REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Sullivan:

I herein submit my seventeenth annual report as superintendent of schools.

The American system of public schools is today facing the greatest challenge of a century in the scholastic training of its youth during the formative period of life.

For half a century, to my knowledge, we have heard echoing down the stream of education the slogan "Back to the Fundamentals."

Admitting that this slogan has laid a firm foundation for our educational structure and also that it is highly essential today, yet we note in the rapidly changing conditions of the world greater emphases must be placed on the preservation of American institutions.

Indeed, our pupils must drink more deeply and more freely from the fountain heads of Liberty and Freedom, viz., the Bill of Rights and the Magna Charta of English history and from our own Constitution.

It may be true that the pupils under a dictatorship are as well trained in the so-called fundamentals but they do lack the major part of that education which is needed for citizenship under our form of government. Democracy's slogan is onward to the most helpful conditions of living for the masses and of opportunity for participation in a democratic society. The founders of our republic believed education essential to the success of democracy. The experience of a century and a half in representative government confirms that belief so strongly that we may say without fear of contradiction that "Our public schools are our first line

of defense"; "Our education is the bulwark of the citadel of Liberty."

When the cataclysm of arms in Europe has spent itself and we approach the world-wide renaissance of modern living, we must have our leaders prepared. They must be endowed with the highest type of citizenry, a type which implies the closest cooperation, supplementation and coordination of three vital elements of society, viz., the school, the home and the church.

History tells us that in all great emergencies the great bulk of leaders come from rural sections of the country. Let us hope Sullivan may furnish its quota.
