FRANK L. SWEATT, Treasurer.

We have examined the accounts of the Selectmen and Treasurer and find them correctly cast and properly vouched.

GEORGE LITTLE, }
 THOMAS J. COURSER, } Auditors.

School Report.

Your School Board respectfully submit the following report.

We have maintained seven schools during the past year of two terms each. Summer term, nine weeks; Fall term, twelve weeks. The entire amount expended for support of schools, not including text books and repairs, was \$792.87.

PUTNEY HILL.

Summer term, Georgia M. Emerson, teacher. Wages per month, including board, \$22.00. Number of scholars, 10; average attendance, 8. Miss Emerson is an experienced teacher and succeeds in gaining the good will of her scholars in a marked degree. A profitable term. N.

Fall term, Effa A. Burbank, teacher. Wages same as above. Whole number scholars, 15; average attendance, 13. The district was fortunate in securing the services of Miss Burbank. Order was excelent, while thoroughness in instruction in all branches was manifest at the close. N.

PLEASANT STREET.

Summer term, Ellen M. Eastman, teacher. Wages per month, \$18.00. Number of scholars, 6; average attendance, 5. This was Miss Eastman's first term. A good degree of improvement was manifest at the close. N.

Fall term, Hattie A. French, teacher. Wages, same as above. Number of scholars, 11; average attendance, 7. This was Miss French's first term. Your committee was not able to be present at the close, but from what we could learn the school was a profitable one. N.

SWEATT'S MILLS.

Summer term, Emma P. Fitz, teacher. Wages per month, \$22.00. Number of scholars, 8; average attendance, 8. This was Miss Fitz's third term in charge of this school and she continued this term her good work of last year. D.

Fall term, Georgia M. Emerson, teacher. Wages, same as above. Number of scholars, 10; average attendance, 9. Miss Emerson labored hard for the interest of her scholars and good progress was made in all of the branches pursued. D.

LITTLE'S HILL.

Mary R. Webster, teacher for the year. Wages per month, \$20.00. Number of scholars, 5; average attendance, 5. Miss Webster is one of our most experienced teachers and needs no commendation from us. Suffice it to say that she met with her usual success in the conduct of this school. D.

BASHAN.

Mary B. Folsom, teacher for the year. Wages per month, \$22.00. Number of scholars, 16; average attendance, 14. Miss Folsom came to this school well recommended and fully sustained her reputation as a successful teacher. Good order with good instruction combined to make a good school. H.

COURSER HILL.

Rosetta R. Sanborn, teacher for the year. Wages per month, \$22.00. Number of scholars, 16; average attendance, 14. A great amount of work was accomplished in this school. Thorough instruction in the branches pursued and promptness in recitation reflected great credit to the teacher. Interested parents and bright children did much to make this one of the best schools in town; but we are of the opinion that it would be a very dull, bad school which would not be a success under Mrs. Sanborn's instruction. H.

WHITE PLAIN.

Summer term, Helen M. Clark, teacher. Wages per month, \$18.00. Number of scholars, 6; average attendance, 4. Miss Clark was interested in her school. Reading was taught with more than usual success. H.

Fall term, Emma P. Fitz, teacher. Wages, same as above. Number of scholars, 6; average attendance, 4. It was fortunate to secure the services of one of our very best teachers for so small a school. The term was of great profit to the pupils who attended. H.

ROLL OF HONOR.

The following pupils have not been absent during the year.

Harry C. Hanson,	Lewis H. Blanchard,
Carl Chase,	Annie H. Holmes,
Elmer B. Gerrish.	

The following have not been absent during one term.

Alice A. Tilton,	Arthur Chase,
Bert C. Tilton,	Hattie G. Gerrish,
D. Lawrence Holmes.	

Teachers who have earned a place in first rank by faithful work in the schools in town and those who have a well established reputation have been employed whenever it has been possible to secure their services with the limited amount of means at the hands of the school board.

Some of the smaller schools have been supplied with teachers just commencing in school work, willing to give their best services for a small compensation and ambitious to earn a reputation which will secure them better pay in the future. While they sometimes find they are better calculated for some other occupation than that of a teacher, it is often safer to risk the school in the hands of a beginner than try a teacher whose only recommendation is that they have had experience.

It is much to be regretted that our state which is expending large sums of money to graduate Normal School teachers, quite a proportion of whom are engaged in the schools of Massachusetts, should not think it best to establish a training school in some academy in each county in the state where our boys and girls, while acquiring their education, could also become thoroughly acquainted with the best methods for the instruction and government of the district school.

The cutting away of valuable timber lots, and the depreciation in the value of other real estate, has greatly reduced the amount of money raised by law for school purposes and although something has been added to the literary fund, still the amount obtained for schools falls considerably short of the amount secured in former years.

Most towns have found it necessary to raise an additional sum than that required by law for the support of schools. Should Webster think it best to raise \$200.00 more than just what the law requires it would give three terms of nine weeks each, instead of twenty-one weeks for the school year.

With the valuation of the town the same as last year, it would require a tax of less than seven cents on one hundred dollars to secure that amount.

Most of the schoolhouses are in good condition, but with the exception of the one at Sweatt's Mills, they need painting on the outside. Several could be greatly improved by paint and paper on the inside.

DANIEL G. HOLMES,	} School Board	
HENRY DODGE,		of
JOSEPH H. NOYES.		Webster.

Webster, N. H., March 1st, 1893.

Treasurer's Report.

There are several bills against the district remaining unpaid which when settled will reduce the unexpended balance to less than \$50.00.

Respectfully submitted,

HENRY DODGE,

Treasurer of the District.

Having examined the foregoing accounts of the Treasurer we find the same correctly cast and properly vouched.

T. C. SWEATT. } Auditors of
THOMAS J. COURSER. } the District.

TO THE SELECTMEN: In compliance with an act of the Legislature passed June session 1887, requiring clerks of towns and cities to furnish a transcript of the record of births, marriages, and deaths to the municipal officers for publication in the annual report, I hereby submit the following:

CONCORD, N. H.

ONE PRICE CLOTHIERS.

SEP 03 1993

W. A. Thompson's, Shoe Store, Phenix Hotel Building.

Call and see us and you will find bargains that you will appreciate. Our subject today is good shoes. Why do we say good shoes, you ask? Because there seems to be at present a strong rivalry among the shoe dealers as to who shall name the lowest price for poor shoes. Excuse us therefore if we do not enter the contest, but confine our remarks to shoes that are dependable in every way. Circumstances may occasionally compel a man or woman to buy poor shoes, but unless compelled to no man or woman should, or can afford to expend hard earned dollars for shod-

dy shoes that will invariably prove dear in the end. Before buying your spring shoes, we invite you to look at our specialties which are fully 25 per cent less than regular prices on first class shoes. We have two floors devoted to the display of shoes and if you will call on us we will show you a rousing array of bargains.

Yours Respectfully,

W. A. THOMPSON.
