Whatever a Town Is - The People Make It So!

In 1940 the Town of Bedford hired the youngest fireman in its history, seventeen year-old Ralph M. Wiggin, Jr. Fifty years later Ralph Wiggin, Fire Chief, continues to exemplify dedication to job, family and community.

On March 17, 1951 the fire house was gutted by fire but three engines were saved. An excerpt from the minutes of the Fire Department reads: "In the early hours of March 17, 1951, a Mr. Donald Heath was passing the fire house and noticed it to be on fire. He called the alarm from the home of Eugene Van Loan across the street at about 12:30 a.m. Ralph Wiggin, Jr. was one of the first to arrive. He opened all the doors and started all the truck engines. He drove Engines 1 and 3 out himself and Robert E. Jenkins drove

out the Sanford. The paint on the cab of Engine 1 had been burnt and the top layer of hose was on fire."

Whether saving the fire house or winding the Town clock, Ralph Wiggin has been dedicated to serving this community all his life.

Ralph Wiggin was born Chief Ralph in Bedford and grew up across the street from the fire station. He attended Manchester West High School where he played football.

He has been serving as a firefighter for his entire life with the exception of three years spent in the service during World War II. With his wife Frances, the Town Librarian, he has two children; Kendall, the librarian for the State of New Hampshire and Jonathan, a firefighter in Concord.

The Bedford Fire Department has undergone fifty years of improvement, led for the past twenty-five years by Chief Wiggin. In 1940 the department consisted of fifty volunteer men and

two trucks. Today there are twelve full time men and thirty-two callmen backed up by fourteen pieces of equipment. Chief Wiggin sees advanced equipment as the greatest improvement over the years. The new trucks and protective gear make firefighting much safer and more effective.

Ralph Wiggin became Fire Chief in 1965; by 1969 he had brought ambulance service to the Town. Over the years he has provided leadership and innovative ideas for Bedford and the State. He organized and was the first President of the Souhegan Mutual Aid Program. Chief Wiggin is the immediate past president of the New Hampshire Fire Chief's Association. In the future, he would like to see a new fire station but believes the current economy will not allow for it.

Active all his life in the community,f Ralph has

also seen the Town develop from a population of 1,500 to 13,000 residents today. He points out the greatest change is the disappearance of the farms. Today those farm lands have become housing developments and industrial space. He believes good planning has made this Town grow well. "In Bedford"

Chief Ralph M. Wiggin, Jr.

we have a nice class of people, a nice group."

Ralph Wiggin is a model of humble service for the Town. It is the little things that go unnoticed, serving as Church Sexton, Bail Commissioner or simply winding the Town clock, which display his dedication to the community.

Ralph Wiggin takes pride in his work and in his Town. As Fire Chief, serving the Town has been his life. "I am not looking for praise. I have just tried to help the Town grow. I have done my duty as I believe everyone should."

TOWN OF BEDFORD BUDGETARY TOWN MEETING MINUTES MARCH 6, 1990

The Annual Budgetary Town Meeting was held on Tuesday, March 6, 1990 at the McKelvie School. Present were Councilors Paul Anderson, Charles Colpitts, James Dias, Paul Goldberg, John Miville, Edward Moran, and Eugene Van Loan, Jr. Also present was Anthony Plante, Finance Director and David Crawford, Town Manager. There were approximately 400 people in attendance.

Moderator Eugene Van Loan III opened the meeting at 7:10 PM and gave the invocation and led the Pledge of Allegiance.

Earl Isham and Jim Clemons of the Richard K. Harvell VFW Post presented Citizenship Awards to Leon Biscornet and Karen Carroll of the Bedford Police Department and Scott Wiggin and Robert Bullock of the Bedford Fire Department commending them for doing their job just right.

State Senator Sheila Roberge, as a member of the Bicentennial Commission, presented books to the school libraries and Town Library commemorating the 200th anniversary of the signing of the Constitution.

Town Council Chairman John Miville indicated the Town Moderator is not seeking re-election after serving for 15 years. The Town Council felt special recognition should be given to him as he epitomizes the integrity of our Town Meeting and our Town Elections and as such declared Eugene Van Loan III as "Mr. Moderator". Town Clerk/Tax Collector Edith Schmidtchen presented him with a plaque.

Moderator Van Loan went over the Rules of Procedure for the meeting.

ARTICLE 4. To see if the Town will vote to raise and appropriate a sum not to exceed \$2,100,000.00 plus interest earned on invested funds, for the purpose of constructing sewerage and sewerage treatment facilities, such sum to be

raised by the issuance of serial bonds or notes under and in compliance with the provisions of the Municipal Finance Act (RSA Chapter 33) and to authorize the Council to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other action as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Bedford, and to allow the Council to accept and expend such money as may become available from the Federal or State government or any other source, and pass any vote relating thereto. This article requires a two-thirds ballot vote.

John Miville moved Article 4. Motion seconded. Paul Goldberg spoke to the article indicating this is an extension of the sewer interceptor from the siphon inlet structure to the Merrimack line. This allows the commercial properties along Route 3 to be sewered. This will be funded by a betterment charge of the developable land in the area which would be approximately \$3500/acre. Added to that \$3500/acre would be the interest charge that would be part of the bond issue. As that land is developed, the bond would be paid off by the betterment charge and the sewer use charge. Our present sewer is being funded by sewer use charges. Presently along that area, there are approximately \$500,000 that could be generated as people hook up. These costs would pay for a minimum of 2 years of the carrying costs of the bond. If the bond is approved, it does not become effective until the construction is completed, roughly 1992. Taking the betterment charge and the use charge, we would only have to develop approximately one third of that acreage for that sewer to be fully funded.

Don Padfield, 6 Roosevelt Drive, asked if the current existing businesses have to hook up. Mr. Goldberg said if the lines run within 100 feet of the property they must hook up. He said we have commitment letters from developers who have existing facilities who would hook up if it were available. Mr. Padfield asked on those that are more than 100 feet from the interceptor, if they had a septic system which goes bad, do they have any alternative but to hook up. Mr. Goldberg

said they would have an alternative to rebuild if they were more than 100 feet, however with the economics involved, it would behoove them to run the pipe to hook it up.

Paul MacEwen, 300 D. W. Highway, asked what happens if the sewer line goes through your property and your house is 1200 feet away. Mr. Goldberg said presently it is commercial properties this applies to, and he would not come under that.

Mr. Goldberg said in the newspaper there was a headline re municipal construction within these economic times where municipalities can save 10 to 15%. Mr. Goldberg believes the sewer construction will be 10 to 15% less. If we are going to do it, now is a good time to do it.

Anne Hoffman asked if fees are in excess of bonding, what happens to the extra revenue. Mr. Goldberg said it goes in a fund for future maintenance and sewer construction.

Carolyn Akins, Hickory Lane, said hopefully this will attract industry or light commercial. She understands a fire facility is planned for that area and asked when and what cost. Mr. Miville said the sewer is an enhancement to get development to occur, and when that happens we may have to expand our fire services.

A motion was made, seconded and passed to move the question.

Moderator Van Loan opened the polls for the secret ballot voting at 7:30 PM.

ARTICLE 5. To see if the Town will vote to raise and appropriate the sum of \$250,000 for the purpose of acquisition of the property in the proposed Powder Hill Subdivision Development being Lot #8-16-121, consisting of approximately 40 acres of land and located at the intersections of Chubbuck, New Boston and Wallace Roads.

John Miville moved Article 5 in the amount of \$200,000. Motion seconded. Eugene Van Loan, Jr. spoke to the article indicating this will take

the current use payment due on the entire Powder Hill development of 443 acres and apply it to the purchase of this land. The assessment of current use taxes on the entire Powder Hill development in March 1989 was \$250,000. However, property values are decreasing, and the Assessor took a current look at the property and judged that the current use penalty would be in the range of \$195,000 to \$200,000 now. Mr. Purtell, the developer, has agreed the Town could make the transaction for \$200,000. The developer will pay the owner of the land \$200,000, and the Town will grant the developer an abatement for \$200,000. There will be no tax dollars required. As public land, several Town Departments have indicated an interest in using part of this land. The Town voted last year to build a new Public Works Garage, Parks and Recreation Department proposes to build playing fields for both active and passive recreation, and the Army Corps has designated 18.8 acres as a non-disturbance easement in mitigation for land classified as having poorly drained soils which have been utilized in the development of the remaining 400 acres. This will remain conservation land leaving about 8 acres for the garage and 13 acres for recreation. The entire town will benefit from this land purchase. The Town Council feels the acquisition of this land would be beneficial to the people of the Town and the Departments involved are anxious to start work on what will be the best use of the parcel.

Joan Wood, Hitching Post Lane, asked about the transfer station which will take up a lot of space. Mr. Miville said that would be planned on the current landfill area. We are not planning on having to expand beyond the current area where we already own 117 acres.

Voice vote on the motion was declared passed by Moderator Van Loan. A standing vote was called for which found yes 162 and no 200, so the article failed.

ARTICLE 6. To see if the Town will vote to raise and appropriate the gross sum of \$25,000 to the Conservation Fund as authorized by RSA 36-A:5 to be used only for the acquisition in the name of

the Town of the fee or lesser interest in conservation land and other costs associated therewith for permanent conservation use. Said appropriated funds and state matching funds may be expended by majority vote of the Town Council.

Article moved and seconded. Marjorie Peters, 3 Church Road, moved to amend the article by adding the words "following a majority vote and recommendation by the Conservation Commission." Amendment seconded.

Mrs. Peters believes this is a valuable thing to add to this article. Without the recommendation of the Conservation Commission, which has expertise, the Town fathers would be able to vote for any piece of land they wanted. She said this offers protection.

Vote on the amendment passed.

Carol Andersen-Botsford, Chairman of the Conservation Commission, encouraged everyone to vote for the article because we have very little conservation land. She said we have almost been assured by the Trust for NH Lands that they would like to give matching funds to the Town to buy land. The Trust will run out in October 1990.

Margaret Comiskey, 40 Maple Drive, asked if the Town has any conservation funds available at the present time. Mrs. Botsford said there is a conservation fund with about \$2,000 in it.

Clark Gott, 138 North Amherst Road, member of the Conservation Commission, encouraged people to vote for it. He said this is a small token towards buying some conservation easements, etc., possibly along the Merrimack River.

Vote on motion as amended passed.

ARTICLE 7. To see if the Town will vote to change the purpose of the Grader Capital Reserve Fund to the Fire Truck Capital Reserve Fund in accordance with RSA 35:16. It has been determined that the citizens of the Town will be better served by making those funds available for the acquisition of a fire truck for the protection of

the public safety. Further, to authorize the Council to withdraw \$142,915.00 and the accumulated interest to date of withdrawal for the purpose of acquiring a new fire truck (Two thirds vote required)

Mr. Miville moved Article 7; motion seconded.

Mr. Miville said this is the article the Council indicated at last year's Town Meeting that would be brought back this year. The Town had purchased a new grader through insurance money and therefore this money in the grader fund would not be needed because of the 20-year life expectancy of a grader. The Council determined they needed to purchase fire equipment and agreed to lease-purchase a truck at last year's meeting. The Council could move the grader money to the General Fund but are asking to move it into the Fire Truck Capital Reserve Fund, and it can only be used specifically for that purpose. Delivery of the vehicle is anticipated in April. It takes about 12 months to get a fire truck, so the Council started the process last vear.

Vote on motion passed. It was obvious by the standing vote that it passed by the 2/3 and no one challenged that fact.

Gus Garceau, North Amherst Road, asked to introduce a motion to ask the Council to enter into negotiations for purchase of the 40 acres for \$100,000. Moderator Van Loan said if you want to do something at the end of the meeting when we have completed the business that is printed on the warrant, and you want to introduce a motion at that time that would be non-binding and sense of the meeting, you can do anything you want. Mr. Garceau asked if the Moderator would recognize him at that time, and the Moderator said he will.

Moderator Van Loan closed the polls on Article 4 at 8:40 PM.

ARTICLE 8. To see if the Town will vote to raise and appropriate such sums of money as may be

necessary to defray Town charges for the ensuing year.

Town General Fund	\$5,432,500.00
Sewer Fund	330,000.00
Police Contract Work Fund	125,350.00
Solid Waste Disposal Fund	180,000.00
•	

Mr. Miville moved \$6,067,850.00 exclusive of the warrants already voted. Motion seconded.

\$6,067,850.00

Mr. Miville said this is the general operating budget as well as the enterprise funds.

Moderator Van Loan went over each account.

Boards and Commissions - \$61,005

Total Appropriations

Agencies and Activities - \$121,058

Margaret Comiskey asked for an explanation of the plans for the Old Town Hall. Mr. Miville said the Council has begun using the Town Hall more extensively. Mr. Dias chaired a committee to spruce it up who held a brick sale to raise funds to paint the exterior. The Council feels it would be appropriate to match the money raised by outside agencies. Plans include repair of the ceiling, sand and clean the floor, provide a handicapped entrance, etc. Some of the money is for normal maintenance of it.

Marjorie Peters asked if there is any recapture plan from letting people use the Town Hall. Mr. Miville said there is a rental agreement and the Park and Recreation Director is administering that. Mrs. Peters does not see that under revenues. David Crawford said we do not anticipate a large sum in revenues because we do not charge for general community use.

Administration - \$737,000

Police Department - \$1,348,650

Fire Department - \$684,780

Public Works - \$1,540,962

John Wood, Hitching Post Lane, moved that line 453 be deleted for \$150,000 for the highway garage; motion seconded.

Moderator Van Loan announced the results of the secret ballot vote on Article 4 with yes 245 and no 111, thus Article 4 passed by the necessary two thirds vote. A two thirds vote would require 237, so it passed.

Mr. Wood said the Town needs a new garage. Last week he went to the garage and walked through and agrees a new garage is needed, but the building proposed is not in line with what the Town should vote for. He feels it is too large at 11,000 SF. He said one of the Councilors at Candidate's Night said the Town really does not need a building this large, and it would probably be 10 years before they use it. If that is the case, why can't we build a smaller one and then add on in the future. Mr. Wood feels the location is bad. It is not a well drained area. He objects to the method of financing. They want to go into a lease/purchase program paying \$150,000 for the next 5 years. He feels it should be paid for over a period longer than 5 years. He feels the building should be delayed another year and become a part of the Capital Improvements Plan. Mr. Miville said what the Council manifested last year is the concepts are still the same. We need a town facility. There are varying sites which might be acquired but would cost more. We acquired the land as part of the easement agreements granted by Mr. Purtell. The recommendation of the Public Works Department was we needed between 9,000 SF and 11,000 SF. The facility won't go vacant. We would be able to house equipment in the facility. The Council felt the 11,000 SF would meet the needs of the Town over the next 5 years. This is an attempt to build the best working facility for our needs in the future. This can be taken care of with the annual appropriation without having to increase taxes. The Council feels the overall plan is still a sound one. To wait another year will result in getting closer to needing the 11,000 SF facility, and this is the best time to build.

John Holland, 5 Glen Road, asked if the easement on Powder Hill is a necessary part of the construction program. Mr. Crawford said yes, the easement stretches across the landfill site and onto the Purtell land that we would need an easement to build on. Mr. Holland asked if the land is encumbered with a mortgage. Mr. Crawford said we have an agreement from Mr. Purtell that he will provide the easement. It is in the hands of the attorneys waiting for final signature. One of the reasons it has not been signed is he could not get the release before this Town Meeting. Mr. Holland asked if the holder of the mortgage is committed to giving a release of the mortgage? Mr. Crawford said Mr. Purtell has committed to do that yes.

Ed Comiskey, 40 Maple Drive, asked where is the \$150,000 the Town voted last year for the garage. Mr. Miville said on page 23, other revenues, under the fund balance, Public Works Building.

Vote on motion to reduce the budget by the amount of \$150,000, specifically in discussion of the highway garage.

Moderator Van Loan said in New Hampshire, we are basically not dealing with a line item budget in the formal sense in the sense that the Town Council has the authority to move appropriations from one line item to another, so we are ultimately voting a total amount of money to be raised, and the Town Council ultimately has the authority to make the expenditures, but they are not limited by the specific amounts as reflected in these proposed budgets.

Vote on motion to reduce the budget by \$150,000 failed.

Earl Legacy, 7 Bourbon Street, asked the Council to explain the landfill division of \$96,000, which is a new item. Mr. Miville said it is a return to an older item. We created an enterprise fund for solid waste, and in that fund we appropriated money to purchase the land adjacent to the landfill which the town had polluted the waste stream. In the Solid Waste Disposal Fund, the Council charges money for commercial dumping,

and we were operating the landfill out of that enterprise fund. However, the landfill is not able to be self sufficient based on the fees, so the enterprise fund needs some support from the tax base, for personnel, operating money, etc. That is what the landfill division is.

Eleanor Freedman, Kalmia Way, asked on line 457 why the recommendation of \$153,500 is less than what was spent last year for street resurfacing and rebuilding. Mr. Dias said the street resurfacing and rebuilding account did not spend all the money and \$187,500 is carried over from last year.

Richard Mandeville, Hearthside Circle, asked why the \$187,500 was not spent on line 457. He feels the roads are in such a condition that it might be helpful to spend the money. He is concerned that the roads are not being addressed. Mr. Miville said we had problems with management in Public Works, and we did not get to spend all the money because the work didn't get started on time. The Council understands fully that one of the complaints it gets consistently is about roads. The new Public Works Director has as his primary charge the requirement that he include in the Capital Improvement Plan a 5 and 10-year projection so we would be able to make more solid, reasonable recommendations in this regard. The change in that department will result in better planning. The Council's attempt was to try to moderate the tax rate.

John Wood asked for a division vote on his amendment. Moderator Van Loan said it is too late.

Marjorie Peters said in line 457, there has been an encumbrance of the 1989 appropriated funds which creates a shadow budget and is not a fair figure. She recommends that there be no more lapsed funds in major accounts like this. She said we ought to be able to see the total annually. Mr. Dias said the reason that was encumbered is what the Chairman said, and one of the reasons we had to be so careful was we had to make up a deficit of \$154,000 on Beals Road from previous boards. Earl Legacy asked for a clarification. He ques-

tioned why Mr. Wood's request for reconsideration was not valid because we are still discussing that item. Moderator Van Loan said he wasn't asking for a reconsideration, he was asking for a revote on a vote that was already taken.

Richard Galway, Gage Road, asked if the Town is attempting to negotiate or solicit dump materials from other areas. Mr. Miville said absolutely not. Mr. Galway asked if there has been discussion with Wheelabrator or anyone else about negotiating or soliciting for the dumping of ash in the dump. Mr. Crawford said our letter of intent with Wheelabrator indicates that we would be agreeable, if the Town Council agreed and Wheelabrator agreed in the future, we could become a pilot area. It would be used as an area for the state and federal, Wheelabrator and other officials to take a look at the use of ash from an incinerator as a capping material. This would be a very small area, 200' by 200'. They would run their pilot project and remove the ash after they run the pilot project. Mr. Galway said the Chairman said absolutely not and your answer is different. Mr. Crawford thinks the Chairman's answer as he understood, you were asking about soliciting or becoming a regional landfill which we have not. We have contemplated a transfer station, but that is not a regional disposal facility. Mr. Galway asked if the Town is becoming a dump for ash and a letter was signed to do that. Mr. Crawford said no. The letter of intent is to negotiate and discuss. Mr. Galway asked if there have been any committees of the Town discussing this and if so, are minutes of those committee meetings available. Mr. Goldberg said the process we are talking about now is not anything to do with an ash dump. We are talking about a cap. Minutes of the discussions are available. Mr. Galway asked if we are talking about dumping ash. Mr. Goldberg said no.

Carole Lewis, Rundlett Hill Road, asked for an explanation between a transfer station and a regional transfer station. She understands that part of the letter of intent includes using the Town of Bedford as a regional transfer station. Moderator Van Loan said we are voting on the budget. These discussions are straying far afield.

These should be discussed directly with the Town Council at their regular meeting. Mr. Miville said the discussions with Wheelabrator were to agree to enter into discussion. There was no other commitment. We never agreed to become an ash landfill. We agreed only to entertain that some of the ash might be used as cover material, and we agreed not to do it, but we agreed to have that as part of our discussions. We discussed regional transfer station only in the case that our landfill in all probability would not be the site for that. A transfer site at our landfill means that we would no longer be landfilling Bedford trash and would have to collect it somewhere and take it somewhere, and the Town would have to arrange for the disposal of Bedford's trash.

Health and Welfare - \$25,021

Parks and Recreation - \$153,924

Library - \$260,000

Total Fixed and Other Charges - \$500,100

Marjorie Peters asked for an explanation in compensation adjustments and contingency and why they are up so alarmingly. Mr. Miville said last year we gave across the board increases. This budget does not include any salary adjustment. They are all included in the \$120,000, so it is not a dramatic increase from last year. The contingency is more than last year. \$25,000 of the contingency would be removed if the Conservation article is passed. The contingency worked well. We had extra fires and the Fire Department needed extra money and we moved it. The reason we like to leave it in is we are exploring a new police repeater radio system. That way it can only be spent with Town Council authorization. We have had a more unusual snow winter this year, and money may be needed from contingency. Mrs. Peters said out of \$43,000 on line 495, only \$5,593 was expended and on line 499 of the \$90,000 appropriated only \$11,469 was spent. There was a residue. Will that money lapse? Mr. Crawford said the money you are reflecting on is left after transfers are made to the various departments. The Council does not expend money from contingency, it is transferred to the departments as the Council votes. Mrs. Peters said there is a balance left in those accounts. Will that lapse? Mr. Crawford said yes, that is the Town Council operating procedure, and it would be applied to surplus and shows as a revenue for 1990.

Sue Holstein, Ministerial Branch, is confused with lapse and carry over. Mr. Dias said \$105,753 will go into next year's General Fund to lower the tax rate. Mrs. Holstein said last year we did not spend \$105,000 from our total budget, and you are increasing contingency to \$154,000.

Mrs. Holstein moved we reduce line 499, contingency, by \$64,000; motion seconded.

Mr. Dias said the Council was very cautious come November to where our Departments were, and we directed the Town Manager not to go over the bottom line on this budget, and they scrimped and saved. The snow storm on January 29 equivocated to \$32,000. We could have spent all that money frivolously. If we could save \$105,000 on taxes next year and come up with a budget that doesn't increase, we felt we were meeting the needs of the community. He wished the voters would not vote for this motion.

Walter Van Anglen, Horizon Drive, said if you run short, can you overexpend by a percentage by law. Mr. Miville said we could request DRA on an emergency basis, but the purpose of appropriating a budget is to get everyone to agree and understand what the plan is. Rather than have to declare an emergency, we could use contingency. It is a balancing act.

Paul Carrier, Old Lantern Road, commended the Town Council for instructing Department Heads to be conservative. He complimented Department Heads and employees for doing that. He is in favor of the motion because he would like to continue to encourage people to be frugal.

Vote on motion to reduce the budget by \$64,000 in the area of Contingency passed. A standing

vote was requested which showed yes 192 and no 119.

Jeff Hudson made a motion to amend the current budget by reducing it by \$100,000 to be done by the Council without affecting vital services; motion seconded.

Mr. Hudson spoke to the motion stating in the spirit of moderation in these times, this is to be done without affecting the vital services of police, fire, or public works. He said analysis of the budget shows that the total spending budget has increased by \$302,511, which is a 97% increase. He said if the Council needs assistance in determining the areas to reduce, he suggested the contingency fund, reduce line 495 - Compensation Adjustments from \$120,000 to zero; eliminate the position of Parks and Recreation Director and in his place utilize currently employed town or school employees; make the Planning Director part time; make the full time tax assessor part time. He said this could save the taxpayers a significant amount without touching the services of fire, police or public works. He asked, must we always spend all of our anticipated revenue increases?

Frances Wiggin, Bell Hill Road, said the \$120,000 for compensation adjustment, isn't that the salary raises for town employees? Yes. Are we children of lesser Gods or something? Everyone else in the community - the school, the highway, the police - are in union. It seems we work just as hard as everyone else and to give us not one cent increase in 1990 seems extremely unfair.

Rick Fortin, Old Mill Road, if we cut out the Parks and Recreation position, we will also lose some revenue. The Parks and Recreation Commission has started on a program to provide programs on pay as you go basis. There is \$20,000 on the revenue side of the budget from these programs. In order to do this, we need a dedicated, full time employee. He does not feel this would be a wise, long term decision.

Greg Joas, 64 North Amherst Road, agrees with Mrs. Wiggin that we do not want to cut anyone's salaries. He does not feel that was the intent. He feels it was a misunderstanding of the line item. He suggested we carry the motion to reduce the budget. He suggested there is no reason to continue to spend up to the level of revenues. He said maybe we would like to give some of this back to the taxpayers to reduce the tax rate.

Dick Stonner, South Hills Drive, said he advocated hiring a full time planner because it costs less than hiring a consultant. This is also helping others boards and commissions. He feels this is looking backward and not ahead.

Jim Dias said the statement of a \$302,511 increased budget is not correct. It is \$137,000 bottom line to bottom line. This budget now is \$73,000 more than last year with the \$64,000 cut. He thinks we scrutinized these budgets and if we keep cutting, we will have to start cutting services. Regarding Parks and Recreation, he quoted surrounding towns Parks and Recreation Budgets which are higher than this. We do not have enough land for our children. We need a quality of life for our children. We need programs. He has done a marvelous job. He is what we need in this Town to get us together. To ask for any less

is to take away from the employees, the children and adults.

Arthur Tucker, Park Drive, moved the question. Motion seconded. Vote on motion passed.

Vote on motion to reduce the budget by \$100,000 failed.

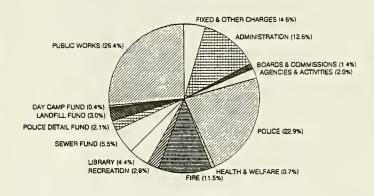

Vote on the budget at \$6,003,850.00 passed.

Gus Garceau wanted to make a motion to include an additional \$100,000 for the purchase of the piece of property we turned down for \$200,000. Moderator Van Loan said it is too late. Mr. Garceau said he asked before if it was appropriate. Moderator Van Loan thought he was asking to instruct the Town Council to enter into further negotiations with respect to that property, not to raise and appropriate a sum of money. Mr. Garceau said his intent was to appropriate \$100,000. Moderator Van Loan said despite that, if the question had been raised specifically in that context, he would have had to rule it inappropriate anyhow because there was a specific warrant article on that issue.

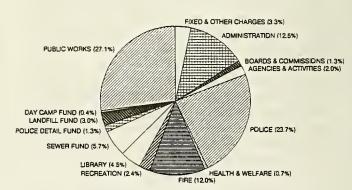

Motion made, seconded and passed to adjourn at 9:57 PM.

1990 Municipal Budget

Town of Bedford, New Hampshire

Revised Appropriations by Function

Year-End Expended by Function

TOWN OF BEDFORD, NEW HAMPSHIRE 1991 WARRANT

To the inhabitants of the Town of Bedford in the County of Hillsborough in the State of New Hampshire, qualified to vote in Town affairs:

You are hereby notified to meet at the McKelvie School in said Town on Tuesday, March 12, 1991 at 7:00 o'clock in the forenoon to act on the following Articles number 1 and 2. Polls are to close no later than 7:00 PM. Action on the Town Budget Articles 3 and 4 will be held on Saturday, March 9, 1991 at 9:00 AM at the McKelvie School.

ARTICLE 1. To elect necessary Town and School District Officers for the ensuing one, two and three years.

ARTICLE 2. To see how the Town will vote on the following zoning and building code amendments:

ZONING AMENDMENTS PROPOSED BY THE PLANNING BOARD.

QUESTION 1. Are you in favor of adoption of Amendment No. 1 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Articles I through XXVII and the T.N.D. section of the ordinance by deleting those articles and adopting new Articles 1. through 16. and Appendices A through C which renumber and recodify the entire ordinance to eliminate internal conflicts, improve readability, and incorporate revised state statutes. Also, to amend Article XXIV "Definitions" section of the ordinance by adding an expanded list of zoning terms and their definitions to aid in understanding and interpreting the ordinance.

[The following amendments represent substantive changes to particular sections of the zoning ordinance and are therefore listed separately. If any separate amendment is not adopted by the voters, then the existing section as found in the 1990 zoning ordinance will be inserted into the newly recodified ordinance, if amendment No.1 is adopted by the voters.]

QUESTION 2. Are you in favor of adoption of Amendment No. 2 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article III., Section G. Wetland Conservation District, by deleting the existing section and adopting a new Article 5. which changes the definition of wetlands to address the State of NH's three criteria of soils, vegetation, and hydrology. A building setback of 75 feet from wetlands is created, and high-intensity soils surveys are required for accurate delineation of wetlands boundaries. The wetlands setback distance for septic systems and leachfields is changed from 75 feet in poorly drained soils and 100 feet in very poorly drained soils to a standard of 100 feet from all wetlands soils.

QUESTION 3. Are you in favor of adoption of Amendment No. 3 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article IV, Residential and General Residential Districts, by deleting sections B.3 and B.4 which require all lots in this district to provide 1.5 acres of lot size and 150 feet of frontage, and adopting

a new Article 4., Section C., Appendix A. (12), which allows a lot served by either municipal water or sewer to have 1 acre and 120 feet of frontage, or a lot with both municipal water and sewer to have a lot of 1 acre and 100 feet of frontage.

QUESTION 4. Are you in favor of adoption of Amendment No. 4 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XVII, Non-Conforming Uses, by deleting the article and adopting a new Article 4., Section D. which allows any structure which is destroyed by fire to be rebuilt within 12 months, allows non-conforming junkyards to continue operation but not expansion (State RSA 236:125 gives grandfathered rights to existing uses), and further allows non-conforming signs to be grandfathered (State RSA 674:19 protects existing structures). Article 4., Section D. also allows legal non-conforming lots to be built upon if the lot was duly recorded in the Registry of Deeds prior to the first zoning ordinance in 1953, can support a well and septic system, can comply with setbacks, and has access to a Town road. If two (2) or more non-conforming lots are contiguous and in single ownership as of March 13, 1991, then they shall be considered as a single parcel unless the lots were part of a subdivision plan approved by the Bedford Planning Board.

QUESTION 5. Are you in favor of adoption of Amendment No. 5 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XVIII, Enforcement, by deleting the existing article and adopting a new Article 13. which identifies the Zoning Administrator as the official administrator of the ordinance, outlines a building permit and certificate of occupancy process linked to the ordinance, and provides a process for notice of violations, penalties, and prosecution.

QUESTION 6. Are you in favor of adoption of Amendment No. 6 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XIX, Board of Adjustment, by deleting the existing article and adopting a new Article 14. which complies with State statutes and outlines the authority of the Zoning Board of Adjustment for the granting of a variance, special exception, and administrative appeal. The new article eliminates the requirement that the Planning Board provide an advisory report to the ZBA before it can grant a special exception.

QUESTION 7. Are you in favor of adoption of Amendment No. 7 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XXIII, Effective Date, by deleting this article and adopting a new Article 16. which states that this ordinance and amendments shall take effect immediately after passage at Town Meeting. The paragraph regarding lots of record is also deleted and lots of record are addressed under new Article 4. Section D. (refer to QUESTION 4.)

QUESTION 8. Are you in favor of adoption of Amendment No. 8 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XI, Commercial District; Article XV, Service Industrial District; and Article XVI, Industrial Park District; by adopting Article 4. Section B., Appendix A.(21), which permits land in these three zoning districts along the Route 3 corridor to allow sand and gravel excavations in conformance

with the revised State statutes and following excavation regulations to be adopted by the Planning Board.

QUESTION 9. Are you in favor of adoption of Amendment No. 9 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To adopt the Bedford Historic District Ordinance as new Article 8. in the zoning ordinance. This will allow the Zoning Administrator to enforce its provisions on behalf of the Historic District Commission.

QUESTION 10. Are you in favor of adoption of Amendment No. 10 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XVI, Industrial Park District, by totally deleting section B.g. which currently permits hazardous waste facilities by special exception. Under the proposed ordinance, this would delete Article 4., Section B., Appendix A., Hazardous waste facility.

QUESTION 11. Are you in favor of adoption of Amendment No. 11 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article VII, Cluster Residential Development, by deleting Section D.3. which currently allows a maximum of three bedrooms per unit, and adopting a new Article 6., Section C. 3., which allows a total number of bedrooms per unit based on the suitability of the soils as specified in the Soils and Steep Slopes Regulations.

QUESTION 12. Are you in favor of adoption of Amendment No. 12 as proposed by the Planning Board for the Town of Bedford Enforcement Ordinances as follows:

To adopt the 1990 National Electrical Code and the 1990 BOCA Code including the Building, Plumbing, Mechanical, Existing Structures, and Fire Prevention codes.

QUESTION 13. Are you in favor of adoption of Amendment No. 13 as proposed by the Planning Board for the Town of Bedford Zoning Ordinances as follows:

To amend Article XIV, Highway Commercial District, by deleting Section A. 4., and adopting a new Article 4., B., Appendix A. (12), which requires that all remote, self-serve, and full-serve gasoline service stations provide a minimum of two (2) bays for repair of automobiles, but not to include body and fender work, spray painting, or car sales lots. Further, to prohibit the sales of groceries and alcoholic beverages at remote, self-serve, and full-serve gasoline stations.

QUESTION 14. Are you in favor of adoption of Amendment No. 14 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article XXVI, Signs, by deleting Section 14. and adopting a new Article 11., Section 14. which allows the Zoning Administrator (formerly the Town Council) to issue a permit for temporary banners for up to seven (7) days and no more than twice a year.

QUESTION 15. Are you in favor of adoption of Amendment No. 15 as proposed by the Planning Board for the Town of Bedford Zoning Ordinance as follows:

To amend Article VIII, Trailer Regulations, by deleting Section 1. b. and adopting a new Article 4., Section A. 9. a., which permits the Zoning Administrator (formerly the Town Council) to issue a permit for a temporary trailer for persons engaged in construction work or for whom a residence is being built, for a period not to exceed three months with a discretionary renewal at the end of three months.

ZONING AMENDMENTS REQUESTED BY PETITION

QUESTION 16. Are you in favor of Amendment No. 16 as proposed by petition for the Town of Bedford Zoning Ordinance as follows:

To see if the Town will vote to amend Article XXIV, Definition Provisions, section T. Buffer Zones, by deleting the requirement that a buffer zone be provided along the property line of developments adjacent to the Civic and Institutional zone. Further, To see if the Town will vote to amend Article XXIV, Definitions Provisions, section T. 2. Buffer Zones, by deleting the sentence which measures building height from the lowest existing grade along the property line to the visible soffit (this definition has caused hardships where ravines or other difficult terrain is encountered); to adopt in its place the determination of building height that is used in existing Article XXIV, Section O.

[THE PLANNING BOARD DOES NOT RECOMMEND ADOPTION OF THIS AMENDMENT.]

QUESTION 17. Are you in favor of Amendment No. 17 as proposed by petition for the Town of Bedford Zoning Ordinance as follows:

To see if the Town will vote to rezone the following parcel of land from Residential to Neighborhood Commercial. That parcel being located at 400 Boynton Street, easterly of Rts. 101/114 intersection, westerly of the Manchester city line, on the south side of Boynton Street opposite Charlie's Boynton St. Market. The parcel is approximately 0.75 acres. Said property is owned by Roger P. Gravel and is operated as Playtime Pools & Spas, Inc. and Bedford Flower & Christmas Tree Shoppe. [THE PLANNING BOARD DOES NOT RECOMMEND ADOPTION OF THIS AMENDMENT.]

THE FOLLOWING BUDGETARY WARRANT ITEMS WILL BE DISCUSSED AT THE DELIBERATIVE SESSION OF THE TOWN MEETING ON SATURDAY, MARCH 9, 1991 AT 9:00 A.M. AT THE MCKELVIE SCHOOL.

ARTICLE 3. To see if the Town will vote to raise and appropriate the sum of Twenty-five Thousand Dollars (\$25,000) to the Conservation Fund as authorized by RSA 36-A:5 to be used only for the acquisition in the name of the Town of the fee or lesser interest in conservation land and other costs associated therewith for permanent conservation use. Said appropriated funds and state matching funds may be expended by a majority vote of the Town Council following a majority vote and recommendation by the Conservation Commission. (This article submitted by petition.)

ARTICLE 4. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.

General Fund	\$5,172,190.00
Sewer Fund	350,000.00
Police Contract Work Fund	80,000.00
Solid Waste Disposal Fund	226,210.00

Day Camp Fund Total Appropriations 29,025.00 \$5,857,425.00

This warrant was approved by the Bedford Town Council on February 6, 1991. Given under our hands and seal this sixth day of February, Nineteen hundred ninety-one.

John C. Miville, Chairman
Paul E. Anderson, Vice Chairman
James F. Dias
Paul M. Goldberg
Edward P. Moran
Richard C. Stonner
Eugene M. Van Loan, Jr.

True Copy, Attest: John C. Miville, Chairman Paul E. Anderson, Vice Chairman

TOWN COUNCIL John C. Miville, Chairman

Bedford town government faced significant challenges in 1990, many a reflection of the challenges faced by our State and the New England region namely the "economic turmoil and downturn." Most of our efforts were aimed at managing the impact of the economic forces in a proactive rather than reactive manner.

The Council made policy decisions relative to our banking relationship to better insure full collateralization of the Town's cash assets. In our budget preparations, we also made policy decisions relative to staff and size of the organization, to insure that needed services continue to be provided but that spending and asset allocation is as productive and efficient as possible. Less people doing more resulted in a budget request which is less for 1991 than 1990.

The Council has continued the trend which it began in 1989 of lessening the tax rate and thus lessening the tax burden on individual citizens. Our anticipated tax rate for 1991 will be four cents less than 1990 which was four cents less than 1989.

The real challenge in light of the environment in which we must operate is to balance the notion of "getting through these difficult times" and yet being poised for success in the future. We must not only protect our current infrastructure but provide for the enhancement to the infrastructure needed for future development and continued growth of our economic base. The appointment of an Economic Development Committee, as recommended in the recently adopted Master Plan Update of 1990, is central to our commitment for keeping Bedford a leader in Southern New Hampshire during the decade ahead.

Community spirit in Bedford is vibrant as is evident by the long hours of dedicated service by our various Boards, Commissions and Advisory Committees. The men and women who serve, not only contribute to the well being of our community, but are examples of why Bedford is and will continue to be such a highly regarded community in Southern New Hampshire.

Although the challenges ahead will be difficult, we believe that with dedicated efforts of our employees, our volunteers and the community at large, Bedford will succeed in continuing to be the cornerstone of the quality of life New Hampshire has come to represent in the New England region.

TOWN MANAGER'S REPORT David A. Crawford

The Town Manager's Office entered 1990 working to refine the network of changes that had been implemented since the induction of the new Council/Manager Charter in 1988. As we enter 1991 with our third consecutive tax reduction, it is evident that overall the new form of Town government is providing cost effective services. The Town Manager's Office and all of the Town Departments now operate as a group of coordinated service agencies. Team management concepts have pulled all Town departments together. A revised Budget format and financial process have contributed to our success. New personnel procedures including a performance evaluation and merit pay system have been started. The past two years have been filled with both improvement and accomplishment.

Town Manager David Crawford (l), Executive Secretary Martha Harris (m), and Finance Director Tony Plante.

In 1988, our first objective involved an overall revision of the Budget process. Our intentions were to gain better control of the individual department expenditures in order to reduce the total Town Budget.

In our 1991 Budget we took a hard look at the area of personnel. Salary related expenses make up approximately sixty percent of the Budgets. In our pursuit to review and reduce the Budget we had to look beyond capital expenditures. Each position in every department was reviewed. We concentrated on readjusting tasks and responsibility. This thorough look influenced the elimina-

tion of the Town Engineer and Head Mechanic positions. The need to fund part-time positions has been reduced in the Police, Fire and Public Works Departments. The objective behind these cuts is to have our full time workers perform the required work more efficiently. This will bring about an increase in productivity resulting in a decrease in cost to the taxpayer. However, it is important to note that this decrease in cost will not result in a significant decrease in service.

A major part of this success is due to our investment in computers. The Computer is a cost effective tool which increases productivity without increasing man power. Our computers are a vital resource and support service to successful team management.

The new financial system utilizes computer generated information for use by department heads and the Town Council. This information allows for well informed decisions and planning. The Town now treats each department as a cost center. Information that had formally been unavailable is now at our fingertips. A dramatic example of our progress is that in 1988 all of the Town's checks, with the exception of payroll, were written out by hand. Today, the checks are prepared and printed out by computer. This new system provides crucial information needed for efficient control of the Town's tax dollars.

Quality facilities are also essential when trying to provide first rate service. Construction of the badly needed new Town Maintenance Facility for the Public Works Department will be completed in January of 1991. The Fire Department also received an upgrade of equipment. Since January of 1989 the Town purchased a new ambulance, a second hand 100 foot ladder truck and an all aluminum 1500 GPM pumper. A structural study has recently been completed on the Police Station and on the Town Hall. Our capital improvements plan is looking into the future with proposals for several community facilities.

Knowledgeable planning has been an essential part of our success. The new master plan has provided overall Town goals and the basis for future decisions. A Zoning ordinance recodification and update implementing many master plan ideas was started at the end of 1990. The improved Zoning Ordinance and related amendments will be presented for Town vote in March 1991.

Issues still to be resolved include; landfill closure and solid waste disposal, Manchester sewer treatment plant upgrade cost sharing payments and the construction of the Merrimack River sewer extension. The Town Council is determined to find environmentally sound and cost effective solutions for each of these issues.

The preceding paragraphs are a summary of how far the Town Council and Town Administration have progressed in Bedford over the past two years. This period of growth and change has proven to be a valuable experience for the Town.

We are now faced with demanding economic times. This will only increase our incentive to provide professional service. The transitional period for the Bedford Town Manager's Office is complete. We must now commit to creating a positive future by establishing realistic goals and adopting a 1991 Budget which implements those goals.

In 1991 we will be able to continue our pursuit of excellence with the continued assistance and cooperation of the Town Council, Town employees and the numerous people who give of their time to serve on our Town Boards, Commissions and Committees. We extend our thanks to all these dedicated people. They have made our efforts worthwhile.

1991 BUDGET OVERVIEW

Early in 1990 it became clear that the condition of the regional economy would demand a conservative approach to budgeting for the coming year. The Town Council, Town Manager and staff worked, through many meetings and work sessions to find a responsible balance between the community's needs and available resources. The result of this effort is the budget presented in this report, which was adopted unanimously by the Town Council and has the full support of the staff.

In brief, the key points addressed by the proposed budget are:

- -Maintenance of existing service levels with minimal change,
- -Reduction in the number of full-time employees from 85 to 82,
- -Reduction in the use of overtime and part-time, increasing utilization of full-time staff,
- -Reduction in funding to cover vacancies in authorized positions; managing vacancy coverage more closely,
- -Capital Outlay accounts are cut back in all departments; capital purchases are deferred, and
- -Incorporation of the first year of the Capital Improvement Program, a six year plan of capital improvement needs (a summary of which is presented later in this report).

Revenue estimates are consistently conservative; combined with the proposed budget and an estimated \$25 million in tax base growth, we are projecting a Town tax rate of \$2.42. By estimating the revenues conservatively, this projection is a responsible indication of tax liability for 1991. In the event revenues perform better than expected, the reduction in the Town tax rate may be more than projected. Since 1988, the Town portion of the property tax rate has been declining; \$2.51 in 1988, \$2.50 in 1989, \$2.46 in 1990, and \$2.42 projected for 1991.

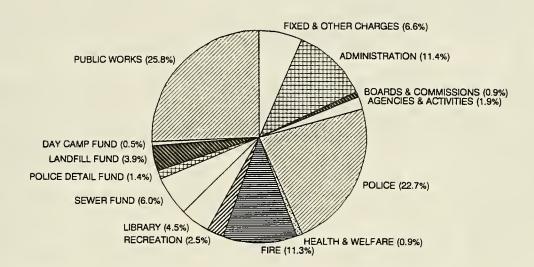

The 1991 budget is the product of an examination of the services the Town provides to its citizens, what it takes to provide those services, and the means of using available resources frugally in doing so. We believe that it achieves the responsible balance between the service needs and available resources of our community.

FINANCE & PERSONNEL DEPARTMENT Anthony T. Plante, Finance Director

Since 1989, the Finance & Personnel Department has redefined its role in Bedford's local government organization. In addition to the basic, but very important, functions of managing and accounting for the Town's funds, we have focused on becoming a service agency for other Town departments.

From the Finance and Personnel Department, we provide centralized payroll and invoice processing, and management of important personnel information. We also provide budget assistance to other departments, prepare analyses of various types at the request of the Council, Manager, and Department Heads, and general administrative support.

Bookkeepers Micki Labbe (l) and Christina Burdo (r).

Computers have become an indispensable tool for managing the Town's funds. In days past, when Town finance consisted solely of writing checks and collecting taxes, a manual system was sufficient. In today's local government, we are providing more programs, seeking diverse sources of funding, and looking at our operations with a critical management eye. More and more, these tools are being used to raise our level of productivity and efficiency.

For this organization, with an annual cash flow in excess of \$40 million, the ability to examine what we are doing and how well we are doing it requires the use of computer technology. This technology is available to every department, through the IBM System/36 used primarily for financial purposes and the PCs and PC networks. There is still work to do in implementing the financial system, but we feel confident that progress will be made during the year.

This past year marked our first under a performance-based pay system. We believe that the Town has many committed, hard-working employees. The performance pay system recognizes and rewards those employees within the limits set by the Town Council. Performance-based pay, while still relatively new, is working and will continue to work in 1991 with our commitment to evaluator training and administrative oversight to ensure equity in the system.

Finance & Personnel is only one part of the team serving this community. We are here to support those other departments which serve you every day. Our aim is to continue improving the quality of services provided to you, our consumers and constituents, the people of Bedford.

1990 INDEPENDENT AUDITOR'S REPORT Vachon, Clukay & Company, PC

We have completed our fieldwork in connection with our audit of the Town of Bedford, New Hampshire's financial statements for the year ended December 31, 1990 on January 25, 1991.

Due to circumstances beyond our control, the financial statements and related reports will not be available for inclusion in this year's annual town report.

We anticipate that the financial statements and related reports will be available no later than April 1, 1991.

TOWN CLERK/TAX COLLECTOR

Edith P. Schmidtchen, Town Clerk/Tax Collector

The year 1990 proved to be one of challenge for the Office. It was the year I ran for reelection. I would like to thank the townspeople for their continued support over the years.

Automobile registration procedures have been enhanced by the processing of transfers.

Semiannual tax billing has proved to be beneficial both to the Town and the taxpayers.

We have expanded both our knowledge and use of the computers, thus enabling us to serve you in a more efficient manner.

During the year 1991 new plates will be issued, thus allowing registrants to do <u>almost</u> everything at our Office. Just a reminder: If you intend to do everything at our office and are paying by check, you will need two separate checks.

Here in this Office I and my staff will continue to strive to give you the best service possible in these trying and challenging times.

A reminder: Dog licenses are due by April 30th. Licenses will be available on Monday, April 1, 1991. Please bring last year's paperwork or rabies certificate if licensing for the first time.

EXPRESSION OF GRATITUDE

The Town of Bedford has received gifts and donations of time, goods, and services from its townspeople and businesses. Bedford is fortunate to have so many people serve on various Boards, Commissions and Committees. The Town also has a staff of loyal and dedicated employees. To all who serve our town, we are most grateful and extend our thanks.

We list below the donations received in the last year. We do, however, apologize if we have inadvertently omitted some of your contributions.

Thanks to:

John Brown & Sons - clearing of sledding hill Clark Gott - Christmas tree, Town Hall Dunkin Donuts - refreshments, Holiday Event H.A.Scott & Sons - holiday flowers John Jacobson - comprehensive report, Town Hall Bedford Garden Club - Christmas wreaths Bedford Men's Club - Christmas tree for lobby R.Scott Brooks - computer hardware Barker Foundation - donation for fire truck Goffstown Truck Center - use of bus Frederick Nixon - fill for new soccer field Jean Tallman - painting for Town Office Building Peg Rice - loan of painting Flower Cart - holiday flowers for lobby Don Wheeler Co., excavation on sledding hill Bedford's Men's Club - basketball courts - lines Manchester Country Club - loan of aerator Family Support Systems - grant, special needs Gerard Dumas - stockpiled loam for soccer field Joseph Fichera - Self defense class teacher Richard Bernard - Self defense class teacher Normandeau Assoc. - Earthday buttons Atom Contracting Corp. - fill for soccer field Jack Sullivan Corp. - fill for soccer field Ron Janowitz - cross country ski workshop William Barry - environmental assessment Alan Goedecke - Scout Troop 135, loan of canoes Joseph Pepin - leader of canoe trip Mark Berg - benches for pool/Eagle Scout project Don York - Indian Head Athletics - workshop Bedford School Dist. & Employees/summer camp Newcomers Club - donation to Special Olympics Mrs. Kenny's C.C.D. group - raking of front lawn Karl Nobert - handicapped ramp for Town Hall Bedford Rotary Club - clearing lawn/ Town Office VFW - flag to Police Dept. Fire Dept. Town Office

The following individuals have either donated their time, services, or a donation to the Town Hall Restoration Fund:

Milton Marks Carolyn Akins
Robert & Claire Souter, Sr. Lois Melendy
J.B.& L. Friedenburg Clark Gott
Gary & Maureen Wasserman Lydia Kennard
Robert & Joan Sundeen M. Edward Matta

POLICE DEPARTMENT

Chief David C. Bailey Deputy Chief Leon C. Biscornet

1990 has again been a year of transition in the Bedford Police Department. Over sixty years of police experience has left Bedford. Three sergeants, David Gladu, Paul Biron and Edward Barnum, all twenty year veterans, opted to retire in 1990. All three will be sorely missed. We are fortunate, however, to have retained David Gladu in one of our civilian positions. I salute all three and thank them for a job well done over the years.

With the departure of three veteran officers, the Bedford Police Department is younger. However, it is important to note that our officers are very knowledgeable and dedicated. In our continued pursuit of excellence, we hire the best trained police officers possible. With one exception, all replacements hired were certified police officers. The other officer recently graduated from the ten week academy, at age 43, with top academic honors. He also was a runner up in physical accomplishments.

In department activity, burglaries rose to their highest numbers in twenty years. As I said last year, increased burglaries are a sign of the depressed times and often drug related. Bedford is certainly not unique in this regard, as most New Hampshire cities and towns are experiencing a similar rise. It is our top priority to reduce burglaries and solve those already committed. We cleared many in 1990 but we will not be satisfied until they all are cleared.

The number of suspicious person complaints has risen and that tells me that you, the citizens, are helping us more by calling us more. I can't say enough that we need the help of the public. We greatly appreciate your response.

Most other activity categories of major significance did not change greatly. Thefts, however, did drop almost 17%, which seems to be a contradiction in these times. The incidence of thefts from cars parked in residential driveways has dropped off dramatically.

We did quite a bit of work on our radio system in this past year. Changing a transmitter site and adding two receiver sites solved some reception problems. Other capital improvements included the unanticipated purchase of a new furnace and a much needed paint job for the station.

As we all go into 1991 with tightened belts, we strive to give you the best, most efficient police services that we can afford. This is made possible by the cooperation of the other town departments, the elected officials and you the citizens.

I thank you all. It is an honor to serve the Town of Bedford.

FIRE DEPARTMENT

Chief Ralph M. Wiggin, Jr.

Deputy Chief Robert A. Fabich, Sr.

During 1991, the Bedford Fire Department had undertaken significant steps in adopting changes in all divisions of the Department.

Administratively, an ambulance service fee was instituted for non Town residents. Programs to protect employees were initiated, such as hepatitis prevention, pulmonary function testing and the installation of a vehicle exhaust fume system. The Department went on line with a computer system which allowed for the development of several new methods of handling the administrative workload. Specifications were developed for traffic light intersections, resulting with upgrading three intersections with traffic light control devices.

Bedford Engine 2 ready to roll!

I give my best wishes to 37 year veteran Captain Leo Bongers and Call Lieutenant Roger Bisson with 26 years of service who retired during the year. Town resident Mark Klose was hired to fill this vacancy as a Firefighter/EMT. Several promotions were awarded also. Callmen Glenn Wiggin and Donald Bisson were both promoted to Call Lieutenant. In the permanent division,

Lieutenant James Clark filled the Training/EMS Coordinator position.

The Fire Prevention Division remained very active with inspections throughout the year. A permit and fee program was initiated as part of the 10 new enforcement ordinances passed on the March 1990 ballot. A House Number Ordinance was adopted to help ensure the location for emergency police and fire response. Fire Prevention Week activities proved once again to be productive with the men of the Department reaching over 1500 children and adults during the two week program.

The Department apparatus fleet was enhanced by the delivery of a 1500 GPM Emergency One Fire Truck. This truck was placed in service in April and replaced Engine 5, a 28-year old truck. Other fleet improvements included pump overhaul on Engine 1, Engine 4 and Tanker 1.

Emergency Management

A newer division of the Fire Department, shares responsibility with the Police Department as Police Chief David Bailey and Deputy Fire Chief Robert Fabich are Co-Emergency Management Directors. The division was responsible for conducting the community's first training exercise to test the Town's Emergency Management Plan. The Town's Hazardous Material Plan was also completed and approved by the State of NH. A Town Hazardous Material Enforcement Ordinance was adopted to ensure proper clean-up and recovery of any hazardous material incident.

In the area of training, the Department completed the Automatic Defibrillation Program certifying 17 members. A First Responder and Mass Casualty Program was developed and several drills were conducted involving area towns. A total of 3118 training man/hours were logged for the year.

Listed below is a breakdown of the run activity for the year. 19 runs less than 1989 were recorded. Major fire incidents were down, with the estimated fire dollar loss at 1.2 million.

The Bedford Firefighter's Association once again sponsored the Norman Richards' Memorial Scholarship Fund with \$3,000 of recipient awards to Kathleen Jenkins, Kim D. Selvoski and Heather R. Lounsberry.

As Chief of the Department, I am pleased with the accomplishments of the Department. The members continually stand ready to serve our community at any given moment. They have consistently improved their skill levels and have put their best foot forward. I appreciate and thank them for their dedication.

Our residents and friends of the community should be recognized for their continued support of the Bedford Rescue Fund. These monies are used for ambulance equipment, supplies and training.

During the year, I completed my term as President of the New Hampshire Fire Chief's Association. As an active member, I am pleased to announce that your Fire Department compares favorably with many departments statewide.

In closing, I remind everyone to test their smoke detectors once a month and ensure your fire extinguishers are fully charged ready for operation. Best to all in 1991.

FOREST FIRE WARDEN AND STATE FOREST RANGER

Ralph M. Wiggin, Jr., Fire Warden Gilbert Testa, State Forest Ranger

During Calendar Year 1990, the State of New Hampshire experienced an average number of wildfires. The three leading causes were fires kindled without a fire permit from the Forest Fire Warden, permit fires that escaped control and rekindled fires. All of these fires are preventable, but ONLY with your help.

Please help your town and state forest fire officials with forest fire prevention. New Hampshire State Law (RSA 224:27 II) requires that, "No person, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material in the open, except when the ground is covered with snow, without first obtaining a written fire permit from the Forest Fire Warden of the town where the burning is to be done."

Violations of RSA 224:27 II and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$1,000 and/or a year in jail and you are also liable for all fire suppression costs.

The State of New Hampshire, Division of Forests and Lands trained 844 local Wardens and Deputy Wardens in the Incident Command System (ICS), an incident management system for all types of emergencies. In 1991, Wardens will be trained in the use of Class A foam in wildfire suppression.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Ranger, or the Division of Forests and Lands at 271-2217.

Forest Fire Statistics - 1990

	State	District
Number of Fires	489	27
Acres Burned	473	10

PUBLIC WORKS DEPARTMENT Edward S. Kelly, P.E., Director

The Department of Public Works went through a reorganization in December (1990) as a result of budget constraints. The Department currently consists of 19 full-time, 3 part-time, and 2 seasonal employees. The Department is comprised of four Divisions: Administration, Highways (traffic and street maintenance), Landfill and Solid Waste, and Wastewater (Sewer).

Highway Division Paul Belanger, Superintendent

Among the primary responsibilities of this division are:

- * Construction, resurfacing, rehabilitation, and maintenance of streets and roads.
- * Maintenance of drainage facilities (culverts and storm sewers, etc.)
- * Roadside maintenance (mowing, trees, limbs and brush, etc.)
- * Winter maintenance of streets and roads (snowplowing, sanding and salting)

During 1990, the Highway Division tended to 25 snow/ice storms of various degrees of intensity. In addition to maintaining all the Town streets and roads, the Highway Division was responsible for most of the other public facilities including the Schools, Library, Fire Station, Police Station and Town Office Building.

Town Council was given a guided bus-tour of the Town roads on March 24th and subsequently endorsed a prepared list of projects for the 1990 construction season. Forty five thousand linear feet of Town streets and roads were resurfaced and rehabilitated. The majority of the work was accomplished with Town equipment and labor. Two crews were established and assigned projects with target dates set by the Gantt chart schedules.

The streets and roads worked on include:

Birchwood Circle Birkdale Road Blackbird Drive Cambridge Road Camelot Drive Campbell Road Canary Lane Colonel Daniels Greyrock Road Hazen Road

Meadowcrest Road

Ministerial Branch Oriole Drive Pinecrest Drive Stonehenge Road South Hills Drive South Hills Terrace Rice Lane Wallace Road

West Drive Whippoorwill Lane

The UNH Road Surface Management System (RSMS) was established in 1989 under the previous administration and will be enhanced to the next level of implementation during 1991 for generating a more reliable means of estimating the capital needs for maintenance of our streets and roads. When the economic climate improves, a major bond issue will be presented for adoption at a future Town Budget Meeting.

Town Council authorized TFMoran, Inc. to survey and design that portion of Beals Road from Gage Girls Road west to Grafton Drive. Construction of this project is targeted for the 1991 season.

During 1991 there will be implemented a Fleet Management Program (computer software) for preventative maintenance and subsequent replacement of Public Works vehicles and equipment based on a planned Capital Improvement Program (CIP).

Groundbreaking for new Public Works Garage.

The single most important milestone in the Department occurred in September when ground was officially broken for the construction of the new Town Maintenance Facility (TMF) on Chubbuck Road. Pro-Con, Inc. of Hooksett was selected by Council as the General Contractor for the design/build of the 11,000 square foot facility. It is expected to be operationally occupied by Town Meeting of 1991.

Landfill Division

Town Council entered into an agreement with CMA Engineers, Inc.(Portsmouth) in April to provide a report for a pre-closure plan. Lifts 1 thru 3 of stage 1 of the Solid Waste Management Study are presently being implemented. Based on the best engineering information available from the survey (computer digitization) of cross sections, there is approximately 2 1/2 to 3 years of volume remaining, based on current use.

The Voluntary Recycling Committee has been most helpful with their continued support in enhancing the Town's "Recycle For A Better Bedford" program. Boy Scout Troop 135 was instrumental in distributing the informational flyer. The Committee's continued involvement in improving and enhancing the Solid Waste Program are greatly appreciated. The recycling program is still non-mandatory but is estimated to have 14 percent participation by the community.

A partial grant (\$10,000) was approved by the Governor's Recycling Program from the Office of State Planning for construction of the Recycling Pole Barn at the landfill. Orchard Contracting, Inc. of Peterborough was low bidder and finished the project in December.

A major improvement at the Landfill was the consolidation, collection and disposal of junk metal after the cleanup of the previous pile of metal. A container with a backup ramp is now functional and Souhegan Salvage of Goffstown removes the container when full at no additional cost to the Town.

The groundwater monitoring program, again, reveals that there is no significant contamination in the wells tested.

Town Council solicited and has received proposal for implementation of curbside pickup and disposal with recycling. However, the actual start-up date for curb-side will be determined during the 1991 budget process.

Wastewater Division Stephen R. Crean, Superintendent

The major construction project in sanitary sewer occurred in 1990 with the implementation of the extension of the sewer on Route 3, from the Jordan Marsh parking lot South to the Village Green Condominium project at Back River Road.

The Town entered into an agreement with Anderson-Nichols & Company, Inc. to finish the design and permitting phase for Contract "3" of the Merrimack River Interceptor (MRI) from the existing siphon station (located at I-293 and the Merrimack River) south to Moore's Crossing. Construction of this phase is targeted for 1991. Contract "3A" (from Moore's Crossing south to the Town line) is expected to be renegotiated with final design, permitting and construction to prudently follow Contract "3". The implementation of this entire project is a direct result of the 1990 Town Budget Meeting for the approval of the \$2,100,000 Bond issue vote.

DPW contract signing. Standing () to r) Ed Kelly, Public Works Director, Ron Roy. Seated () to r) David Crawford, Town Manager and Tom Noonan, Teamsters negotiator.

VOLUNTARY RECYCLING COMMITTEE Linda Hockman and David Salzman, Co-chairs

The Voluntary Recycling Committee had a busy and rewarding year. By Earth Day in April, the recycling of newspapers, brown, green, and clear glass, aluminum cans, motor oil, automobile batteries, tires, and metals, was firmly in place. In preparation for our official Grand Opening that day, a contest was held for a slogan to grace our signs and publicity fliers and 84 clever entries were submitted. After a difficult decision, Christopher Poppenga emerged the winner with his slogan, "Recycle for a Better Bedford." Christopher won the proceeds from the sale of a full aluminum can trailer, about \$200 (25,000 cans).

Tin cans, yard waste, and cardboard recycling has since been added. The recycling of plastics has been delayed due to the rapid changes in its marketing methods, but its implementation is coming soon.

Although the blue recycling bins proved so popular that they were sold out on Earth Day, they were soon available again and continue to be sold at cost, \$4.50, at the Town Offices.

Fliers were made up with recycling information and instructions. They are available at the Town Offices and will soon be updated and mailed to Bedford households. Some were distributed by the Boy Scouts this fall and their effort is appreciated.

New Public Works Garage nears completion.

We received the grant we applied for from Governor Gregg's Recycling Initiatives Program, and the \$10,000 award was used for the pole barn now housing the Recycling Center at the Bedford Landfill.

To help publicize the need to recycle in Bedford, the Committee entered a a float in the Memorial Day Parade and received the second place trophy. Bedford's own Martha Harris starred as Oscar the Grouch, and the children of the committee members were costumed as Big Bird, recycled cans, newspapers and compost.

A hazardous waste collection day is planned for this spring and more will be held in the future. Please save any wastes that could be at all toxic for this day and never place them in the Landfill.

Preparation of the Volunteer Recycling Committee's flost for the Memorial Day Parade.

Residents are thanked for their cooperation and the overwhelming enthusiasm they have shown for recycling. Figures show that by October 1990, the recycling project has created almost \$20,000 net savings for the Town. Eleven hundred tons of recyclables are well as 3200 gallons of oil had been collected. Since the Town estimates one ton of garbage costs \$30 to be disposed, the cost avoidance for 1100 tons is \$33,000. The income gained from markets for the recyclables is \$4000, while the cost of getting the recyclables to the markets is \$17,000, \$8,000 of which is for tire disposal. Thus the net savings to the Town is \$20,000. Please continue your efforts and increase them if you can! We encourage you also to reuse grocery bags, both paper and plastic, and avoid as much packaging material as possible when you shop, especially plastic.

Frequent meetings have been held, several speakers have been heard, and a tremendous amount of research conducted by the faithful, hardworking committee members listed below. The results could never have been accomplished without Stephen Crean and all his effort and follow through. We thank him sincerely and appreciate the support of the Bedford Town Council.

We look forward to continuing under our recently elected new leadership, Co-Chairmen, Debbie Molano and Dennis Grimes.

Committee Members:

Stephen Crean Dennis Grimes Jeff Nelson Linda Hockman Debbie Molano Ann Nelson Carole Lewis David Salzman Carolyn Richmond Janice Souza Michael Lei Claire Sills Mervyn Taub

Lizzy Molano as "Little Miss Compost" and Martha Harris as "Oscar the Grouch" represent the Volunteer Recycling Committee in the Memorial Day Parade.

ASSESSING DEPARTMENT John H. Temchack, C.N.H.A., Assessor

Even with the recent economic change that has taken place in New Hampshire, Bedford has still continued to grow.

Bedford's parcel count has increased by 184 properties, from 6,038 in 1989 to 6,222 in 1990.

We experienced a net property valuation increase of \$38,207,961 for 1990. The increase from \$1,107,562,271 in 1989 to \$1,145,770,232 in 1990 is a result of continued residential and commercial construction.

The following is a listing of property by class:

Class	Parcels	Value	%
Residential	5,596	\$882,561,867	74.71
Commercial	424	236,002,700	19.98
Industrial	98	25,508,700	2.16
Exempt	104	37,168,300	3.15
Totals	6,222	\$1,181,241,567	100.00

Throughout the year, in working with T.F. Moran, we have continued towards our goal of having a GIS (Geographic Information System) on our computer. To date all of the Tax Maps have been digitized, with some of the data having been transferred to the town's computer.

In August we received an upgrade to our MITAS Appraisal software from MMC. The upgrade allows for easier reading of the property record cards, a larger range of report and function options, and the ability to adapt the assessments to meet the special needs of each community. We are also working with the Building Inspector to combine our files for easier retrieval of property history information.

The Assessor's Office is open Monday through Friday from 8:00 to 4:30 and Wednesday's from 8:00 to 7:30. If you should have any questions, please feel free to stop by the Assessor's Office or call 472 - 5242.

HEALTH DEPARTMENT Gerard J. Vallee, Health Officer

The Bedford Health Department is responsible for the public health of its citizens in all food service establishments, nursing homes, preschools, foster homes, day care centers, and all public kitchens in the Town of Bedford.

The Bedford Health Officer inspects each of the following food service units <u>twice a year</u>; restaurants, supermarkets, convenience and grocery stores, retail mini-marts, wholesale food outlets, cafeterias, mobile and catering units, public kitchens in nursing homes and retirement units. Each unit is licensed on an <u>annual basis</u> providing that the State of New Hampshire Health and Sanitation Code requirements (He-P 2300) and specifications are met without critical violations and an overall score of 70%.

In addition, the Health Officer inspects day care units, preschools, such as kindergartens and nursery schools, and foster homes to insure that State requirements are followed concerning the health care of younger children. Also, over and above the state responsibilities, the Health Officer responds to and investigates any complaints pertaining to the food establishment units licensed in the Town. A report of each inspection is filed in the Health Office.

A genuine spirit of cooperation exists between the above stated establishments and the Bedford Health Office in maintaining the high standards of cleanliness, refrigeration, good storage and delivery.

The Town Council formally adopted the State Sanitation Code in December, 1988. In late 1989, the Council formally applied to the State for self-inspection of food service units in the Town of Bedford. It is expected the self inspection phase completion and documents from the State of New Hampshire will be issued in early 1991 making the Town of Bedford "Self Inspecting" as are the larger cities in the state.

PUBLIC LIBRARY

Frances M. Wiggin, Director James Scotland, Jr., Trustee Patricia Holland, Trustee George Fournier, Trustee

"I got it at the library." That is what the Trustees and staff want to hear throughout the community. In an age when information is considered the most valuable commodity we possess, libraries must accumulate the nation's knowledge and disseminate it.

The Bedford Public Library is trying to do just that. We provide businesses with books, periodicals, directories, computerized data searches and a Fax machine.

For individuals we supply information on subjects ranging from changing careers, home buying, "how-to-do-it books", used car prices and child care.

For children we offer a full range of services including a fine book collection, videos, magazines, story hours and special programs.

To assist in the provision of these services the library has ten paid staff members. There are also over twenty volunteers who contribute a total of 102 hours per week to library service. An additional forty volunteers share in opening the library on Sundays, thus making the Bedford Library one of a very few in the state to be open seven days a week.

This year the Friends gave the library two computers and peripherals, CD shelving, and also sponsored children's programming. Some of this was made possible through the generosity of Donna and Gerry MacNeil who gave the Friends one third of the contents of their general store. The Friends then held a sale and realized a sizable amount of money from this gift.

The only staff change this year was in the children's library. Ellen Zinni, our superb Children's Director, moved out of state. We were very fortunate to hire Elizabeth "Becky" Schulz to replace Ellen. Becky earned her Master's Degree in Library Science at Simmons College Graduate School of Library and Information Science, and most recently served as children's librarian and assistant director in Narragansett, Rhode Island. She lives in Concord with her husband Hans and their two daughters. Bedford is indeed fortunate to have such an accomplished and innovative librarian.

Patrons have access to statewide library holdings.

The most important milestone of 1990 was the great increase in library usage. 8,961 persons over the age of five, including non-residents, have a library card and 127,771 pieces of material circulated which is an increase of 8,668 items over last year.

The Trustees and Director express thanks to a fine staff, enthusiastic volunteers, The Friends of the Library and all other persons who made contributions to the library this year.

PLANNING BOARD Gary Howard, Chairman

The year 1990 marked a major milestone in longrange planning for Bedford. The Board, with the assistance of RKG Associates and 50 citizen committee members, completed a ten-year update of the Town master plan, which will be available for distribution in January. This newly revised plan offers guidelines for the coming decade, with special sections on economic devel-

opment and environmental protection.

Members of the Planning Board. Seated (I to r); Richard Stonner, Council representative; Gary Howard, Chairman, David Danielson, Vice-chairman; and Larry Wolter, Secretary. Standing (I to r); Edward Kelly, Public Works Director, Thomas Cassese; and Edward Matta. Not present; David Crawford, Town Manager, Dennis Balog; Ray Kiestlinger, Alternate.

Upon adoption of the plan in October, work began immediately on recodifying the 1963 zoning ordinance to conform with revised state laws and to eliminate internal conflicts. The zoning ballot for March, 1991 reflects many months of analysis, research, and discussion on the part of your Planning Board members. We hope that all voters will take the time to review these changes.

With the economic downturn of 1990, the number of new development plans submitted for review in Bedford were also reduced. The Board approved 21 subdivision plans for a total of 180 new residential, commercial, and industrial lots. There were 26 non-residential site plans approved for a total of 286,487 square feet of commercial and industrial building space. In addition, the Board helped the Town to acquire a new fire station site within the Riverlands Traditional Neighborhood Development and began the process of acquiring Route 3 sewer and Heritage Trail easements from developers. Some of the major developments approved were as follows:

Riverlands T.N.D.

Bedford Three Corners
Colonial Business Park
Northwood Nursing Home
Commerce Park West

60 lots 78 lots 101,500 sq. ft. 59,087 sq. ft. 91,500 sq. ft.

The Planning Board was also involved in the creation of Bedford's first Capital Improvement Program in 1990. The purpose of the C.I.P. is to identify long-term capital expenditures that are needed and desired by the citizenry and to budget for these improvements in an orderly fashion. Although the economic climate of 1991 may prohibit items from being funded right away, the plan will serve as a budget tool for years to come.

The Bethany Covenant Church under construction; reviewed and approved by the Planning Board in 1990.

PLANNING DEPARTMENT Karen White, Planning Director

Economic slowdown during 1990 reduced the amount of development activity occurring in Bedford and provided opportunity for the Planning Department to focus on community enhancement planning as well as review of construction projects. More than 20 work sessions were held with citizen committees to completely revise the Town master plan. With this accomplished, the Planning Director began implementing the recommendations of the year-long study.

The Route 3 Corridor Study was updated and a set of road improvement policies for new development was adopted by the Planning Board. A new parallel access road to Route 3 was laid out, and negotiation with landowners and developers was initiated to acquire and construct the new right-of-way.

Research on the advisability of opening new water service franchises or a municipal water department for west Bedford was initiated in 1990. A policy for office uses in the industrial districts was created, and the concept of "flex-space" and "performance" zoning to stimulate industrial development was explored.

Survey of bald eagle habitat along the Merrimack River with the U.S. Fish & Wildlife Service. Photo by Chuck Blitzer.

Acquisition of land for conservation, open space and recreation was a high priority in 1990. The Planning Director coordinated with the Audubon Society, U.S. Fish & Wildlife, and the Land Conservation Investment Program in filing an application for matching funds to develop a protection plan for a bald eagle winter habitat in Bedford. If the site is awarded funding, it will also provide public access use to the Merrimack River and serve as a hiking and picnicking area.

Public access to the riverfront and to the future park land leased from the N.H. Highway Department was negotiated as part of the Riverlands T.N.D. approval process. Assistance was provided to the Conservation Commission and the Heritage Trail Committee in contacting State agencies and all landowners along the river for donations of land and/or easements to complete the goal of a 4.5-mile long riverfront hiking trail and park network.

The Bedford Grove Shopping Center was one of the sites inspected by the Planning Department of compliance with landscaping, lighting and drainage specifications.

The Planning Department participated in creating the new Capital Improvements Program. By consulting with all municipal departments, we identified and prioritized future capital expenditures.

In cooperation with the consulting firm of RKG Associates and the Planning Board, the Department undertook the massive task of recodifying Bedford's zoning ordinance. The results of this work appear as a series of amendments on the 1991 ballot. The computerized Geographic Information System is becoming operational and will be used to generate the official zoning map of the Town for 1991.

A new Economic Development Committee has been formed. The Planning Director will serve as a staff liaison to this group, in addition to the Planning Board, Zoning Board of Adjustment, Conservation Commission, and Heritage Trail Committee.

Town planning is only successful if it represents the goals of all members of the community. I would like to thank all of the civic organizations, volunteer committees, special interest groups, and individual citizens who have contributed their ideas and time toward this process in 1990.

BOARD OF ADJUSTMENT Richard C. Como, Chairman

The Zoning Board of Adjustment had the busiest year in their history in 1990.

The Board which meets on the third Tuesday of the month at 7:30 P.M. in the Town Office Building heard 40 applications for appeals from administrative orders of town officers, departments and boards. A total of 21 commercial variances and 12 residential variances were approved. 4 commercial requests and 3 residential requests were denied.

With the creation of a Zoning Administrator last year by the Town Council, the Building Inspector/Zoning Administrator reviews all building applications and directs them to the proper board for review and disposition. A great number of these applications which required variances, and which were previously discussed and reviewed by Engineering and the Planning Board, are now sent directly to the Board of Adjustment. This has created longer Zoning Board meetings, in that all of the discussion must now take place at this time, before voting for variance requests.

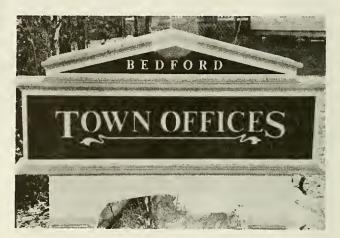

Both the Building Inspector/Zoning Administrator, Merritt Peasley and Town Planner, Karen White, continue to attend our meetings, and whenever possible provide helpful information to board members in regards to applicants requests.

When an applicant or his/her representative makes a presentation before the Board seeking a variance, the following five criteria must be addressed:

- A hardship must exist which is inherent in the land, buildings, or other items relating to the peculiar characteristics of the building.
- The spirit and intent of the ordinance must not be broken by granting the variance.

- 3. The granting of the variance will not adversely affect other property in the district.
- 4. Not to grant the variance will result in an injustice.
- 5. Granting the variance would be of benefit to the public interest.

It is important to remember that an applicant who wishes someone else to speak for them and who is not going to be present at the meeting must give written permission authorizing that representative to speak on their behalf.

Any scheduled applicant who has been listed on the Public Notice and who wishes to request a postponement, must do so within seven working days prior to the meeting and pay for the notification of all abutters of the change, or that applicant will not be heard for six months.

Any party can appeal the Board's ruling in writing within twenty days. The Board then has ten days to determine if it should grant or deny a rehearing on the new evidence presented in the written request by the petitioner.

Board of Adjustment members: Richard C. Como, Chairman; Susan Tufts Moore, Secretary; Paul Harrington, Sandra LaMontagne, and Charles Colpitts. Alternate members are Donald Folsom, Leonard Gerson and Gus Garceau.

BUILDING DEPARTMENT

Merritt J. Peasley, Building Inspector

The 1990 single family dwelling activity was much more active than anyone could have imagined. During the year fifty-three (53) single family dwelling permits were issued, where fifty-seven (57) were issued in 1989.

The most noticeable decline was in commercial construction. In 1990 there were three (3) new commercial permits issued, where 1989 saw twelve (12) permits issued. Of the commercial permits issued, two were for Churches, which generate revenue for the Town only in the building permit cost, because these structures are tax exempt.

The down turn in construction reduces the number of new single family dwellings that remain unoccupied. When construction slows, the existing inventory is depleted. This inverse relationship becomes apparent when comparing the number of single family building permits and the certificates of occupancy issued during the same period.

	Building Permits	Certificates
1988	61	108
1989	57	64
1990	53	77
Total	171	249

Because of the economic outlook, I feel that the early 1990's could possibly be the worst construction years this community has ever been through. I am not saying that construction will come to a standstill, only that the community will not see construction running at the feverish pace it has during recent years.

CONSERVATION COMMISSION Linda Hockman and Tom Riley, Co-chairs

As public awareness of environmental issues increases, the role of the Bedford Conservation Commission constantly expands. 1990 has been a particularly busy year as the members undertook several new projects.

An inventory and conservation assessment of all Town-owned land parcels was conducted by Commission members to insure that these assets will be fully utilized. As part of this utilization process, a new timber harvesting and management plan was created with the assistance of the County Forester. Revenues from the sale of timber may be used to fund projects such as Pulpit Rock.

Conservation Commission members and Audubon Society view bald eagle habitat along the Merrimack River for future protection efforts.

The last funding opportunity from the N.H. Land Conservation Investment Program occurred during 1990, and the Commission worked diligently to identify suitable land for purchase along the Merrimack River. A 7-acre site near Moore's Crossing Road was selected for the L.C.I.P. application because of its value for waterfront access, the future Heritage Trail, and because it is the second-largest bald eagle winter roost in N.H. The Commission has pledged to use \$25,000.00 allocated at the 1990 Town Meeting as matching funds for acquisition of this parcel if Bedford's application is chosen at the State level.

Lorraine Sanford (l) and Linda Hockman (m) of the Conservation Commission distribute pine tree seedlings for planting on Earth Day to Martha Harris (r).

Earth Day 1990 was commemorated by a series of conservation-oriented activities for local residents, including tours of Pulpit Rock and distribution of seedling pine trees for planting. The Commission also helped school children plant a tree at the new Peter Woodbury School addition.

The work of the Dredge and Fill Subcommittee has continued as one of the most important functions of the Commission. As greater emphasis is placed on the non-disturbance of wetlands by the State of N.H. and the U.S. Army Corps of Engineers, this subcommittee has provided valuable wetland investigation and analysis to advise local residents during the application process and assist various regulatory agencies in enforcement. The Heritage Trail Committee made significant progress towards its goal of a 4.5 mile hiking trail along the Merrimack River. This committee, cochaired by Lynn Willscher and Carol Anderson-Botsford, has gained Bedford a statewide designation as "Model Trail Community" for its work.

SUPERVISORS OF THE CHECKLIST Betty Folsom, Chairman

The Supervisors of the Checklist report that the updated checklist shows 2,043 registered Democrats, 4,599 Republicans and 2,225 Independents. This increases Bedford's total voter registration by 184, from 8,683 in 1989 to 8,867 in 1990.

Open sessions held in 1990 by the Supervisors for registration, corrections and/or change of party totaled 6 plus 3 held at Open House at the schools. Official sessions are held on Tuesday evenings and Saturday mornings and others as deemed necessary. Notices are posted at the Town Office, Library and published in the local newspapers.

Residents may also register or change their party affiliation at the Town offices during regular office hours. Proof of age and residency is a requisite.

1991 is a re-registration year as mandated every ten years by RSA 654:39 for the purpose of updating the checklist. Any person who voted in the 1988 general election, or voted in the 1990 general election, or votes in the 1991 annual town election shall be deemed re-registered and does not have to re-register. Those not voting in any one of those three elections, however, will need to re-register starting in April, 1991.

Voters may now register as members of the Libertarian Party, as of January 22, 1991.

The Supervisors thank Edith Schmidtchen, Town Clerk, and her staff for handling the majority of the registrations.

HISTORIC DISTRICT COMMISSION Elizabeth Lessard, Chairman

The Commission met in six regular sessions, the first Tuesday evening of the month, and two special sessions throughout the year. Fifteen submissions pertaining to property changes in the District were heard.

Two members, June Reilly and Shep Melnick served through the year as the Commission's representatives to the Master Plan Committee.

Shep Melnick prepared an excellent letter defending the boundaries of the Historic District Commission as originally defined and still existing which was presented to the Master Plan hearing in December.

In May, Marilyn Otterson was appointed as a full member for a three-year term. She had served faithfully as an alternate for three years. Steven Jensen was appointed to a second three-year term. Shep Melnick was welcomed back to the Commission as an alternate for three years. In November, Jo-An Parente was appointed as an alternate for three years. Other members include Carolyn Richmond, regular member and Robert Tarbell, alternate member. Edward Moran is the Council's representative to the Commission.

The continuation of the photo-survey of the structures in the Historic District did not go forward in 1990, but Mr. Kazys Daugela will resume this project in 1991.

My thanks to the Commission members for their interest and advice, and to Martha Harris, for her unfailing help.

PARKS AND RECREATION COMMISSION Richard E. Fortin, Chairman

This year marked the first year that the Commission has had the pleasure of working with a full time Recreation Director, and it was a pleasure. For the first time, we have been able to offer a variety of quality activities geared to a variety of individuals. Not only have we served school age children, but also pre-school children, the handicapped, adults and the elderly. Not only have we been able to offer expanded athletic facilities, but also programs of cultural and civic significance as well as crafts and active and passive recreational activities.

The best part of all of this is that, because of some grant money, user fees and the donations of time, money, services and materials, it was all done with a smaller budget than that of comparable towns! None of it would have been possible without the day to day diligence of Brian Ross, the town's Recreation Director. His efforts this past year have allowed the Commission to concentrate on planning and policies, which is what our job should be.

Planning began with an assessment of where the town is currently. Two independent studies were done and then the data correlated. The first was a recreation facilities needs analysis based on standards published by the State. Projections of the town's needs into the year 2005 were made. This was a very revealing analysis. According to the state standards, Bedford is currently deficient in recreational facilities in almost every category. The areas where the most improvement is necessary are as follows, not in any particular order:

Ice skating areas
Playgrounds
Basketball courts
Cross-country ski areas
Hiking and biking trails
Areas of natural open public space
Parks
Tennis courts
Baseball fields

The second study was a survey of you, the voters of the Town, to determine your priorities. The Recreation Director, at the request of the Commission, coordinated the survey. There was excellent response to the survey. Not so coincidentally, many of the items you indicated as high priority items are the same ones that the state standards indicated we should be concentrating on. In order of importance, the top ten items were:

Outdoor skating areas
Cross-country ski areas
Winter sledding areas
Playground areas
Indoor recreation center
Nature walking trails
Open space/parks
Outdoor pool
Tennis courts
Jogging/fitness trails

Taking both sources of information into consideration, a six year plan was drawn up. It covers most of the facilities listed in the two reports described above. Implementation of that plan at a reasonable cost to the taxpayer will be the Commission's top priority. Donations, grants, user fees, fund raisers and other means of financing will be sought vigorously. Toward that end, the Recreation Director, at the direction of the Commission, applied for a state grant to construct a new area which would include skating, trails, tennis courts and a playground on land already owned by the Town. It is the area toward which the Commission has targeted its initial activities because it provides many of the facilities the Town needs. The grant was denied. Unfortunately, the state was able to fund only 8 of the 23 applications submitted. We will, however, seek alternative methods of funding this project and others in our six year plan.

As a final note, I would like to thank Brian Ross, the other Commissioners and the Public Works Department for their assistance during the past year. Without them the town would not have seen the quality of life increase as dramatically as it did in 1990.

RECREATION DEPARTMENT Brian Ross, Director

1990 was the Recreation Department's first full year of operation. We had an excellent year in providing a variety of programs to the residents of Bedford. Several major projects were completed in 1990, including construction of the soccer field, construction of a sledding hill, and renovations at the Town Hall.

The soccer field project was started in early January and was completed by mid summer. The soccer field project demonstrated a total community effort in completing this project with assistance from the Bedford Soccer League, local contractors, and many other individuals and organizations in the community. The soccer field will be ready for play in the Fall of 1991.

A major responsibility of the Recreation Department was the scheduling and maintenance of the Town Hall. Many improvements were made to the Town Hall, including construction of the new parking lot, installation of new emergency lighting units, painting of the first floor ceiling, and refinishing of the wood floors. A structural analysis was completed of the building, courtesy of John Jacobson Co. A handicapped access ramp is being constructed as an Eagle Scout project. Funding for an energy audit of the Town Hall was approved in December of 1990 by the Governor's Energy Office and should be completed in early 1991. The Town Hall is being used by a variety of community groups, ranging from the VFW to a local square dancing club. In all, over 15 groups and organizations used the Town Hall 157 days in 1990.

A sledding hill was constructed at the Riley Field Complex across from the Town pool. The land clearing was done by the John Brown Company, at no cost to the Town of Bedford. For a minimal cost, the stumps were removed and the area excavated by the Don Wheeler Company.

A number of programs were offered by the Recreation Department in 1990. Bedford had its first summer day camp program at the McKelvie School. 166 youths were registered for the Passaconaway Day Camp. Activities ranged from State Park trips, art and craft projects, to outdoor games.

Bedford's first summer cultural series was held by the Town Pool. 640 people attended the six summer shows. In a record breaking season, 750 children took swimming lessons at the Bedford Memorial Pool. All three sessions were booked solid for the summer season.

During the year, over 900 people were involved in a variety of recreation programs, ranging from ballroom dancing to karate. A major focus of the Recreation Department's programs were lifetime sports such as golf, cross country skiing, and tennis. In tennis, 118 youths and adults took lessons.

Lessons at the Bedford Memorial Pool.

A variety of family bus trips were taken to such destinations as Fenway Park, Boston Garden, and the Charles Playhouse in Boston. A number of special programs were well received including a Town Ping Pong Tournament, a Fall canoe trip down the Merrimack River, and Bedford's Earthday celebration which was done in conjunction with the Bedford Conservation Commission. Also, a Bedford Special Olympics program was started in the Fall of 1990. Activities planned for any Bedford resident who is developmentally disabled, include swimming, down hill skiing, bowling, cross country skiing, and track and field events.

The Recreation Department generated revenue in many ways to assist in offsetting its expenses during the year. The Memorial Pool generated a total of \$15,585. in revenues, a \$1,158 increase over 1989. The concession stand at the pool had a net gain of \$2,226. The total revenue from the Passaconaway Day Camp was \$23,195. Program revenue for the year was \$13,210. with expenses at \$11,964. for a net gain in 1990 of \$1,246. Overall, the Recreation Department generated total revenue in 1990 of \$54,216. The Recreation Department would like to thank the many citizens of Bedford for their support during its first year of operation.

RECREATION PROGRAM STATISTICS

Bedford Soccer League

The Recreation Department would also like to thank the following individuals and organizations for their cooperation, assistance, and/or donations during the 1990 year in meeting various recreational needs of the community.

SOUTHERN NEW HAMPSHIRE PLANNING COMMISSION

M. N. Sharma, Executive Director

All dues-paying members of the Southern New Hampshire Planning Commission are offered a wide range of services, resources and technical assistance by a professional planning staff who, from time-to-time, are assisted by specialized consultants on an as-needed basis. Under the direction of your representatives, the staff develops and carries out planning programs that require a regional perspective, as well as those which pertain more directly to your community.

Local planning assistance requests are generally received from your Planning Board and/or your Town Manager. With the concurrence of the Commission, certain general studies are conducted, notifications made and training workshops held that are considered essential for all member municipalities.

Services that were performed for the Town of Bedford during the past year are as follows:

- 1. Provided testimonies, some in support and some in opposition, to the House and Senate committees of the 1990 Legislative Session on a few bills which pertain to planning and zoning. SB 337; SB 358; SB 359; HB 1121; HB1119; and HB 1375 dealing with impact fees deserve a special mention.
- 2. Co-sponsored the Municipal Law Lecture meetings. These meetings were attended by Bedford officials.
- 3. Conducted a six-hour training workshop for the Planning Board members. Representatives from the Bedford Planning and Zoning Boards were invited to that meeting.
- 4. Prepared a traffic improvement plan for the Bedford Center Road from Meetinghouse Road to Church Road.
- 5. Using GIS ARC/INFO, prepared a computerized map for the Town showing the slope charac-

teristics. The Town has been provided with the electronic file containing soils information.

Bedford's representatives to the Commission are Eugene M. Van Loan, Jr., Edward P. Moran, Jr., and David Danielson. Eugene M. Van Loan, Jr. is also member of the Executive Committee and the Metropolitan Manchester Transportation Planning Policy Committee.

VISITING NURSE ASSOCIATION

The Visiting Nurse Association has been providing the residents of Bedford with a full range of home health services since 1965. The VNA Board of Trustees and staff take this opportunity to reaffirm their commitment to excellence in health care, and to the provision of services designed to ensure that being cared for at home is safe, comfortable and convenient.

Over the past year the VNA has forged ahead with new endeavors. In January of 1989 the VNA formally acquired the former Greater Manchester Child Care Association (GMCCA) to insure that affordable quality child care services would continue to be available in our community. Shortly after the acquisition of the center, a major renovation project of the physical facility began. From March to the present, hundreds of skilled tradesmen representing 13 labor unions and many local businesses have come forward offering time and materials for the project.

The VNA's programs have continued to thrive and expand. VNA home care and community health services are provided through its affiliates.

VNA Home Health & Hospice Services, Inc. is Medicare and Medicaid certified, provides intravenous and enteral therapies; skilled nursing care; physical, occupational and speech/language therapies; nutrition counseling and medical social services; certified home health aides; Hospice care for the terminally ill; and long term care for the elderly and the handicapped. Medical equipment, such as beds and wheelchairs, is also available. Payment for service includes health insur-

ance and private payment. Fees are explained to our patients at the first visit to the home and for those unable to pay the usual fees, adjustments are made on an individual basis.

<u>VNA Personal Services, Inc.</u> provides private duty nurses, home health aides, homemakers, companions, personal care assistants and child care in the home.

VNA Community Services, Inc. provides free Immunization Clinics for all age groups monthly and Free Blood Pressure screening clinics. Watch your local paper for date and place. Foot Care clinics are held monthly at our 194 Concord Street office by appointment and blood pressure checks are done weekdays from 1:30 - 4:00 PM. Occupational Health programs are provided to business and industry on site. Parent-Child Health Services include the Teenage Pregnancy Program, the Parent-Baby (ad) Venture Program for children at risk of abuse and neglect, the Child Care Connection for child care providers, and the Training Program concerned with preventing drug and alcohol use among adolescents in high schools.

VNA Child Care Center provides a full-range of state-licensed child care, tailored to each child's needs. Programs include Infant/Toddler (ages 6 weeks to 36 months); Preschool (ages 3-5); and Kindergarten (age 5). The center also provides Extended Care, which is a before and after-school program for children grades 1 through 6, and special full-day programs during some holidays, school conference days, and school vacations. The summer session provides creative, fun programming for children ages 3 to 11. As needed, VNA also offers families a continuum of coordinated health and social services, both directly from the VAN and through working arrangements with other community resources.

Town funds, grants, United Way allocation and donations are a vital part of the funds that help to defray the cost of unpaid services. A representative(s) of the Town of Bedford serving on the VNA Board of Trustees are Linda Girard, Charles Grau, Ed Moran and Eugene Van Loan, Jr.

REPORT OF THE BEDFORD SCHOOL BOARD Ann G. Remus, Chairman

The school year 1989-90 was the first full year of operation of SAU 25. The school board has been most pleased with the high level of productivity and commitment to task on the part of our three central office adnlinistrators and four office staff persons. That group of seven accomplishes, with enthusiasm and imagination, the work done by larger numbers in many other communities.

Additions and renovations to the Memorial and Peter Woodbury schools were accomplished during the year. The Board appreciated the support of the community in allocating the funds to relieve the overcrowding of these two schools. Thanks to the efforts of our staff and administration, as well as the architectural and construction team of Frank Marinace and Hutter Construction Co., the work of the additions took place while school was in session, with no interruption to the educational process.

We learn...cooperation

The March, 1990 School District Meeting appropriated the operating budget for a first-time public kindergarten for Bedford. A committee of administrators, teachers, private Bedford kindergarten teachers and community members studied curricula and visited numerous public kindergartens, both in and out of New Hampshire, as it sought to develop a comprehensive kindergarten curriculum for Bedford. (As are all of our curricula, the completed document is available for the community to read at the Bedford Public Library. During the year, a foreign language curriculum was written, and the science, computer education, physical education and technology education curricula were reviewed and revised.

We learn...responsibility

The central office developed a new staff evaluation model, utilizing new techniques in classroom observation, Further, our staff made full use of funds appropriated by the school district meeting to improve their level of expertise.

It has been a great pleasure for me to serve on the Bedford School Board for the past four years. On behalf of the board, I salute and thank our staff and team of administrators for their responsiveness to the board and the community at large, and at the heart of it all, for their commitment of energies and creativity in giving each child, at reasonable cost, the opportunity to achieve his or her personal best.

SUPERINTENDENT OF SCHOOLS Dennis J. Pope

Normally, the Superintendent's report presents a detailed summary of the significant events which took place during the prior school year - in this case, the 1989/90 school year. My report this year will not follow the norm. It will briefly comment on the state of the school district and then addresses an issue which is of great importance to the educational staff and citizens of Bedford.

The Bedford School District experienced a great deal of success during the 1989/90 school year. Curriculum studies were initiated and completed. Major renovations and additions to the Peter Woodbury and Memorial Schools were begun and upon completion provided appropriate and adequate instructional space for our educational programs. With the establishment of SAU #25 came a new beginning and a renewed emphasis on personnel and staff development.

The first year of an after-school child care program received positive evaluations and the board agreed to have a program at both the Peter Woodbury and Memorial Schools during the 1990/91 school year.

We learn...reading

Community relations and communications were a priority of all board members and educators.

Neighborhood coffees were held. Meetings were scheduled at times which provided greater opportunities for various constituencies to attend. Newsletters, letters, news releases, and articles were used to communicate school board news and decisions and to inform the community about the success and accomplishments of our students and staff.

The Bedford School District is doing an effective job and our students are succeeding. They are learning. They are acquiring essential skills. They are contributing to their community and their school. Learning and growth is a life-long process and, therefore, with your continued input, help and support, the staff of the Bedford School District will continue to strive to meet the needs of every child and the expectations of this fine community.

It gives me a great deal of pride to work in such an exciting and supportive district. Thanks again for your support.

Let me now address what I believe to be of great importance to all citizens in the Town of Bedford and the State of New Hampshire. Historian Henry Adams once asked what accounted for the success of the United States during its early years. He found quality of leadership, the structure of our government, and our natural resources were important. However, central to our nation's prosperity was something called America's greatest invention: a national commitment to public education. Unlike the European system of educating a few very well and many not at all, America's goal to educate all equally led to unprecedented prosperity and greatness.

Recognition of the role and importance of <u>public</u> schools to the well-being of the people and the state was expressed in 1912 by the Supreme Court of New Hampshire:

The primary purpose of the maintenance of the commoon school system is the promotion of the general intelligence of the people constituting the body politic and thereby to increase the usefulness and efficiency of the citizens, upon which the

government of society depends. Free schooling furnished by the state is not so much a right granted to pupils as a duty imposed upon them for the public good. If they do not voluntarily attend the school provided for them, they may be compelled to do so. While most people regard the public schools as the means of great personal advantage to the pupils, the fact is too often overlooked that they are governmental means of protecting the state from the consequences of an ignorant and incompetent citizenship.

What was true in the early years remains true today. A public education system of the highest quality is fundamental to preserving our way of life, the quality of our lives, and the health of our democracy.

The American people must realize the importance of education and communities must support public schools. Citizens must realize that public education is a shared responsibility. Certainly each one of us can make a difference by being involved and by encouraging children to value education.

However, this may not be enough. Our state and towns face significant issues such as tax abatements, school choice and tax reform. These issues not only impact public education, they have serious consequences for town and city government as they struggle with growth, land use requirements, road repairs, pollution and landfill, not to mention the need to maintain up-to-date police, fire and safety services.

All citizens must study and debate these issues. Questions must be asked and answered. What is right? What is fair? What is in the best interest of and beneficial to all concerned? If leadership and statesmanship on these issues do not come forth from our elected officials at the state level, citizens must demand objective study and debate in order to test the integrity of various ideas and proposals. How else can we best meet our needs in the 1990's? How else are we going to know what is fair and in the best interest of our society, our children and our future?

We learn....writing

BEDFORD SCHOOL DISTRICT SCHOOL WARRANT THE STATE OF NEW HAMPSHIRE

To the inhabitants of the school district in the Town of Bedford, New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the McKelvie School in said district on the 7th day of March, 1991, at 7:00 o'clock in the forenoon, to act upon the following questions:

ARTICLE I. To see if the district will vote to authorize the School Board to apply for, accept and expend, without further action by the school district meeting, money from any source which becomes available during the fiscal year provided it meets all conditions of RSA 198:20-b.

ARTICLE II. To see if the district will vote to raise and appropriate the sum of Two Hundred Thirty Five Thousand Dollars (\$235,000.00) for the construction of a School Administrative Unit (SAU) office building.

ARTICLE III. To see if the district will vote to raise and appropriate the sum of One Hundred Ninety Eight Thousand Three Hundred Ninety Five Dollars (\$198,395.00) to fund those additional cost items related to the collective bargaining agreement between the Bedford School District and the Bedford Education Association for the 1991-92 school year which resulted from negotiations with the teachers and which represents the negotiated increase over the 1990-91 salaries, fringe benefits, and other cost items.

ARTICLE IV. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries of the school district and agents, and for the statutory obligations of the district.

Given under our hands at Bedford this 11th day of February, 1991.

MCKELVIE MIDDLE SCHOOL Arnold MacDonald, Principal

The first day of school for the 1989-90 school year was September 5th at which time McKelvie Middle School opened its doors to 841 enthusiastic students. The diligent work of the custodial staff over the summer reflected itself in a refurbished building.

The revised mathematics curriculum was implemented with the evaluation phase planned for the end of the school year. Science curriculum revision was initiated during the spring with parent, staff and student assessment surveys being conducted. Work completed during the summer and the school year will result in specific changes in the curriculum that will be recommended to the school board. Additionally, the foreign language curriculum was accepted by the school board. Thanks go to Assistant Principal Charlene Carper and the teachers for finalizing that curriculum. The implementation of the "Here's Looking at You 2000" drug and alcohol abuse program is well under way at McKelvie School. All students will participate during the school year. At this point in time, we have over threefourths of our staff trained in this comprehensive program.

Through the budgetary process, two new positions were funded. The school district hired one additional foreign language teacher to work at McKelvie School. We now have two French and two Spanish teachers which has allowed us to develop a comprehensive foreign language program for our students. A new special education program has been implemented at McKelvie School entitled Skills Improvement for students in grades 5-8. In addition, a part time position entitled Communications Skills was approved by the school board. This program provides an alternative for students not participating in a foreign language.

Through the initiative of Michael Hague, Community Youth Worker, and the diligent work of program directors, Nan Pope and Dottie Yager, a SADD program, "Students Against Doing Drugs", was initiated at McKelvie School. This program is a take-off of the well known high school program. Our intent is to provide students at the middle school level with information and awareness related to the dangers of drug use. The objective of the program is to sha@ students that they can have fun and enjoy activities without turning to drugs.

This school year marked the conclusion of our second Parent Survival Skills Program. Michael Hague and I have worked with the PTG and the First New Hampshire Bank, N.A. to provide a series of presentations aimed at enhancing parenting skills and developing awareness of the stress our youth face in today's society. This series of presentations ran throughout the school year.

We learn...math

A unique and exciting program entitled, "Stand By Me" was presented to the seventh grade students and their parents on May 22nd at Hesser College. It offered a series of twenty different workshops aimed at improving communications and enhancing self-esteem. The objective was to strengthen the bond between children and their parents by exposing them to a variety of informational exercises and sessions providing new ideas and skills upon which to build a more open and trusting relationship. Feedback from the 400 students, parents and teachers in attend-

ance was very positive. The program was made possible through the financial support of Catholic Medical Center and the countless hours of work given by the "Stand by Me' planning committee.

Several staff members at McKelvie School have put in many hours writing federal and state grants. Ray Ross, Chuck Healey, Noreen McAloon, Kathy Slater, Al Fredette, Jack Jablonski, and Dee Angwin have all been successful in the pursuit of funding to purchase computers for Special Services, Library, Guidance, and the Technology Education programs.

New staff at McKelvie School for the 1989-90 school year included Skills Improvement Program teacher, Michelle Widdison; Spanish teacher, Laurie Sanders; French teacher, Pat McPhee; 7th grade Social Studies and Science teacher,

Bob Cook; Cowmunication Skills teacher, Terry Anastas; Computer Room paraprofessional, Terry Bousquet; Skills Improvement Program paraprofessional, Sharyn Huot; and Resource Room paraprofessional, Theresa Walton.

Administrative objectives for the school year included the following:

- 1. Continue to develop knowledge and expertise in the area of Mastery Teaching.
- 2. Work with the involved individuals to research, explore and plan for a district computer networking system/program.
- 3. Serve as chairman of the Science Curriculum Revision Committee.
- 4. Work with staff to review the status of the McKelvie School in relation to the Carnegie Report, "Turning Points", on middle school education.

I would like to thank all who have contributed to make the education program offered to our students at McKelvie School a success.

PETER WOODBURY SCHOOL Kenneth Williams, Principal

The Peter Woodbury School opened in September, 1989, with an enrollment of 400 students in three (3) readiness grades, ten (10) first grades, and seven (7) second grades. The 1989-90 school year promised to be a banner year for change.

In September we welcomed Teresa Cardin and Karyn Suozzo as grade one teachers, and Karen Drinkwater and Marjorie Moore as paraprofessionals.

The Peter Woodbury School Principal's objectives for the 1989-90 school year included the following:

- 1. Provide leadership and coaching support for the Peter Woodbury staff in facilitating quality learning opportunities and experiences for our students.
- 2. Serve as the chairperson of the Neighborhood School Committee.
- 3. Serve as an active member of the Bedford Kindergarten Curriculum Committee and to facilitate the charge of the committee.
- 4. Be actively involved in all phases of the Peter Woodbury School's building project.

We learn....music

The school year opening coincided with the commencement of a building/renovation project. The addition provided for additional classroom

space, renovations to the multi-purpose room and library, administrative office space, tutorial areas, and kitchen. The completion of the project allows for an alleviation of critical space needs by providing the needed enhancements to professionalize our students' learning environment, classroom space for the kindergarten program, and improvement in support service areas.

In the area of curriculum, teachers implemented "Here's Looking At You 2000", a foundation for our substance abuse program, the new mathematics curriculum, and started the process of revising the science curriculum.

A committee of teachers, administrators, and community members developed the kindergarten curriculum for implementation in September, 1990. A great amount of effort and research was dedicated to this project. The goals of the Bedford Kindergarten are:

- Provide every child, who will be 5 years old by September 30th, with an opportunity to attend.
- Promote the love of learning.
- Provide a positive introduction to the public school.
- Provide opportunities for socialization with peers and adults.
- Provide a curriculum that offers a core of common experiences.

A copy of the Kindergarten curriculum is housed in the school and town library.

The compendium of staff, building, and student population changes provided the impetus for a very successful and memorable school year. The advancement of students culminated our year's efforts and the growth experienced positioned us for the upcoming year.

In conclusion, I would like to express my appreciation to our Peter Woodbury staff, SAU #25 School Board and administrators, the Bedford Parent-Teacher Group, and to parents and community members for their effort, assistance, and support.

MEMORIAL SCHOOL Maynard E. Contois, Principal

The Memorial School opened in September, 1989, with an enrollment of 476 students in three (3) second grades, ten (10) third grades, and ten (10) fourth grades.

An addition to the school commenced in the fall and was completed during the latter part of the summer. The addition, the fifth one that Memorial has experienced, will provide classroom space and resource rooms for students and teachers who have been working in small closets and hallways for several years. This addition, as well as the one at Peter Woodbury, provides the town with two elementary schools that are comparable in size and core facilities.

In the area of curriculum, the "Here's Looking At You, 2000" Program is being implemented in the classroom by teachers who have been trained to do so. This curriculum is now the foundation of our substance abuse program.

The science curriculum is being revised for all grade levels. The process involved a needs assessment last spring and a re-writing of the existing curriculum during the summer. Implementation of the revised curriculum will take place during the 1990-91 school year. This effort has involved teachers from all grades, parents, administrators and school board members.

The Memorial School Principal's objectives for the 1989-90 school year included the following:

- Serve as an active member and participate on the Neighborhood School Committee.
- 2. Continue serving as an active member of the Bedford Kindergarten Curriculum Committee.
- 3. Be actively involved in all phases of the planned addition to the Memorial School.
- 4. Play a leadership role in the development, establishment and implementation of the Bedford Wellness Committee.

In September, we welcomed Helen Blanchard as a new resource room teacher at Memorial. In June, Marilyn Guillemette retired after thirtyfour years of teaching children in the Bedford Schools. Her dedication and years of service are greatly appreciated.

In conclusion, I would like to thank the staff, the Bedford Parent-Teacher Group and the other organizations in Bedford for the cooperation and assistance extended to the Memorial School.

who teach 1/2 time.

Comparative Enrollments - Class Size

Over the year, the Bedford School District has developed and maintained a favorable class size especially at the elementary schools. Class size is important to educational quality because it can impact on student achievement, attitudes, selfconcept, discipline problems, social development, and work habits. Additionaly, appropriate class size contributes to improved classroom atmosphere, teacher morale, relations between students and teachers, and more parent contact. Lastly, favorable class size allows for individualization of instruction, increased interpersonal relations and motivation to learn, and a variety of grouping activities and instructional methods which provide for higher cognitive thought and experience. While the state maximum allows up to twenty-five students in K-3, and thirty in grades 4-8, our district is currently twenty-three or less in grades K-3 and twenty-seven or less in grades 4-8. Bedford School Boards have a long history of recognizing that smaller class size and favorable teacher-pupil ratios allow for teachers to meet the special needs of each child.

Enrollment Projections

Our enrollment projections show some fluctuations with a slight decrease anticipated at the elementary level (K-4) and a modest increase at the middle (5-8) and high school (9-12) grades. Over all our projections anticipate three fewer students next year (1991-1992) than this year.

Due to the economy and the budgetary decisions in the Manchester School District, actually enrollments at the high school level were twenty fewer than projected. Even with this unexpected drop in high school enrollment, our actual enrollment was twelve students more than projected. This means that our projections were conservative and yet fairly accurate. We believe the same to be true for the 1991-1992 projections.

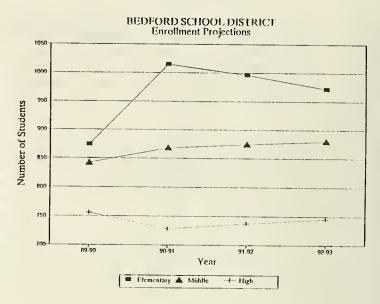

BEDFORD SCHOOL DISTRICT DISTRICT MEETING MINUTES MARCH 8, 1990

The annual Bedford School District Meeting was held on Thursday, March 8, 1990 at the McKelvie School. Present were School Board Members Maureen Spector, Ann Remus, Margaret Comiskey, Richard Mandeville and Mary Lou Wilson. Also present was Dennis Pope, Superintendent; Ross Lurgio, Assistant Superintendent; and Pauline Armstrong, Business Administrator. There were approximately 800 people present.

School District Moderator, Eugene Van Loan, III opened the meeting at 7:35 PM, and led the prayer and Pledge of Allegiance. He introduced those on the stage and went over the rules of procedure. He announced that he had received four requests for a secret ballot on Articles III, IV, VI, and VII.

Bill Dell'Orfano, 15 Pilgrim Drive, made a motion to advance Articles VII and VIII in front of Article VI; motion seconded.

Mr. Dell'Orfano requests this before the major vote on the budget so we can spend some time on it. Mrs. Spector said the reason for the order of the warrant is that all monied articles are voted

on before the budget article. Mrs. Remus said the other reason for having the last two where they are is the major business is to pass the budget and it is important to do that before people have to leave. The last two articles were requests from other school districts.

Jeff Hudson, 71 Perry Road, corrected Mrs. Remus and said Article VII was submitted by people of the Town. Mrs. Remus said she stands corrected. Mr. Mandeville said he is opposed to the motion. He thinks we are here to pass a budget, and the quicker we get to it, the better we will be.

Bill Delaney, 8 Old Stone Way, supports the motion. The article is about money and we cannot pass the budget without taking everything into consideration.

Sue Holstein, 33 Ministerial Branch, thinks we have to look at the impact of this motion. The last thing we will be considering is the bottom line of the budget. She does not think it is fair or right that the decision on that be made late at night.

Vote on motion to advance Articles VII and VIII prior to Article VI failed. Drew Gillett asked for a standing division which showed yes 414 and no ll6.

ARTICLE I. To see if the district will vote to authorize the School Board to apply for, accept and expend, without further action by the School District meeting, money from any source which becomes available during the fiscal year provided it meets all conditions of RSA 198:20-B.

Mrs. Comiskey moved the article; motion seconded.

Mrs. Comiskey said this is a housekeeping article which allows the School Board to accept funds and teachers to apply for grant money.

Vote on motion passed.

ARTICLE II. To see if the district will vote to raise and appropriate the sum of One Hundred Six Thousand Dollars (\$106,000.00) for the replacement of a section of the McKelvie School roof.

Mrs. Wilson moved the article; motion seconded.

Mrs. Wilson said over the 8th grade wing the roof leaks badly. The current roof has a 10-year life expectancy and it is 10 years old.

Betty Ann Barnes, Chandler Road, said the BTA position is the roof should be replaced but it should become part of the normal school budget. She proposed an amendment that this be changed to zero and \$106,000 be added to Article VI, Section 2500 of the budget. Moderator Van Loan said he will not accept the motion because it does not have any effect; well it does have one effect in that if money is appropriated in a specified warrant article it can only be spent for that purpose. If it is in the general budget where you have indicated, it need not be spent for that purpose. If she wishes to press the motion, he will ask for a second.

Motion seconded.

Moderator Van Loan said the only part of the motion he can accept is to reduce this to zero. The part to add it to the budget will have to wait until we get to Article VI.

Mrs. Spector said there seems to be some misunderstanding about the purpose of a warrant article. This is in a warrant article rather than in the budget so these monies can only be spent for the replacement of the roof. If the estimate were less than \$106,000 that excess would be returned to the general fund to reduce taxes. If it is a line item, there is no need to do that.

Paul Goldberg, 26 Wiggin Road, agrees with Mrs. Spector, but if we include Articles II, III and VI, we are voting for a 15 1/2 percent increase of the assessment charges which would mean a \$400 increase for the average home.

Vote on motion to amend the article to reduce it from \$106,000 to zero failed.

Jeff Hudson made a motion to amend the article to state and require that the School Board secure a minimum of 3 independent bids, that they accept the lowest bid, and that the amount not to exceed \$90,000; motion seconded.

Mrs. Comiskey said we routinely go out to bid on large items. They have had times when they have not received more than 2 bids.

Gus Garceau, North Amherst Road, made a motion to amend the amendment to include the word "qualified" before bids; motion seconded.

Vote on motion to insert "qualified" passed.

Jane Goldberg, 26 Wiggin Road, asked where the figure \$106,000 came from. Mrs. Armstrong said it was based on a quote from Garland Roofing Company.

Greg Joas, 64 North Amherst Road, asked if there was only one quote. Yes.

Richard Holstein, 33 Ministerial Branch amended the motion to remove the restriction of \$90,000. Motion seconded.

Mr. Holstein feels to place such a restriction would tie the hands of the School Board, and if they did not receive an estimate within that range, they would not be able to do the work.

Paul MacEwen, D. W. Highway, asked if the bid came in for more, are there other funds that could be used from the general budget for repairs. Mrs. Spector said this is a bottom line budget, so yes, but it would mean taking those monies from an area that was budgeted to be spent otherwise. Mr. MacEwen asked if there was a contingency in there. Mrs Spector said no. Mr. MacEwen asked why does a roof only have a 10-year life. Mrs. Spector said she didn't know but maybe it was done by the low bidder. Mr. MacEwen said we have been having problems with the roof at McKelvie ever since the building was built. Mr. Mandeville said the current roof carried a 3-year warranty, and there was lack of maintenance on the drains 9-10 years ago. They are recommending replacement with a multi-ply roof which will have a 15-year unlimited warranty and a life expectancy of 40 years.

Paul Goldberg believes in this time and age a 10% to 15% decrease in bidding is more the norm than the exception. He said specifications can be written to include a guarantee.

Hal Eckman, 11 Cobbler Lane, is in the general construction business and thinks it is arbitrary and capricious to lower the amount because it may not be enough. It is true that bids are coming in amazingly below what is ordinarily expected. He recommends this be left where it is and then go out to bid as early as possible and get a bonded contractor to do the work.

Cindy Chagnon, 12 Carriage Lane, said just because we are allocating \$106,000 doesn't mean they will spend \$106,000 if they can get a bid for \$90,000. She has complete faith in the School Board and they should be given free rein of the \$106,000.

Someone moved the question; seconded. Vote on amendment to remove the \$90,000 cap passed.

Vote on motion to amend and require 3 competitive bids and accept the lowest qualified bid passed.

John Holland, 5 Glen Road, asked if 4 bids are submitted and 3 are qualified and the fourth is unqualified but is the lowest bidder, what is the School Board supposed to do.

Vote on motion as amended passed.

ARTICLE III. To see if the district will vote to raise and appropriate the sum of Four Hundred Thousand Dollars (\$400,000.00) for the removal of asbestos in the Bedford Schools.

This is to be a secret ballot vote.

Mr. Mandeville moved the Article at \$100,000; motion seconded.

Mr. Mandeville said the requested amount has been reduced from \$400,000 to \$100,000 because the District agreed to an out of court settlement which provides for the removal of asbestos from Memorial School, enabling us to get the job done for \$100,000.

Phil Osberg, Liberty Hill Road, has been reading that this whole business with asbestos has been extremely exaggerated and thinks it would be wise to have a study made of the necessity of removing the asbestos.

Walter Van Anglen, Horizon Drive, went through the books and in 1985 there was a concern over asbestos. An inspection was done by the State and Federal Government, and the School Board hired a private company to make an inspection. As a result, the Memorial School had a type of asbestos that wasn't really too bad, but should be kept an eye on, but none was found at Peter Woodbury or McKelvie. In 1987 there was an appropriation to remove the asbestos at Memorial School. A statement in the 1987 book indicates that "all asbestos has been removed from all schools." Now in 1990, we are we discussing removal of asbestos. He thinks we should put this in the plan for next year and take another look at this and see if we really need to do this work.

Dennis Pope said most of what was said in prior reports is very accurate. In 1983 a law became effective that you must remove all friable asbestos. In 1988 a new law went into effect which said schools did not do enough, and they must put together a management plan. We found some asbestos is a place where we did not realize and found some encapsulated asbestos. We entered into a lawsuit, which was settled this week, because someone did not do what we were told was done. Each time we got bids, they came in in substantially more money than was budgeted, so we could not do the job we wanted to do. We are now proposing to remove all the asbestos. We have pipes above the ceiling which are 45 years old, if those pipes go, and that ceiling comes down, under the new law, we will be required to close off the Memorial School, at least that entire wing, depending on where the leak is.

James Farmer, Buttonwood Road, asked if the \$100,000 is for Memorial or McKelvie. Mr. Mandeville said just Memorial. We have a capital improvement plan to take care of that at McKelvie. What we have at McKelvie is non friable asbestos that is under management, and we are hopeful we can take care of that over a period of years through the capital improvement plan. He supports this on the warrant because the voters should have the right to decide. He said the kids are safe and will continue to be safe. but the risk is there. Mr. Farmer asked about the floor tiles. Mr. Mandeville said there is no asbestos in the floor tiles. Mr. Farmer said there is according to the management report. He said if a pipe breaks, you are going to have to close it anyhow. He said the kids are safe, and there is no particular need to remove any of it. It is much safer to leave it where it is.

David Woodhouse, 15 Golden Drive, a geologist, has studied asbestos for several years and has removed it. He said in his business there is a term called environmental hypochondria. He spoke about different types of asbestos. He said there are 3 solutions: leave it in place and monitor it; encapsulate it; or remove it. He said when you remove it you are in trouble. He said let's find out if it is asbestos. He said most asbestos is benign. Mrs. Spector said it is asbestos. The School Board recommends passage of this article.

Paul Remus, 65 Meetinghouse Road, hopes this group will give as much credence as he does to anyone who would state that his 4 grandparents, 2 of whom had college degrees, and all were foreigners, were not capable of removing the asbestos.

Jim Dias, 59 South Hills Drive, said Mr. Mandeville said there was money in capital funds for the removal. Mr. Mandeville said no. He said it is not a fund, it is a plan. There is no money in it.

Bill Dell'Orfano asked the nature of the settlement of the suit. Mr. Pope said they came up with a settlement to remove all the asbestos for \$150,000. We had \$352,000 in the bond and there was some money left over from that so that combined with the \$100,000 will allow us to make Memorial School asbestos free.

Bill Dell'Orfano asked if it was a monetary settlement or in kind. Mr. Pope said in kind. Mr. Dell'Orfano said if it was a monetary settlement, you could take that money and put it aside until we found a better way to dispose of it. Mr. Pope said it is not a monetary settlement, and as far as the disposal, we hire qualified people who dispose of it under the strictest conditions of EPA laws.

Ann Remus said the School Board's position is not a question of whether or not asbestos is dangerous, the question is when and if there is a leak in the pipes, plumbers will not come in to fix them until the asbestos is removed. If this happens, we will have to close the school and spend the same amount of money. It is really a question of not do you want to spend that money, but when you want to spend the money.

James Farmer agrees with Mrs. Remus about tradesmen coming in. He wants clarification of what the \$100,000 is going to cover. Is it going to cover both schools? Moderator Van Loan said Memorial School. Mr. Farmer asked for a figure on what it would cost to remove it at McKelvie. The Board does not have that. Mr. Farmer said the article refers to "schools".

Earl Legacy, 7 Bourbon Street, requested the people who petitioned for a secret ballot to reconsider. He moved the question. Seconded.

Drew Gillett asked to move the question on the secret ballot.

Moderator Van Loan said they wish to proceed to the secret ballot and they are entitled to do so.

Vote on motion to move the question passed.

Paul Goldberg asked if the person who moved the secret ballot signed the petition. Mr. Dell'Orfano said they will withdraw the secret ballot. Moderator Van Loan asked if he would verify that all five agree to withdraw. Mr. Dell'Orfano said yes. Mr. Gillett said that is not in order. This body voted to vote by secret ballot. Moderator Van Loan said, no, this body voted to vote, and they have withdrawn the request for a secret ballot. Mr. Gillett asked if there are 5 people who would like to see a secret ballot, and no one came forth.

Vote on motion to see if the district will vote to raise and appropriate the sum of \$100,000 for the removal of asbestos in the Bedford Schools. Moderator Van Loan said it refers to the Memorial School. Vote on motion passed.

A standing vote was asked for. After asking those to stand in favor, it was obvious that it passed, so the standing vote did not continue.

ARTICLE IV. To see if the District will vote to dissolve the Bedford School District and transfer all property of the District to the Town of Bedford which is to establish a school department. Further, to request our representatives and Senator to submit and support legislation in the N. H. Legislature authorizing the dissolution of the school district and creation of a school department within the Town of Bedford. This article is to take effect upon the passage of necessary legislation by the N. H. Legislature and amendment of the Town of Bedford Charter. (By Petition).

Mr. Dell'Orafano moved the Article; motion seconded.

John Miville, 81 Wallace Road, said there has been tremendous discussion on this. He said this article was put forth by some of us because we believe unless we get hold of school costs, and unless we start to make overall community decisions by all the people who are paying for it, we are going to run into a situation where we are going to be confronted with what Manchester is confronted with. This vote would only permit this to go forward with the legislature and then come back to the Town for a Charter vote. It would not become effective until those other conditions are met.

Jan Silver, l6l Beals Road, read a statement from the PTG in opposition to the Article.

Gary Hoffman, Cider Mill Road, said a basic tenet of the US Government is checks and balances.

Bruce Wilson, Seton Drive, believes our ability to vote on the school budget is the check and balance.

Sue Holstein said you are the legislature. The system that we have now is an extremely workable system. The School Board is accountable to you now. We are doing a good job, let's keep it that way.

Marion Villeneuve, said she came to the School Board and the Superintendent with a serious problem and got no results. She does not think the School Board is doing such a good job. She is very upset with the School Board, and would still like to have her issue answered. She thinks if somebody is not doing their job, they should have to answer to somebody. She said if the School Board can go behind closed doors to take care of it, you will never find out if the issue was taken care of or not. She does not call that answering to us the voters.

Dick Cavanaugh, Westview Drive, under this amendment he does not believe we are losing any accountability of the School Board because we can still decide the budget.

Rick Fortin, 39 Old Mill Road, disagrees that we are not losing anything. We still can go through every line item of the budget. Mrs. Spector said we now have a budgetary town meeting only and you only vote on the budget. Tonight on the warrant you are being asked to vote on some opinion related things. She asked what will this mean to the School District budget. Will it become a line item in the town warrant. How long will this meeting be if we are going to discuss both the town and school budget. She does not believe voters are incapable of going to one meeting on one night and remembering what they voted on that night, and going to a meeting on another night and adding those 2 numbers together and determining what they have given themselves for a tax rate. If it is purely a desire to allow the voters to do everything in one meeting, there is nothing in the law which does not allow us to do that now. We could hold both meetings at the same time. She thinks we will have a great many legal problems if we pass this. Their attorney thinks this petitioned article is not legally binding. If we become a line item, who becomes responsible for our bonded indebtedness and who is responsible for all the school property. There is nothing in the statutory provisions that provides for the dissolution of the school district.

Jim Dias would like to make a pact that next year on a Saturday the School District and the Council will do their budgets, one in the morning and one in the afternoon.

Walter Van Anglen asked how Manchester does it and yet the Mayor and Aldermen make the final decision. Mrs. Spector said that is a city form of government. We are a town form of government.

Greg Joas does not remember just talking about line items at the Town Meeting, so why would the school be restricted to a line item if we change this. Someone moved the question; motion seconded. Vote on motion to move the question passed.

The meeting then moved to take a secret ballot vote. Sue Holstein asked how long the polls would be open. Moderator Van Loan said as soon as we complete the secret ballot we will commence with the next article. There is no requirement that the polls be open for any particular length of time.

ARTICLE V. To see if the district will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000.00) to help support with other school districts a court challenge to the constitutionality of New Hampshire's method of funding public education through near total reliance on local property taxes.

Article moved by Mrs. Spector; seconded.

Mrs. Spector said this is on the warrant at the request of the Claremont School District in order to have the voters indicate their wishes on this matter. The results will be forwarded to the Claremont School Board.

James Farmer suggested this article should not be voted yea because to support a lawsuit is asking taxpayers to sue themselves.

Bill Dell'Orfano said this is a vote for a broad base tax. Two members of the School Board told him they do want a broad base tax. It is not how much money is spent but what direction those resources are spent in.

Greg Joas said even if people are tired of taxes, what would happen if we did get a broad base tax or sales tax for the sole purpose to support our schools. He feels the end result would be like the lottery and there are other areas that need it more than we do. He feels we would probably see disproportionately less than what we paid.

Mr. Mandeville said Kentucky and Texas have brought successful suits based on the constitutionality of their State Constitutions against a system of public education which relies almost exclusively on support from local property taxes. Claremont is bringing this suit to try and address the issue. This is saying to the State that we need to take a look - it is not a broad base tax.

Walter Van Anglen said if they are successful and change things, they would put a cap on the property taxes, and the State would provide the money. Suppose the State is in the financial position they are now and cannot give us the money, is the School Board going to come back to us and ask us to raise our property taxes?

Gary Hoffman asked what is the overhead rate of the State? What percentage would the schools get back?

Tony Frederick, Meetinghouse Road, said money equals control. Our property taxes are high, but we control how the money is spent. If you wish to improve the school system, you can do it without improving all the school systems in the State.

Mrs. Spector said this is not a vote for or against a broad base tax. Claremont is bringing a suit to ask the State to take a look at funding public education through total reliance on property taxes. We are being asked if we want to support the Town of Claremont monetarily in a suit they are going to bring.

Maurice Cullerson, Hitching Post Lane, said in Minnesota the State decided what quality of education they would have. The control you have over what you spend in your schools, there is no way anyone should be looking for an alternative method to take that control away.

Jim Dias works in Massachusetts and has to pay that tax every week. He likes NH, he doesn't like the sales or income tax. If we look to the State to fund education they have to get the money from somewhere, and it will result in some sort of a tax. He suggested the audience vote, without giving the \$3,000, and put a box in the back of the room, and those who feel strongly can throw in \$5.00 or \$1.00, and those who don't won't.

Jim Toboni, Liberty Hill Road, said the time to kill weeds is when they are young and small.

Let's kill this poison tonight. Let's send a message that the poor people and wage earners are not going to support the rich people so that they can live better.

Someone moved the question; seconded. Vote on Article V failed.

ARTICLE VI. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries of the school district and agents, and for the statutory obligations of the district.

Mrs. Remus moved the amount of \$15,856,088; motion seconded.

This is exclusive of Article III and the roof. Moderator Van Loan went through the totals in each category.

Regular Programs - \$8,164,944.

Roger Meggysy, Blueberry Lane, asked where the \$4,000 is for the NHSBA. Mrs. Spector said in line 23ll, School Board Services.

Special Education - \$1,355,956

Greg Joas asked the cost for the kindergarten. Mrs. Comiskey said it appears in 3 areas of the budget. Salaries for 4 teachers and 4 paraprofessionals and related benefits. She said the total for kindergarten is \$188,827. There are costs in supplies and library areas. Mr. Joas asked if that includes all costs, including furniture, maintenance. Mrs. Comiskey said the furniture has all been purchased and was included in the bond issue last year. They are using 4 rooms, and the custodian will have to spend part of his time cleaning. Mr. Joas asked how much it would be if we included those costs. Mrs. Comiskey does not have a breakout available.

Someone asked what percentage of students are in special education. Mrs. Remus said approximately 11%. Someone asked what percentage was the increase of students or was there a decrease in 1988-89. He asked why the salaries are increasing 50% if there are less students.

Mrs. Remus said the enrollments in R-8 in 87-88 was 1710 students; in 88-90 it was 1716. Someone said that is an increase of 6. Why are we going from \$400,000 to \$700,000. Mrs. Remus said this is for the 90-91 budget, and the total enrollments are expected to be 1851 including kindergarten. The reason the salary line item is up for special education is we are proposing 2 new programs within the district which will bring back 14-18 students who previously have been tuitioned to Manchester or Merrimack at increasingly expensive cost. This is a very cost effective thing to do. Someone asked if these programs are mandated. Mrs. Remus said some by State and some Federal.

Other Instruction - \$46,250

Adult Education - \$2,000

Census - \$4,280

Someone asked for an explanation of the increase. Mr. Mandeville said this is a salary issue for a part time position to keep track of our students, particularly those at West High, to make sure they are not overcharging us. Mrs. Comiskey said they are 2 salaries in here: \$3800 for an attendance officer and the balance for the census taker.

Guidance - \$217,991

Marion Villeneuve, Liberty Hill Road, asked how many guidance counselors we have. Mrs. Remus said 5, one at Peter Woodbury, one at Memorial, 2 at McKelvie and one drug and community counselor. Mrs. Villeneuve asked their salaries. Mrs. Remus said it depends on where they fall on the salary scale. They all have Master's Degrees. She said it is 5 divided by \$209,000, which puts them at the top of the salary scale which is \$40,954. Mrs. Villeneuve does not feel there is a need for 5 guidance counselors at the grade school level. She feels there is a person in guidance who is not doing his job adequately.

Carolyn Akins, Hickory Lane, asked if there is any reason why a guidance counselor cannot be shared. Mrs. Remus said there are minimum standards that a population of 500 needs a guidance counselor. There are 479 students at Peter Woodbury and 497 at Memorial so they could not share one by minimum standards. Mrs. Akins asked if that is State mandated. Mrs. Remus said the State does not mandate anything, they deal with whether our school is accredited. We have a lot of children who have problems to deal with.

Bill Dell'Orfano does not understand what the minimum standard is and who's minimum is it. Mrs. Remus said it is set by the State Dept. of Education. Mr. Dell'Orfano said it is not telling you that you have to, so you could share. Mrs. Remus said we could choose to be unaccredited in that regard.

Lorraine Lemay, 20 Oak Drive, asked why it is necessary to pay \$135,000 to SERESC. Mrs. Remus said it is a group of 7 school districts who pool their resources so we can get services for special needs for less money such as occupational therapy and speech therapy. It would be difficult to find someone to come in 3 days a week, so we get these through SERESC. This is a very economical way to get special education people. Mrs. Lemay said you have total speech services at \$118,000. Who are they? Mrs. Remus said we have 3 speech therapists. Mrs. Lemay asked about psychological services. Mrs. Remus said this is the service of consultants who are used for diagnostic purposes. Mrs. Lemay thinks all the salaries should be put together. She said if you have 5 guidance people and someone in the psychology department, you really could dispense with SERESC.

Mrs. Lemay moved to dispense with SERESC; motion seconded.

This would mean a reduction of \$135,929. Ellie Cochran, 14 Beaver Lane, said the 5 guidance counselors are totally busy. If we do not take care of these problems now, they will be problems in high school. She hopes we vote this motion down.

Vote on motion to reduce by \$135,929 in the area of SERESC failed.

Health - \$61,408

Psychological Services - \$43,120

Speech Services - \$118,127

Pupil Services (SERESC) - \$135,929

Improvement of Instruction - \$81,235

Bill Delaney, asked about computer education. What is in the \$28,000. He understood we got the computers in a grant. Mrs. Spector said this represents part of our yearly plan and is for ll computers with printers and software. We have 81 computers and 23 have been bought with grants.

Bill Dell'Orfano asked if this is all for the teachers' benefit. Mrs. Spector said the computers are for the classrooms. Salaries are for curriculum development when teachers work in the summer or during the year developing and reviewing major areas of the curriculum.

Educational Media - \$149,305

School Board Services - \$62,698

Jim Dias asked about the high school study update for \$3,000. In 1979 there were 628 students at West High from Bedford. In 1990 we have 756 students at West High. In 11 years, this is an increase of 128 students. In 1979 the voters on a non-binding referendum voted to continue education at West High.

In 1982 the same referendum 1343 to continue at west, 321 for Bedford to have its own high school. In 1987 again the voters were asked with 1248 to continue at West and 533 Bedford. The CEFS Study said the Bedford School District should continue with West until we reach 1,000-2,000 students. He said it will be 2,010 until we get 2,000 students.

Mr. Dias moved to reduce this line by \$3,000 and stop studying the issue, and next March have another referendum; motion seconded.

Rebecca Shafer, 14 Sandy Pond Parkway, said we have a major problem in Manchester. There may not be room for our students at West High. We have absolutely no control over the programs at West. She feels strongly we should start working on our program so we have it in place to have a Bedford high school.

Someone asked what the growth in population at West would have been if so many parents in Bedford had not chosen to send their children to private schools because West does not provide the quality education.

Jim Dias said this Town has always had a percentage who sent their children to Derryfield or Trinity. They would still send their children even if we did have our own high school. He called the School Board members in Manchester. He is very concerned. He asked if there was an official meeting that had ever taken place about decreasing level 4 or level 1 programs, and they said no, that was a rumor. They have never discussed Bedford not being able to send our children to West. He is not standing up to cut programs in the Town. He asked people to vote no on this. This is not education money.

Mary Ellen Barry, Forest Drive, disagrees. She said we have to look ahead to where our elementary children will be. She feels we should spend \$3,000 to try and insure that our children can benefit from the wonderful education at West.

Susan Krolikowski, 43 Ministerial Branch, said the CEFS Report said stay with Manchester if they will sign an area agreement guaranteeing our students will always have West as their high school. The Manchester School Board absolutely refuses to sign that area agreement. The reason why Manchester has not officially discussed the program cuts is because they are waiting for the politicians to get off their duffs and make a decision. She said there is no way they can run the programs the way they are now with the cuts.

She recommends leaving the \$3,000 in and further investigate options for Bedford students.

Joan Wiggin, ll6 Jenkins Road, had 5 children go through Manchester West and the education is there if they want it.

Lorraine Lemay, said one of the reasons the slips were given is because the NEA and teachers' union demand that teachers be told by March 15 if there is a possibility they will lose their position. She said probably very few will lose their position. Most will be rehired. She said money does not always make an excellent education.

Someone moved the question; motion seconded. Vote on motion passed.

Vote to reduce the budget by \$3,000 in the area of High School Study Update passed.

A division vote was called for which showed 315 yes and 314 no.

School Administration - \$368,609

Maurice Cullerson feels there seems to be a substantial increase from 89-90 to 90-91. He would like to know what we got for \$100,000. Dennis Pope said we went from 5 1/2 people to 3. The budget next year would be \$51,400 less than if we had stayed together. What you receive in the long run is an SAU office, more availability of the superintendent and staff, and reduced costs. Mr. Cullerson said the salaries in 88-89 that were allocated to Bedford were \$63,000 and the salaries are \$254,000 for 89-90 and \$279,000 for 90-91. Do you really make that much money?

Ann Hoffman, Cider Mill Road, asked for an explanation of what is covered in "other:" Mrs. Spector said in 2300 is advertising, printing and binding, supplies, NHSBA dues, School District Meeting. In 2320 is membership, professional meetings, contingency. In 2330 is travel, equipment, special education memberships and meetings.

Doug Donald, Cider Mill Road, asked the average increase the superintendent and staff will receive this year. Mrs. Spector said 6.2%.

Bill Dell'Orfano asked if these line items have the benefits accounted for as part of the reduction. Mrs. Spector said those are straight salaries. Mr. Dell'Orfano asked how does this compare with the previous system. Mrs. Spector said they are less.

Greg Joas believes these costs do not include maintenance of the SAU building. He thinks this is a little shadow account.

Mr. Joas made a motion to reduce administration by \$100,000; motion seconded.

Mr. Joas said you can take it anywhere out of administration. This does not buy our kids education. It does not reduce educational funds.

Carole Lewis, Rundlett Hill Road, gave figures of superintendent's salaries in surrounding towns. She said we are at the bottom of the scale in paying our superintendent. She thinks we need to address staffing. She does not feel we should be compared to Manchester.

Lorraine Lemay said Manchester has a high school, we don't; Merrimack has a high school, Londonderry has a high school. She does not think the superintendent is too badly off. They all have secretaries, the principals all have assistant principals and part time secretarial help.

Greg Joas said the superintendent does not only make \$60,000. He has a \$4,000 bonus and a \$6,000 travel budget. Mrs. Remus said the \$4,000 is for all 3 central office administrators. We do not have assistant principals for each principal, only at McKelvie. Our superintendent falls in the middle for NH superintendents. We are saving money and getting tremendous increases in the kinds and quality of services.

Someone moved the question; motion seconded. Vote on motion passed.

Vote on motion to reduce by \$100,000 in the area of administration failed.

Special Administration - \$29,103

Jeff Hudson asked where the rent for the SAU is. It is in operation of plant line 2320. Mr. Hudson said it is approximately \$35,000 a year. Mrs. Remus said that covers rent, heat, electricity and taxes. Mr. Hudson said a rumor has been floating around that part of that space is illegal. He asked if we have space in existing town buildings which is free. He said some of the Council have suggested there is space in the bottom of the Town Office Building which would be free. Mrs. Remus said we are in the first year of a 3-year lease. We do not expect to stay more than 3 years. The rumor is unfounded. They are not doing anything illegal in the central office. Mr. Hudson said leases can be broken. If space is available in the Town Office Building, we should investigate this. Mr. Mandeville said the Board has made efforts to meet with the Council, and if they have such a generous offer, we will see fit to entertain it when they make the offer.

School Administration - \$371,859

Operation of Plant - \$825,148

Transportation - \$1,082,999

School Lunch - \$299,938

Managerial Services - \$3,482

Support Services - \$1,462,933

Bill Dell'Orfano asked if they ever went out to bid on Blue Cross/Blue Shield and Dental insurance. Dennis Pope said they have changed over to another carrier through the Municipal Association. We have not gone out to bid as part of the teachers' contract, but have looked at where we can get the same services at reduced costs. Mr Dell'Orfano thinks it would be a good idea to go out to bid.

Ralph Dieter, Old Lantern Road, said this is a 53% increase, why such a big jump. Mrs. Spector said these are all based on estimates by the carriers. She said Mr. Dieter is looking at the 1988 column.

Kevin Shaughnessy, 3 Birchwood Circle, said Blue Cross/Blue Shield has increased significantly. He recommends you shop these out every 2 1/2 years. He asked if the Town is funding these total charges 100% or are the teachers paying a portion. Mrs. Spector said 100% for single and 90% for married.

Mr. Shaughnessy made a motion to consider increasing it to 25% for family and 35% for single.

Moderator Van Loan said he cannot accept the motion. He can only accept an increase or decrease in the budget. Mr. Shaughnessy recommended this be taken into consideration on the overall budget.

Facilities Acquisition - \$10,100

<u>Debt Service</u> - \$871,174

Federal Funds - \$87,500

Maurice Cullerson asked what we paid the federal government \$87,500 for. Mrs. Remus said we did not pay them anything. We have to show that is the amount we are going to receive in federal funds. DRA requires it be done that way.

Jeff Hudson sees the economic times differently. He is a member of the Bedford Taxpayers' Association, and they are looking for moderation of the increase that we are expected to spend, and we have not been very successful. He said we are in a moderate recession with projections of a severe recession in the next 6-12 months. He cited layoffs in large industry, building permits might be a new low this year. He said they are not looking at slashing spending but to moderate this year. He said there are two ways to do it ask for a budget reduction or vote no on the budget.

Susan Krolikowski said in view of the hour, she requested the petitioners to withdraw the secret ballot so everyone can stay to vote on the articles we came to vote on. No one came forth, so a secret ballot vote proceeded on the budget at \$15,853,088.

Moderator Van Loan announced the results of the balloting on Article IV with 256 yes and 562 no and one disqualified. The checklist showed 812 went through, total ballots cast was 819.

Ann Remus moved to advance Article VIII before Article VII; motion seconded.

Mrs. Remus said this article does not require a secret ballot vote, so while the ballots are being counted, we could discuss this.

Vote on motion to advance passed.

ARTICLE VIII. We the residents of the Bedford School District find the State of New Hampshire to be negligent in the funding of public education, thus creating an undue burden on the local property taxpayers. We demand that the State of New Hampshire Legislature begin in earnest to study methods for substantially increasing State aid to education.

Article moved by Mrs. Spector; motion seconded.

Mrs. Spector said this has been placed at the request of the Town of Plainfield to get a sense of the State. This is on many warrants in the State. It is not a broad base tax. It is asking for an opinion whether we agree with the statement.

James Farmer suggested we voted down Article V, so we should vote this down for the same reason.

Vote on motion failed.

ARTICLE VII. To see if the District will vote to limit the total increase in compensation, including all salary and benefits to the Bedford Education Associates (Teachers) during the next contract to a level not to exceed the Annual Consumer Price

Index - All Urban Consumers ("CPIU") as reported by the United States Department of Labor, Bureau of Labor Statistics, Monthly Labor Review for the calendar year immediately preceding the applicable contract year. (By Petition)

Article moved and seconded.

Bill Dell'Orfano said this is a BTA petition. They feel this will give the School Board direction when they negotiate with the teachers next year, but it in no way limits the salaries of the teachers. This article provides moderation and a mandate to the School Board of what would be acceptable to the taxpayers.

Susan Krolikowski thinks we have a system that works. The School Board has always negotiated a fair and equitable contract. She suggests we vote this down.

Maureen Spector said their attorney's opinion is that the adoption of the article would not be legally binding.

Greg Joas thinks we should pay good teachers as much as we can. This cap isn't intended to limit any teachers' salaries.

Bill Dell'Orfano said they checked with the Attorney General, and he did not come up with the same opinion. Mr. Dell'Orfano also checked with two corporate lawyers who said it was not an illegal binding article.

Peter Hossman, Bracken Circle, thinks we can afford to pay our teachers a fair price.

Results of the ballot vote on Article VI showed 388 yes and 199 no.

Paul Remus moved to adjourn the meeting to 7:30 PM on Monday at McKelvie School; motion seconded.

Mr. Remus said the hour is late. He thinks we could take care of what is remaining because of the request for a secret ballot on Monday. He said he moved to adjourn so no one could move to reconsider.

Bill Dell'Orfano said that is a perfect example of the arrogance in this town.

Carl Sipe, Meadowcrest Drive, asked how can he put a motion on the floor when there is already a motion on the floor which hasn't been voted on. Moderator Van Loan said this one is in order and takes precedence.

Edith Schmidtchen said we have voting on Tuesday.

Greg Joas said rather than cancel the meeting since we only have one vote left, let's move the question and get the vote over with. Ann Remus asked if the petitioners would withdraw their motion for a secret ballot. Moderator Van Loan asked if Mr. Remus will withdraw his motion to adjourn, there will be no reconsideration on Article VI.

The petitioners agreed to withdraw their request for a secret ballot.

Mr. Remus withdrew his motion to adjourn; motion seconded.

Someone moved the question on Article VII; motion seconded. Vote on Article VII failed.

Motion made, seconded and passed to adjourn at 1 AM.

SPECIAL SCHOOL DISTRICT MEETING OCTOBER 5, 1989 MCKELVIE SCHOOL

A Special School District Meeting was held on Thursday, October 5, 1989. Seated on the stage were School Board Members Maureen Spector, Ann Remus, Margaret Comiskey, Mary Lou Wilson and Richard Mandeville. Also Dennis Pope, Superintendent of Schools; Ross Lurgio, Assistant Superintendent of Schools; Pauline Armstrong, Business Administrator; and Attorney Robert Murphy, School Counsel.

School District Moderator Eugene Van Loan, III opened the meeting at 7:55 PM and led the invocation and Pledge of Allegiance. There were 683 registered voters present. Due to the overflow crowd, both the cafetorium and the gymnasium had to be used. Moderator Van Loan went over the Rules of Procedure and read the warrant article:

To see if the District will vote to raise and appropriate the sum of Five Hundred Fifty Thousand Dollars (\$550,000.00) for the purchase of certain tracts of land, together with the buildings and improvements thereon, located off Tirrell Road and Preysnar Road in the Town of Bedford, County of Hillsborough, State of New Hampshire, consisting of sixty-five (65) acres, more or less, as described in a warranty deed from Pauline Dudka to Pauline and Stanley Dudka, dated February 10, 1966, and recorded in the Hillsborough County Registry of Deeds at Book 1869, Page 208, including architectural/engineering fees and any other items incidental to and necessary for determining the suitability of the site for future school construction.

The article was moved by Mrs. Spector and seconded by Mrs. Remus. Mrs. Spector spoke to the article indicating the School Board has searched for land for many years. She outlined the reasons for the confidentiality of the process. She said the Board had reviewed 35 pieces of land in the past one and a half years and entered into agreements for five parcels of land. She said this parcel of land met the following criteria: size,

location abutting school land, and the price is the lowest they have seen. The School Board signed a Purchase and Sale Agreement in August and petitioned the court for a Special School District Meeting. The seller would not agree to hold the land until the March 1990 School District Meeting. The School Board unanimously agreed if the land was suitable for a school site, it would be in the best interest of the School District. Preliminary site evaluation indicated the site is not what the Board had hoped for future school construction; therefore the School Board recommends a "no" vote.

Paul Goldberg moved the question. Moderator Van Loan did not accept that.

Ed Murphy, 8 Old Evergreen Road, asked how the people on the School Board could want to pay one million dollars for a parcel with so many acres of wetland.

Atty. Alex Kalinski, representing the landowners, said he is familiar with the land. His clients did not go to the School Board, but the School Board went to them. He said the appraised/assessed value really does not matter if you are talking a willing buyer/seller. He said the School Board placed conditions in the contract which protected them. These included a final engineering report indicating the site was suitable, a report from a qualified environmental engineer, Superior Court approval and approval of the School District Meeting. Atty. Kalinski said during the preliminary site evaluation, engineers went on the site for 15-20 minutes and concluded that of the 65 acres only 25 acres were useable. They didn't say the whole site was useless. He said the report clearly indicates if the Board chose to go further and do more detailed studies, it might be useful land. He thinks it is a good site. He said the price may be too high, but it was arrived at in fair negotiations. He said the Town may have missed an opportunity to buy a very good piece of land.

Ron Place, 14 Old Evergreen Road, thinks things went too fast. He thinks with proper negotiations, the Board will find a suitable piece of property. He commended the School Board for the decision they have made and he agrees with them.

Arthur Tucker, Park Drive, said we came here to vote, the School Board recommended no, he sees no reason to postpone and asked to move the question. Seconded. Voice vote on motion to proceed to vote passed.

Voice vote on the question of whether the District will vote to raise \$550,000.00 to purchase the property failed by an overwhelming margin.

Motion made, seconded and passed to adjourn at 8:30 PM.

s/Martha Harris School District Clerk

INDEPENDENT AUDITOR'S REPORT on Financial Presentation

To the Members of the School Board Bedford School District Bedford, New Hampshire

We have audited the accompanying general purpose financial statements of the Bedford School District and the combining and individual fund financial statements of the School District as of and for the year ended June 30, 1990, as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Account Group results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Bedford School District at June 30, 1990, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the School District at June 30, 1990, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles.
