty-five years experience, were considered “Highly Qualified.” We are meeting those federal standards, but, more importantly, I believe that our teachers are highly qualified to teach your children by OUR high standards. Our teachers are carefully screened before hiring, are carefully evaluated, and are provided substantial professional development opportunities. Our teachers are dedicated and hard working professionals, and we can be proud of what they accomplish.

Usually in this report I also speak about assessment results from state testing. The state is in the process of changing from an assessment system given in the spring, which compares one year’s class to another, to a fall testing program which will measure the growth of the same students from year to year. At the present time the state is in a transition, and it could also be said that we are in a state of confusion. However, when the confusion is resolved we will actually have much better information on our students’ growth and learning. Last spring, the high school took the usual tenth grade NHEIAP (New Hampshire Educational Improvement and Assessment Program), and made “Adequate Yearly Progress” by federal standards. This fall our students in grades three through eight took the new NECAP (New England Common Assessment Program). First year results of that testing are not yet available.

This truly has been a year of transitions: transitions in administrative leadership, transitions in definitions of “Highly Qualified Teachers,” and transitions in assessment programs. Throughout all these transitions we have kept our “eye on the prize,” and that prize is the thoughtful and serious education of the students in Hollis and Brookline. Any healthy organization constantly examines ways in which it can do better, and we are no exception. A healthy organization critically examines its mission and its quality. I am very happy to be a part of this enterprise in Brookline and Hollis.

Respectfully submitted,

Carol A. Mace

Report of the Director of Special Education

The special education departments across SAU 41 have continued staff training on systematic remedial programs in reading, mathematics, language arts and study skills. To further address a greater diversity of student needs, the Hollis Brookline Cooperative Special Education department has also established a comprehensive Life Skills Program for both the middle and high school curriculums. The Hollis School District has established an Integrated Preschool Program at the Hollis Primary School to service children ages three to kindergarten who are in need of comprehensive programming per IDEA regulations. Both the Brookline and Hollis School Districts are adding special education faculty to address an increase in caseloads for 2006/07. Furthermore, both districts are adding a .5 FTE Remedial Reading Specialist in the coming year.

With the new 2004 federal re-authorization of IDEA regulations, additional requirements have occurred known as EIS or Early Intervention Services. These are mandated supports for children who do not meet the disability criteria under IDEA but who would benefit from additional support beyond the regular grade level curriculums. All three SAU 41 districts have already established such interventions years prior to this new 2004 IDEA regulation. That is, specialized remedial reading personnel and programs exist in all of our districts which are beyond regular faculty reading instruction but are not part of the special education department services. Additional Early Intervention type services will be reviewed by our administration and respective boards throughout the remainder of the 2005/06 school year, but none of these EIS are anticipated to have any budgetary impact for the 2006/07 fiscal year.

Congruent with the federal IDEA 2004 Reauthorization mandates and the 2001 New Hampshire Rules for the Education of Handicapped Students, School Administrative Unit (SAU) #41 coordinates a diversity of special education programs and related services to meet the unique needs of educationally identified students throughout Hollis and Brookline. In 2005/06 school year, the department is providing services for 298 students K-12 under IDEA, which constitutes approximately 9.6% of the total SAU 41 student body. Department staff also serve a number of preschool children ages 3-Kindergarten as well as an additional 189 students (K-12) under Section 504 of the Rehabilitation Act of 1973. In total, the SAU Special Education Departments are providing services and supports for over 500 students and families.

The predominant goal of special education is to assure all children have an "appropriate educational experience." This means that when students have significant deficits in the learning process, resulting in delayed achievement relative to their grade level, the school system provides a diversity of services to address those factors adversely impacting a student's academic performance. Such factors or educational deficits include specific learning disabilities in reading decoding, reading comprehension, listening comprehension, written and oral expression, math reasoning and calculation as well as speech and language skills. Orthopedic, emotional and health conditions are also addressed by the department when they significantly impact the learning process.

Special education interventions are twofold, remedial services to enhance growth in the child's deficit area(s) and compensatory services to facilitate the student's successful engagement with his/her regular classroom instruction. For example, if a student has significant difficulty learning to read, the special services personnel provide both reading programs to enhance the child's reading skills as well as assistance to classroom experiences so that his/her acquisition of knowledge taught in the regular classes is not prevented by their learning difficulties. Parents and staff meet periodically to document and review student progress relative to their annual goals as outlined in the individual's specific education plan.

The special education process involves numerous formal meetings accompanied by an extensive number of documents to assure the adherence to federal and state regulations. The department staff continue their success with the highest level of compliance with all state documents and procedural safeguards. As a result, each district has received its maximum entitlement for federal funds.

The special education budgets reflect all expenditures for in-district programs and related service therapies including staff salaries, instructional materials, evaluation and placement services, out-of-

district tuition and specialized transportation costs. Some revenues are received annually to assist our districts in providing these specialized instructional programs. For the 2005/06 fiscal year, SAU 41 districts will receive approximately \$427,000 in federal IDEA funds and \$32,785 in NH Catastrophic aid reimbursement, as well as approximately \$98,000 in Medicaid Reimbursement funding.

All SAU 41 special education staff are highly qualified and dedicated professionals who find great pleasure in servicing the children and families of the Hollis and Brookline communities.

Respectfully submitted,
Robert R. Kelly, MA

Report of the Business Administrator

School Administrative Unit #41, consisting of Brookline, Hollis and Hollis/Brookline Cooperative School Districts, has experienced another educationally successful year. As past history has taught us, when you have successful schools, growth is promoted in student and community populations. Consequently, we are no exception. We continue to grow, as do our operating budgets and physical facilities. We must provide the best we can to carry on the mission of our schools. Through responsibly fiscal controls, our SAU staff have contributed to these successes by providing detailed budget development to all boards and community, extremely successful audits of all school finances in Brookline, Hollis, the Cooperative and SAU #41, sound business practices and financial management of physical plant construction, renovation and more on-going streamlining of our food service program.

I continue to thank our hard-working professional and support staff and dedicated school boards, without whom our successes would not have been possible. Our districts continue to grow, as will our staff, in order to keep up with challenging financial charges. I would like to thank the communities of Brookline and Hollis for their continued support to make our schools places where the children of both communities receive an excellent education and prepare themselves to take their places in society as responsible, educated citizens.

HOLLIS/BROOKLINE COOPERATIVE SCHOOL DISTRICT WARRANT
The State of New Hampshire

To the inhabitants of the Hollis/Brookline Cooperative School District in the Towns of Hollis and Brookline in the County of Hillsborough, State of New Hampshire qualified to vote in District Affairs.

YOU ARE HEREBY NOTIFIED TO MEET AT THE HOLLIS BROOKLINE HIGH SCHOOL GYMNASIUM IN SAID DISTRICT ON THE NINTH DAY OF MARCH, AT SEVEN O'CLOCK IN THE EVENING TO ACT UPON THE FOLLOWING SUBJECTS.

Article 1. To elect all necessary school district officers for the ensuing terms by official ballot on March 14, 2006.

- Election of one (1) member of the School Board from Hollis for the ensuing two years.
- Election of one (1) member of the School Board from Hollis for the ensuing three years.
- Election of one (1) member of the School Board from Brookline for one year.
- Election of one (1) member of the School Board from Brookline for the ensuing three years.
- Election of one (1) Budget Committee Member from Hollis for one year.
- Election of one (1) Budget Committee Member from Hollis for the ensuing three years.
- Election of one (1) Budget Committee Member from Brookline for the ensuing three years.

Article 2. To see if the school district will vote to raise and appropriate the sum of \$ 1,400,000 (gross budget) for Hollis Brookline High School renovation/addition and to authorize the issuance of not more than \$1,400,000 of bonds or notes, in accordance with NH RSA 33 (Municipal Finance Act), and to authorize the school board to issue and negotiate such notes or bonds and to determine the rate of interest thereon. Furthermore to appropriate the sum of \$25,000 representing interest earned on the above bond proceeds to be used for the above purposes. And to raise and appropriate the sum of \$35,875 for the first interest payment on the bond or note. The school board recommends this appropriation. The budget committee does not recommend this article. A two-thirds ballot vote is required.

Article 3. To see if the school district will vote to raise and appropriate a sum of \$295,533 to fund the increase in cost items relative to professional staff salaries and fringe benefits for the 2006-07 school year which resulted from good faith negotiations with the professional staff, and which represents the negotiated increase over last year's salaries and fringe benefits. This is the first year of a 3-year contract. Cost item increases in subsequent years will require approval of specific warrant articles at future district meetings. The school board recommends this appropriation. The budget committee recommends this article.

Article 4. To see if the school district will vote to raise and appropriate the sum of \$41,495, representing the district's 54% share of the total cost for a School Resource Officer. The school board does not recommend this appropriation. The budget committee does not recommend this article.

Article 5. To see if the school district will vote to raise and appropriate \$_____ for the support of schools, for the payment of salaries of school district officers and agents and for the payment of statutory obligations of the district. The budget committee recommends this article. (The school board recommends \$_____). This appropriation does not include any of the other warrant articles.*

**Unavailable at press time. Please refer to posted budget.*

HOLLIS BROOKLINE HIGH SCHOOL
PRINCIPAL REPORT
2005-2006

Over the past year Hollis Brookline High School has experienced many changes including a new superintendent, principal, guidance director, technology director many new staff members and students including our largest freshmen class to date and we continue to enroll new students each week. I have always been impressed with Hollis Brookline High School, having lived in the community for most of my adult life and educated my children within the district, but this year has afforded me the opportunity to experience just how special a place this is. The school is filled with hard working staff dedicated to providing the best education for the children of these two communities.

In highlighting some of the accomplishments over the past year, let me start with our basketball team, which was crowned the Class I State Champions last spring. The community took great pride in this accomplishment as it marked the first basketball state championship in over 30 years. The new track facility was dedicated in honor of our legendary track and field coach Lou Korcoulis, and we were proud to host the class I state track meet last year and this year as well. The end of the school year marked the retirements of Principal Flahive and Superintendent DeBenedictis, after many years of service as leaders within our district and also marked the retirement of beloved long time staff members, Mr. Joel Mitchell, Mrs. Midge Kelly and Mr. Richard Mehlhorn.

In the summer, the Instructional Practices Committee came together, as directed by the Cooperative District meeting, to reform the high school and improve learning opportunities for students and teachers. The committee met many times throughout the summer and fall, reviewed current literature and best practices and presented their recommendations to the school board in October and held a public forum in November. In December the school board adopted a number of changes for the 2006-07 school year which call for an increase in instructional time, a more rigorous program for seniors and a reduction in the number of study halls.

The summer also marked the release of the visiting committee report of the New England Association of Schools and Colleges (NEASC). The report contained numerous commendations and recommendations that the staff has been addressing over the course of this school year. The report is available at your local library and at the high school. We are proud to report that in November the Commission on Public Secondary Schools met, reviewed the report and continued the school's accreditation in NEASC. Our appreciation and thanks go out to co-chairs Helen Melanson and John Kittredge and the entire staff for doing the bulk of the work leading up to the accreditation visit last spring.

Once school began, the school became alive with new and returning students. Personally I could not have felt more welcomed by staff and students and was impressed by the enthusiasm shown by the staff, in particular the "most senior" faculty members, in welcoming back our students. Mr. Richard Raymond moved over to assume the role as Director of Technology and Ms. Brenda Posnanski, was welcomed as our new Guidance Director. The football team began its first varsity season and played their home games at our new football field, which is part of our beautiful track facility. Through the efforts of many within the community an impressive concession stand was constructed at the facility and dedicated in the memory of Nick Jennings.

Once again Hollis Brookline High School's performance was outstanding on the New Hampshire Educational Improvement and Assessment Program (NHEIAP). The class of 2008 achieved results that ranked us as the top school in the area and third and fourth in the state. This is a tribute to all of our hard working students, teachers and support staff as well Ms. Carol Mace, District Director of Curriculum, who

has been instrumental in aligning curriculum with state frameworks, improving the quality of instruction and allowing our students to do their best.

A great kick off to the year was provided by the theatre department as they presented Greater Tuna, over the first weekend of school. The department also presented an outstanding performance of The Diviners in December and will follow it up with the musical, How to Succeed in Business Without Really Trying this spring all under the direction of our talented drama director, Ms. Elyse Tomlinson. The Fall and Winter Concerts by our various band and choral groups as well as the Pep Band performing at basketball and football games, continue to showcase the talented students of Hollis Brookline and the outstanding direction of Ms. Karen Sayward and Mr. Dave Umstead.

The new school year also brought with it a commitment by staff and students to establish smaller study halls as well as quieter and cleaner hallways throughout the school day. A Faculty Council was elected in September and began meeting monthly. Mr. John Boucher took over the task of school web master and has done a wonderful job of updating the school web site and making it an effective communication tool.

We are proud of our girls' volleyball team, who went through the season undefeated and won the Class I State Title. Ms. Becky Balafour was named Coach of the Year and Erin Flaherty named Player of the Year in Class I. National Honor Society Induction inducted 16 new members at a ceremony where Superintendent. Pike was the guest speaker.

This year we offered a new course in Advanced Placement Chemistry and plans are in the works to offer Advanced Placement Statistics next year. We are proud of the accomplishments and dedication of both students and parent volunteers involved in the US First Robotics Team. Special student programs this year included a Veteran's Day and various pep rally assemblies, fundraising efforts for Hurricane Katrina victims, Pakistan Relief Fund and holiday giving programs involving Adopt a Family and Giving Tree. Over the winter, students and staff participated in the Penguin Plunge for Special Olympics.

The end of this year will also mark the retirement of some of our most treasured teachers, including Mr. Bill Neller, Mrs. Vina Duffy and Mrs. Linda Wheeler. All of these fine educators leave us at the very top of their game and will be sorely missed by the community having left a positive mark on hundreds of our students over the years. We wish them well.

In closing, let me say once more what a special welcoming place I have found Hollis Brookline High School to be. There are wonderful and talented students, a dedicated staff and tremendous support from the Supervisory Union, school board and both communities. All of us are committed to making a good school a great school.

**Annual Report
2005-2006
Hollis Brookline Middle School**

As principal of Hollis Brookline Middle School, I am both pleased and proud to submit this report to the citizens of Hollis and Brookline.

INVITATION

On behalf of the staff and students at Hollis Brookline Middle School I wish to invite you, the residents of Hollis and Brookline, to visit your new middle school. Hollis Brookline Middle School provides academic rigor, diverse extracurricular opportunities, healthy social events and emotional support during challenging, adolescent years. Our newly renovated and expanded building has immediately served to enhance our program.

We are proud to announce that Hollis Brookline Middle School was selected by the New England League of Middle Schools as a “Spotlight School.” We received this recognition because we have developed an outstanding, researched based program for middle school students that exemplify best practices.

ENROLLMENT

At present there are four hundred and eighty two (482) students enrolled at Hollis Brookline Middle School, an increase of 24 students from the 2004-2005 school year. We have been able to maintain excellent class sizes by slowly building our fifth and final team. With the addition of a social studies teacher the fifth team will be complete, that is it will contain a primary math, science, social studies and English teacher. We recognize Mrs. Gruposso, Ms. Ellerin and Mrs. Rossetti for their work ethic and commitment to our young adolescents and the middle level model of teaming.

NEW STAFF

We are proud to welcome our new staff members. Their skill, style and compassion have served to enhance our educational community.

Mrs. Karen Coutu	English
Mrs. Debbie White	Special Education
Mr. Kevin Leonard	Special Education
Mrs. Gail Rasmussen	English
Mrs. Teresa Rossetti	Math
Mrs. Linda Ravenelle	French (PT)

Special education services are delivered within an exemplary model of inclusion. Our paraprofessionals are key to the success of our program.

BUILDING INITIATIVES

The Hollis Brookline Middle School Renovation/Expansion Project was basically completed in November. The year began with only two classes in the Farley Building plus use of the portables. By October all classes were transitioned to the new space under one roof. Significant features of the project include:

- 16 new classrooms allowing 3 of the core classes positioned together
- 1 relocated and 1 new computer lab for core teacher use
- new ventilation system
- security system
- four new and 2 renovated lavatories for students
- 1 multipurpose room used for Physical Education classes and lunches
- new kitchen
- new science classroom
- five smaller classrooms for individualized instruction
- sprinkler system
- updated technology for student and staff use
- individual lockers for all students

With sincere gratitude and deep pride we are developing a spirit of 'giving back' to our community.

One of the HBMS Building Goals has been the creation of a **Service Club**. Volunteer students have worked with Mrs. Rankins and Mrs. Spencer to implement a paper and cardboard **recycling project**. Paper, newspapers, cardboard, catalogues and mail are collected weekly in environmental bins. During our morning advisory period, on organization day, students empty their bin into a dumpster exclusively for the paper. We are expecting to see major results with this initiative.

A **Master Schedule** has been created which allows students to eat lunch by grade levels, unlike the 5 lunches that were previously scheduled by teams. All students have experienced a less fragmented schedule, plus have enjoyed being able to socialize with students from other teams. In addition, the multi purpose room has accommodated four physical education classes, therefore reducing class size.

Technology continues to be a primary focus. The staff at Hollis Brookline Middle School has embraced technology as the tool it is intended. Email communication has grown tremendously beyond interschool boundaries to parents. Homework is posted daily by 4:00 PM on our school web site and individual teachers have created valuable

web pages that provide study guides, interactive applications and current events. Mr. Dean Jahns has done an outstanding job as our webmaster. We hope parents and community members are referencing our site frequently.

Assessment has a new face at all grade levels; the **New England Common Assessment Program**. During a two week window in October our 7th and 8th grade students were administered math and reading assessments. This constituted 7 different sessions. Students in the 8th grade were also assessed in writing which totaled 9 sessions. This will be the first year of formal results. Achievement levels will be directly related to our annual yearly progress as designed through No Child Left Behind (NCLB).

A **partnership** is forming between the HBMS and the **Merrimack YMCA**. After school programming is being organized for our young adolescents. HBMS will house the classes from the end of the school day until 5:15. To date students have completed a comprehensive survey giving the Y Teen Director extensive input. Registration is available to students through the school, at the Y in Merrimack or on line. Cost to students is minimal as the Y is a non profit organization. We look forward to more connections for our students as they explore interests beyond the core curriculum.

Adventure Learning is a specific unit within our physical education curriculum which focuses on team building, problem solving, communication and trust. The unit will be further enhanced by the addition of a **climbing wall** in our new multi purpose room. Staff development is being offered to staff to encourage the use of the wall during advisory as well as the physical education program.

A steering team has formed at the middle school to design a three year plan to implement **Curriculum Mapping**. Curriculum Mapping is a strategy which has a dual benefit; identify gaps and/or redundancies in the curriculum and determine meaningful opportunities for cross curriculum integration.

PARENT, TEACHER, STUDENT ASSOCIATION

Our **PTSA** continues to be a strong foundation to our success. Twenty plus parents meet monthly to discuss what is affecting our adolescents and how to make a positive difference.

The Staff Appreciation Committee out did itself again this year with a Turkey Feast to include all the fixings. The recognition for staff's daily diligence is greatly appreciated.

We applaud the work of Peg Teichman as our *Knighly News* publisher. The guaranteed communication 6-8 times per school year is an essential tool during these adolescent years.

The Hollis Brookline Middle School Parent Association continues to receive the Blue Ribbon Award for volunteerism. We are proud of our parent involvement and recognize

their contributions. Sincere appreciation is extended to Mrs. Trish MacDonald for her two years of service as President of the PTSA.

EXTRA CURRICULAR

Exemplary middle schools provide a multitude of opportunities for student involvement to connect beyond the school day. We are proud of our diverse offerings to include art club, drama which showcases a fall and spring production, chorus and band, several interscholastic sports, yearbook , ski program and supervised social dances.

A SPECIAL THANK YOU

It would be remiss of us not to thank the building committee members for their dedication and hard work on our building project. The Hollis Brookline Middle School is now a state of the art facility that will serve the communities of Hollis and Brookline well. Building Committee members include: Ted Karwoski and Steve Simons as Co-chairs of the committee, Lou-Ann Parodi, Kimberly Rizzo Saunders, LeeAnn Blastos, Wayne Zold, Claudia Banks, Bill Beauregard, Tim Hale, Doug Cleveland, Pat Goyette, Ken DeBenedictis, DeeDee Adams, Sue Heard, Anne Dumas and Rich Pike.

We continue to strive for balance with academic rigor and care for our young adolescents. Mrs. Kimberly Rizzo Saunders has had profound positive impact on the middle school. I am proud to work with Mrs. Saunders, the HBMS staff, students, parents and community members from Brookline and Hollis.
