RESEARCH, ECONOMIC ENGAGEMENT AND OUTREACH UPDATE

August 28, 2024

ANNOUNCEMENTS

Generative AI and Research Integrity Workshop
Explore the ethical implications of generative artificial intelligence on research at an in-person workshop Thursday, October 31, 12:40-2 p.m. in Dimond Library 421.

The rapid rise of generative artificial intelligence (AI) technologies is transforming the research landscape, offering unprecedented opportunities for innovation and efficiency. These advancements, however, also present challenges for research integrity. This workshop explores the ethical implications of integrating generative AI into the research process generally, as well as specifically in research involving human participants.

This workshop is designed for researchers at all career stages who are navigating the evolving role of generative AI in research and are committed to fostering a culture of integrity in their field. Participants will gain insights into the responsible use of generative AI tools, addressing issues such as data privacy and confidentiality, plagiarism and authorship. Attendees will learn

strategies for leveraging AI in their research while maintaining high standards of transparency, accuracy and ethical responsibility in their work. More information and registration is here. Contact Julie Simpson in Research Integrity Services with questions.

Organized by the Responsible Conduct of Research and Scholarly Activity Committee, Graduate School and Office of Research, Economic Engagement and Outreach.

Institutional Animal Care & Use Committee Meetings
The UNH Institutional Animal Care & Use Committee (IACUC) Fall 2024 meeting schedule is available here .

Did you know? CHIPS and Science Act: Malign Foreign Talent Recruitment Program
The CHIPS and Science Act of 2022 requires that each federal research agency establish a policy requiring that covered individuals (including senior and key personnel) certify that they are not part of a "Malign Foreign Talent Recruitment Program" (MFTRP) in the proposal submission and annually thereafter. Pursuant to the CHIPS and Science Act, covered individuals who are a current party to a Malign Foreign Talent Recruitment Program are not eligible to serve as senior/key personnel on federal awards.

UNH Research Integrity Services and Contracts & Export Controls are here to help researchers navigate the research security realm. Additional information regarding foreign influence can be found here.

Who's Who in SPA?
Grant and Contract Administrators are assigned by department/unit, and you can locate the updated "Find Your GCA" here.

For proposal questions and submission, contact the Pre-Award Compliance Team; for invoices and financial reporting questions, contact the Accounting and Financial Compliance Team and for all post-award inquiries, contact STAR .

New Online Trainings with CITI Program
UNH will transition to using the CITI Program online courses instead of the current UNH modules for IRB, IACUC, Responsible Conduct of Research (RCR), Conflicts of Interest, and Export Controls training. The CITI Program courses are available for all USNH users and the UNH modules will be retired on August 30. The UNH HIPAA training module will remain active for the foreseeable future. The CITI Program training courses are available to anyone with a USNH email address via USNH single sign-on. Please contact Julie Simpson with questions about training requirements.

Research Integrity Services Fall Drop-In Zoom Office Hours
Research Integrity Services will continue to hold drop-in Zoom "office hours" most Tuesdays from 9 to 10 a.m., Wednesdays from noon to 1 p.m. and Thursdays from 3 to 4 p.m. through the Fall semester. Stop by with your questions about using Cayuse Human Ethics or Cayuse Outside Interests.

October 2024 Ethical and Responsible Conduct of Research Training
Registration is open for the Friday, October 4, 2024, ethical and responsible conduct of research (RCR) training. The training involves completion of a web-based RCR course and participation in a seminar on Friday, October 4, 2024, 1:10–4 p.m. in MUB Room 162. Participants must register for the training by Thursday, September 26, 2024, and must complete the web-based course prior to the seminar. Please note: Incoming Ph.D. students who are required to complete RCR training must *not* register for this Friday, October 4, 2024, training. Instead, they need to register for the incoming PhD RCR training that will be held on

Friday, October 25, 2024. Contact Julie Simpson with questions.

FUNDING OPPORTUNITIES AND RESOURCES

Limited Submission Programs to Act on Now
Because some sponsors limit the number of applications from an institution, please contact Michael Thompson as soon as possible if you are interested in applying to any of these.

Proposal Review and Editing Services
Make use of the Research and Large Center Development office's free proposal review and editing services to increase the competitiveness of your grant proposals. A summary of services is available here. Contact Caitlin Aspinall to discuss your proposal needs.

UPCOMING EVENTS

Seacoast Sips of Science: Farming in New Hampshire: Past, Present & Future
Thursday, September 5, 2024
Doors open 5 p.m.; program begins at 5:30 p.m.
Throwback Brewery, 7 Hobbs Rd., North Hampton

This year's inaugural Seacoast Sips of Science explores the role of agriculture in our local food and global climate systems, with an eye to past strategies, current challenges and future opportunities. Speakers are UNH Brewing Science Lab manager Cheryl Parker, Extension field specialist Olivia Saunders and Throwback co-founder and president Nicole Carrier; artifacts from the N.H. Farm Museum will be on display. Learn more and get tickets here.
