REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Sullivan:

I herein submit my thirteenth annual report as superintendent of schools.

It seems right and proper to utilize a little space in this report to bring before the parents and citizens some of the objectives of the public school system today: (1) To develop a sound mind in a strong and healthy body. (2) To develop the ability to read and write, to think and put that thought into action. During the year, we have tried not only to teach the mechanics of reading but also the getting of the thought from the printed page and then express-

ing it in an effective way to the listener. That is we are emphasizing more oral reading. (3) We recognize the need of more effective teaching of technical grammar as well as the use of correct expressions in the Mother tongue. (4) The use of leisure time for worthy activities and pleasures. (5) The development of a fine spiritual character that is trusted and admired.

To the development of these objectives and others not mentioned we invite your cooperation, support and suggestions.

These promotions were made on the following points: regularity of attendance, term rank, standard tests and examinations given by the teacher.

All the pupils maintained creditable standing in their respective grades.

ORGANIZATION FOR YEAR 1935-1936

School	Teacher	Enrollment
East No. 1,	Lois A. Day,	18
Center No. 2,	W. Oscar Frazer,	19

At time of writing, both schools are well organized, the instruction efficient, the discipline excellent, the attitude of the pupils cooperative; all of which give promise of a successful year.

GRADUATES OF THE EIGHTH GRADE

The graduates of the eighth grade were Raymond Wilder and Frank Nims.

In conclusion, I wish to thank the school board, teachers and parents for their cooperation and support.

Respectfully submitted,

FREDERICK T. JOHNSON,

SCHOOL NURSE'S REPORT

To the Superintendent of Schools:

The routine inspection of each pupil's scalp, teeth, throat, skin, posture and general hygiene began with the opening of the school year.

The general appearance of the children does not indicate lack of nourishment. There are always a few who need special food. A most successful school dental clinic was conducted by Dr. Grimes in December. The pupils who took advantage of this opportunity received 100 per cent dental certificates. The growth and weight chart with the periodic weighing and measuring furnishes a strong desire to practice rules which are simple but most important for health and normal growth.

Home visits were made to instruct parents and to follow up defects.

Total school visits,	29
Total home visits,	18

I wish to thank the school board and local officials for their splendid cooperation.

Respectfully submitted,
MARGARET E. HARRIS.
