## PISCATAQUA BRIDGE

It is always better to allow someone who has visited a scene describe it, so this quotation is from **Travels in New England and New York** by Timothy Dwight in 1823.

While occupied by this landscape, we came suddenly upon the bridge; an enormous structure, twenty-six hundred feet in length, of an interesting figure, finished with great beauty and elegance; new, white, and brilliant. There are at this place two islands in the river; one, next to the southern shore, an oblong, narrow rock; the other, of sufficient extent for the site of a house, garden, and some other enclosure. On this island a handsome house, with pretty appendages, presented an entire contrast to every other building in view. The whole scene had the appearance of enchantment, and in Arabia might not unnaturally have been attributed to the hand of a genie.

Piscataqua (old spelling) bridge is formed in three sections, two of them horizontal; the third arched. The whole is built of timber; the horizontal parts on wooden piers, or trestles, distant from each other twenty-three feet. Of these there are one hundred and twenty-six. Sixty-one on the north-eastern, and sixty-five on the south-eastern

side of the arch. The arch, like those of Haverhill bridge, is triple, but no parts of the work is overhead. The cord is two hundred and forty-four feet, and the versed sine nine feet and ten inches. This arch is the largest in the United States, contains more than seventy tons of timber, and was framed with such exactness, that not a single stick was taken out after it had once been put in its place. The whole length of the planking is two thousand two hundred and forty-four feet. The remaining three hundred and fifty-six are made up by abutments, and the island already mentioned. The expense was sixty-eight thousand dollars.

Built in June 1794, it has served as a connection between the interior of the state and the coast until February 18, 1855, when six hundred feet of it were carried away by the ice. Over a century ago a caravan of one hundred teams might have been seen along the turnpike from Durham to Concord.

In 1803 the N. H. Legislature granted a lottery for raising \$15,000 for the repair and maintenance, and the Durham Historic Association has a large advertisement showing the plan for prizes. Ten thousand first class tickets at \$5.00 each were issued.

## 1967 TOWN WARRANT

TO THE INHABITANTS OF THE TOWN OF DURHAM, County of Strafford, State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at the Oyster River Co-operative Junior High School Auditorium, Durham, N. H., on Tuesday the fourteenth day of March, 1967 A.D., at four o'clock in the afternoon to act on the following articles. (NOTE: Action on ballot Articles 1 through 7 will begin at 4:00 p.m. and will continue until the meeting is officially adjourned. Action on other articles in the warrant will be postponed until 7:30 p.m.)

ARTICLE 1. To choose a Selectman for a term of three (3) years, a Town Clerk, a Collector of Taxes, a Town Treasurer, a Trustee of Trust Funds for a term of three (3) years, four (4) members of the Budget Committee for a term of three (3) years, one (1) member of the Budget Committee for a term of two (2) years, and all elective officers for the ensuing year. (BALLOT)

ARTICLE 2. To see whether or not the Town will vote to amend Article 1, Sections 100.2(a) and 100.2(b) of the Zoning Ordinance of the Town of Durham revised and amended March 11, 1958, for the purpose of changing and extending the boundaries of the Class A Business District now shown on the official zoning map to include the triangular area contiguous to the present Class A Business District bounded on the southwest by Pettee Brook, on the east by Madbury Road, and on the north by Garrison Avenue.

(Recommended by the Planning Board.) (BALLOT)

ARTICLE 3. To see whether or not the Town will vote to amend Article 1, Sections 100.2(a), 100.2(c) and 100.2(d) of the Zoning Ordinance of the Town of Durham, revised and amended March 11, 1958, for the purpose of extending the boundaries of the Class II Residential Dis-

trict, now shown on the official zoning map, to include two portions of the present Class A Business District, and a portion of the present Class I Residential District.

The first is bounded on the west by Madbury Road, on the south by Main Street, on the east by an extension of Newmarket Road (property line of the Shell Gas Station and the Karabelas Apartments) and on the north by a line parallel to Main Street for a depth of 200 feet or the rear property line of abutting properties, whichever is less.

The second part, on the southerly side of Main Street, also includes a portion of the present Class I Residential District and is bounded on the north side by Main Street, on the east by Newmarket Road, on the southeast by Mill Pond Road, on the west by the stone wall dividing the Findell and Rundlett and McCann and Osgood properties, and on the southwest by an existing boundary of present Class A Business District extended southerly to Mill Pond Road. (Recommended by Planning Board.) (BALLOT)

ARTICLE 4. To see whether or not the Town will vote to amend Section 800.1 of the Zoning Ordinance of the Town of Durham revised and amended March 11, 1958, for the purpose of including the following addition:

"Whenever the University of New Hampshire shall acquire ownership of lands not presently within the University District, such land shall become a part of this District at the time the University acquires title to same. Any lands the University does not own, but acquires only the right to use, whether by rental, lease, or other beneficial interest, shall become a part of this District only by amendment."

(Recommended by Planning Board.) (BALLOT)

ARTICLE 5. To see whether or not the Town will vote to rezone that area known as Stony Brook situate off the northerly side of U. S. Route No. 4, bounded northerly and easterly by Beard's Creek, presently standing in the name of Fischer Homes, Inc. from Class I Residential District to Class II Residential District.

(Petitioned by the following 29 legal voters: Theron L. Tirrell, Harold R. Knight, Paul Comtois, Sr., Edith Comtois, Shakrallah S. Jabre, Rushton D. Marston, C. J. Manuel, Daniel M. Ninde, D. A. deMouplied, Chester H. Tece, Louise Tece, C. R. Cross, F. H. Jenkins, Bruce Grant, S. D. Edmond, Dorothy L. Manock, Alma C. Lunt, Roland LaRoche, A. M. Gahan, Jr., Arthur W. Rollins, Gordon E. Robinson, Henry P. Bergson, John H. Hersey, Richard Ford, Kenneth Foss, Erwin Mundy, Clayton L. Follansbee, Harry C. Kettlewood, Lyle Ford.)

The Planning Board accepted the following amendment of the description of the proposed rezoning on its own motion:

"To see whether or not the Town shall re-zone from Class I Residential District to Class II Residential District that area known as Stony Brook, presently standing in the name of Fischer Homes, Inc., situated on the northerly side of U.S. Route No. 4 and more particularly bounded and described as follows: Beginning at a point situated 100 feet, more or less, northerly of the right-of-way of the Dover Road at the northwesterly corner of land of one Lundberg; thence running easterly in the arc of a curve having a radius of 1582.7 feet along land of Lundberg 326.1 feet; thence running N. 86° 15' E. along land of Lundberg 300.0 feet; thence turning and running N. 45°00' E. still along land of Lundberg 165 feet to Beard's Creek; thence turning and running northerly and westerly by Beard's Creek 1270 feet, more or less, to land of one Schaefer; thence turning and running S. 4° E. along land of Schaefer 230 feet; thence running S. 6°58' E. along land of Mullins, Davis and Manuel 311.7 feet to a concrete post; thence running S. 5°53' E. along land of Batho and Chase 333.9 feet to the point of beginning. Containing 9.0 acres."

(Not recommended by Planning Board.) (BALLOT) (NOTE: Petition opposing the change is legally on file, To approve the change, three-fourths of the total vote must be in favor. Durham Zoning Ordinance Article XI, Section 1100.2)

ARTICLE 6. To see whether or not the Town shall re-zone that area known as the Phelps Farm, situate on the easterly side of Route No. 108 in Durham, from Class I Residential District to Class A Business District.

(Petitioned by the following 27 legal voters: William D. Crandall, Jeanne A. Crandall, Dorothy L. Manock, Francis D. Manock, Theron L. Tirrell, John M. Sakowski, David L. Larson, Bruce Grant, Robert H. Simpson, Muriel Tirrell Bourque, Mabel A. Bourgoin, John P. Murphy, Harry Dalton, Celeste DeMambro, Arthur DiMambro, Marian A. Gore, Doris E. Batchelder, M. Elizabeth Rand, Myra L. Davis,

Edmund G. Miller, Jane Dickerman, Edmund Dickerman, Beatrice Bamford, George Bamford, Margaret Smith, Marian E. Mills, Eleanor T. Sawyer.)

The Planning Board adopted the following amendment of the description of the foregoing petition, upon motion of the petitioner, to insert after the words "Phelps Farm" the following legal description:

"A certain tract or parcel of land with the buildings thereon, situate in said Durham, on the southerly side of the road leading from Dover to Durham, containing about 9 acres, more or less, and bounded and described as follows: Beginning at the northerly corner of land of John Emerson; thence running south 74° east on the wall as it now stands 34 rods; thence north 87° east on said wall fourteen rods and fifteen links to an old wall; thence north 2° east on said old wall thirty-five rods to an elm tree; thence north 6° west twenty-eight rods and fourteen links to the road leading from Dover to Durham; thence south 40° west by said road to the first-mentioned bound."

(Not recommended by Planning Board.) (BALLOT) (NOTE: Petition opposing the change legally on file. To approve the change three-fourths of the total vote must be in favor. Durham Zoning Ordinance Article XI, Section 1100.2)

ARTICLE 7. To see whether or not the Town shall re-zone that area situate on the southeasterly corner of Dennison and High School Roads in Durham, formerly known as the Turcotte land, and presently standing in the name of White Enterprises, Inc., from Class I Residential District to Class II Residential District.

(Petitioned by the following 28 legal voters: William D. Crandall, Jeanne A. Crandall, Dorothy L. Manock, Francis D. Manock, Theron L. Tirrell, David L. Larson, Bruce Grant, Robert H. Simpson, John A. Hogan, Muriel Tirrell Bourque, Mabel A. Bourgoin, John P. Murphy, Harry Dalton, Marian A. Gore, Doris E. Batchelder, E. T. Bardwell, Silas B. Weeks, M. Elizabeth Rand, Myra L. Davis, Marion E. James, Edmund G. Miller, Jane Dickerman, Edmund Dickerman, Beatrice Bamford, George W. Bamford, Margaret Smith, Marian E. Mills, Eleanor T. Sawyer.)

The Planning Board adopted the following amendment of the description of the foregoing petition upon the motion of the petitioner to insert after the words "Turcotte land" the following description:

"A certain parcel of land situate at the southeasterly corner of Dennison and High School Roads in Durham, Strafford County and

State of New Hampshire, more particularly shown on plan entitled "White Enterprises, Inc., Dover, N. H., dated January, 1965, G. L. Davis & Associates," and bounded and described as follows:

Beginning at a steel stake at the junction of the easterly sideline of Dennison Road with the southerly sideline of High School Road, at the northwesterly corner of the herein described premises; thence N. 74°32' by the southerly sideline of High School Road a distance of 512.7 feet to a point; thence N. 80° E. by the southerly sideline of High School Road a distance of 573.5 feet to the channel of Beard's Creek; thence southerly by the channel of Beard's Creek a distance of 200 feet, more or less, to the northwesterly corner of land of the Heirs of John F. Woodman; thence S. 82° W. by land of said Woodman a distance of 240 feet, more or less; thence S. 67°37' W. by land of Harry Ossoff a distance of 159.5 feet to an iron pin; thence S. 68°03' W. by land of Wayne Koch a distance of 127.5 feet to an iron pin; thence S. 71°49' W. by land of Stanley Shimer a distance of 127.5 feet to an iron pin; thence S. 74°19' W. by land of Harold Leavitt a distance of 101.5 feet to an iron pin; thence S. 79°30' W. by land of Michael Bales a distance of 101.3 feet to an iron pin; thence S. 79°40' W. by land of Asher Capelle a distance of 90.8 feet to an iron pin; thence S. 80°03' W. by land of Charles Dawson a distance of 98.5 feet to an iron pin; thence S. 10°19' E. by land of said Dawson a distance of 72.1 feet to an iron pin; thence N. 88°53' W. by land of Francis Doyle a distance of 138 feet to the easterly sideline of Dennison Road; thence N. 02°12' E. by the easterly sideline of Dennison Road, a distance of 274.7 feet to the point of beginning, containing 248,000 square feet, more or less."

(Not recommended by Planning Board.) (BALLOT) (NOTE: Petition opposing the change legally on file. To approve the change three-fourths of the total vote must be in favor. Durham Zoning Ordinance Article XI, Section 1100.2).

ARTICLE 8. To see if the Town will vote to empower the Planning Board to review and approve or disapprove site plans for the development of tracts for non-residential uses, whether or not such development includes a subdivision or re-subdivision of the site, in accordance with the New Hampshire Revised Statutes Annotated, Chapter 36, Section 19.a as amended. (Submitted by the Planning Board.)

ARTICLE 9. To see if the Town will vote to authorize the Selectmen to obtain the services of a qualified agency to make re-assessment of land and buildings in the Town of Durham during the calendar year 1968.

ARTICLE 10. To see if the Town will vote to establish a Local Government Study Committee. This Committee will study alternative forms of government for Durham and set up its own procedures among which will be four (4) progress reports published in the **Durham Resident Advertiser** and a final report including specific recommendations, to be presented no later than at the March Town Meeting of 1968. The Committee shall consist of eleven (11) members; five (5) to be appointed by the Town Moderator and six (6) to be nominated and elected from the floor.

(Petitioned by the following 34 legal voters: Silas B. Weeks, George E. Frick, Oliver P. Wallace, Judy L. Simpson, Allison M. Amell, H. W. Hocker, Maryanna Hatch, Carleton P. Menge, Angelo V. Boy, Elizabeth T. Nielson, Lois C. Swan, M. Rae Borrer, John T. Holden, Jarry Stearns, W. M. Stearns, Robert B. Dishman, Forbes Bryce, David L. Larson, Helen Slanetz, Rebecca B. W. Long, David Long, Barbara H. Merrick, Lathrop B. Merrick, Robert G. Webster, Stuart Dunn, Evelyn Marshall, George M. Haslerud, Emery F. Swan, Mary W. Roe, Nell Finlayson, M. R. Irwin, Sam Rosen, D. Wrightsman, J. R. Bowring.)

ARTICLE 11. To see if the Town will vote to authorize the purchase of a certain tract of land from the Gamma Theta Corporation as described on a plan by G. L. Davis Associates dated January, 1967, File 107-28, for the sum of fifteen thousand dollars (\$15,000.00.)

(Money to be raised as provided in Article 13).

ARTICLE 12. To see if the Town will vote to authorize the Selectmen to negotiate with Mr. William Davison and Mr. R. C. Durgin for the purpose of obtaining a piece of land fifty feet (50') in width along Pettee Brook to be used as a public way connecting the lot of land referred to in Article 11 with Jenkins Court and with the present Town Parking Lot.

(See budget.)

ARTICLE 13. To see if the Town will vote to authorize the Selectmen to issue short term notes in the amount of thirty-five thousand dollars (\$35,000.00) payable at the rate of seven thousand dollars (\$7,000.00) annually, starting in 1967 for the purpose of providing fourteen

thousand dollars (\$14,000.00) to pay the balance for the Gamma Theta land (\$1,000.00 paid for option as authorized in 1966), and twenty-one thousand dollars (\$21,000.00) for the purpose of developing the land referred to in Articles 11 and 12 for use as a Town Parking Lot.

(See budget.)

ARTICLE 14. To see if the Town will vote to authorize the Selectmen to negotiate with the University of New Hampshire, and to acquire or dispose of necessary land, relative to site, construction and operation of an incinerator for refuse disposal, and to issue serial notes in an amount not to exceed seventy thousand dollars (\$70,000.00) for acquisition and construction of same, said notes to be repaid over a period not exceeding ten (10) years.

ARTICLE 15. To see if the Town will vote to authorize the Selectmen to issue short term notes in the name of the Durham Water Department not in excess of ten thousand dollars (\$10,000.00) payable at the rate of two thousand dollars (\$2,000.00) per year, or more if feasible, for the purpose of making necessary repairs and improvements to the Wiswall Road dam on the Lamprey River.

ARTICLE 16. To see if the Town will vote to authorize the Selectmen to borrow necessary money in anticipation of taxes.

ARTICLE 17. To see if the Town will vote to raise and appropriate the sum of two hundred dollars (\$200.00) toward the support of the proposed Oyster River Home Health Association.

(See budget.) (Approved by Budget Committee.)

ARTICLE 18. To see if the Town will vote to raise and appropriate the sum of approximately thirty-six thousand dollars (\$36,000.00) to defray its share of the cost of Strafford County Government.

ARTICLE 19. To see if the Town will vote to adopt the budget as submitted by the Budget Committee in the amount of four hundred thirty-seven thousand, four hundred sixty-eight dollars and forty-four cents (\$437,468.44) and to raise by taxes the sum of one hundred eighty-eight thousand, six hundred seven dollars and forty-four cents (\$188,607.44) for the purposes of it.

(See budget detail.)

ARTICLE 20. To transact any other business that may legally come before this meeting.

Given under our hand and seal this Twenty-Seventh day of February in the year of our Lord One Thousand Nine Hundred and Sixty-seven.

## SELECTMEN'S REPORT

On reviewing the annual reports from each of the various committees and officers, elected and appointed, in our town we are greatly impressed with the amount of sincere effort contributed by them, the Town Office staff, town employees and many citizens toward making Durham a pleasant place in which to live. Our appreciation and thanks go to all. We strongly recommend every report in this book as "required reading" for the people of Durham.

The Selectmen have met regularly each Saturday morning except for the period from June 1 to September 1, during which meetings were at irregular times and by appointment. We are pleased that many citizens have met with us to bring to our attention problems, observations, and suggestions about operations, service, obligations and response of town officers and employees to the public.

In writing a Selectmen's report there is a temptation to simply list the many events of the past year with more or less detail according to our idea of their importance. Such a list could be tedious, and we will therefore not attempt to mention all events. Important items are not intentionally omitted but we do wish to avoid duplication of other reports within these covers.

Early in 1966 our Superintendent of Public Works resigned. Within a few weeks, Mr. Thomas Wenham was hired for this important job which, in addition to responsibility for Public Works including the Sewer and Water Departments, also involves assisting the Selectmen and various Town Committees in making all activities a smooth functioning and efficient unit in service to the people. Durham has reached a size at which there must be more delegation of authority and responsibility. Evidence of progress in this direction is seen in the work of Mr. Jack Card as Foreman of the Public Works crew and Mr. Robert Bourk as Waste Water Treatment Plant and Pumping Station operator.

Major events in Durham, 1966: The Waste Water Treatment Plant and two pumping stations became operational. An Open House was held on September 24th. While some operational and management problems appeared in the system at unexpected times, they have been or are in the process of being solved.

There has been a great deal of activity in the subdivision of land (see Planning Board report.) While actual construction has not quite reached the 1965 record, it runs close to it. The Comprehensive Plan, for which funds were appropriated, did not get underway in 1966 due to the fact that Federal aid was not approved in 1966.

Further development of the Wiswall Road dam and the water resources available there will be continued in 1967. This is of interest to the University as well as the Town, as mentioned in the last report.

Another major event was the completion, well ahead of schedule, and putting into service early in July of the Durham by-pass. Although our downtown area is still filled to overflowing with cars at many times, not all of the through truck traffic now has to use Main Street.

As a result of subdivision approval and development, we now have about 10 additional miles of road to maintain. It has been said that at this time Durham is the fastest growing place in the southeastern area. This is reflected in increasing budget items for 1967. One fact seems clear — taxes will be higher. Increased services, which are necessary in most instances, are being requested. Plans are in process for improvements in many areas: roads, sidewalks, safety and others. We must be certain that we are getting a dollar's worth of value for each dollar spent. The tax load is becoming heavy, perhaps even excessive, upon those whose incomes continue to increase; the tax load is becoming oppressive and almost unbearable upon many long-time residents whose incomes are now fixed at a more constant level due to retirement.

Mention should be made of "Alice," the swan. Mr. Robert Faiman was appointed Keeper of the Swan. A partner for "Alice" was obtained and the two swans spent the summer pretty much in seclusion, well up the river from the Mill Pond, out of the public view. They have been housed throughout the winter and we hope they will see fit to appear on the pond and allow us all to see them this coming summer.

## **DURHAM PLANNING BOARD ANNUAL REPORT**

While the Board waited impatiently for Federal approval of the Town's application for a comprehensive planning grant, the immediate problems in 1966 could not wait and business was conducted as usual. In addition to the four regular meetings required by State Statute, the Planning Board held 29 special meetings, 8 meetings with other planning groups, 2 public meetings and 11 public hearings. Final approval was granted on four subdivision applications and one preliminary plan was approved. Five other applications for "limited-subdivision" were also approved, a new category established in June, 1966. Several other revisions and amendments were also made to the Subdivision Regulations of the Town of Durham.

Action taken by the Town Meeting of 1966 authorizing Durham's participation in the Urban Planning Assistance Program and appropriating \$10,000 as the Town's share of the cost of a plan designed to meet the needs of a growing University community, was of great significance to the long-range concerns of the Board. An additional \$3,000 pledged by the University of New Hampshire will facilitate coordination of many interrelated aspects of the planning program which will be conducted by the Planning Services Group of Cambridge, Massachusetts. In anticipation of same, the Board did not recommend, nor did the Town Meeting adopt, any of the proposed amendments to the Zoning Ordinance in 1966.

As this is written, the Board has received word that a grant of \$19,378.00 has been awarded to the Town of Durham, allowing us to proceed immediately on an 18-month study of Durham's present and future development. Considering this delay, the Board now feels certain areas of the Town must be better protected and other areas must be less restricted to allow for expansion of business and multiple dwellings. Therefore, several proposals to amend the Zoning Ordinance will be placed on the official ballot this year in trust that the Town will exercise its best judgment and that resulting decisions will be consistent with the future comprehensive plan.

The Planning Board will need the Town's continuing cooperation and guidance in the months to come. A comprehensive plan is effective only to the degree that it reflects the aims and needs of the total community.

## **REPORT OF THE PARKS AND RECREATION COMMITTEE FOR 1966**

The Town of Durham has nine areas for parks and recreational facilities. In addition, the Town has been offered the use of an area by the Community Church for a ball field. These areas, when properly developed, will offer recreation for everyone — for picnics, observing nature, boating, hiking, skating, and other sports.

This year the Committee decided to concentrate on the marine areas because we felt that by finishing the work in one area it would provide better utilization of the facilities than by doing a little work on each area. To this end we have made the following improvements:

1. Gravelled and graded the parking area and applied hard top to the ramp at Jackson's Landing;
2. acquired the old pumping station, which will be made into rest rooms and a headquarters for Parks and Recreation; graded and seeded the area around the pumping station, and painted and repaired the windows in the pumping station;

3. built a floating ramp at the Shipyard Landing;
4. set stone seats in the Falls area;
5. repaired the stone abutments at the Cedar Point Landing;
6. put up signs listing the regulations at Jackson's Landing and Shipyard Landing;
7. established boundary lines at the Sullivan Park area;
8. cleared brush and stumps for sliding and skiing at Oyster River Park;
9. marked boundary with posts and constructed a path to the Tot Lot; and
10. did maintenance work such as mowing grass, spraying poison ivy, and fertilizing trees and shrubs in the various areas.

There is still a good deal of work necessary to complete the development of the various areas, but with the support of the citizens of the Town and of its various civic organizations, we are certain that progress will continue to be made. We hope everyone will make use of these recreational facilities.

EDWIN RASMUSSEN,  
Chairman

### SEWER DEPARTMENT REPORT

Within the 1966 Town Report you will find the report of the Sewer Policy Committee which states briefly the area of their concern. Also a report by Mr. Robert J. Bourk, operator of the new Waste Water Treatment facilities provides you with some interesting statistics. The Waste Water Treatment Plant was turned over by the contractor for "trial runs" on January 1, 1966. It was operational on March 1, 1966, and the first filtration was made on March 17, 1966. The table showing costs of operation and maintenance of the entire Sewer De-

partment for 1966, its first year of operation as a Town of Durham facility, and the proposed budget for 1967 should be given your close attention.

The sewer rental charge for 1966 for the average family was \$14. Contrary to our hopes (but not our expectations), a slight increase in rental rate will be necessary to meet expenses in 1967. This will be determined when the Sewer Policy Committee and the Board of Selectmen approve the proposed budget, which at time of this writing is subject to change.

While final adjusted figures of costs of the 1964 Sewer Construction Project are still not available, we have in the following tables reported as accurately as possible 1) table of all funds available; 2) total cost of construction of the project; 3) balance of total construction funds; 4) summary of sources of construction funds; 5) sources of bond and interest payments to date.

When the final audit has been made and accepted, the State will submit a payment schedule of State aid for annual payments of the Bond and interest schedule of this project. A schedule of annual payments by the University for their share in the project will also be possible at that time. Cooperation of the University officials is hereby acknowledged with appreciation.

It is hoped that the citizens of Durham, and especially the users who are paying for the day-to-day operation of this system, realize that there is more than one and one-third million dollars invested in this installation. You are invited to visit it and become acquainted with those concerned with its operation: Mr. Wenham, Superintendent of Public Works; Mr. Robert J. Bourk, Plant Operator; and Mr. Ernest Richards, his assistant. The work of these men and that of the Public Works crew who have worked on the installation is hereby acknowledged by the Board of Selectmen.

We cannot close this report without pointing out that our problems are not all solved and more will be

appearing in the near future. Camp, Dresser, and McKee are presently engaged in discovering sources of illegal water that continue to be troublesome. It may become necessary to enlarge the College Brook main line sooner than indicated in the 1963 report. Balance of the construction fund can be used for these expenses.

You should note that this Department requires an annual operational budget of more than \$30,000. If you are connected to the system, you have a direct financial interest in it. All Durham taxpayers are interested in it to some extent through the bond issue payments. All of us benefit by the control of pollution of our whole area.

### ANNUAL REPORT OF WASTE WATER TREATMENT FACILITIES FOR 1966

Gallons of Raw Sewage Pumped and Treated	168,000,000 gallons
Combined Costs of Pumping & Treatment	\$127.00 per million gallons
Chlorine was introduced to the incoming flow at a rate of 150 lbs. per day producing a residual of 5 to 7 ppm. and an overall usage of	13 tons of chlorine gas
Gallons of Raw Sludge Treated	384,198 gallons
Pounds of Raw Sludge Treated	3,204,211 pounds
Dry Filter Cake Disposed of had approximately 80% moisture content and 20% solids	640,842 pounds or 320 tons
Lime used in Filtering	20 tons
Ferric Chloride	3 tons
Cost of Filtering Chemicals	\$1,463.67
Cost of Dry Filter Cake Disposed of per dry ton	\$66.72 per ton

These figures represent the approximate total cost for overall operations for a 10-month period in 1966.

The total cost of operating (salaries, heat, electricity, maintenance, etc.) the Waste Water Treatment facilities for a 10-month period in 1966 was \$21,353.29.

Chemicals Remaining in Inventory as of Jan. 1, 1967

Ferric Chloride	2700 lbs.	\$419.58
Hydrated Lime	5000 lbs.	85.00
Chlorine Gas	4000 lbs.	<u>230.00</u>

TOTAL \$734.58

Respectfully submitted,  
ROBERT J. BOURK

### SEWER POLICY COMMITTEE

#### Town of Durham Report for 1966

Three major policy matters were considered by the committee during 1966, along with numerous minor problems.

The first of these was the preparation of a program for the operation of the greatly improved Durham Sewer System, along with a program for financing the maintenance and operational costs. In its studies which extended over many weeks, the committee wishes to acknowledge its indebtedness for legal advice to Joseph Michael and Harold Moran. The recommendations of the committee were adopted as an ordinance by the Board of Selectmen on February 12. Copies of the ordinance are available at the Town Office.

A second major matter, involving three elements, was referred to the committee. There is evidence that considerable surface and ground water is entering the system. After heavy rains the pumping station and treatment plant must handle and treat three to five times the normal flow. This excess water, commonly called illegal water,

may be coming from surface, roof or cellar drains; sewer lines with open joints or broken pipe; and possibly from foundation or field drain tiles. All such drainage into a sanitary system is prohibited by state law and local ordinance.

A second element is the inordinate amount of grease that is interfering with proper pumping and treatment of sewage.

A third element relates to the trunk sewer line along College Brook. On several occasions it has overflowed. Possible causes are partial blocking of the line, excessive "illegal" water, limited capacity of the line, or some combination of these.

In order to solve the above problems, the committee has recommended to the Board of Selectmen that the engineering firm of Camp, Dresser and McKee be employed to study and make remedial recommendations on the Town portion of the system. The University of New Hampshire has an engineering firm studying its service systems, including sewerage, and it is planning to take such remedial action as may be indicated.

The third matter upon which the committee has made recommendation is that residual interest (\$9,833.80) on bond-issue funds be used for bond repayment in 1966.

Respectfully submitted,

MALCOLM CHASE  
HENRY A. DAVIS  
HERBERT E. KIMBALL  
EUGENE H. LEAVER  
T. RALPH MEYERS

### BOARD OF FIRE COMMISSIONERS

The Board of Fire Commissioners of the Durham-UNH Fire Department are pleased to submit this, our report for the year 1966.

Initially, we must congratulate all members of the

Durham community, both Town and University, for their fine efforts in fire prevention. The fire alarm was not sounded during this past year. Unbelievable? Yet, but none-the-less true, and for this, our sincere thanks to you all. May this silence long continue. This does not mean the Department was idle, for it did receive 161 telephone calls for assistance. These varied in range from 27 malfunctioning fire alarm systems to several animal rescue calls. In addition, equipment and men were sent to six different communities in response for "Mutual Aid Assistance." Statistically, 616 burning permits were issued and 173 fire extinguishers re-charged.

Educationally: the State of New Hampshire conducted a one-week Fire Training School at our station during March. The Durham-UNH Fire Dept. conducted a course for the Hotel Management School in the correct use of all types of fire extinguishers.

In addition to hosting the Strafford County Fire Wardens instructional meeting, the Fire Chief and various members of the Department attended training schools at both Laconia and Meadowood. Routinely, of course bi-monthly drills were held for our dedicated call men covering a wide range of subjects from connecting hose lines to the standpipes on the eighth floor of Stoke Hall to taking courses in first aid. Increasingly we are using visual aids (films) to precede and follow up actual training sessions.

The Board of Fire Commissioners is continually striving for excellence, with the full knowledge that this cannot be purchased by the tax dollar alone but must be attained through steady equipment growth, by the employment of dedicated personnel, and the creation of a high degree of department morale. While we do not claim to be number one in all of these categories, we feel that our past records should indicate that we are still on the right track.

Respectfully submitted,  
R. W. DALAND,  
Chairman

## FIRE RECORD

Fire records are made by people—those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best control records in recent years. Despite a very dry spring, we in New Hampshire, working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us: (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush-burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres—a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn, you will need a permit. Permits are not issued between 9 a.m. and 5 p.m. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk, the best way to dispose of rubbish is at your authorized Town or municipal dumping area.

2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — Instruct your children that matches are not play things.

### Truly — Only You Can Prevent Forest Fires

Fires in District	42	Acres Burned	261½
-------------------	----	--------------	------

IVAN E. SCRANTON,  
District Fire Chief

JOHN F. DONOVAN,  
Forest Fire Warden

## POLICE DEPARTMENT

Your Police Department has endeavored to provide the best possible security for the Town and for UNH students when off campus, during 1966. The rate of growth of our community has been, and will continue to be, unprecedented in municipal records. The table at the end of this report shows in part the recorded activities of the Department.

Traffic direction and control in itself has been an ever-increasing task for our police. A recent survey shows that in addition to normal town traffic there are 1,720 commuter cars entering Durham between the hours of 6:30 and 8:30 a.m. (Placed bumper to bumper, this would create a traffic jam three miles long.) These same vehicles are Durham's traffic during the day and then become transient in the late afternoon. The Durham bypass has been of immeasurable assistance, but it is interesting to note that today, at peak periods, there is nearly double the number of cars entering Durham as compared to 1963.

Durham's increase of approximately 10 miles of residential streets in the past three years, plus 102 new residences, requires considerable police work.

Of concern to the Department and the Board of Selectmen is our inadequacy in immediate follow-up and investigation of many complaints. This results from the fact that frequently our officer is occupied with other duties. Much has been done to establish efficient dispatching of personnel. It is hoped that in the near future a central Town-UNH dispatching center will be established, which will eliminate the present answering service.

Durham presently has 24-hour police coverage, seven days a week — but too often this consists of only one man on duty.

We are pleased to report that one officer who was seriously ill and another who suffered serious on-duty injury are both again providing valuable service to the Department.

Below are listed some of the functions performed in 1966, and compared with the number of similar activities in 1963.

	1963	1966
Complaints answered	180	330
Parking tickets issued	1,241	2,630
D. E. tags issued	223	214
Aids rendered	541	1,718
Accidents covered	102	186
M.V. Warnings issued	284	318
Cases in court	414	453
Summons issued		198
Criminal investigations		41
Telephone calls received		3,334

### DURHAM PUBLIC LIBRARY

The Town appropriated \$3,000 for books and other materials for 1966. This was divided in the following fashion: \$2,500 for children's materials, \$500 for adult materials.

Although the Children's Book Collection is not total-

ly adequate, the Town appropriated funds will fill in most gaps within the next five years and provide at least 15% of new children's titles published annually in the U.S.

	Projected Expenditure of Budget
450 titles	New titles published in 1966-67 (15% of 3,000 titles published although 25% would be a more optimum percentage)
250 titles	Replacement for worn out or missing books
133 titles	Retrospective titles (standard books from past years to fill gaps)
833 x \$3 (average price) —	\$2,499

Picture books were ordered quite heavily this year because it was a weak area, and a planned pre-school children's picture book program will need many new titles.

Six areas need extensive retrospective buying (50-100 titles each): history-geography, biography, animals, holiday material, crafts, and sports — both fiction and non-fiction.

The following areas need minor retrospective buying (5-20 titles each): nature study, inventions, explorers, health and medicines, transportation and Indians.

The Library has about \$900 for adult materials: \$500 from appropriated funds; \$400 from endowed funds.

This provides about 150 new adult public library titles per year. There is a minimum of 10 new titles per week that we should be acquiring at a cost of \$3,000.

Total Adequate Book Budget: \$5,500

Respectfully submitted,  
DONALD E. VINCENT  
Librarian

## JOINT TOWN — UNIVERSITY ADVISORY COMMITTEE

The Committee met four times in 1966. Matters of concern to both Town and University were frankly presented, discussed and recommendations for action made following preliminary work by sub-committees in various areas. Progress reports, conclusions and action proposed were considered by the Committee.

Mutual problems discussed included pollution control and sewerage treatment; water supply resources; town planning, the Comprehensive Plan and its relation to the University; police, traffic, and public safety Town-University public library relationship; rubbish disposal and others.

The December meeting was of particular interest in that all sub-committees had reports showing study, investigation and recommendations on all subjects of mutual interest ranging from "illegal water and College Brook odor" to "elimination of the 1:00 p.m. whistle." The Committee is indebted to Mr. Leaver, Superintendent of Properties at the University, for his detailed reports on many subjects presented at this meeting.

This Committee, while entirely unofficial insofar as any charge by the Town or University Trustees, has a very valuable role in providing a means whereby Town and University officials may discuss and, hopefully, solve to mutual satisfaction many matters in our Town of concern to both parties.

Final action resulting from deliberations of this committee is included in the report of the Department or Committee concerned.

It is the recommendation of the Committee that it meet at least once every three months and that an agenda of the proposed meeting be provided each member prior to the meeting.

Members of the Committee for the year are listed in

the Directory of Town Officials and Committee Membership.

JAMES C. CHAMBERLIN,  
Chairman

HENRY A. DAVIS,  
Secretary

## REPORT OF HEALTH OFFICER FOR YEAR 1966

No serious outbreaks of communicable diseases were reported to the Health Officer during the year. Supervision of the sanitary quality of the water and milk supplies was continued and considerable attention was given to maintaining good sanitary conditions in our Durham restaurants and stores. Inspections were also made of the kitchens, toilets and locker rooms in the Elementary and Junior High Schools. Our program of inspection and approval of all septic tank disposal systems was continued for all new homes in Durham not serviced by the Town sewerage system.

A major achievement in the field of public health for the Town of Durham in 1966 was the completion of the new Water Pollution Control facility. This new plant meets the required remedial action that was ordered by the New Hampshire Water Pollution Commission in 1962 for the treatment of the Town's raw sewage. Bacteriological tests indicate a marked improvement in the sanitary quality of the water in the Oyster River estuary since the plant has been in operation.

L. W. SLANETZ,  
Health Officer

## TRUSTEES OF TRUST FUNDS ANNUAL REPORT

After several years of negotiation, the Town and the Boston and Maine Railroad have reached an agreement

under which the Town has relinquished its right of way across the B. & M. tracks to the Doe Farm in return for a payment of \$1,000.

Proceeds from the B. & M. payment were used to improve the entrance to the Doe Farm from the Bennett Road. The right of way has been fenced, a parking space at the Bennett Road has been provided and a gravel road has been started. It is hoped that the road can be completed during the coming summer with culverts to make it an all-season road.

Improvements in the Town landing area and at the Smith Chapel have been financed in part by contributions from private individuals and organizations, with many volunteers helping in both projects.

Stained glass windows in the chapel now are protected with Plexiglass coverings. Improvements to the chapel and grounds have made it so attractive that three weddings have been held there during the year.

MALCOLM J. CHASE  
FRANCIS E. ROBINSON  
BRADFORD M. KINGMAN

## **PUBLIC WORKS DEPARTMENT REPORT**

The Town of Durham Public Works Department is responsible for maintenance and construction of Town streets, water and sewer mains, snow plowing, trash collection, construction of sidewalks, traffic signs, the general improvement and upkeep of Town lands, the Waste Water Disposal plant, and pumping stations.

The Department consists of the Director of Public Works, Highway Foreman, Sewage Treatment Plant operator and nine men.

Some of the major projects completed this past year are: the installation of 175' of 12" drain and two catch basins in Beard's Court; the Dix-sealing of Faculty Road; the widening of Canney and Bagdad Roads; the removal

of 40' of sewer pipe on Garden Lane that has been a constant trouble spot in that roots were getting through the joints and restricting the flow, (this was replaced with new A.C. pipe and seems to have solved the problem); the rodding out of the College Brook sewer main from Newmarket Road to Chesley Drive; Mill Road was completed and asphalted along with drainage installed; the penetration of about two miles of roads; the sealing of about 4 miles of roads by contract; the blowing of ledge; widening and rebuilding of Longmarsh Road, Bay Road, and Dame Road (these roads were for the most part only single lane and very rough; they are now passable for two cars and a lot more enjoyable to ride on); the removal of 11 houses from the old Pettee water system and the installation of a new main connected into the Town water supply (these homes now have better pressure and each house has its own valve so it can be shut off individually without interruption to other people); the construction of sidewalk and drain installation on Edgewood Road from Madbury Road to Davis Avenue; the Town parking lot was lined; the Town garage was painted, new fluorescent lights installed in the closed parts, and lights installed in the open shed and salt bin, and a concrete floor was installed in our little shed.

The Town acquired a used Austin-Western grader which was very helpful in snow removal and grading dirt roads in preparation for asphalt treatment.

A new 27,500 G.V.W. truck was ordered with plow and wing. This new truck is the biggest in our fleet of five trucks.

THOMAS M. WENHAM  
Director of Public Works

## **CEMETERY COMMITTEE ANNUAL REPORT**

The Town crew has continued to maintain the Town Cemetery. Grading and seeding of new sections has been completed.

A well point has been driven to provide water near the cemetery storage shed.

The loan from the Durham Trust Company which was obtained to finance creation of new burial space has been paid off completely during the year with proceeds from the sale of lots and an allotment from principal funds.

Information on financial transactions is included in the statistical report of the Trustees of Trust Funds.

### ANNUAL REPORT OF THE DURHAM CONSERVATION COMMISSION FOR 1966

The Durham Conservation Commission has continued to meet monthly except during the summer months. Commission members are Mr. Kenneth Barraclough; Mrs. Robert Congdon, Secretary; Mrs. John Hatch; Mr. Lathrop Merrick; Mr. Philip Sawyer; Mr. Donald Sumner; and Mr. Oliver Wallace.

The Commission is still hampered by the lack of a detailed map of Durham, but some progress has been made this year. As a by-product of a detailed soil survey of Durham, the U.S. Soil Conservation Service has prepared for our use soil maps that are of particular interest to us. The maps portray the location of water ways, wet land soil types, and soils suitable for wildlife developmental purposes. By use of transparent over-lays, the basic map can be used in many ways.

We will work closely with the Planning Board in the development of open spaces as part of the newly assured comprehensive plan.

We are hopeful of building a Fund that would be held in the hands of the Trustees of Trust Funds, but would be available to the Conservation Commission for the purpose of taking options of easements on, or purchasing desirable pieces of property as they become available.

At present, we have negotiations underway that may result in the transfer to the Conservation Commission of two pieces of property suitable as open spaces or for other conservation purposes.

PHILIP J. SAWYER,  
Chairman

BEVERLY R. BURROWS,  
Clerk of Court

**CIVIL DEFENSE REPORT**

I was appointed Durham's Civil Defense Director in September, 1966, to fill the vacancy created by the resignation of Sheldon Prescott because of other duties.

Mr. Prescott had done most of the initial paper work required, and I have completed the balance so that Durham is now on the "eligible list." This means that through the Civil Defense agency we can buy surplus government equipment for the Town. Thus far, we have obtained surplus clothing for the Public Works Dept. crew; the Police Dept. is also using some of this clothing as members of the Civil Defense team. The articles purchased were overshoes, flight pants, flight jackets and gloves. Presently on order are a desk for the Town Hall and a pickup truck to be used by the Public Works Department.

I am currently attending a Civil Defense Management course. Classes for this course, given in cooperation with the University of New Hampshire, are held in Concord over a ten-week period.

As more equipment that can be used in Durham becomes available, we will make every effort to acquire it.

THOMAS M. WENHAM,  
Director, Civil Defense

**July 1, 1966 to December 31, 1966**

Paid State M.V. Dept. July 1 - Dec. 31	840.00

# MINUTES OF TOWN MEETING

March 8, 1966

The meeting opened at 4:00 p.m. and Moderator Francis Robinson read Article 1. It was moved by James C. Chamberlin and seconded by Wallis Rand that the reading of Articles 2 through 14 be postponed until 7:30 p.m., to be acted upon at that time. Motion carried and balloting on Article 1 proceeded.

## Article 1. Results of balloting:

Selectman	James C. Chamberlin	421
Town Clerk	Phyllis Poland	513
Treasurer	Forrest H. Smart	558
Tax Collector	Phyllis Poland	510
Trustee of Trust Funds	Bradford M. Kingman	654
Budget Committee:		
for 3 years	Rebecca B. W. Long	550
	Silas B. Weeks	508
	Paul E. Schaefer	639
	Henry T. Soper	544
for 2 years	George F. Sawyer	669
for 1 year	Thelma Brackett	669
Total votes cast —	769	

Moderator Robinson suspended voting on Article 1 at 7:38 p.m. and announced that balloting would be continued after consideration of Articles 2 through 14 until all who wished to vote had the opportunity to do so.

Article 2. Moved by James Chamberlin, seconded by Wilfred Osgood, to authorize the Selectmen to sell and transfer the tax lien and/or title to real estate acquired by the Town at a tax collector's sale for non-payment of taxes, in default of redemption from such tax sale within the time limited by law, by deed or otherwise upon such terms as the Selectmen shall deem to be in the best interests of the Town. Motion carried.

Article 3. Moved by Henry A. Davis, seconded by Paul Schaefer, that the Selectmen be authorized to borrow necessary money in anticipation of taxes. Motion carried.

Article 4. Moved by Donald M. Sumner, seconded by Harold Langley, Jr., that the Town vote to raise and appropriate approximately \$33,000 to defray its share of the cost of Strafford County Government. Motion carried.

Article 5. Moved by Barbara Morse, seconded by Roger Eriksson, that the Town vote to direct the Representatives of the General Court to introduce in the next session of the General Court a bill to limit the use of firearms within the Town limits. Upon motion made and duly seconded, it was voted that Article 5 be laid on the table for 1966. (Vote by show of hands. Yes-242; No-154.)

Article 6. Amendment offered by Karen Mower, seconded by Donald Sumner, that Town raise and appropriate the sum of \$3,500 for the University of New Hampshire to hire a children's librarian to serve half-time, this amount to be a restricted gift to be used for this specific purpose. Amendment carried. Motion as amended carried.

Article 7. George Frick moved and William Davison seconded that the Town participate in the Urban Planning Assistance Program. Donald Sumner offered an amendment changing the amount of the Town's contribution to the plan from \$8,000 to \$10,000. Amendment carried. Motion as amended carried.

Article 8. Moved by Donald Sumner, seconded by Henry A. Davis, that the Town authorize the Selectmen to pay \$1,000 to secure an option on property owned by Gamma Theta of Alpha Tau Omega for the purpose of developing a parking lot and/or such other purposes as the comprehensive plan may recommend. Motion carried.

Article 9. The legality of Articles 9, 10 and 11 was questioned by Harold Langley, Jr. Moderator Robinson read the legal opinion of Richard E. Dill of Boynton, Waldron & Dill, counsel for the Durham Planning Board, which stated that in his opinion articles 9, 10 and 11 were not legal, per RSA 31:63A.

Moderator Robinson explained that he had no auth-

ority to withdraw any articles in the warrant and suggested the following alternatives:

1. Accept the articles as in the warrant and vote on them;
2. Postpone consideration of the articles indefinitely;
3. Reject the articles.

It was explained that a petition had been received by the Moderator from adjacent landowners representing 20% or more of the land adjacent to that land which would be affected under articles 9, 10 and 11, and therefore these articles would, by law, have to be carried by a two-thirds vote.

Moved by Richard Bernard, seconded by Donald Marschner, to reject Article 9. Motion carried.

Article 10. Moved by Harold Langley, seconded by Oliver Wallace, to reject Article 10. Motion carried.

Article 11. Moved by Charles Dawson, seconded by Harry Keener, to reject Article 11. Motion carried.

Article 12. James Chamberlin moved, Donald Sumner seconded, that the Town authorize the Selectmen to retain the necessary legal counsel to protect the interests of the Town in the matter of the towns of Madbury and Lee vs. the Town of Durham regarding State of New Hampshire Foundation Aid Funds. Motion carried.

Article 13. Chairman of the Budget Committee, Paul Schaefer, moved that the Town vote to adopt the budget as amended by vote of the Town Meeting in the amount of \$308,675.39 and to raise by taxes \$121,321.39. Seconded by Kenneth Barraclough. Article carried, as amended.

Article 14. James Chamberlin offered the following resolution:

WHEREAS MARION FOGG has served the Town of

Durham as Town Clerk and Tax Collector, to which offices she was duly elected by the voters of the Town in 1962, 1963, 1964 and 1965, to the date of her resignation on December 31, 1965, and

WHEREAS MARION FOGG as Secretary to the Board of Selectmen assisted in the establishment of and thereafter maintained up-to-date records for Durham's Water and Sewer Departments, assessment files and other essential records, and

WHEREAS MARION FOGG met the public in person and by telephone, at the Town Office, rendering help in many cases beyond the call of duty in the numerous and varied requests made by the public for "instant action" with dispatch:

THEREFORE, be it resolved that the Board of Selectmen and the voters of Durham publicly acknowledge and place on record a vote of sincere appreciation for the service to the public rendered by MARION FOGG during this period of rapid growth of the Town and its consequent demands upon the time, patience and good nature of its elected and appointed officials.

Resolution seconded by Mrs. Maryanna Hatch and adopted. On behalf of the Town Mrs. Hatch presented an engraved pewter Revere bowl to Mrs. Fogg.

Philip Wilcox moved, and it was seconded by several, that the Selectmen appoint an official of the Town as "Keeper of the Swan." Motion carried. Mr. Wilcox suggested the name of Howard Forrest.

Moved by Charles Dawson that when an article is placed on the warrant by petition, the names of the petitioners be printed with the article. Seconded by Harry Keener. Motion carried.

At the request of James Hill, James Chamberlin, speaking for the Board of Selectmen, explained the reason for difficulty with excess water in certain sewer lines and the measures being taken to remedy the situation.

Upon motion made and duly seconded, it was voted to re-open the polls to give all those who wished to vote the opportunity to do so.

Adjourned, 9:18 p.m. and polls closed at 9:39 p.m. Following the counting of the ballots the Moderator gave the oath of office to Phyllis Poland, having been elected Town Clerk and Tax Collector; Mrs. Poland gave the oath of office to James Chamberlin, having been elected Selectman.

PHYLLIS POLAND,  
Town Clerk

### 1966 ANNUAL REPORT — TREE WARDEN

Town trees on main streets were sprayed for Dutch Elm beetle. Again methoxychlor was used because it is not harmful to warm-blooded animals. Even though the spray program has been in effect for a number of years, street elms are still dying from Dutch Elm. Several large trees were cut this past year and a number of others will be cut this coming year.

Pruning of street trees was completed. Not all of the Town trees are under New Hampshire Electric Company lines, so it is necessary from time to time to prune the trees which are not treated by New Hampshire Electric Company. Removal of dead limbs is important not only to the health of the trees, but to the safety of the community.

Brownie Troop 228 planted two sugar maple trees in the Falls Park on Newmarket Road. This planting is part of a concerted effort to increase the number of shade trees on Town land. During 1967 an effort will be made to plant trees along the Town streets where shade trees have been cut.

HAROLD W. HOCKER

### REPORT OF OVERSEER OF PUBLIC WELFARE FOR 1966

Durham has no "public relief role" because long-term assistance to the needy is now primarily a federal function. The Federal and State governments share in financing old-age assistance, aid to the blind, aid to families with dependent children, and aid to the permanently and totally disabled. In New Hampshire, local communities also make a contribution to this kind of aid. Last year Durham paid 25 to 35% of the support required for five of its citizens receiving either old age assistance or aid to the permanently and totally disabled.

Besides those needing help because of age or disability, there are people living in Durham who can now use or may soon need some form of local welfare assistance to help them through a personal or family crisis. The needs of this group fall mostly in the emergency, short-term or modest assistance category. Their own incomes are so small that they cannot meet extraordinary expenses. During the past year the Town has assisted three individuals and five families needing this kind of help. Some of these cases took many hours; others were more easily handled.

As your Overseer of Public Welfare, I have received the cooperation of my predecessor, the Town's four pastors, the school district nurse, the Salvation Army, and a group of University students who have willingly provided free services as well as food baskets. The Board of Selectmen and the Town Clerk and her assistants have been most helpful. There are also numerous individuals and groups who carry on their own activities for relieving the suffering or misfortunes of others. In addition to the foregoing, I have received and helped to distribute baskets of food donated by other groups and have gratefully received and dispensed cash donations. I have also visited and had the cooperation of the Riverside Rest Home, run by

Strafford County and supported in part by your county tax dollars.

I have also attended conferences on welfare, medicare, and the whole new and expanded approach to community-wide public health care. I am serving on a tri-community pilot committee whose purpose is to make home nursing care under medical supervision available at a reasonable fee to anyone in Lee, Madbury, or Durham who needs it. This need has long been felt in our three communities. Many persons have suffered unduly and been separated from their families and homes as a result of this lack. Such a service would help to relieve our over-crowded hospitals and make beds available to those more seriously ill. This kind of service can never be totally self-sustaining — it will need some financial support from our towns and our townspeople.

Because of the increasing numbers of persons over 65 years of age in Durham (it is estimated that there will be to total of 323 by 1975) the community should, with the cooperation of the University, begin to plan now for housing for the elderly which will be within walking distance of the center of Durham.

Respectfully submitted,  
URSULA BOWRING

**WATER DEPARTMENT**

Progress has continued during 1966 in the gradual improvement of the water distribution system. A new main line in the Madbury Court and nearby Madbury

Road area permitted cut-off of some of the remaining, very old "Petee water system" installation which is filled with rust and subject to leakage. It is planned during 1967 to replace old 2" pipe on Bay View Road and Mead-ow Road with 6" main line and hydrant installations.

A program of flushing and cleaning out main lines of the system was carried out during the month of April. Thanks are due to the University of New Hampshire and personnel involved in this project. Flushing will be necessary at intervals in the future to remove accumulated residues in the pipes which build up in them after several months use.

While replacement of meters reported or located as troublesome has continued, a more definite plan for testing meters is needed and will be effected as soon as possible.

Request has been received for extension of the water system along Mill Road beyond the Oyster River. Details on this possible project are being investigated. Water resources for the Town and University will be greatly improved with the repair of the Lamprey River Dam in Packers' Falls, purchased by the Department in 1965, and the construction of a pumping station and line to deliver this water to the present treatment plant by the University. Both of these projects are planned for 1967.

The repair of the dam was submitted for bid under the direction of our engineers, Camp, Dresser & McKee, in September, 1966. On recommendation of the engineers, all bids were declined and the project will be re-submitted for bid in 1967.

The number of metered accounts on December 31, 1966 was 558. Water consumption from October 1, 1965 through September 30, 1966 was 54,956,308 gallons. This compares with consumption of 53,249,372 gallons for the corresponding period ending September 30, 1965, an increase of 1,706,936 gallons.

HARRY M. FITZ,  
Building Inspector

## TOWN OFFICE STAFF

Mrs. Phyllis Poland as Tax Collector, Town Clerk, and Secretary to the Board of Selectmen, and Miss Linda Ekdahl, bookkeeper and general assistant, constitute the full-time Town Office staff. Some additional hourly help is employed.

The salary budget for operation of the Town Office in 1967 is \$11,400. The sources of this money is as follows:

(1) Tax Collector's salary (see budget)	\$ 1,600.00
(2) Tax Collector's fees (see budget)	300.00
(3) Town Clerk's fees (see budget)	2,500.00
(4) Clerical salary (see budget)	3,000.00
(5) From Water Dept. (not in tax rate)	2,000.00
(6) From Sewer Dept. (not in tax rate)	2,000.00

Total      \$11,400.00

The total includes provision for extra help at \$1.50 per hour for 12 hours per week for 40 weeks.

### Director of Public Works

Salary distribution:	
(1) Town Budget funds	\$5,700.00
(2) From Water Dept. (not in tax rate)	1,000.00
(3) From Sewer Dept. (not in tax rate)	2,300.00

Total      \$9,000.00

**Town Treasurer**

Salary distribution:	
(1) Town Budget funds	\$300.00
(2) From Water Dept. (not in tax rate)	100.00
(3) From Sewer Dept. (not in tax rate)	100.00
<b>Total</b>	<b>\$500.00</b>

# State Audit

DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION

Concord, New Hampshire

**Summary of Findings and Recommendations**

February 6, 1967

Board of Selectmen  
Durham, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Town of Durham for the fiscal year ended December 31, 1966, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

**Scope of Audit**

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Water and Sewer Department, Trustees of Trust Funds, District Court and Sewer Bond Fund.

**Financial Statements**

Comparative Balance Sheets: December 31, 1965 —  
December 31, 1966: (Exhibit A-1)

Comparative Balance Sheets as of December 31, 1965 and December 31, 1966, are presented in Exhibit A-1. As indicated therein the Net Debt decreased by \$18,901.19 in 1966.

Analysis of Change in Financial Condition:  
(Exhibit A-2)

An analysis of the change in financial condition of the Town during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

**Decrease in Net Debt**

Payments on Long Term		
Indebtedness — Town	\$61,000.00	
Payments on Long Term		
Indebtedness — Water	2,000.00	
Increase in Accounts Receivable—		
a/c Sewer Entrance Assessments	120.00	
Decrease in Accounts Payable —		
Sewer Department	170.66	
Decrease in Accounts Payable —		
Policemen's Retirement	22.28	
Tax Collector's Overpayments		
Refunded	41.70	
Tax Collector's Excess Credit	2.00	
	\$63,356.64	

**Increase in Net Debt**

Decrease in Accounts Receivable —		
a/c Employees' Deductions	\$ 82.09	
Tax Liens Transferred to Tax Deeds	569.61	
Surplus Used to Reduce Tax Rate	15,000.00	
Net Budget Deficit	28,753.75	
Increase in Accounts Payable —		
Due Tax Collector	50.00	
	\$44,455.45	
NET DECREASE		\$18,901.19

Comparative Statements of Appropriations and  
Expenditures — Estimated and Actual Revenues:  
(Exhibits A-3 & A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1966, are presented in Exhibits A-3 and A-4. As indicated by the budget summary (Exhibit A-4), a net overdraft of appropriations of \$16,228.70 plus a revenue deficit of \$12,525.05, resulted in a net budget deficit of \$28,753.75.

Summary Statement of Receipts and Expenditures:  
(Exhibit B-1)

A summary of receipts and expenditures for the fiscal year ended December 31, 1966, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1966, is indicated in Exhibit B-2.

Water and Sewer Departments: (Exhibits B-3 & B-4)

Statements of the receipts and expenditures of the Water and Sewer Departments are presented in Exhibits B-3 and B-4.

District Court: (Exhibits E-1 & E-2)

Statements of the accounts of the District Court for the periods January 1, 1966 to June 30, 1966, and July 1, 1966 to December 31, 1966, are included in Exhibits E-1 and E-2.

Statement of Bonded Indebtedness: (Exhibit G)

A statement of the outstanding bonded indebtedness as of December 31, 1966, showing annual debt service requirements, is contained in Exhibit G.

Sewer Bond Fund Account: (Exhibit H)

A statement of the activity in the Sewer Bond Fund Account during the fiscal year is presented in Exhibit H.

### AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks.

Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

### GENERAL COMMENTS

Current (Deficit):

The current financial condition of the Town changed from a current surplus (excess of total assets over current liabilities) of \$40,237.37, to a current deficit (excess of current liabilities over total assets) of \$3,861.44 in 1966, as shown herewith:

	December 31, 1965	December 31, 1966
Total Assets	\$396,859.62	\$365,776.48
Current Liabilities	356,622.25	369,637.92
Current Surplus or (Deficit)	\$ 40,237.37	(\$ 3,861.44)

Surety Bond:

The surety bond of the Town Clerk should be increased from \$8,000.00 to \$10,000.00.

Overdraft of Appropriations and Application of  
Municipal Budget Law:

It is noted that there was a net overdraft of appropriations in the amount of \$16,228.70, — in other words total expenditures exceeded total budgetary appropriations by this amount. In cases of this sort the provisions of the Municipal Budget Law (R.S.A. 32:10) requires that the Board of Selectmen, with the approval of the Budget Committee, petition the State Tax Commission for a certificate of emergency which would authorize the expenditures made in excess of appropriations. Our records do not indicate that this procedure was followed.

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Durham for their assistance during the course of the audit.

Yours very truly,  
HAROLD G. FOWLER  
Director  
Division of Municipal  
Accounting  
State Tax Commission

**CERTIFICATE OF AUDIT**

This is to certify that we have examined and audited the accounts and records of the Town of Durham for the fiscal year ended December 31, 1966. In our opinion, the Exhibits included herewith reflect the true financial condition of the Town as of December 31, 1966, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,  
HAROLD G. FOWLER  
Director  
Division of Municipal  
Accounting  
State Tax Commission

O. Maurice Oleson, Auditor  
Laurence M. Bean, Accountant
