TOWN OF DURHAM
13-15 NEWMARKET ROAD
DURHAM, N.H. 03824-2898
603/868-5571

Certificate of Appreciation

Lawrence M. Slanetz

On the occasion of the 50th Anniversary of your appointment as Health Officer for the Town of Durham, we recognize you, Dr. Lawrence W. Slanetz, for:

Fifty years of continuous service dedicated to the health concerns of Durham and its citizens

A positive approach to solving health problems in the community

Service beyond the community to the State of New Hampshire and the State Health Officers' Association

Dedication well beyond the call of duty.

On behalf of the citizens of Durham, we extend our heartfelt thanks.

Norman W. Stiles, Chairman
James C. Chamberlin
Anne E. Goodman
Owen B. Durgin
Patricia L. Fisk

SELECTMEN'S REPORT PROBLEMS AND PROGRESS

Fire Department Study:

Upon vote of the 1985 Town Meeting, the Board of Selectmen prepared and distributed an R.F.P. for the Fire Department Study. The Board awarded the contract to the University City Science Center of Washington, D. C. in the amount of \$12,990. A copy of the completed study is on file at the Durham Town Office.

Student Housing:

Throughout 1985 the Board of Selectmen received numerous complaints from Durham residents concerning the purchase of residential homes for student housing use. The major complaints concerned parking, noise and the deterioration of the residential neighborhoods.

This problem was discussed at a Town/Gown Committee meeting. Gregg Sanborn, Dean of Student Affairs, recommend the formation of a Task Force to study the problems of off-campus student housing. This Committee has been formed and will have recommendations to present to the Committee for the Town and University of New Hampshire to consider amendments to the Zoning Ordinance.

Personnel:

The Town experienced a major turnover in key personnel during 1985. George Crombie resigned as Public Works Director in November to accept a position as Public Works Director in Burlington, Vermont. His dedication and service have had a tremendous influence on the growth and character of our Town. David Walker was appointed Public Works Director, and his former position of Town Engineer is in the process of being filled.

Town Business Manager Deane Sweet resigned in October to accept a position in the private business sector.

Police Lt. Donald Vittum resigned in June to become Chief of Police in Lebanon, N H. His contributions to the Town were many, especially his efforts in working with young people.

Joseph McGann and Michael Golding were promoted to the rank of Sergeant in the Police Department, as a result of the revision of the personnel organizational chart in that Department.

The Board has appointed Kathy Deganais as Bookkeeper/Accountant for the Town. Kathie Lopez has been hired as Clerk/Typist.

Data General:

The physical changes with the coming of Data General to Durham are apparent in the construction work being carried on for the water and sewer lines. Those who visit the Data General site will find the building under construction. The Board has met with Data General officials several times and Data General looks forward to becoming a part of this community.

1984 Audit:

The conversion of our accounting system to computer was one of the factors affecting the failure to complete the 1984 audit. As seen in the Report of the Auditor, all efforts are being made to have a complete audit as soon as possible.

Route 108:

After two years of discussion, meetings and controversy, the final public hearing on Route 108 was held in January, 1986. The Board of Selectmen is waiting for a final decision from the State regarding this project.

Hurricane Gloria:

In September, Hurricane Gloria decided to visit. It brought forth a tremendous spirit of cooperation between all departments of the Town and University. It was apparent that these two communities are well prepared to handle this visit from Mother Nature.

Chairman Anne E. Goodman, Mary S. Campbell, Norman W. Stiles, Owen B. Durgin and Patricia L. Fisk, 1985 Durham Board of Selectmen.

FIRE DEPARTMENT STUDY

The 1985 Town Meeting directed the Board of Selectmen to initiate a study of fire protection and rescue services in our community, results of which were to be available to the public by September 1 1985. An R.F.P. was developed, bids were submitted and reviewed and a consultant was hired on August 20, 1985. Our September 1 deadline was unrealistic.

The study was conducted by the University City Science Center between September and November of 1985. The preliminary draft was submitted to the Board of Selectmen on December 9, 1985 and the final draft on January 23, 1986.

The major recommendations of the study are:

There is a need for both the Town and the University to address the large number of false alarms.

The Town should conduct a needs assessment of the current and projected fire and emergency medical needs of the community and develop a long range public safety plan.

The Fire Department should prepare and submit a written monthly report to the Fire Commission, the Town, and the University.

The Town should request the Fire Commission to conduct a detailed review of the false alarm problem.

The Fire Department should implement efforts to better integrate the full-time and call companies.

The Town and University should make call personnel recruitment and retention a primary initiative.

The Fire Commission should establish minimum call-back response requirements for full-time and call personnel.

The Department should review its call-back policy and procedures.

The Fire Commission should consider using call personnel to fill in shift vacancies when a shift is short personnel.

The Fire Commission should review the activities of the fire inspections division to ensure that property within the Town is being inspected properly and regularly.

The fire chief should re-establish the practice of having the suppression division participate in inspectional activities.

As a matter of policy the University and the Town should agree to use the median base compensation from a sample of New Hampshire fire departments as the benchmark for establishing compensation levels in Durham.

Responsibility for establishing compensation rates should be a joint University/Town responsibility.

Guidelines for achieving merit pay increases should be revised to include criteria rewarding superior performance and the attainment of certain training certificates and skill levels.

The University and the Town should study the personnel costs involved in converting to a 42-hour work week.

The Town must streamline the budgetary process for the Fire Department.

There is a need for the Town and the University to establish a firm budget for the Fire Department prior to January of each year and to have both the Town and the University put their full resources behind getting that budget funded.

The Town should adopt a firm budget with sufficient funds in it to cover the highest estimated cost of living increase the University might approve.

Durham Ambulance Corps station with the two ambulances finally housed side by side

TOWN GOVERNMENT STUDY COMMITTEE

The 1985 Durham Town Meeting directed the Board of Selectmen to create a Town Government Study Committee to analyze the appropriateness of the present structure of town government and to make recommendations to the 1986 Town Meeting. The Committee established by the Selectmen has reviewed current town operations, met with the Director of the New Hampshire Municipal Association-local government committee chairpersons and interested citizens of the community.

The Committee found that the State of New Hampshire now permits its communities wide latitude to create forms of local government best suited to local needs. In Durham, those needs have become more complex in response to federal regulation, state law, and rapid local growth in both residential and commercial categories. Given the nature of these demands and the procedures now established to consider possible changes in the structure of local government, the Committee recommends that the Durham Board of Selectmen proceed to establish a Charter Commission in accordance with the provisions of Chapter 49-b, NH Revised Statutes Annotated.

These steps would provide the voters of the Town an opportunity to decide the issue of whether or not such a commission should be established, and if to be established to choose the members of the commission. If the voters choose not to establish a commission, the simultaneous election of members provided for in chapter 49-b is void.

The Committee also recommends that the Board of Selectmen give major publicity to the referendum on the proposed creation of a charter commission and that the Board encourage interested citizens to file for election as members of the Charter Commission.

WELFARE OFFICER

As Chairman of the Board of Selectmen, I assumed the duties of Welfare Officer upon the resignation of Deane Sweet in October, 1985. Being in direct contact with our welfare needs has been a learning experience for me. The good economic conditions during 1985 have been reflected in the expenditures in the Town welfare accounts.

The proposed changes in the State welfare laws referred to last year have become a reality. As of January 1, 1986 the Town is no longer able to transfer assistance to the County, and it is anticipated this change in the law will have a dramatic impact on the Town. The use of O.A.M. funds during 1986 will certainly help to fund emergency cases and aid in the (now unknown) area of welfare expenditures. Future welfare budgets will depend largely upon our experience during this coming year and future development of the Town. This will be a budget over which we no longer have the checks, balances and controls of the past.

CERTIFIED PUBLIC ACCOUNTANTS

P.O. BOX 459
EXETER, NEW HAMPSHIRE 03833

January 16, 1986

Board of Selectpersons
Town of Durham
Newmarket Road
Durham, New Hampshire 03824

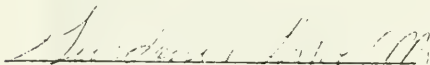

Dear Board Members:

As auditors for the Town of Durham, we were unable to complete the 1984 audit due to accumulated bookkeeping problems.

During 1984, the Town of Durham converted from a manual accounting system to a computerized accounting system. The conversion caused several problems within the General Ledger system for all Town funds, and as a result those funds were out of balance for the auditors requiring extensive review along with the re-running of original source documents in order to build the information back into the system.

Presently, the Town's accounting department is attempting to re-construct those records. The selectpersons instructed us to stop what we were doing until these records were re-constructed and in a condition to complete the requirements of an audit.

Very truly yours,

Giordani & Lortie, Prof. Assn.

TRUSTEES OF TRUST FUNDS

There were fifteen burials in the Durham Cemetery in 1985; eight caskets and seven cremains. In four cases the family had to purchase burial plots following the death. This is one crisis that can often be avoided. Citizens are urged to plan ahead whenever practicable so that burial plots are available when needed. However, of the six lots newly purchased this year, only two were sold on this basis. All lots sold were relatively small; one, two or three graves, and one cremains lot.

Three new trust funds for abandoned graveyards were established in 1985. The Trustees gratefully acknowledge the receipt of \$300 from Roger V. Mathes of Deerfield, N. H., for the care of the Benjamin Mathes graveyard near Mathes Cove. Mr. W. D. Pendergast of Gahanna, Ohio, deposited a check for \$100 to establish a fund for the Pendergast graveyard on the Garrison Farm in Durham. The intent is to add annually to this fund until the income is enough to provide annual care. The annual contribution of \$300 by the Durham Historical Society was used to set up a trust fund for the Samuel Chesley graveyard south of Route 108.

These new funds are greatly appreciated by those who are concerned for the preservation of Durham's historic artifacts. Without such protection, it is feared that many of the abandoned graveyards would be lost to future generations.

The limited timber harvest on the Doe Farm has been delayed due to a recent drop in the market price for chips and other wood products. All preparations are still in place however, and it is now hoped that the harvest can be accomplished in 1986.

BUDGET COMMITTEE

The development of the budget for the Town of Durham begins with the individual department heads who review their previous budgets and expenditures and project their future requirements, in some cases as much as five or ten years in advance.

The departmental budgets are submitted to the Selectmen who review them and frequently make some adjustments.

The budgets, with the Selectmen's amendments, are forwarded to the Budget Committee where a detailed review is performed, usually involving the department head. At this point, significant changes are not uncommon.

The Budget Committee has been meeting throughout the year with weekly meetings beginning in September, and bi-weekly meetings in January and February. The budget contained in this Town Report is the result of the above process.

About one-third (32%) of your tax is based on this budget. The rest of your taxes are for county government (10%) and schools (58%).

As a citizen and voter in Durham, present at the Town Meeting, you have the right to question and seek further revision or change in this budget, and to approve or disapprove the final amount.

Once the budget is approved, the Selectmen may spend the funds as they feel is appropriate with certain restrictions. Among these are that the money spent must qualify under one of the line item categories in the approved budget and that expenditures cannot exceed the total appropriated amount.

In March, 1985 the Budget Committee passed a resolution setting a goal of keeping any budget increase equal to or less than the rate of inflation. This resolution was communicated to the Selectmen, all department heads, the county, and the School Board. This was an ambitious goal in view of the growth of the Town. The Budget Committee was successful with some, but by no means all, departments.

The Budget Committee has begun to establish communications with the budget authorities of Lee and Madbury in an effort to better understand the facilities we mutually share and fund. Organizations such as the Durham Ambulance Corps, ORYA, the Dispatch Center and the regional health organizations find the differing requirements of the different towns confusing and sometimes contradictory. Our effort is aimed at reducing this concern.

The Budget Committee wishes the voters to be aware that the growth of the Town is making increasingly apparent the inadequate space available in the Town Office facilities, including the police

and public works departments. This is a significant budget issue which will affect our deliberations and your taxes in the not too distant future.

As in the past, the Budget Committee has encountered some difficulty in maintaining a full complement of members. Fortunately, we have retained some members with valuable long term experience and obtained some new members with especially important areas of expertise. By law, members of the Budget committee are not paid. We welcome volunteers and provide on-the-job training.

DURHAM BUDGET COMMITTEE

"Durham, A History 1900-1985" offered evidence of what Main Street looked like with two-way traffic in the 1960s. The book contains 194 photographs, maps, and drawings depicting the history of the town during those 85 years.

DURHAM DATA

SIZE: 25.5 square miles (2.2 of which is water surface)

POPULATION: Federal Estimate: 10,657 (Effective July 1, 1978, the Federal Population Estimate is official for all purposes and includes resident student population)

TOWN ROADS: 41.9 miles

STATE ROADS: 19 miles

SIDEWALKS: 26,489 linear feet, or 5.01 miles

Recreational Facilities

Skating Rink at Jackson's Landing
Jackson's Landing boating facilities
Cedar Point boat ramp
Tot Lot
Oyster River Park
Recreational walking route via Class VI roads, as seen in "Walking Durham"
Old Landing (both sides of bridge)
Town Shipyard boat landing
Mill Pond Scenic area
Doe Farm
Bicentennial Park at Main Street and Mill Road
Launching ramp at Adams Point

Highway Department Garage
Highway Department Garage (Sheds)
Sewage Treatment Plant and Addition
Sewage Pumping Station, Dover Road

Property Owned By The Town BUILDINGS

Solid Waste Disposal Site, Durham Point Road
New Town Office Building - 13-15 Newmarket Road
Hockey Warming Hut
Grease Handling Facility
Henry A. Davis Memorial Building

LAND

Lot #55, Woodridge Road
Schoolhouse Lane, Town Garage Lot
Old Landing Road, 400' north side, 100' south side
Mill Pond Road Park
Land Off Dame Road (approximately 30 acres)
Mill Pond Dam, north side
Police Building Lot, 40' x 50"
Tot Lot
Town Lot and land in Provost Development
Oyster River Park
Smith Chapel and two acres, Mill Pond Road
Littlehale Road Lot
Jackson Landing
Cedar Point, two shallow lots
Durham Point Road at intersection with Langley Road
Lee Pit
Well Site, four acres off U.S. Route 4 in Lee
Lot 27, Longmarsh Road - Beaver Pond Conservation Area
Conservation Land adjacent to Lot 27
Wiswall Road Dam Site
Spruce Hole Conservation Area
Doe Farm
Lot Nos. 79-83 -- Woodridge Development
Conservation Easement - Pond Area at Durham Point Road and Pinecrest Lane
Conservation Purchase: Langmaid Farm, Longmarsh Road (Class VI) area
Blackhawk Lot #4

POLICE DEPARTMENT

Once again our Police Department has experienced an increase in demands for services -- this year's activities rose nearly five (5) percent above the 1984 level. Records indicate we have now increased our overall activities to a total of one hundred and six (106) percent above 1978 figures. Conversely, manpower increases have fallen far short during this same time frame. as only one (1) position has been added to the department despite this marked increase in activities.

In an attempt to keep pace with such increases, to ensure that the quality of police services does not diminish, and to effectively and efficiently meet the demands placed upon us by the escalating growth of our community, we must begin now to take decisive steps to enhance the police department's personnel needs.

I will begin by requesting that one full-time police officer position be added this year. This addition will enable me to assign another full-time uniformed patrol officer to a five (5) day shift during peak problem hours to help deal with the noise and disturbance problems which seem to have moved into the neighborhoods since the change in the drinking age. The addition will also enable me to assign a second full-time detective to handle investigations which have experienced a comparable increase in activities. Currently. a second part-time detective splits his duties between patrol and investigations - this hinders continuity in many investigations and does not provide adequate patrol coverage.

Our parking fund achieved its projected 1985 revenue with receipts in the amount of \$30,178.90 - the parking fund money market account now totals more than \$54,000.00. The Selectmen have raised the fee for parking permits and anticipate placing the Pettee Brook Lane master meter fees more in line with other New Hampshire communities. This action should not only raise revenues. but hopefully impact the availability of parking in the metered lot.

Because we felt the "crunch" on the availability of parking since the University has stepped up its parking enforcement. I will request that a traffic control position (not a police officer) be added to the "Parking Fund" account. This person will issue parking tickets and, during the school year, fill one of the school crossing guard positions. Although not the sole solution to the parking problems of the Town, enforcement should be enhanced as currently the police officer now performing this task is called away frequently in order to respond to calls for services. Consistency in parking enforcement, a police officer's ability to respond to calls more readily, and added patrol coverage to the community are some of the benefits of the traffic control officer position - I would note that this is a self-funded account.

I hope my brief justifications have enabled you to understand the overwhelming need for these recommendations. Durham is experiencing growing pains brought about by its rapid growth - the Police Department must be granted the resources to meet this challenge!

Front Row: (L to R) Supervisor Cathy Coletti, Supervisor Alan Dennis, Sergeant Michael Golding, Chief Paul Gowen, Sergeant Joe McGann, Supervisor Phil Stetson, Supervisor Brad Loomis; Second Row: (L to R) Patrolmen Mark Taylor, Richard Donovan, John Tostenson, Secretary Marjorie Rawson, and Patrolmen Joe Whiten, Brian Scaletti, Paul McGann. Missing is Patrolman Richard Brabazon who is currently attending the N.H. Police Academy.

1985 Juvenile Report

The Juvenile Annual Report relates only to those crimes where the juvenile offender was known, apprehended, and processed.

A number of juvenile cases involved parent conferences, warnings after hearings with parents, release to the custody of parents for disciplinary action, court diversion, and juvenile or adult court. The Juvenile or Adult Court is used only after other remedies have been exhausted.

PROBATION OFFICER

In 1985 the Probation Department did not see many changes. This year, as for the past two years, a good deal of work was done assisting with a comprehensive plan for the State to take over local probation. During 1985 the Probation Officer initiated a process to check for drug usage among the people placed on probation. An agreement was entered into with the Laboratory for Chromatography in New York to do the urinalysis at a small fee. The results of such a program seem to be beneficial, so the test will continue in 1986.

During 1985 the Probation Department conducted 95 Social Investigations; 27 of which were juvenile cases. Seven of the juveniles were placed on probation. Besides conducting the investigations and supervising people on probation, a good amount of time was spent collecting monies for victims of crimes. This past year the Probation Department collected \$6,056.90 in restitution. This amount is over \$2,000 more than collected last year.

The intersection of Route 108 and Durham Point Road, where the proposed reconstruction would eliminate the "Y", has been in existence for a long time, as this photograph from the new book, "Durham, A History 1900-1985," indicates. The photo was taken before 1910.

VITAL STATISTICS

Births Registered in the Town of Durham for the Year Ending December 31, 1985

DURHAM-UNH FIRE DEPARTMENT

It is with pleasure that I submit my first annual report. Since my appointment in September, the sincerity and cooperation shown by all department personnel has provided a positive and progressive atmosphere within the department.

The year 1985 has been one of significant change for us.

In January we moved into the new fire station. All aspects of our operations have been improved as a result of our larger and more efficient facility. All apparatus is now housed inside the station, affording better preventive maintenance and shorter response times to alarms.

Greatly improved living and working areas for our shift personnel and increased office space for our staff are adding to the efficiency of our daily activities.

The Durham-UNH Professional Firefighters Association donated labor and materials to assist in several projects including the building of a storage area above our gear and equipment wash bay area in the station.

The spring season saw the busiest brush and woods fire statistics on record in the last fifty years. These responses were largely manpower intensive and represented a substantial time commitment by our off-duty and call company personnel.

Our call company members participated in an apparatus driver/operator qualification program throughout the spring and summer, including a defensive driving course. Our two call companies presently represent a total of 19 personnel who are available to assist our 16 full time career firefighters during major incidents, station coverages, special events and activities.

Fire Prevention:

Fire prevention activities, coordinated by Captain William Cote, included a Fire Department open house during Fire Prevention Week and the re-establishment of an in-service fire safety inspection program which is conducted by on-duty shift personnel.

The bureau has been extremely busy this year with public education programs, building and renovation plan reviews, fire investigations and inspection activities.

The chimney and woodstove inspection program continues to be a widely requested service that we provide to all residents who request it.

Training:

Training has been a major activity of all personnel throughout the year. Our training officer, Lieutenant John Rines, who is also a shift commander, coordinates monthly activity schedules for both classroom and practical training for all firefighting personnel. All of our career firefighters maintain State of New Hampshire certification through the New Hampshire State Fire Service Training Division. They also maintain certification as Emergency Medical Technicians, as our department does respond to serious medical emergencies in cooperation with the Durham Ambulance Corps.

Maintenance:

Our maintenance officer, Lieutenant Russell Bassett, oversees our apparatus and equipment repairs in addition to his responsibilities as a shift commander. This year a new preventive maintenance program for all apparatus has been established through the UNH Service Garage. My sincere appreciation is extended to Mr. Harold Knowles and his staff of mechanics who have worked diligently to keep our apparatus in a constant state of readiness.

Our 1974 Chevrolet Pickup (Utility 2) was retired this year and replaced with a 1985 Chevrolet pickup.

In September we accepted delivery on the long-awaited tanker/pumper. This apparatus (Engine 3) replaced our aging tractor trailer tanker. The addition of this apparatus greatly enhances our capability to provide a rapid and aggressive attack on fires.

Our 1965 Mack pumper (Engine 4) has undergone rust repairs on the hose body and compartments. This repair work will extend its life expectancy an additional five years.

In September, Deputy Fire Chief Roland LaRoche retired from the department after 21-1/2 years of service. Upon completion of a competitive exam process, the Board of Fire Commissioners appointed Deputy Fire Chief Mark Dellner, previously with the Dover, N. H. Fire Department. Deputy Chief Dellner serves as the department's operations officer, coordinating all aspects of personnel scheduling, shift activities and gear and equipment issues.

The following is a summary of the response statistics for 1985:

1,307 emergency responses
- 250 service call responses
1,557 total responses

The Town of Durham and University of New Hampshire have invested substantially in equipment and facilities in an effort to improve the quality of our fire protection, which hinges on the abilities of our firefighting personnel.

We are indeed fortunate to have a very capable and dedicated firefighting force who, together with the positive support of all cooperating agencies, strive to provide the highest level of fire protection that is possible. We look forward to constantly improving these services and meeting new challenges in the year ahead.

Respectfully submitted,

Robert P. Wood,
Chief of Department

Robert P. Wood, Chief, Durham-UNH Fire Department

Mark A. Dellner, Deputy Chief
Durham-UNH Fire Department

1986 TOWN WARRANT
TWO HUNDRED AND FIFTY-FIFTH MEETING

To the inhabitants of the Town of Durham, County of Strafford, State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at the Oyster River cooperative High School Cafeteria, Durham, New Hampshire, on Tuesday, the eleventh day of March, 1986, A.D., at 8:00 A.M. (E.S.T.) to act on the following ballot articles:

1, 2, 3 and 4.

As provided by law, there can be no discussion on these articles prior to balloting.

Absentee ballots will be processed beginning at 11:00 A.M.

POLLS WILL CLOSE AND ACTION BY BALLOTING on the articles referred to above and listed below will cease at 7:00 P.M. The ballots will then be counted and the results announced.

Further, in compliance with action approved by the Town Meeting on March 7, 1972 (Article 2), you are hereby notified to meet at the Oyster River Cooperative High School Gymnasium at 7:00 P.M. on Wednesday, March 12, 1986 to act on all other articles in this warrant.

ARTICLE 1. (VOTE BY BALLOT) To choose one (1) Selectman for a term of three (3) years; one (1) Trustee of the Trust Funds for three (3) years; four (4) Budget Committee members for three (3) years; two (2) Budget Committee members for two (2) years; one (1) Moderator for two (2) years; one (1) Supervisor of the Checklist for six (6) years, and all other elective officers for the ensuing year.

ARTICLE 2. (VOTE BY BALLOT) To see if the Town will vote to establish a Charter Commission for the purpose of creating a municipal charter.

The Charter Commission shall consist of nine (9) members; three (3) of whom shall be appointed by the municipal officers and six (6) of whom shall be elected voters of the municipality.

ARTICLE 3. (VOTE BY BALLOT) Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town of Durham Zoning Ordinance as follows:

1. Amend the first entry on the table on page 1-3 (Section 1.40) to read "Single Detached Dwelling⁴," rather than "Single Family" as it reads now.

Add a footnote #4 to "duplex and townhouse."

Add footnote #4: "No more than three unrelated adults may occupy a household in an RA, RB or RC zone."

2. Amend the same table on page 1-3 by adding footnote #5 after "Accessory Boarding House" and "Accessory Rooming House."

Add footnote #5: "No more than two adults not related to the proprietor may be occupants of an accessory boarding house or accessory rooming house in the RA, RB or RC zone."

3. Rewrite "m" on page 1-5 to read, "Accessory rooming or boarding house means rooming, boarding or apartment as a use accessory to a single detached dwelling.

4. On page 1-5 under definition of "family", eliminate title "Family" so that the title is now "Household." Amend under "Household" (a) "Family" by deleting the words "or lodgers or roomers."

5. On page 4-3 (g) eliminate "and that such use is restricted to not more than three unrelated adults per building."

6. Amend table 4-28 (a) to read "single detached dwelling" rather than "single household."

7. On page 6-2, amend 6.42 a. after the colon by adding the words "one space for each unrelated adult occupying said premises (if permitted by the occupancy limits of Section 1.40)."

8. On Page 10-1, in Section 10.14, add to the definition of the building inspector's duties "issuance of certificates of occupancy" to be inserted after "heating systems" in the first sentence.

In Section 10.14, in the seventh sentence, add the words "or changed in use" after the word "demolished."

9. On page 10-3, in Section 10.21, add after the words "operation of the building" the words "or change the use of the building" in the first sentence. Also add a sentence which should read "If a changed use would have required site plan approval if it were to be built for the first time, site plan approval shall be required for the change."

10. Add to Section 10.22 after the words "non-residential use" the words "and any residential use other than single and two-family dwellings."
11. On page 4-11, amend Section 4.29 (a) by adding: "a change from a family to unrelated household is a change in use requiring an occupancy permit."

The purpose of this ordinance is to limit the number of unrelated adults living in dwelling units located in the RA, RB or RC Zoning Districts in the Town of Durham.

ARTICLE 4. (VOTE BY BALLOT) Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town of Durham Zoning Ordinance as follows:

Revise Table 12.51 -- Density, Dwelling Type and Lot Area Per Dwelling Unit; Section 12 of Article 12, Cluster Development of the Durham Zoning Ordinance by adding a footnote #6 next to "single dwelling in the R Zone and the RC Zone," which changes the developable area to 120,000 square feet instead of 80,000 square feet and the minimum lot size of the dwelling unit to 80,000 square feet instead of 40,000 square feet when a septic system services more than 1 home.

The purpose of this ordinance is to revise the Cluster Development Ordinance in the R and RC Zoning Districts by increasing the required developable area and minimum lot size requirements.

THE PRECEDING CONCLUDES THE OFFICIAL BALLOT ARTICLES

ARTICLE 5. To see if the Town will vote to raise and appropriate the sum of Ninety-Six Thousand, Five Hundred Eighty-Five Dollars (\$96,585) for the purpose of funding capital equipment for the Dispatch Center during the calendar year 1986. Such sum to be raised through the issuance of bonds or notes under and in compliance with the Municipal Finance Act (N.H. RSA 33:1 et seq., as amended) and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rates of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Durham.

(Ballot after discussion.)
(Two-thirds majority vote required to pass.)
(Two-thirds of the issue and costs to be paid by the University of New Hampshire.)
(Without recommendation of the Budget Committee.)

ARTICLE 6. To see if the Town will vote to raise and appropriate the sum of Thirty Thousand Dollars (\$30,000) for Capital Reserve to be used for the purpose of a Town-wide re-evaluation of all assessable properties during calendar years 1987 and 1988.
(Recommended by the Budget Committee.)

ARTICLE 7. To see if the Town will authorize the Selectmen to enter into a lease/purchase agreement for a Grader, the period for such lease/purchase agreement not to exceed five yers. Said agreement will include a buy-out clause and a guarantee to the Town of Durham of ownership of the equipment at the end of the lease agreement. The first year payment and subsequent annual payments shall not exceed Twenty-Three Thousand Dollars (\$23,000). (Recommended by the Budget Committee.)

ARTICLE 8. To see if the Town will vote to authorize the Selectmen to borrow Nine Thousand Dollars (\$9,000) for the purchase of a copier (this Article to regularize action taken in the fall of 1985.) (Recommended by the Budget Committee.)

ARTICLE 9. To see if the Town will authorize the Selectmen to receive and deposit in the Federal Revenue Sharing Fund, Federal Revenues allocated to the Town by the Federal Government under provisions of the 1972 Acts of Congress, as amended, establishing the State and Local Assistance Act, and to authorize withdrawal from this fund for budgeted appropriations (see Budget) in the approximate amounts and for the purposes listed as follows:

1986 ANTICIPATED AVAILABLE FUNDS: \$94,939.00

<u>ITEM</u>	<u>Budget</u> <u>1/1/86 - 12/31/86</u>
Town Beautification	8,139.00
Police Cruiser	11,366.00
Newmarket Health Center	2,100.00
Squamscott Home Health Agency	8,778.00
Library	28,710.00
Welfare	5,000.00
General Assistance	4,500.00
Public Works Salaries	13,016.00
Durham Ambulance Corps	<u>13,330.00</u>
TOTAL PROPOSED REVENUE SHARING:	\$ 94,939.00

ARTICLE 10. To see if the Town will vote to raise and appropriate the sum of Four Hundred Forty-Three Thousand, Eight Hundred and Eighty-Eight Dollars (\$443,888) to defray its share of the cost of Strafford County Government.

ARTICLE 11. To see if the Town will vote to adopt the budget for the period January 1, 1986 - December 31, 1986, as submitted by the Budget Committee in the amount of Three Million, Seven Hundred Sixty-Six Thousand, Five Hundred Seventy-Three Dollars and thirty-three cents (\$3,766,573.33), and to raise by taxes the sum of One Million Four Hundred Fifty-Five Thousand, Eight Hundred Sixty-Seven Dollars and seventy-seven cents (\$1,455,867.77) for the purposes thereof. (See Budget Detail.)

ARTICLE 12. To see if the Town will vote to implement the provisions of RSA 261:157-a to adopt an ordinance waiving the motor vehicle registration fee for former prisoners of war. This ordinance to waive the fee to be charged for a permit to register one (1) motor vehicle owned by any person who was captured and incarcerated for thirty (30) days or more while serving in a qualifying war or armed conflict as defined in RSA 72:38, IV, and who was honorably discharged, provided the person has provided the Town Clerk with satisfactory proof of these circumstances. This ordinance to become effective upon adoption.

ARTICLE 13. To see if the Town will vote to authorize the Selectmen to deed a parcel of land 14' x 165' along Ballard Street to Jesse P. Gangwer in exchange for a parcel of land 150' x 150' and the use of a 30' right-of-way, said parcel of land located on Beech Hill Road in Durham and owned by Jesse P. Gangwer.

ARTICLE 14. To see if the Town will vote to authorize the Selectmen to complete the exchange of deeds as shown on the plan "The Town of Durham 1969 T.R.A. Construction, Durham Point Road." Land owned in 1969 by Bradford M. & Jane T. Kingman, Herman Gadon, Francis & Elizabeth Robinson, Evelyn Browne, Kenneth & Deborah Moore and Norman & Marion Stiles.

ARTICLE 15. To see if the Town will vote to authorize the Selectmen to adopt welfare guidelines in accordance with RSA 165:1 which requires that the Town adopt guidelines by April 1, 1986.

ARTICLE 16. To see if the Town will authorize the Selectmen to apply for, negotiate, and do all other things necessary to obtain such Federal, State or other assistance as may be available for public works or other municipal functions, and to expend such funds for those projects. (Two-thirds majority vote required to pass.)

ARTICLE 17. To see if the Town will vote to authorize the Selectmen, under authority of R.S.A. 80:42, to sell and transfer the tax lien and/or the title to real estate acquired by the Town at a tax collector's sale for non-payment of taxes, in default of redemption for such tax sale within the time limited by law, by deed or otherwise upon such terms as the Selectmen shall deem to be in the best interests of the Town.

ARTICLE 18. To see if the Town will vote to authorize the Selectmen to borrow necessary money in anticipation of taxes by issuing short-term notes.

ARTICLE 19. To transact any other business that may legally come before this meeting.

Given under our hand and seal this 24th day of February in the year of our Lord One Thousand Nine Hundred and Eighty-Six.

Concord, 03301

Everett U. Taylor
Commissioner

Arthur G. Danie
Assistant Commissioner

February 13, 1986

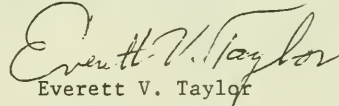

Ms. Margaret J. Faulk, Chm.
Durham Budget Committee
13-15 Newmarket Rd.
Durham, NH 03824-2898

Dear Ms. Faulk:

This letter is to advise you that this Department will accept the town of Durham's MS-7 for 1986 showing only the 1986 budget figures. This applies to 1986 only.

We understand your concern with the 1984 and 1985 figures and sincerely hope that Durham can bring it's record keeping under control in the near future.

Very truly yours,

Everett V. Taylor
Commissioner

EVT:ARG:cq

REPORT OF TOWN FOREST FIRE WARDEN & STATE FOREST RANGER

Between July 1984 and June 1985, we experienced more forest fires throughout our state than in any year in the last fifty. Two of the leading causes of the 1-605 fires were children and fires kindled without written permission of the Forest Fire Warden. These are preventable, but only with your help.

Please help our Town and State forest fire officials with forest fire protection. Contact your Forest Fire Warden for more information.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden.

If you own forest land, you will become responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. contact your Board of Selectmen for timber tax forms.

FOREST FIRE STATISTICS - 1985

Number of fires state-wide	1,605
Acres Burned state-wide	1,580
Cost of suppression	\$246,017.00
District fires	254
District acres burned	110
Town fires	33
Town acres burned	25

Respectfully submitted,

Alfred E. Grimes, Forest Ranger
Robert P. Wood, Forest Fire Warden

Susan Beaulieu, Administrative Assistant,
Durham-UNH Fire Department

BOARD OF FIRE COMMISSIONERS

The year 1985 was a very busy and successful year for both the Fire Department and the Board of Fire Commissioners. Many positive changes occurred which we hope are an indication of the Department's future.

Early in the year the move into the new fire station was successfully completed, followed later in the fall with the paving and striping of the station yard.

Our long-awaited tanker/pumper unit arrived in early September. This piece of apparatus will prove to be essential to firefighting operations, especially in those areas of Town outside the hydrant district.

September also brought the retirement of Deputy Chief Roland Laroche after 21-1/2 years of service with the Durha-UNH Fire Department. At the time of his retirement Chief LaRoche was serving as Acting Fire Chief due to the recent resignation of Chief Raymond Dewhurst.

Acting Deputy Fire Chief Robert Wood was appointed Fire Chief in September. Chief Wood has been with our Department for 12 years, having started as a firefighter and working up through the ranks, thus bringing a great deal of stability and local knowledge to the position. Lt. Mark Dellner of the Dover Fire Department received the appointment of Deputy Fire Chief with our Department in November. These two fine men should provide the Durham-UNH Fire Department with dynamic and superior leadership.

The year of 1985 was one of moving up, out and forward for the Fire Department, and the Board of Fire Commissioners anticipates much of the same for 1986.

BOARD OF FIRE COMMISSSTONERS
Durham-UNH Fire Department

Engine 3, 1985 Mack 3,000 gallon tanker-pumper

PUBLIC WORKS ADVISORY COMMITTEE

This long established Committee serves in an advisory capacity to the Board of Selectmen and the Director of Public Works for plans for annual operations, long-range goals, capital equipment planning and purchases and specific Public Works and allied issues.

During the 1985 year the Committee performed its normal functions in the following basic areas:

- A. Review of the accomplishments of the 1985 budget and works program for the highway operation of the Public Works Department.
- B. Development of the 1986 budget and work program for the highway operations of the Public Works Department.
- C. Capital equipment planning and purchases.
- D. Preliminary discussion with the Public Works Director regarding long-range goals and specific Public Works issues and priorities.
- E. Review of budgetary constraints and their impact on the operation and efficiency of the Public Works Department.
- F. Review and analysis of specific bid quotations as assigned by the Board of Selectmen.
- G. In company with the Director of Public Works, members of the Committee viewed the network of Town roads, streets and sidewalks, including current Highway Department projects.

The Committee is impressed with the management of the Public Works Department and the dedication and professionalism of its Director, staff and employees.

PUBLIC WORKS ADVISORY COMMITTEE

HEALTH OFFICER

It is with some sense of relief, and also with a bit of nostalgia, that I submit this last annual report as I terminate my appointment as Health Officer of the Town after fifty years of continuous service in this part-time position. Over these years, I have had the opportunity to become closely associated with members of the New Hampshire Department of Health, the Division of Public Health Services and the Water Supply Pollution Control Commission which has helped in resolving health and sanitation problems in our community. I also became involved in establishing the New Hampshire Health Officers Association and served as its first president. It took many years to activate this Association, which currently is providing a valuable professional service for health officers of our New Hampshire towns.

The major activities of the Durham Health Officer during 1985 included the approval of 25 permits for septic tank systems for new homes not serviced by the Durham sewerage system, and action to correct several improperly functioning systems. Sanitary inspections of restaurants and food stores were continued, foster homes and day care centers were inspected, a number of sanitation and nuisance complaints were resolved, and Certificates of Vaccination for Foreign Travel certified.

I participated in meetings of the Executive Committee of the N. H. Health Officers Association and in the spring and fall meetings of that Association. I was pleased and greatly appreciate receiving plaques recognizing my fifty years service as Health Officer from the Selectmen at the Town meeting and from the N. H. Health Officers Association at the time of its last meeting.

With best wishes to all Durham residents and to the new Town Health Officer.

Lawrence W. Slanetz
Health Officer (1935-1985)

When the hurricane along the Eastern seaboard hit Durham and caused considerable damage in downed trees and power lines, the Durham Chapter of the American Red Cross set up an excavation shelter in the UNH Field House. Norman Chandler, Calvin Hosmer, Dr. Kevin Dugas, and a UNH ROTC student manned a food table for residents who were without cooking facilities.

DISPATCH CENTER — 1985 REPORT

During calendar 1985, the Dispatch Center experienced many exciting challenges and significant improvements. The following narrative report reflects the activities and efforts of the dedicated men and women working in the dispatch Center.

The current Dispatch Center (Center), an outgrowth of days gone by, has evolved from a primitive system, whereby UNH telephone operators located in Thompson Hall alerted the Durham Police of an emergency call by displaying a "blue" light on the exterior of the building, to a modern communications facility involving highly trained full time Communications Specialists in the areas of emergency operations and community services.

Communications Center Advisory Committee:

Following the 1984 Sachs/Freeman Associates, Inc., Management Study of the Center, the Joint Town/University Advisory Committee established a Communications Center Advisory Committee to oversee and recommend capital and operational programs and improvements. The 1986 budget request represents partial improvements of both the Center's personnel staffing level and much needed equipment and is consistent with the recommendations of the Management Study and Advisory Committee.

Staffing:

The Center operates twenty-four (24) hours per day with a staff of five (5) full time Dispatchers and a Coordinator. Following Coordinator Rosemary Raynes' resignation last year, Mrs. Grace Fuller was hired as the new Coordinator. Mrs. Raynes performed several years of loyal and dedicated service to the Center's operations and we wish to take this opportunity to offer our sincere thanks and appreciation to Rosemary for her many contributions.

Facilities:

The current Center, located on the ground floor of the UNH Service Building, lacks several important operational and space features. Based upon the recommended improvements contained in the Center's Management Study and the seriousness of these deficiencies, UNH has, at their expense, incorporated space for a Dispatch Center in the University's new Telecommunications Building. The new dispatch Center facility is scheduled for occupancy by early summer.

Equipment:

The major equipment added to the Center's operations this past year was the State Police On-Line Telecommunications system (S.P.O.T.S.). The SPOTS hardware and associated annual maintenance

and lease charges were provided by the UNH Public Safety Department. This new automated system provides immediate access to motor vehicle and criminal history information. The SPOTS program has been extremely useful to the Dispatchers and the Law Enforcement Agencies in the Towns of Durham, Lee, Madbury and the University of New Hampshire.

Activities:

Calendar year 1985 emergency dispatching activities are represented by the following statistics:

<u>Agencies Served</u>	<u>Response or Service Calls</u>
Durham Police Department	6,146
Durham Ambulance Corps	625
Durham/UNH Fire Department	1,531
Lee Fire Department	101
Lee Police Department	2,004
Madbury Fire Department	66
Madbury Police Department	326
Madbury Fast Squad	45
Barrington Fire Department	152
Newington Ambulance	193
Newington Fire Department	212
UNH Public Safety Department	<u>5,401</u>
	16,802

Summary:

On behalf of all of the Dispatch Center staff, permit me to extend a note of sincere thanks and appreciation to all Town Offices, Departments, Officials and Durham residents for their patience, understanding and support during this past year.

For the Dispatch Center,

David A. Flanders, Director
Department of Public Safety
University of New Hampshire

HIGHWAY DEPARTMENT

During 1985, the Durham Highway Department completed a variety of projects throughout the community. Many of the projects depend on the seasons of the year. January includes snow and ice control, tree removal and equipment maintenance. April through May, the Department performs general town clean up. Beginning in June to the middle of November is our construction season and December starts our winter season program.

Throughout the year the Department performs ongoing tasks which include dog control, traffic signs, maintenance to the Durham town lighting system, refuse collection, operation of the Durham Point Disposal Area, providing fuel facilities for the police, fire department, school and ambulance, street damage and other activities as requested by the Board of Selectmen and Town Committees.

During our construction season the Department completed several projects as outlined below.

Durham Point Road at Paige's Corner. This project was the first year of a two year program. During the spring, after a Scenic Roads Public Hearing held by the Planning Board, the Department proceeded with striping, stock piling of top soil, and installation of new drainage pipe for the relocation of the curve at Paige's Corner. The object of the relocation of the curve was to increase the site distance. Material from the Mill Road excavation was hauled to the site to be used for the sub-base material. During 1986 we plan to finish the project by completing the final grading, paving and landscaping of the project.

Reconstruction of the sidewalk on Dennison Road from Woodman Road to Garrison Road and along Garrison Road to Madbury Road. This construction entailed removal of the existing bituminous curbing and the installation of a new six foot wide sidewalk with a one inch bituminous overlay on Dennison and Garrison Road.

Construction of a new sidewalk along Bagdad Road from the area of the new Canney Farm Subdivision to the intersection of Bagdad and Canney Road. This involved widening of the road, installation of catch basins and under drainage, relocation of existing stone walls, removal of trees, and the installation of new slope granite curbing, a new six foot sidewalk and a one inch overlay of the street.

The next project was our paving program, in which we resurfaced approximately 7 1/2 miles of town roads.

Other minor projects which were performed in the fall were the installation of guard rails on Packers Falls Road, Bennett Road, Edgewood Road Extension, and the completion of the Mill Pond Road sidewalk with final landscaping to be completed this spring. In

October Hurricane Gloria passed through our area causing slight damage with brush and tree removal following. Also during 1985 Mill Road was reconstructed from the vicinity of Main Street to McDaniel Drive. This included the installation of drainage, new curbing, sidewalks, installation of new street lights and complete excavation and replacement of the road bed. The project will be completed during 1986 with the remaining portion of the road from McDaniel Drive to the Oyster River being completed.

In 1985 the Department took delivery on a new paint striping machine to be used for our traffic control and crosswalk painting, a new dump truck with plowing equipment, along with two new pick-up trucks and a new car. The continued effort and support of the community to replace vehicles and equipment on a programmed basis has helped us in providing service to the community in an efficient and productive manner and has helped to keep the maintenance cost of the town's fleet stable.

On behalf of the Public Works Department we wish to thank the community, and particularly the people who live and commute in the area of our projects, for working with us and for your patience.

Respectfully Submitted,
David G. Walker,
Public Works Director

NEW WELL HOUSE IN LEE UNDER CONSTRUCTION

WATER POLICY COMMITTEE

The Durham/UNH Water Policy Committee met on several occasions during 1985 to discuss issues concerning the ongoing operation and development of the Town/University water supply. In 1983 it was reported to the Town that several complaints had been received regarding the quality of water in the Town/University system. After review of this issue by the Committee, the University of New Hampshire, owner of the water treatment facility, initiated a study by the engineering firm of Dufrense Henry to evaluate existing water facilities. The report identified that the water treatment plant was being operated near or over capacity on many occasions during the year, which was related to water quality. The report concluded that a significant upgrade in the facility would have to be completed within the next few years.

At the present time the University owns the water treatment plant, a portion of the mains and meters and a standpipe. The Town owns the distribution system, a standpipe, the Lee well, and upon completion of the ongoing Urban Development Action Grant funded project, will own an additional standpipe, a booster station and allied infrastructure tied into the existing water system.

The Joint Committee, in discussing present and future problems of the system, concluded that it should investigate the feasibility of continuing as we are, of combining the systems and having it run by the Town, the University or a legal entity such as a private utility. In order to determine the potential of these options, it was agreed that we must study the two systems to look at efficiency of skills, elimination of duplication, potential for capital cuts or upgrading, long-term programs, i.e., finances, economic impact of such a system, future expansion, etc.

The 1985 Town Meeting approved a budget request in the amount of \$20,000 for a Water System Management Study (cost of the study to be shared fifty/fifty by the Town and University). Subsequently, the Water Policy Committee, after researching consultants, engaged the firm of Main Hurdman, Boston, Mass., to conduct an organization and management study that will give the Committee a greater insight into existing facilities and the type of organization needed to manage effectively in the future. It is expected that Main Hurdman will have a draft report for the Water Policy Committee some time in February, 1986.

Construction work on the UDAG funded infrastructure, booster station and standpipe will be 80%-90% completed as of January 30, 1986.

WATER POLICY COMMITTEE

1975 WATER TOWER CONSTRUCTION BOND ISSUE

Original Issue \$515,000.00, April 1, 1975.
 Payable in 20 Years.

NEW 600,000 GALLON WATER TANK UNDER CONSTRUCTION

SEWER POLICY COMMITTEE

The Sewer Policy Committee met only to review specific problems. There is concern over the proposed residential development of the land immediately down river from the Wastewater Treatment plant. This poses problems with quality of life in the development and the operation of the plant.

Recent newspaper articles about pollution of the river citing the Durham plant are inaccurate. The discharged effluent is well within the acceptable limits established by the State and the Environmental Protection Agency.

The Davis Avenue sewer line is in need of rehabilitation. It has become decrepit and is difficult to TV due to breaks and curves. The decision to proceed with its reconstruction was deferred until the details of the financing could be better defined.

Balance payable from Town funds January 1, 1974 \$250,275.96

*State was one year late in starting its payment on grant. Credit to General Funds.

¹This bond issue covered six different contracts for improving and extending the sewer system. The University shared in the cost of the construction contracts which benefited the University. See agreements for payment and operation in official Town files.

²From schedule on file from State agency.

³UNH is billed annually for its share by the Town.

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to report that the incinerator/energy recovery plant located on the University of New Hampshire campus is operating on a continuous twenty-four hour, seven day a week schedule.

The day-to-day operation is carried out under the supervision of the Cooperative's Administrator, under the general supervisory control of the three member Operations Committee from the Joint Board of Directors. The plant personnel, in addition to the administrator, includes two mechanics, a truck driver. two daily shifts of 12 hours each involving 8 persons, plus daily clean-up crew and the secretary. This organization operates the incinerator system, maintains records and coordinates with the University's power plant staff to monitor the boiler and steam production elements of the plant. The Cooperative's organization also handles the collection of refuse from the transfer stations of five communities and handles the ash removal and its transfer to the landfill site.

During 1985 the Cooperative purchased a new Mack chassis with roll-on capability to handle the ash containers and the canisters from the five communities with transfer stations.

The decline in the price of oil during the past year was of course welcomed by home owners and business operators. However, the price drop significantly reduced the income of the cooperative for the sale of steam to the University, as the revenue from steam is controlled by the price of fuel oil. Some unexpected maintenance items, coupled with the plant being shut down for two weeks during which the University had the area between the plant and the recently relocated fire station regraded and paved, also reduced the Cooperative's revenue from the sale of steam.

The rubbish from member communities increased by 9.375% in 1985 over that of 1984.

A major problem to be resolved during 1986 will be to locate an approved site for ash disposal. The regulatory agencies have rather arbitrarily taken the position that the ash must be disposed of within a secure landfill.

Joint Board of Directors
Lamprey Regional Solid Waste
Cooperative
/s/ Rance G. Collins, Chairman

PLANNING BOARD

During 1985 the Planning Board dealt with a variety of applications ranging from a fifteen lot subdivision off Bennett Road to minor boundary lot adjustments and business additions in the downtown area.

The Board is preparing changes to the present Subdivision Regulations to include a landscaping ordinance for commercial development and large residential developments. The update of the Subdivision Regulations is anticipated to take place during the spring of 1986.

During 1985 the Planning Board met with several citizens and citizen groups concerning the conversion of single family homes to rental property. The result is a Zoning Ordinance change proposed by the Planning Board after being brought forth by a group of concerned citizens. This change will limit the maximum number of unrelated people in single family homes. The Planning Board held a public hearing on the proposed changes early in January. The Planning Board was very pleased with this turn out. The purpose of the public hearing was to obtain public input for the proposed changes. The Planning Board would like to thank the people who attended.

The regular Planning Board meetings are held on the first and third Wednesday of each month in the Selectmen's Meeting Room at the Durham Town Office. The public is welcome at any meetings to express their concerns to the Board members.

Respectfully Submitted,
Durham Planning Board
Bruce Bragdon - Chairman

DATA GENERAL FACILITY UNDER CONSTRUCTION

BUILDING INSPECTOR/CODE ENFORCEMENT OFFICER

It is a great pleasure to introduce myself as the Code Enforcement Officer of the Town of Durham.

Over the past six months I have become familiar with the issues and concerns of town residents. One issue in particular is the Limited Occupancy Ordinance enacted by the Board of Selectmen in 1979. The purpose of this ordinance is to limit the number of unrelated persons in a dwelling thereby maintaining the integrity and character of a single family neighborhood. Twice each year a tenant listing form is sent to owners of known rental units. This year a follow-up scheduled inspection will be conducted to confirm that the number of occupants on the listing is in compliance with this Ordinance.

A total of 124 building permits were approved this year. Although compared to 1984 nine fewer building permits were issued, the estimated valuation has increased by approximately 45%. This increase is due primarily to a 35% increase over 1984 in new residential construction.

The Data General building permit has been issued for site work, foundation, and structural steel. With construction well underway, occupancy is expected for sometime late spring, early summer of 1986.

Respectfully Submitted,
Thomas L. Perry
Building Inspector/
Code Enforcement Officer

HISTORIC DISTRICT COMMISSION

Applications for approval of changes in historic properties during the year were few and had to do primarily with minor changes. The Commission rather concerned itself with two issues affecting the character of the Historic District.

One was the application before the Planning Board for approval of a business occupying a residence in the district. The Zoning Ordinance permits such use within the Historic District. However, the Commission asked the Planning Board for an interpretation of the Historic District zoning ordinance which requires the Commission to "consider" the appropriateness of proposed features where such features are subject to public view."

It was the feeling of the Commission that a business occupying a residence was "an intrusion on the historic character of a residential area."

The Planning Board approved the application, but the concern remains. Should the Historic District Commission have the authority to determine appropriateness in the use of property within the district?

The other issue was the proposal of the State Highway Department to reconstruct route 108 from the Oyster River bridge to Bennett Road. The bridge itself is due to be replaced. The bridge and the section of the road as far as Laurel Lane are within the Historic District. Many of the most historic properties in Durham are located in this area.

The Commission and many residents of Route 108 expressed their concerns at public hearings and before the Board of Selectmen that the widened road and loss of shade trees and stone walls would drastically change the character of the district. (At a final public hearing before three executive councilors January 7, 1986, an overwhelming majority of speakers opposed the project. The decision of the councilors will not be known until sometime in February.)

The Commission chairman was elected chairman of the New Hampshire Association of Historic District Commissions and he also was elected to the board of directors of Inherit New Hampshire, a new statewide preservation organization.

Membership on the Commission remained the same during the year with the exception of Mary Campbell who was appointed as the Selectmen's representative in March. She succeeded James C. Chamberlin who served on the Commission since it was created in 1974 and had previously served on the study commission which proposed the zoning ordinance creating the Historic District. His concern for historic preservation served the Commission well.

Commission members are Chairman L. Franklin Heald, Maryanna Hatch, Marie Polk, Lewis Roberts, Nancy Sandberg, and Richard Hardy representing the Planning Board.

HISTORIC DISTRICT COMMISSON

Archeologists from the state Historic Preservation Office conducted extensive "digs" along the proposed route of the reconstruction of Route 108 and the replacement of the Oyster River bridge, which shows in the background.

CONSERVATION COMMISSION

The Conservation Commission, once again, has had a very busy year. Much of the Commission's time was spent in reevaluating our long range plans; for example, how may we obtain the necessary land to establish the Conservation Corridor envisioned in the Comprehensive Plan of 1969 and the amended plan. The land owners we have talked with are receptive to the Commission goals.

One area of concern addressed by the Commission this year is the proposed Hydro-Electric Project in Newmarket, N. H. The license application seeks approval to place three foot splashboards on top of the existing dam. The resulting increase in river height would have serious detrimental effect upon river front property located in Durham as well as upon the state road connecting the towns of Durham and Newmarket. The Board of Selectmen are undertaking appropriate measures to make known these concerns to all appropriate agencies.

The Commission utilized the aid and expertise of Chris Sterndale, members of Boy Scout Troup 154, and their Scoutmaster, Richard Libby this year. This able group of boys has been active in establishing a walking trail on the town property from an area near Durham Point Road out through the Langmaid Farm.

Martha Kennedy, a UNH student, offered her services to the Commission this Spring, and produced a comprehensive study of the location of the residences relative to the shore line. The purpose of this study is to aid the Commission and the Planning Board in the event the Shoreline Conservation Zone of 1975 is amended to conform with similar ordinances passed by other towns surrounding Great and Little Bays.

Several dredge and fill applications have been acted upon by the Commission. The Commission is actively engaged in a number of other projects related to the management of the Town owned property and of protecting the quality of our environment to the benefit of the Town and all of its citizens.

DURHAM CONSERVATION COMMISSION

PARKS AND RECREATION

During the past summer the Parks & Recreation Committee toured the facilities to see what areas needed improvements.

Old Landing Road Park is a popular area for sunbathing and boating. The park has a dock and a dinghy for people to use in order to reach their boats. The Town owns property across the river from the Old Landing Road Park which is being considered for a shell theater.

The Town also maintains a park area along Mill Pond. Silt is constantly being deposited into the Mill Pond by the Oyster River and College Brook. It would take an expensive dredging operation to clean it.

Along the Oyster River is a park which gets little use. Perhaps in the future it could become an athletic field or more of a recreational area.

The Father Lawless Recreation Area at Fogg Lane consists of two soccer fields, two baseball diamonds, tennis courts, backboards and a tot area. We acquired a Toro Groundmaster for more efficient mowing of the area. An addition to the ballfield shed was constructed which doubled our storage capacity for maintenance and athletic equipment. Turf-destroying Japanese Beetle grubs were discovered by UNH Entomologist, Stanley Swier. Coring samples were taken and an insecticide will be applied in the spring to insure that the high-quality turf will be maintained.

During the summer the dock at Jackson's Landing was rebuilt with new pilings and decks. The University of New Hampshire built an addition to its boathouse and added a modular dock system to the Town dock.

We are hoping to have the skating rink paved so that it can be used year-round for soccer, street hockey and basketball. It would also provide for easier maintenance of the ice surface for skating. Additional lights will be placed so the dark areas are illuminated for night skating.

The Town owns a piece of land at the intersection of Packers Falls Road and Bennett Road. Swimming and kayaking are popular there.

The Town forest, also known as the Doe Farm Recreation Area, is 84 acres in size and is popular with hikers and cross-country skiers. It is located between Bennett Road and the Lamprey River.

The beautification program in the downtown area has been enhanced by the installation of an underground irrigation system. Some of the trees along Main Street are in a severe state of decline and will have to be replaced. The plantings at Ballard Park by the Tin Palace have really filled in well and will be thinned out in the spring.

The Parks and Recreation Committee is always willing to consider recommendations and welcomes citizen participation at its Board meetings.

TREE WARDEN

It is my pleasure to introduce myself as the new Tree Warden for the Town of Durham. I am very happy to be working for a community which takes pride in the management of our urban forest. I'm looking forward to maintaining the high standards that the town has come to expect.

During 1985, we removed over 100 dead and decaying trees which were potential hazards to utility wires and traffic along town roads. We also continued our program of planting new trees in strategic locations around the community.

The town forest, which is known as the Doe Farm Recreation Area, has been marked for a timber harvest and we are currently soliciting bids for a logging company to do the job. It will be a selection thinning that will provide for a new generation of trees in the understory as well as improve upon its recreational aspects such as cross-country skiing and hiking.

The Planning Board is working to adopt a Landscape Ordinance by early spring so that the environmental impact created by any commercial development will be mitigated by the planting of trees and shrubs to act as buffers.

The Town has once again received the designation as a Tree City, USA for the seventh consecutive year. This award reflects the Town's concern for our environment.

I am ready to assist anyone who has questions about individual trees, forestry practices, or any part of our work program. Feel free to contact me at the Town Office anytime.

Respectfully submitted,
Michael C. Leonard,
Tree Warden

OYSTER RIVER HOME HEALTH ASSOC. (Now Squamscott Home Health)

Squamscott Home Health is a Medicare certified, voluntary, non-profit home and community health agency resulting from a merger of the Oyster River Home Health Association and the Dover District Nursing Association. The agencies have been providing home health and clinic services in Dover since 1909 and in Durham, Lee, Madbury and Newmarket since 1967. The primary purpose for merging the two agencies into one organization is to enable the expansion and extension of traditional services and the addition of such other services as are deemed necessary and fiscally feasible.

Home_Care Program

Home care services include nursing; physical, occupational and speech therapy; and homemaker/home health aide as prescribed and approved by the patient's physician. The goal of the program is to allow individuals to receive care in the comfort and privacy of their own homes. In many instances such service is covered by Medicare, Medicaid, and other private insurances. In cases of medical necessity when there is no insurance coverage, fees are covered through private pay when able or the use of town funding, United Way support, and private donations.

Maternal_Child_Health Program

Well child clinics are held regularly providing physical examinations, immunizations, testing and dental care aimed at the promotion of good health and early detection of problems. This comprehensive program for lower income families is available to children from birth to entering first grade.

Health_Promotion_Programs

Activities aimed at the promotion of good health are provided through the conduction of screening and health education sessions for adults in a variety of settings. The availability of public financial support directly affects the agency's ability to conduct these free public health services.

Monies received from the towns are used to cover home visits to individuals without insurance and unable to pay any or all of the fee, approximately fifty percent of the cost of the Maternal and Child Health program, and the health promotion activities in each community.

Nancy R. Boyle, RN
Executive Director

NEWMARKET REGIONAL HEALTH CENTER

The Newmarket Regional Health Center will complete its fifteenth year of service in the Spring of 1986. The Newmarket Regional Health Center operates two medical offices, one in Newmarket and the other in Raymond, the Lamprey River Clinic. Both facilities provide general medical care, preventive health services, community outreach, social services and short-term counseling with referral to area mental health agencies.

In January the new facility of the Lamprey River Clinic opened on Route 27 in Raymond. The new 6,200 sq. ft. facility will allow the Health Center to provide more services in a spacious and modern facility to the residents of the Raymond area. The renovation and expansion of the Newmarket center is scheduled to begin in the Spring of 1986.

In 1985, Edward Benoit, M.D., a family practitioner, joined the staff as did Cynthia Rasmussen, M.D., an obstetrician/gynecologist. Other members of the medical staff include Sarah Oxnard, M.D., Karen Brainard, M.D., Michael Lewis, PA-C., Barbara Janeway, M.S.N., A.R.N.P. and Anne Fawcett, A.R.N.P. The medical team also includes registered nurses, medical assistants, and community health workers. The Health Center is affiliated with the Exeter Hospital where patients needing hospital care are admitted.

The Health Center offers a Prenatal Program under the direction of Dr. Rasmussen, which includes prenatal, delivery and postpartum care. In addition, the Health Center offers nutritional counseling and prenatal classes.

The community health workers coordinate a school health program and preventive screening clinics to detect potential health hazards. They hold informative workshops and act as liaisons between the medical providers and patients.

The Newmarket Regional Health Center also operates a Self-Care Program for the Elderly in conjunction with the Occupational Therapy Department of the University of New Hampshire. The purpose of this program is to enable the elderly to stay in their home setting as well as to maintain a quality of life and independent status within their community. The focus of the program is to provide self-care skills before disability occurs and to anticipate problems with functional activities. Contact Anne Fawcett A.R.N.P. or Noreen Ernest, Community Health Worker at 1-800-582-7279 for more information.

The Newmarket Regional Health Center continues to operate the Senior Citizen Transportation Program. Three of the five buses are equipped with hydraulic lifts to provide services to the handicapped. The transportation service enables senior citizens to remain

independent, self-sufficient and active by providing the means to needed services, including medical, food shopping and recreational trips. For further information call 659-2424 or toll free 1-800-382-7279.

The Newmarket Regional Health Center wishes to express its deepest appreciation for the support of the Town of Durham.

Respectfully submitted,

Ann H. Peters

DURHAM AMBULANCE CORPS

The Durham Ambulance Corps founded in 1968 in memory of Dr. George C. McGregor, provides emergency medical and ambulance services to the communities of Durham, Lee, Madbury and to the University of New Hampshire Durham campus. These emergency services are provided free of charge to residents of these communities and to their guests.

Corps members are volunteers who donate their time to provide professional emergency medical care and to standby in case of possible emergency. As well as the many hours this requires, our members also volunteer their services to tend to the administrative, clerical and maintenance duties that are necessary for day-to-day operations. This includes maintaining close communications with cooperating and concerned area agencies. Our members attend numerous district and regional meetings, communication center meetings, area trauma critiques, and other related meetings and events, in addition to our own business and training meetings.

Each Corps member devotes a considerable number of hours to training in order to maintain our high standard of patient care. DAC members are encouraged to upgrade their training; although the State of New Hampshire requires only a 40-60 hour Advanced First Aid course for licensure, all of the 26 current DAC members have at least EMT-A training (120 hours) as well. Most have advanced training such as Advanced Patient Assessment, use of MAST (Medical Anti-Shock Trousers), EOA (Esophageal Obturator Airway), etc. Six have gone on to become Paramedics, and we now have a seventh DAC member enrolled in the 2-year, 1500 hour Paramedic Program at New Hampshire Technical Institute.

We moved into new quarters in February -- both ambulances are finally under one roof! Our members spent countless hours building walls, installing a kitchen, and learning the peculiarities of drywall and paint. To pay for this, it was necessary to spend our reserve fund of \$6,800; we are most grateful to the Town of Durham for its support, and to area merchants who gave us donations and discounts and endured our questions. The new station has already proved to be an enormous asset. Not only are both ambulances stored together, vastly simplifying maintenance and logistics, but also, having an office of our own has streamlined and organized our administrative processes. Finally, we have a meeting room that provides a central place to gather for meetings, practice, and training, and where our members can study or work. This means that the chances of responding instantly to a call are much greater; people are more apt to be at the station already. Overall, the station has been of incalculable value in building esprit de corps.

The station is, however, yet unfinished. There is a lot of interior work still to be done, such as installing a suspended ceiling. Right now, we look up and see fiberglass stuffed between rafters. If you are interested in seeing the new station or helping out, we'd love to show it to you. The building is kept locked, but arrangements can be made by calling our business number, 862-3674. (Please do not use the old numbers, 862-1426 or 868-5531). You may reach an answering machine instead of a member, but the machine is checked daily by an officer of the Corps. In case of emergency you should still dial 862-1212 from Durham or Madbury (1212 on the UNH phone system) or 868-2400 from Lee.

In October, the Corps launched a capital fund drive in anticipation of replacing the 1980 Ford Van Ambulance (A1). The national life expectancy of a front line ambulance is only five years, and A1 has begun to show signs of aging. The anticipated cost of a new vehicle, depending on design and without the majority of equipment, is between \$35,000 and \$50,000. So far, the fund drive has yielded over \$7,200 toward this goal. If the amount we will have raised by the time we need a new ambulance, plus the trade-in value of the old ambulance is insufficient, we will request appropriations on the basis of percent usage by each community we serve.

The volume of calls handled by the DAC has dramatically increased over the years, from only 480 in 1975 to 678 in 1985. Other demands on our volunteers have likewise increased; the growing professionalism of pre-hospital emergency care demands far more training and recertification than was required ten years ago. We are very fortunate to have EMT classes offered on a regular basis at UNH; these courses are open to non-students. Traditionally, our membership has been bolstered by University students, whose flexible schedules help us to maintain coverage during working hours, but our mainstay has always been permanent residents. We are always looking for interested, qualified citizens to join our organization.

As the field of Emergency Medical Services grows, and the area population increases, the DAC and citizens need to begin thinking about our role and plans for the future. The level of care we offer requires considerable training. Response time is limited by volunteers having to drop what they are doing at home or work, and rush to the station. As a general policy, we can only provide emergency transport to area hospitals. The cost of a volunteer network is very low, but depends on a small number of people devoting a lot of time. We could offer dramatically improved services (for instance, Paramedic service), but we will not be permitted to unless we can guarantee definitive hours for those services. As a volunteer service, such guarantees are unrealistic. Should we create full or part-time paid positions? We all, DAC, citizens, town governments, and the EMS network, need to consider these factors and direct our future plans.

Finally, we wish to encourage all citizens to complete a CPR (Cardio-pulmonary resuscitation) course as given by the American Heart Association or the American Red Cross. Bystander CPR has

proven to be a crucial factor in cardiac arrest cases, stabilizing the victim until those with more advance training can arrive. CPR courses probably represent the best investment you can make. CPR really does save lives. Several members of the DAC are CPR instructors; call us or the American Red Cross. We can also offer the use of practice dummies to keep up your skills. Please learn CPR -- it enables you to help your friends and neighbors, and helps us to better serve the community.

DURHAM PUBLIC LIBRARY

Activities in the children's Room during 1985 included film programs for both school children and pre-schoolers, story times for toddlers and for pre-schoolers, and special events for the various groups.

One special event was in February, when the children celebrated Chinese New Year by making a dragon, participating in some of the ritual of the dragon, and parading it up the stairs from the Forum Room to the Children's Room where it was on display until the beginning of the summer program. There were two story festivals -- one in April and one in December -- which drew large audiences. A bigger and better Haunted House was the highlight of October, and again we had some enthusiastic middle school students as helpers. The summer program, which centered around a time machine located in the Children's Room, featured a variety of activities such as reading clubs and crafts.

The Librarians were active in a number of groups: the Oyster River Librarians; the New Hampshire Library Association (NHLA) and its Children's Division (CHILIS); the New England Library Association (NELA) and its Roundtable of Children's Librarians (NERCTL). They attended various meetings, programs, and workshops of these organizations. Diane Taylor taught a spring semester course in Children's literature for the University of Rhode Island. Karen Littlefield attended a story-sharing program at Lesley College in Cambridge, Massachusetts.

Both Diane and Karen have been participating in a story-sharing group held at Portsmouth Public Library each month. They also had themselves auctioned off on Challen ll's auction. and performed at a birthday party in Rochester in June. Karen and Diane each did a bedtime story time at the Portsmouth Public Library.

There were many class visits from schools outside Durham for which the Librarians gave talks and/or library tours. In the spring, they visited all of the classrooms (K-5) in the Oyster River School System to tell the children about the summer program and to tell them a story. They also arranged to borrow the school libraries' copies of the Reading Rainbow books for the Summer, a practice which turned out quite well and will be repeated next year. The Pass to the Children's Museum at Portsmouth was purchased for a year and continues to be popular.

Respectfully submitted,

Karen A. Littlefield

A CHINESE DRAGON PARADE IN FEBRUARY

THE DURHAM SWANS

At Christmastime each year, your keepers of the Durham Swans look back over the preceding months and trace another cycle in the potentially long lifespans of the beloved birds. Male ("kob") Alfred stays close to female ("pen") Agatha on open water near Gino's Restaurant close to the boundary between Newcastle and Porsmouth, where tidal movements and salinity prevent thick ice from forming. At any season, a swan likes water with food, wetting slices of bread or cast-off rolls, soaking shelled corn in little piles on the bottom of shallows. A bit of lettuce may substitute for the green seaweed known as Sea Lettuce.

Shortening nights and longer days seem to make the swans restless by mid February or early March. The white birds take to their great wings and fly ponderously the dozen miles to Durham as though to see whether the Mill Pond is still frozen over, or has a place to paddle and approach their familiar nest sites. In 1985 the first observed date for this excursion was February 24, following a few days on the estuary (February 14, like valentines off Maggie Bruce's home on Riverview Road, on February 24 off Durham's wastewater treatment plant). Nothing open in the Mill Pond, and the birds settled for a few days at the outlet of Beard's Creek before returning to their winter quarters. Durham residents had a new worry: that the swans might collide with metal stakes supporting shallow houses, of which seven had been erected close to and in line with the swan nest island.

On March 7 the Durham swans made another try, en route settling for the night off Riverview Road, where Johonet Wicks welcomed them and reported their arrival. By March 10 they were on the ice near their nest on the Mill Pond, where a little open water appeared on March 12 as though to reward them for being on time for Town Meeting. Cold weather froze the Mill Pond again but Agatha climbed up on her old nest while Alfred sat quietly on the ice close by. A telephoto portrait of Alfred graced Foster's Daily Democrat on April 3, with a credit to the birds for attracting others to the Mill Pond and a question whether Agatha already had eggs. For May 8 the Democrat bore another photo of Alfred, "pondering" at the shore of the Mill Pond.

For Mother's Day (May 12) Alfred showed a new behavior: he hissed at Margery Milne as she came close to feed him at the Pond edge. Sooner than usual he swam away. Later a phone call relayed through the Durham Police Department said that a snapping turtle had bitten Alfred on one leg, but he escaped still bleeding from the encounter. The next day he was holding the injured leg over his back, with blood smearing onto his feathers. Did he need veterinary help? Cecilia Bullock saw blood on the ground where Alfred was standing close to the pond, but Esther-Mae Forrest felt the wound could not be serious since he ate as usual the food she faithfully brought him. On May 14, Barbara Eckman of the Durham Library judged

Alfred to be crouching on shore as though to protect his injured leg, but eating and swimming with customary enthusiasm. Perhaps the crisis was over and healing in progress.

On May 17, Agatha was rising up on her nest, preening and appearing to look beneath herself as though something was happening. Alfred was nowhere in sight, and had not been for several days. About 4:30 P.M. Agatha came to the pond edge for a handout, but hurried back to her nest. By 8:30 Alfred returned, standing equally on both legs as though healed. While he tended the nest, Agatha fed on bottom vegetation between nest and shore. The following day they both left the nest and swam up into the backwaters of the Oyster River. On the 19th Agatha was on the nest again, with Alfred swimming to and fro near by.

Since neither swan was in sight on May 20, Margery Milne got the help of wildlife student Bill House to row out to the nest for an inspection. Only one "beat-up" egg shell could be found. Had other eggs been taken by a predator? Or had Agatha really had nothing to incubate as she maintained her long vigil? Only she might know the answer --- if she had not already forgotten!

Townsfolk delighted to see Agatha and Alfred at another nest site in the Mill Pond, as though to avoid the darting activity of swallows pursuing insects over the water. The Durham swans shifted to roosts atop the beaver lodge, but used this only a few days. On June 12 they flew from the Mill Pond, only to be spotted by Bob Keesey from Beard's Landing Road and reported. If they remained there a few days, their stay would last longer, for it was time for them to shed their flight feathers and be reclusive until new ones grew in. This did not stop them from swimming to shore wherever anyone had food for them. Between free meals they stayed close to Young Drive among the cattails or in adjacent open water. Father Rick fully expected the two swans to depart and return to the Mill Pond "as soon as the students arrive on Young Drive and begin playing their loud rock music." Instead, the white birds remained until October 26, when they made it all the way to their wintering site near Portsmouth -- and were fed there by solicitous admirers.

TOWN MEETING MINUTES

The meeting was called to order at 8 a.m. on Tuesday, March 12, 1985, at the Oyster River High School Cafeteria by Moderator Joseph E. Michael, Jr., who read Articles 1 through 15. It was moved by William Prince, seconded, that the polls be opened and remain open until 7 p.m. and that action on Articles 16 through 27 be postponed until 7 p.m. on Wednesday, March 13, 1985, at the Oyster River High School Gymnasium. Motion carried. The Moderator read the rest of the Warrant.

Total ballots cast: 684

Balloting was suspended at 7 p.m. and the meeting was recessed.

The meeting reconvened at 7 p.m. on Wednesday, March 13, 1985, in the Oyster River High School Gymnasium and was called to order by Moderator Joseph Michael, who read the results of the voting from the previous day. Mr. Michael thanked all those people who had helped count ballots at the 1985 Town Meeting and at all the elections held in 1984. He requested that the townspeople continue in the process of sharing together these responsibilities. Mr. Michael also thanked Linda Ekdahl, Alma Tirrell, the Town Highway Crew, Tommy Thompson, Owen Durgin, William Prince, Lisa Maurice, Joan Weeks, Frank Heald and Helen Slanetz for their continued support and help during the elections.

Norman Stiles, Chairman of the Board of Selectmen, read the following in recognition of Dr. Lawrence Slanetz having served the Town of Durham as Health Officer for 50 years:

CERTIFICATE OF APPRECIATION

LAWRENCE W. SLANETZ

On the occasion of the 50th Anniversary of your appointment as Health Officer for the Town of Durham, we recognize you, Dr. Lawrence W. Slanetz, for:

Fifty years of continuous service dedicated to the health concerns of Durham and its citizens

A positive approach to solving health problems in the community

Service beyond the community to the State of New Hampshire and the State Health Officers' Association

Dedication well beyond the call of duty.

On behalf of the citizens of Durham, we extend our heartfelt thanks.

Norman W. Stiles, Chairman
James C. Chamberlin
Anne E. Goodman
Owen B. Durgin
Patricia L. Fisk
Board of Selectmen

March 13, 1985

Shirley Thompson, Chairman of the Budget Committee, expressed appreciation to the Board of Selectmen for their help during the past year. Mrs. Thompson presented Owen Durgin a gift on behalf of the Committee.

Selectman Patricia Fisk thanked James Chamberlin for his 34 years of service to the Town as a Selectman. Mrs. Fisk said Jim had given freely of his time and energy in this position. The meeting gave Jim a standing ovation.

Norman Stiles read the following:

STATE OF THE TOWN ADDRESS

Fiscal and Capital Plant: The fiscal condition of the Town is sound, our finances are in order, our bonded indebtedness is manageable and we continue to enjoy a AA Moody rating, which is very good. We also continue to address our capital plant needs as funding and conditions permit, e.g., construction by the University of New Hampshire of the College Road sewer line for the new Science Center made feasible the reconstruction of water and sewer lines under Mill Road. With this work completed in 1984, it is planned to rebuild a portion of Mill Road from approximately Foss Farm Road to Main Street during the summer of 1985. This is an Urban Roads project, with joint funding - 75% Federal and 25% Town. Planning for water capacity and treatment needs is also being addressed.

Tax Base: On November 13, 1984, Town officials joined officials of the Data General Corporation and others in a groundbreaking ceremony for a new 240,000 square feet, \$35 Million Dollar product development and light manufacturing facility, scheduled for completion in late 1986. The proposed Data General facility will be Durham's first industrial tenant. This facility will expand and diversify Durham's residential tax base, lessening the property tax burden upon all residents.

Revaluation of Land and Buildings: It is recommended that property reassessment be seriously considered during the coming months. During 1984 the Town's valuation of property was 58% of current fair market value. The Town auditors have recommended that all properties be assessed at 100% of current fair market value. This should be addressed in the next two or three years.

Semi-Annual Tax Billing: The Town bills property owners once a year. They are billed in November, with taxes due in December for the past year. After Town Meeting and budget approval, the Selectmen borrow money through a tax anticipation note. Payment is made when the

property taxes are received in December. Obviously, the Town is operating for a major portion of the year on borrowed funds. This tends to create cash flow problems and is not a cost-effective way to operate when a viable alternative is available.

If property taxes were billed semi-annually, the size of the Tax Anticipation Note could be decreased with a corresponding decrease in interest costs, thereby lessening the tax burden on all property owners.

Based on a \$91,000,000 Grand List, each \$1,000 passed by the Town Meeting means 1.09 cents on the tax rate, and each \$91,000 raises the rate \$1.00."

Mr. Stiles expressed gratitude to the Town employees who keep things running daily and to the people who serve on Town committees.

Mr. Michael said the question had arisen as to whether or not members of the Town of Durham staff who are not residents of Durham should be allowed to speak at the Town Meeting. At some past meetings there had been some objection. Mr. Michael asked the voters to think about this so they would be ready to consider this question should the need arise.

Article 16. It was moved by Owen Durgin, seconded, that the Town raise the sum of One Hundred Fifty Thousand Dollars (\$150,000) for Mill Road reconstruction. Such sum to be raised through the issuance of bonds or notes under and in compliance with the Municipal Finance Act and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rates of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Durham.

Mr. Durgin said that for many years there has been an awareness that Mill Road needed renovating. Funds were acquired but never spent because we didn't want to have to tear up the road for water and sewer construction. This work was accomplished last summer when the new water and sewer lines were put in. This article would allow funds to rebuild Mill Road from Shop 'N Save to Foss Farm Road. There will be some widening near Shop 'N Save and about 4' near the John Hatch house. Most of the road will be kept within the same bounds that now exist. There is no subsurface drainage under the road now, and the road breaks up as the water collects underneath. This reconstruction will eliminate that problem and will greatly reduce the maintenance costs in the future.

John Bressoud asked exactly what the reconstruction would be. Mr. Durgin said there would be a new base, a storm drain, and a proper surface that should last for 10-15 years. Anne Moher asked if we had already secured the money for this project, why did we need to appropriate the funds at this time. Mrs. Moher also said that according to the newspaper it would cost less to simply resurface the existing road every three years. Mr. Durgin said we had secured access to the money when the Urban Roads and Highways program was in process, and the funds are guaranteed. He said that according to Public Works Director

George Crombie it would cost \$40,000 to \$45,000 just to resurface the road. If we put in the subsurface and the drainage, we won't have to spend that \$40,000 or so every three to five years for repair.

Jacqueline Straus asked if approving this bond issue would mean that three years down the road we will not have to do anything to this road. Mr. Durgin said the odds are that we will not have to do anything to the road. Mrs. Straus asked if the total cost of the project was \$145,000. Mr. Durgin said the total cost was \$600,000, and the Town share is \$150,000. George Haslerud said he hoped that the area where the road crosses the College Brook would be looked at carefully because the drains have been built up so that large puddles develop near the culvert where College Brook goes under the road. Mr. Durgin said this has been looked at. There will be a sidewalk on the northern side of the street, and 10-15' will be taken to build the sidewalk. A sidewalk on the southern side will be maintained as it is.

Mr. Durgin said the Article talks about a bond issue. He said no bank will bond an amount as small as \$150,000. We would borrow on a note, probably a four-year note. The impact on the tax rate for three years would be \$.60 at the beginning of the period and ending at \$.53. The four-year note would be \$.48 going down to \$.40, and the five-year note would be the same as the four-year note except there would be an extra year. Raymond Vranicar asked if this money really is available to us, considering the various Federal cuts we are hearing about. Mr. Durgin said the money is already committed to us.

After some further discussion, the polls opened at 7:45 p.m. and remained open until 9:47 p.m. There were 260 ballots cast, and the results were: Yes 210, No 50. The Moderator declared the Article adopted by more than the necessary 2/3 majority.

While people were getting the ballots to vote on Article 16, Margaret Faulk, a member of the Budget Committee, spoke to the Meeting on behalf of the members of the Budget Committee and other Town officials and thanked Jim Chamberlin for giving so much of himself to the Town over the years.

Article 17. It was moved by Patricia Fisk, seconded, that the Town raise the sum of Seven Thousand Eight Hundred Dollars (\$7,800) for the purpose of funding the entire costs of maintaining the University of New Hampshire swimming pool for the final two weeks of August, 1985. Such appropriation and expenditures will allow the pool to remain open for this two-week period.

Persis Plaisted asked what part of this money covers liability. Mrs. Fisk said she had talked with Michael O'Neil, and he had said the pool would continue to be a University function and the liability would be theirs. This requested money underwrites the cost of the pool being open for those two weeks.

It was moved by Edward Durnall, seconded, to amend the Article by adding the following: Subject to the following provisions for the two-week period in question: (1) All Durham residents will be admitted to the pool without charge, and (2) Non-Durham residents will be

charged a daily fee of \$5.00 - said fee to be paid to the Town of Durham. Mr. Durnall said if we are going to be asked to keep the pool open for two weeks and make it a municipal pool, then it should be free to Durham residents and we should not subsidize the students.

Steven Irving said he didn't think the University would collect a fee for the Town, and he wondered if we charged a fee if we could be held liable for any accidents at the pool. Mrs. Fisk said Mr. O'Neil had said it could be a problem determining a resident's status for use of the pool, but if we did charge a fee for nonresidents, the amount of money collected in these fees would be used to offset the costs billed to the Town by the University for those two weeks. Mrs. Fisk urged defeat of the amendment because she thought the matter could be worked out without the amendment. She said the University will not determine who can use the pool, but some system could be set up to issue passes for Town residents. Mr. Durnall told the meeting it would have to pass his amendment if it wanted to be certain that Durham residents could swim without charge in the two-week period specified. The vote was taken on Mr. Durnall's amendment, and it was defeated.

After further discussion, it was moved by Avery Rich, seconded, that the Article be amended to state that all residents of Durham be allowed to swim in the University pool free of charge and that nonresidents be charged the usual fee for the last two weeks of August. The vote was then taken on Mr. Rich's amendment, and it was adopted 119 to 107. The vote was taken on the Article as amended, and it lost.

Article 18. It was moved by Iris Estabrook, seconded, that the Town reinstate day care funding in the amount of \$4,500 (the amount from the 1983 budget) to assist those day care centers in Town that are not receiving Strafford County Day Care funds. Such sum should be presented to the Friends of Durham Day Care to distribute to those centers, as had been the past practice. Mrs. Estabrook spoke to the Article and urged the Meeting to approve it.

Budget Committee Member Margaret Faulk said the Committee decided not to fund this program at this time. This request is specifically for the Durham Infant Center, which doesn't qualify for County funds because the income of the people using the Center is not low enough. The Budget Committee suggests that the Friends of Durham Day Care should consider assessing the other towns that have children using the Center as some of the children come from as far away as South Berwick, Maine.

Donald Bassett, President of the Friends of Durham Day Care, urged support of the Article as the Infant Center is having a hard time meeting their obligations, which includes \$600/month rent to the Town for the Grange Hall. Shirley Thompson said that rent includes utilities, and the Town is maintaining the building and making the necessary repairs.

Budget Committee Member David Delage said there is a waiting list for the Durham Infant Center. If they have 100% occupancy the total income for the year would be \$85,000. The projected expenses are \$78,000, which would leave a \$7,000 surplus. Mr. Delage said the Center budget

does not show the income it receives from Friends of Day Care. The only income shown is from the people putting their children in the Center.

Mrs. Estabrook said you can't keep the Center at 100% occupancy because there are always children coming and going. The salaries they pay the staff are very low for qualified day care personnel. The Center charges \$8.00 for half a day and \$16.00 for a full day, and the Board of Directors doesn't feel they can go any higher with the fees.

After some further discussion, the vote was taken, and the article was lost.

Article 19. It was moved by Owen Durgin, seconded, that the Town authorize the Selectmen to receive and deposit in the Federal Revenue Sharing Fund, Federal Revenues allocated to the Town by the Federal Government under provisions of the 1972 Acts of Congress, as amended, establishing the State and Local Assistance Act, and to authorize withdrawal from this fund for budgeted appropriations the amount of \$125,869.44 for the purposes as listed in the Warrant in the Town Report.

Mr. Durgin said the expenditures listed in this Article are already included in the Budget, and approval of this Article would allow the Selectmen to offset the expense with monies from the Federal Revenue Sharing Fund. After some discussion, the vote was taken, and it was adopted.

It was moved by Owen Durgin, seconded, that we postpone action on Article 20 until we had learned the results of the voting on Article 16. Motion carried.

Article 21. It was moved by James Chamberlin, seconded, that the Town vote to appropriate the sum of \$493,209.00 to defray its share of the cost of Strafford County Government. Mr. Chamberlin said this amount is up from the \$460,000 we paid last year because of the new county jail, the court system loss of revenues due to new State legislation, and the additional wages for the nurses and staff at the County nursing home. The Article was adopted.

Article 22. It was moved by William Skinner, seconded, that the Town form a committee of five appointed by the selectmen: (1) To study the desirability of changing the form of government in Durham; (2) To make a report of its recommendations for publication in the 1985 Annual Report; and (3) To propose any Warrant Article appropriate for consideration at the 1986 Town Meeting. Mr. Skinner said the Town government was studied in 1968, and the recommendation was to increase the size of the Board of Selectmen from three to five members. Since that time many changes have taken place in the community, and it is time to look at this matter again. Motion carried.

Article 23. It was moved by Thomas Richardson, seconded, that the Town direct the Board of Selectmen to have fire protection and rescue service in our community studied by an appropriate, unbiased, professional consulting organization. The study results should contain

recommendations relative to the proper and efficient organization and management of fire protection and rescue service in our community. The results of this study shall be available to the public by September 1, 1985. Mr. Richardson, President of the Durham Firefighters, said the Durham-UNH Fire Department has problems, there have been several different chiefs in the last few years. He said the firefighters have tried to change things within the system, but they have been unable to resolve many of the problems, so as a last resort they are coming to the Town Meeting.

Margaret Faulk said the Budget Committee could not support this Article because it doesn't have a dollar amount attached to it. After some discussion, it was moved by Donald Sumner, seconded, to add the words "and raise the sum of \$10,000 for this purpose" after the first sentence of the Article. Mr. Sumner said the turnover of men in the Fire Department in the last few years has caused the remaining men to work 50-60 hours a week, and the overtime pay cost the Department about \$40,000. So if we could work these problems out, it would be a benefit to the Town. The vote was taken on the amendment, and it was adopted.

Former Fire Commissioner Richard Proulx said the Fire Chief answers only to the Board of Fire Commissioners. He said if the Board of Selectmen, the Budget Committee, and others would go to the Commissioners instead of the Chief when they had questions or problems, there would not be so much pressure on the Fire Chief. Mr. Proulx went on to say that roughly ten years ago the firemen voted to become U.N.H. employees rather than Town employees. The U.N.H. raises have been small over the past few years, while the Town raises have been substantial, so now the firemen feel they could do better as Town employees. Mr. Proulx said he supports the Fire Department, and he has supported and voted for every raise the firemen have gotten. He said the Fire Department is a good bargain for the Town of Durham.

After further discussion, the vote was taken on the Article as amended, and it was adopted.

Article 20. It was moved by Owen Durgin, seconded, that the Town adopt the budget for the period January 1, 1985, to December 31, 1985, in the amount of Three Million, Six Hundred Nineteen Thousand, Six Hundred and Thirty-Seven Dollars (\$3,619,637.00), and to raise by taxes the sum of One Million, Five Hundred One Thousand, Nine Hundred and Eighty-Seven Dollars (\$1,501,987.00).

Shirley Thompson, Chairman of the Budget Committee, said the Committee has been working very hard meeting weekly with Department Heads and various committee members in an attempt to put together a budget which is equitable to all the citizens of the Town of Durham. Before the Committee began its work on this year's budget it was faced with two expenditures which were approved at last year's Meeting that are in the budget for the first time: \$80,040 for the principal and interest on the fire station notes and \$13,800 principal and interest for the new fire truck.

Mrs. Thompson said the increase in budgeted monies to be raised by taxes is \$254,608. This increase comes from four areas: the fire station (31.4%), the fire truck (5.4%), tax anticipation notes (21.2%), and general operating costs (41.9%). The largest increases were due to the fire station and truck (11.13% increase from 1984) and the tax anticipation note increase due to the increase in the school budget. Mrs. Thompson said that despite all the efforts of the Budget Committee, we are faced with a 20.4% increase in the monies to be raised by taxes. Nearly 40% of this increase comes from action taken at last year's Town Meeting, and over 20% is strongly influenced by the increased school budget. The overall Town operating budget is up by only 3.56%.

It was moved by Anne Goodman, seconded, to increase the budget in the amount of \$26,367.30 to provide for a Code Enforcement Officer-Building Inspector. Mrs. Goodman spoke to the article saying that one half of the money requested would be offset by \$13,238.15 in revenue from various contractors, and another \$7,000 would be revenue from such things as amusement device fees, etc., leaving only \$6,238.15 to be raised by taxes.

Nelson Kennedy asked if those revenue items weren't already shown as revenue items. Budget Committee Member Frederick Reischer said those items were already included in the revenue section of the budget, so if we vote to spend this \$26,367.30, it will all have to be raised by taxes. Dr. Lawrence Slanetz said as Health Officer he supported the motion made by Mrs. Goodman because it would provide for a fulltime Code Enforcement Officer-Building Inspector. Donald Sumner said the Budget Committee did not get a report from the Building Code Enforcement Committee, nor did they get a request for funds until the night of the public hearing on the budget. So the Budget Committee did not have the proper chance to discuss this request.

Bruce Bragdon, Chairman of the Planning Board, said student housing and accessory housing must be looked at in this Town. Dr. Bragdon said he has had many calls lately dealing with the increase in student housing and how it is affecting the neighborhoods in Durham. He urged support for the motion.

Mrs. Goodman said the request for funds for this position was in the original budget requests as presented by Public Works Director George Crombie, or it would not show in the Selectmen's budget. In addition, Mrs. Goodman said in her original statements she had said the budget would have to be increased by the full \$26,367.30. Captain William Cote, Fire Prevention Officer for the Durham-UNH Fire Department, spoke in favor of the motion on the floor. The vote was then taken on the amendment, and it was adopted.

It was moved by Alden Winn, seconded, that this amendment be reconsidered. Mr. Winn explained that he did this in the hopes that the Meeting would vote not to reconsider this amendment. This would prevent the amendment from being reconsidered when we reconvene. The motion to reconsider was defeated.

As it was 11:15 p.m., and the Moderator had said the Meeting would go no longer than 11 p.m., Mr. Michael announced that the Meeting was recessed and would reconvene on Saturday, March 16, 1985, at 9 a.m. in the Oyster River High School Gymnasium.

The meeting reconvened at 9 a.m. on March 16, 1985, in the Oyster River High School Gymnasium. John Harrison asked what per cent of increase the Town employees were getting this year. He suggested that this information should be given in the State of the Town message. Owen Durgin said that in general the Town Office personnel got 5%, the Police Department also got 5%, and the Public Works salaries were still under negotiation. Donald Sumner asked how we would pay the adjusted salaries for the Public Works Department when they are settled. Mr. Durgin said we would have to have a special town meeting as there is no increase for the Public Works employees in the current budget.

John DuBay asked why the Juvenile Care item in the budget was increased from \$1,500 to \$12,000 for 1985. Steven Irving explained that this item covered the cost of treatment of juveniles in such places as Odyssey House. We don't know how much we should budget because we don't know how many juveniles will have to have this kind of care. We have no control over this figure, and this estimate was made by the Probation Officer based on his experience.

It was moved by Shirley Thompson, seconded, that \$6,000 be deducted from the Parks and Recreation Budget. Mrs. Thompson said the Oyster River Youth Association had offered to pay \$6,000 toward the irrigation of the ball fields, which had been requested in the School District Budget. Since the article for that expenditure had been voted down, then the Oyster River Youth Association had that money available, and the amount of the Town contribution could be reduced by that amount.

Some discussion followed as to where the \$6,000 had come from, and if it came from contributions from the three member towns, then the Town of Durham couldn't claim the full \$6,000 as money to reduce the Town budget. It was moved by Anne Moher, seconded, to amend the motion of Mrs. Thompson by providing that if the \$6,000 of the Youth Association funds is still available, the Oyster River Youth Association accept \$6,000 less than the amount provided in the budget. Following the discussion, the amendment was withdraw with agreement from the second. The vote was then taken on Mrs. Thompson's amendment as originally proposed, and it was lost.

It was moved by Donald Sumner, seconded, that \$12,000 be deducted from the Budget for reduction in the Overtime and Winter Abrasive Accounts. Mr. Sumner said he made this motion because of the light winter we have had. Public Works Director George Crombie was given permission by the Meeting to speak. Mr. Crombie said he had based his requests on a five-year average of money spent. He said some years you overspend, and some years you underspend. He had made the best calculations he could based on this five-year average. Mr. Crombie also said the storms we have had in this light winter were the kind that required overtime help because they occurred at night, and since they were rain and ice storms, it required the use of a lot of sand and/or salt.

Malcolm MacGregor asked Mr. Crombie if he was underspent for the first two months of the year. Mr. Crombie said he was not. Mr. Sumner asked that his motion be withdrawn, and the second agreed. Mr. Sumner said he respected Mr. Crombie, and if his figures showed they were on target with the budget, then he would proceed no further.

The vote was taken on the Budget as amended in the amount of Three Million, Six Hundred Fifty-Six Thousand, Four Dollars and Thirty Cents (\$3,656,004.30) with One Million, Five Hundred Thirty-Eight Thousand, Three Hundred Fifty-Four Dollars and Thirty Cents (\$1,538,354.30) to be raised by taxes, and it was adopted.

Article 24. It was moved by Norman Stiles, seconded, that the Town authorize the Selectmen to apply for, negotiate, and do all other things necessary to obtain such Federal, State or other assistance as may be available for public works or other municipal functions, and to expend such funds for these projects. The vote was taken, and the results were: Yes 91, No 5. The motion received the necessary 2/3 majority, and the Moderator declared it adopted.

Article 25. It was moved by Anne Goodman, seconded, that the Town authorize the Selectmen, under authority of R.S.A. 80:42, to sell and transfer the tax lien and/or the title to real estate acquired by the Town at a tax collector's sale for non-payment of taxes, in default of redemption for such tax sale within the time limited by law, by deed or otherwise upon such terms as the Selectmen shall deem to be in the best interests of the Town. Motion carried.

Article 26. It was moved by Norman Stiles, seconded, that the Town authorize the Selectmen to borrow necessary money in anticipation of taxes by issuing short-term notes. Motion carried.

Article 27. It was moved by Robert Keefe, seconded, that the following resolution be adopted by the Town Meeting:

BE IT RESOLVED that the Legislative Representatives of the Town of Durham be requested, through action in the State Legislature, to require a public hearing in the area of Durham prior to any further legislative action relative to the construction of the proposed I-393 highway or to HB 391.

BE IT FURTHER RESOLVED that a copy of this Resolution be delivered forthwith to Durham's Legislative Representatives and to the Chairman of the Strafford County Delegation to the General Court for their information and that the cooperation of said Delegation be requested.

Mr. Keefe spoke to the motion saying that the HB 391, which would appropriate \$15,000,000 for land acquisition and studies for the new I-393, was blatantly premature as there had been no public discussion on this matter and no environmental considerations. The new bridge would go across the widest part of the Bellamy River, when further up the river a smaller bridge could be built. Mr. Keefe said there is

great concern among the people in this area for the damage that would be done to the environment if this road is built. He also said one group in the Legislature is working to save the environment in this area while another group wants to build this highway, which would ruin the environment. Mr. Keefe said this highway plan is economically and ecologically a disaster.

Anne Moher spoke and urged support for this motion because the citizens of Durham and the other towns in the area have not been heard. When people went to Concord to the Legislative hearing, they were not allowed to speak.

Following some discussion, it was moved by Gerald Smith, seconded, to amend the motion by deleting the rest of the first paragraph after the words "relative to the construction" and replacing it with "and any appropriation for land acquisition for I-393 (i.e. H.B. #391) until all proposed routes have had the same engineering, cost, and environmental impact studies that the preferred route has in the Wilbur Smith Associates report." The vote was taken, and the amendment was adopted. The vote was then taken on the motion as amended, and the resolution was adopted as amended.

It was moved by Robert Keefe, seconded, that the Representatives of the Town of Durham be requested to keep Durham's Selectmen fully informed as to all aspects of proposed I-393 as it affects Durham, including all legislative committee meetings and legislative actions pertaining to that proposal and to HB 391, and that said Board of Selectmen be required to disseminate such information to the citizens of Durham as it becomes available. The motion was adopted by the Meeting.

The Moderator recognized Herbert Jackson, who rose to compliment the Mill Pond Committee for an excellent report as presented in the Town Report, page 97. Having been involved there himself, Mr. Jackson said he knows something of the problems. Mr. Jackson asked if the Committee had plans for further action. Patricia Fisk, Selectmen's representative to the Committee, said the report will be brought in to the Board of Selectmen in the near future.

It was moved by Donald Sumner, seconded, that the 1985 Town Meeting go on record as expressing its sincere appreciation to Selectman Norman Stiles, Administrator Deane Sweet, and Public Works Director George Crombie for their successful efforts in obtaining the UDAG grant for water and sewer extensions that made possible the Data General decision to locate its new facility in Durham. The motion was adopted.

There being no further business to come before the Meeting, it was moved and seconded that the Meeting adjourn. Motion carried. The Meeting adjourned at 10:40 a.m.

Linda L. Ekdahl

Town Clerk

TOWN OF DURHAM, N.H. INFORMATION SHEET

The following information is made available to aid all residents of the Town of Durham:

EMERGENCY TELEPHONE NUMBERS

POLICE DEPARTMENT: 868-2324
FIRE AND AMBULANCE CALLS: (Dispatch Center) 862-1212

Garage Sale Permits: Obtained at Durham Town Office.
Application must be made two weeks prior to sale,
and only two sales per year are permitted.

NOTE: The Town Office would appreciate being notified of any change of address of Durham residents, to facilitate Town business.

COVER PHOTO:

The Oyster River bridge needs to be replaced, according to state highway engineers. "The bridge has always been considered the center of the village," someone wrote in 1827 in a letter preserved in the Durham Historic Museum. In 1799 George Frost erected this building which eventually housed warehouse, store, and post office. The Boston stage crossed the bridge on its way to Dover and the driver was able to deliver the mail at the post office without dismounting. The upper floor was built later out over the water with a trap door in the floor to allow goods to be pulled directly into the building from gundalows below. In 1893 the warehouse was torn down.

BACK COVER PHOTO:

A 1984 view of the Oyster River bridge taken from about the same spot as the cover photo. In replacing the ancient bridge, highway engineers have been asked by the Durham Historic District Commission to retain as much as possible the familiar facade and the opening to the Mill Pond dam.

and the Durham Children's Library.

A special note of thanks to L. Franklin Heald, who reproduced the front cover of the report and photographed the up-to-date scene of the Oyster River bridge shown on the back cover. We also thank Mr. Heald for his many other photographs used in the report.

ACKNOWLEDGMENTS

The Selectmen extend their thanks to Alma Tirrell and all members of the Town Office staff who cooperated so willingly in preparing this report. A special thanks to Patricia Fisk, Mary Campbell and Shirley Thompson for their many hours of volunteer work in finalizing this report.
