FRANK O. MORSE, *Treasurer.*

Hebron, February 27, 1883.

Having examined the foregoing accounts of the Selectmen and Treasurer of the town of Hebron for the year ending March 1st, 1883, we find the same correctly cast and duly vouched and the result as above stated.

CYRUS MOORE, } *Auditors.*  
W. C. ROSS, }

REPORT  
OF THE  
SUPERINTENDING SCHOOL COMMITTEE  
OF THE  
TOWN OF HEBRON,  
FOR THE YEAR ENDING MARCH 1, 1883.

---

DISTRICT No. 1.

No school.

UNION DISTRICT No. 1.

MARY A. MORRILL, teacher. Length of term, 10 weeks. Whole number of scholars, 7. Average attendance, 6. Wages per month, including board, \$20.

At my visit near the commencement of the term, the school appeared well. The teacher was prompt and energetic, and there was a prospect that her pupils would receive thorough instruction. In consequence of a sprained ankle, much to my regret, I was unable to visit the school at its close, but have heard a favorable report of it.

DISTRICT No. 2.

The sessions of the school were held in the school house of District No. 3. GRACE E. WHITCOMB, teacher. Length of term, 8 weeks. Whole number of scholars, 12. Average attendance, 10. Wages per month, including board, \$18.

## DISTRICT No. 3.

GRACE E. WHITCOMB, teacher. Length of term, 10 weeks. Whole number of scholars, 14. Wages per month, including board, \$17.80.

In each term of the above schools, Miss Whitcomb applied herself dilligently to her work, and favorable results were apparent in the examinations at the close. By the arrangement to have the two terms in one school house, the scholars received the benefit of 18 weeks' schooling.

## DISTRICT No. 5.

The first term of 9 weeks was taught by CELIA A. JEWELL. Whole number of scholars, 29. Average attendance, 26. Wages per month, including board, \$22. The exercises of the examination indicated good work on the part of teacher and pupils. The compositions were of special interest.

The second term of 8 weeks and 4 days was taught by Mary L. Colburn. Whole number of scholars, 36. Average attendance, 30. Wages per month, including board, \$26. Miss Colburn is well qualified to teach; and, so far as I can judge, good progress was made. But the school closed abruptly as the teacher was unexpectedly called home on account of sickness in her father's family. Consequently there was no opportunity for an examination.

The number of scholars who have attended to the various branches taught in our schools, is as follows: 53 have attended to reading; 57 to spelling; 32 to penmanship; 34 to arithmetic; 28 to geography; 13 to grammar; 7 to composition; 2 to history; 3 to book-keeping; 5 to algebra; 4 to physical geography. Twelve have attained the distinction of having their names inscribed upon the Roll of Honor.

It is believed that the work accomplished in our schools the present year will compare favorably with that of previous years.

It is too often the case that children suffer loss in consequence of being kept from school to work at home or elsewhere. Parents do not realize the injury thus done them. They lose that which is more precious than gold. The idea of their making up lost time by and by is a delusion. It cannot be fully done.

It is a matter of regret that our schools are generally so short. It is a question worth considering, whether we are wise in limiting ourselves to the amount of school money required by law. Might we not render a good service to our children, and to the State and nation, as well, by the assessment upon ourselves of an additional tax? In fact, many of our youth will get all their schooling in the district schools. Unquestionably, the more thorough and extensive their education, the better will they be prepared for the activities of life; to fill positions of responsibility, "to serve their own generation."

J. B. COOK, *S. S. Committee.*
