## Selectmen's Report

During 1972 Durham continued to grow in size and complexity and this development has been reflected in the activities of the Board of Selectmen, ranging from Assessing to Zoning. The Board has met at least weekly the entire year; Monday night in the summer, Saturday morning during the winter; with other separate committee meetings in addition, dealing with the myriad aspects which are part of Town government. Individual Selectmen from time to time represented the Board at meetings and seminars related to tax problems -- assessing, use of revenue sharing funds, regional planning, and other Town problems.

The move of the Town Offices from the Town Hall to the new location at 13 Newmarket Road was a necessary step, providing a real improvement in the services which this office provides to Durham citizens. This was the first step to provide for the needs of Durham's municipal record keeping and service center.

Other portions of this Town Report will deal in details of Durham in 1972, but this report will highlight some of our major accomplishments and the Selectmen's proposals and plans for the future.

Recognized as a thorny problem for several years and vitally important to the future well-being of Town residents is the improvement to the Durham Water System. Following the special Town Meeting in 1972, the Selectmen asked a number of citizens to serve on a special advisory committee to explore the widest possible consideration of ways and means to bring about the necessary improvements. This group has met frequently to discuss the issues and a revised plan is being presented for consideration by Durham voters at the 1973 Town Meeting.

Although Durham, with the help of the University, has one of the most modern sewerage disposal systems in New Hampshire, it still possesses deficiencies which the Sewer Policy Committee and Selectmen are aware of and are attempting to correct. In accord with the vote of the 1972 Town Meeting, plans have been developed to meet State and Federal funding requirements for these improvements.

At the 1973 Town Meeting the Town will be asked again to further this set of plans.

The 1972 Town Meeting provided funds for enlargement and improvement in Durham's Incinerator and Trash Disposal area. Durham has an installation of which it can be very proud. It is unequalled in the State of New Hampshire, one of the few truly operable incinerator systems. The Town operates this installation for Durham and the University on an equal cost-sharing basis. Over 27,000 cubic yards of trash were handled at this installation during 1972. The funds provided by the last Town Meeting have made possible efficiencies in the installation to comply with both disposal needs and the concerns of environmentalists and ecologists.

Accomplishments by the Public Works Department have been most gratifying. A portion of the Wiswall Road Lamprey River Bridge was reconstructed with the funds appropriated by the Town Meeting. After many hours of negotiations with the B. & M. Railroad and the Bridge Department of the New Hampshire Public Works Department, contracts finally have been awarded for reconstruction of the Mill Road Railroad Bridge and its approaches. An unseasonable turn of weather made it impossible to complete the rebuilding of Burnham Avenue. However, most of the work was accomplished; a portion of Longmarsh Road was rebuilt, over six miles of resurfacing of roads was completed, and we feel a commendable start has been made by the Department in updating Durham's highway system to meet the requirements of increasing traffic demands.

Everyone in Durham is concerned with the problems created by the vehicular traffic congestion in the center of Town. There appears no easy solution to this problem, but efforts are in the planning stage directed toward better parking arrangements and traffic flow.

There were 54 new homes started, and new construction will result in an increase in our property tax income by nearly \$63,000.00. Durham as a town has not deliberately sought growth. It has come in natural course, creating its own tensions. The Selectmen have kept themselves informed of all the actions and counter actions involved, since ultimately they are the ones to approve or deny a building permit.

Federal Revenue Sharing contributions to our revenue will assist us in meeting our property tax burden. Durham will receive in excess of \$300,000.00 from this program over the next five years. The Board of Selectmen, with the concurrence of the Budget Committee, is proposing an order of priority for projects and improvements which the Town may need without increasing the future property tax obligations. The 1973 Town Meeting will have an opportunity to review these priorities.

1972 saw the completion of a property tax map of excellent detail which is of great assistance in tax recording efficiency, and the official street and road map earlier authorized and now being used is of great assistance in planning potential changes in the structure of the Town.

The Durham-UNH Fire Department has faced the problems of providing for a larger service area. The Fire Commissioners have been faced with a number of problems and have taken positive steps to provide an effective jointly operated department, including an emergency dispatch system to serve the needs of our community.

Reference to the Durham Police Department Report will show clearly the increased activities and accomplishment of the Town's law enforcement efforts. Too often this Department is taken for granted and is frequently criticized, but an examination of their reports shows clearly that the Department has made a real contribution to Durham as a better place to live. The Dog Control Ordinance - a minor responsibility of Police function - has presented its problems due primarily to underfunding and its enforcement will in the future be assigned along with other specialized Safety Control duties to a new position being requested of the 1973 Town Meeting.

The Selectmen would be amiss if we did not take this opportunity to commend with thanks citizens serving on the many Town committees who have devoted so many hours of constructive efforts to make Durham the attractive environment to which we all aspire. The Planning Board, the Joint UNH-Town Committee, the Zoning Board of Adjustment, the Ambulance Corps, the Parks and Recreation Committee and the Conservation Commission are only a few of those groups whose voluntary efforts contribute substantially to a better Durham.

TOWN OF DURHAM

## Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Town of Durham for the fiscal year ended December 31, 1971.

Our examination was made in accordance with generally accepted auditing standards and accordingly, included tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of sources of revenues and expenditures present fairly the financial position of the Town of Durham at December 31, 1971, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.

Respectfully submitted,

Frederick E. Laplante  
Director

SUMMARY OF FINDINGS AND RECOMMENDATIONS

Board of Selectmen  
Durham  
New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Town of Durham for the fiscal year ended December 31, 1971, which was made by this Division in accordance with the vote of the Town.

One of the enclosed audits must be given to the Town Clerk to be retained as part of the permanent Town records.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Water and Sewer Departments, District Court and Trustees of Trust Funds.

FINANCIAL STATEMENTS

General Fund:

Comparative Balance Sheets - December 31, 1970 and December 31, 1971:  
(Exhibit A-1)

Comparative Balance Sheets as of December 31, 1970 and December 31, 1971 are presented in Exhibit A-1. As indicated therein, the Current Surplus of the Town decreased by \$37,438.31 in 1971, from \$116,343.20 to \$78,904.89.

Analysis of Change in Current Financial Condition: (Exhibit A-2)

An analysis of the change in current financial condition of the Town during the fiscal year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Decreases in Current Surplus

Surplus Used To Reduce Tax Rate	\$90,000.00	
Tax Liens Transferred To Tax Deeds	1,529.67	
Accounts Receivable Adjustment	30.00	
Tax Collector's Excess Debits (Net)	<u>20.64</u>	
		\$91,580.31

Increases in Current Surplus

Net Budget Surplus	\$54,016.97	
Accounts Payable Adjustment	<u>125.03</u>	
		<u>54,142.00</u>

Net Decrease in Current Surplus \$37,438.31

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits A-3 and A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1971, are presented in Exhibits A-3 and A-4. As indicated by the Budget Summary (Exhibit A-4), a net unexpended balance of appropriations of \$75,924.67 less a revenue deficit of \$21,907.70 resulted in a net budget surplus of \$54,016.97.

Capital Projects Fund:

Comparative Balance Sheets - December 31, 1970 and December 31, 1971:  
(Exhibit A-5)

Comparative Balance Sheets of the Capital Projects Fund as of December 31, 1970 and December 31, 1971 are presented in Exhibit A-5.

Long Term Indebtedness:

Comparative Balance Sheets - December 31, 1970 and December 31, 1971:  
(Exhibit A-6)

Comparative Balance Sheets of the outstanding long term indebtedness of the Town as of December 31, 1970 and December 31, 1971 are contained in Exhibit A-6.

Statement of Debt Service Requirements: (Exhibit A-7)

A statement showing annual debt service requirements (principal and interest) as of December 31, 1971, is presented in Exhibit A-7.

TREASURER

General Fund:

Classified Statement of Receipts and Expenditures: (Exhibit B-1)

A classified statement of general fund receipts and expenditures for the fiscal year ended December 31, 1971, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1971, is indicated in Exhibit B-2.

Water Department: (Exhibit B-4)

A detailed statement of the Water Department receipts and expenditures during the fiscal year is contained in Exhibit B-4.

Sewer Maintenance Fund: (Exhibit B-5)

A detailed statement of the Sewer Maintenance Fund receipts and expenditures during the fiscal year is presented in Exhibit B-5.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Verification of uncollected and unredeemed taxes was made by mailing notices to delinquent taxpayers as indicated by the Tax Collector's records. Consequently, the amounts of uncollected and unredeemed taxes as indicated in this report are subject to any changes which may be necessitated by the return of verification notices.

Conclusion:

The provisions of Chapter 71, Section 27-a, of the Revised Statutes Annotated require that the auditors' summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town. Publication of the Exhibits contained in the audit report is optional, at the discretion of the Board of Selectmen..

We extend our thanks to the officials of the Town of Durham for their assistance during the course of the audit.

Very truly yours,

Frederick E. Laplante  
Director  
DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION

FEL:bfc

THE 1972 AUDIT

The 1972 Audit was not completed in time to be included in the printed report.

The Auditor's report will be available at the Town Office for inspection by any interested citizen during office hours.

# Trustees of Trust Funds

With increased efficiency of a well-staffed town crew, the care and general maintenance of the funded cemeteries has been satisfactorily handled. Unfortunately, because of injury to our stonemason, the major repairs to the Town Pound have not been accomplished. However, the interior has been cleared and is again mowable.

The Smith Chapel has undergone a complete interior improvement by refinishing the woodwork (ceiling, altar, grillwork, and chairs). The three crosses in the outside cemetery have been cleaned professionally.

An additional \$1,200 has been given to the Sarah E. Griffiths fund for the care of the Packers Falls cemetery, which, with \$300 added to the trust from accumulated interest, makes this trust fund equal \$1,800. This was made possible by Mildred Joy Kreisinger (Mrs. Robert) of Wyomissing, Pennsylvania. The fund will henceforth become the Sarah E. Griffiths - Frank A. Joy Trust Fund. The area has already undergone improvement by trimming and landscaping.

The Bunker cemetery, off the Piscataqua Road, is greatly improved. Now thoroughly cleared, with stones set up and cleaned, the area presents a much different appearance. The Bunker Family Association held its annual meeting in Durham in June, and has plans to return again in 1973.

The George Ffrost Temperance Association membership has voluntarily turned over the record books to the trustees, but has failed to officially disband. The matter is still pending, for another organization of similar purposes must be found to carry out the original intent of the donor. A Dover attorney is in charge.

The Doe property has continued to receive the ministrations of the Thompson School forestry students under the guidance of Frank Singer. We consider this project one of which we can be proud. By judicious thinning and pruning the timber stand will improve and be an addition to the Town's holdings. No interference with the scouting camp areas or their established trails is intended. Joint meetings with the Parks and Recreation Committee and several of the state's foresters have resulted in a better understanding of the intent of the work, and an overall approval of its handling. Receipts from timber and box wood have been \$255 in 1973, and \$500 was turned over to the Town of Durham for educational purposes, in keeping with the terms of the trust.

The economics of the Town Cemetery has come under discussion, and the Cemetery Committee will soon give notice of changes in general policies. An increase in the sale price of all lots will be made, and a more uniform management plan. Part of this plan is the result of the New Hampshire Cemetery Association, somewhat recently organized to assist the state's cemeteries in mutual problems.

One of the upper floor rooms of the Town Office Building has been acquired by the trustees for an office, and at no expense has been furnished with a desk, chairs, and filing case. It has proven very helpful in a present project of drawing a more up-to-date map of the Durham Cemetery. The old map which was originated in 1928 has been in use for 44 years. The new map will show ownership of lots and the placement within them of burials. This record is the summation of deeds, previous burial records, and burial permits.

Footnote: Two of the Trustees wish to call to the attention of the citizens of Durham the untiring efforts of Trustee Phil Wilcox in improving the town cemetery and the many private cemeteries in Durham. He has helped, and in many cases worked alone, to reset fallen and broken grave markers, has cut underbrush, pruned trees, cleaned stones, and sprayed poison ivy.

The office space, improved map and files referred to in the above report can be largely credited to Phil Wilcox.

Montgomery Childs  
Samuel W. Hoitt

## Joint Town-University Advisory Committee

The Joint Town-University Advisory Committee is an unofficial committee of the principal Town and University officials that meets when necessary (usually every two months) to discuss problems of concern to both the Town and University. I should add that any conclusions or recommendations decided upon must be referred to and acted upon by the respective Town and University officials before they have final or official basis for action. I would urge those interested in historical information to review previous town reports.

In 1973 the Committee met in the months of January, February, April, June, September and November - a total of six times. At each meeting the agenda called for consideration of any matters of mutual concern in the following areas - police, including traffic and public safety, water supply and distribution, waste disposal, sewer and incinerator, and miscellaneous matters. All of these involve mutual concern as to how plans made in the past are being activated and present planning for the future as it fits in with existing comprehensive and/or master plans and changes that may be desirable in this growing and changing complex - the Town and University.

In a report such as this, it is sufficient to state that progress and understanding has been reached in each of the areas mentioned. In particular, the Town-UNH Police relationship and policy statement was reviewed and updated. The updated statement was adopted by both Town and University officials and signed on April 29, 1972.

It is important in the operation of our town in which the University is "big business" that communication and mutual respect exist between the officials concerned. This Committee provides a means for consideration of many matters in a constructive manner. The efforts of all concerned are sincerely appreciated.

Henry A. Davis  
Chairman

# Public Works Advisory Committee

Committee Chairman Chase reviews Bridge plans  
with Selectmen Davis and Winn

The Public Works Advisory Committee has continued, in cooperation with the Board of Selectmen and the Public Works Superintendent, to review Public Works programs on a broad basis in the Town of Durham. The Committee has developed, in cooperation with the Superintendent of Public Works, a construction program for 1973 to include improvements to selected sections of the Town's highway system, as well as new sidewalk construction. In addition, a program of bituminous paving on the more heavily traveled streets has been recommended and included in the budget for Town approval.

Continuing its past efforts, the Committee has recommended the acquisition of a new loader for the coming year and a dual purpose sidewalk plow-tractor that can be utilized efficiently for summer maintenance.

The Committee is currently reviewing the need for the installation of parking meters in the two major parking lots, as well as selected areas in the downtown section.

Malcolm J. Chase, Chairman  
Norman W. Stiles  
John P. Nielsen

# Public Works Department

The year 1972 started with the directive to concentrate on maintenance and changed over to construction when we completed the most pressing maintenance problems. Early in the year we removed in excess of 50 dead Elm trees, finished visibility improvements, sealed 42,835 feet of roads, and machine paved another 4,445 feet on Mill Road, Davis Avenue, Beard's Landing Road, Woodman Road, Park Court, and a section of Rosemary Lane. Drainage improvements were made on Glassford Lane, Mill Road, and Oyster River Road.

Glassford Lane Drainage Improvement

Town crews constructed a widened Woodman Road to improve school bus turning movements, and also constructed a parking lot for the new Town Office.

In the early Spring, holes appeared in the Wiswall Road Bridge over the Lamprey River. The bridge was declared unsafe and was closed to traffic. Estimates under State Bridge Aid ran as high as \$125,000 at 50/50 contribution. The requirement of a wider span being prohibitive, it was decided to "go it alone" -- which we did for just over \$11,000.

Town crews removed the old structure, Lewis Scheyd was hired to replace the span for \$6,100.00, with \$4,146.00 worth of steel purchased by the Town. The Town crew paved the deck and finished the painting and cleanup.

Town forces also undertook the reconstruction of the parking lot and a connector road to Main Street from the upper parking lot. The work necessitated building a retaining wall along the brook, with the stone coming from the Town quarry at the Incinerator site.

Granite wall construction at end of Jenkins Court

Assistant Public Works Director George Crombie  
Directs construction at Ballard Street

This is what the Parking Lot looked like after clay was removed.....

## INCINERATOR REPORT

The past year of operation concluded the third and most successful year with the reduction of 27,000 cubic yards of solid waste - up from 23,000 the year before. The increase represented, for the most part, 11% efficiency and 5% additional waste generated by Town growth. It is with considerable satisfaction that we are able to report nearly 100% of type #2 trash was processed in the plant.

The Public Works Department erected a steel arch-type storage building at a cost of \$7,000, or \$5.00 per square foot. The building will be used as a transfer shed for handling and storage of waste, and is part of a modification plan converting the method of charging the Fire Chamber. A second part of the plan was the purchase of a Loader, which has been delivered, and a third and final change is an automatic loading ram and hopper, which has been fabricated and is in transit for installation at this writing.

As to the coming year, the plant modifications are now complete and therefore we expect no further capital outlays other than minor amounts for the grounds around the facilities.

#### TRASH COLLECTION

The Town provided the department with a new Packer - giving us relative relief from potential breakdowns. The new vehicle, with a competitive bid cost at \$14,000, was \$4,000 below the expected \$18,000, and is the same manufacture as the replaced unit. The old Packer provided ten years of uninterrupted service.

#### CIVIL DEFENSE

Mr. Paul Day, who had kept the Town's Civil Defense program alive and well in recent years, resigned during the year, due to conflicting personal activities.

The Board of Selectmen appointed Henry LeClair as interim Director. The updating of the operational program is being undertaken and is near completion at this time.

WATER DEPARTMENT

The Water Department closed out the year by increasing its cash balance after operations from \$8,395.46 to \$21,212.56. It also constructed five hundred feet of 6" and 8" mains in improving fire flows by connecting dead ends. Strafford Avenue was one of these locations.

These improvements were made by the Public Works Crew, with payment of costs made from Water Department funds. The University of New Hampshire has recently completed about \$750,000 worth of improvements to the Lamprey River Pumping Station, force main to the Oyster River, and improvements to the Water Treatment Plant. They concluded their obligations of an overall joint effort. To date, the Water Department has been unsuccessful in upholding its commitment of increased storage facilities, but is actively pursuing all avenues available.

Durham water is treated for color, solids removal, and is chlorinated and fluoridated. The Town consumption rose from 73.2 million gallons to 76.9 million gallons. The figure is less than expected, due to heavy rainfall.

11

ROAD AGENT'S REPORT.

Owing to the inclemency of the weather last year, it was impossible to work on the roads; and as I have understood it, my list is not called in until first of July. I will endeavor before that time to give every person a privilege of working their tax, therefore I will just give a general report

Amount of highway tax, 1889,		\$1,271 47

Mrs. Pauline Fleischer enjoys a large type book from the Library's collection

# Children's Department

It has been another lively year in the Children's Department. Our diversity of purposes makes us feel sometimes overloaded, since we are serving the general public, the elementary and middle school students, and the UNH students. However, there are usually books and time for all of these people.

Pre-school Story Time continues to be a popular activity for 3-5 year olds. We have had several weekly groups of pre-school children, and also special story times and films for day care centers and nursery schools.

Many Oyster River Elementary School classes have been coming to the Library for book talks, browsing, research, library instruction and sometimes films. On Wednesday afternoons, when the school children are dismissed early, we have a film program during the winter. The films are for varied age groups, and anyone may attend. We have done our best to be a school library as well as a public library, but we are very pleased that the elementary school will soon have a library of its own. Monthly meetings with school and Lee librarians keep us in professional communication with each other.

During the summer we had something for everyone: pre-school story time, and weekly film and book programs for grades 1-2, 3-5, and 6-8. We also had a poster which showed who had read how many books, for anyone who could read, geared toward keeping up enthusiasm and use of the Library by Durham children throughout the year. The Little Red Wagon of Project TRY again pleased a large audience in front of the library with a puppet show and creative dramatics.

We talked to several UNH classes about specific and general aspects of children's literature, and about story telling. During second semester last year a creative dramatics student supervised a group of second and third graders each week after school as a project for which she received credit in her course. We hope that more of this can be done in the future, thus enabling us to have more and varied programs at the library in addition to providing experience and credit for the university student.

We keep hoping that our collection continues to get better every day in every way, but for every gap we fill, there seems to be a new one to

take its place. We are weeding out some unread and unloved books to keep the collection lively and to keep enough shelf space available for new books.

In 1973 we plan to add cassettes and players with earphones which can be used in the Children's Room. There are so many recordings of children's stories, poems and music that it would be an important and appreciated addition to our materials.

The Library continues to evolve and expand its resources to try to meet the increasing recreational and informational needs of the community, and increased funding will enable us to carry out the new services we would like to offer.

# Police Department

The year 1972 afforded the officers of this department the opportunity to continue the advancement of their Police Science level of education.

Chief Ray Burrows attended a Police Management Conference for one week held at the Concord Vocational Technical Institute in Concord, N. H.

Lt. Inspector Ronald McGowen attended a Criminal Homicide Seminar for one week at the New England Center, Durham, N. H. An intensive study was held covering investigations of Homicide, Suicide, Autopsies, and Forensic Medicine.

Four of our officers attended the New Hampshire Public Health Breathalyzer Program for one week each at the Conference Center, Pembroke, N. H., and graduated as Certified Breath Examiner Specialists. They are Chief Ray Burrows, Lt. Inspector Ronald McGowen, Sgt. Robert C. Hollis, Jr., and Sgt. Leslie Jewell.

The Breathalyzer Instrument now used at the Police Station enables the Examiners to determine the Blood Alcohol Concentration level of the intoxicated driver. 1972 had 99 drunk driver cases processed in the Durham District Court. Since the Breathalyzer Instrument became available to the Police Department in April, 1972, 70 of the cases were processed by our Examiners.

Two officers, Arthur Hendrickson and Kenneth Laderbush, graduated from the New Hampshire State Police Academy's six-week training program held at Pembroke, New Hampshire.

Sgt. Leslie Jewell graduated from a three-week intensified course of study at the Babson College Command Training Institute, Wellesley, Mass. The high level training program enables officers of the rank of Sergeant through Chief of Police to become more diversified in their approach to administrative and departmental functions. Lt. Inspector Ronald McGowen and Sgt. Robert Hollis, Jr. are also Babson College graduates.

Sgt. Leslie Jewell, during 1972, also graduated from the Firearms Instructors School, held in Wakefield, Massachusetts.

Under the New Hampshire Police Standards and Training Council Program, a number of police seminars were held in various state locations and the officers attended on their off-duty hours at the seminars located at the Concord and Portsmouth Vocational Institutes. The subjects covered were Narcotics and Dangerous Drugs, Alcohol Problems (D.W.I.), Juvenile Delinquents, Auto Thefts, and the new Criminal Code.

The year 1972 ended with the Police Department expanding into the

offices formerly occupied by the Town Hall. Renovations were started with funds received from the Crime Commission to purchase the material supplies and the police officers donating over 200 labor hours to complete the construction work with no cost to the Town.

Chief Ray Burrows commended the officers with the following letter: "We now have offices and facilities of which we can all be proud. A milestone has been reached in the Durham Police Department. The collective efforts of all those able to participate to accomplish this feat continues to make me proud to serve as Chief".

We, of the department, extend a cordial invitation to all to visit the police station to see the new renovations of which we are all so proud.

JUST VISITING

1972 JUVENILE REPORT

One of the major concerns of the department during 1972 was the increase in Juvenile cases. A number of juvenile cases involved warnings, with parents being notified, warnings after hearings with parents, and juveniles released in the custody of parents for disciplinary action.

The Juvenile Annual Report relates only those crimes where the juvenile

The Juvenile Annual Report relates only those crimes where the juvenile offender was known, apprehended, and processed, and does not include unsolved crimes where juveniles were involved.

## 1973 TOWN WARRANT

To the inhabitants of the Town of Durham, County of Strafford, State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at the Oyster River Cooperative High School Cafeteria, Durham, New Hampshire, on Tuesday, the sixth day of March, 1973 A.D., at 8:00 A.M. to act on the following ballot articles:

1, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35.

As provided by law, there can be no discussion on these articles prior to balloting.

POLLS WILL CLOSE AND ACTION BY BALLOTING on the articles referred to above and listed below will cease at 7:00 P.M. The ballots will then be counted and the results announced.

Further, in compliance with action approved by the Town Meeting on March 7, 1972, (Article 2), you are hereby notified to meet at the Oyster River Cooperative High School Gymnasium at 7:00 P.M. on Wednesday, the seventh day of March, 1973, A.D. to act on all other articles in this warrant. A motion to confirm this action will be presented and voted on at the opening of the Town Meeting on March 6, 1973.

ARTICLE 1. To choose two (2) Selectmen for a term of three (3) years; a Trustee of Trust Funds for a term of three (3) years; four (4) members of the Budget Committee for a term of three (3) years. OFFICIAL BALLOT.

ARTICLE 2. To see if the Town will appropriate the sum of three hundred and eighty-five thousand dollars (\$385,000.00), or any other sum, for Capital Improvements to the Town's water system, including construction of a new storage tank, acquisition of easements, and laying new water mains; and to authorize the Selectmen to raise this appropriation by borrowing, or otherwise, and to authorize the Selectmen to contract for and expend State and Federal aid for the project, provided that the total authorized borrowing hereunder shall be reduced by the amount of such aid; and to authorize the Selectmen to take all other action necessary to carry out the project.

(Recommended by the Budget Committee) (Action by Ballot after discussion.)

ARTICLE 3. To see if the Town will direct the Selectmen, acting as Water Commissioners, to collect as water income from the customers of the Durham Water Department, amounts sufficient to reimburse the Town for all principal and interest payments on the bonds or notes authorized by Article 2; and to declare as continuing Town policy the requirement that all improvements to the water system shall be paid for by Water Department funds collected from water charges to connected customers for improvement of the existing system, or from per front-foot charges agreed upon by contract with potential customers seeking new service in accordance with regulations established by the Water Department.

(Action by Ballot after discussion)

ARTICLE 4. To see if the Town will require the Selectmen, provided Article 2 shall be passed, to poll the owners of property, upon their petition as described below, which abuts the water mains required to provide service to existing built-up areas of the Town (such as Wedgewood,

Woodridge, and the Valley Development) to ascertain their willingness to contract with the Water Department to pay by front-foot charges the cost of installing mains to provide such service in accordance with existing Water Department regulations; and, if such poll reveals a sufficient number willing to guarantee the cost, the Selectmen shall present to a regular or a Special Town Meeting a warrant article asking for appropriations reimbursable by the Water Department, in accordance with Article 3, to install such service. Such a poll shall be taken in any year that a petition is made to the Selectmen by at least ten (10) concerned registered voters within the area requesting such a poll.

(Action by Ballot after discussion)

ARTICLE 5. To see if the Town will amend the Durham Zoning Ordinance by changing from R to RB the area bounded on the North by a line 350' North of and parallel to Packers Falls Road; on the East by the present RB Zone; on the South by a line 350' South of and parallel to Wednesday Hill Road, and on the West by the Lee Town Line.

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 6. To see if the Town will authorize the Planning Board to act according to section 36:16 of N.H. RSA to make or cause to be made from time to time, surveys for the exact locating of the lines of new, extended, widened, or narrowed streets in the Town of Durham. This authorization by the Town Meeting, shall not in and of itself constitute or be deemed to constitute the opening or establishment of any street or the taking or acceptance of any land for street purposes. (To authorize the Planning Board to take legally required action to enable it to bring recommendations to the Town Meeting.)

(Recommended by the Planning Board.) OFFICIAL BALLOT

ARTICLE 7. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 1.10 preamble to read: "The purpose of this ordinance is to promote the public health, safety, convenience and general welfare by means of the provisions of this ordinance:"

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 8. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 1.32 heading to read: "Protest to Amendment or Repeal;" and amending line 1 and 2 of 1.32 to read: "In case of a written protest against a proposed amendment or repeal;" and amending line 4 of 1.32 to read, "those immediately adjacent in the rear thereof;" and amending Line 6 et. seq. of 1.32 to read "such proposed amendment or repeal shall not become effective except by a favorable vote of two thirds of all the members of the Town Meeting present and voting."

(Adds repeal to the protest provisions of the ordinance and clarifies the position of the abutters to the rear of the area in such action.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 9. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 1.40, table of Classes of Dwelling Units, by adding in the vertical table headings by making underlined changes by:

- (1) After heading apartment, add "including accessory apartment use".
- (2) After heading Boarding House, add "including accessory Boarding House use".
- (3) After heading Rooming House, add "including accessory Rooming House use".

(Specifies the conditions of the table to include the noted uses when they are accessory as well as main uses.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 10. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 1.40, table of Classes of Dwelling Units, by adding in Horizontal column respecting Max. No. of occupants in unrelated household per 300 sq. ft. of habitable floor space, Note h under headings Apartment, Boarding House and Rooming House, and further, by adding to Notes at end of table 1.40 new note h reading:

"h. Not exceeding four unrelated persons per building for accessory use."

(Establishes a maximum number of unrelated individuals in a building when apartment, boarding house, and rooming house are an accessory use.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 11. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 3.32 respecting resumption after discontinuance of nonconforming use by changing second of to an or, so it will read: "or the corporation or its successors."

(To correct a typographical error in the original.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 12. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28, Table of Permitted Uses by Zoning Districts by adding:

- 1 - Requirement of site review for all Residential Uses except a single household, b. duplex household, i. accessory lodging use and m. accessory buildings, by adding at heading Uses after words "4.21" the new words:

"all uses except a, b, i and m each require site review."

(Specifies the uses not requiring site review.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 13. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses to remove accessory second class home occupation from RC Zone, by deleting the "X" opposite j (2) under RC.

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 14. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses to limit Rooming House and Boarding House uses in CR zone maximum of 10 unrelated persons per building and adding accessory apartment use in CR zone, by:

(1) adding opposite d. and c. under column CR the symbol: "3"

(2) adding opposite j. (1) under column CR the symbol: "X"

(Recommended by the Planning Board.) OFFICIAL BALLOT

ARTICLE 15. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of uses under Rural and Recreational Uses, to eliminate question of basic right to keep small animals as pets, by deleting entirely category "M. Keeping of small animals as pets," and change present N. to M. to correct alphabetical initialed sequence of uses.

(Removes present restriction of site review for keeping small pets and then corrects sequence of uses.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 16. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses, under Rural and Recreational Uses by deleting "X" in column RC opposite d. and k.

(Removes as permitted uses in RC zone both Boarding Training or Veterinary care of animals and Airport, heliport.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 17. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses under Retail and Personal Service Uses, by:

Deleting "X" under RA opposite f. and g. of this section.

(Removes from RA zone the former permitted uses for Medical or dental clinic and Offices for professional or personal services.)

(Recommended by Planning Board.) OFFICIAL BALLOT.

ARTICLE 18. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses under Retail and Personal Service Uses, by:

Deleting SE after e. of column RC.

(Removes Hotel, Motel use from RC zone.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 19. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses under Retail and Personal Service Uses, by:

Deleting X after c. of Column R.

(Removes drive-in eating places from permitted use in R zone.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 20. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses under Retail and Personal Service Uses, by:

Adding an X to both f. and g.

(Adds medical or dental clinic and offices for professional or personal services to R zone.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 21. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses under Retail and Personal Service Uses, by:

Adding an "SE" after c. under column BA.

(Allows Drive-In eating places as permitted use by special exception only in the BA zone.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 22. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses under Retail and Personal Service Uses, by:

Deleting X after g. under column OR.

(Deletes offices for professional or personal services from OR zone.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 23. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28, Table of Uses under Retail and Personal Service Uses, by:

Adding opposite e. under column CR an "X".

(Adds to permitted uses under CR zone Hotel, Motel.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 24. To see if the Town will vote to amend the Durham Zoning Ordinance by making underlined changes by:

Amending Article 4.28 Table of Uses, under Institutional and Semi-Public Uses, by:

Adding opposite e. under column CR an "X".

(Adds to permitted uses under CR zone a private utility without service yard.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 25. To see if the Town will vote to amend the Durham Zoning Ordinance by making the following described changes in Article 5 of such ordinance:

5.13 Frontage. Delete present explanation. Add: The front lot line (and its length) running along (abutting) a street.

(Clarifies a definition.)

5.15 Yard. Delete horizontal distance and add the word: land.  
(Clarifies a definition.)

5.18 Table of Dimensional Controls. Under explanation of table delete notes 7, 8 and 9 entirely, change number 10, 11, 12, 13, and 14 consecutively to number 7, 8, 9, 10, and 11; at this point add new notes:

12. In addition to the requirements of Articles 6.30 and 6.40 each dwelling unit, as defined in Article 1.40 requires a minimum land area of 2000 sq. ft. This requirement in no way lowers the minimum lot area set forth in this table (5.18) but may increase the necessary lot area for multiple dwelling unit usage.

13. These figures may be varied by the Planning Board under procedures outlined in the Durham Subdivision Regulations for plots of land of unusual shape or at corners where an increased set back can provide the same effective spacing of the usable portion of a lot.

14. Dimensional controls as stated in Article 8 apply to mobile home parks. For all other uses the controls shall be set forth in this table (5.18).

(All of the following pertain to the change in numbering of these Notes in 5.18.)

To column heading change Note 6 to read (Notes 6 and 12) under Minimum Lot Area; add (Note 13) to Minimum Frontage.

Under RA delete note number 11 and add 8) to street frontage; under Max Ht. Ft. delete number 13 and add 10).

Under RB delete number 8 under Max No. occupants and add 7; under Street Ft. delete 11 and add 8); under Max Ht. Ft. delete 13 and add 10).

Under RC, Max No. of occupants delete number 8 and add 7); under Street Ft. delete 11 and add 8); under Max Ht. Ft. delete 13 and add 10).

Under R Max No. of occupants delete 9 and add 7; under Street Ft. delete 11 and add 8); under Max Ht. Ft. delete number 13 and add 10).

Under OR Max No. of occupants delete 9 and add 7; under Street Ft delete 11 and add 8); under Max Ht. Ft. delete 13, 14 and add 10, 11).

Under BA Max No. of occupants delete 10 and add 7; under Min Frontage delete 12 and add 9); under Street Ft. delete 11, 12 and add 8, 9); under side Ft. delete 12 and add 9); under Rear Ft. delete 12 and add 9); under Max Ht. Ft. delete 13, 14 and add 10, 11).

Under BB Min Frontage delete 12 and add 9); under Street Ft. delete 11, 12, and add 8, 9); under Side Ft. change note 12 to 9); under Rear Ft. delete 12 and add 9); under Max Ht. Ft. delete 13, 14, and add 10, 11).

Under CR Max No. of occupants delete 10 and add 7; under Max Ht. Ft. delete 35 and add 40 (Note 11).

5.20 Building Setback. Change feet requirement under a. from 37.5 to 40 feet; Under b. delete .0 after 30; add new footnote under b:

c. where structures exist on properties or lots abutting both sides of the lot concerned which do not meet the conditions imposed in a. or b. above, the Planning Board is empowered to allow a lesser setback. However, the proposed structure may not be closer to the street lot line than the structures on abutting lots in such a case.

In line 4 after c. change word designated to shown. Add following sentence to end of paragraph: New streets may be designated as arterial or collector by the Planning Board at the time such streets are laid out.

5.23 Permitted Uses in Required Yards. In a. of outline, add the word non-commercial before residential; Add a new last sentence under c. of outline: Where the lot in CR district directly abuts a lot in a residential zone the above provisions may be required.

(Modify dimensional controls protecting abutters and permitting some flexibility in specific unusual situations.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 26. To see if the Town will vote to amend the Durham Zoning Ordinance by making the following described changes in Article 6 of such ordinance:

6.21 General Requirements. Line 2, delete: and shall be located on the same lot; Line 8, delete number 200 and add 300 in its place; Line 9, delete period and continue on with: either on the same lot or within 300 feet of the lot being developed by appropriate long-term arrangements satisfactory to the Planning Board.

6.42 Minimum Number of Spaces by Use. Line 3 under c. delete beds, and add the word residents; Line 1 of e. exchange 1.5 for the 1.25 presently listed.

(Permits off-site parking, makes use of municipal facilities more equitable to all stores, brings parking requirements into line with current level of car ownership.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 27. To see if the Town will vote to amend the Durham Zoning Ordinance by making Mobile Home Parks, Article 8, expressly subject to site review, by adding to Article 8.20, General Requirements, at end of first sentence, the words: "and will require site reviews."

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 28. To see if the Town will vote to amend the Durham Zoning Ordinance as to Mobile Home Parks, Article 8, to increase the overall park size and similar requirements by making the following underlined changes:

1. Article 8.23 a. shall be amended to read: "the designated number of mobile home spaces which shall not exceed one space per 40,000 square feet in the tract." (formerly 15,000)

2. Article 8.23 d. shall be amended to read: "necessary service buildings to house such facilities as are prescribed by applicable state and local ordinances and regulations." (deleting words toilet, bathing, laundry and other sanitary).

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 29. To see if the Town will vote to amend the Durham Zoning Ordinance as to Mobile Home Parks, Article 8, to increase the mobile home space lot size and similar requirements by making the following underlined changes:

1. Article 8.31, 2nd sentence, changed from 10% to 20%, to read: "No mobile home shall occupy an area in excess of 20% of the mobile home

space; \_\_\_\_\_." and add after such semi colon, the words: "when applying the 20% criterion, awnings, vestibule, or other attached added structure or accessory buildings shall be considered an integral part of the mobile home."

2. Article 8.31, 2nd sentence, line 3, delete 4000 and delete 50 and add in their place and by way of supplement the words to change such clause to read: "However, each mobile home space shall contain a minimum of 6000 square feet with water and sewer, 7000 square feet with water and no sewer, 8000 square feet without water or sewer and shall be at least 60 feet wide to the required square foot coverage."

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 30. To see if the Town will vote to amend the Durham Zoning Ordinance as to Mobile Home Parks Article 8, by making the following described changes:

8.22 Buffer Yard. Line 1, change number one to two; Line 2, after first word any add: exterior, and after word home add: space; Line 4, after word hedge add: at least six feet in height; Line 5, after word all add: exterior.

8.32 Internal Yards. Delete entire second sentence under a; Line 4, Change 15 to 20; Line 5, delete period and add: or closer than 30 feet from any park road.

After 8.33 add new section, 8.34 as follows:

8.34 Administration and/or Service Building. The administration and/or service building shall be located on a space which remains an integral part of the mobile home park. However, for dimensional control purposes it shall be treated as a building lot subject to the requirements of the zone in which it is located. The Planning Board requires a site review.

8.41 Number and Location. Line 2, add: and one-half after the word one.

8.50 Recreational Area. Line 1, after the word provided add: on land suitable for such use; Line 3, change 5,000 to 10,000.

8.63 Fire Protection. Sentence 2, delete entirely; Sentence 3, delete: left unattended at any time; and add in its place: permitted except in accordance with state and local statutes.

8.64 Electrical Installations. After sentence one, add: The line may, however, be buried underground in accordance with applicable regulations.

8.66 Landscaping. Under a., drop semicolon and add: such as garbage and trash cans;

8.71 Register. Line 1, under a., delete: and permanent addresses; Line 2, under a., delete: stopping; Line 1, under b., delete: and mobile home. Delete Line c. entirely; change line d. to line c.

(All the foregoing apply more stringent specifications except 8.71, which brings the ordinance into conformity with Civil Rights legislation.)

(Recommended by the Planning Board.) OFFICIAL BALLOT

ARTICLE 31. To see if the Town will vote to amend the Durham Zoning Ordinance as to Mobile Home Parks Article 8, by adding the following section:

8.88 Performance Bond. A bond will be posted with the Selectmen sufficient to cover the expenses which would be incurred for removing all physical improvements from the land, should the mobile home park be discontinued or abandoned.

(Guarantee: That the Town will not be left with an abandoned area.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 32. To see if the Town will vote to amend the Durham Zoning Ordinance as to Signs, Article 7, by adding to the Table of Permitted Signs, Article 7.49, under CR zone, the number 1 opposite respectively Residential Accessory (Sign), Snipe (sign) and Temporary (sign). (Remedies an oversight in the original ordinance.)

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 33. AS PROPOSED BY VOTER PETITION: To see if the Town will vote to modify the Durham Zoning Ordinance entitled:

Article 8, Mobile Home Parks as follows

1. Change Section 8.23 to read:

8.23 Area. The area of the mobile home park shall be large enough to accommodate:

- a. the designated number of mobile home spaces which shall not exceed one space per the same square foot requirement for a minimum lot (see 5.18). Areas of land which, by reason of poor drainage, are unsuitable for residential use shall be excluded from consideration in the overall area.

b, c, d, e, to remain the same.

2. Change Section 8.31 to read:

8.31 Area and Width. Each mobile home space shall be clearly defined and delineated. No mobile home shall occupy an area in excess of 10% of the mobile home space; however, each mobile home space shall contain a minimum of 10,000 square feet, and shall be at least 100 feet wide; provided, however, that parks which, at the time of the adoption of these regulations, existed lawfully with mobile home spaces that do not comply with the foregoing minimum area and width requirements, may continue to operate and shall be excused from such compliance.

(Petitioned by the following 44 legal voters: Jane P. Pokoski, Diana L. Baillargeon, Calixte Baillargeon, John Pokoski, Beatrice Dewey, Donald W. Melvin, Anne H. Melvin, Joseph B. Murdoch, Ann E. Murdoch, Sally P. Ford, Betty Morrison, Robert Morrison, Nancy P. Sandberg, Thomas L. Eagle, Jr., Joanne R. Eagle, Mary Record, Ruth M. Brayton, Alison B. Keller, Richard M. Brayton, Shirley A. Morton, Shirley Ann French, Mary A. Bowley, Freeman W. Bowley, Ralph B. Craig, Jr., Ralph B. Craig, Sr., Loraine C. Forcier, Carleton E. Meader, Louise R. Thatcher, Sandra R. Morrison, Ewell J. Morrison, Bette McGowen, Evelyn Prescott, Stanley Prescott, Irene B. Fisk, Joseph W. Fisk, Betty M. Miller, Emery A. Miller, Sr., Richard Dewey, Frank A. Carter, Jr., Elizabeth Robinson, Helen Sawyer, George Sawyer, Jr., Barbara Morse, Adrian O. Morse.)

(Not recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 34. To see if the Town will vote to amend the Durham Zoning Ordinance by adding to the various Articles hereinafter referred to the changes necessary to add provisions for special Housing for older Citizens, by making the following changes and additions to such ordinance:

Section 1.40 under DWELLING, add n. Housing for Older Citizens means a group of small dwelling units situated and arranged so as to provide comfort, security, social contact, convenience and congenial surroundings for permanent residents at least 55 years of age. Authority for any such developments shall be restricted to occupancy by persons of at least 55 years of age, and the selectmen may revoke the certificate of occupancy of any owner or developer allowing occupancy by persons below such age.

In Section 1.40 CLASSES OF DWELLING UNITS add column for Housing for Older Citizens. All designations will be the same for those for "Apartments".

In Section 4.21 RESIDENTIAL USES PERMITTED add: 1. Housing for Older Citizens shall consist of small dwelling units with a minimum habitable floor area of 400 square feet which may be: 1) arranged in clusters, 2) garden apartments, 3) a single building, or 4) in an existing building suitably converted into separate units. In addition to the floor area, each unit shall be required to have one and one-half parking space (300 square feet) and 100 square feet of open space in addition to the setback requirements. These units will be allowed in RA, BA and CR districts only by Special Exception and require a site review.

Section 4.28 TABLE OF PERMITTED USES BY ZONING DISTRICTS, under title of RESIDENTIAL USES add n. Housing for Older Citizens and place an SE under RA, BA, and CR.

Section 5.18 TABLE OF DIMENSIONAL CONTROLS add note 15 under Minimum Lot Area Sq. Ft. for RA, BA, and CR. Note 15. The minimum lot requirement of 2000 sq. ft. per unit may be varied by the Planning Board upon site review for Housing for Older Citizens. A minimum sized lot so allowable will provide at least 400 sq. ft. of habitable floor area, 300 sq. ft. for parking space and 100 sq. ft. of open space in addition to setback requirements. The parking area requirements for all or several units may be combined. The open space requirements for all or several units may be combined. But no parking will be allowed on the minimum open space area or within minimum setback areas.

(Recommended by the Planning Board.) OFFICIAL BALLOT.

ARTICLE 35. To see if the Town will vote to amend the Zoning Ordinance by changing the Zoning Map of the Town of Durham to (a) incorporate all of the changes implied by the adoption of any of the articles in this Warrant; (b) adding all existing accepted roads; (c) designating as Collector streets, Dennison Road, Faculty Road, and Woodman Road between Dennison and Madbury Roads, and (d) remove all references to street center lines.

(Recommended by the Planning Board.) OFFICIAL BALLOT.

#### THE PRECEDING CONCLUDES THE OFFICIAL BALLOT ARTICLES

ARTICLE 36. To see if the Town will authorize the Board of Selectmen in cooperation with the University of New Hampshire, to engage engineering consultants to prepare an engineering report, said report to provide a plan for secondary waste water treatment and logical expansion of the sewerage collection system as required by the Environmental Protection Agency and the New Hampshire Water Supply and Pollution Control Commission. This article represents the first step in an agreement reached with the Environmental Protection Agency and the New Hampshire Water Supply and Pollution Control Commission negotiated by the Selectmen in accordance

with Article 32 of the 1972 Town Meeting which provided for the "necessary planning improvements to meet State and Federal requirements."

The sum of \$35,000.00 to cover the cost of the engineering study is included in the Town's budget. Offsetting revenue (75% Federal and 20% State) is anticipated and is shown in the revenue column. The remaining 5% is to be shared by a 2/3 reimbursement from the University and 1/3 Town. Authorization is further requested for the Selectmen to receive as revenue any available Federal and State funds to permit reduction in the budgeted amount.

It should be understood that Federal and State financing for the grease handling facilities project authorized in Article 32 of the 1972 Town Meeting and the engineering study requested in this article is contingent on the Town's continuing acceptance of the schedule for the installation of secondary treatment, which under the agreement negotiated by the Selectmen, promises completion of construction and commencement of operation of said secondary treatment facilities by December 1, 1976.

The agreement provides for a contribution of 95% of the cost by Federal and State agencies and should be regarded by the Town as contingent upon this approval.

(Approved by the Budget Committee.)

ARTICLE 37. To see if the Town will authorize the Board of Selectmen to accept a grant of \$23,000 from the New England Regional Commission through the State of New Hampshire for construction of parking and improved traffic movement facilities on Strafford Avenue at the New England Center and expend same for the noted improvements. The expenditures by agreement between the Regional Commission and the State of New Hampshire will be administered by the New Hampshire Department of Public Works and Highways under the procedures established for Town Road Aid construction (TRA). The grant does not require any matching funds by either the State or the Town.

ARTICLE 38. To see if the Town will vote to amend the official map of the Town of Durham by adding a proposed right of way for the so-called "Southern Link Road" running from the intersection of Longmarsh Road and State Route 108 northwesterly terminating at Mill Road east of the Railroad Bridge, as described by the official survey of the State of New Hampshire Highway Department. (See posted map.)

ARTICLE 39. To see if the Town will vote to authorize the Selectmen to enter into such negotiation with the Oyster River School District as may be necessary to properly convey to that School District, without consideration, a parcel of land in the angle between the Ninde property and the Durham By-pass, as described in a deed from Daniel Ninde, et al., to the Inhabitants of the Town of Durham, dated October, 1962, registered in Volume 754, Page 256, with the Strafford County Registry of Deeds.

ARTICLE 40. To see if the Town will authorize the Selectmen to enact an ordinance for the purpose of installing parking meters in the "Business A" district to include the two Town parking lots, Main Street from Rosemary Lane entrance to Madbury Road, Madbury Road from Main Street to the parking lot entrance, Jenkins Court, and Main Street from Rosemary Lane to Edgewood Road, and establish reasonable charges for parking to be paid through such meters.

The plan for installation of meters will be presented at a public hearing prior to the enactment of the ordinance. It is anticipated that the major cost of this project will be self-liquidating. Any additional funds required are included in the budget under Traffic Safety in the Public Works Department.

ARTICLE 41. To see if the Town will authorize the construction of a skating rink and/or tennis courts at a site to be determined by the Selectmen, to provide year round recreation facilities for the citizens of the Town of Durham. (The sum of \$9,000 has been included in the budget for this purpose.)

(Approved by the Budget Committee.)

ARTICLE 42. To see if the Town will authorize the Conservation Commission, in accordance with the terms of RSA 36-A, as amended, to negotiate and conclude for, and in the name of, the Town the purchase of land or water rights, in fee, or any lesser interest therein, which it shall determine to be in the best interests of the Town to conserve and properly utilize open spaces and other land and water areas within the town in accordance with RSA 36-A; provided, however, that prior to consummating any such purchase the Commission shall hold a public hearing at which parties in interest and citizens shall have an opportunity to be heard. At least fifteen days notice of the time and place of such hearing shall be published in a paper of general circulation in the Town and notice thereof shall be posted in at least three public places in the Town. Approval of any such purchase shall require a two-thirds vote of the Conservation Commission and a majority vote of the Selectmen.

To appropriate the sum of Ten Thousand (\$10,000) Dollars for the use of the Conservation Commission, and

To authorize the Conservation Commission to place any unexpended funds remaining at the end of the year in a conservation fund to accumulate from year to year in accordance with the provisions of RSA 36-A:5.

(Petitioned by the following 10 legal voters: Donald Melvin, Karen Mower, Richard G. Strout, J. G. Conklin, Walter W. Cheney, Arthur C. Borrer, John Pokoski, Filson H. Glanz, Glen C. Gerhard, Hollis L. Leland.)

(Recommended by the Budget Committee.)

ARTICLE 43. To see if the Town will vote to raise and appropriate the sum of \$3,500.00 to defray its share of the Strafford Guidance Center budget for 1973-74.

(Petitioned by the following 10 legal voters: Anne F. Valenza, Daniel L. Valenza, Dorothy W. Mills, Richard S. Davis, Helena R. Davis, Joyce Kole, Marjorie Moore, Ann W. Allmendinger, Marc Schwarz, C. Sue Mautz.)

(Not recommended by the Budget Committee.)

ARTICLE 44. To see if the Town will indefinitely postpone action on the transition to a new fiscal year, and that the Board of Selectmen appoint a special committee to study the full range of options and report back to the Town at the next Town meeting in March, 1974.

(Petitioned by the following 14 legal voters: David L. Larson, Sol Rockenmacher, Donald Masi, Sam G. Hardy, Jr., Bruce K. Johnson,

Mrs. Robert Stuttig, Gerald J. Pine, Montgomery R. Childs, Robert B. Dishman, Gwen L. Tolan, James D. Morrison, John R. Sandberg, Jerry A. Warren, Harold L. Wochholz.)

ARTICLE 45. To see if the Town will instruct the Selectmen to take the necessary steps to bring before the next Town Meeting, March, 1974, an article in the Warrant to enable the taxpayers to vote and approve legally, if it is their wish, an alternate payment schedule to the Beckett fiscal year plan voted in the Town Meeting of March, 1972.

It is understood that any payment schedule revision presented to the voters will have had the required enabling legislation passed in the State Legislature.

(Petitioned by the following 19 legal voters: Harry W. Allen, William A. Bonin, B. W. McIntire, Ralph Carlson, Andrew Mooradian, Eugene A. Savage, Barbara A. Long, John T. Harrison, Howard E. Forrest, John M. Sakowski, Ray F. MacDonald, Francis D. Manock, Donald F. Cook, Dudley W. Dudley, Donald Masi, Daniel M. Ninde, Edward J. Durnall, Walter W. Cheney, Gunnar M. Oleson.)

ARTICLE 46. To see if the Town will vote to designate Durham Point Road as a "Scenic Road" in accordance with the provisions of the New Hampshire Revised Statutes Annotated (253:17-18), in order to preserve the scenic beauty and the historical character of the Town.

(Petitioned by the following 44 legal voters: Nancy P. Sandberg, Harold E. Langley, Jr., Barbara J. Langley, Kenneth E. Moore, Deborah P. Moore, Malcolm Sandberg, Patrick Fleming, Sandra Lawson, Ann Alger Rollins, Alexander Cochrane, Eugenie G. Cochrane, Jeannette de B. Congdon, Bradford M. Kingman, Jane T. Kingman, Louise F. Weeks, Mildred E. Rollins, Nancy C. Rupp, Daniel F. Ford, Sarah H. Dawson, Kathleen I. Fleming, Joseph F. Fleming, Fay Oleson, Gunnar M. Oleson, Stanley F. Langley, Helen M. Langley, Wyman E. Langley, Evelyn Browne, June M. Durnall, Helen Heald, Ruth Smith, Virginia O. Snively, Florence C. Robinson, Philbrook Paine, Serena Paine, Elizabeth W. Robinson, George Sawyer, Jr., Helen Sawyer, Sally P. Ford, S. S. Jabre, Madeline A. Lockhardt, Bill Lockhardt, Barbara Morse, Adrian O. Morse, Rose F. Jabre.)

ARTICLE 47. To see if the Town will authorize the Selectmen to transfer or deed to abutting property owners, portions of cul-de-sac existing at junction of Oyster River Road and Mill Pond Road that is not required in the normal maintenance of the public way.

(Petitioned by the following 12 legal voters: Charles E. McLean, Alice D. McLean, Jo Anne McLean, John A. Beckett, Elizabeth D. Beckett, George P. Donahue, Helen D. Donahue, Frederick I. Wakefield, Helen S. Wakefield, Rudolf J. Schroeder, Annette Schroeder, Lyle Ford.)

ARTICLE 48. To see if the Town will authorize the Selectmen to establish a Federal Revenue Sharing Fund to receive Federal Revenues allocated to the Town by the Federal Government under the provisions of 1972 Acts of Congress establishing the State and Local Assistance Act, and authorize withdrawal from this fund for budgeted appropriations (see Budget) in the approximate amounts and for the purposes listed as follows:

	(12 Months) <u>1973 Budget</u>	18 Months <u>Budget</u>
1. Completion Mill Road Railroad Bridge	\$ 14,000.00	\$ -0-
2. Improvement Parking Lots & Access	10,000.00	-0-
3. Town Garage Complex	26,000.00	5,000.00
4. Repairs - Mill Pond Dam	18,400.00	-0-
5. Town Beautification	2,000.00	-0-
6. Partial Payment - New Payloader	15,000.00	-0-
7. Purchase Sand-Gravel Screen	-0-	8,000.00
8. Improvements - Town Office	4,000.00	-0-
9. Town Office Furniture	3,000.00	-0-
10. Town Office Equipment/Accounting	11,000.00	-0-

12. Recreation - Skating Rink/Tennis Courts	5,000.00	4,000.00
13. Dispatch System (Construction)	5,000.00	-0-
14. Fire Alarm System	-0-	5,000.00
15. Reduction of Notes - Town Office (Debt incurred since Jan. 1, 1972)	<u>                    </u>	<u>6,000.00</u>
Estimated Total	\$ 117,400.00	\$ 28,000.00

ARTICLE 49. To see if the Town will vote to adopt the 18 Months Budget for the period January 1, 1973 - June 30, 1974, as submitted by the Budget Committee in the amount of one million, two hundred sixty thousand, five hundred twenty-three dollars (\$1,260,523) and to raise by taxes the sum of four hundred forty-two thousand, five hundred ninety-seven dollars (\$442,597), for the purposes thereof. (See Budget detail.)

ARTICLE 50. To see if the Town will vote to raise and appropriate the sum of approximately eighty-seven thousand dollars (\$87,000.00) to defray its share of the cost of Strafford County Government.

ARTICLE 51. To see if the Town will vote to authorize the Selectmen to borrow necessary money in anticipation of taxes by issuing short term notes.

ARTICLE 52. To see if the Town will authorize the Selectmen under authority of R.S.A. 80:42 to sell and transfer the tax lien and/or the title to real estate acquired by the Town at a tax collector's sale for nonpayment of taxes, in default of redemption for such tax sale within the time limited by law, by deed or otherwise upon such terms as the Selectmen shall deem to be in the best interests of the Town.

ARTICLE 53. To transact any other business that may legally come before this meeting.

Given under our hand and seal this 19th day of February in the year of our Lord One Thousand Nine Hundred and Seventy Three.

A True Copy, Attest:

James C. Chamberlin, Chairman  
Henry A. Davis

RELATIVE TO "MARKET VALUE" vs. "CURRENT Use" assessments, RSA 56 LAWS OF 1972. THERE WERE 56 PIECES OF PROPERTY, WITH A TOTAL CURRENT MARKET VALUE ASSESSMENT OF \$463,939, RECEIVING REDUCTIONS IN ASSESSMENT DUE TO CHAPTER 56, LAWS OF 1972. THE CURRENT USE VALUE OF THESE PROPERTIES IS \$159,045, RESULTING IN A NET REDUCTION OF VALUATION OF \$304,894 FROM THE TOTAL VALUATION.

OBJECTIVES OF THE DURHAM POLICE DEPARTMENT  
RELATING TO JUVENILES

Today, the Durham Police Department becomes involved with juveniles after the commission of crimes, truancy, acts of delinquency, or in cases where there has been a parental neglect or under juvenile statutes defined as either a delinquent or neglected child.

The department, after becoming involved with juveniles, must decide what action must be taken; in this area a considerable amount of police discretion should be exercised for we should be considering rehabilitative treatment instead of punishment.

The department, after finding that the juvenile has done something wrong, usually follows one of the following procedures:

- (1) The officer investigating may dismiss the young person with a warning. This occurs in minor offenses. In these cases little record keeping, if any at all, is made of the incident,
- (2) The officer may bring the offender to the police station and start an official juvenile record. He may then release the juvenile to his parents or guardians without further actions or he may decide that referral to another agency, other than the Court, is appropriate,
- (3) The officer may decide the child needs additional care. A referral is then made to the Juvenile Court. The decision is made to release the juvenile in the parents' custody until the appearance in Juvenile Court,
- (4) The officer may bring the offender directly to juvenile detention facilities. This occurs when the nature of the crime poses a threat to the community, the parents are unable to control him, or when detention will better serve the interest of the child.

In summing up what our objectives are, today we feel we are in a position to aid the juvenile after the behavior patterns have become undesirable. We sincerely believe the role of our officers' relationship should change and commence at a much earlier age, when behavior patterns are being made. To this end we are having many conferences with parents and their children, as well as appearing before many juvenile groups, talking about various problems.

It is often said that the largest amount of juveniles come from homes lacking the necessities of life, family problems, separated families, undesirable living conditions, or lack of food and education.

If we, the police officers, could communicate with these juveniles and investigate their needs and make some of them possible, perhaps we would have less juvenile offenders. Many professionals are aware of the children with problems, be it the parents, teachers, counselors, ministers, or police officers.

Let's seek the problem child early and help him before he becomes a juvenile delinquent.

# Fire Commissioners

Fire Department responses for the 1972 year numbered 585, of which only four (4) were bell alarms. This record indicates excellent cooperation from the members of both the Town and University communities in containing small fires and in reporting them promptly. This record also speaks well for the Durham - UNH Fire Department who, in its quick response, was able to prevent major losses and serious damage.

A review of the Fire Report for 1972 shows that the Durham - UNH Fire Department responded to forty different kinds of activities ranging from "Arson" to "Water Leaks," including such various activities as "Bomb Threats" - (22), "Car and Truck Fires and Accidents" - (26), "Elevator Malfunction and Rescue" - (29), "Resuscitator" - (17) and "Grass and Brush Fires" - (18), with "False Alarms" - (72).

The Dispatch Center, a most vital part of our overall Security System, continues to grow as it serves our various emergency services. The Dispatch Center Radio and Telephone Log for 1972 shows a total of 71,318 communications; 40,558 were via telephone and 30,760 via radio.

Current budget requests include an additional full time Dispatcher. This will enable us to provide twenty-four hour coverage of the Dispatch Center with full-time professional dispatchers and will eliminate the use of fire fighters for dispatching duty, thus providing additional personnel for Fire Department evolutions.

During the 1972 year, Fire Department personnel participated in the following professional improvement programs:

Deputy Chief LaRoche attended Meadowood and Lilly Pond Fire Schools. LP Gas Seminar, Three day Fire Officers Seminar. Keyman Development program. Sponsored by the National Safety Council. He is currently taking a course in Building Construction offered by the Fire Protection Program, N. H. Vocational Technical College. He put on a Fire Prevention program for the kindergarden and First and Second grade students during Fire Prevention week. Materials furnished by the MacDonald Agency.

Captain Breslin attended Meadowood and Lilly Pond. He is taking the Building Construction course.

Lieutenant Freeman attended Meadowood and Lilly Pond LP Gas Seminar. Driver Instructor course.

Private Pierce attended Meadowood and Lilly Pond, also the three day Fire Officers Seminar.

Private Polazzi, Callmen Miller, Bliss and Kennedy attended Lilly Pond Fire School.

Private Polazzi, Callmen Bliss, Hall, F. Wood and Wright attended Meadowood Fire School.

Chief Donovan, Deputy Chief LaRoche, Capt. Breslin, Lieut. Freeman, Private Polazzi, Sanfacon, Pierce and Wells took a one-day refresher course in First Aid.

Chief Donovan took the Keyman Development Program course. Attended the Spring Conference of the New England Division of the International Association of Fire Chiefs. Presided at the Four-day New England Association of Fire Chiefs Conference.

Insurance Services Office of New Hampshire, formerly New Hampshire Board of Underwriters (an insurance rate-setting advisory group) has recently completed a survey of the fire protection facilities provided in Durham and has submitted its report and recommendations.

The Board of Fire Commissioners would be remiss in its duties if it did not call to the attention of the public that part of the I.S.O. report relative to "Water Supply." The covering letter and report state, "This survey was conducted for the purpose of evaluating the fire protection facilities of your community by applying the American Insurance Association Grading Schedule. This re-grading indicates that Durham is equivalent to AIA Class 6 substantiating the grading or insurance classification that is presently applicable in the Town of Durham. The grading indicates that Durham is close to Class 7, which is less desirable than the present grading. It is conceivable that with the continually increasing rate of consumption in Durham, the water supply grading could push Durham into Class 7 in a relatively short period of time."

"Distribution storage facilities are seriously inadequate. A reserve is necessary for fire fighting purposes, or to supply consumption demands should a malfunction incapacitate the filter plant. The 1.0 million gallon storage now available would be exhausted in a relatively short period of time, in the event of a large scale fire."

Needless to say, a drop into Class 7 would, among other things, result in a substantial increase in fire insurance rates.

The Commissioners wish to thank our fire fighters, both volunteer and regular, for their loyal and dedicated service to the Durham-UNH Fire Department. It is in our common interest that the fire defenses of our community be strong. The professional ability and dedication of our fire fighters help to make and keep them so.

L. Franklin Heald  
Eugene H. Leaver  
Norman W. Stiles, Chairman  
BOARD OF FIRE COMMISSIONERS

# Forest Fire Warden

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire-permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A.M. and 5:00 P.M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

## Number of fires reported and acres burned - 1972 season:

STATE	-	410 fires	361 acres burned
DISTRICT	-	102 fires	55-1/2 acres burned
TOWN	-	12 fires	6-1/2 acres burned and 6 spot fires

DISTRICT CHIEF  
Alfred E. Grimes

FOREST FIRE WARDEN  
John F. Donovan

ORCHARD DRIVE ---- becomes first street constructed under new subdivision regulations

# Planning Board

This year the Planning Board has met every week, even throughout the summer, to act on site reviews and subdivision requests as well as long range planning problems. A new schedule was instituted which has helped the Board. Applications are accepted at the first meeting of the month, public hearings are all scheduled for the third meeting, leaving two meetings each month for work sessions.

The Town secured the services of the State Highway Department to do a ground survey of the southern bypass route linking Rt. 108 to Mill Road. The right-of-way will go before Town Meeting this year for inclusion on the Official Map. In order to make future additions, the 1973 Meeting must give authorization to the Planning Board to make surveys.

The first mobile home park application provoked much public discussion and several hearings. The question of limiting growth in Durham and in which areas growth should be encouraged still is under consideration. Waste disposal methods were looked into as a result of the park, and a desire was expressed for State approval of package systems, which are currently being successfully used in many places outside of New Hampshire.

Almost half of the applications received in 1972 were for business uses. Several changes were proposed for Main Street, among them a new bank building and stores at the Mill Road-Main Street intersection. The problem of downtown parking was an especially important consideration, and it has prompted the Board to propose some changes to the Zoning Ordinance. Businesses in residential areas were also requested, which gave rise to discussions concerning the size, type, and scope allowable.

Single building lots still show a slow but steady increase. The number seems to be consistent with the previous year and reflects the general economic condition of the Town and University.

The whole Zoning Ordinance was reprinted, encompassing all the changes of the last few years. The booklet will be reprinted every year.

In the latter part of the year, the Board devoted much time to recommending changes in the Zoning Ordinance. Valuable help was received from several interested citizens, and the Board hopes specific objective suggestions will continue to be offered. The Board has already voted to set aside the whole month of October 1973 to writing a cluster development article. No other business will be conducted during this time.

It is hoped that next year an administrative assistant and part-time planner will be added to the Town Office staff. The Board needs technical assistance and to be relieved of many routine clerical tasks so that more time can be spent on planning objectives. Growth should be ordered before it takes place. Town facilities need to be planned now to keep pace with development.

# **Strafford Regional Planning Commission**

The Strafford Regional Planning Commission, one of seventeen delineated in 1968, is established under State Statute 36:45 which says in part: "The purpose...shall be to enable municipalities to join...in regional planning commissions whose duty it shall be to prepare a coordinated plan for the development of a region, taking into account present and future needs with a view toward encouraging the most appropriate use of land, such as for agriculture, forestry, industry, commerce, housing, ...transportation...parks,...shorefront development,...public buildings, ...and for the improvement, redevelopment, rehabilitation, or conservation of residential, business, industrial, and other areas,..."

The Strafford Region includes all municipalities in the Strafford County plus the towns of Nottingham and Newmarket in Rockingham County. Of this number, Dover, Durham, Lee, Madbury, Newmarket, Rollinsford, and Somersworth, together with Strafford County are official supporting members, i.e., legally entitled to share in the management and services of the Commission and to acquire certain Federal funds available only to Commission members.

During the past year the Commission has completed two major regional studies: "Solid Waste Disposal" and "Open Space." Technical and financial support has been given to recycling efforts, especially in Dover. A pilot recycling proposal from Nottingham has received Commission endorsement and the University of New Hampshire has requested Commission representation in its waste disposal research efforts.

Commission Directors have tried to keep up to date on recent state and federal policies by participating in area meetings on topics such as coastal zone legislation, environmental priorities, natural resource policies, and federal revenue sharing.

Part of the obligation of the Commission is to participate in so-called A95 reviews which consist of monitoring federal funding. Grants in excess of five and a half million dollars going to Dover, Durham, Rollinsford and Newmarket were reviewed and supported. "Community View-points," a pictorial presentation of local resources and problems, were prepared for Madbury and Rollinsford.

The Commission notes with sorrow the prolonged illness and eventual death of its executive director, Charles Noyes. They nevertheless continued to meet in regular sessions to carry on the work in progress. The office at 600 Central Avenue, Dover, has now been reopened with Silas Weeks, on loan from the University of New Hampshire, serving as director. Plans have been completed for an aggressive program in the coming year and permanent staff will be recruited.

Financial support for the Commission is divided approximately equally between local member communities and the Federal government. More detailed reports of the past year's activities and expenditures and the anticipated plan of work and budget for Fiscal 1974 are available at the Commission office.

# Conservation Commission

The Conservation Commission was formed at the Town Meeting in March of 1965 in accordance with an enabling act RSA 36-A. Its aim is the promotion and development of the natural resources and the protection of the watershed resources of the town. It is empowered to receive, in the name of the town, gifts of money and property, subject to the approval of the selectmen. It may acquire by gift, purchase, grant, etc. such land, development rights or easements as may be necessary to maintain, improve, protect, limit the future use of or otherwise conserve open spaces and other land and water areas within the town.

Among the accomplishments of the Conservation Commission during the last year are:

- a) The acquisition of a 22 acre wild area located within Durham Point. This land was donated by Walter Cheney.
- b) The sending of letters to all town organizations in order to better determine the priorities of the town with regard to Conservation Commission activities.
- c) The establishment of communications with owners of property along Crommet Creek with the aim of discussing easements that will insure the future protection of this waterway.
- d) Efforts, in conjunction with the selectmen, to insure that the operation of the town incinerator does not destroy the surrounding environment.
- e) The initial planning of a program of open space acquisition and the preparation of an article for the town warrant relating to this program.
- f) The support of a Durham student (David Mills) at the Spruce Pond Conservation Camp.
- g) The participation in the formation of the Great Bay Watershed Association and the Lamprey Rivershed Association.

# Durham Ambulance Corps

The calls for emergency medical aid from the Durham Ambulance Corps continued to increase in 1972. Durham's memorial to Dr. George G. McGregor, who served faithfully as the town's general practitioner for 33 years, has now completed five years of service. The record follows:

	UNH	Durham	Lee	Madbury	Barrington	Accidents	Total
1968	130	47	5	6	0	27	215
1969	126	69	13	6	9	43	266
1970	149	53	17	7	8	51	285
1971	155	79	31	12	9	67	353
1972	156	105	21	6	4	75	367

Highlight of the year was the arrival in May of our first brand new McGregor Memorial Ambulance, a 1972 Cadillac. This is the third ambulance we have owned, but the first two were second-hand vehicles, and each was at least 10 years old when we bought it.

The new ambulance with all its equipment cost approximately \$20,500. The Federal highway safety program shared to the amount of \$7,750, leaving \$12,750 as our obligation. From the appropriations of the three towns and the University, we were able to pay \$9,000 of that amount. The \$620 realized from selling the old ambulance was added, leaving about \$3,200 to be paid. We have budgeted this amount in 1973.

Among the items of equipment we bought for the new ambulance was two-way, two-channel radio. This not only permits direct communication with the Dispatch Center at the Durham-UNH Fire Station, but also with the emergency rooms at Wentworth-Douglas Hospital in Dover and at Exeter Hospital. We can talk directly with a doctor at the hospital, inform him of the condition of the patient, and get advice immediately.

Ambulance service continues to be free to residents of the Durham-Lee-Madbury-UNH community. We operate on the appropriations from the four units, plus income from the Medicare program, payments for service at automobile accidents, and contributions from appreciative citizens. If you need us, call 868-5531. This is the fire telephone at the Dispatch Center which is always manned.

L. Franklin Heald. President

## Building Inspector

### COMPARISON OF BUILDING PERMITS

1970 - 1971 - 1972

	1970	1971	1972
TOTAL PERMITS	100	86	138
Denied	9	3	8
Withdrawn	<u>-</u>	<u>2</u>	<u>-</u>
Net Permits	91	81	130
Residential Construction	41	32	58
Residential Additions & Renovations	41	30	53

Based on revised fee schedule			

1972 Residential Construction totaled 54 single family units, and 19 total number of apartment units.

# Oyster River

## Home Health Association

The Oyster River Home Health Association is a Visiting Nurse Agency incorporated February 12, 1967, to serve the towns of Durham, Lee, Madbury and Newmarket. The Board of Directors consists of five residents from each of the towns; standing committees include representatives from related professional fields.

In 1971-72, great steps have been taken in the growth of your Home Health Agency. Most important among these steps was our move to our new office at 13 Newmarket Road. This is the building which houses the Durham town offices and through the generosity of the Pearson Trust of the New Hampshire Charitable Funds, Oyster River Home Health was able to secure funds to renovate a room in the new town office building. We are located on the second floor and our phone number remains the same - 868-5055. The nursing staff may be reached on weekday mornings from 8:00 to 9:30 A.M. In addition, the Administrative nurse may usually be reached in the afternoons at the same number.

In addition to the regular home visits made at the request of attending physicians in the four town area, we are most proud of our Well Child Conference which is held in Newmarket on the third Monday of each month at the Fire Station. Our Conference has been used as a model for other ones set up by other Agencies in the State and we were fortunate enough to receive a grant for the year 1972-73 from the Bureau of Maternal and Child Health of the State of New Hampshire.

Clinics in which we participated this year included the Diabetic Screening Clinic in Durham and Newmarket; a Pap Smear Clinic in Newmarket run in conjunction with the Newmarket Health Center; an Audio Visual Clinic in Newmarket in November and Tine Testing done at the Lee Cooperative Nursery School.

The Agency has signed a contract with the Dover Area Family Planning Council in December. We are also involved in follow-up work in the Newmarket area for patients released from the State Hospital. UNH students in both Nursing and Occupational Therapy have affiliated with Oyster River Home Health for the purpose of observation of both our home visit techniques and also our Well Child Conference. We continue to make referrals to the Crippled Children's Clinic and the Heart program and to participate in any community activities which we feel will benefit any of the four communities which we serve.

A final feather in our cap for this year was to be chosen as one of the three Seacoast Home Health Agencies to participate in the Medicaid Screening Program. In this way we hope to reach all children who are in need of medical help and are on Medicaid.

The Association is supported by tax deductible contributions from organizations and individuals, by memorial gifts, memberships, nursing fees and funds voted by the participating towns. In addition, some grants have been made for special purposes by both the State and Federal Government for specific programs for specific periods of time. Continued support from the four towns through appropriations to be made at the 1973 Town Meetings is anticipated.

\*Includes \$980.82 which was the cost of renovating and moving into new offices.

# Welfare Officer

In 1972 Congress voted a 20% increase in Social Security payments, and defeated an attempt to pass a Family Assistance Plan. The defeated FAP would have guaranteed a \$1600 minimum income floor across the nation to every non-working family of four. (Imagine a family of four living in Durham on \$1600 a year.)

The 20% increase in Social Security payments was generally welcomed; but it has not been uniformly beneficial. Social Security is financed by a payroll tax that falls most heavily on low and moderate income workers. The 20% increase in payments is to be financed by a significant rise in the payroll tax. This will mean a substantial cut in the living standard of many New Hampshire workers already hard-pressed by higher living costs.

In New Hampshire those older citizens whose Social Security payments have been supplemented by Old Age Assistance will gain nothing by the Social Security increase. Although not required to do so by the federal government, New Hampshire officials deduct the major portion of Social Security increases from the amounts paid to recipients of Old Age Assistance. In addition, some older citizens will lose medical and other non-cash benefits because the Social Security increase makes them ineligible.

The state of New Hampshire provides categorical aid to the blind, disabled, aged and female heads of families with dependent children. Many poor families in New Hampshire are not eligible for categorical aid. These are the families of the working poor. These families have a full time wage-earner who does not earn enough to meet family expenses. If a man works 2,000 hours at \$1.60 per hour he will earn \$3,200, which is below the poverty line for a nonfarm family of four. As many as one half of the working poor have families of six persons or more. Jobs held by New Hampshire's working poor are often characterized by lay-offs, short weeks and seasonal unemployment. More than half of New Hampshire's industrial wage-earners earn less than \$6100 a year. When such a family suffers job loss, a cutback in hours, major illness and or uses up unemployment compensation, they have nowhere to turn. Durham's 1972 welfare assistance went primarily to working poor families and to families waiting for state welfare eligibility clearance. It should be noted that many working poor families whose full time wage-earner is employed in Durham cannot afford to live in Durham.

As Durham's welfare officer I provided financial assistance for six families and one individual totaling 28 persons and amounting to \$1,614. I helped another eight families and four individuals totaling 31 persons with counseling, information, assistance-in-kind and guidance in applying for county and state assistance. I also cooperated with other community, county and state agencies.

There are a number of families in the Oyster River area who are now enjoying the warmth and beauty of handsome, hand-crafted woolen blankets. It was the imaginative, caring genius of Thelma Brackett and the loving work of many hands knitting five-inch squares that made the blankets possible. Thelma Brackett and Margaret Owen transformed the squares into blankets and Gertrude Reardon crocheted the edges of each and every blanket.

# Parks and Recreation Committee

During the year the Committee met with the Trustees of the Trust Fund to discuss the cutting of trees being done on the Doe Farm. It was the feeling of the Committee that this area, one of the towns most attractive natural areas, should be left wild. The Farm was toured by members of the Committee and the Trustees to observe the work being performed. A representative of the State Forester and of The Thompson School, which is doing the cutting, were also present. After considerable discussion, the Trustees are planning to continue with the cutting, feeling that this is consistent with the plans for the use of the Doe Farm as an educational and recreational area as prepared by the State Forester's Office. The Parks and Recreation Committee disagrees with this decision.

During the year we have discussed landscaping of some of the parking lots and traffic islands being constructed by the Town. We have worked with the Tree Warden and Mr. LeClair in planning the beautification of several spots. Included in these is the area along Mill Road near the shopping center. For a relatively small sum of money, the appearance of most of these areas can be greatly improved.

The amount of open space in Durham available to the residents of the town for recreational use is rapidly decreasing. The Committee is discussing the desirability and feasibility of acquiring more space for this purpose. It is the feeling of the Committee that, as the Town continues to grow, it is essential that some open space must be retained for the use of the residents.

Alexander R. Amell

The Beech Hill Ski Area operated a total of 23 days during the season of 1971-1972 with 616 skiers making use of the slope. The bulk of the afternoon usage came from DYA (now ORYA) ski classes and UNH women's physical education classes. Attendance on weekends was primarily family recreation.

Several improvements were made during the course of this second year of operation. The primary improvement was the construction of a warming hut. The hut consists of a platform approximately 25'x25' mounted on creosoted telephone poles sunk well into the earth with a small building approximately 15'x20' in one corner of the platform. The building itself is a reconstructed garage donated by the University of New Hampshire which was taken down by voluntary labor and moved partially by the Service Department of the University and partially by volunteers utilizing Mr. Ralph Booth's tractor as power. The construction of the platform and warming hut was accomplished primarily through the efforts of Bob Hodgson, Larry Safford, Steve Mattson, Bob and Doug Houston with additional and valuable help from Joe, Joe, and Pete Murdoch, Tom Corrow, Jim Towle, and Roy Alonzo.

The Beech Hill Cooperative Recreation Commission consisted of Alexander Amell and Martin Smith from Durham, Jerry Oulette and Vonny Weyrick from Lee, and Bob Houston and Paul Raynes from Madbury. In addition, Beech Hill facility managers Steve Mattson, Gail Bigglestone of the UNH Department of Physical Education and Ed Blood also provided direction for the Commission.

The Beech Hill Cooperative Recreation Commission received title to the tow during the year as well as a \$55 gift for medical aid equipment. The latter gift was prompted by the eight injuries on the slope, five of which were minor strains and sprains with three broken bones.

The financial statement is as follows:

Income:

Ticket sales (pre-season)	\$ 1387.00
Ticket sales (on slope)	205.00
Durham	500.00
Lee	250.00
Madbury	250.00
UNH Phys. Ed. classes	265.00
Madbury Community Club	55.00
Balance on hand from previous year	<u>161.33</u>

\$3073.33

Expenditures:

Insurance	\$ 1000.00
Wages	1127.75
Electricity	200.20
Lumber and building suppl.	296.55
NSAA dues	50.00
Tickets	16.00
Splint (M.C.C.)	25.00
Check books	4.00
Gas, Oil, grease, oil filter, parts for tow	<u>63.23</u>
	\$ 2782.73
Balance on Hand	<u>290.60</u>

\$ 3073.33

The balance on hand will continue to pay the commitment to Public Service for the power line installation.

The Beech Hill Cooperative Recreation Commission would like to take this opportunity to thank all those individuals who contributed to the success of the operation of this venture.

## Health Officer

No serious communicable disease problems were reported to the Health Officer during the year. Five cases of dog bite complaints were received and investigated for rabies with negative results. A total of 47 septic tank systems were inspected and approved for homes not serviced by the town sewerage system and orders were issued for the correction of several improperly functioning septic tank systems in various parts of the town. Other activities included investigation and action on a number of nuisance and substandard housing complaints; inspection of restaurants, stores, nursery homes, and foster parents' homes; supervision of the sanitary quality of drinking and bathing waters; approval of International Certificates of Vaccination for foreign travel; and communication and meetings with members of the State Division of Health and the New Hampshire Water Supply and Pollution Control Commission.

Respectfully submitted,

  
L. W. Slanetz,  
Health Officer

# Minutes of Town Meeting

The meeting was called to order March 7, 1972, at 8:08 a.m. at the Oyster River High School Cafeteria by Moderator Francis Robinson, who read Articles 1 through 13. James Chamberlin moved that the reading of the rest of the warrant be dispensed with at that time and that we proceed immediately to vote by ballot on Articles 1 through 13. It was seconded, and the vote was unanimous. Mr. Chamberlin then moved that the polls be closed at 7 p.m. that day and that discussion of Articles 14 through 37 be postponed until 7 p.m. on Tuesday, March 14, 1972, in the Oyster River High School Gymnasium. It was seconded, and the vote was unanimous.

Mr. Robinson announced that a petition had been received and we had been put on notice that a 2/3 majority was required to pass Articles 3 and 6. All election officials having been sworn, the polls were opened for voting at 8:15 a.m.

The results of the balloting on Articles 1 through 13:

## Article 1. (Town Officers)

Selectman (To Choose Two)	Malcolm J. Chase Owen B. Durgin Donald Masi Jacqueline H. Straus Robert G. Stuttig	788 790 625 292 369
Town Clerk	Linda L. Ekdahl	1,448
Treasurer	James W. Christensen	1,308
Tax Collector	Linda L. Ekdahl	1,350
Trustee of Trust Funds	Montgomery R. Childs Eugene E. Tillock	807 372

Budget Committee (To Choose Four)	Ronald R. Clark	1,111	
	Ralph B. Craig, Jr.	1,163	
	Wayne Shirley	1,066	
	William Knoop	41	
<u>Article 2.</u> (Town Meeting)	Yes	1,223	No 208
<u>Article 3.</u> (Zoning)	Yes	698	No 753
<u>Article 4.</u> (Zoning)	Yes	1,218	No 244
<u>Article 5.</u> (Zoning)	Yes	1,200	No 223
<u>Article 6.</u> (Zoning)	Yes	641	No 793
<u>Article 7.</u> (Zoning)	Yes	515	No 887
<u>Article 8.</u> (Zoning)	Yes	627	No 786
<u>Article 9.</u> (Zoning)	Yes	985	No 429
<u>Article 10.</u> (Zoning)	Yes	413	No 960
<u>Article 11.</u> (Zoning)	Yes	346	No 1,016
<u>Article 12.</u> (Zoning)	Yes	356	No 1,025
<u>Article 13.</u> (Const. Amend.)	Yes	887	No 768

Total ballots cast: 1,610

Balloting was suspended at 7:15 p.m. and the meeting was adjourned.

The meeting reconvened March 14, 1972, at 7 p.m. at the Oyster River High School Gymnasium. The Moderator explained the use of the voting card for identification purposes.

Moderator Robinson then announced that his term of office expired at the close of the biennial election November 7. He said that he had completed 10 years as Moderator and he did not intend to run for re-election. He informed the voters that the filing period for candidates was June 29 to July 10. Chester Tecce said that he had been a Supervisor of the Checklist for 24 years, and he did not intend to run for re-election.

Mr. Robinson then explained that the Town had voted on March 7 to postpone discussion of Articles 14 through 37 until this date and at this place, and that this session would begin with Article 14.

Article 14. Moved by John Beckett, seconded by Wayne Shirley, that the Town vote to adopt the provisions of an act permitting the Town of Durham to change from a calendar year to a fiscal year accounting period, and providing for the dates and manner of collecting taxes in the transitional period, as enacted by the 1972 Special Session of the General Court. Mr. Beckett explained that under this act the Town would prepare a budget for the period January 1, 1973, to June 30, 1974, while the School District would continue to prepare its budget for the period July 1, 1973, to June 30, 1974, which would then allow both the Town and the School District to operate under the same fiscal year beginning July 1, 1974. Mr. Beckett then said that there would be an additional tax collection in May of 1974, which would amount to approximately 1/3 of the taxes applicable to the Town share of the budget for the 18-month transitional period. He then explained some of the problems of the Town and the School District operating under different periods and urged passage of the article.

Wayne Shirley thanked John Beckett for the work he had done in getting the Legislature to pass the act enabling the Town to make this transition and for the time he had devoted to preparing the figures for the meeting. Mr. Shirley said that he felt this was a good way to make the transition and urged the voters to adopt the article. James Chamberlin said that he felt the change in the fiscal

year would cost the Town approximately \$166,000, and he advised against passage of the article. There being no further discussion, a vote was taken, and the Moderator declared the article adopted. Someone asked that the vote be counted by a show of voting cards, but there was no second.

Article 15. Moved by Malcolm Chase, seconded by Paul Schaefer, that the Town authorize the Selectmen to restrict the use of Class VI roads where such action is deemed necessary for safety and economy in such a way as to preserve the rights of abutting property owners and to maintain the opportunity of reopening the roads in the future if required for access roads, with the understanding that this does not constitute "discontinuance" of the roads under the provisions of RSA 238.

Mr. Chase said that the Selectmen had made an inventory and found that they had approximately 5 miles of Class VI roads (roads which have not been regularly maintained for 5 years or more), and they wanted to close these roads. At the 1971 Town Meeting the Selectmen were asked to notify all abutters to these roads, and to postpone action on Article 14 of the 1971 warrant until the abutters had been notified and the Planning Board had held a public hearing. The Planning Board has held a hearing, and they recommend that the roads be closed at this time. They also asked that the public travel be prohibited and that it be limited to property owners and other permitted travelers. In response to a question, Mr. Chase said that the roads would be closed to vehicular traffic, not pedestrians.

Darrett Rutman asked if the abutters to these roads were now satisfied with this arrangement, as they had protested the closing of the roads at last year's meeting, and also did the Town have any liability for anyone using these roads. Mr. Chase said that the abutters were satisfied and the Town would have no liability for anyone using the roads. There being no further discussion, a vote was taken, and the article was adopted.

Article 16. Moved by Glen Gerhard, seconded, that the Town vote to establish as its Official Map the plan certified in 1972 to the Town by the Durham Planning Board as the major street plan of the Comprehensive Plan, and direct that a certificate signed by the Town Clerk giving notice that the Town has established such Official Map as of this date be filed with the Register of Deeds of Strafford County. Mr. Gerhard said that the Official Map, if adopted, would be a long-range planning map for the Town. It will be a map of the road system, existing and future. An interconnecting road system can be developed as subdivisions are built, if we have the use of such a map. He urged passage of the article.

Alden Winn said that budgetary items have been passed in other years allowing the Planning Board to prepare such a map. This map now shows all the streets in Town, and any changes to the map would have to be adopted at a Town Meeting following public hearings, if the map is adopted. Mr. Shirley asked if the public would be able to buy copies of this map. Mr. Gerhard said he thought the map could be reduced in size so that it could be sold. After more discussion, a vote was taken, and the motion carried.

Article 17. Moved by Richard Dewey, seconded, that the Town vote to designate Packers Falls Road, from the Lee Line to the Newmarket Line, as a scenic road in accordance with Senate Bill 138, which was enacted during the 1971 Legislative Session (R.S.A. 253:17-18). Mr. Dewey said that the charm of that area of Town would be destroyed if the article is not passed. He said that the article would not prevent the Town from doing the necessary maintenance on the road, but the Planning Board would have to hold public hearings before trees and stone walls, etc., can be removed from that area. After some discussion, a vote was taken, and the Moderator declared the article adopted.

Article 18. Moved by James Horrigan, seconded, that the Town vote to designate Bennett Road as a "Scenic Road," in accordance with the provisions of New Hampshire Revised Statutes Annotated (253:17-18), in order to preserve the scenic beauty and historical character of the Town. As this article was similar to Article 17 except that it concerned a different road, there was little discussion. The article was adopted.

Article 19. Moderator Robinson read the following statement concerning the article:

Article 19 recreates a situation which faced a Durham Town Meeting in 1959 and again two years ago. It is proposed that the Town should instruct the Selectmen to adopt an ordinance in a matter over which the Town does not have jurisdiction. The Moderator has consulted competent and independent legal authorities who assure him that if the proposed article were to be adopted, it would be invalid and would be negated by a court whenever challenged.

There are several precedents for this conclusion, but the one of most interest to Durham is a decision of the New Hampshire Supreme Court on June 30, 1960, in the case of the STATE v. FRED H. JENKINS. This case was the result of the adoption of Article 14 of the Durham Town Warrant in 1959.

In that decision the justices of the Supreme Court declared (as I reminded this meeting two years ago in a similar case) that 'Towns derive their power from the Legislature and are bound by the limits imposed upon them...In the nature of things, such (local) legislation must not be inconsistent with the laws of the state. The state has undertaken to regulate hunting, fishing and the use of firearms throughout the state during certain periods of the year. The Durham by-law would prohibit hunting and the discharge of a firearm in the entire town unless written permission of the owner was obtained and is thus inconsistent with the statutory law of the state regulating hunting and the discharge of firearms. The by-law assumes authority which the legislature has taken away, and hence is invalid.' On this basis the court declared that the 1959 ordinance 'assumes authority which the legislature has taken away, and hence is invalid.'

In spite of this, Article 19 is before you for consideration because of another law which requires the Selectmen to include in the warrant any article petitioned by the requisite number of legal voters. This article was petitioned legally by more than the required number of voters and in proper time for inclusion in the warrant under the requirements of R.S.A. 39:3.

In accordance, therefore, with the usual practice in these meetings, the Moderator will recognize any spokesman for the petitioners who cares to speak.

It was moved by Edward Durnall, seconded, that the article be adopted. Mr. Durnall said that the ordinance passed in 1959 required permission to hunt on private property, and the ordinance included a fine of \$50. At that time the maximum penalty was \$10. He said he was sure that there is now no place in the Town where you can go and fire a rifle without hitting something, and that the courts would rule differently today. If the Town had to go to court if this article were passed, then the Town should engage a lawyer willing to take the case to the Supreme Court, if necessary.

Moderator Robinson then read the full decision of the Supreme Court in the above-mentioned case. Several motions were made to amend the article and then withdrawn. A vote was taken, and the article was lost.

Charlotte Chase moved that the Town provide any landowner who requested it "No Trespassing" signs so that the land would be posted. These signs were to be furnished free of charge. Seconded. After further discussion, the article was lost.

Article 20. Moved by Frank Cunningham, seconded, that the Town vote to empower the Selectmen to enact an ordinance requiring all dogs to be controlled by leashing or otherwise, to prevent their unrestricted activity in the Town of Durham. Mr. Cunningham spoke in favor of the article and urged its passage. After further discussion, a vote was taken, and the Moderator declared the article adopted. James Winn called for a vote by voting card. Seconded. The vote was Yes 272, No 95. The article was adopted.

Article 21. Moved by Glen Gerhard, seconded, that the Town authorize the Selectmen to negotiate with property owners on both sides of Garrison Avenue between Madbury Road and Dennison Road for sufficient land to make the public right of way a full fifty (50) feet, and accept the same.

Mr. Gerhard said that Garrison Avenue is not now listed on the zoning map as a collector street. Due to the traffic on the street, it seems to meet the definition of a collector street, and it should be widened to make the flow of traffic easier to control. After some discussion, a vote was taken, and the article was adopted.

Article 22. It was moved by Glen Gerhard, seconded, that the Town authorize the Selectmen to negotiate with property owners on both sides of Mill Pond Road for sufficient land to reduce the curves at the intersection of Chesley Drive, and accept the same. Mr. Gerhard said that the visibility is now very poor at the curve, especially for the volume of traffic that flows through it. After several people spoke in opposition to the article, James Staigers moved that the article be amended by adding to it that a speed limit of 20 mph be established on Mill Pond Road and enforced. Seconded. The vote on the amendment was in doubt, so a vote was taken by show of voting cards. Yes 221, NO 98. Carried. A vote was taken on the article as amended, and the article was lost.

Article 23. Moved by Malcolm Chase, seconded, that the Town vote to authorize the Selectmen to deed a portion of the lot acquired from Wolfe, Vol. 831, Page 327, located adjacent to the Madbury Road Parking Lot, in exchange for a parcel of land owned by Gerald MacNeil, Vol 862, Page 253, located between the Madbury Road Parking Lot and the Pettee Brook. The purpose of the exchange is to allow the proposed parking lot improvements. A vote was taken, and the article was adopted.

Article 24. It was moved by Alden Winn, seconded, that the Town vote to postpone adjournment of this meeting to a date and location to be chosen by the Selectmen, said date and location to be duly posted and warned, for the specific purpose of acting on a proposal for the expansion and improvement of the Durham Water System and to take any action necessary to raise such sum as may be necessary by issuance of bonds and to authorize acceptance of all grants and aid from Federal, State and any other source for the purpose of defraying expenses related thereto.

Mr. Winn spoke to the article, explaining that the University has nearly completed its share of improvements to the water treatment system, but the Town has not agreed upon how it will make its share of the improvements or how they will be paid for. Mr. Winn then asked that the Town vote to adjourn, and the Selectmen would set a time for the meeting that would be before the summer vacations start, so that as many people as possible would be able to attend. Mr. Winn then said that it was difficult to get the court to grant permission for an emergency town meeting, so that Selectmen were asking for the adjournment.

Joseph Michael said that in his experience as an attorney, he thought it would be difficult to get bond counsel to approve any bonds voted at an adjourned meeting unless the time and place of the meeting was specified at the time of the adjournment. It was then moved by Mr. Winn, and seconded, that the Town vote to adjourn this meeting to the date of May 8, 1972, at the Oyster River High School at 7 p.m. for the specific purpose of acting on a proposal for the expansion and improvement of the Durham Water System and to take any action necessary to raise such sum as may be necessary by issuance of bonds and to authorize acceptance of all grants and aid from Federal, State and any other source for the purpose of defraying expenses related thereto. The vote on the amendment was in the affirmative, and the article was adopted as amended.

Article 25. Moved by Theron Tirrell, seconded, that the Town vote to raise and appropriate a sum of money not to exceed \$200.00 for the purpose of placing the names of World War II Veterans on the Town plaque; said names being omitted at the time the existing plaque was erected. Mr. Tirrell said that three names had been omitted from the plaque when it was originally made. In response to a question, Mr. Tirrell said that this motion was not to add the names of all veterans now living in the Town, but to add the names of the people omitted who had entered the service from Durham during World War II. The article was adopted.

Article 26. Moved by Richard Morrison, seconded, that the Town vote to reprint the Zoning Ordinance with all amendments inserted and errors corrected. Mr. Morrison said that there had been many changes to the Ordinance since it was adopted in 1969, and it was difficult to follow the Ordinance as it was in pieces. Motion carried.

Article 27. It was moved by James Horrigan, seconded, that the Town vote to authorize the establishment of a capital reserve fund for the purpose of creating and developing recreational facilities in the Town of Durham as may be recommended by the Parks and Recreation Committee and the Selectmen and raise and appropriate the sum of \$1,000 to be used for these purposes.

Mr. Horrigan said that this was being requested specifically for a skating rink. The Bureau of Outdoor Recreation will match 50-50 any money the Town appropriates. It will cost approximately \$2,000 to \$3,000 for an asphalt-base rink (one half to be paid for by the Bureau of Outdoor Recreation) and there is not time to accomplish all the paper work to get these funds in the remaining nine months of 1972. By setting up this capital reserve fund, it will give the Parks and Recreation Committee the time it needs.

David Ninde, a member of the Budget Committee, said that it was not the policy of the Budget Committee to approve the establishment of reserves without definitive plans. He suggested that the request be submitted when the Parks and Recreation Committee could give facts and figures to support their request. A vote was taken on Mr. Horrigan's motion, and the chair was in doubt. A vote was taken by show of voting cards: Yes 208, No 91. Motion carried.

Article 28. Moved by Henry Davis, seconded, that the Town authorize the Selectmen to purchase the house and land at 13 Newmarket Road for additional office and meeting room space at a cost of \$27,000 and appropriate \$5,000 for repairs and alterations to the property, the money to be raised by the issuance of notes payable, one each year, over a five-year period. After some discussion, a vote was taken by show of voting cards: Yes 333, No 6. Motion carried.

Article 29. Moved by Donald Masi, seconded, that the Town authorize the Selectmen to issue serial notes in the amount of \$31,000 to be repaid in equal annual installments over a five-year period beginning in 1972 for the purchase of major equipment items for use at the incinerator; namely, automatic feeder, hydraulic pumps, and a wheeled bucket loader. Mr. Masi said that this equipment was needed to operate the incinerator more efficiently, as the amount of material handled by the incinerator is increasing as the Town grows. Vote by show of voting cards: Yes 296, No 8. Motion carried.

Article 30. Moved by James Chamberlin, seconded, that the Town vote to raise and appropriate the sum of \$40,000 as the Town's share in the construction of a new bridge on Mill Road over the railroad tracks. Mr. Chamberlin said that in both 1970 and 1971 the Town appropriated money for this construction, but plans were not completed. He said that he felt certain they now had a plan that would finish construction of the bridge this year. Motion carried.

Article 31. Moved by Malcolm Chase, seconded, that the Town authorize the Selectmen to raise and appropriate the sum of \$10,000 to repair the bridge over the Lamprey River on Wiswall Road. Mr. Chase said that the Town had voted money to repair the bridge a few years ago, but the bids for the work were too high, and the Town could not accept them. He felt that the Selectmen now had a plan that could be carried out. Motion carried.

Article 32. Alden Winn offered a substitute motion for Article 32. Moved by Alden Winn, seconded, that the Town of Durham authorize the Selectmen to negotiate with the United States Environmental Protection Agency and the New Hampshire Water Supply and Pollution Control Commission, and the University of New Hampshire, to set a date before which the Town agrees to install facilities for the secondary treatment at the Waste Water Treatment Plant as may be ordered to satisfy State and Federal requirements for financially supporting improvements to the Waste Water Treatment System.

Also rescind action of Article 20 of the 1971 Town Meeting permitting raising and appropriating the sum of \$50,000, and in place of such sum raise and appropriate the sum of \$83,000 for grease removal treatment by the issuance of serial notes, payable in ten equal installments, and to change the budget entries pertaining to this item in Article 33.

Also to authorize the Selectmen to accept all State and Federal aid that may become available for this project, or aid from any other source; these funds to be applied in reducing the obligations within the above appropriation.

Mr. Winn explained that the Town has been advised that matching funds are available only if the Town makes plans for secondary treatment, and that is the reason for the increase in the amount of the appropriation. Vote by show of voting cards: Yes 256, No 2. Motion carried.

Article 33. Moved by John Bekcett, seconded, to adopt the budget in the amount of \$868,399.80, with \$327,571.55 to be raised by taxes. Before discussion of the article, Mr. Beckett informed the meeting that three people were not running for re-election to the Budget Committee. He thanked Carol Mullins and William Henry for their service to the Committee. The following tribute, signed by the members of the Budget Committee and the Board of Selectmen for 1971-1972, was then read to Paul Schaefer, who has served the Town in many capacities over the years:

Paul E. Schaefer

We the people of Durham, in Town Meeting assembled, note with deep appreciation and great respect your long-time service as Selectman and as Member, Secretary and Chairman of the Town Budget Committee.

As you come to the end of this service to your community, you take with you the satisfaction of having made significant contributions to good government in our Town, as well as the abiding gratitude of all your fellow citizens.

We record tonight, in the permanent records of this Town, our deepest respect for you, and our most sincere appreciation for your selfless service.

The Town of Durham  
March 14, 1972

Mr. Schaefer was awarded a standing ovation from the meeting as he accepted a book of congratulatory messages from Mr. Beckett.

Rebecca Frost moved, seconded, that \$1,000 be added to the Planning Board budget for the reprinting of the Zoning Ordinance as voted by the passage of Article 26. Motion carried.

James Chamberlin moved, seconded, that the Parks and Recreation Budget be increased by \$1,000 due to the passage of Article 27. Motion carried.

Arthur Chase moved, seconded, that the amount of \$7,200 be added to the Police Department budget for an additional patrolman to be added to the force so that we would be covered by two men on duty at all times. After some discussion a voice vote was taken, and the Moderator declared the amendment lost. Mr. Chase questioned the vote, and a vote was taken by show of voting cards. Result: Yes 70, No 72. The Moderator declared the amendment lost.

It was moved by Arthur Chase, seconded, that \$35.00 per man be added to the Police Department budget for membership in a national organization which would provide insurance to protect the police officers against being taken to court as a result of some action they had taken in the line of duty. After much discussion, a voice vote was taken, and the Moderator declared the amendment lost.

With the addition of the above \$2,000 and the \$18,000 voted in Article 32, John Beckett moved, and it was seconded, to adopt the budget as amended. Motion carried.

Article 34. Moved by Peter Donahue, seconded, that the Town raise and appropriate the sum of approximately \$91,000 to defray its share of the cost of Strafford County Government. Motion carried.

Article 35. Moved by Donald Masi, seconded, that the Town vote to authorize the Selectmen to borrow necessary money in anticipation of taxes by issuing short-term notes. Motion carried.

Article 36. Moved by Henry Davis, seconded, that the Town authorize the Selectmen to dispose of property acquired at a tax collector's sale as shall be deemed to be in the best interests of the Town. Motion carried.

Article 37. Ralph B. Craig, Jr., read the following statement:

"At last year's Town Meeting, Article 8 was passed by the Town, requesting that the Board of Selectmen investigate the possibility of insuring that all future growth in the Town is controlled and self-supporting.

"The Selectmen referred this subject to the Town Growth Committee and their report is published in Pages 62 and 63 of the 1971 Annual Town Report.

"This report defines the problem and offers some general approaches to solution. I feel that the Moderator should appoint a committee for the further study and possible implementation of Article 8, and that this committee be made up of the members of the various governing bodies of the Town such as the Board of Selectmen, Planning Board, Budget Committee, School Board, and an equal number of interested citizens representing diversified points of view."

Mr. Craig's motion was seconded, and the motion was adopted.

John Beckett offered the following resolution upon the Moderator's completion of ten year's service:

Francis E. Robinson

We the people of Durham express to you our highest respect and most profound thanks for your exemplary and successful conduct of the annual meetings of this Town as its Town Moderator over the period of the past 10 years.

Mr. Robinson acknowledged with thanks the resolution and applause of the meeting.

It was moved and seconded that the meeting be adjourned at 11:50 p.m.

The meeting reconvened at 7 p.m. on May 8, 1972, at the Oyster River High School Gymnasium in accordance with the vote of the Town Meeting on March 14, 1972, with notice of the meeting having been duly posted by the Selectmen on April 22, 1972. There were 10 people present.

The Moderator read Article 24 of the 1972 Town Warrant. Henry Davis said that the Town had been advised by legal counsel that no legally binding action can be taken at this meeting. Mr. Davis moved that further action on Article 24 be dispensed with. Seconded. Motion carried.

It was moved and seconded that the meeting be adjourned, and the Moderator declared the 1972 Annual Meeting of the Town of Durham adjourned at 7:05 p.m.

*Linda L. Ekdahl*

Town Clerk

MINUTES OF THE SPECIAL TOWN MEETING

The meeting was called to order May 22, 1972, at 7:30 p.m. at the Oyster River High School Gymnasium by Moderator Francis Robinson, who read the warrant for the meeting and the court decision granting permission for the special town meeting to be held.

Mr. Robinson announced that Article 1 required a 2/3 majority of those present to pass, while Article 2 required a simple majority. He then said that the amount of money that the Town can vote is limited by the Municipal Finance Act to a sum not more than 10% of that recommended by the Budget Committee at the annual Town Meeting. He also said that we should keep in mind the opinion of bond counsel, who acts for the potential buyers of our bonds. Mr. Robinson then read a letter from John Beckett, Chairman of the Budget Committee, approving the action proposed in Article 1 of the warrant. The Moderator then said that Article 2 would be voted on by a show of voting cards, while Article 1 would have to be by ballot. The law requires that the polls must be open for two hours for balloting on Article 1.

Henry Davis moved, Alden Winn seconded, that action on Article 1 be deferred until Article 2 has been considered and acted upon. The motion was adopted.

Article 2. Moved by Alden Winn, seconded, that the cost of financing improvements to the Durham Water System storage facilities, and lines inter-connecting storage facilities, be apportioned as follows: One-third (1/3) by charges against the assessed value of all property on the grand list of taxable property. The remainder to be collected equally from charges against water income and charges against the assessed value of property which is presently within the area served by the Durham Water System, and in areas as may be served in the future.

Mr. Winn spoke in favor of the article and showed slides giving the costs of the various improvements in stages and what money it would be necessary to raise to finance the improvements. After much discussion, Gerald Smith moved that the motion be amended to read: "That the cost of financing improvements to the Durham Water System storage facilities, and lines inter-connecting storage facilities, be apportioned as follows: The charges to be collected equally from charges against water users and charges against the assessed value of property which is presently served by the Durham Water System and any property that may be served in the future." Seconded. In answer to a question, Mr. Smith said that by "served" he meant actually connected to the water system. After more discussion, a vote was taken on Mr. Smith's amendment. The results were as follows: Yes 145, No 106. Motion carried. A vote was then taken on the article as amended: Yes 157, No 97. The article was adopted.

Article 1. Moved by Alden Winn, seconded, that the Town appropriate the sum of \$424,500.00 for capital improvements to the Town's water system and authorize the Selectmen to raise this appropriation by borrowing the sum of \$424,500.00 by bonds or notes of the Town, and to accept all Federal and State aid to reduce the amount borrowed.

The polls opened at 10 p.m. for balloting on Article 1. The polls were closed at midnight. The results of the balloting were as follows: Yes 162, No 143. The Moderator declared the article lost as it lacked a 2/3 majority.

The meeting was adjourned at 12:01 a.m.

# Report on The Durham Swans

Right after New Year's Day, the Durham swans were in winter residence in the North Mill Pond at Portsmouth. As in previous years, they had flown about a month earlier to this favored sanctuary. But this time, the swan-watchers who went to visit found five of the big white birds swimming about amicably—a sort of bird commune. There was Hamilton, the original male; and Agatha, the surviving female cygnet from the 1969 family. For company they had Alice II and Benjie, the new swans brought in July of 1971 from Rhode Island. An additional male—Romeo, a most friendly but wide-ranging bird—represented the pair that summered in the Barnstead-Pittsfield area. Hamilton was the acknowledged leader.

After January 5, however, only Hamilton and Agatha remained, and they moved to Cedar Point for much of the winter. The other three swans vanished, perhaps to find a place of their own. Only Alice II was heard from again. She collided fatally with a power line in the town of Narragansett, Rhode Island, on February 14. Her stainless steel anklet, made by Paul Gilman and stamped "Durham 1," was returned in a letter three days later by Senior Wildlife Biologist James E. Myers of the Rhode Island Department of Natural Resources. How Alice II found her way back to Rhode Island six months after being brought to Durham, along with Benjie in the arms of Howard and Esther-Mae Forrest in the back seat of the Milnes' car, remains a mystery. Perhaps the other two swans went with Alice II and are still safe somewhere in Rhode Island.

Hamilton and Agatha circled over Durham in time for Town Meeting on March 14, but the millpond was still frozen solid. The two birds returned on the 19th and settled for a while on the snow-covered ice. They were on schedule, but spring was not. So they went back to the estuary for ten days more. On the 29th, they again lit on the ice of the millpond, made tracks across some fresh snow to a small area of open water, swam about, then clambered out on the shore for a handout from their Durham friends.

The much-discussed question of Hamilton's intentions toward Agatha was settled on April 6, and several times subsequently, when Howard Forrest and others around the millpond saw the two birds performing elaborate courtship gestures, followed by mating. But they abandoned the preliminary nest platforms that Hamilton had worked so hard on, among the alders on the little islands in the pond. Some people suspect that the presence of boats on the pond so early in the year caused the birds to feel insecure in their former nesting sites. The swans moved upstream to a precarious location, and hastily constructed a nest on a miniature island just off the boundary between the Heilbronners' and the Becketts' property. There, on May 5, Agatha laid an egg. It rolled into the cold water. John Beckett and Margery Milne rescued the egg while the swans were off duty, and did a little repair work to the nest so that the egg would stay put. Agatha added a second egg. But strange things began to happen, perhaps due to too much human help. First Esther-Mae Forrest and Margery Milne found that the eggs turned up in new locations, even on the next island! Then both eggs vanished. The swans abandoned their attempts to raise a family in 1972.

During June, the swans began their annual molt. Discarded feathers floated everywhere around the edges of the millpond. The birds could no longer fly, for they had lost the long strong feathers on their wings. But both swans came regularly for food along the shore at Mill Pond Road until Saturday, the 24th, when Hamilton arrived by himself. Agatha refused to budge all day from a small clump of dry grass at the Chamberlin side. After supper, Howard Forrest drove and hiked around the pond to get close to Agatha. He hurried back to call the swan keepers, for he could see blood on the grass and believed that the bird had cut her foot. Rescue efforts began at once. Although Dr. E. J. Lemos, the director of the Dover Veterinary Hospital, had left for a weekend in Baxter State Park in Maine, his colleague Dr. J. J. Moore hastened to the millpond scene, bringing with him the veterinarian from Pease Air Force Base.

Agatha made no real effort to escape from the sympathetic team that surrounded her while Howard Forrest picked her up carefully. Her left foot hung limply, twisted completely around, almost torn off. The end of the shank bone was exposed to the air and pond water. Surgery might save the foot and Agatha too. So off to the hospital went Agatha, the two veterinarians, the two Forrests, the two Milnes, for an emergency operation on Saturday night! Not until ten o'clock could Dr. Moore report that his swan patient was coming out of the (gas) anesthetic satisfactorily. He had sewn together the gaping wound, after finding that no tendons were cut. Her leg was bandaged and splinted, and well supplied with antibiotics to subdue any infection. Dr. Moore sent everyone home to relax, while Agatha went gently into a cage, especially shaded, in the ward with the dogs and cats. Dr. Moore felt hopeful that the bird would recover. Word of Agatha's accident and new location spread promptly. It even reached Dr. Lemos on the road, as he returned from Maine.

By the following Tuesday afternoon, a convalescent room was ready in the unused brick pumping station at the Town Mooring Facility on Old Landing Road. The Town gave permission, and Howard Forrest furnished the skilful carpentry. Agatha cried a little as she left the Hospital, but recovered her dignity (except for a bad limp) when she was released in her new indoor pen. There she stayed for four weeks, fed a special mixture of whole wheat bread, lettuce, cut grass, and fresh antibiotic solution. Dr. Moore visited her faithfully. Then he judged it time to remove her bandages and splint. Everything had healed beautifully.

For the special occasion, a whole crowd of townspeople assembled. Foster's Daily Democrat sent a photographer to get pictures. Esther-Mae Forrest provided refreshments. Agatha got a new metal anklet (Durham 3, by Paul Gilman again) on her good leg. Then into the millpond she went, limping into the water from the edge while Hamilton watched closely from only a few yards away. Agatha dodged him every time he approached. Getting herself clean meant more to her than any other swan. She bathed and bathed, but got dirtier instead of whiter because her feathers had too little of their natural oil to waterproof them. Hamilton kept grunting, as though to encourage her. Then off he swam. Agatha immediately trailed after him. He led the way to a new "pad" of plant materials he had built near the big island of alders. But when he climbed atop the platform, Agatha resumed her bathing in the deep water close by.

Apparently Agatha was still not ready to keep up with Hamilton. After spending one night with him, she disappeared. Peter Anderson found her at the end of the Longmarsh backwater, near Clint Ellison's place. Did Hamilton know where she was? Did he go looking for her? No one knows. But on August 5, when Agatha came down toward the millpond, Hamilton swam up to the Heilbronners' and met her. The two swans sailed into the millpond together, acting contented to be so close again.

August 10 was a happy day. Agatha discovered early in the morning that she could fly again. She flew across the millpond to Hamilton, and then over to the road to get her breakfast. She walked out on the shore, still with a limp, but using both feet almost equally. Hamilton's flight feathers did not grow in enough to let him fly until several days later.

As though they had read the predictions in the Almanac, the swans left the millpond a day before the cold night of November 16, when a quarter-inch of ice spread across the millpond. By the 18th, Hamilton and Agatha reached Cedar Point. They did not return to see that the millpond had open water again. Instead, they continued onward by easy stages. On November 20, the two big white birds were welcomed again in the North Mill Pond at Portsmouth. They seemed robust, healthy, clean and alert, all ready for the winter ahead.

Appointed Keepers of the Swans

## Tree Warden

The needs of Durham regarding trees and associated plantings have been described by the Tree Warden and the Town Beautification Committee in the town reports of the past three years. Those reports called for a replacement program for dead trees and a planting plan for the downtown area. This past year has been spent examining sites and preparing for an initial planting in the spring of 1973.

The downtown area contains three sites urgently requiring treatment. The first and most conspicuous is at Main Street and Mill Road, a spot eminently suitable for a mini-park which would enhance considerably the appearance of the town center. In this location, in addition to trees such as flowering crabapples, we envision grass, paths, and benches where people might sit and enjoy the planting. The second site, at Main and Ballard Streets, consists of a triangle which seems right for more flowering trees and a red maple for fall color. A bed of annuals for continuous summer color is suggested, also. The final, and most difficult area to be landscaped, is the newly renovated parking lot off Madbury Road. Here we have potential problems from salt and air pollution, and from cars and snow. Scarlet oaks and honey locusts were selected because they stand a good chance of surviving under these conditions. Shrubbery would be highly desirable, but may not stand the stresses imposed by people, dogs and machinery.

In anticipation of a planting program taking place for years to come, a small tree nursery was started. The town now possesses a collection of small honey locusts, ginkgos, pin oaks, and lindens--a total of 200 trees which may find permanent places throughout the town in the future.

A program of tree maintenance will be developed to insure that the investment in trees will be protected. This will mainly involve fertilization and weed control, as few pest problems are anticipated with the trees selected for planting. A large number of dead trees were removed from town land last winter and therefore there were noticeably fewer skeletons on view throughout the summer. However, a number were tagged on Durham Point Road and on Route 4 in anticipation of removal in early 1973. Some progress was made in getting dead trees removed from private property, but much remains to be done. Unfortunately, it will be a job without end.

The planting plans sketched above will constitute only a beginning. There is every likelihood that the elms will continue to die and that efforts to save them will be a delaying action at best. Possibly we should look at it with a positive attitude, as a challenge to create a more interesting landscape using trees with varied shapes and with flowers, fruits and fall color. The opportunity is here, but it is too large a task for the Tree Warden or any single committee or commission to handle alone, and it involves more than just trees. We have a beautiful campus; we should have a beautiful town.

# Sewer Policy Committee

Major matters which concerned the Sewer Policy Committee during 1972 included the following:

1. Consideration of an eighteen-month operational budget
2. Determination of a sewage treatment charge to operate the system.
3. Recommendation of a plan for the establishment of a contingency fund.
4. Recommendation of corrective action to remove certain serious weaknesses in the system.

Although the make-up of the SPC has changed from time to time the guidelines in considering past operational budgets have been to:

1. Recommend a budget just adequate to support the operation of the system.
2. Set a treatment charge just adequate to fund this budget.

Any balance left at the close of the year was used in the next year. We now recommend to the Board of Selectmen that a modest balance be planned for each year, and that this balance be placed in a sewer contingency fund. This fund would provide funds for major repairs of equipment and lines. It would provide also for the cost of engineering studies that may be made in planning for major improvement of the sewer system.

The source of construction funds for major enlargement or improvement is uncertain at this time. Early in the year, plans and specifications for improving grease-handling facilities at the treatment plant were completed. Although the project had received prior approval, no state or federal funds were made available. Apparently these funds were not to be made available until a schedule for secondary-treatment plans were submitted and approved. Such a schedule of planning and construction of improvements was prepared with the assistance of a representative from the N. H. Water Supply and Pollution Control Commission and submitted by the Board of Selectmen. The schedule received state approval but the regional federal administrator has asked that the date for completing secondary-treatment facilities should be advanced from December 1978 to December 1976. Without both state and federal approval, financial support to a total of 90% would be lost. Efforts to obtain maximum financial aid will be continued.

A near-crisis occurred on November 20th at the Coe's Corner pumping station. Unusually heavy rainfall and meltwater entered the sewerage system in unprecedented amounts. All three pumps at the station were required to handle the water flowing at a rate of 3.6 million gallons per day. This approached the station's designed capacity of 4.0 million gallons per day. If one of the pumps had failed, or one had been under repair, the station would have been flooded. To reduce the chances of future flooding the pumps are to be checked frequently.

Examination of the various sewer lines during periods of heavy flow has revealed three lines carrying excess water from surface sources. These lines are to be surveyed and necessary repairs or replacements must be made. Not only would electric power and sewage treatment chemicals be conserved by limiting surface water infiltration but it is anticipated that considerable grit would be excluded. In the past this material has at times interfered with the normal operation of the treatment plant and has caused excessive wear to pumps.

The cleaning of sewer lines is a new routine that has been initiated this year, with many tons of debris removed from the lines. Cleaning has

been made possible through the purchase of a modern water jet pipe cleaning machine. Such cleaning is being done to reduce the chances of blocked lines in the future.

The next eighteen months should see significant improvement in the operation of the sewerage system and clarification of state and federal anti-pollution requirements that may be imposed upon the Town.

Upon receiving written assurances that the schedule of improvements to the Durham Sewerage System was acceptable to both the New Hampshire Water Supply and Pollution Control Commission, and the U. S. Environmental Protection Agency, and that these Agencies would provide financial assistance to the extent of 90% of the total cost, the Sewer Policy Committee made two recommendations to the Board of Selectmen:

1. That they sign an agreement with the Environmental Protection Agency and the State of New Hampshire to follow a program of improvements to the Durham waste water treatment facility, which includes grease handling, stand-by chlorination, secondary treatment facilities, and extension of interceptor mains, and to receive State, Federal, and other funding as may be available.

2. That they include in the March 6, 1973, Town Warrant, an article authorizing \$35,000 for an engineering study regarding secondary treatment and interceptor extension mains, with the understanding that Federal and State support may be anticipated to cover these expenditures.

The Board of Selectmen have carried out these two recommendations.

# Waste Water Treatment Facilities

## COMPARATIVE FIGURES FOR THE YEAR

	<u>1970</u>	<u>1971</u>	<u>1972</u>
Total volume of sewage processed	277 million gallons	280 million gallons	393 million gallons
Total volume of water supplied to population by Water Department	257 million gallons	276 million gallons	294 million gallons
Total Illegal water and ground water infiltration	20 million gallons	4 million gallons	99 million gallons
Total cubic yards of sludge removed by Primary Treatment	1,140 cubic yards	1,179 cubic yards	1,244 cubic yards
Total pounds of chemicals required to process the sludge for disposal:			
High Calcium Lime	38,500 lbs.	33,250 lbs.	38,850 lbs.
Anhydrous Ferric Chloride	4,568 lbs.	3,553 lbs.	3,987 lbs.
Chlorine Gas for Disinfection	54,000 lbs.	62,593 lbs.	61,706 lbs.

During 1972, the flows through the Waste Water Treatment Facilities have been the highest on record. The comparative chart above shows an increase of 113,000,000 gallons, or 40% above the total for 1971. In 1970, the Waste Water Treatment Plant handled 20 million gallons more than was supplied by the Water Department. In 1971, this difference dropped to only 4 million gallons, but in 1972 this difference soared to 99 million gallons.

This past year (1972) has been one of the wettest on record and the ground water table is extremely high. Infiltration and illegal water sources have amounted to nearly 25% of the total flows for the year. This is further exemplified by the fact that although the total flow increased by nearly 25%, the amount of sludge removed by primary treatment increased by less than 6%.

Infiltrated ground water generally carries a low degree of pollution, which makes it easier and less expensive to treat than undiluted sewage, so the problem lies not so much in the cost of treatment but in the overtaxation of the entire system.

In high flow periods, efforts were made by the Public Works Department to locate major sources of infiltration. One major source was found and corrected, while other "suspect areas" will be investigated further.

In a newly initiated program, mains are being systematically cleaned, using recently acquired high-pressure equipment. Fifteen thousand feet, about 30% of all street mains, have been so cleaned, with many defects found and repaired in the process.

Duane L. Walker  
Superintendent

SCHEDULE AND SOURCE OF PAYMENTS  
ON 1968 LONG TERM NOTE ISSUE

# 1968 College Brook Interceptor Renewal

	State Aid (Project C-51) WPC-NH-72	From UNH	From Town General Funds	Total Due and Paid
1969	5,511.00	6,670.46	3,335.24	15,516.70
1970	16,001.00	-----	-----	15,600.00
1971	15,709.00	-----	-----	15,200.00
1972	15,416.00	-----	-----	14,800.00
1973	15,124.00	-----	-----	14,400.00

NOTE: To date of this report, the State Water Pollution Commission has not sufficient information on hand, confirmed by Federal Agency furnishing Federal Aid to this project (now EPA) to furnish a completed schedule of payments to the Town during the payment period of the 1968 Long Term Note Issue. The above is a tentative schedule on which Water Pollution has made payments with the understanding that adjustments will be made when final audit is approved by Federal and State authorities. In the meantime, the State has advanced money as shown above. See UNH-Town 1964 Agreement for detail of sharing costs.

In 1971, the Town received from EPA a check in the amount of \$55,140.00 for partial reimbursement of costs of this project. Since the State agreed to pre-finance aid, this check was transferred directly to the State. In 1972, the Town received a check in the amount of \$35,494.00 as reimbursement to this project. The amount received represents the balance of Federal aid due (subject to final audit) and 5% bonus grant on the project. The 5% bonus grant remains with the Town. The balance is to be forwarded to the State upon final audit and receipt of schedule of payment to the Town by the State on this long-term note issue. The funds received by this check from EPA were invested in Certificates of Deposit maturing in 1973.

Summary:

1. From EPA in 1971	\$55,140.00	
2. From EPA in 1972		
(invested in C. D.'s)	35,494.00	
Total Federal Aid.....		\$90,634.00
1A. Forwarded directly to State	55,140.00	
2A. Has been forwarded to State		
(See Note above)	27,254.00	
Total.....		\$82,394.00
Bonus Aid to Town.....		\$ 8,240.00*
TOTAL FEDERAL AID.....		\$90,634.00

\*Since this bonus sum was received from Federal Aid to Sewer improvement projects as voted by the Town, it is suggested that its use be assigned to financing of further projects to improve the system.

\*Add to this sum all interest received on C.D.'s referred to above.

# 1964 Sewer Construction Fund

## Receipts:

Balance: December 31, 1971 \$1,266.90

## Expenses:

Transferred to 1971 Grease Handling Facilities Project 1,266.90

Balance December 31, 1972 -0-

	\$ 85,361.00

## Expenses:

To Environmental Engineers	1,235.00
To Environmental Engineers	1,125.00
To reimburse borrowing from Sewer Maintenance in 1972	<u>1,135.10</u>
	3,495.10

Balance, December 31, 1972 \$81,865.90

## THE EMPLOYMENT GRANTS

### EMERGENCY EMPLOYMENT ACT:

We had one position awarded -- filled it with Viet Nam Veteran Dan Sanders, who prepared a preliminary and final HUD application for a water facilities grant. The \$250,000 grant request is presently awaiting fiscal funding. Sanders also updated and published the Zoning Ordinance with all amendments, worked on many special and varied projects also. Federal funding was 90%, with In-Kind aid of 10% furnished by the Town.

E. E. A. Employee Sanders works on project

### STUDENT FINANCIAL AID:

We asked Mrs. Joan Kennedy of the University of New Hampshire for two students for Public Works. Under this program, the Town contributes 20% of the wages paid. The first young man, Thomas Callahan, was a forestry student who assisted in the surveying and layout for construction projects, parks and cemetery care, and road maintenance. Peter George, the second student, had an electrical background and started out with us by installing surplus police radios and a base station in the Road Department equipment. He also participated in construction and maintenance activities.

Student Peter George installing surplus Police radio system in the Highway Department

The third program was a position fully funded by the Federal Government under the Summer Youth Program, which aids needy high-school age students. We hired Mike Kirwan, who painted all of the Town hydrants and performed tasks not requiring the operation of motorized equipment. Mike relieved a regular employee for other tasks.

Along with these, we hired other summer help, and as a result, were able to successfully complete one of Durham's heaviest construction seasons.

In summation - everybody turns up winning. The Town completed many pigeon-holed projects. The students, in addition to earnings, gained measurably from work/study orientation, as was expressed by their teachers. The Emergency Employment Act veteran acquired a permanent administrative position with a State agency, and the permanent Town employees were immersed in a good dose of youthful enthusiasm.

WATER WASTE AT 40 POUNDS  
PRESSURE

- a 1/32" leak wastes 170 gallons in 24 hours.
- a 1/16" leak wastes 600 gallons in 24 hours.
- a 1/8" leak wastes 2500 gallons in 24 hours.

At 50c per thousand gallons the smallest of these leaks will add over \$31.00 to your annual water bill.
