*\$3.50 per \$1000 of taxable inventory is **minimum** required by law in addition to per capita tax and salaries of district officers.

†\$5 per \$1000 of equalized valuation must be raised for elementary schools to qualify for state aid. The net assessment must contain this amount in addition to funds made available for high school maintenance and other statutory requirements. The amount of the \$5 tax is \$2953.76.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Freedom:

I herewith submit my seventh annual report as superintendent of schools.

I congratulate the citizens of Freedom on having excellent schools, well supported, in these times of stress and strain. It is the evident belief of Freedom people that the welfare of the boys and girls is of first importance. In a comfortable, well-equipped building competent teachers are giving instruction in facts of knowledge, and also lessons in self-control and regard for rights of others. It is well said that education today is not only gathering facts of knowledge but it is also training for lives of service in public welfare.

Jessie Gray, President of the National Education Association, says, "The American common school is the expression of a mighty faith. It has grown up out of need and aspiration. It is the bulwark of those democratic ideals and rights for which mankind has sacrificed and suffered thruout the ages. It is the home of light and of reason. It is the hope of a better tomorrow. The common school is the house of the people."

In my report last year, I asked closer cooperation of parents and citizens regarding attendance of pupils at school. I am glad to report that the attendance has been better this year than for some time. I appreciate this cooperation, and also the prompt work of those conveying pupils. This good attendance, together with the good work of the teachers, has resulted in a better record in the standardized tests. The schools are progressing well.

Repairs and Improvements

The school property is well kept. Cleaning and some painting will be necessary next year. The halls have been greatly improved by the hanging of some very beautiful pictures, furnished through the kindness of Mrs. Alice E. Weeks. Schools need beauty of surroundings, music and the fine arts, as well as the three R's.

The one great need of the schools is a playground. Some way ought to be found to provide spacious grounds on which the boys and girls could play. New Hampshire is called the great playground of America, and yet, in Freedom, only a few square feet are provided for the school children. Play, properly directed, becomes one of the most valuable agencies of education, but in this we are cramped and limited. It is known that there are certain faculties and abilities which, if not developed through exercise, will forever be dormant. Certainly a committee should be ap-

pointed with power to act in securing land for a school playground.

Visual Instruction

The motion picture has brought help and enjoyment to the boys and girls. Already there have been pictures of health, safety, kindness to animals, geography and history. The picture, "Daniel Boone," was given in the Town Hall and the public invited. This was a strong picture of early pioneer life in the Kentucky region. "Dixie," was a unique picture, showing scenes from the South in the time of the Civil War. It was especially appropriate at the time of Memorial Day. The entertaining picture, "Captain January," was favorably received everywhere. Since we learn more through the eye than any other sense, the picture comes to have special value.

Health Work

Medical Inspection is still attending to the health conditions in the schools. Eyes have been fitted with glasses. Throats have been treated for bad tonsils. Especially commendable has been the work done on the teeth. By great effort nearly all dental defects were treated. This is a great help in getting the best results from school work. "A sound mind crowns a sound body."

In this connection, parents are reminded that children must be vaccinated before entering school. This should be done by August 20. It is not right to delay and then keep children out of school in September to have the vaccination done.

A well-attended school exhibition and program, held last spring, shows that Freedom citizens are interested in schools and child welfare. The conditions of our country show that we need well-trained citizens, and the way to train is to begin in youth. Honest, loyal, efficient, helpful and law-abiding citizens are not made in haste. A squash can be grown in one

season, but it takes years of slow, hard growth to make a sturdy, spreading oak. The twig can be bent. The tree cannot.

A Piece of Clay

"I took a piece of plastic clay
And idly fashioned it one day,
And, as my fingers pressed it still,
It moved and yielded to my will.

"I came again when days were passed—
The bit of clay was hard at last;
The form I gave it, it still bore,
But I could change that form no more.

"I took a piece of living clay
And gently formed it day by day,
And moulded with my power and art
A young child's soft and yielding heart.

"I came again when years were gone—
It was a man I looked upon;
He still that early impress wore,
And I could change him nevermore."

Attendance

For the year ending June 30, 1933, we had an average attendance of 55, and average membership of 58 and a percent of 95. This is an improvement over the year before. We ought to make it better this year.

Last June we graduated a class of five from the Grammar School: Winifred Brooks, Amos Brooks, James Chase, Helen Giles and Linnie Watson.

REPORT OF SCHOOL HEALTH WORK

To the Townspeople, School Board, and Superintendent of Schools:

As usual the children of the Freedom schools were fortunate in being able to have annual dental clinic service, sponsored by the School Board. All but three of the children had all necessary dental work done. A more thorough dental job was done this year than has been done before. Last year the work was very hurriedly done because there was too much to accomplish for the money available. The year before that, the work was unexpectedly curtailed by giving only half the time planned upon. We are just now catching up for this lapse. Now that the work is thoroughly done, it should not be as difficult to put all of the teeth in excellent shape as it was this year. It is noticeable that the only really serious dental defects are to be found among new or entering pupils.

Although Dr. Marston has made a beginning in the correction of bad tonsils, this is still our most serious defect. It is causing too many infectious colds and grippe infections among the otherwise well children. As rapidly as possible this must be eliminated from the schools. A few new eye defects found this year have changed our excellent eye record into one to be improved upon.

A survey showed that none of the children of the Freedom schools wanted or needed the milk served daily in the schools of New Hampshire under the provisions of the Federal and State Emergency Relief Acts. Last Spring two children were served for a short time but it was soon discontinued.

At the end of the school year last June, the following survey shows the work done in Freedom:

Visits to schools	30
Visits to homes	77

Total visits	107
Days spent	12
Pupils examined	57
Defects found	110—1.9 per pupil
Defects corrected	70—63% of defects
Without defect	36—63% of pupils

It is to be hoped that the record may be improved this year even in spite of the economic difficulties encountered at this time. Nothing must be neglected that could retard the best development of the children even if depression does ride the land!
