REPORT OF LIBRARIAN

The Librarian wishes to thank the townspeople for their assistance and hearty cooperation during the past year.

Mrs. Fitzgerald of New London presented the library with several interesting books, which we appreciate very much.

A Valentine dance was held in February and a Christmas sale in December, for the benefit of the library, both being successes.

Twelve new volumes of fiction were purchased in November.

M. THERESA ATWOOD,
Librarian.

THE STATE OF NEW HAMPSHIRE

REPORT OF SUPERINTENDENT OF SCHOOLS

Andover, N. H., Feb. 15, 1923.

To the School Board and Citizens of the Wilmot School District:

I hereby submit my fourth annual report as superintendent of the schools of Wilmot. This report includes the Roll of Perfect Attendance and the Statistical Table.

We were fortunate last year in having no change of teachers in the middle of the year and no substitute except at the Flat. There was only one change of teachers at the beginning of this year, Miss Rachel George of Concord, a graduate of Plymouth Normal School with one year's experience, succeeding Mrs. Walker at the North Road. The Pond school being reduced to one pupil was closed in April and Florence Wells has since been conveyed to Cilleyville.

Wilmot benefits by a considerable allotment of state aid, the amount for last year being \$2,537.51. This has helped in the matter of salaries, making it possible to employ some teachers with training as well as experience, and purchase needed text books and supplies. Each school has been supplied with an International Dictionary, a new Bible, Morrison's "The Government of New Hampshire," Metcalf's "New Hampshire in History," Brewster's "Some 300 Years Ago," "America First," a collection of the best patriotic stories and poems, and a number of supplementary readers and histories.

Standard tests were given last year in all grades above the second. The Monroe Silent Reading Tests, the Courtis Arithmetic fundamentals, and the Ayres

Spelling tests were given in grades 3 to 8, and the Witham Geography tests in grades 5 to 8. The National Intelligence tests were given in grades above the second. The same tests were used throughout the union, with results valuable in determining the achievement of individuals and their ability to advance, in judging the work of teachers, and in comparing the grades in different towns.

Improvements have been made in several buildings, the Center having the walls tinted and the worn-out stove replaced by a new one of the box type. This should be jacketed in order that the heating may be by circulation instead of radiation, and thus every part of the room be warmed. The same should be done at the Flat, where the room is even more difficult to heat. The saving in fuel would repay the expense and the children would at the same time be spared much discomfort. New seats have been purchased for the Center and will be installed when the new floor is laid. The new paint and new hardwood floor at the Flat make a much needed improvement there. New blackboards have been bought for the Stearns school and windows added at the North Road. Our buildings are in much better condition than three years ago, and with the completion of improvements already planned will be still more creditable to the district.

The physical examination was made by Mrs. Heyer and many defects were found to have been treated since the previous examination.

	Cases found	Cases treated since last examination
Malnutrition	12	3
Defective vision	10	7
Defective hearing	2	1
Anæmia	6	2
Nervous disease	5	3
Skin disease	2	2
Pediculosis	1	1
Orthopedic defects	1	0
Defective teeth	44	15
Hypertrophied tonsils	22	8
Adenoids	15	3
Defects of breathing	3	0
Enlarged glands	3	0
Unvaccinated	29	

Probably the worst handicap to children, at least the most common, is defective teeth. They are often accompanied by bad tonsils and adenoids. These result in mental dullness. The State Board of Health informs us that there has been an ominous increase in smallpox in the United States during the past few years. "New Hampshire has the lowest case rate of any state and this is due to a great extent to the vaccination of school children during the years the vaccination law has been in effect." To reassure parents who fear bad results, the Board makes the statements that vaccination properly done on a clean arm, with pure lymph, and kept perfectly clean and unbroken afterwards never did and never will make a serious sore. It is hoped that at the next examination there will be fewer children unvaccinated.

Throughout the state the actual time lost in the year by no school days varies from 8 to 37 half days. In this union Andover lost 27 last year; New London, 21; Grafton, 21; Danbury, 9; and Wilmot, 22. In a recent circular the Commissioner of Education urges the reduction of the number of such days and also urges "the school observance of all legal holidays and of special days by appropriate school attention, study, and programs." Concerning three of our nine holidays he says, "There is little reason why any school should be closed on January 1st, Washington's Birthday, or Fast Day. Two of these days have lost their earlier significance. Washington suffered all his life because his early educational opportunities were not equal to those of many of his national associates. It can hardly be said that his memory is best observed by requiring 98,438 New Hampshire children to lay aside their school books on his natal day. Rather on this day they should take up their books and learn the lesson which his great life taught."

Our new two-year high school has made a good beginning under Miss Ruth Chisholm, a three-year graduate of the Keene Normal school. The total enrollment has been fifteen, but through a variety of reasons not connected in any case with the school six have become non-members. There is prospect of an entering class of two or three next year. Two years hence there ought to be a much larger number. The courses are so arranged that any pupil who desires may after two years here enter the third year work of another high school or academy. Both courses offer this year English, History and Algebra, while one gives for a fourth subject Latin, the other a half year each of Commercial Arithmetic and Bookkeeping.

For the purpose of comparison I have included in the statistical table the totals for the two preceding

years. This shows that the registration has increased by 19, the average attendance by 13, and the per cent of attendance by 3 in two years. The indifference of some parents lowers the standards of attendance and of accomplishment. With children as with older workmen, those who are on the job every day, who arrive on time and stay the day through accomplish the most. In some cases I believe parents would themselves be surprised at the better work done if their children were perfect in attendance. In the Center school there is great improvement this year.

I wish to thank the members of the Board and those who worked for the establishment of the high school for their unfailing courtesy and co-operation, and the teachers for their helpfulness and their faithful work.

Respectfully submitted,

IDELLA K. FARNUM,
Superintendent of Schools.

PERFECT ATTENDANCE
