## TRUANT OFFICER'S REPORT

In March, 1912, Mr. Harold S. Frost was appointed Truant Officer by the School Board. He has performed his duties satisfactorily, has visited each school as requested, returned the number of scholars, and if those who should be in school were not there, has reported the reason, and seen that they returned as soon as possible.

## MUSIC TEACHER'S REPORT

Teaching music in mixed schools of all grades is a problem not met with in graded schools where you get the attention of a class doing the same work for a period.

I was furnished an outfit consisting of fifteen First Readers of the New Educational Music Course, a Teacher's Edition of the same, five Primary Plans books, a staff liner, ruler, four blocks of practise paper, twenty-five cents' worth of ruled music paper and a pencil, and asked to teach an hour a week in each school.

I left one of the readers and a Primary Plans book with each teacher. These were further supplemented by the teachers of No. 1, 2, 3, and 5 buying a copy of the Teacher's Edition for themselves. The other books I carried around with me.

After the sixth lesson I divided each school into what was practically two classes, the second being made up of small children and monotones.

At the end of the fall term of twelve weeks the first class had learned nine rote songs, six voice drills, one breathing exercise, twenty-six terms of notation and were reading in the key of C, by note, letter and numeral.

The second class was taking part in the breathing exercise and voice drills with more or less intelligence, could draw the staff and make whole notes, half notes, quarters, eighths, and the rests.

They had also learned two note songs of their own and several exercises.

There was marked improvement in the monotonies.

The second term I continued with the classes divided as before, taking more about the formation of the major scale, the chromatic scale and both forms of the minor scale, the melodic and harmonic.

At the end of the second term the second class in each school, excepting No. 5 where little folks were kept home from sickness or cold weather, has learned ten rote songs and twelve exercises.

In September there were twenty-six monotonies; now there are eighteen, several of whom are improved.

The first class, excepting in No. 4, have learned two breathing exercises, twenty-five voice drills, four two-part melodies, twenty-five rote songs, and can read by note in five and six keys.

No. 4 has had the same, excepting not so many voice drills, fourteen rote songs, and has read in three keys.

Considering that a very small percentage of the

children had taken music lessons, and had had no instruction in singing heretofore, it is an advancement of which any teacher might be proud.

My plan for the coming term is to divide them into three classes, taking up the voice drills and beginners first twenty minutes; second class, twenty-five minutes, the last fifteen minutes being devoted to the first class, which has been reviewing while the second class was in operation.

With my first classes I shall take up the transposition of the scale and some simple rules of harmony.

This class will number thirteen in No. 1 school, eighteen in No. 2, eleven in No. 3, seven in No. 4, and eleven in No. 5, respectively.

Introducing music into the schools seems to have met with general favor, judging from the messages of encouragement sent me by parents from all parts of the town.

Mr. Berry wrote upon this subject, printed in an old town report: "Musical culture is an efficient aid in securing good order, and in imparting refinement to school life."

ESTELLE F. HYDE,

Supervisor of Music.

## AUDITOR'S REPORT

We, the undersigned Auditors of the Town School District have examined the accounts of the School Board and Treasurer, for the year ending March 1, 1913, and find them accurately kept and properly vouched, and they have issued orders to the amount of \$2,986.38, and that the Treasurer of the School Board has received \$4,088.75 and has paid the above mentioned orders, leaving a balance in the treasury of \$1,102.37, and the book account has been overdrawn \$4.41.

# Library Report

## TRUSTEES' REPORT

After a useful and successful life of twenty-one years the Public Library has surely demonstrated to us its value as a source of education and entertainment, and starts out on a new year with every promise of continued prosperity.

Something more than one hundred and fifty new books have been added during the past year by purchase, besides what have been given to the library. To the givers we wish to express our thanks.

Fiction seems to be the class of books most in demand by the people, and it is becoming more and more difficult to select books of good fiction; consequently we would be very grateful to anyone who happened to know of any good books of this class, or in fact, of any other class, if they would recommend them for purchase to the librarian or trustees.

The library has been well patronized during the past year. The people seem to appreciate the advantages of such an institution and we think, do not regret the small extra expense which it makes necessary. And take it altogether, financially and otherwise, the library seems to be in a satisfactory condition.

For her courteous and efficient services for the long term which she held the office, the thanks of the patrons and also the trustees are due the librarian.

In submitting this report the trustees anticipate nothing but increasing value and usefulness for the library.

SHERMAN HOBBS,  
FRANK M. WOODBURY,  
CHARLES W. HOBBS,

Trustees.
