Each semester, students in the [Carbon Clinic](#) serve as consultants to complete carbon footprint analyses for leading regional businesses, nonprofits and communities. It's an exciting opportunity for students to gain expertise and experience in sought-after environmental reporting skills and for companies, non-profits and municipalities to gain capacity and knowledge to advance their climate goals. The Clinic leverages the Sustainability Institute's expertise and investment in the [Sustainability Indicator Management and Analysis Platform \(SIMAP\)](#), an online platform used by more than 500 organizations worldwide to understand, communicate, and manage their carbon and nitrogen footprints.

We're pleased to introduce the Spring

2023 Carbon Clinic student teams and our partner organizations.

Team Berwick Academy

Established in 1791, Berwick Academy is a PK-12 independent school situated on an 80-acre campus in South Berwick, Maine. The school serves 560 students from Massachusetts, New Hampshire, and Maine. Deeply committed to its mission of promoting virtue and useful knowledge, Berwick Academy empowers students to be creative and bold, inside and outside of the classroom. Berwick strives to graduate alumni who shape their own learning, take risks, ask thoughtful questions, and come to understand and celebrate their authentic selves.

Client Representative: Sarah Jeanne Shimer, PK-12 Sustainability Coordinator and Upper School Science Teacher

Group Leader: Durga Raja '25, Environmental Conservation and Sustainability

- Sophie Goodwin '24, Sociology and Sustainability Dual Major
- Luke Taylor '23, Environmental Conservation and Sustainability
- Miles Keefe '25, Geography

Team Prime Buchholz

Based in Portsmouth, NH, Prime Buchholz is one of the country's most reputable investment consulting firms. For more than 30 years, the company has helped its clients build portfolios that reflect their missions and make a positive impact on the communities they serve. Prime Buchholz partners with clients to deliver thoughtful solutions that help them achieve responsible investing goals.

Client Representative: Rachel Rymaszewski, Mission Aligned Research Support Analyst, Prime Buchholz

Group Leader: Sara Berg '24, Environmental Engineering

Grace Rau '25, Environmental Conservation and Sustainability

- Cameron Roulier '23, Environmental Conservation and Sustainability
- Joshua Jerome '25, Information Systems and Business Analytics

Team Society for the Protection of New Hampshire Forests

Founded by a handful of concerned citizens in 1901, the Society for the Protection of New Hampshire Forests is a nonprofit membership organization dedicated to protecting the state's most important landscapes while promoting the wise use of its renewable natural resources. It promotes good land stewardship, advocates for public policies that encourage the wise conservation of natural resources and has helped protect more than one million acres of open space. With 10,000 members, the Society is a unique blend of visionary land trust, balanced environmental advocate, and intelligent forestry association.

Client Representative: Tony Cheek, Finance Director, Society for the Protection of New Hampshire Forests

Group Leader: Jason Staples '23, Analytics and Data Science

- Anabel Santini '23, Environmental Science – Ecosystems
- Haley Royce '23, Bioengineering
- Laura Karpa '25, Business Administration and Sustainability Dual Major

Team Walden Mutual

Walden Mutual is an online banking organization for those who grow, cook, love, make, and eat local food. It offers interest-bearing online savings accounts for individuals and competitive loans to sustainability-minded farms and food businesses in New England and New York. As the word "mutual" suggests, it is cooperative, owned by the community it serves.

Client Representative: Joe York, Product & Impact Strategy, Walden Mutual Bank

Group Leader: Molly Norton '22, Environmental Conservation and Sustainability and International Affairs

- Brett Schultz '26, Business Administration and Sustainability Dual Major
- Max Shoenfeld '23, Anthropology and Sustainability Dual Major

Team Wolfe's Neck Center for Agriculture & the Environment

Wolfe's Neck Center works to transform our relationship with farming and food for a healthier planet. Situated on more than 600 acres of preserved coastal landscape in Freeport, Maine, the Center uses its diverse landscape to connect people of all ages to the food they eat and where it comes from. Its vibrant campus (a demonstration farm, oceanfront campground, wooded trails and historic buildings) serves as a hub for education and exploration. As a nonprofit, Wolfe's Neck Center draws upon a rich history of innovation and experimentation to continue the legacy of this place. Through regenerative farming, innovative soil health research, and visitor interactions, the land is used as an educational resource to create a healthier planet for all. Wolfe's Neck hopes to inspire active participation in a healthier food system and build a community of people who care deeply about the future of food.

Client Representative: Olivia Richards, MS Candidate, Agriculture, Food & Environment, Tufts University

Client Representative: David Herring, Executive Director, Wolfe's Neck Center for Agriculture & the Environment

Group Leader: Kat Hand, Program Coordinator, Sustainability Institute

- Eli Duggan '23, Bioengineering
- Chloe Gross '24, Environmental Conservation and Sustainability
- Camden Guay '24, Statistics
