Superintendent's Report

To the School Board of Windsor, N. H.

The report of the Superintendent of Schools for the school year of 1927-1928 is hereby respectfully submitted:

We had four children in school this year. Mary and Norman Chapman and Edgar Jones attended the Hillsboro Upper Village School, and Stanley Nelson attended the High School at Washington Center. Mrs. Grace Crane was the teacher at the Upper Village and Miss Doris Elliott at the High School. Both these teachers hold the highest form of State certification, and were no doubt better teachers than we could have obtained had we decided to have a school in our town for so few pupils.

With four enrolled there was an average membership of four. There were 89 days absences, and a percentage of attendance of 87.2 in schools in which the average attendance was 96.2 per cent. This low percent was due to the fact that three of the four had a long distance to travel over a road almost impassable for part of the time.

Edgar and Norman were in the fifth grade, Mary was in the sixth, and Stanley in the tenth grade.

There were recorded by the teachers only three visits in these schools by people from Windsor. Of course there may not be as great an interest in schools of another district, as there would be in our own schools, but nevertheless you are invited to visit the schools which are attended by your children or by the children of your townspeople, because it does encourage the children to greater endeavor. In almost every case where the parents visit the schools most often, the children attend most regularly and do the best work.

The Superintendent made 50 visits of supervision and inspection to the schools attended by our children and our school board is credited with three visits. Each of these schools is also under the supervision of the State Department of Education, which approves the teachers and the courses of studies pursued.

The education of our children cost us \$10.09 for each

\$1,000 of our valuation. \$1.84 of this amount was contributed by the State so that the cost to the district was \$8.25 per \$1,000 valuation. 119 of the 244 districts in New Hampshire had a higher cost per valuation.

This report closes with thanks to the Board members for their interest in the advancement of education, and for the efforts to overcome the many difficulties incident to our peculiar problems.

Respectfully submitted,

A. A. HOLDEN
