LIBRARY REPORT

During the year the Library has been opened twice each week with the exception of May 30 and July 4. Although many of its regular patrons are out of town, our circulation has increased and over 500 more books went out than was the case last year. Thirty-two new borrowers' cards have been issued during the year.

In addition to the number of volumes added by purchase nine volumes of the works of Prof. Raymond have been presented. Also the State Department has sent us the usual number of reports, which are available for reference but our limited shelf room does not permit placing them upon the shelves.

Not for many years and possibly not since the Library was opened has our inventory been taken, but this was done this year and it was found that over a hundred books have disappeared in various ways, some legitimately and others not. Between three and four hundred of those which are never used have been removed from the shelves and this process of weeding out must be continued ruthlessly, since no money will be available for increasing the shelf room until after the interior has been re-decorated.

Respectfully submitted,

LILLIAN A. ODELL,

Librarian.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Greenland:

The schools of Greenland during the past year have been in good condition. There has been some increase in the number of pupils, but we have been able to seat them without over-crowding. Attendance has been good and good work is being done in all of the rooms.

Upon the recommendation of the State Department our school has been selected as one of a thousand typical schools throughout the United States in which a study of the elementary school curriculum is being made under the Commonwealth Fund by a commission of Educators headed by Professor Charles H. Judd of the University of Chicago.

We still face the problem of being able to keep good teachers. The friendly co-operation of the Parent Teachers' Association and of individual parents can do a great deal to keep teachers satisfied and contented in Greenland. The most important and most valuable public service in the town is the work done by our four teachers. Our appreciation can be shown by paying good salaries and by according them the respect that is due conscientious and earnest young women who are giving their time and energy to the instruction of our children.

Three times a year the school board is required to make detailed and accurate reports to the State Board of Education involving all the financial affairs of the district. These reports must be made to agree with each other and with the reports of the previous year. With the data at hand, the chairman of the school board and the district treasurer should be able to fill out on the printed blanks furnished by the State any of the three reports in considerably less than an hour. However, because of the way that some of the payments are made and because of the confusion resulting therefrom, school officers have had to spend many hours every year checking up differences and trying to get accurate information. Reports required at

a certain date have often been delayed much to the detriment of the standing of the school officers and of the district.

The remedy is simple and is provided in the law; that all payments for school purposes should pass through the hands of the school board and of the district treasurer. Every item of school expense would then be included in their records. This is the intent of the law and I trust that you will be able to have an understanding with the selectmen that the accounts be kept in this way. This plan would also simplify the work of the selectmen. Their only responsibility with regard to school money would be to raise by taxation the amount voted in school meeting and pay it over to the school board as collected. It is the responsibility of the school board to see that the budget voted in school meeting covers all the items of school expense. The detail of spending the school money when once voted should be entirely in the hands of the school board.

Respectfully submitted,

O. R. McCOY, Superintendent.
