## SUPERINTENDENT'S REPORT

Feb. 1, 1923 to Feb. 1, 1924

In my last report I mentioned the need of better attendance, and called your attention to the evil of tardiness. Our attendance shows marked improvement but there is too much tardiness. I believe if every pupil would make an effort to arrive at school on time we could eliminate this bad feature.

At present our schools are too small for interest and efficient work. In a large class, pupils take more interest, as there is competition and each does his best to excel. If we can in some way reduce the number of schools, we shall be able to give the pupils the advantage of larger classes, better equipment, and a more accurately classified school. If we had fewer teachers, we might be able to get normal graduates for the positions. Education is a profession like law or medicine; therefore it is a self evident fact that the more training and experience the teachers have, the more efficient schools we may expect. Clarksville can, at a small expense, build up a first class school system.

Our schools have been very harmonious this year, and our teachers have worked conscientiously for the progress of the pupils. I have made 78 official visits to Clarksville schools since Feb. 1, 1923 and have tried to co-operate with the teachers to promote the welfare of the pupils. The children show good interest in their work and possess what we may call a good school spirit.

In closing I wish to express my appreciation for your cooperation and my expectation that we shall continue to work for the greatest possible efficiency.

Respectfully submitted,

William F. Skelton, Supt.
