Manchester Redistricting Plan

By Dr. Thomas J. Brennan, Jr.
Redistricting Mission Statement

To create a new school boundary plan that will, to the extent possible, further the district's goal of providing the best physical learning environment possible by uniform and equitable utilization of facilities according to the needs of the district's educational program.
Guiding Recommendations for Redistricting

1. Retain the current academic configuration of our elementary and middle schools.

2. Adjust the current attendance boundaries to eliminate "attendance islands" and equalize the enrollments at each of the schools to be equal to or less than the building capacities.

3. Re-assess and validate the current "out of attendance area" placements. These students who are attending schools outside of their attendance areas for reasons such as choice, educational hardship, specialized programs, etc.

4. Ensure that the attendance boundaries account for new housing developments that have been approved, under construction, and/or completed.

5. Determine if existing buildings are able to accommodate current and projected educational programs.
Recommendation #1

- Retain the current academic configuration of our elementary and middle schools.
- Existing Preschool locations remain unchanged in this scenario.
Recommendation #2

- Adjust the current attendance boundaries to eliminate “attendance islands” and equalize the enrollments at each school to be equal to or less than the building capacities.

- Affected schools are Beech, Jewett, McDonough, Smyth, Weston, Wilson & TBD.

- Changes effective September 2013.

K-12 Feeder School Structure
Elementary to Middle School

- Equalize assignment of students to maximize available space
- One elementary feeds to one middle school resulting in consistent communication between receiving and sending schools
- This will meet the educational, social and emotional needs of our middle school students
No adjustments should be planned for the 2013-2014 school year.

Any adjustments would take place no earlier than the 2014-2015 school year.
