Town of Belmont New Hampshire

1983 Annual Report

COMMITTEE MEETINGS

Building Needs Committee	As Required	
Conservation Commission	3rd Friday	7:30 PM
Disposal Committee	As Required	
Fire Department	3rd Monday	7:00 PM
Hydro Power Committee	As Required	
Library trustees	As Required	
Planning Board	1st Tuesday	7:30 PM
Police Committee	As Required	
Recreation Commission	As Required	
Sewer Commission	3rd Tuesday	6:30 PM
Selectmen	2nd & 4th Thursday	7:30 PM
Supervisors of the Checklist	As Required	
Trustees of Trust Funds	As Required	
Water Commission	3rd Tuesday	7:30 PM

All meetings are held in the Town Offices, except the Library Trustees, who meet in the Library.

IN MEMORIUM

A ROUNDEL OF REST

If rest is sweet at shut of day
For tired hands and tired feet,
How sweet at last to rest for aye,
If rest is sweet!

We work or work not through the heat:
Death bids us soon our labors lay
In lands where night and twilight meet.

When the last dawns are fallen gray
And all life's toil and ease complete,
They know who work, not they who play,
If rest is sweet.

Arthur Symons (1865-1945)

1923 – 1983

Harold L. Reed served the townspeople as Road Agent from 1957 until his untimely death in 1983.

“The faith to move mountains is the reward of those who have moved little hills.”

DEDICATION

Robert E. Bordeau retired in 1983 after serving 37 years on the Fire Department. Bob became a volunteer fireman in 1946, and was appointed Chief in 1965. We all wish Bob the best of health in his retirement years.

TOWN AUDIT – TRANSMITTAL AND COMMENTARY LETTER

Board of Selectmen
Town of Belmont
Belmont, New Hampshire 03220

Members of the Board:

We have examined the financial statements of the various funds and account groups of the Town of Belmont for the year ended December 31, 1982 and have issued our report thereon, dated March 4, 1983. As part of our examination, we reviewed and tested the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of each evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other such auditing procedures that are necessary for expressing an opinion on the financial statements.

The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgment by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstandings of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by town officials with respect either to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our study and evaluation of the Town's system of internal accounting control made for the limited purpose set forth in the first paragraph, would not necessarily disclose all weaknesses in the system. We did note the following situations which could materially impact the accuracy of financial information generated from Town records.

Completeness and Accuracy of Financial Records

At present, the records maintained by the various Town officials are not reconciled on a regular basis and accounting adjustments are not reviewed for propriety by the Selectmen or the Administrative Assistant. Considerable reliance appears to be placed on the year-end audit to reconcile and correct, if necessary, the Town's financial records. Since the Town needs reliable financial information on an interim basis to monitor performance to budget and manage town affairs, we suggest that the following procedures be implemented:

1. Reconciliation of Treasurer's Cash Balances to Town Ledgers.

While the Treasurer has promptly reconciled his records to related bank statements, the Treasurer's records have not been agreed to the Town's General Ledger. This should be done on a monthly basis as part of the bank reconciliation procedure and completed reconciliations should be initialed by both the Treasurer and bookkeeper to document agreement.

2. Reconciliation of Tax Collector's Records to Town Ledgers.

Except for initial tax warrants, only cash transactions reported by the Tax Collector to the Treasurer are recorded on the Town's ledgers. Actions that are not directly related to cash, such as abatements and additional levies, are therefore not recorded. We suggest that all noncash transactions impacting the Tax Collector's records be recorded on the Town's ledgers monthly. We further suggest that the Tax Collector's accounts be reconciled and agreed to the Town's ledgers at least at year-end, with more frequent reconciliations suggested.

3. Adjustments to Town Ledgers.

During the year, adjustments to Town records are required to record noncash transactions and to correct errors made in the recording of cash transactions. While such adjustments are carefully reviewed as part of the annual audit, the Selectmen or Administrative Assistant should review such adjustments monthly to ensure that their impact on interim financial reporting is understood. Initialing of adjustment by the reviewer should be considered as a means to document this control.

Other administrative and operative matters which are not material weaknesses in internal accounting control are detailed below. These observations and recommendations are not the result of a special study and are offered to assist in further improving financial operations.

Fixed Assets Records

We have reviewed the Town's Fixed Assets inventory completed in 1982. We recommend that this record be maintained by performing an annual review to ensure that property acquired is added and property disposed of is removed. We further recommend that minor acquisitions of assets costing less than \$200 (or other amount determined to be reasonable) not be included in the Town's asset inventory. Such minor items are usually purchased from operating funds and recording such assets increases the burden of controlling the Town's assets without providing any significant benefits to asset planning.

Sewer Project Cash Management

We noted in our review of cash activity that for the most part the Town derives optimum benefit from cash flow. We did note, however, that application to the federal government for reimbursement of the federal share of the Town's sewer construction was not timely, primarily due to factors beyond the control of the Town. We suggest that the Town officials improve their control in this area by asking that future contracts with project engineers include appropriate clauses for processing reimbursement requests promptly whenever significant monies are due the Town.

Publication Requirement

The provisions of R.S.A. 71-A:21 require that this letter be published in the next annual town report.

We extend our thanks to the officials and employees of the Town of Belmont for their assistance during the course of our audit.

Nathan Wechsler & Company

Concord, New Hampshire
March 4, 1983

REPORT OF DEPARTMENT OF REVENUE ADMINISTRATION

Selectmen/Belmont

Gentlemen:

Your Summary Inventory of Property Valuation and Statement of Appropriations have been approved. You may proceed with the assessment of 1983 taxes on the basis of the following figures.

Net Assessed Valuation \$71,648,390.00

Taxes Committed to Collector:

Town Property Taxes Assessed	\$2,414,551.00
Precinct Taxes Assessed	<u> </u>
Total Gross Property Taxes	\$2,414,551.00
Less: Est. War Service Tax Credits	<u>22,500.00</u>
Net Property Tax Commitment*	\$2,392,051.00

Tax Rate – Town 33.70
 Precinct

*The amount of property tax commitment is subject to adjustment by reason of any increase or decrease in War Service Tax Credits which may result based on the above approved rate.

In the event any adjustment was made in the Appropriations Section, we have enclosed a copy of the changes. Revenues and Credits have been approved as shown on the enclosed copy of the third page of the Statement of Appropriations.

The net amounts approved for school, county and precinct are indicated below. These amounts are the total monies which should be transferred to each of these units of government.

Net School Appropriations	\$1,664,042.00
Country Tax Assessment	212,180.00
Net Precinct Appropriation	

In arriving at the above approved rate the Overlay has been set in the amount of \$22,361.00.

Very truly yours,

Lloyd M. Price, *Commissioner*

REPORT OF THE BOARD OF SELECTMEN

Although 1983 was a relatively uneventful year as far as major controversies go, the Board of Selectmen has been busy with the business at hand.

For a variety of reasons, there was a major turnover in employees, and board and commission members serving the Town. In the course of the year, the Board of Selectmen has appointed:

Romeo Clairmont, Road Agent, to fill the vacancy left by the death of Harold Reed.

Albert Akerstrom III, Fire Chief, following the resignation of Robert Bordeau after his long illness.

Francis Clairmont, Water, Sewer and Health Officer, upon the resignation of David Patten.

Kenneth Ellis, Selectman, to complete the term of Robert Stevens, when Bob's full time job schedule changed and he did not have adequate time to devote to the duties of Selectman.

Other appointments were:

- C. Carbonneau, Recreation Commission
- A. Donohue, Planning Board
- B. Arey, Sewer Commission
- K. Bonnette, Planning Board
- L. Patt, Conservation Commission
- A. McCarthy, Conservation Commission

We are still searching for individuals interested in serving on the Recreation Commission and welcome anyone interested in any board, committee or commission to place their name on file in the Town Office.

The Board of Selectmen, with the cooperation of the Road Agent, have started on a tree removal program to eliminate dead trees that threaten the Town's right-of-ways and the public safety. We are continuing our policy established last year of bidding with Laconia and Gilford for our heating oil and have received very favorable quotes. We also bid out all of our insurances.

We established standard poll hours (9:00 AM to 7:00 PM) for all Town elections. This will give anyone working out of town ample time to get to the polls and hopefully enable all residents the opportunity to vote.

We plan to start a road and street numbering program, time permitting, as requested by the Post Office Department and Fire and Police Departments.

In 1983, we continued to hold our town tax rate stable at \$8.60 per thousand from \$8.70 per thousand in 1982, and are anticipating a very minimal increase in 1984.

Looking forward, we see several remaining problems that will have to be addressed by the Town. Among them, the continuing problem of a town dump and solid waste disposal. This will, undoubtedly, have to be on some type of Regional basis and the Selectmen continue to investigate any and all proposals. The rapid and uncontrolled growth of our Town is putting stress on all Town services including roads, fire, police, garbage removal, health and recreation. We still have a need to be able to direct our growth in a positive and beneficial direction.

The Board of Selectmen thank all department heads for their cooperation and assistance during the past year and look forward to the same in 1984. As always, we thank David Caron, Administrative Assistant, for his excellent performance of duty and his very positive attitude in all Town affairs.

Respectfully submitted,

Julia C. Perkins, *Chairman*
Ronald Mitchell
Kenneth V. Ellis
Belmont Selectmen

REPORT OF TRUSTEES OF TRUST FUNDS

The main project for which work was done this past year was the Highland Cemetery.

Most of the monuments, except for 8 or 10 were straightened. These will be done later.

In addition, the fence was painted with one coat. This work was done at a total cost of \$1531.12.

All the old cemeteries were mowed. The Trustees applied the income from the various Trusts to the cemeteries and other beneficiaries as usual.

Respectfully submitted,

Russell H. Cushing
Chairman

REPORT OF THE CIVIL DEFENSE DIRECTOR

Your Civil Defense Director is working closely with the Fire Department, Police Department and the Highway Department so all will be prepared in the event of a disaster.

All paper work is up-to-date and we are in the process of updating the town plan.

Your Civil Defense Agency is working on a disaster plan for the Lochmere Dam Area in case of an emergency.

Your Civil Defense Director with the help of the Highway Department took care of a flooding problem in the Gardners Grove area this past year.

Robert Harper
Civil Defense Director

REPORT OF THE CONSERVATION COMMISSION

The Belmont Conservation Commission proposed a wetland ordinance for a second time. The ordinance was approved by the residents of Belmont at the Annual Town Meeting March 1983.

Over fourteen percent of Belmont has wetland areas of which the Conservation Commission acts as overseer in the preservation of these vital lands for the following reasons.

Flood Control – Wetlands act as natural regulators of stormwater run-off and act as natural floodwater retention areas during peak precipitation periods.

Pollution Control – Wetlands have the ability to filter pollutants by intercepting road salts and other pollutants which can help reduce contamination of surface waters. Wastewater effluent and agricultural chemicals are absorbed by some wetland plants.

Addition to Water Supply – Wetlands have the ability to delay stormwater and by slowly releasing these waters extend the time over which these waters are added to surface water supplies.

Erosion Control and Sediment Retention – Wetland soil and certain vegetation trap soil particles from storm run-off to reduce sediment load and effectively reduce downstream erosion.

Cordwood Harvest – Wooded swamps can be harvested in a scattered and rotated one-acre plots to stimulate growth for new vegetation for deer browsing.

Recreation and Education – Some wetlands are enjoyed by hunters, fishermen, hikers, bird watchers, photographers, and schools.

The Conservation Commission holds open meetings the third Thursday of the month at the Town Hall 7:30 p.m.

The Commission welcomes its two new members Lester Patt and Alfred McCarthy. I would like to thank Dan Kuzmeskas and Tom Durkis both of whom resigned due to pressures of their jobs.

Dutifully remitted,

Hyman Steiman, *Chairman*
Maxwell Perkins, *Vice-Chairman*
Lorri Horn, *Secretary*
Kenneth DeHart
Lester Patt
Alfred McCarthy

BELMONT FIRE DEPARTMENT

The Belmont Fire Department responded to a total of 371 calls in 1983 which shows an increase of 21 calls. Fire Calls, Medical Emergency Calls and Special Service Calls were all higher than 1982. The only decrease that we had was Mutual Aid calls which was down 10 calls from 1982.

Breakdown of Calls	Number	
Fire Emergency	104	28%
Medical Calls	181	49%
Mutual Aid	32	9%
Special Service	54	15%
Inspections	181	

As in the past, Medical Emergencies are our number one time consuming emergency with 49% of the total runs. In the past year, three more members of the department have become Medical Emergency Technicians. Again, state requirements in this field require many hours of training by the members of the department.

In March of 1983, voters authorized the purchase of a new fire truck for the Fire Department. This past December, Deputy Akerstrom and Fire Fighter Rick Siegel went out to Appleton, Wisconsin to take delivery of this new truck. I am proud to say, that the new truck went into service January 4, 1984. The truck was put through many tests and passed with no problems. Members of the department spent many hours mounting equipment and training on this new truck. Personnel from outside departments have been in to look the truck over and all have said that the workmanship on the truck is outstanding.

With the departure of David Patten who was the Code Enforcement Officer midway through the year the fire Department was asked to take over the duties of the Building Inspector. The responsibilities of the Building Inspector is to issue permits, review and inspect all sites to assure that construction work complies with the BOCA Building Code and Safety Regulations. With this job being done by the Fire Department and combining Fire Prevention into one job the Inspector can do both inspections when reviewing a job site.

In August of 1983 the Department was delivered a very hard blow when Chief Bordeau suffered a heart attack. As most people know, Chief Bordeau retired December 31, 1983. His achievements in the Fire Department, has made our Department one that is looked up to by many other Departments within the State. After serving the Town of Belmont for the past 37 years working his way up from Fire Fighter to Chief, he will surely be missed by the members of the Department. Good Luck on your retirement, Chief.

Last year the Workers Right To Know Law was passed in the State of New Hampshire. This law requires all places of business to file with the Fire Department a copy of any material that a person comes in contact with that may be a hazard or harmful to that person. These files have to be open to anyone who wishes to look at them and if anyone wishes a copy of any file they have a right to get a copy. These files will be open during normal working hours. This new requirement by the State will add more time to the Fire Department.

The Goals and Objectives of the Fire Department during 1984 and years to come are to set up a Fire Prevention Program to work very closely with the Children in our town. We, as many other departments in the area have found that many fires are set by children. These fires range from grass and wood fires to building fires. Also, this program will be set up so it will be working along with our Fire Inspections which are done throughout the year. An Inspection Program will be set up so that every place of business within the town will be inspected twice per year.

At this time, I would like to thank our Administrative Assistant, Board of Selectmen, Budget Committee, Town Office Personnel, other Departments and Committees and the citizens of Belmont for their cooperation and support during the past year.

Albert Akerstrom

Fire Chief

BELMONT FIREMEN'S RELIEF ASSOCIATION AMBULANCE CALL REPORT

A total of 181 Medical Emergency calls were made.

Out of the 181 Medical Calls made, 165 patients were transported to the hospital, in Laconia, Franklin and Concord. 16 of the Medical Runs were non-transport calls.

The Relief Association received \$1,355.00 in donations for the year 1983.

Donations to Date are:

1979 and 1980	\$1,150.00
1981	1,375.00
1982	895.00
1983	<u>1,355.00</u>
	\$4,775.00

The Belmont Fire Department would like to thank everyone for their fine support this past year.

Albert Akerstrom
Assistant Fire Chief

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

Once again, our cooperative town and state forest fire prevention and control program leads the nation in least acres burned per forest fire. Less than one-half acre per fire statewide average.

At the town level, your Forest Fire Warden is responsible for the prevention and control of all grass and woods fires when the ground is not snow covered.

Forest fire prevention is achieved at the town level by issuing a written permit for every fire that is to be kindled on the ground out of doors when the ground is not covered with snow. Each person wishing to have an outside fire must obtain this written permit from the town Fire Warden before kindling the fire. Any person that does not obtain a fire permit, when one is required, is violating our forest fire permit law and is subject to a court appearance and could be fined up to \$1,000 and receive a jail sentence of up to one year.

No fire permit will be issued between 9:00 a.m. and 5:00 p.m. unless it is raining. The reason for this is twofold: the fire danger increases steadily between 9:00 a.m. and 2:00 p.m., then subsides to a safe level between 2:00 p.m. and 5:00 p.m. This happens because the sun dries out the fine fuels that are easily ignited and dries the air which permits rapid fire spread. Also during this part of the day fire fighters are not readily available in most communities so an escaped fire could burn longer and cause greater damage before being suppressed.

Your cooperation in burning only when conditions are safe is greatly appreciated.

As Smokey, says, "Remember, Only You Can Prevent Forest Fires!"

1983 STATISTICS

The Winnisquam Fire Department has 36 regular and probationary members at this time. Members attend the various fire schools held throughout the year and also attend in-house training sessions and drills which are held periodically.

Regular business meetings are held the first Thursday of every month at 8:00 PM. Officers meeting and special meetings are held as needed.

The annual Carole Davis Memorial Christmas Party was held in December for all children in the Winnisquam area. A special "Thank you" to the Lochmere's Womens Club for their support of this very special event.

"Neighbors helping Neighbors."

Respectfully submitted,

Linda E. Brough
Clerk, W.F.D.

REPORT OF THE CODE ENFORCEMENT OFFICER

In the years of 1982 and 1983, we are grateful for having part of the Town sewage in operation. This has been done in the Lake Winnisquam area. For the year 1983, we issued 253 sewer permits in which the Town Health Officer had to inspect.

Also, the Town Health Officer has to inspect all health complaints that come to his attention.

49	Well permits issued
50	Septic permits
30	Health Complaints
9	Inspection of Restaurants

In the coming year, we will be getting started on the downtown sewage system which will be about a one and one half year project. Getting this sewage project done is important for the Town as we want to clean up our lakes, streams and ponds.

Francis R. Clairmont
Health Officer

BELMONT TOWN WARRANT
The State of New Hampshire

TO THE INHABITANTS OF THE TOWN OF BELMONT IN THE COUNTY OF BELKNAP, IN THE STATE OF NEW HAMPSHIRE QUALIFIED TO VOTE IN TOWN AFFAIRS:

You are hereby notified to meet for the 1984 annual meeting of the Town of Belmont to be holden in two sessions as follows:

FIRST SESSION

The **FIRST SESSION** shall be holden at the Roland Kimball Auditorium, Belmont High School, Belmont, New Hampshire on the 13th day of March next, between the hours of 9:00 o'clock in the forenoon and 7:00 o'clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

SECOND SESSION

The **SECOND SESSION** shall be holden at the Roland Kimball Auditorium, Belmont High School, Belmont, New Hampshire on the 17th day of March next at 10:00 o'clock in the forenoon to act upon the following subjects:

1. To hear and act upon the reports of committees.
2. To see if the Town will vote to authorize the Selectmen to borrow money pursuant to the Municipal Finance Act in anticipation of the collection of taxes for the current municipal year and to issue in the name of and on the credit of the Town, negotiable notes therefor, and to renew or refund any notes that may be issued for a period shorter than one year from the date of an original loan.
3. To see if the Town will vote to authorize the Selectmen to sell at Public Auction and convey real property acquired by the Town by Tax Collector's Deed.
4. To see if the Town will authorize the Selectmen to apply for, receive and expend Federal and/or State grants, which may become available during the course of the year, and also to accept and expend money from any other governmental unit or private source to be used for purposes for which the Town may legally appropriate money; provided; (1) that such grants and other monies do not require the expenditure of any Town funds, unless previously appropriated; (2) that a Public Hearing shall be held by the Selectmen prior to the receipt and expenditure of such grants and monies; and (3) that such items shall be exempt from all provisions of RSA 32 relative to limitation and expenditure of Town monies, all as provided by RSA 31:95-B.

5. To see what the Town will vote to do with the income from the John M. Sargent Fund.
6. To see if the Town will vote to permit greyhound racing on Sundays in the Town during 1984.
7. To see what action the Town will take upon the budget as recommended by the Budget Committee.
8. To see if the Town will vote to appropriate and authorize withdrawals from the Federal Revenue Sharing Fund to use as set-offs against budget appropriations in the amounts indicated; and further to authorize the Selectmen to make pro-rata reductions in the amounts if the estimated entitlements are reduced, or take any other action thereon:

Police Department Operating Expenses \$67,940

9. To see if the Town will vote to amend its building regulations being Chapter II of the Town Ordinances of 1977 by adding thereon, the following paragraph:
 - 1 A. Electrical Permit. No person, partnership or corporation shall energize any electrical work performed in any new construction until a certificate of inspection has been issued by the Building Inspector. Said permit shall be affixed to the meter box by the Building Inspector upon verification that said electrical work conforms to the provisions of the National Electrical Code.
10. To see if the Town will vote to appropriate and authorize the expenditure of a portion of the proceeds of the bonds or notes authorized in the principal amount of \$100,000 under Article 16 of the 1978 Annual Town Meeting for the purpose of reconstructing the South Road Bridge, over the Tioga River, in addition to the rebuilding and replacement of the Jamestown Bridge as described in Article 16 and the rebuilding and replacement of the South Road Bridge as described in Article 12 of the 1982 Annual Town Meeting.
11. To see if the Town will vote to authorize the Selectmen to sell at public bid, the 1963 International Fire Engine for a minimum bid of \$10,000, and to place said revenues in the Town's General Fund.
12. We, the undersigned, all registered voters and taxpayers of Belmont, New Hampshire, petition the town of Belmont, to approve and appropriate funds for the purpose of an engineering study for the future paving of the roads on Sunray Shores in Belmont, New Hampshire, which consists of Sunset Drive (from end of existing pavement .4 miles), Sheila and Elaine Drive (.6 miles), Tucker Shore (.1 mile), Nancy Drive (.2 miles), Linda Drive (.3 miles), Pond Road (.3 miles). Funds requested—approximately 10,032 feet at \$2.50 per foot — \$25,080. (By Petition) (Budget Committee recommends \$3,000).

13. To see if the Town of Belmont shall call upon the Governor and Executive Council, its State Representative(s) and State Senator to promptly convene a Special Session of the Legislature for the sole purpose of preventing the imposition of huge cost increases in electric rates resulting from the Seabrook Nuclear Power Plant on the citizens, businesses, schools, and agencies in the Town of Belmont, and to direct the Selectmen to promptly notify our above listed elected officials of the Town's desire. (By Petition).
14. To see if the Town of Belmont will vote to elect the Planning Board. (By Petition).
15. To see if the Town will vote to make the office of Road Agent an appointed position instead of an elected position, effective the date of the 1985 Town Meeting.
16. To see if the Town will vote to ratify and affirm the action of the Selectmen in entering into a lease between the State of New Hampshire Water Resources Board and the Town of the Lochmere Dam for the development of hydroelectric power, the term of the lease being for fifty years, and the assignment of that lease by the Town to Hydroelectric Development, Inc.
17. To see if the Town will authorize and direct the Selectmen to review the considerations which may be involved in participating with the City of Concord Solid Waste Resource Recovery Project, to enter into discussions and negotiations regarding the project, and to report back to the Town as to their findings and recommendations. A decision by the Town to participate or not to participate in the project will be deferred to a special town meeting in the fall of 1984, or the regular town meeting in March of 1985.
18. To transact any other business which may legally come before said meeting.

Given unto our hands and seal this _____ day of February, in the year of our Lord, nineteen hundred and eighty four.

REPORT OF THE HIGHWAY DEPARTMENT

I would like to say how sorry I am for the loss of Harold Reed. My deepest sympathy to his family and loved ones. He will be missed.

Being appointed on October 17, 1983, I've been very busy, getting the equipment ready for winter, piling sand, and trying to get a few roads built up with gravel.

The winter has been rough with the cold weather, salt wouldn't work, and sand wouldn't bond to the ice. The men have worked hard, trying to keep them safe as possible.

I want to get some roads widened and built up with gravel this summer. A lot of dangerous trees have to be cut before someone really gets hurt.

We plan to gravel Hoadley Road in 1984, as well as other dirt roads. Middle Route Hill needs to be widened to insure safe passage in the winter.

There is a lot of work to do and I promise I'll work at it.

Romeo Clairmont
Road Agent

REPORT OF THE LIBRARIAN

Circulation 1983:

Non-fiction	
Adult	951
Juvenile	1,016
Fiction	
Adult	2,723
Juvenile	3,189
Magazines	433
TOTAL	8,312

This library as well as most small libraries in our state was dealt a devastating blow this year when the State Bookmobile from which we receive over 1000 books a year was discontinued permanently because of lack of funds. The effect of this loss will be felt in the coming year with less books available for circulation.

We had five new books donated this year from local civic organizations and five books given in memory of deceased relatives or friends.

Loans from area libraries amounted to 84 books.

We purchased 371 new books and a set of State Encyclopedias. At the time of the Bookmobile closing, we had 322 of their books on hand which has also been added to our collection, giving us a total of 693 new books.

The loss in stolen books this year to my knowledge has been only one book. Every book checked out this year has been either returned or paid for, in a few cases this was made possible through the aid of our Police Department for which we thank them.

We now have a copy machine available to our patrons as well as IRS tax forms and information on tax returns.

We have 160 new subscribers this year giving us a total of 1,295 Belmont, Canterbury and Gilmanton residents using our library.

Twenty-three grade school students took part in our summer reading program, reading a total of 264 books.

Our library will be facing difficult problems in the very near future, with the growth of our town, our collection and the demand all growing and our shelves and space is the same as in 1927. Our Library Trustees will be faced with many problems as to how to solve the situation and there are no ready and inexpensive solutions. A childrens room downstairs would be ideal, but costly and an addition to the building causes two problems: Land and money. Added

stacks on one side of the room would be a temporary solution but probably the only feasible one at this time.

A library is one of a towns most valuable assets, "Did you take advantage of it this year?"

Our Library hours are:

Monday & Wednesday 1-5

Tuesday & Thursday 12:30-7:30

Saturday 9-12

JoAnne Stevens

Librarian

TRUSTEES' REPORT

The trustees of the Belmont Public Library submit the following report for 1983 with much satisfaction.

There has been much interest shown in and use of the library. There were 160 new subscribers this year which brings our patrons just short of 1200. For a small town library, there is an excellent variety of books and periodicals. Current literature and all new books are carefully considered and kept up to date. The librarian with other librarians in surrounding towns, on their own time, meet to review these books.

We regret that the State Library, due to financial reasons, can no longer send the Bookmobile to us.

The copier machine, formerly at the town office and voted at Town Meeting last March to be given to the Belmont Library, has proven to be very beneficial. It has been much used for school projects in copying pages from books not permitted to circulate as some encyclopedias; also in use in searching family records and much else.

We have been pleased to have adults come in and read for an hour or two and have the children do their homework.

In May, the worn out screen door was replaced with a white aluminum combination door. This has helped conserve heat as have the quilted curtains.

As always, we have had off and on again problems with the old furnace.

An overloaded wallplug in the downstairs meeting hall caused an outage for some time and some rewiring. Also, downstairs a cracked toilet bowl was replaced by a new unit.

Because of the still low financial condition of the Duffy fund, it was voted by the trustees not to draw upon it in 1983 if it could be avoided. This was accomplished.

Again we wish to commend the librarian, Jo-Ann Stevens, for her excellent work and interest, and also thank our willing and helpful custodian Howard LaDuke for a job well done.

Respectfully Submitted,

Helen Hill

REPORT OF THE PLANNING BOARD 1983

1983 was a very busy year for the Planning Board. 93 house lots, 18 condominium units, 19 recreational trailer sites, 1 gravel pit and 1 commercial lot were approved. Also, 28 lots presented in 1983 are pending.

This represents a total of 111 potential new dwelling units, or an increase of 10%, and an increase of at least 66 school age children. All but 18 of the new lots are distant from the village; and fire, police, schools, water, and sewer.

Although new development creates new taxes, additional services are also required. Of a possible \$165,000 in new taxes, \$132,000 would be required by the schools.

To help relieve the Town of the burden of road improvements in developing areas, the Board is assessing developers their fair share of road improvement costs. To date over \$20,000 in assessments or improvements by the developer has been received by the Town. The Town also accepted 2 roads in new developments, adding to road maintenance costs.

Belmont is becoming increasingly a bedroom community, with very little non-residential development to help with the tax burden. Due to the lack of controls on the type of development that will occur in Belmont, the Board sees a continuing increase in residential development and a corresponding increase in real estate taxes.

**BELMONT POLICE DEPARTMENT –
“TO SERVE AND TO PROTECT”**

Chief Douglas A. Boyd

Lieutenant Michael P. McCarty

Sergeant Mark Lewandoski

Officer Steven H. Crockett

Officer Karen A. Bennett

Officer Brian J. Loanes

Officer David C. Nielsen

From the Chief:

The police need the support of the people to function effectively. This support depends on the public's confidence in the fairness and reasonableness of law enforcement activity. Police officers need to be aware of the opportunities they have to influence the way people think and feel about our criminal justice system. They need to realize that it is their responsibility to create positive attitudes towards law enforcement. They also need to know when and how to respond to inaccurate or unfair criticism of their performance.

It takes patience on the part of the police and knowledge on the part of the press and the public to realize that as imperfect as our legal system may be, it is still as good as there is.

In that same vein, we are one entity, working together to improve and modernize our community for not only the betterment of the community for the present, but more importantly for the future. Our mistakes and misgivings combined with our prejudices and disregard for each other's opinions and feelings will be severely felt and will continue into the future, making for more anxiety.

Politics in whatever form have no place within a police agency. We must impartially, fairly and respectfully furnish a form of law enforcement that takes all aspects into account.

Every police officer realized that he is doing a thankless, unrewarding job that not only is he despised by the criminal element, but is usually the recipient of abuse by victims also.

Although the aftermath appears dismal, the reality of the situation is this: The people who respect other peoples' property have a strong bond with the community, they care about what their police are doing for them, they are reasonable people who understand the trials and tribulations of protecting a community. Victims are for the most part justifiably upset when they are touched by a criminal experience and their frustration spills over into resentment and the police officer becomes the recipient of their anguish and frustrations. As far as the Criminal, he may despise the police, but on the other hand may respect the department or officer for being treated fairly and within

the rules of the system. When police bend the rules to acquire confessions or evidence they are acting similarly. Good, will always, when confronted by wrong, overcome it and prove superior. Our common goal must remain constant, with betterment of our community always in the forefront. Our children must learn by watching, sensing a feeling of real deep-rooted concern for our system and the future.

There are lots of things we can do to ensure our way of life on a national level but the real world we live in is our community and it is the way our children grow up and judge the rest of the world upon. We are in control of that destiny and we should work hard to understand one another and respect each other. These types of ordeals can never be regarded as corny, wishful thinking or unrealistic. They are the very principles that will make our community a wholesome and productive living environment.

Respectfully submitted,

Douglas A. Boyd
Chief of Police

THE BREAKDOWN OF ACTIVITY FOR 1983 SHOWING A COMPARISON OF FOUR (4) YEARS

	1980		1981		1982		1983

*TOTALS	1073	570	1063	643	1042	699	1270	1003

**THE BREAKDOWN OF ARRESTS VS OFFENSES
PERCENTAGE COMPARISON IS AS FOLLOWS**

1980=53%

1981=60%

1982=67%

1983=79%

Again, we in the Police Department feel we have made substantial progress in the area of concern such as burglaries and other criminal offenses. At the same time the motor vehicle aspect of the department has increased substantially. We again intend to work as hard and even harder over the course of 1984 to keep everything at an acceptable level. We are pleased that 79% of our known offenses were cleared.

SICK DAYS: The department as a whole took eight and one half total sick days for 1983.

We have many plans to keep the effectiveness of the department at the same level and even higher if we can. We plan many public awareness programs geared to the public and especially the school.

I would again like to take this opportunity to thank all the persons in Belmont who assisted the department as citizens in allowing us to have the necessary things that we need to make our job as effective as possible.

Keep in mind that the police department is here to assist you and help you in any way we can.

REPORT OF THE ROAD COMMITTEE

The Committee has been actively planning the reconstruction of Town roads. The first section of Bean Hill Road was reconstructed in 1983. This project was done by the Ken Nutter Construction Company. We are requesting \$100,000.00 to finish the remaining gravel section in 1984.

Seavy Road was also reconstructed in 1983. The section to the intersection of Wildlife Boulevard was also paved with State Highway funds.

In 1982, the Grey Rocks Road Bridge was removed upon completion of the Jamestown Road Bridge. This action left one access to the Breck Shores area of Belmont. Recognizing that this access, the Grey Rocks Railroad Bridge, was insufficient for legal loads, the Selectmen's office petitioned the State of New Hampshire to replace the state-owned bridge. After numerous setbacks and refusals by the State Highway Department to improve the structure, the state finally agreed to repair the structure. The completion of this project occurred in Fall, 1983. Many thanks to State Representative Robert Hawkins for his assistance in reaching a solution to this problem.

Main projects to be performed in 1984 are:

Completion of Bean Hill Road, from the cemetery to the Roeder property. Project is expected to be bid this spring.

Completion of engineering design work for Durrell Mountain Road. This road is to be reconstructed in 1985, pending voter approval.

Continuation of the Road Committee's efforts to produce a Master Plan for the reconstruction and maintenance of all town roads.

The reconstruction of the South Road Bridge, is planned in 1984. This project was approved by the voters at the 1982 Annual Meeting.

The Road Committee wishes to thank all for their input and support in 1983.

Fletcher Fredette, *Chairman*

Robert Farnsworth

Paul Laflam

Paul Gaudet

Douglas Tyrrell

Leslie Roberts

Road Committee

RECREATION COMMISSION

During 1983 the Commission sponsored various programs which included the "Summer Recreation Program" at Sargent Park enjoyed by approximately 50 children. During the eight weeks they participated in various activities and attended other Parks throughout the state.

This fall we sponsored a "Swim" program at the YMCA for a six week period. Children were transported to the YMCA on Friday after School for activities including swimming, soccer, etc. Emphasis being put on swimming lessons, which are beneficial to all children.

We hope weather conditions are suitable this year for our "Ice Rink" which provides safe skating for all residents during the winter season.

The Recreation Commission also contributes in a small way to the Elementary Basketball Program held at the high school on Saturdays made possible by the efforts of many outstanding individuals including teachers, parents and local residents.

Recreational activities are provided through the year with the help of concerned citizens who are committed to improving and expanding the opportunities that this recreational area can provide and the commission would like to thank all of those involved in this process.

Respectfully Submitted,

Joanne Rotonelli, *Chairman*
Dora Dragon
Caroll Carbonneau

REPORT OF THE WATER DEPARTMENT

The current members of the Board of Water Commissioners are Eero Jarvi, Chairman, Lawrence Clairmont, Bernard Dube and Robert Lacroix.

During the year, the Water Department increased its number of users by fifteen residential and one commercial.

The Water Department extended water service on Route 106 by adding 2000 feet of 10 inch main, 400 feet of 6 inch main and 400 feet of 4 inch main. Four hydrants were also added.

Water service was also extended on Old State Road by adding 1040 feet of 6" main and one hydrant.

Due to the increase for water service that the Town of Belmont purchases from the City of Laconia in the Winnisquam area the users of water in that area were charged a 15% rate increase.

As stated in the Town Report of 1982 the Commissioners are still pursuing a filtering system capable of removing the iron from the water.

Francis R. Clairmont
Water Superintendent

WINNIPESAUKEE RIVER BASIN ADVISORY BOARD

The Advisory Board has been basically inactive this past year. This is a sign that the system is functioning normally and that no major changes are contemplated as of this time.

The major happening as far as Belmont is concerned was the bidding in January 1984 of the main interceptor that will service the village area. The construction of the local sewers to begin also.

Unless something unforeseen arises, the work of the Advisory Board will be of minor nature in the future years.

Respectfully submitted,

Richard A. Fournier
Belmont's Representative
Winnepesaukee River Basin Advisory Board

TOWN OF BELMONT SEWER COMMISSION

The year 1983 found the Sewer Commission very busy with enforcement of its hook-up requirements for the Winnisquam area and the fine tuning of the installation procedures for individual property owners. As was expected, there has been an increase in requests for sewer hook-ups because of new housing. There have also been a number of preliminary meetings with new multi-use developers because of the availability of the sewer.

The village sewers will be let out to bid in March of 1984, with construction starting in the spring. With this schedule, village residents should be able to hook up to the sewer during the spring or summer of 1985.

The Commission would like to take this opportunity to welcome Frank Clairmont aboard as our new sewer superintendent. Frank is in charge of the operation and maintenance of the system, along with inspection of individual hook-ups.

Respectfully submitted,

BELMONT SEWER COMMISSION

Richard Fournier

Cedric Witham

Bruce Arcey

HYDRO COMMITTEE REPORT

Development of the Lochmere Dam has progressed since Moody Dole was awarded construction rights by the town on April 23, 1982. The New Hampshire Water Resources Board (WRB) and Belmont have been named co-licensees by the Federal Energy Resources Commission to operate a hydroelectric facility at the dam. In July, 1983 Dole executed and the town approved an agreement with Hydroelectric Development, Inc., of Denver, Colorado to assume responsibility for directing the project. Belmont entered into a lease with Water Resources in August to operate the WRB dam. Since then HDI has arranged to complete most of the engineering for the hydro site.

At the time of this report, we are awaiting a final agreement between Moody Dole and HDI on technical matters so that the financing process can begin. Construction is scheduled to commence by April, 1984.

John Froumy, *Chairman*
Hydro Power Committee
