Comments

Receipts and Disbursements:

In verifying the receipts listed above we first determined the amount of money that should have been received, in all possible instances, and then compared the amount with the entries made in books of the Town Treasurer and Selectmen.

The amount turned in from Tax Collections was verified with a detailed analysis of the Tax Blotter, verifying the additions and computation, thereby determining the amount committed for collection and the amount that should have been received. Discounts given were verified by computation giv-

ing consideration to the dates on which payments were received.

Funds received from the State and County were verified by direct correspondence with the State Treasurer and County Commissioners, and receipts from other departments such as those of the Municipal Court and Town Clerk, were verified by examination of the records of each department.

We found cancelled checks for all disbursements entered in the books, but in some instances vouchers were not supported by the necessary purchase invoices. We were therefore unable in all instances to assure ourselves that proper distribution had been made on the records where invoices were not attached to the vouchers.

Recommendations:

We would suggest that all bills rendered to the Town for payment, including payrolls, should have the approval of, and distribution by, the department heads shown thereon.

Also that Tax Collectors Deeds be obtained on property which has been sold for non-payment of taxes the required number of years, instead of allowing them to be resold from year to year at additional unnecessary expense to the Town.

HEALTH OFFICER'S REPORT

During the year the Doctors and Nurses have reported the following cases of contagious diseases: 79 cases of Mumps, 18 of Chicken Pox, 12 of Whooping-cough, 6 of Measles, and 2 of Infantile Paralysis. Both of these cases were quarantined at some expense, by order of the State Board of Health and under the personal supervision of Dr. Charles A. Weaver. One of these cases proved to be very light, the other more severe. There were only 2 cases of Scarlet Fever reported and both of those proved to be in a mild form, so we again say that Lebanon still remains among the healthiest Towns in the State.

The State Board of Health, Division of Maternity, Infancy and Child Hygiene, in cooperation with local societies, held a Pre-school Child Health Conference, here and report as follows: Number of Children examined 98, number found normal 54, number found with defects 44, defects found 60, defects corrected 18.

I have answered every call that has been made upon me and have given much time investigating the various complaints received, and wish to say that in most cases I have been treated kindly and my instructions have been obeyed without resorting to the Legal Notice, which is required in certain cases.

Geo. U. L. Leavitt, Health Officer.

MILK INSPECTION REPORT

The report received from the State Laboratory of Hygiene on samples of milk taken for analysis in the Town of Lebanon the past year show well above the Statutory Limit as regards to solids and butter fat.

We have had no infectious or contagious diseases transmitted by our milk supply the past year.

The number of milk producers have greatly increased, many from out of the State.

The bacteria count from most of the producers has been more satisfactory; we have one case now pending as to adulteration under our law.

W. B. Mowers,

Milk Inspector.

OVERSEER OF THE POOR REPORT

Never in the history of the Poor Department of this town has such a large amount of work been done as in the past year. The lack of employment has been the cause of the greatest number of relief cases. Many of these applicants are thrifty and good citizens and had saved sufficient money to meet an ordinary period of unemployment, but with the depression lasting so long they were obliged to draw on their resources until the last of their savings was used. Without work, without funds, they were obliged to come to this department for aid. In normal times some of these people could have secured a loan on the equity held in their real estate, but there was no way in which money could be borrowed, so there was nothing to do but accept aid for themselves and family to subsist.

In addition to food and fuel, we had extraordinary expenses for rents, and funerals, one large expense was the care of a cancer case which the town was obliged to meet.

We have given aid to 175 families and 45 individuals, making a total of 858 people. Town dependents: 84 families, 15 individuals, making a total of 414 people. Town expenses, \$5,882.46. County dependents: 91 families, 30 individuals, making a total of 444 people. County expenses, \$10,846.28. The town expense is much less than county because our greatest number of town applicants came late in the Fall.

I am indebted to the Associated Charities, Rotary Club, Red Cross, for generous assistance in the efficient way in which we have been able to meet the demands of this department.

John W. Barker,

Overseer of the Poor.
