SUPERINTENDENT'S REPORT

To the School Board and Citizens of Westmoreland:

I hereby submit my second annual report as Superintendent of Schools.

TEACHERS

With but one exception the teaching force is the same as that of last year. Miss Lucy J. Morgan, of Bennington, Vermont, succeeds Miss Marjorie Dunton as teacher of the Westmoreland Village school in the advanced room.

Below is a tabulation of the organization and enrollment of the schools:

School	Teacher	Membership
Westmoreland Primary	Miss Neta Sweet	21
Westmoreland Advanced	Miss Lucy J. Morgan	19
East Westmoreland Primary	Keene Normal Cadet	16
East Westmoreland Advanced	Mrs. Florence Thompson	25
Westmoreland Depot	Mrs. Florence Stone	23
Westmoreland Corner	Miss Ethel Jordan	18

122

The number of children at the East Westmoreland schools is even larger than last year, and the two schools are still maintained there, the first three grades taught by a cadet as is the past two years.

BUILDINGS AND EQUIPMENT

During the summer the interiors of the Depot and Corner schools were refinished. The light tint of the finish greatly improves the appearance of the room, and betters the lighting. The grounds are enclosed by a substantial fence. The Parent-

Teacher Association has dug a well and installed a pump in the school. The room has also been equipped with new shades.

Materials for a new fence at the Village school have been purchased, and the fence is, at the time of this report, partly installed. A new flag-staff has been erected at this school. The Westmoreland Village Parent-Teacher Association has sponsored the digging of a well on the school grounds, and has installed an electric pumping apparatus which furnishes running water for the school.

As a whole I think that the several school buildings are in good condition. The Depot school needs painting. The door at this school does not fit tightly, and it is badly battered. I believe it would be an economy to provide a new door and lock. The installation of chemical toilets at the Depot and East Westmoreland schools would greatly improve sanitary conditions. The Village school house also is in need of painting.

Electric lights would work a great improvement in all the schools. It would seem practicable to adopt a program whereby one building a year might be thus equipped. The expense of wiring would not be great, and the resulting relief of eye strain of the pupils would well repay the district for the expense involved.

HEALTH

When we consider that our schools are institutions where the children of the town are required to be in attendance for a considerable portion of their time, I believe that every possible effort should be made to provide for them every aid to the attaining and preservation of good health. The importance of the counsel and help that can be given to pupils, teachers, and parents by the school nurse cannot be overestimated. The report of the school nurse for the past year appears in another part of this report. This statement of the work done will speak for itself. Unfortunately funds are not available this year to provide the Westmoreland schools with as much attention as they had last year. The amount approved

for state aid is sufficient only for four weeks of service from the nurse, which means a necessary curtailment of this most valuable phase of the school work.

As in past years hot lunches are being served in the schools, during the winter months, to those children eating lunch in the school building.

In conclusion, I wish to express my appreciation of the co-operation which I have received from the citizens, school board, and teachers of Westmoreland.

Respectfully submitted,
L. O. THOMPSON,
Superintendent of Schools.
