# REPORT OF THE BOARD OF EDUCATION.

The Board of Education present their annual report to the community with the feeling that the school year has been one of profit. The teachers have all labored for the interests of their pupils and our schools will certainly compare favorably with any in the county. The number on the Roll of Honor exceeds that of any year for the past ten years, showing that the parents and scholars are realizing what an important factor prompt and regular attendance is. A habit which if formed in early youth will be productive of beneficial effects throughout life.

We call your attention to the need of refurnishing the village Primary School, the chairs are badly splintered and, in consequence, are detrimental to the children's clothing. Single seats are more healthy and conducive to good order.

Our thanks are extended to all from whom we have received courtesies.

Following is the Statistical Report.
