

# 114 ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31, 1969

# City Of Dover, New Hampshire Annual Report

## CITY MANAGER

Honorable Mayor and members of the City Council and citizens of the City of Dover, New Hampshire:

In order that you may become better acquainted with some of the activities and achievements of your local government during the past year, it is my privilege and pleasure to present to you the Annual Report for the Year 1969. This Report is as comprehensive as space will permit. Complete records are kept at City

Hall and are available to the public. It is my hope that anyone interested will feel free to examine these records.

I wish to thank the City Council, Department Heads, Boards and Commissions and all City employees for their help and dedicated service to the City of Dover in 1969.

Respectfully submitted,  
Donald E. Chick  
City Manager

## CITY COUNCIL

The City Council during the year of 1969 participated in the following legislative sessions:

- 24 Regular Meetings.
  - 6 Special Meetings.
  - 11 Public Hearings.
- One of the many functions of the Council is to introduce, amend, pass or repeal ordinances and adopt resolutions. In 1969, the City Council passed 32 ordinances and adopted 110 resolutions. In addition, there were many petitions and commun-

ications presented to the Council for consideration.

The Council annually gives of its time and efforts. They are available to their constituents by phone or personal contact to listen to their suggestions and complaints, they attend various meetings and public functions and serve on various boards and commissions.

Our Dover City Council must be considered a very vital part of the City and are to be commended for their untiring efforts.

## CITY ATTORNEY

The following is a report of the Legal Department of the City of Dover for the period beginning May 1, 1969 and ending May 1, 1970:

The City received a favorable decision in the case of Michael & Antoinette Renzi v. City of Dover. This involved a suit for damages for the City's alleged activity resulting in the lowering of Barbadoes Pond. The case was heard by a Master who rendered a verdict in favor of the City. His action was later approved by the Strafford County Superior Court.

The case of John A. Davy, v. City of Dover, challenging the powers of the City under our Housing Ordinance, is still awaiting hearing by the New Hampshire Supreme Court.

My regular duties throughout the year have in-

cluded attending meetings of the City Council and the prosecution of criminal cases in Dover District Court. In the past year there has been expanded legal activity in relation to collection of accounts for the Public Works and Water Department; updating and amending various ordinances for the Planning Department; continued activity by the Housing Standards Board, negotiation and approval of contracts for the Public Works, Water Department, and City Clerk's Office; labor and personnel problems with Public Works, the School Department, and Wentworth Douglass Hospital.

Respectfully submitted,  
Anthony McManus  
City Attorney

## CITY CLERK AND PURCHASING AGENT

The City Clerk's office, during the year ending December, 1969 showed that it set up 24 Regular Meetings, six Special meetings, 11 Public Hearings, offered 110 Resolutions and 32 Ordinances on the various agendas. The City Clerk attended all of the combined 41 meetings listed above.

A recap of revenues showed that they ran very close to expectations and that the Uniform Commercial Code Financing Statements registrations were good.

A new feature put into effect in 1969 was a basic file on all City Contracts on projects and the same for a "Plans and Specifications file." This enables anyone to immediately pick out any given contract or drawing with a minimum of searching effort. In the process at the present time (1970) is a plan to catalog all "writs and deeds" for easier searching.

The following is a list of Vital Statistics for the past four calendar years.

	1969	1968	1967	1966
Birth records	647	624	618	565
Marriages	247	218	264	283
Deaths	300	301	268	270
Revenues were received in 1969 as follows:				
Dog Licenses	\$2,793.85			
Pool & Bowling Lic.	193.00			
Tax Licenses	352.00			
Marriage App.	702.00			
Other recording fees	2,540.85			
Other registration fees	490.00			
Other	405.00			
<b>Total</b>	<b>\$7,481.70</b>			

## HOUSING BOARD

REPORT FOR PERIOD 7 May to 7 July 1970

In this period the Housing Board consisted of Health Officer, Dr. Max Winer; Housing Inspector, William L. Ramsden; and, Fire Chief Fred Gilpatrick.

Two meetings were held and twenty-five cases were discussed. 16 cases were physically inspected. One was condemned and three were razed. Six miscel-

laneous complaints were investigated. Seven pending cases were closed. 124 physical inspections were made by the Housing Inspector. This constitutes the total activity for the period aforementioned.

William L. Ramsden  
Chief Housing Inspector

Dr. Max Winer  
Health Officer

## HEALTH DEPARTMENT

Donald Chick  
City Manager,  
John Maglaras, Mayor  
Members of the City Council.

Gentlemen:  
The Dover Health Department has been active in promoting sanitation in the best interest and health of the community. In this respect, emphasis has been placed on the sanitary production and distribution of food in Dover.

The grocery stores, and eating establishments were inspected periodically during the year, and recommendations were made pertaining to sanitation and public health. It is in my opinion that the overall sanitary conditions of restaurants in the city are considerably in good sanitation order. The State Board of Health has given Dover, a clean record pertaining to its eating establishments.

The State Board of Health was very cooperative to the Dover Health Department, as was the Laboratory Services Section, relative to the testing of Rabies in animals brought to them.

The Dover Health Department wishes to cite the cooperation of the departments of the city agencies for their help during the year. We would also like to thank the radio and the newspaper for their help in announcing and printing of vital news.

Respectfully submitted,  
Dr. Max Winer  
Health Officer

Gas Pumps tested and sealed 127

**REVENUE TAKEN IN AND DEPOSITED WITH CITY TREASURER**

STATE HEAD TAX. Original Warrant for 1969 was \$48,305. Mailing of 7362 combination cards and 2299 Head Tax cards was completed on July 2, 1969. As of December 31, 1969, \$31,005 plus \$14,865 of prior years had been remitted.

POLL TAXES. Original Warrant was in the amount of \$1470. On December 31, 1969, \$9354 had been collected plus \$6038 on prior year's levies. Courtesy notices are mailed out in April, property is posted in June for any unpaid Head & Poll Taxes and Motor Vehicle Dept. advised on the same.

MOTOR VEHICLE PERMITS. — The year 1969 saw \$191,347 paid for vehicle registrations or over 16,000 permits issued in Dover. The additional paper work relegated to the Tax Collector by the Bureau of Title bears no additional compensation with a good 50 per cent of collection office time spent in trying to educate the public to the Vehicle Title Law. As with any new program, on the State level, the Title Law has many aspects and it is hoped that the vehicle registrant will seek any necessary information at the Tax Office.

REDEMPTIONS. Partial payments may still be made on the Tax Lien inquestion. For the year 1969, \$61,343 was paid in plus \$2894 in interest (8 per cent).

TAX SALE. Posting date was on June 17, 1969, 241 parcels were posted for \$110,179. This was reduced on Tax Sale date of July 18, 1969 to 148 parcels for \$74,017.75. City of Dover was the purchaser at the Tax Sale.

WATER DEPARTMENT. Other than Sewer Liens, all payments are made at the Tax Office. This includes Meter rates, Maintenance, Industrial, educational, new service, etc. Total collected was \$324,593. Breakdown of the above is reflected in Comparison of Collection portion of this summary.

STATEMENT OF EXPENDITURES. Budget was set at \$14,629 for the four areas of service. The actual amount expended for the year 1969 was \$14,156.

SUMMARY 1. Tax Deeds will be promptly executed upon the expiration of the two-year redemption period.

2. Accurate computation of interest before and after the Tax Sale will continue. Revenue from this source will increase as result of increase in rate this year.

3. Control of Head and Poll Tax Warrant with monthly abatements submitted will be in effect.

4. Close cooperation with mortgages on unpaid prior property taxes has been a must.

Ladies' slimstastic classes were held on Tuesday evenings with a large turn out. The evening consisted of supervised exercises and games with swimming to end the evening.

On Wednesday evenings the Center was available for men to participate in volleyball and use the recreation facilities and pool.

Children were conducted by Bob Sager for adults one evening a week.

Various organizations such as the Campfire Girls, 4-H Club, Tops Club, Babe Ruth League, Little League, Stamp Club, Soap Box Derby, etc. made use of the meeting rooms available at the Center. The center closed for the summer months to reopen again September 8 for a busy winter schedule.

Spring brought forth the annual maintenance and reconditioning work scheduled for the Park crew. This involved painting settees, picnic tables and readying playground equipment. The playgrounds opened the last week of June with seven supervisors in charge of playgrounds at Henry Law Park, Mt. Pleasant Park, Garrison Playground, Woodman Park, Mineral Park, Horse Street Playground and Hancock Park. These playgrounds are supervised daily from 9:00 am to noon and 1:00 pm to 4:00 pm by directors who organize field trips and organized games for attendees. Each park receives arts and crafts instruction once a week by Mrs. Maryann Lucas.

Various other programs included softball leagues for older boys, talent shows, arts and crafts contests, Olympic events and other informal activities. There was an overnight camp held at Bellamy Park on alternate evenings for boys and girls of all playgrounds. The evenings were enjoyed by all the children in spite of chilly weather. The season ended with a trip to Canobie Lake Park by over 400 playground children. During the summer months the children of all playgrounds held a fund raising campaign during the Downtown Dover Days selling home-made pastries, tonic and candy to raise money for the Canobie Lake outing at the end of the season.

Mr. Greg Kagelery was Park Co-ordinator who supervised all playground activities and organized a summer basketball program for teenage boys which was very successful.

Mr. John Casey conducted free tennis lessons for school-age children interested in tennis at Woodman Park Tennis Court. Various tennis tournaments were conducted during the summer months with the co-operation of the Sherwood Tennis Club.

The Fourth of July Program started with the first annual indoor swim competition with over 100 children participating. Over 1500 people turned out for the annual Independence Day Celebration at Woodman Park, where field events and hot dogs, ice cream, potato chips and tonic were enjoyed. There was a record high in the evening prior to the fireworks for teenagers. The celebration ended with a large fireworks display observed by fourteen to fifteen thousand people.

Another program in which the Recreation Department helped was the Minor League Baseball in which boys eight to twelve years of age compete in organized baseball games. These youngsters were treated to a Major League Baseball game in Boston and a field day at the end of the season.

The indoor swimming pool was used by many Dover residents which was made available to the City of Dover by the Judson Dunaway Foundation. The pool is staffed by two full time instructors, plus many part-time instructors and life guards. The pool and instructors were made available to all 7th and 8th grades in the city as part of their physical education program. There were swimming teams organized by Miss Karen Murphy, an instructor at the pool. Junior and Senior life saving classes were given to applicants seeking certification. There were over 600 free swimming lessons given by qualified instructors at the indoor pool. Over 20,000 swimmers made use of the indoor pool during the months of July and August.

Bellamy Park was open for the full season of 1969 and was very well attended.

At the end of the summer season, the Park and Recreation Department was busy storing playground equipment for the winter months and readying the Garrison Hill Ski Area by grading the slopes for the upcoming 1970 season. A new shelter was constructed for the motor of the rope tow and a new rope tow installed. The season opened for the Christmas School Vacation with excellent conditions and a very large attendance. The ski area was supervised by volunteer help who worked many long hours for the benefit of Dover's skiers.

The many volunteers and organizations that assisted the Park and Recreation Department throughout the 1969 season made it a very successful year for Dover residents.

Respectfully submitted,  
Robert Butterfield  
Director of Parks & Recreation

## ECONOMIC COMMISSION

Transmitted herewith is the Fifth Annual Report of Economic Director Clarence E. Chase, showing the continuation of industrial and commercial growth in Dover during 1969.

The Economic Department is the only city department which produces substantial amounts of new revenue for the city. New industry obtained by this department, in addition to providing jobs, pays in property taxes many times the cost of the department and the services required by the industries.

Other cities are following the examples set by Dover, Portsmouth and Manchester. During the past year, both Concord and Claremont have added municipal Economic Departments, recognizing that economic development requires an experienced full-time professional man. For example, it required all the knowledge and ability of Mr. Chase to obtain the new General Electric plant for Dover. Professional negotiations are absolutely essential in the highly competitive world in which we live.

The new City Council is faced with two serious obstacles to economic expansion. Mr. Chase has resigned and a new Director must be obtained. We must recognize that this is a highly competitive field, and experienced men are receiving high salaries which this work deserves. The second problem is that of providing land supplied with water and sewer, ready for immediate sale to prospective industrial purchasers.

The Economic Commission has devoted much time to the local housing shortage, and the Economic Director is needed to stimulate action in cooperation with the city manager and mayor. This is a national problem, but the solution lies in local governmental agencies coordinating their efforts with those of the private developers. We should find ways to make housing profitable for local enterprise, for we are concerned with the local economy.

Grant L. Davis,  
Chairman

To the Economic Commission:  
This is my fifth annual department report to you and it is somewhat of a summary of what we have done in the previous years.

From the beginning our effort has been to increase employment and payroll dollars, to create new tax revenue without a corresponding demand upon municipal services, and to encourage business expansions that will contribute to making a self-contained economy in Dover.

Objective No. 1 INCREASED EMPLOYMENT is evidenced by the steady reduction in persons unemployed from 1964 to 1969. During this past year national conditions have diminished job opportunities everywhere. However, despite the problems of the shoe industry (our largest type of employment) the percentage of Dover unemployment while currently increasing is still more favorable than state and national averages. Also we have overcome the loss of several concerns in these last five years with less discomfort than usually accompanies these misfortunes.

The new enterprises that we have helped to establish here have added substantially to the payroll dollars which have gone into local circulation for the benefit of merchants and others who supply the needs of the primary wage earners. This is evidenced by the increasing number of secondary services that have been set up here recently.

Objective No. 2 NEW TAX REVENUE can be documented most readily by noting the increase in real estate values created by industrial and commercial construction. A study of official records shows new property revenue of \$227,136, payable December 1, 1969 on these two classes of construction during the years 1965-1968. The 1969 building season has added still more value which recently.

I wish to thank the administration, the City Council, the Interstate Emergency Mutual Aid Unit, the Community Mutual Aid Assn. and the other department heads and their personnel for their assistance during the past year.

Respectfully submitted,  
Frederick Gilpatrick, Chief

## PLANNING BOARD

In 1969, the Board consisted of the following members: Chairman Wallace I. Akerman, Vice-Chairman Alberto O. Bernard, Clerk Armand J. Dimambro, Messrs. Peter H. Adams, R. Norman Alie, Donald E. Chick, Raymond R. Ouellette, John H. Sowerby and Hugh C. Tuttle.

The Staff of the Planning Board consisted of William R. Chandler (Director - until June), James F. Harrow (Director - beginning in Oct.), Carolyn E. Marcotte, Secretary and Wayne T. Moynihan, Planning Technician during the summer.

The Application for Recertification of Dover's Workable Program was granted in 1969 and the Board met regularly with the Consulting Firm of Metcalf & Eddy in the updating of the Comprehensive Plan, Phase I.

## BUILDING INSPECTOR

An analysis of the building activity in the City of Dover during 1969 established the following information:

MONTH	NO. PERMITS	ESTIMATED COST	FEES
January	5	\$ 31,475.00	\$ 64.00
February	1	\$ 37,000.00	\$ 41.00
March	22	\$181,840.00	\$

WELFARE DEPARTMENT

Annual report of the Welfare Department for the year ending December 31, 1969. OLD AGE ASSISTANCE DIRECT RELIEF

Table with 2 columns: Category (Direct Relief Expenditures: Food, Rent, Fuel, Medical, Hospital, Electricity and Gas, Clothing, Board Adults, Board Minors, Office Expense, Salaries) and Amount (\$15,401.60 to \$45,029.36)

One hundred families received aid from this office in the year of 1969. This represented three hundred and ninety-five persons. Thirty-one single persons also received aid. Fifteen minors were assisted with board and care. Two adults were aided with board and care and one adult received extra nursing care. Six persons were granted aid with medical only. A total of one hundred and fifty cases.

Respectfully submitted, Margaret E. Seymour, Director of Welfare

PUBLIC WORKS

The Public Works Department improved its productivity and provisions of many services in 1969 for the City of Dover. Planning continues to be a big plus in our approach toward effectively resolving our work load. Status of equipment was another indicator of good planning but the absentee rate continues to be a factor to reckon with.

Engineering Division

The Engineering Department headed by John H. Sowerby, consists of one full time 'Surveyor-Draftsman', James M. Rea; James Bertrand, a City Fireman, came in on a part time basis when off-duty, to assist as a rod man; and 'work-study' students from the University of New Hampshire were in the usual program but none of them were able to continue and provide very much assistance for any period of time.

This Department is under the supervision of Mr. Harry N. Griffin, Director of Public Works, and not only supports Public Works functions, but assists the need of all City and School Divisions.

Our largest assignment of the year was the construction of 4,600 feet of Back River Road. It was voted by the City Council that John H. Sowerby be given complete charge of constructing the road with all utilities with authority to hire men, equipment and materials as he deemed necessary to complete the job. This was done due to the inability of the State to handle this large project with their TRA Program. This problem area on Back River Road has existed for many years and was deemed the worst section of road in Dover and of the greatest of importance to be worked on. The job contained great quantities of solid ledge. A new 12 inch water main and all new house services were installed - improving the quality of water and fire protection for this area. A sewer service was extended to the top of the hill, and an underground drainage system put in to handle storm water.

It was estimated that an actual savings of \$63,000.00 was realized by utilizing City forces and hiring equipment and men on an hourly rate. The people that use the road have indicated approval.

In 1970, the State will finish the second stage of one more inch of hot top and loam and seed the shoulders of this road.

This work was accomplished and the normal engineering functions were also taken care of.

The final work on the G.E. Sewer line was finished and approved. The street program of hot top and sealing was done. A ski tow motor building was designed and contracted to be constructed and went into operation, with the first snow.

Work on plans for a sewer extension on Bellamy Road were completed to be constructed in 1970, if approved.

All subdivision construction was inspected as to utilities, roads, and streets. Many drainage problems were worked on and solved.

Assisted all departments with required reports on many varied subjects.

Updated the Assessor's maps for 1969. Many meetings with local, State and Federal agencies were attended and assistance was given to the citizens on varied problems that came up.

This has been a most productive year.

John H. Sowerby, Engineering Department

Public Works Division

The Department has made many improvements in every day service of refuse collection, sewer maintenance, streets and bridges, and highway maintenance plus a good snow removal program.

The equipment maintenance improved and a general upgrading was experienced. This was attributed through the efforts of all employees.

Improved methods were used at the Back River Sewerage Treatment Plant, with a substantial savings to the Department.

The year 1969 was a year of very heavy snow fall and costs were high to keep the City open. Even with this added expense, we were able to live very closely to our budget due to savings on other phases of the work.

Efforts were made by all concerned to improve the image of the Public Works Department to the citizens of Dover so that they will have a true understanding of the importance and modern techniques involved with the use of advanced equipment, and tools.

Projects completed are as follows:

- 1. Sewer or drain lines were installed on Bellamy Road, Fisher Street, Leighton Way, Back River Road, Alumni Drive, Broadway and Folsom Street.
2. General repairs to many catch basins and manholes. We completed and cleaned approximately 400 catch basins.
3. Road repairs were accomplished on Upper Fletcher Road, Alumni Drive, Central Avenue, Greenhill Road, Mast Road extension, Greenhill Road, Morin Street and Cemetery Roads.
4. Curbs were maintained and improvements made on Portland Avenue, Main Street, First Street and Central Avenue.
5. Prepared all roads scheduled for sealcoating by patching and grading.
6. Mowing and brush cutting was done on our outlying roads.
7. Our sweeping program went well except for a few breakdowns on the sweepers. These machines take a considerable amount of abuse due to the grit.
8. The City sewerage pumping stations were well maintained.
9. A fire line was cut around the sanitary land fill area and an overall rating of excellent was received on the appearance of the dump. The first such report in many years.
10. Spring and Fall clean up was done as usual.
11. The covered bridge was replanked and improved in its structural supports.
12. We revised our rubbish collections to provide better service daily.
13. Other chores to improve the overall status of the City included sidewalk repairs, trees and stumps removed, striping of the streets and painting of cross walks.
14. The men in Public Works will be happy to hear any comments that you have in 1970 regarding our Department to improve it and our standing with the public.
Pierre R. Bouchard, Superintendent, Public Works

The mechanics performed the semi-annual State sticker inspections, service inspections, repairs and adjustments, and cleaning and painting for the Highway Division, Cemetery, Division, Engineering Division, Fire Department and Recreation Department. They provided on the spot repairs and services, adjustments and assistance where needed and these extra chores kept the fleet moving. The prompt response of all equipment whether it was for fire fighting, snow removal, rubbish collections or what have you was ample testimony that their efforts were well directed. Our need for a new facility to house our equipment and maintenance and servicing functions has not lessened and is a must.

New equipment purchased during the year included: two half-ton pick-ups, one three-quarter ton pick-up-four wheel drive, one dump truck with snow plow, one dump truck with water tight body, one dump trailer, one sidewalk plow, one two-stage snow blower, one rubbish packer, one Walter's sander, one Plymouth sander, one tank truck and one stake body trailer.

During the past year we have been under a renovation program. This work should be completed by the month of May, 1970. This created quite a few problems, but they seem to be ironing out quite well.

We were granted permission by the State to bypass the plant for a period of ten days, from Nov. 3, 1969 to Nov. 13, 1969. During the past year we have changed our dewatering process from coil filters to centrifuges. These are still being tested out. We have also installed two sixty foot in diameter clarifiers, plus three centrifugal sludge pumps, new chlorinators, several electronic controls, and a new auxiliary power plant.

Pounds of wet sludge hauled to the dump: 6-256,880 with equals 3,128.3 yards of 525 loads at 11,918 lbs. per load.

This figures to be 93% tannery and 7% domestic.

This gives us a population equivalency of 92,017 people.

Alfred Richard, Superintendent

RAW SEWAGE RECEIVED AT PLANT

Table with 2 columns: Month (January to December) and Gallons (223,446,660 to 1,188,880). Includes sub-totals for Domestic Tannery and Chlorine injected.

VACUUM FILTER DATA 1969

Table with 3 columns: Month, Cu. yds., and Filter cake lbs. dry. Includes sub-totals for Dry solids-Domestic and Dry solids-Tannery.

This figures to be 92% tannery and 7% domestic. This gives us a population equivalency of 92,017 people. (Signed) Alfred Richard Superintendent

Cemetery Division

The activity at Pine Hill Cemetery made for another busy year. Much effort was spent towards 'fixing up' many things. This included the basement in the Chapel and replacing a stained glass window; reworking the floor in the maintenance barn; installing a stairway to the lower part of the barn; fireproofing the boiler room and fixing up the office; and installing new rollers on the racks in the tomb. The bobcat backhoe was overhauled as well as all the lawn mowers and trimmers.

The lack of water in the old part of the Cemetery was resolved by installing 1,700 feet of new water pipe plus 13 water spigots. This effort was appreciated by the patrons. Much work was done on the stones and monuments. 92 foundations were constructed and some 30 stones were reset that had been tipped over. Many others were cleaned and straightened.

The general upkeep of the cemeteries required considerable mowing and trimming but the overall appearance was worth the results. Two new commercial type mowers were purchased, which made the job of mowing easier. The other activities included 125 interments, plus the burial of five ashes, 46 entombments, 4 disinterment and 8 tent rentals. Over 200 baskets of flowers were set out on Memorial Day and the holidays. Other revenues included the sale of 48 graves.

The major project confronting the Cemetery crew now is the expansion of the new ground to accommodate the patrons and provide the needed space. The maintenance of the Cemetery is a never ending task and one seldom appreciated except by those that use the facility. The progress of the upkeep of our cemeteries was strengthened by the arrival of our new Superintendent in September - Mr. Harry Behan.

Water Division

The City's consumption continues to increase with the industrial growth. During the past year the new 4,000,000 gallon reservoir was completed and placed in operation at Garrison Hill. With the operation of the new reservoir, water pressures have improved throughout the City and helped to improve the quality of water delivered to the consumer. An extra million and a half gallon storage insures better fire protection. A new well was drilled to insure ample water supply in the City's continuing growth at Barboodes. It is planned to be in operation in 1970.

All fire hydrants were operated to flush out the mains and assure their operation in case of fire. Three new water mains were installed during the past summer: 4,500 ft. of 12" main on Back River Road, 600 ft. of 6" main on Mast Road Ext., and 400 ft. of main on Monroe Street.

REPORT OF GALLONS WATER PUMPED 1969. Table with columns: Location (Barboodes, Cummings, D. P. Cole, Pudding Hill, Total), Month (January to December), and Gallons.

The water from the Cummings Well is pumped through the Lowell Avenue Pumping Station. Submitted by: Harold Hanscome

METER DEPARTMENT REPORT 1969. Table with columns: Category (Meters Removed, Meters Installed, Leaky Meters, Meters Bypassed, Meters Tested, etc.), and Count.

CIVIL DEFENSE

GENERAL

- 1. Surplus vehicles acquired thru 1969 as follows:
- Plymouth Sedan
- Dodge Power Truck
- Coleman Aircraft tower
- 2,500 gal. tank trailer
2. Surplus equipment acquisitions continuing for various city departments.
3. Dover Plan for Federal Fiscal year 1969-70 was submitted on May 20 and approved by Regional Civil Defense Hq. on May 22.
4. The Matching Funds program is still limited to new construction on emergency operating centers (already begun).
5. Dover Junior High School Science Class toured our Emergency Operating Center in Dec. 1968 and June 1969. A total of 152 students attended. Teachers attending with their pupils were Mr. James McDonald and Mrs. William Fleming. Mr. Donald Chick, City Manager helped on the tour, along with Mr. Rene Desrosiers and Mr. Gilbert V. Dolloff.
6. On April 1 a meeting was held at our EOC with CAP officials Lt. Edward Pike, Operations Officer and Mr. Elmer Mallett, Radio Officer to discuss radio frequencies and how these can be integrated for search and other missions.
7. A new assignment was made during February when Dr. James McCooey was named "Emergency Health Services" head for the City of Dover.
8. An I.R.I.S. (Increased Readiness) test was held the week of September 15. Mr. Donald Chick, City Manager was at the helm for this series of tests.

WARNING

- 1. NAWAS tests were conducted thru the year 1969.
2. Flood warnings issued in March alerted all concerned.
3. 2 new warning points established at Exeter in October. New state total of 9.

RACES

- 1. On Feb. 4 a state test was held as a joint exercise with the Radiological Group, entitled "Big Cloud". This proved successful.
2. Weekly tests were held Tuesday evenings except June, July and August. Mr. James Andrews and Mr. Gilbert Dolloff were at the helm.

SHELTERS

- 1. A water study for the City of Dover by the Corps of Engineers and with the new 4,000,000 gal. enclosed reservoir atop Garrison Hill alleviated the need for water containers in most of our Public Shelters. This was mentioned in the Region "Spotlight" news release of March.
2. A community Shelter Program is still under study for Dover and this was an item in the state's Jan-Feb. issue of "Fallout" newsletter.
3. Mr. William Ramsden, Assistant CD Director and Shelter Coordinator was given another role as Red Cross Disaster Chairman for the Dover Chapter A.R.C.
4. In May Pre. Richard Nixon appointed Gen. George Lincoln to evaluate and update our National Shelter Program.
5. On May 8 Dr. Scott Sealey from Pease AFB toured our Shelter Facilities. Mr. William Ramsden, Shelter Coordinator accompanied him on this tour.
6. Work got underway in May on Phase IV of our Shelter Program.

RADEF

- 1. On Feb. 4 a joint exercise was held with Races and this was entitled "Big Cloud". Mr. June Story Radiological Officer was at the helm and this was termed a success.
2. Mrs. June Story, Radiological Officer, participated in a home course offered by the OCD School at Battle Creek Michigan. This was called "Civil Defense, USA" and she completed this in November.

MEDICAL

- 1. On Jan. 16 a Red Cross Standard First Aid Course was initiated - 13 graduates including five members of the skiplatrol.
2. An Advanced Red Cross First Aid Course got underway in March. 14 graduates including five members of the Ski Patrol.
3. On May 7 special class "Pulmonary Resuscitation" was held at the Wentworth-Douglass Hospital. Members of the areas Police

PUBLIC LIBRARY

DOVER PUBLIC LIBRARY REPORT FOR 1969. To the City Manager, The Board of Trustees, Members of the City Council, and the citizens of Dover: The eightieth annual report of the Dover Public Library is submitted.

Table with columns: Category (Adult Non-Fiction, Adult Fiction, Juvenile Library Circ., Juvenile School Deposits) and Circulation (17,456 to 97,212).

Table with columns: Category (Number of Books in Library Jan. 1, 1969, Number of Books Added in 1969, Number of Books Discarded in 1969, Number of Books in Library Dec. 31, 1969) and Count (66,792 to 76,971).

Table with columns: Category (Questions Answered, Adult and Children, Registrations 1969, Number of Records in Library, Large Type Books in Library, New York Times and Readers Digest) and Count (3,148 to 125).

Children's Room

The Children's Room continued to provide useful and popular service to the children of Dover, from pre-school to Junior High school age.

Start classes, and over 180 seventh graders. The weekly story hour seems to have the greatest appeal for the pre-schoolers, many of whom attended faithfully and with great enjoyment.

The Junior High school is now served by its own library, but the Children's Room is still busy throughout the school day with students who need additional or special materials and with the bus pupils.

Children's Book Week was successful in stirring an interest in reading, with an illustrated lecture by the Milnes of Durham and a Magic Show that was enjoyed by over 100 happy youngsters.

Work in the Children's Room becomes ever more challenging as the children seem to become more sophisticated and knowledgeable at an earlier age with each passing year.

Adult and Young People

The Library strives to provide the latest and best of fiction and non-fiction materials to the people of Dover. As a member of the State wide Library Development Program we give access to our patrons to the collections of the State Library and other member libraries in New Hampshire through interlibrary loan. In this same program we continue to act as a Service Center Library for the small libraries in our area, for which we received \$1,500 in State funds to improve our reference capability to these libraries and to our Dover patrons. A new photo-copying machine makes it possible for the library to provide copies of non-circulating material to requesting libraries.

Again this year the Historical Room was popular with historians and genealogists. Among the 229 people who used the room and its unique collection were visitors from as far away as Virginia, Pennsylvania and New Jersey. Letters from around the country came in weekly from persons seeking information about local history or their own families. Unfortunately we do not have the staff required to do the time-consuming searching required.

The microfilming of Foster's Daily DEMOCRAT is continuing and we now have the years

POLICE DEPARTMENT

City Manager Donald Chick and the members of the Dover City Council:

I have the honor of submitting herewith, the annual report of the Police Department of the City of Dover, for the year 1969.

Crime is a social problem and the concern of the entire community. The law enforcement effort is limited to factors within its control. Conditions which affect the amount and type of crime differ in every area. Some of the conditions include the density and size of the community, the composition of the population, the economic status, the educational, recreational and religious characteristics, the strength of the police force, and the attitude of the public toward law enforcement problems. The police department tries to enlist the cooperation and support of all the citizens.

Never in the history of law enforcement in our nation have the pressures and demands upon those charged with enforcing the law been greater or more acute. The rising rate of crime, civil disorders and traffic problems contribute cumulatively to stretching police resources to the near-breaking point. The police mandate is simple in concept - prevent crime and apprehend criminals. But - the changing times has immensely broadened this concept.

Continuing education in the problems of law enforcement is of prime importance to the police officer. This department tries to take advantage of every opportunity to further the knowledge of its officers, and to provide advanced training. During the year 1969, Lieutenant Joseph McCarthy completed a three month course at the F. B. I. National Academy in Washington, D.C. Lieutenant McCarthy also completed courses in Psychology and Social Problems at St. Anselm's College.

Inspector James W. Rowe, Sr. and Officer Frank Redden attended a New England Police Photography Seminar, and also completed a course in Criminal Interrogation at St. Anselm's College. A course on Advanced Latent Fingerprint was conducted here in Dover, in cooperation with the F. B. I., and Inspector Rowe and Officer Redden attended the school along with law enforcement officers from throughout the State of New Hampshire. Sgt. Robert Mikan completed a three weeks intensive training course at the Babson Command Training Institute, sponsored by the New England Chiefs of Police. Sgt. Mikan and Officer John McKinnon completed a training session at the Firearms School for Instructor in Wakefield, Mass. Officers Alfred Bertrander and Roger Demers completed five weeks training at the Police Officers' Training Academy conducted by N.H. State Police. Lieut. Raymond Pask and Officer Louis Spence attended a three day Institute of Emergency care of the Sick and Injured at Dartmouth College in Hanover, to enable this department to provide better and more efficient service to the ill and injured who must be transported to the hospital in the ambulance. A total of 464 cases was handled by this department in the year 1969, and at this time I would like to thank the members of the Dover Rescue Squad who have given a great deal of time and assistance in helping man the ambulance, which is on call 24 hours a day.

Through the generosity of S. Judson Dunaway, a former resident of Dover, and a grant from the N.H. Department of Highway Safety, a new ambulance was acquired for ambulance service for the City of Dover. In July 1969, a new 1969 Cadillac ambulance, fully equipped, was put in operation. The ambulance in use at this time was turned over to the Dover Emergency Rescue Squad.

During the year 1969, a total of 3071 arrests was handled by the department, 2570 males and 501 females. This included 2379 arrests on motor vehicle violations, and 692 for other than motor vehicle. In Juvenile Court 43 boys and 13 girls were processed for various offenses.

The department handled a total of 25,842 calls which were investigated or assistance given. Cruiser men and the foot beat officers made a total of 1,337,620 checks of business establishments in the year 1969, and the cruiser officers travelled approximately 214,202 miles in checking in the city area and the outskirts.

STATISTICS FOR THE YEAR 1969

Table with columns: Category (Number of calls received and investigated, Doors and windows found unlocked and reported to owners, Street lights reported out and Public Service notified, Motor vehicle cases, Other than motor vehicle cases, Lodgers, care of, Animals disposed of or taken care of) and Count (25,842 to 116).

The value of merchandise stolen by larceny, breaking and entering, robbery, shoplifting, vandalism, etc. amounted to a total of \$87,461.83. The value of merchandise recovered by the department revealed a total of \$51,294.56.

Motor vehicle accidents reported to the department during the year totaled 811, with injuries to 264 persons, plus injuries to 19 pedestrians, and there were five fatalities in the year 1969.

Following is a breakdown of the ages of drivers involved in accidents: 16-20, 319; 21-25, 266; 26-30, 129; 31-35, 100; 36-40, 91; 41-45, 93; 46-50, 100; 51-55, 75; 56-60, 67; 61-65, 46; 66-70, 35; 71 and over 30.

Respectfully submitted, Richard M. Flynn, Chief of Police

RECORD OF ARRESTS 1969

Table with columns: Category (Accessory to larceny by false pretenses, Approved Arrests, Accomplish to robbery, All Night Parking, Allowing alcoholic beverage to be served to a minor, Allowing unlicensed person to operate a motor vehicle, Approaching Vehicle, Attempted burglary, Attempting to take wild birds without a license, Assault, Assault and Battery, Assault on Police Officer, Attempted Larceny, A.W.O.L., B.A.W.O.L.) and Count (7 to 8).

Table listing various offenses and their corresponding counts. Includes categories like Operating motor vehicle, Driving on a highway, and Criminal offenses.

DISTRICT COURT

THE STATE OF NEW HAMPSHIRE  
JUDICIAL COUNCIL  
The Receipts and Disbursements for the Year Ending December 31, 1969 for the DISTRICT COURT OF DOVER

Table showing receipts and disbursements for the District Court of Dover. Includes items like Criminal Cases - Cash Receipts, Civil Cases, and Disbursements.

(Signed) EDGAR W. BOIS, Clerk.

STATISTICS FOR THE DISTRICT COURT OF DOVER FOR THE YEAR ENDING DECEMBER 31, 1969

Table providing statistical data for the District Court of Dover. Includes counts for Criminal Cases, Civil Cases, and Juvenile Cases.

Table listing court sittings for the year 1969. Includes names of judges and their respective counts.

SCHOOL DEPARTMENT

I respectfully submit my annual report of activities in the Public Schools of the City of Dover.

**School Enrollment**  
The Dover Public Schools had an attendance of 4313 students on the first day of school in September, 1969. This represents an increase of 35 students over last year's figure of 4155.

Table showing enrollment figures for various schools in Dover. Includes Dover High School, Woodman Park School, etc.

**Health Services**  
The Dover School Department has a health service program comprising of four full-time nurses. The staff, with the cooperation of the Dover Medical and Dental Societies, conducted health appraisals to all pupils in grades one, four, seven and in all public and parochial schools - 1128 students.

- During the past school year the nurses have provided the following services:  
1. A total of 3988 students were given vision tests.  
2. A total of 2139 students were given hearing tests.  
3. A total of 4341 students were given scalp infestation tests.  
4. A total of 3775 students were weighed.  
5. A total of 3770 students were measured.  
6. A total of 3370 students received first aid.  
7. A total of 1438 home contacts were made.  
8. A total of 209 communicative diseases were detected.  
9. A total of 1000 students were given tuberculosis tests.  
10. A total of 102 flu shots were given to teachers.  
11. A total of 121 pairs of new glasses were fitted to students.  
12. Rubella clinic - 1977 students including

the citizens of Dover. Some 10 classes with a total enrollment of 143 adults met two hours each week for a period of ten weeks under the supervision of Mr. Leonard Robbins, Assistant Principal, Dover High School.

**Courses were offered in the following fields of interest:**  
Dressmaking - Beginners - 24; Dressmaking - Intermediate - 17; Dressmaking - Advanced - 16; Americanization - 5; Arts and Crafts - 14; High School Equivalency - 7; Home Cake Decorating - 12; Personal Typing - 18; Rugmaking - Braiding - Beginners - 16; rugmaking - hooking - 14.

Two federally subsidized special adult programs, Machine Design Technology and Apprentice Carpentry were being supervised by Mr. Joseph Herlihy at the new Dover High School in September, 1969. Machine Design Technology is a National Defense Education project and has been in operation for several years. Graduates of this course have been assigned greater areas of responsibilities by their employers. During 1969-80 students were enrolled in these courses.

**Transportation**  
Of the more than 6,000 Public and Parochial school children attending all the Dover Schools, 2680 are being transported daily to and from school in 23 city owned and operated buses. Of the total number of students transported, 1991 are public school and 689 are Parochial, 1305 are elementary, 340 on the junior high level, and 1035 are secondary students. The entire operation involved 990 miles per day for 180 school days or 178,200 miles per school year.

The following is a list of the make and year of our fleet:  
1. Ford 1965; 2. GMC 1968; 3. Ford 1967; 4. Ford, 1965; 5. GMC, 1966; 6. GMC, 1968; 7. Ford, 1961; 8. GMC, 1966; 9. Ford, 1969; 10. Ford, 1964; 11. Ford, 1967; 12. International, 1962; 13. Ford, 1967; 14. Ford, 1969; 15. GMC, 1968; 16. GMC, 1966; 17. Ford, 1969; 18. Ford, 1965; 19. Ford, 1969; 20. GMC, 1968; 21. Ford, 1961; 22. Ford, 1964; 23. International, 1962.

Four new buses were purchased this year, which makes our fleet more efficient. Mr. Maurice Myers, Transportation Director and Mr. Robert Cheney, Mechanic, are to be highly commended for their efficient operation and maintenance of our fleet of buses.

**Hot Lunch Program**  
The Dover School Lunch Program, under Mr. James Appleby's able direction, continues to operate in a most efficient manner and can be proud of its progressive record. The School Lunch Program is mainly concerned with the health of the children and supplying the best meals at lowest possible cost.

Participation in the breakfast program at Dover High School is constantly improving. Although participation could and should be much higher, it is felt that the program has shown much value, and will be continued. The following estimated figures encompass the calendar year January through December, 1969.  
State Department figures released recently placed Dover as one of the largest school lunch operations in the State.

Table comparing meal service statistics between Dover High School and other schools. Includes categories like Total meals served, Milk consumption, and Breakfast at school.

**Building Improvement - Maintenance**  
The School Department is responsible for maintaining seven school buildings with a replacement value of approximately nine million dollars. These buildings involve spaces comprising classrooms, corridors, special rooms, gymnasiums, lavatories, and storage rooms that require not only daily cleaning, but also weekly "field days" as well as the regular summer cleaning, painting and repair operation. The school custodial staff maintaining our schools is to be highly commended for the work they are doing - and for their sincere effort in giving our children a clean and healthy atmosphere in which to work - and for protecting the district's investment in its school buildings. The following were completed during the summer months:

- Woodman Park**  
1. partitioned and painted in large classroom on top floor; 2. painted ceiling in corridor on ground floor; 3. continued program for repairing damaged ceiling tile; 4. replaced floor tile in areas as needed; 5. replaced cement steps in front and back entrance; 6. painted exterior, including windows, frames and doors.
- Sawyer**  
1. stripped walls in main corridor; 2. installed new incinerator; 3. painted outdoor basketball back board; 4. repaired roof.
- Pierce**  
1. installed new lights; 2. installed new ceiling; 3. installed wall-to-wall carpeting; 4. installed new incinerator; 5. repaired walk and wall around exterior of building.
- Garrison**  
1. replaced 16 window shades; 2. caulked windows, exterior; 3. casters on bookcases.
- Horne Street**  
1. painted 10 classrooms, corridors, teacher work rooms; 2. painted exterior of gym; 3. new flashing, roof and gutters over one third of building.
- Dunaway Field**  
1. irrigated and fertilized football field, baseball, softball and girl's field hockey under New Turf Program; 2. manholes regularly cleaned.
- Bellamy Field**  
1. spread loam, seeded and fertilized field.
- Junior High**  
1. painted two classrooms, teachers room, corridors, home ec. room; 2. remove lab tables and benches, fixtures in science dept.; 3. replaced hardware on two exterior doors; 4. intercom installed.
- I. B. Hanson**  
1. floor replaced with ceramic tile in girl's room.  
Sealed parking lots at Sawyer, Pierce and Junior High.
- Manpower Training**  
The Dover Board of Education has been alert to the economic needs of the City of Dover by cooperating with local industry and the local employment security office in instituting courses to improve the skills of local workers. These courses are financed completely from Federal funds. Courses in machine design, carpentry, apprentice shop, and machine operation are also being conducted by the Dover School Department. The latter course is sponsored by the Dover Chamber of Commerce and the Economic Commission in the interest of local industry. It makes good sense to a community to make maxi-

imum use of its educational facilities during the evening hours for the educational enrichment of its adult members.

**Federal Projects**  
Courses were offered in the following fields of interest:  
Dressmaking - Beginners - 24; Dressmaking - Intermediate - 17; Dressmaking - Advanced - 16; Americanization - 5; Arts and Crafts - 14; High School Equivalency - 7; Home Cake Decorating - 12; Personal Typing - 18; Rugmaking - Braiding - Beginners - 16; rugmaking - hooking - 14.

**Programs Expanded**  
1. Expanded special services for students in terms of personnel:  
a. Guidance  
b. art  
c. Director of Music  
d. School Nurse  
e. Library Services  
2. Expanded the physical education offerings for young ladies at secondary level.  
3. Expanded the physical education offerings at elementary level and added two and one half persons in grades 1-6.  
4. Expanded the athletic department offerings by adding wrestling and soccer to men's program and expanded girls athletics so that an inter-scholastic program in track and field hockey is in the offering.  
5. Expansion of athletic fields at Bellamy Field to provide two more football practice fields.  
6. Expansion of athletic fields at Bellamy Field to provide two more practice fields.  
7. Expanded seating capacity at the Dunaway Field by adding 2,200.

**Board of Education**  
This year again has been an especially busy one for the Dover Board of Education if the following schedule of meetings is any criteria: Regular and Special Meetings, 33; Finance Meetings, 15; Executive Committee Meetings, 26; Subcommittee Meetings, 12; and Joint Building Committee Meetings, 18. The aforementioned meetings do not include what seemed like endless hours of negotiations with the Dover Teachers' Association. No report would be complete without reference to the importance of Teacher-Board negotiations. The amount of work involved in this process for a citizens' committee, namely the Board of Education, with full time commitments - and the importance of this matter to the City and School System has let me to conclude that the Board of Education should employ someone in the immediate future, to do the necessary research and preparation, as well as to represent the Committee at negotiation sessions with the teachers.

**Retirement**  
The influence of a good teacher is boundless. Over the span of many years, the three members of the Dover Public School faculty who retired in June of 1969 contributed to the lives of many young people and to the betterment of the school system of which they were a vital part. For their sincere concern for the progress of their pupils and their many contributions to the field of education, we wish at this writing to express deep appreciation to Mrs. Jane McHugh, and Mrs. Mary Barry Dolson. We also hold in the memory the fine teaching abilities and the many educational contributions made by the late Mrs. Dorothy Dugan to the Dover School System.

**Use of School Facilities**  
Use of school facilities by approved local organizations has made it possible for the City to realize an added dividend from its multimillion dollar investment. For a number of years now greater community use of the schools has become quite evident. Demands for the use of Dover Junior High School are most excessive during the winter season. The gymnasium is in use from November to March every evening of the week from 6-10 pm. The Dover High school, Woodman Park school, Horne Street school and Garrison school are in great demand. Although we are aware of the fact that extensive use places a strain on our staff and adds to the wear and tear of the buildings, the School Department will continue to encourage use of its facilities.

**CERTIFIED PUBLIC ACCOUNTANTS**  
We have made an examination of the books and records of the City of Dover, New Hampshire for the years ended December 31, 1969 and have prepared balance sheets, statements of revenue, appropriations, surplus and various departmental statements.  
Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.  
In our opinion, the accompanying balance sheet, statements of revenue, appropriations, surplus and departmental statements present fairly the financial position of the City of Dover, N.H. at December 31, 1969, and the results of operations for the year then ended in conformity with generally accepted accounting principles for municipalities applied on a consistent basis.

Table showing financial statements for the City of Dover, N.H. for the year ended December 31, 1969. Includes categories like LIABILITIES AND FUNDS, Accounts Payable, City Activities, etc.

Respectfully submitted,  
John E. Rich & Company  
Certified Public Accountants

**BUY IT...**  
THRU THE WANT ADS  
An early childhood educational program at Woodman Park School. This new exciting program for young children is under the direction of the U.N.H. Education Department.  
1. Continued to provide a competitive salary schedule with fringe benefits of Blue Cross Blue Shield, Incentive Aid, and Life Insurance.  
2. Continued to improve the salary schedule for extra-curricular sponsors and coaches to make them competitive state wide.  
3. Continued to operate the manpower training courses as the need arose.  
a. Carpentry apprentice  
b. Machine Technology  
c. Machine shop course, local industry  
d. Nursing program.  
4. Continued Adult Education Program operating on a "pay as you go" basis.  
5. Continued to up-grade and expand our transportation fleet by purchasing four new buses.  
6. Continued to make more funds available for the expansion of the band program.

THE WHITTEMORE staff of Somersworth recently met with their gubernatorial Democratic hopeful Charles Whittemore at the Hilltop City Hall. Seated is Mrs. Arlene Pepin, president of the Women's Democratic Club, vice chairman of the

Somersworth Democratic committee and vice chairman of Ward III. Standing are Peter Chasse, Strafford County Whittemore co-ordinator; Leo A. Roy, chairman Somersworth Whittemore campaign; and Charles Whittemore.

### 10th District Court

KITTERY, Maine — Narcotic cases came close to outnumbering traffic charges processed in Tenth District Court here, Tuesday, and definitely were more time consuming.

Jonathan R. Creighton, 21, Wellesley, Mass., was charged with illegal possession of marijuana to which he pleaded innocent but was found guilty and a fine of \$250 was imposed by Judge George D. Varney. Creighton appealed and bail was set at \$260 pending his appearance at the September term of Superior Court. Probable cause was found on a complaint charging him with illegal possession of LSD. He was ordered bound over for action by the higher court, and bail was set at \$210.

Creighton also pleaded innocent to operating a motor vehicle not equipped with a tail light. He was found guilty, fined \$20, and appealed, with bail set at \$30.

Barbara J. Powers, 18, of Claremont, N.H., and Peter H. Minot, 18, of 11 Thompson Lane, Durham, N.H., were charged with illegal possession of marijuana. The pair was picked up during a routine motor vehicle safety check on Route 91, York, July 3. Each pleaded innocent and was found guilty and fined \$150. They appealed to the September term of Superior Court, and bail was set at \$200 each. Minot also was convicted of illegal transportation of intoxicating beverage by a minor. He appealed this as well, and posted \$20 bail.

Three Dover, N.H., girls, Dianne Boyd, 18, of 47 Ham St., Ellen Rochette, 17, of 63 Atkinson St., and Pamela Gracie, 18, of 47 Ham St., were found innocent of charges they possessed marijuana when halted at York by State Police conducting motor vehicle safety checks, Aug. 7. Trooper Jerry Flowers told the court after he stopped the girls' car he smelled a sweet pungent odor from the vehicle recognizable to him as marijuana. A subsequent search of the ground outside the car disclosed a packet of the narcotic weed. Judge Varney ruled the girls innocent since the State was unable to prove the packet had been in the car. Seeds found in the vehicle's ash tray were tested negative by the State chemist. A judicial warning accompanied the innocent ruling.

Paula E. Peterson, 18, of Nashua, N.H., charged with disorderly conduct at York Beach, Aug. 20, pleaded innocent and was found innocent.

Frank Errico, 60, Shore Road, Cape Neddick was charged with hauling lobster traps on a Sunday, possessing illegal size lobster, failure to display buoy colors on boat, and assault and battery upon Coastal Warden James A. Shaw. All incidents alleged occurred at Cape Neddick Aug. 19. Errico pleaded innocent to all counts, was found guilty and fined a total of \$85.

In a companion case, David A. Irtico, 25, Billerica, Mass., was found guilty of possessing undersize lobsters, and fined \$25. He was found innocent of hauling on a Sunday, and fishing for lobsters without a license.

Fred E. Benoski, 19, Beech Ridge Road, York was charged with wilfully damaging parking meters at Short Sands Park, York Beach, Aug. 19. The complaint alleged Benoski threw a large rock, approximately 1 foot by 1 foot in size, at double parking meters, damaging the units. He entered a plea of innocent, was found guilty and a fine of \$75 imposed. He appealed to the September term of the higher court and posted bail of \$100.

Lionel Locklin Jr., 21, Governor Hill Road, Eliot pleaded guilty to operating an uninspected motor vehicle, \$10; and possessing a mutilated operator's license, \$10.

Stephen J. Proietti, 23, and Vincent Devore, 22, both of Quincy, Mass., and Susan Saslow, 19, New Milford, N.J., were each fined \$20 for sleeping on Marginal Way, Ogunquit.

Arthur Durant, 40, of 18 Wedgewood Road, Portsmouth, N.H., charged with operating a

motor vehicle on Route 1, Aug. 23 while his faculties were impaired by use of intoxicating beverage, was convicted and fined \$150. His right to operate a motor vehicle in Maine was suspended 30 days.

Charles Moore, 50, Ogunquit, charged with being intoxicated in a public way, Route 1, Ogunquit, was fined \$20 on a guilty plea.

Other motor vehicle violations and fines imposed included: George E. Smith, 19, Durham, N.H., inadequate exhaust system, \$20; Charles S. Moss, 24, Canton, Mass., operating left of center while passing on a curve, \$35; Donald C. Cossette, 33, Old Dover Road, Gonic, N.H., unregistered motor vehicle, \$25; Tim Hardy, 20, of 10 Otis Ave., passing at an intersection, \$35; Stuart B. Holbrook, 71, Concord, N.H., operating left of center while passing on a hill, \$35; Roy N. Johnson Jr., 18, Webber Road, York, causing unreasonable noise by making tires squeal, \$20; James E. Lamphier, 33, of 57 Marston Ave., Portsmouth, N.H., operating motor vehicle without a muffler, \$20; failure to produce operator's license on demand, \$25; John Francis Sexton, 18, of 56 Cable Road, Rye, N.H., hitch-hiking, \$20; and Dolores F. Powell, 21, of 6 West Concord St., Dover, failure to produce registration certificate, \$15.

James A. Kennedy Jr., 24, RD 2, Dover, N.H. was fined \$40 for operating at 80 miles per hour in an area of Route 1, York, designated 50 mph.

Thirty dollar fines were imposed on James R. Munson, 17, of 22 Roosevelt Ave., Dover, 45 mph in 25 mile zone, Long Beach Ave., York Beach; Zissis Zoghopoulos, 46, of 123 Branch St., Lowell, Mass., 46 mph in 25 mile zone, Long Beach Ave., York Beach; Gary W. Ellis, 19, Old Town, 65 mph in area of Chase's Pond Road, York posted 40 mph, and causing unreasonable noise, \$20.

Speeders paying \$25 fines included: Francis J. McCarthy, 19, Lowell, Mass.; Dennis W. Cardiff, 17, Framingham, Mass.; Edward J. Reppucci, 18, Somerville, Mass.; and David M. Moreau, 21, Lexington, Mass., who also was fined \$20 for passing a stop sign without stopping.

Twenty dollar fines for speeding were imposed on Maurice Valley Jr., 24, of 14 Granite St., Rochester, N.H.; Roger H. Grose, 21, Amherst, Mass.; and Lois V. Hodgdon, 18, Lexington, Mass.

Randy Decker of Eliot was granted a divorce from Carol Decker of Portsmouth, N.H., on grounds of cruel and abusive treatment. They were married at Portsmouth, Feb. 22, 1969.

### Greenland

Mrs. Peggy Hoonhout  
48 Winnicut Road  
Greenland, N.H. 03840  
436-8470

Grange Annual Outing

The Greenland Grange members met at the Congregational Church at 6 pm Wednesday, August 19 to go to King Tut's Restaurant in Eliot for a Dutch treat dinner. Twenty-four members attended including Master Luther Preston and eight Past Masters. It was announced that the deputy will be present at the Sept. 16 meeting for fall inspection.

### Jurors Chosen

Two jurors were chosen from Greenland recently and Mrs. Naomi Sturdevant will serve as petty juror and Mr. W. Hermaeau will serve as grand juror.

### Back From Camp

Miss Christine Fieldsend of Winnicut Road is back after spending two weeks at Girl Scout Camp in Vermont.

### Whittemore Urges Sensible Import Quotas

DOVER — Charles F. Whittemore, Democratic Candidate for Governor, campaigning in Dover and Somersworth said, "We need a Governor who will work constantly and with conviction to end the import quota torture of the working family in our state by Washington. This requires backbone and the determination to stand up to the Federal government no matter who is President."

Whittemore continued, "Many traditional New Hampshire industries are being out-competed by foreign firms employing poorly paid labor. Washington satlls and dodges on sensible import quotas on shoes and textiles needed to protect our jobs. At the same time we are facing another winter of high heating oil costs because Washington backs quotas on the amount of inexpensive foreign oil which can be imported."

"The Governor of New Hampshire ought to lay it on the line to President Nixon that he can't have it both ways. This dilemma is getting more painful every day and all we have had from the present Governor is an occasional half-hearted statement."

Whittemore further said, "Today I have talked to hundreds of industrial workers in Strafford County. Their mood is one of anxiety. Many are in despair. Not only are they caught in the Nixon double quota squeeze, but living costs are rising and property taxes are rising even faster. Mills in New Hampshire have closed. More mills have cut back in employment. State unemployment is growing."

Whittemore concluded, "I have proposed the Whittemore Homesite Exemption Plan which will bring fast, direct help with family budgets by cutting property taxes back. But the next governor must be willing to fight our state's battles consistently and courageously in Washington as well as to provide effective help on the state level. This I pledge to do."

### Sanders Announces Settlement

NASHUA, N.H. — Royden C. Sanders, Jr., President of Sanders Associates, Inc. announced that an amicable settlement had been reached with the Government in a pricing disagreement on a Navy contract. The settlement will dispose of litigation which had been commenced in the Court of Claims in February, 1969.

"We consider a favorable compromise has been achieved for the best interests of our stockholders, and it is a mutually satisfactory agreement for all parties concerned," he said.

The settlement included de-finitization of other directly related contract items which were not in dispute and increased the total contract price to approximately \$149 million, Mr. Sanders reported in today's announcement.

Since the company is in the process of closing its books for the fiscal year ended July 31, 1970, Mr. Sanders stated that additional income reflected by the settlement would be included in earnings to be reported for the fiscal year 1970.

The settlement terms provide for cash payment of approximately \$7,300,000 in August. This payment will include amounts previously withheld under the contract which were not in dispute and other amounts directly related to the negotiated settlement.

### Cholera

Continued From Page 12 measures. Faich recommended that travelers to affected areas ascertain that the water supply is clean or use bottled or boiled water, wash their hands before eating and after using the toilet, wash raw produce thoroughly and avoid eating other raw foods.

The present outbreaks are attributed to a particularly hardy and virulent strain of the cholera bacterium known as El Tor, after the quarantine camp on the Red Sea where it was first isolated in 1905. Although responsible for an outbreak in Indonesia in the 1930's, El Tor did not begin its current rampage until 1961, when it began to spread through the Western Pacific and Southeastern Asia. There have been outbreaks in those areas ever since.

### India Probe

Continued From Page 10 over reports that 2,000 girls from the Southern State of Kerala had been "sold" at \$700 a person to convents in Italy, France and West Germany.

The Right-Wing Jan Sangh, a Hindu party, accused the government of "Calous Failure" to check this "slave trade of the 20th century."

Singh said if the report was correct "It is a serious matter." However, he added that he did not think the girls were induced or forced to go to Western Europe.

The Jan Sangh and other opposition groups in Kerala have made this an issue in the election scheduled for Sept. 17. The Jan Sangh has seized the occasion to step up its campaign against activities of Christian Missionaries in India.
