Having been appointed Auditor at the last Annual Town Meeting would say that I have examined the books and vouchers of Alonzo Weeks, Town Treasurer, and find his accounts correct, and that he has the proper orders and vouchers for all sums paid out.

I have also examined the books and papers of the Selectmen and find they have kept a correct record of all orders they have issued and that they have receipted bills for amount of each order given.

I find that the note reported among the liabilities of the town last year as due Geo. Leslie or bearer, \$1607.13 was paid March 1st, 1870. No record of the fact being made on the note book of the town and the Auditors of 1870-71-72-73 and 74 having reported it as due, I had supposed it still unpaid and have so reported it for two years past, but the fact of its being paid by the statute of limitation led me to go "behind the returns" of my predecessors in office and I find the facts as above reported.

O. G. HALE, Auditor.

Littleton, N. H., March 1st, 1877.

## REPORT OF THE COMMITTEE

Upon the matter of the P. & O. R. R. with the Town of Littleton.

---

Your Committee respectfully report that pursuant to instructions given at a town meeting held July 11, 1874, they commenced a suit at law, August 30, 1875, returnable to the Sept. Term of Court in this County, in the name of the Town against the P. & O. R. R., to recover money expended by the town in obtaining a charter and making surveys. Immediately after the commencement of said suit at law, the committee commenced a suit in Chancery in the name of the town against the P. & O. R. R. and obtained a temporary injunction to restrain the said road from building a section of two miles from Scott's Mills to the west bank of Connecticut River and they bought five shares of the capital stock of the P. & O. R. R. and transferred three shares of the same to Geo. B. Redington and commenced a suit in Chancery upon the same in his name as a stockholder (there being a technical objection to bringing this action in the name of the town) and obtained a temporary injunction to restrain said Road from building said section of two miles; this suit being wholly for the benefit of the town it was agreed that the town should pay all the expenses of carrying it on. The Court having ordered bonds in a large amount in both of said Chancery suits, they were obtained upon individual responsibility, and thereupon the work of building said section of two miles of Road was arrested.

H. C. Redington & Co. also having claims against said road brought two suits at law at the same term of Court in their own behalf and at their own expense, and it was agreed that the two parties should cooperate in prosecuting said suits and render mutual assistance. At the Sept. Term of Court, 1875, after a partial hearing on said suits in Chancery the managers of said Road

asked for terms of settlement and the withdrawal of the suits and injunctions. The Committee after full consultation and discussion with the managers of said Road concluded to take \$1200.00 which it was then thought would reimburse the Town for all money paid out. A settlement was also made between H. C. Redington & Co. and the Road by which said Road was to pay them \$750.00 including costs. While this negotiation was pending the agents of an association of 24 individuals who had purchased a farm in the town of Carroll commanding the right of way for said Road in the direction of Whitefield and Dalton made a claim upon the Town for reimbursement on account of the depreciation in the value of said farm and insisted that this claim should be adjusted in the settlement, on the ground that said association had purchased said farm for the sole purpose of aiding the Town in compelling said Road to build through Littleton according to its charter. The Committee knowing said claim to be equitable made a claim for an additional sum of \$300.00 upon said Road which they agreed to pay. Thereupon it having been agreed by said Road to pay said several sums of \$1200.00, \$750.00 and \$300.00 in full satisfaction for all the suits, injunctions and costs, which was paid by a single draft for \$2250.00 on the Treasurer of the Road endorsed by the managers individually to the order of the Committee for the convenience of all concerned in collecting, and upon the collection of the draft \$750.00 was paid to H. C. Redington & Co., \$300.00 was paid to the agents of the Carroll farm association, and \$1200.00 was disbursed by the Committee for expenses and paid over to the Town Treasurer agreeably to the annexed statement.

The basis of this settlement and one purpose for which it was made was, that there was a negotiation pending between the P. & O. R. R. and the B. C. & M. R. R. for the latter to draw the cars of the other road between the Fabyan Place and Scott's Mills, and that one object of the P. & O. Road in settling said suits was to enable them to enter into an agreement with the B. C. & M. Road to draw their cars between those two points, and another was to enable them to make a connection with the Vermont divisions of said Road to aid them in selling their bonds upon the consolidated line, which they were then in negotiation

to do and in consideration of the withdrawal of the said injunctions the P. & O. Road agreed to give to the Littleton interest an equitable tariff for freights and passengers so far as they might be able to do by completing said arrangement with the B. C. & M. Road.

That said arrangement was completed and a tariff fixed which resulted in a reduction of freight from former rates averaging \$471.40 per month for the last half year of 1876. That a connection of trains to accommodate the freight and passenger traffic was arranged and maintained for the accomodation of the Littleton interests and the public at large till some time last fall when it was broken off by the P. & O. Road contrary to good faith in carrying out their arrangements as herein stated.

The Committee pursued the matter before the Courts far enough to determine in the minds of both parties—plaintiffs and defendants—that the Court would hold that the P. & O. R. R. had no right by law to build their road in any other direction than through Littleton; they also became satisfied that there was a willingness on the part of the B. C. & M. R. R. that the P. & O. R. R. should make a connection with that road at Scott's Mills in the direction from the Connecticut River in Dalton as before mentioned, coupled with a proposition on the part of the B. C. & M. R. R. to draw the cars of the P. & O. R. R. between the Fabyan Place and Scott's Mills, under a temporary arrangement, and the committee concluded that it would be useless for the town to contend against such a connection and thereby incur larger expenses and more risks, and forego the opportunity of recovering by compromise money enough or nearly enough to pay expenses already incurred and in view also of what seemed to be the fact, that whatever amount might be obtained in judgment against the P & O. R. R. there would not be anything found wherewith to satisfy it, which impression now appears to be entirely correct. The Committee append to this report a statement marked A accounting for the money which they have received and expended, also a statement marked B showing the expenditures by the town and the amount recovered, resulting in a balance of \$541.59 expended more than recovered back in offset to which there has been an advantage gained of a reduction on

freights coming to Littleton Depot aggregating \$5657.88 per year according to the monthly average before stated.

The Committee recommend that the Town keep a careful watch over this interest to maintain the benefits already obtained and improve such further chances for like benefits as may occur.

GEO. A. BINGHAM, } Committee
