Number of woodchucks on which a bounty has been paid....	876

WARRANT FOR TOWN MEETING.

[L.S.]

THE STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Wolfeborough qualified to Vote in Town affairs:

You are hereby notified to meet at the Town House in said town on the SECOND TUESDAY OF MARCH NEXT, at nine of the clock in the forenoon, to act upon the following subjects:

- 1st. To choose a Moderator to preside in said meeting.
- 2d. To choose a Town Clerk for the year ensuing.
- 3d. To choose three Selectmen for the year ensuing.
- 4th. To choose a Collector of Taxes, and all other necessary officers, for the year ensuing.
- 5th. To see what sum of money the town will vote to raise to defray town expenses.
- 6th. To see what sum of money the town will vote to pay on its indebtedness.
- 7th. To see what sum of money the town will vote to raise to break roads the past winter.
- 8th. To see what sum of money the town will vote to raise for school purposes, in addition to that prescribed by law.
- 9th. To see what sum of money the town will vote to raise to repair highways.

10. To see what sum of money the town will vote to raise to pay each fireman legally returned, in addition to that allowed by law, agreeable to a petition signed by C. F. Piper and others.

11th. To see what action the town will take in regard to purchasing a road machine.

12th. To see if the town will instruct the Selectmen not to assess any tax upon the bonds of the Wolfeborough Steam Power Company for the remainder of the term of ten years from the first of February, 1884.

Also to see if the town will instruct the Selectmen to abate any tax or taxes uncollected, which were assessed for the year 1884 upon the bonds of the Wolfeborough Steam Power Company.

And also to see if the town will refund to holders of the bonds of the Wolfeborough Steam Power Company the taxes paid by them on said bonds for the year 1884, agreeable to petition by A. W. Durgin and others.

13th. To see if the town will vote to reduce Cook's Hill and raise the bridge over the stream near Fernald's Corner, and also to see what sum of money the town will vote to appropriate for that purpose, agreeable to petition signed by Benjamin F. Parker and others.

Given under our hands and seal, this twenty-first day of February, 1885.

SCHOOL REPORT.

To the Inhabitants of the town of Wolfeborough:

The never ceasing course of time has brought us to the close of another school year; at which time I am by Statute, required to report to you the standing of the schools under my charge for the last year.

Wisdom and knowledge as well as virtue and Christianity taught to and diffused among the common people are necessary for the preservation of their rights and liberties and as the common school is the best means of instructing it behooves us a town to cherish and support in every way possible the only source from which the larger part of our minor^r can obtain an education I am decided in the opinion, that as a general rule, parents and guardians are negligent in compelling the children committed to their care, to attend school. It is very important that all the children of lawful age should attend every day of school in their district for in most of the districts the terms are very short. One hindrance to the scholars is the frequent change of teachers. I would urge the committee to employ the same teacher in the same school for several years. I take pleasure in stating that I believe the schools as a whole never were in a better condition than during the past year. I have tried to impress on the teachers what was required of them and they have labored faithfully and for the most part enthusiastically to discharge their duties and in many of the schools the scholars quickly caught the enthusiasm manifested by the teachers and the results have been excellent.

I have visited every school as required by law at least twice each term, having made in all 47 visits. Every time I have tried by advice to encourage the pupils to make a more earnest effort. I regret that parents and guardians who are alone responsible for the education of their children, do not take a greater interest in our schools by frequent visits and thus imbue the scholars with a desire to excel.

Absences and tardinesses retard the advancement of schools and should be avoided. The parent who allows or detains a scholar at home should remember that by so doing he will soon be at the foot of his class or in the next class below.

Often the teacher is called slack, good for nothing or accused of partiality when the whole trouble is with the parents.

SCHOOL MEETINGS.

The parents should attend if possible, the annual meetings for the choice of Prudential Committees and exert themselves to elect a committee who is intelligent and takes an interest in the school and will not use his office to favor any clique. I think our school officers as well as teachers are changed too often since the best results have been obtained when the teachers have been employed two or more successive terms.

DISTRICT No. 1.

The summer term of school was taught by Miss Emma J. Davis of Wolfeborough. Miss Davis is a graduate of Wolfeborough High School and was one of the best teachers in town the past season. The fall term of ten weeks was taught by Miss Sadie L. Edgerly of Wolfeborough, who was an active teacher and gave good satisfaction. The next term was begun by Miss Ada E. Whiting of Parsonsfield Me. but owing to sickness, she resigned and the remaining five weeks of the term were kept by Miss L. Maude Cate of Wolfeborough. This was Miss Cate's first school, like Miss Davis she was a graduate of Wolfeboro' High School and the close of her school showed that the scholars made great improvement.

REPORT FROM DISTRICT No. 2 BY C. H. PARKER, CHAIRMAN OF BOARD OF EDUCATION.

To the School Committee of the town of Wolfeborough for the year 1884-1885.

The Schools in District No. 2, have labored under the disadvantage of want of sufficient public funds to sustain them the number of weeks that would be profitable. This was in part compensated by contributions from a portion of the citizens, sufficient to continue the Grammar Department eight weeks longer than it could otherwise have continued. The Primary Department labored under the additional misfortune of an unsuitable place in which to hold its sessions. With these exceptions the schools have been as prosperous as could be reasonably expected and the results highly satisfactory to the Board of Education in this district.

The Primary Department was under the instruction of Miss Annie I. Warren of this town. Miss Warren had had some previous experience in this school, which served her well during the present year. She had learned something of the difficulties under which an attempt is made "to learn the young idea how to" *begin* "to shoot." She came into the school evidently believing that "success is a duty" and with a full determination that the duty should be faithfully performed, so far as she was concerned; and it gives the writer great pleasure to say that the result was highly satisfactory. At the end of the spring term her best class was deemed sufficiently advanced to be put into the Grammar Department, and at the commencement of the next term of public school, they were admitted to that Department. The Spring term of the Primary school continued eleven weeks, commencing April 21st. Whole number of names on the roll 22. Branches taught, Reading, Spelling, Arithmetic, and Penmanship.

The second or Fall term, commenced Sept. 15th and continued twelve weeks. No. on the roll 19, not including the class sent into the Grammar Department. The whole number of different scholars in this school during the year was 26. That some interest in the school was taken by the citizens is shown by the record of 22 visitors during the two terms.

The Grammar Department was under the same instruction as during the two years previous, Miss Sadie O. Mason of Tamworth. Miss Mason's good judgment, excellent preparation and long experience in the school room qualify her in an eminent degree for the position of teacher, with all that the term implies as used in connection with our common schools. She has the happy faculty of governing well without severity; winning and retaining the confidence and esteem of her pupils she is able to secure obedience from a love for it. She has a method of infusing a degree of animation into her exercises that is not often met with in country schools. She endeavors to make her pupils thorough in what they undertake; believing that quality is better than quantity. The 1st term of this school commenced April 21st, and closed July 3d, 11 weeks. Whole number of names on the roll 27. Visitors during the term 24. The 2nd term commenced Sept. 15 and continued 10 weeks, the expense of 8 of the 10 weeks being paid by citizens, the other two from the public school money. This was in some respects the most prosperous term of the three. The number on the roll 35, nearly all of whom were constant in their attendance. Visitors during the term 15.

The 3d term commenced Dec. 1st and continued 10 weeks.

No. on the roll 33. Visitors 11. Branches taught, each term, Reading, Spelling, Penmanship, Arithmetic, Geography, Grammar, History, Book Keeping, Algebra.

DISTRICT No. 3.

The summer term was taught by Miss Etta Rust of Wolfeboro' who has taught several terms in town, and is a quiet, pains taking teacher. Her school compared favorably with other schools. The winter term was taught by Miss Emma J. Davis. Under her instruction the scholars made wonderful progress particularly in spelling.

DISTRICT No. 4.

Mrs. Ada E. Abbott of Wolfeboro' taught the summer term of school in this district. The teacher was well qualified to instruct the scholars but near the close of the term the best of feeling did not prevail and many were dissatisfied through no fault of the teacher. Henry G. Horn of Wolfeboro' taught the winter term. He had already taught the school several terms. The same unruly spirit which characterized the summer term was exhibited in this and some of the scholars left without just cause I think.

DISTRICT No. 5.

Both terms of school in this district were taught by Miss Abbie A. Whitton of Wolfeboro'. The school was small so it was impossible for the teacher to make the display which some of the other teachers were able to do. At the end of the second term the examinations were commendable and gave proof of the patience and untiring effort of the teacher.

DISTRICT No. 6.

This school for the entire year (three terms) was under the charge of Miss Clara Bassett of Wolfeboro' who had taught the school before. Miss Bassett has a quiet persuasive way which brings every pupil under her control. At the close of each term the scholars showed their careful training and had made good advancement in their studies.

DISTRICT No. 8.

The summer term was taught by Miss Emma Flood of Buxton Me. Miss Flood gave ample proof of being well qualified to teach for the order was excellent and the recitations good. The

fall term was taught by Miss Etta Rust, who taught the summer term in District No. 3, and is a first class teacher. The winter term was under the charge of Mr. Sherman E. Piper of Parsonsfield Me. Mr Piper had taught the school the previous winter and took up the work where it was left by the former teacher and being acquainted with his pupils they made rapid progress in their studies.

DISTRICT No. 9.

Miss Evelyn Avery taught the first six weeks of this school. This was Miss Avery's first term and was an excellent beginning. The scholars were instructed for the remaining eight weeks by Mrs. Mary A. Nute who is a graduate of Boston Mass. High School, and both this and former terms were satisfactory alike to parents and pupils.

DISTRICT No. 13.

Mr. Pierce A. Horn of Wolfeboro' had charge of the summer term of school which was the largest ungraded school and the scholars showed the least ambition of any in town. Owing to an ill feeling among the parents he was not as successful as he otherwise would have been. The winter term was under the direction of Mr. Harry C. Rankins of Rochester N. H. Mr. Rankins taught the winter term of school last year to the satisfaction of all. He has a good deal of perseverance and vigorously applied himself to the work to lift the school to a higher plane and in a measure succeeded.

DISTRICT No. 15.

The summer term in this district was under the instruction of Miss Annette L. Horn of Wolfeborough. Miss Horn has had great experience and is a faithful industrious teacher. The term was a broken one owing to an epidemic. Miss Etta F. Mason taught the second term. When I visited the school near the beginning of the term I found some of the scholars whom I expected to see were absent and a lack of cordiality on the part of others. I made inquiries and learned bitter feeling existed among the parents against the teacher. At the close of the school I found the scholars had not made the advancement which they ought to have made. The order was lax and the instruction superficial; nevertheless Miss Mason's register was filled out better than any other returned to me.

DISTRICT No. 17.

Mr. H. H. Tucker Principal High School. Miss Marion Piper Teacher Grammar School. Miss Mary E. Avery Teacher Intermediate School. Miss Sadie E. Haley, Primary School.

The school year commences the first Monday in September, consisting of three terms of twelve weeks in each grade.

Progress has been made in all the schools during the year—yet it is not what it should be, one cause of which is a tendency on the part of parents to allow their children to be absent from school without sufficient reason, and to constantly annoy teachers with excuses, not realizing that the lesson from which their children are absent, if they are ever learned, must be made up at the expense of the school.

Said Webster: “Open the door of the School-house to all the children of the land. Let no man have the excuse of poverty for not educating his own children. Place the means of education within his reach, and if they remain in ignorance, be it his own reproach. If one object of the expenditure of your revenue be protection against crime, you could not desire a cheaper means of obtaining it. On the diffusion of knowledge among the people rests the preservation and perpetuation of our free institutions.”

This is but one of the many sayings that might be mentioned of the importance of Education.

It is to us as agents for the carrying out of this purpose, that the common schools demand the best attention and interest of all citizens.

DISTRICT No. 18.

The first term was under the charge of Miss Alice M. Tibbetts of Wolfboro'. At the end of the term the pupils gave evidence of a pleasant and profitable term. Mr. Pierce A. Horn taught the winter term and applied himself to the work with good results.

I have made above such remarks as seemed to me wise in the present state of public feeling and hope that all will try to make the coming year more profitable than the past. I append hereto some statistics, which I trust will prove of interest and respectfully submit the whole as my report.

Terms.	Length in weeks.	Wages	Reading.	Spelling.	Penmanship.	Arithmetic.	Geography.	Grammar.	History.	Composition	Physiology.	Book-keep'g	Algebra.	Philosophy.
