W. H. MORTON, Secretary and Treasurer.

Approved,

CHARLES F. WOOD,	} Selectmen of Rollinsford.
MOSES R. VARNEY,	
FRED PLUMER,	

The undersigned, auditors of town accounts, have examined the books of the Secretary and Treasurer, for the year ending Feb. 28, 1885, and find all cash entries sustained by appropriate vouchers, and castings correctly made and footings agree.

NATHAN HILL,	} Auditors.
W. R. GARVIN,	

# REPORT

OF THE

## Superintending School Committee

OF THE

Town of Rollinsford, for the Year Ending  
March, 1885.

---

We beg leave to submit the following report:

### DISTRICT NO. 2.

SAMUEL HALE, Agent.

Summer Term, 11 weeks. Maria L. Grouard, Teacher.

This was Miss Grouard's second term in the district. Her short acquaintance with the pupils a year ago, better qualified her to continue the work so well begun. Success crowned her faithful labors.

Fall Term, 8 weeks. Winter Term, 10 weeks. Celia Y. Ramsdell, Teacher

The school for the remainder of the year was under the care of Miss Ramsdell. This was the teacher's second school. Evidence of earnest work, both on the part of teacher and scholar, was plainly visible examination day. The recitation of a class in Physiology, under twelve years, was a surprise to visitors in attendance.

## DISTRICT NO. 3.

HUGH CUNNINGHAM, Agent.

Summer Term, 14 weeks. Clara R. Johnson, Teacher.

This term closed the labors in this district of a most faithful and successful teacher. For nearly five years Mrs. Johnson has cared for the interests of this school. If possible, it might be truthfully said, her last term was the best. She was loved and respected by the entire school.

Fall Term, 12 weeks. Winter Term, 9 weeks. Grace A. Atkinson, Teacher.

The position which Miss Atkinson was called upon to fill was not an enviable one. Following in the footsteps of a teacher as successful as Mrs. Johnson had been, was a task that even the most experienced shrunk from. While the methods adopted by the two teachers were unlike, the results proven by examination place Miss Atkinson among teachers of no mean repute. Had she been a little more pleasing in her ways, she would have been more fully appreciated by her pupils.

---

## DISTRICT NO. 4.

MOSES W. CLEMENTS, Agent.

Summer Term, 10 weeks. Fall Term, 9 weeks. Jessie G. Lord, Teacher.

This district has been "blessed" by a first-class fracas over the election of school Agent, which had well nigh destroyed the efficiency of the school. Whoever was selected as teacher had the disagreeable task of pleasing those that were bound not to be pleased. In such condition of affairs a teacher of varied ex-

perience should always be employed. Miss Lord had just graduated with highest honors at the High School at Great Falls, when called upon to teach in this district. A young lady of most excellent qualities, possessing a firm determination to succeed at all hazards, and (if it had not been for some who unwittingly forgot that they were injuring themselves) would have kept one of the best schools in town.

Winter Term, 13 weeks. Amos W. Pike, Teacher.

Under existing circumstances, the agent showed discretion in securing for the winter term the services of such an experienced teacher. Mr. Pike well knew how to take the conceit out of some of the older pupils, and soon had the school under good discipline. The scholars of this district are more advanced in their studies than any other school in town outside the village, and had reached that age where they were prepared for rapid advancement if rightly taught. We noticed a very solid growth in studies, especially those pertaining to mathematics.

---

#### DISTRICT NO. 5.

EDWARD F. THOMPSON, Agent.

Summer Term, 12 weeks. Fall Term, 14 weeks. Winter Term, 10 weeks. Clara W. Garvin, Teacher.

This was Miss Garvin's second year in this district. If we can judge anything of the praises accorded her by both parent and scholar, her labors this year have been even more successful than the last. Her method of teaching commends itself at once to the pupil, who as quickly becomes as enthusiastic over the work as the teacher herself, consequently rapid and thorough

work is accomplished in the shortest time, bringing results that will always be commended and appreciated.

We are living in an enlightened and progressive age, and new and useful methods are employed to aid teacher and scholar in their labors, consequently new books must be bought to keep pace with the times. Two new books have been introduced the past year, Physiology and Reed's Grammar, with apparently the best of results in both cases. At the annual election of school officers, voters ought to think of the results of the election upon the interests of the school, and not to place too much importance upon getting the "schoolmarm" to board, or some relative or friend for teacher. Our school-houses are in most excellent repair, but often a few small jobs are sadly neglected, causing inconvenience to the teacher.

A little paint would be most beneficial to nearly all of the blackboards. As many of the pupils are compelled to remain during intermission, a liberal supply of water pails, dippers, wash basins, soap, and even a fresh towel occasionally, should be furnished, as these always have a sanitary influence upon the scholar. We trust our schools for the last year will compare favorably with those of the past, and will reach, in the near future, that era of prosperity which the large expenditure of our money demands.

J. D. ROBERTS, S. S. Committee.

# REPORT

OF THE

## Superintending School Committee

FOR DISTRICT No. 1, IN THE  
Town of Rollinsford, for the Year Ending  
March, 1885.

---

Our Primary School, the past year, has been taught by Miss Nellie F. Lord, with an average attendance of 60. Anyone to appreciate the great success of Miss Lord in this department, needs to be present and see with what patience and gentleness she governs and instructs so large a number of little children. Too much praise cannot be given Miss Lord for her labors in this school.

Our Intermediate School is under the direction of Miss Anna L. Wentworth, with an average attendance of 34, and the Grammar School, under the management of Miss Ella E. Knowlton, average attendance, 30. It seems unnecessary for your committee to state what we all so well know, that is, that both Miss Wentworth and Miss Knowlton have again closed their year's labors with the same success and satisfaction to the district as in the years past. We feel that a great deal of credit is due these very efficient teachers.

The High School, unlike the others, has been under the man-

agement of two teachers. The first half of the year it was taught by Mr Albert Somes, with the same good results that have attended his labors in the years previous. The last half of the year the school has been instructed by Mr. Frank Hathaway of New Bedford, Mass. Mr. Hathaway came here highly recommended as a man and a teacher; and although he has been with us but a short time, we have no hesitancy in saying that in our opinion he has shown himself to be an earnest, faithful and progressive teacher, and we doubt not that under his instruction the school will still continue to produce in the future the same good results that it has in the past. The average attendance has been about 22.

On the whole, we think our little village has good reasons to feel proud of its schools; and there can be no question but that they will compare favorably with any in the state in a like situation.

O. S. BROWN,	}	Supt. School Committee District No. 1.
