ANNUAL REPORT

OF THE

SCHOOL BOARD.

In making our report this year, we are laboring under circumstances which are a little confusing. At the last session of the legislature there was a change made in the school year. Instead of closing the first of March, the year closes the first of August, so that the financial year and the statistical year are not the same. One commencing in March and the other in August. This report contains the financial report for the year ending March 1st, 1896, and the statistical report for the fall and winter terms of the past year.

Our schools, with one exception, have been under the care of the same teachers as last year, and have been a success, we think, and will compare favourably with other schools of the same grade elsewhere. Modern methods, and text books, have been introduced to some extent, and our teachers have shown a disposition to keep abreast with the times. As your board have heard little or no complaint, they feel that their efforts have not been in vain. New books have been introduced as occasion seemed to require, more the present year than in any one year since the present system was adopted.

We still urge the importance of personal interest in schools by parents. Visit often and see that the work is going on right. Make the children know that you are interested in their work, and they will become interested and encouraged to greater effort.

LIST OF TEXT BOOKS.

Readers—New Franklin, Lippincott's, Information, and Nature.
 Spellars—Comprehensive, Buckwalter's.
 Geography—Butler's, Frye's.
 Arithmetic—Greenleaf's.
 Language and Grammar—Hyde's and Metcalf's.
 History—Barnes'.
 Physiology—Blaisdell's.
 Copy Books—Normal Review System.
 Book-keeping—Meservey's.

ANNUAL REPORT
OF THE
BOARD OF EDUCATION,
UNION DISTRICT.

The Board of Education in Union School District respectfully submits its report.

With one exception the same corps of teachers has been in power as last year. We believe they have all been persistent in their efforts to do good work.

Monthly meetings of teachers and Board have been held during the winter, for the consideration of pertinent topics, which have resulted in considerable enthusiasm.

Concerning books and supplies, we have purchased a physiological chart, have introduced a new series of geographies to take the place of Butler's, which were worn out and had to be replaced, and adopted an algebra and a grammar better suited to our grades than those previously in use.

We have also introduced a Physiology and Hygiene. A text book having special reference to the effects of stimulants and narcotics on the human system.

The chief difficulty that has confronted us, and one we have not been able to evercome, is lack of room. We have more pupils than our school house can accommodate.

In order to systematize the primary grades and thereby econ-

omize in teachers and space, we have been forced to make a rule, which was imperative under the circumstances, that no child should enter the primary school after the first Monday in October, in each school year, unless qualified to enter an existing class. But this has brought only temporary relief. At the opening of the fall term, there were fifty-three pupils registered in the primary room and but forty eight desks. Several children were pushed ahead into the next room. Here in turn was a surplus and another forced promotion had to be made.

The intermediate room is large, and here the overflow ceased. But here were three classes where there should have been but two, and the work done was not what it ought to have been. Grade lines have been broken and while our school-house remains as it is, there is no hope for improvement. There is a crying need for another teacher and another room at once, for the accommodation of a first intermediate grade. This would allow a raising and strengthening of our grade system, which all must admit is highly desirable.

Our School building will have to be shingled before another winter, and some better method for ventilation ought to be devised.

This report is offered as a report of progress. Our schools are not all they ought to be for a number of reasons. The chief reason has been mentioned. Another, is lack of interest and co-operation among parents. Parents do not visit schools often enough. It is a personal duty which every father and mother owe their children, to become familiar with, not merely *what* is taught them, but with *how* they are taught, and to further the teachers' efforts by home influence.

The number of pupils in attendance in the various rooms

during the past year is as follows :

First Primary,	boys, 35	girls, 31
Second “	“ 30	“ 18
Intermediate,	“ 24	“ 13
First Grammar,	“ 20	“ 16
Second “	“ 23	“ 20

------------------------------	---------

In March 1895 the towns voted to authorize the use of a part of the appropriation for the salary of the Librarian. For five

years after the opening of the Library his salary was paid by private subscription, but so many of the members of the Association died and moved away, it became impossible to collect sufficient money for this purpose, and the salary was unpaid from sometime in 1893. Since everyone had the free use of the Library it was thought no more than fair that this item of expense came from the general appropriation rather than from private individuals, and the towns, by their votes, adopted the same view. Therefore this year his overdue and current salary has been paid, and hereafter there will be a proportionate larger amount of money for books. The Library is well patronized, the circulation being over 12,000 volumes a year. Citizens having in mind books they would like added to the Library are requested to hand in lists to the Librarian, from which the trustees may make selections in purchasing.
