HEALTH OFFICERS REPORT

The annual report for the town of Lebanon for the past year shows there was a considerable number of diptheria and scarlet fever cases, with no fatalities, while West Lebanon has been free from any infection. The sanitary conditions of the town are rapidly improving.

Monthly reports of water analysis show the water from the Lebanon supply good organically and bacterially, with a slight turbidity, while the West Lebanon supply shows considerable turbidity and has a pronounced vegetable odor and contains an excess amount of vegetable matter.

Reports of milk analysis from 20 of the dairies that supply the town show the milk to be up to standard.

H. B. HAZEN, M. D., Health Officer.

After each sample taken, the stables and milk rooms have been inspected in regard to sanitation and the proper technique of handling milk.

After this inspection a report is furnished in the form of a score card upon which there are four headings with a possible count of 100 under each head, or a total of 400. Some of the producers have necessarily been cut on account of the old buildings used for stables, although these have

been remodeled considerably to allow the required amount of light and ventilation.

Under the score card I have used, a score of 380 or above is producing *Excellent* Milk; while 350 or above is producing *Good* milk; or 300 or above is producing *Medium* Milk; and below 300 is producing *Poor* Milk.

From our last analysis of milk along with the inspection of premises as above stated, the report is most gratifying as the premises show a marked improvement over the other two inspections in regard to sanitation, light, ventilation, etc., while the report from the analysis of the milk made at Concord shows an improvement of over 50 per cent from the first samples taken. Under the above scoring there is no producer in Lebanon producing *Medium* or *Poor* Milk, it is all under the head of *Good* and *Excellent*, and well up to the standard in fats and solids. The West Lebanon dealers have also been taken care of.

The owners of one or two cows who are selling milk have had their stables inspected and methods of handling milk corrected when at fault.

W. B. MOWERS, Milk Inspector.

Our library is ambitious to serve the schools, clubs, and the private citizens. To do this requires keeping all departments of the library up to a standard of excellence. That the student may find the help most needed. That the readers may find books that are clean minded, fresh and readable, and that the little children are started on the right course in their reading. To do this the library needs the loyal support of our citizens.

Respectfully submitted,

EMMA M. MORRIS, Librarian,

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Board of Education,
Town School District,
Lebanon, N. H.

Lebanon, N. H.,
Feb. 18, 1922.

Gentlemen :

You realize that a formal report on the Schools of the Town School District by the Superintendent to the Board of Education is in reality a letter to the Public, as you as a Board are well aware of the facts which I shall endeavor to set forth, but as this report is one of the few channels by which the public may secure information it seems best to follow the custom of publication.

The New School Law

which was passed by the legislature of 1919 was revised slightly in 1921. First by fixing the salary of the Superintendent of Schools to be paid by the State at \$2,000.00, the Union to bear any necessary increase, and second by necessitating the district applying for state aid to raise \$5.00 on each \$1,000.00 of the *equalized valuation* instead of the *inventory*, both amendments placing a little more obligation on the respective districts instead of on the State.

The expressed reaction on the districts indicates nearly universal satisfaction and the general attitude is one of harmony and content. Our educational law passed by the legislature of 1919 has been put to a severe test in nearly every particular and accepted as free from defects as could reasonably be expected. I am sure that the Town School District is in better condition today than it would have been had not the new law been put into operation and our prospects for future development appear to be very favorable.

Aid

We received about \$3200.00 aid from the State this year and will, I understand, receive the same amount next year.

The fact that we are now able to forecast State Aid will enable us to raise adequate money more intelligently this year.

Teachers

Our average teacher's salary for 1920-21 was \$744.44 and for 1921-22 was \$783.09 or only a 5 per cent increase. Personally I am somewhat chagrined to publish these figures for they show one of two facts; that we either have engaged the services of teachers unfitted for their profession or have taken undue advantage of good teachers who by virtue of circumstances desire to remain in the service and are obliged to live near their residence. I hope no one will try to "read between the lines" as there is nothing written there, for I am in general pleased with our present corps and if they are satisfactory to the district ought we to take advantage of circumstances which require home employment?

I am in hope that the time will speedily arrive when we can have a normal trained teacher, or at least one who holds a state certificate, in every school in the district, and in

addition can be reasonably certain of at least two years' service. Such an arrangement would cause an increase of about 30 per cent over our present teachers' schedule.

Our teachers in general are doing splendid work with the preparation received and undoubtedly many are doing better work than some normal trained and certified teachers would do, but it is almost impossible for our teachers to lay aside enough money for professional advancement on the salary they are now receiving and nearly all would be 100 per cent more efficient were it possible for them to take regular normal school course if only for one year. Let us not make our schools practice stations but institutions that are more aggressive than at the present time. I hesitate to publish this section of the report for fear our teachers and friends will read "dissatisfied." NO! simply this—give our teachers a better chance for professional advancement and require at least regular attendance at the summer Normal Schools.

New Schools

- The school buildings located at Butmanville and Poverty Lane were repaired and reopened this fall with a registration of about 20 pupils at the former and 13 at the latter. The opening of the Butmanville School reduces the tuition bill at West Lebanon by about \$300.

With the registration at present it is certainly advisable to continue these schools.

I wish to thank you for the co-operation and interest which you have expressed during the past year, endeavoring to make the schools of the district more effective and aggressive.
