REPORT OF SCHOOL HEALTH WORK FOR
TAMWORTH

To the Townspeople, School Board, and Superintendent of Schools:

Tamworth, along with many other towns, is suffering some of the effects of the present economic crisis. Some of these effects are plainly visible. Others are not visible at present. Perhaps the most subtle of all the effects is that upon the health of the children. Few realize this because it cannot be demonstrated by statistics. We do not refer merely to nutrition needs, for few actually go hungry, nor do they go cold. There are too many interested people watching for this obvious need. It is the deferring of the correction of physical defects until better times that is doing the great damage to the health of the children. No subsequent period of prosperity can replace teeth neglected now. The best eye specialist in the land cannot restore vision to eyes growing progressively worse with daily strain without the proper glasses. Many adult ills will be traceable to diseased tonsils that are slowly undermining a child's health. The school health program is concentrating upon this need. Great difficulty is being encountered in the correction of the physical defects of the children. However, with limited funds for the purpose of financing clinics, and with the cooperation of parents some progress has been made as a review of the available records of the past few years will show:

1928-1929

No. pupils	146
No. defects	271—1.7 per pupil
No. corrections	61—22% of defects
No. without defect	27—17% of pupils

1929-1930

No. pupils	153
No. defects	26—17% of pupils
No. corrections	67—25% of defects
No. without defect	268—1.7 per pupil

1930-1931

No. pupils	158
No. defects	286—1.8 per pupil
No. corrections	72—25% of defects
No. without defect	20—12% of pupils

1931-1932

No. pupils	164
No. defects	230—1.4 per pupil
No. corrections	111—48% of defects
No. without defect	81—49% of pupils

1932-1933 (to date)

No. pupils	155
No. defects	159—1.1 per pupil
No. corrections	20—12% of defects
No. without defect	67—43% of pupils

Last year a dental clinic was held in which about 45 children were treated. A few of these received complete correction. Many others were limited to the small amounts that they could afford. There was no money available to finance this work, therefore it was only partially successful. At present there are 72 children who need dental work. There are 38 cases of bad tonsils, some of which need immediate attention. There are only two cases of defective vision left, however, seven cases having been corrected this year. Eight tonsil operations were done last Summer, which reduced the number of tonsil cases somewhat.

Working in close cooperation with the town nurse, Miss Eva Heney, some of the depression problems have

been solved. Medical aid was planned and clothing distributed. Food problems have had attention, and seeds for a garden were obtained for one family.

Last year 1931-1932

Visits to schools	129
Visits to homes	206
Total visits	335
Days spent	25.4

This year 1932-1933 (to date)

Visits to schools	60
Visits to homes	73
Total visits	133
Time spent	12.1

The present school year is half over. Much remains to be done and it will be only with close co-operation that the children can be given a square deal and a chance in spite of the depression.

Respectfully submitted,

RUTH S. LANGILLE,

School Nurse

SUPERINTENDENT'S REPORT

To the School Board of Tamworth:

I herewith submit my tenth annual report as superintendent of schools.

School Property

Fortunately for these times, a wise school board had kept the school property in good repair and made improvements so that little was demanded during the past year. Cement steps were placed at Pequaket and all buildings were cleaned and furniture varnished. Our school buildings are in excellent condition, being, I believe, among the best equipped of the rural schools of the state.

Statistics

For the year ending June 30, 1932, we had an

average attendance of 152.6, an average membership of 161 and a percent of attendance of 94.7. We have gained a little over last year. This is encouraging, but we want to go higher than 95 percent. Schools having an attendance last year of 95 percent or above are as follows:

Whittier 95%
Downs 95.8%
Bennett's Corner 98.6%
Chocorua 96.7%
Pequaket 97.9%

Health Work

The health work goes forward under the care of Miss Ruth S. Langille. Dental and eye clinics have corrected a good number of defects. The annual examinations have been made and parents notified. More clinic work will be done during the latter part of the year. Parents are urged to cooperate whenever possible by personally attending to correction of defects. Health habits are being emphasized by daily inspections in the schools. Calisthenics with victrola music is a part of the work of nearly every school. Several motion picture reels bearing on health have been shown in the schools.

During the year Miss Grace E. Shannon, after forty years of faithful service in the town of Tamworth, was taken ill and is not yet able to resume her duties. It is a pleasure to speak of the loyal and true spirit of this teacher who conscientiously served the schools, never slighting her hours or her teaching as far as her strength would allow.

High School

Under the earnest leadership of Principal Hatch, our high school is doing good work. An especially pleasing feature of the extra curricula activities was the orchestra developed last year, becoming proficient

enough to play in public.

It looks now as though the school would be larger than ever next fall. A small class goes out and a large class should enter. The suggestion has been made that it would not cost a large sum beyond the tuition now paid to other towns to run a four-year high school—after building and equipment were provided.

A list of teachers and schools follows:

Osman P. Hatch at the High School has 18 pupils.

Edwin A. Blackey at the Grammar School has 21 pupils.

Mavis O. Corbett at the Primary School has 15 pupils.

Etta R. Thurston at the Downs School has 14 pupils.

Anna M. Lein at the Chocorua School has 18 pupils.

Ellen E. Bickford at the Pequaket School has 10 pupils.

Elva L. Floyd at the Bennett's Corner School has 11 pupils.

Lula M. Ball at the S. Tamworth School has 34 pupils.

Beatrice Clough at the Whittier School has 12 pupils.

It will be seen that the South Tamworth School is large for an eight-grade school. If the size increases, I should recommend transporting some pupils to Bennett's Corner where the school will be small next year.

It should be noted that the school board has prepared its budget with due regard for economy. It has been well said that in these times we can better afford to neglect some material things than to neglect the welfare of the boys and girls.

I appreciate the loyalty with which Tamworth has supported its schools.
