Darling Husband,

I received
yours of the 29th & 30th Jan. and
it is such a dear kind letter
that it pays all up for those two
naughty ones. I might have known
you was out of tobacco or something
of the sort. And I should never
have answered that last in the way
I did if I hadn't had the tooth ache
most outrageously. But I went over
to Dr. Morse's last Thursday and let
him take it out. It was an ugly
old wisdom tooth and has been plagu-
ing me this six months. In the first
place he took an ugly looking instrument
I don't know what it was. I never saw
one used before and broke the top of
the tooth off. Then he had to dig ^{it} _{around}

Darling Husband,

I received

yours of the 29th & 30th Jan. and
it is such a dear kind letter
that it pays all up for those two
naughty ones. I might have known
you was out of tobacco or something
of the sort. And I should never
have answerd that last in the way
I did if I hadn't had the teeth ache
most outrageously. But I went over
to Dr Morse's last Thursday and let
him take it out. It was an ugly
old wisdom tooth and has been plagu
ing me this six months. In the first
place he took an ugly looking instrument
I don't know what it was I never saw
one used before and broke the top of
the tooth off. Then he had to dig around^d
it clear to the jaw bone he said

The digging operation lasted about fifteen minutes and then he took hold with his forceps, and then it kept breaking and he would get a better hold by pushing the forceps down farther and finally after considerable pulling he made out to extract it, and found there was a little hook on the end of the root that was hooked under the jaw bone. I was very sick ^{all} that day, but have felt like a new one ever since. I havent been so well three days in succession for six months as I have for the last three days. I begin to think it was the whole cause of my throat-complaint

No. I will not scold you for not saving your money, but I am sorry if you have not been as saving as you could and think you will be as sorry as I am, sometime. I shouldnt be at all

No, I will not scold you for not saving your money, but I am sorry if you have not been as saving as you could and think you will be as sorry as I am, sometime. I shouldnt be at all surprised if you were never paid off

again. It has been ascertained that there has been more money spent during this ~~war~~ ^{administration} than has been accumulated during the whole life of the nation. So it is very plain to be seen who will grow rich out of this war. It is not the poor soldier that's certain (I did not intend this as the forbidden subject) It is so dark I can't see the line, so I will wait till the lamp is lighted

I havn't had any money but my three dollars a week which I receive from the State for some time and that goes for our board,

I have got about eight-dollars in silver and halves and quarters which I wish to keep very much, for people I wish to keep very much, for people think paper money will not be worth much by and by. You ^{know} I let Lewis have the first \$3,000 and perhaps

I have got about eight dollars in silver ~~and~~ halves, dimes and quarters which I wish to keep very much, for people think paper money will not be worth much by and by. You ^{know} I let Lewis have the first \$30,00 and perhaps I can get some of him when I see him

I suppose you have heard that -
we are obliged to use scrip around
here ~~the~~ same as they do "down
south". Everything is very dear
here. Everything in the name of prints
are 25-cents per yd. White cotton
cloths are between 0.40 and 0.50 cents
per yd. We bought a barrel of flour
last week not very nice, and paid
\$10.60.

Well darling I feel as though
I wanted to help you very much,
and yet I feel just as though I ~~had~~
ought ^{not} to, as though I ought to keep
it all for the children's sake. If I
could only get something to do to earn
something I shouldn't hesitate a moment.

And this I mean to do before long
if it is a possible thing.
if it is a possible thing. " " "

I should like to write to Mrs.
Haynes first rate but I am afraid
she is kind of nice, and will think

I should like to write to Mrs. Haynes first rate but I am afraid she is kind of nice, and will think strange, or will not wish to get

acquainted with one. If I knew
just-what-kind of a lady she is I
should know what to do. Did you
ever see her picture? I guess she is
pretty, with blue eyes and light-hair
and younger than I am and has no
children. And I guess she is about
as large as Reuf. Smiths wife. And
I guess Mr. Haynes looks a little like
Jim Hall and is a little like him
only he knows more. And I know
he is good

And now I am going to close
for this time and write to your mother
I havnt-written to her since the
battle that-you were in. I havnt-said
one word about-our babies. They are
well and are both pretty good children
and learning quite fast this Winter

Mother has not been very well for some time but is better to-day. Father

is sick to-day. I have written twice
to Joseph and have received no
answer so I have not heard from
him only by the way of your mother

Good night - precious, write often
if you don't have anything to write

Your own as ever
