REPORT OF THE SUPERINTENDENT OF SCHOOLS

Members of the Lempster School Board:

I, herewith, submit my third report as superintendent of your schools.

At the present time economy is the watchword in all public enterprises. Economy may mean one of two things—the employing of less capital and being satisfied with smaller returns or the more active use of the money invested, thereby insuring increased dividends. That the School Board of Lempster is using its present resources more and more economically is shown by a glance at the following study of the school records during the past five years.

Records of the Lempster School District.

School year	1923	1924	1925	1926	1927
Half days schools were in session	340	347	344	352	354
Half days lost, (holidays, etc.)	20	13	16	8	6
Percent of attendance	91	95.4	95.7	94.7	95.2
Number of tardinesses	72	97	92	82	66

Economical administration means practically no days lost during the school year. It means practically all pupils in school each day. It means practically all pupils present at the beginning of each session. During the past five years the number of school sessions has increased by fourteen and the percent of attendance has remained almost constant at 95. Tardinesses were at their lowest during the past year. This entire record is well above the state average and bespeaks unusual care and interest on the part of the people of Lempster.

A heating system, similar to that of the East Lempster school, has been installed in the Street school this year, resulting in a more even distribution of heat and, we believe, a saving of fuel.

The scholarship of the three schools is being tested by the standardized tests as in former years. This assures us protection from personal opinion which is an uncertain quantity. The fact that two of our teachers have been with us two years and the other three years also promises satisfactory progress. Infrequent changes of teachers, a high per centage of attendance and a full school year are making Lempster a town justly proud of its schools.

I wish again to express my appreciation for the cooperation and advice of the Lempster school board during my period of office.

Respectfully submitted

Roy W. Gilmore.

RECOMMENDATIONS OF SCHOOL BOARD

The School Board recommends the following sums as needed for the school year beginning July 1, 1928:
